SPEND AN ECONOMICAL VACATION IN MICHIGAN

There is no disposition in Michigan to "soak the tourist". Here you will find vacation costs moderate and accommodations to fit every pocketbook. Inexpensive tourist homes . . . moderately priced hotels . . . free camps . . . many points of historic interest and a variety of sports that cost but little to enjoy . . . all contribute to the pleasure and economy of a vacation in Michigan.

Michigan's tourist and resort business brings large sums of money to the state each year. It provides employment for thousands, and greater prosperity for all of us. We can increase that business further by telling out-of-state friends about Michigan's vacation advantages and by spending our own vacations here.

And, no matter which part of Michigan you visit this summer, banish worry by telephoning home and office frequently. Call ahead for reservations, or to tell friends you are coming. Long Distance calls will add but little to the cost and much to the enjoyment of your vacation.

THREE FINED TAKING UNDERSIZE WHITEFISH

Capt. Allers Apprehends Cheboygan, Presque Isle Netters

Three commercial fishermen of Cheboygan and Presque Isle counties paid fines of $25 and costs of $6 each after pleading guilty in justice court on charges of taking undersize whitefish from Great Lakes waters.

The men were: Vernor Seaman, 52; Leonard Shawl, 46, both of Cheboygan, and Maurice Bennett, 53, of Ocqueoc.

Capt. Charles J. Allers, the department of conservation patrol boat No. 1, reports finding 685 pounds of undersize whitefish while making an inspection of the A. D. Shawls fish house. After taking possession of the fish he turned over 600 pounds to the state hospital, Traverse City, and 85 pounds to Cheboygan county infirmary.

COMMENCE PAYMENT OLD AGE PENSIONS

Five Southern Michigan Counties to Receive Benefits

Payment of old age pensions under the act passed by the 1932 legislature will start this week with 150 applications approved, it was announced by Ed. Williams, chief of the state old age pension bureau.

The 150 names of the approved applicants will be given to the state auditor general's department the first of this week and vouchers will be mailed as of July 1.

The first list of approved applications came from Kalamazoo, Kent, Oakland, Oscoda and Saginaw counties. Another list of 200 applicants will be approved during the week, the director stated, and then the approvals will be regular each week until the allocation of the collected pension money is made.

At present the bureau has made a rule not to pay more than $10 a month maximum until larger head tax collections justify an increase. The money for each county of the state will be distributed back in old age pensions to the exact amount paid in by each county.

There is now in the old age pension fund $350,000 from head tax collections and the entire amount will be used for paying pensions, the bureau head stated.

REPUBLICANS TO RALLY AT BOYNE ON JULY 27

Ex-Gov. Fred W. Green on Program With Other Prominent Speakers

Charlevoix county Republicans will rally at Boyne City on Friday evening, July 27th, according to an announcement made today by the county Republican committee.

Speakers on the program will include ex-Governor Fred W. Green of Ionia, and Francis G. Blair, superintendent of public instruction of the state of Illinois.

The rally, sponsored by the Fitzgerald-for-Governor Club and the Republican county committee will be held at the Wolverine hotel. A banquet dinner will be served at 7 o'clock.

Further details of the program will be announced when available.

JAMES BRACKEN OPENS PLACE TO SERVE BEER

Installs New Equipment in Present Store for Purpose

Granted a license to retail beer for consumption on the premises, James Bracken has re-modelled the interior of his store for this purpose.

The room at the rear of the building has been altered for serving. An archway divides the front and rear portions and tables have been installed. The improvements, when completed, will add greatly to the attractiveness of the place.

Bottled and draft beer is being handled.

BRIDGE EXPERT HERE FOR SUMMER SEASON

Harold Sharpsteen Conducts Classes at The Inn and Belvedere

Harold Sharpsteen, nationally recognized contract bridge authority and first vice-president of the Michigan Bridge association, is a guest at The Inn again this season. Accompanied by Mrs. Sharpsteen, who assists him with his bridge classes which he conducts for newspapers all over the country, he will make his headquarters in Charlevoix until about September 1.

Each Friday and Saturday afternoon Mr. Sharpsteen conducts bridge classes at The Inn. Friday mornings he teaches at the Belvedere and conducts a duplicate tournament there Friday evenings.

While the classes are primarily for guests of these two hotels, readers of this paper are also invited to The Inn school at the same rate given the guests, namely fifty cents. The regular fee is $1.

If you want to improve your game of contract and you are a regular reader of this paper you are invited to take advantage of this unusual opportunity to study the technique of bridge under a nationally recognized teacher.

The Sharpsteens are conducting bridge schools this summer season for The Ludington Daily News, The Manistee News-Advocate, The Traverse City Record-Eagle and The Petoskey Evening News. They spend their winters teaching bridge in Miami, Palm Beach, St. Petersburg and Asheville, N. C.

Mr. Sharpsteen is the author of three books on contract bridge.

CANDIDATES MUST FILE BY JULY 24

All candidates must file nominating petitions by July 24 if they wish to have their names on the primary ballots. All candidates for offices which represent more than one county file with the secretary of state. Candidate for offices representing only one county or portion of a county file with the county clerk.

Petitions for the candidate for United States senator and one candidate for governor already have been filed with the secretary of state as well as 13 candidates for congress, seven for state senator and nine for state representative.

SEEKS TO EXEMPT FARM PURCHASES

Secretary of State Frank D. Fitzgerald, as a member of the state board of tax administration, filed a separate answer in Ingham circuit court in the suit to secure sales tax exemptions for farm purchases which are used in the production of saleable farm products.

The majority of the state board of tax administration has held that the exemptions could not be granted in full. The secretary of state, however, took the position that commodities purchased by farmers for use in raising taxable products should be exempt entirely from the three per cent sales tax levy.

SUNDAY DINNER SUGGESTIONS

By Ann Page

Local produce is beginning to form a large part of the fruits and vegetables in market. Native carrots and beets, cabbage, kohlrabi, squash, corn and tomatoes are either already available or promised for the near future at low prices. Berries, cherries, red currants, peaches and new green apples make the fruit counters colorful. Bartlett pears are inexpensive. Watermelons and honeydews are of excellent quality but more expensive than most other fruits.

Meats and eggs are higher, but a large selection of low-priced fish is available.

Here are three Sunday dinner menus:

Low Cost Dinner
Braised Chuck Roast of Beef
Potatoes, Carrots, Onions
Shredded Cabbage Salad
Stewed Plums Cup Cakes
Tea or Coffee Milk

Medium Cost Dinner
Roast Veal Mashed Potatoes
Diced Kohlrabi
Bread and Butter
Peaches and Cream
Coffee (hot or iced) Milk

Very Special Dinner
Fruit Cup
Broiled Chicken Potatoes in Cream
Lima Beans
Sliced Tomatoes Salad Dressing
Rolls and Butter
Raspberry Shortcake
Coffee (hot or iced) Milk

To a really big man authority means only responsibility.

FEDERAL LOANS FOR UNPAID TEACHERS' SALARIES AVAILABLE

According to a recent act of congress, the Federal Reconstruction Finance corporation has been authorized to make loans to school districts to meet unpaid teachers' salaries due July 1, 1934. These loans may be made at any time prior to January 1, 1935.

Preliminary application blanks may be secured through member banks of the Federal Reserve System. The Act provides that there shall not be to exceed $75,000,000 outstanding for the purpose of paying unpaid salaries at any one time. Loans to school districts will not exceed a five-year period and must be based on adequate security. Local banks become party to negotiation by being held responsible for twenty per cent of any possible losses which might occur.

Began As Dancers

George Burns and Gracie Allen, Paramount comedians, now featured in the adventure-filmusical, "We're Not Dressing," coming on Friday and Saturday to the Palace theatre, began their theatrical careers as dancers, and made their radio debuts in this country as guest stars on an Eddie Cantor program.

Joe E. Brown Will Come to Town With "The Circus Clown"

With all its color, its action, its blare and heraldry, the circus—both as seen in the ring and as lived behind the tent drops—will be shown on the screen of the Palace theatre, where Joe E. Brown will appear in the First National picture "The Circus Clown," on Sunday and Monday.

Elissa Landi Has New Leading Role

Elissa Landi portrays the leading feminine role in the Charles R. Rogers-Paramount picture, "The Great Flirtation," which comes on Tuesday and Wednesday to the Palace theatre. It is the romance of a beautiful actress who traded her husband for a career, and her career for love. This is Miss Landi's first appearance in a Paramount picture since Cecil B. DeMille's "Sign of the Cross."

Some of the most exciting scenes in "The Black Cat," coming to the Palace theatre next Thursday was taken in a blinding rainstorm. Rain is not a "usual" phenomenon in California, but this particular night it was raining "cats and dogs" well, anyway, "cats." No less than a half dozen black cats were used in this production, which brings together Karloff and Lugosi for the first time on the screen, or as they are known to millions of fans, "Frankenstein" and "Dracula." Edgar Ulmer directed.

PARTY LOYALTY

The announcement by Wilber M. Brucker of his wholehearted support of Frank D. Fitzgerald for the governorship and his call for unity within the Republican ranks was an act of sports-manship truly worthy of the man.

Mr. Brucker would not be human if he did not rankle at his defeat in the democratic landslide of two years ago and urgently desire the opportunity to complete his interrupted service as chief executive.

To step aside graciously in the interests of party harmony and to pay so generous a tribute to the fine character and qualities of Mr. Fitzgerald, reflects most favorably upon both men, for no one who knows Brucker can doubt that his action was sincere and final.

Mr. Fitzgerald now carries the public endorsement of three of Michigan's four living ex-governors, both Fred W. Green and Chase, S. Osborn had previously endorsed him and he is known to have many warm friends in the ranks of Alex Groesbeck's admirers.

It appears entirely probable that the Republican party will offer a refreshing example of dignified and harmonious activity in contrast to the public squabbling of the democrats. There can be no doubt but that a large share of the credit for this contrast, so favorable to Republican success, belongs to Wilbur Brucker and his unselfish stand in favor of republican unity.

THE ROAD AHEAD

From high schools and colleges this month an army of young graduates are marching out to take up the serious problem of making a living. In many ways the future is not as bright as that which greeted their predecessors of a few years ago when times were good. Conditions in the industrial and professional fields are not favorable. Many with years of experience are having a hard time to get along. The competition which these newest recruits to the ranks of the nation's workers will encounter may seem unusual and exceptionally discouraging, but it is well to bear in mind that there always has been competition, and the necessity for initiative and enterprise. It will be well for the young folks to remember that father, mother, grandfather and grandmother also faced equally discouraging conditions, but they refused to be delayed for long, they had it in them to make good. So while the task of getting started may seem a bit more difficult than in former years, the more strenuousness of the contest should be an incentive that will bring out individual capacity. It is wise to give weight to the changing of times. The world was not made in a day. Those of this year's crop of graduates who have the proper spirit and right stuff in them will get ahead in the coming generation just as they have always done in the past.

ONE STRAW A DAY

Remember that yarn about the man who set out to cut down the cost of feeding his horse? He reduced the ration each day until finally he got down to one straw a day—then the horse up and died. People are coming to learn the full significance of the fifteen mill limitation amendment. In many places the schools are being terribly curtailed. In Clinton county every high school is having difficulty in getting sufficient money to operate even on the curtailed expense that has been adopted. Another thing is coming along which people need to think about before they act. Effort is being made to cut the gas tax. One cent a gallon reduction would take millions away from the maintenance of roads. It may be perfectly proper, we believe it is, to build very few new concrete trunkline highways. We believe Michigan has about enough. But it would be the height of folly to allow those already built to get out of repair—and this goes for the gravel roads. It has cost millions to build those roads. It will cost millions to travel them if they go to pieces. Robbing the maintenance fund is not smart. It will cost more in the end. It is like getting the horse down to one straw a day. —Clinton County Republican-News.

DEATH-DEALING DUST

"Silicosis," a disease caused by the breathing in of quantities of silica dust over a period of years and many times responsible for run-down health which opens the door to tuberculosis, is a sickness that Michigan, and especially the upper peninsula, should know more about.

The number of deaths from silicosis is very high among those who must work in air containing large amounts of silica dust and this statement applies particularly to miners, drillers, quarry-men and some tool-making workers. The onset of the disease, known far centuries, is gradual or rapid according to the amount of silica dust to which the victim is exposed but its symptoms are almost always the same. They include shortness of breath, decreased expansion of the chest, marked absence of fever, and a lessened capacity for work.

Like tuberculosis, silicosis can be diagnosed by the X-ray, and also like its running mate, says the Michigan Tuberculosis association, it can be prevented.

Wet-grinding and wet-drilling — even wetting the working surface of the rock before drilling—have all proven effective in reducing the number of deaths from silicosis. In New York, the dry processes are continued where wet work is impossible or more expensive, but a powerful air exhaust keeps the silica dust away from the lungs of the worker.

So the job is not impossible, and to prevent deaths, to help halt the advance of tuberculosis, science and industry must work together to banish one of the heavy contributing causes thereto.

BETTER TIMBER

Many members of the Michigan legislature, who were the beneficiaries of a political landslide two years ago, are already awakening to the fact that election hurdles are not going to be quite so easy to negotiate next November. An indication that the average voter is going to scan the list of legislative candidates more closely this fall is seen in the 26th senatorial district, comprising the counties of Manistee, Mason, Lake, Oceana and Newaygo, where Representative Don Vander Werp, of Fremont, is being drafted to oppose Senator Cutler, of Luther, the present democratic incumbent. Although serving his first term Representative Vander Werp established a fine record as a careful, hard working member of the lower house, with keen insight into Michigan legislative needs. So unanimous is the demand throughout the district that he become a candidate for the senate this year it is not believed he will be opposed for nomination at the September primaries. Senator Cutler, who will no doubt be renamed, created considerable furore during the regular session by sponsoring a measure which many claimed would plunge the department of conservation into politics, retarding the splendid advances the department has been making in recent years. Mr. Vander Werp is editor of the Fremont Times-Indicator and president of the Michigan league of republican weekly newspapers.

SHDULD BE THANKFUL

Mother nature is doing much for Michigan these days. Out of the wide open spaces the world lies green under the promise of fruitful harvests when the storehouses of men will be replenished in brown October time. Just when it seemed we were about to join with the drought stricken areas of other parts of the globe the heavens were opened and there was rain upon the parched earth. We should rejoice that we are permitted to live in a state where the elements treat us with such kindly consideration. It is true we may become irritated over man's mistaken philosophies, yet if we will but compare our lot with that of other peoples in the outside world we find there is so much to make us content. Don't you think it is about time we got rid of that growing disposition?

PDWER AND CIGARETTES

Which is more important to the industries and homes of the nation—tobacco or electric power? which is the greatest civilizing influence? Which does the most to make the life of the average person pleasant and comfortable, and to increase the amount of leisure time he has?

If that questionnaire were sent out to a representative group of citizens, electricity would win by an overwhelming vote. Yet—based on statistics for 1932—the nation's tobacco bill is well over a $100,000,000 in excess of its domestic power bill. We spent close to $800,000,000 in that year for cigarettes and cigars—and we spent but $700,000,000 for the current that provided us with light, operated stoves and refrigerators and washing machines, and performed—cheaply, efficiently, swiftly—a thousand and one other necessary household tasks.—Harry Myers in the Lapeer County Press.

PERSONAL CREDIT

Economic planning, and agricultural adjustment, and unemployment relief, and codes of fair competition, and all similar mass efforts in which government undertakes to control the economic affairs of citizens, depend for success on ability to adapt administrative methods to wide ranges of individual differences among the people affected. In much of the current discussion of such matters the assumption seems to be made that once government has classified people in convenient groups it can deal with them as impersonal units in matter of work and reward just as it can when they are units in the census. Of course this is not so, and just how much farther the brain trusters continue to march in this direction will depend upon how soon they come to realize this uncontrovertable economic fact.

STATE LAUDS WORK CCC CAMP MEMBERS

SPENT 44,000 MAN-DAYS FIGHTING FOREST FIRES

State Department Compiles List of Jobs Completed in Year by Members of Corps

Enrollees of state CCC camps working on state forests and on state and private lands not in administered units spent 44,000 man-days fighting forest fires during the first year of emergency conservation work in Michigan.

According to a report of G. A. Young, in charge of Michigan Emergency Conservation work, showing the various projects undertaken and completed, this is equivalent to what 120 men could do working every day for 365 days.

Other projects undertaken by the state camps, of which there were 42 during the period ending October 1 and 52 during the period ending April 1, are as follows:

Construction of 180 miles of telephone lines, connecting fire towers, wardens' headquarters, etc.; construction of 435 miles of firebreaks, reduction of fire hazards on 10,500 acres of land, construction of a lookout house, two lookout towers added to the state network of fire detection towers; thinning, release cutting and removal of undesirable species on 1,750 acres of forest land; 1,475 miles of truck trail built to open up many acres of previously inaccessible land; 660 acres of land cleared for public camp grounds; trees planted on 6,775 acres of denuded lands.

Nine thousand man days spent in forest nursery work at the state forest nursery; 110 bushels of pine cones collected in state forests as seed at forest nursery; blister rust eradication on 72,000 acres of pine land; 1,170 miles of section and forest boundary lines surveyed; topography of 21,100 acres of state forest lands surveyed; timber on 32,100 acres estimated by survey crews.

Location of ground water level on 1,430,000 acres of state and private forest lands, determined and plotted for information of fire fighting crews; four foot bridges built for and tourists in reaching scenic beauty spots in state parks and forests; 140 vehicle bridges upwards of 10 feet wide built on many truck trails through forests; fishing and bathing conditions on many lakes improved on 1,450 acres of lake and beach improvement work; 165 miles of state trout streams improved by restocking, building pools, shelters, etc., emergency landing fields to aid in forest fire and law enforcement patrol constructed on 1,000 acres throughout the state.

DISTRICT-HEALTH UNIT BULLETIN

Health Officials and the Milk Business

In this day of modern inventions and modes of travel, and of crowded living conditions, foods, both solid and liquid, may build for health or may spread disease. The production and distribution of milk under sanitary conditions is, therefore, a matter of public concern. All divisions of the state—agricultural, extension, education and health — may contribute to the success of every program in behalf of better, safer milk for citizens, but it is the health officials who are most responsible for the efforts to safeguard communities.

They can inspect places where milk is produced, handled or distributed, but that does not prevent danger from diseased cows. Therefore, herds must be tested, but it is impractical to do this often enough to catch every animal before it has dispatched its germs to the dining table of countless families; and so the health and agricultural departments make frequent laboratory examinations of samples of milk, but if, for instance, typhoid germs are discovered, the person who has the disease must be traced. Therefore, all individuals who handle milk need to have physical examinations including laboratory tests. Only in this manner can the typhoid "carrier" be detected and prevented from the possibility of starting a milk-borne epidemic.

But since, with all these activities put together, one careless milker or a single infected cow, may start a long trail of illness, the community which really wants to be safe, commissions its health officials to work toward one more essential precaution —adequate protection of its milk supply through pasteurization or by requiring that nothing lower than a grade "A" supply be sold.

During the year two cities in Michigan have had sizeable outbreaks of milk-borne disease. Communities have it in their power to lower the incidence of these outbreaks. Charlevoix, Harbor Springs, Elk Rapids and Petoskey have passed milk ordinances increasing the safety of milk for the public. Be sure that your milk and cream is approved before purchasing it. Milk at hotels or restaurants should be served in individual bottles and in this manner one can determine whether they are obtaining and approved supply. Milk inspection is carried on in the District Health Unit No. 3, composed of the counties of Antrim, Charlevoix, Emmet and Otsego, by Dr. A. R. Renwick, sanitary inspector, who is also state dairy inspector.

Summer Vacations and Drinking Water

It is summer typhoid which led the Detroit city health department to say in one of its monthly reports: "Typhoid fever, as usual, increased during the summer months."

The motorist or summer vacationist who drinks untested water may become a victim of typhoid. No immediate ill effects are felt as it generally takes around fourteen days before the person begins to feel sick. This is the growing stage of the disease.

Called a disease of "defective civilization," every case of typhoid develops solely because the discharges of a previously existing case find their way into the mouth of the infected person.

What can be done toward the prevention of typhoid among vacationists? What looks to the person like clear, sparkling water with a pleasing taste may, nevertheless, contain disease germs. It may be polluted with wastes from outdoor privies, from a barnyard, a sewer or a cesspool. Care must be taken that such pollution does not get into the wells or other water supplies. Care must also be taken on the part of the vacationist not to drink water until he is satisfied that it is safe. The safe way, when not sure, is to boil the water.

Anti-typhoid fever immunization is an almost absolute protection against typhoid and paratyphoid. Of 107,000 American troops in camp during the Spanish-American war, more than 20,000 contracted typhoid. Six times more died of the disease than from all other causes put together. In contrast, the American army which occupied the Mexican border in 1916, for whom immunization was compulsory, had no deaths from the disease and only a few scattered cases.

Immunization usually lasts for three years. Those going on summer vacations or south in the winter would do well to be immunized.

Water cannot be judged by its seeming purity or by its reputation in times past. It may be polluted in the present, and anyone who makes a business of accommodating resorters should have their home well water supply tested. The laboratory of the Michigan Department of Health will send a container for taking a sample on request or one may be obtained on application to the District Health Department at Charlevoix.

During the past few years the District Health Department, sponsored by the Children's Fund of Michigan, and composed of the counties of Antrim, Charlevoix, Emmet and Otsego, has made it a practice to test the wells of school houses in the district. Also, to take water samples from all resorts located in the four counties. Those having contaminated water supplies must either close their well or repair it so as to make the drinking water safe. Resorts are also inspected once or twice a year by Dr. A. R. Renwick, district sanitary inspector, for their sanitary conditions and are given a rating by the district and state department of health.

Under the wide and
SPREADING SKY

SUMMER is the season when the possibilities for enjoyment are multiplied about you. Under the wide and spreading sky there is room for much happiness.

You don't need great wealth, and you don't need to fasten all your hopes for happiness on a short vacation. Whether you live in the city, with all its modern means of tempering the climate to your needs, or in the country where the good earth responds so beautifully to your touch—there is much to do, pleasantly and happily.

But there is art in enjoyment. You should dress properly for each occasion. You should have within easy reach the things that make hospitality inviting and gracious. You should have the means of refreshing and beautifying your person and improving your sense of well-being. You should be comfortable.

It is not hard to do all this. It is not accomplished in one frenzied and expensive effort. Comforts should grow about your home, as flowers and fruits blossom and ripen.

Read the advertisements, and acquire the things you need from what you learn there. Fresh light summer wear. Foods and beverages that keep crisp and cool in modern refrigerators. Gas and electricity that cook and brighten without heating your rooms. Electric fans, perhaps. Soaps, cosmetics, and heaps of fresh towels for frequent showers.

And read the advertisements where to go and what to do in order to make Summer the golden season of your life.

G-3 Users Report 43% is Too Modest—They're Getting More Extra Non-Skid Mileage Than That—But We Prefer to Be Conservative.

Yes, there's quite an uproar over our G-3 advertising. People who got the first G-3's put out months before the public announcement—say "you're pulling your punch"—cite mileage records to prove 43% more non-skid life is an *under*-statement. Very likely it is low—very likely the G-3 does do better—but, by speeding up to 50, jamming on brakes, every few miles day and night, in harder driving than most people do, the Goodyear test fleet established the average of 43% greater non-skid wear—and we'll stick to that figure because: That much extra safety at no extra cost is plenty to offer! If you have yet to see this amazing new Goodyear All-Weather, don't wait longer—come in right away!

Customers say G-3's have given 50 to 75% more non-skid tread mileage than any other tire.—Fla.

OF INTEREST TO FARMERS
By B. C. Mellencamp

Farm Women's Week to Be Well Attended

Several Charlevoix county women are looking forward with great anticipation to the Farm Women's week held at the Michigan State college beginning July 23. At least ten ladies from this county are planning on attending and there are prospects of several more. Everything that a home-maker is interested in will appear on the program during the live days of instruction and pleasure.

Last year, ten delegates attended from the county and everyone reported having the time of their lives. The week is so arranged that each delegate can pretty largely enroll in the type of home activity in which they are most deeply interested. They may choose clothing, foods and nutrition, home furnishing, home management or child development. In addition, they have lectures on poultry, landscape gardening, flowers, dramatics, community problems and recreation activities.

Plans have already been made to engage bus transportation, leaving Boyne City Sunday afternoon, July 22 at 1:30. The cost per passenger, up to 15 passengers, will be $4.00 for the round trip. If a larger number go, it will be less. With this set-up, it is felt that the women will enjoy the trip without having any responsibilities and worries and also get better acquainted.

Kindly notify your county agent if you are interested in making this trip.

4-H Club Summer Camp at Gaylord Beginning July 30

One hundred and thirty club members in summer project.

The summer club program is progressing very nicely throughout the various communities where clubs have been organized. In fact, a careful check of the club enrollments, indicates a larger number in club work this summer than last.

The one big event that all club members are greatly interested in is the summer club camp to be held at the Gaylord fair grounds the week beginning July 30. Each year, Charlevoix county is represented by a fine delegation of boys and girls. The club members cannot have a better vacation than to spend this week at the club camp. This year, the number to attend has been restricted to only those club members who have completed one year's project and who are doing satisfactory club work this summer. It is felt that this restriction will aid in having a deeply interested group of club folks attending the camp.

The premium list for the boys and girls club department at the county fair to be held the week of September 12 has already been prepared and the premium books will be out in a very few days. This year, the boys and girls club department exhibit will be complete, including the last winter's club program as well as all projects this summer. Present indications point to the following project exhibits: clothing, handicraft, hot lunch, canning, food preparation, dairy, poultry, potatoes, corn and beans. The following communities have organized and are carrying on splendid club programs:

Burgess—food preparation; Bay Shore—canning; Peninsula — canning; Chandler Hill—dairy; East Hudson Community Club — calf, poultry, canning and food preparation; East Jordan Community Club—potato, calf, canning and food preparation; Deer Lake Community Club—calf, potato and canning; Boyne Falls Community Club—dairy, food preparation and canning.

The club members throughout the county cordially invite you to see their fine exhibit at the county fair and to watch the progress of their work in the various communities.

STATE TO AID FAIRS AND 4-H CLUB GROUPS

Will Pay Half of Premiums Given By Fairs This Year

Immediately following a conference with Governor William A. Comstock it was announced by Samuel T. Metzger, commissioner of agriculture, that the matter of state aid for county and district fairs and boys' and girls' 4-H clubs was under consideration and a definite policy adopted for this season.

Last year state aid in the amount of $14,075.25 was extended to the latter.

At the conference in question it was decided to give the boys' and girls' 4-H clubs, regardless of whether or not there is an agricultural fair in the county, twice as much as last year, without in any way interfering with their also exhibiting at any county or district fairs they may choose and contending for premiums thereat.

In the case of county and district fairs, a plan is under consideration whereby the state's one-half of every prize and premium on Michigan products that may be awarded by the fair association will be paid simultaneously with the fair association's half.

WHITE STAR REFINING CO. BUYS RENNIE OIL CO. PLANT

Announcement has been made by W. H. Wallace, local distributor of the White Star Refining Co., of that firm's purchase of the Rennie Oil Co. at Traverse City. Storage facilities for 1,500,000 gallons of gasoline have been provided at Traverse City, at which point the gasoline is taken by tank steamers. Distribution for northern Michigan will be out of the Traverse City plant.

STATE CROP REPORT HAS BRIGHT SPOTS

Potatoes and Some Fruits Expected to Be Better Than Last Year

No famine is in sight in Michigan figures of crop prospects for 1934 released by Verne H. Church, state agricultural statistician.

The most important crop shortages for this state are in feed crops for livestock, hay and fodder crops being much below normal. The only chance to remedy this shortage now is to plant rye for pasture, as suggested by Michigan State college farm crops department.

Michigan potatoes are expected to produce more bushels than in 1933 if weather conditions from now until harvest are about normal. A crop of 22,950,000 bushels is indicated by present conditions. Last year's crop was 20,670,000.

Bean conditions are considerably worse than last year as a crop of only 3,055,000 bags is in sight and the production in 1933 was 3,519,000 bags. This decease in probable production has occurred in spite of a planting five per cent greater than last season.

Corn is expected to yield 40,268,000 bushels in Michigan as compared with last year's yield of 42,315,000 bushels. This crop has withstood the drought well and grows rapidly in the unusually hot weather prevailing. Increased plantings of fodder corn have been made to replace hay shortages.

Another optimistic angle of the crop report is the probability of a better harvest of peaches, pears and plums than last year. The peach crop, however, is still much below the average production for the state. The apple crop will be 3,500,000 bushels less than last year's production of 8,651,000. Grapes and cherries are not as good as last year.

PICTURES AND TALKS PLANNED FOR PARKS

Conservation Department Has Field Representative at Gaylord

By stationing a field representative at the Gaylord office, to service northern Michigan, the Michigan conservation department considers that a new type of service will be rendered to the public. All the educational facilities of the department will be handled through this office. Donald W. Rochester is the field representative. The department is planning a series of lectures and pictures to be given in the state parks this season.

A definite educational plan is being worked out for the coming school year. With a series of booklets and lesson plans in combination with mounted specimens of Michigan birds, fish and mammals, it is felt that a wider conception of our natural resources will be brought to the residents of this region.

The Gaylord office at the present time is equipped with a projector and a copy of each of the 22 films on Michigan Wild Life. These films and lecture service are available to sportsman's clubs and business men's organizations throughout the northern counties.

This service is available through the local conservation officer or by writing directly to the Gaylord office.

ARE THE STATE LIQUOR LAWS KNOWN AND NOW OBSERVED?

It is the duty of all those who sell beer, wine or spirits under any form of license to familiarize themselves with the law according to one of its provisions. And further, any infraction of the same is considered prima facie evidence of the licensees unfitness to hold the license.

Mrs. Harker Kirby, who had charge of the program at the W. C. T. U. meeting last Friday afternoon, had by request made a study of this law and presented some of the sections which should be of general interest. The gist of the paragraphs read and discussed follows:

"All wine and spirits must in the first instance be purchased from a state liquor store.

"Any person consuming spirits (meaning distilled liquor) on premises licensed to sell only beer or wine shall be punished and any licensee permitting such an act shall have his license revoked or suspended.

"Spirits (meaning distilled liquor) may not be sold on any Sunday, primary election day, general election day or municipal election day under any circumstances, and any legislative body which desires to prohibit the sale of any alcoholic liquor on those days (this would include beer and wine) may do so under Sec. 19.

"It is the duty of county sheriffs and their deputies, village police officers, marshals and constables, city police officers, members of the state police department and inspectors of the commission to enforce the liquor law and any rules and regulations made by the state liquor commissioners, within their respective jurisdiction. Any officer who shall wilfully neglect or refuse to perform these duties shall be guilty of a misdemeanor and upon conviction shall be fined not to exceed $500 and imprisonment in the county jail not more than 90 days or both.

"No person under eighteen years of age shall be employed in any capacity on either a voluntary or paid basis at any place where licensed alcoholic liquor is sold for consumption on the premises. (This includes spirits, beer, wine, proprietary medicines, etc., containing one-half of one per cent or more of alcohol.)

"All beer shall bear a label showing the percentage of alcohol by volume. No license shall be granted to sell spirits in any form at retail or consumption on the premises in excess of one license for each 750 of the population or major fraction thereof.

"No alcoholic liquor other than beer shall be sold to any person under 21 years of age. No beer shall be sold to any person under 18 years of age.

"Provision is made for local option referendum in cities, villages, townships and counties, at special elections called on petition of not less than 20 per cent of the qualified voters who voted for secretary of state at the last general election."

Section 17 of the Liquor Act contains the following proviso:

"Provided however, that all applications for licenses to sell beer and/or wine and/or spirits for consumption on the premises shall be approved by the local legislative body in which said applicants place of business is located before being granted a license by the commission; provided further, that upon request of the local legislative body, the commission shall revoke the license of any licensee granted a license to sell beer and/or wine and/or spirits for consumption on the premises;"

This means, that if, township boards, or village or city councils refuse approval then such licenses cannot be issued by the liquor control commission, also that the commission shall revoke such licenses if the local legislative bodies ask them to. There has been much false information given and local boards are just beginning to discover that they can refuse to grant approval for beer licenses.

The meeting at which this information was given was held in the city park following the annual picnic dinner of the organization. The union will meet next month on Mrs. McMillan's porch and Mrs. A. J. Hamilton will have charge of the program.

TWENTY-TWO REPUBLICANS ENTER COUNTY RACE

Governorship and Legislative Berths Sought by Large List of Republicans and Democrats

Twenty-two candidates, seeking the Republican nomination for county office at the primary election September 11, filed petitions with County Clerk Fenton R. Bulow before the 4 o'clock deadline Tuesday afternoon.

While the number seeking the ten county offices is four less than in 1932, there are sufficient aspirants to assure a wide-open race in Republican circles for the honor of opposing a full slate of Democratic nominees at the November general election.

Without exception, all present office holders are seeking re-election, and in no single instance are the incumbents without opposition.

Following is the complete slate of Republican candidates:

For Prosecuting Attorney — *Arthur L. Fitch, Charlevoix; C. Meredith Bice, East Jordan.

For Sheriff—*Floyd W. Ikens, Charlevoix; Willard A. Smith, Charlevoix; Henry M. Steimel, Boyne City.

For County Clerk—*Fenton R. Bulow, Charlevoix; J. Warne Davis, East Jordan.

For County Treasurer—*Lillis M. Flanders, Charlevoix; Lewis G. Corneil, East Jordan; Dan E. Harrington, Boyne Falls.

For Register of Deeds—*Frank F. Bird, Charlevoix; Edward S. Stacks, Boyne Falls; Jay Adams, Marion township.

For Circuit Court Commissioner—Rollie L. Lewis, Charlevoix.

For Drain Commissioner—William Withers, Charlevoix.

For Coroners—*Dr. F. F. McMillan, Charlevoix; *Schuyler B. Stackus, Boyne City.

For Surveyor—Samuel A. Tokoly, Boyne City.

For Road Commissioner—*Frank Wangeman, East Jordan; Samuel E. Rogers, East Jordan; R. G. Watson, East Jordan; Harrison L. Smith, Bay Shore.

*Present office holder.

The following Democratic candidates, recently announced, filed petitions:

For Sheriff—George A. Hansen, East Jordan.

For Clerk—William P. Hicken, Charlevoix.

For Treasurer—Harold Saffron, Boyne City.

For Register—Lewis W. Ellis, East Jordan.

For Coroners—Dr. G. W. King, Charlevoix; Dr. J. G. MacGregor, Boyne City.

For Surveyor—Robert F. Sloan, Charlevoix.

For Road Commissioner—Daniel Swanson, East Jordan.

In the race for state representative from the Charlevoix-Leelanau district are: Douglas D. Tibbits, Boyne City, republican incumbent, and E. E. Cross, Charlevoix, democrat.

For State Senator, 29th district—Otto W. Bishop and Alonzo Green, Alpena, republicans; C. A. Vogelheimer, Rogers City, democrat.

For Congress, 11th district—Prentiss M. Brown, St. Ignace, democratic incumbent; John J. O'Hara, Menominee, republican.

Those qualifying for governor were: William A. Comstock, democratic incumbent; John K. Stack Jr., and Arthur J. Lacy, democrats; Frank D. Fitzgerald, Alex J. Groesbeck, John W. Smith, Orla A. Bailey, republicans.

Petitioners have three days in which to withdraw.

MICHIGAN AIR TOUR TO VISIT HERE THURSDAY

Twenty pilots, participating in the annual Michigan Air Tour, will set their planes down at the Charlevoix airport at 1:30 o'clock Thursday afternoon.

Marking the first visit of the air tour to Charlevoix since its inauguration several years ago, the pilots and their passengers will be greeted by city officials and local residents interested in seeing the planes.

The visit of the entourage here will be a brief one. The next stop en route south will be the Traverse City airport.

REPUBLICAN RALLY AT HOUGHTON LAKE

Twenty-four Counties to Join in Big Meeting July 29th

United States Senator Arthur H. Vandenberg will be the principal speaker at a huge Republican rally to be held in the dance pavilion at Johnson's Rustic Tavern at Houghton Lake all day on Sunday, July 29th.

A. J. Doherty Jr. of Clare, president of the Northeastern Michigan Republican Club predicts that with 24 counties participating, more than one-fourth the area of Michigan, this will be the largest political rally ever held in the northeastern portion of the state.

All state Republican officer holders as well as Republican primary and convention candidates are invited to attend. Democrat as well as Republican voters will be welcome to hear Senator Vandenberg's address on our national affairs.

During the day many outdoor sports may be enjoyed such as swimming, boating, fishing, golfing, with dancing during the afternoon and evening. A number of bands will add much to the day's entertainment.

Congressman Roy O. Woodruff, in behalf of the Northeastern Michigan Republican Club, is scheduled to deliver an address of welcome to all visitors.

VARIETY IN ORAMA CAMP PRODUCTIONS

"STRICTLY BLACKMAIL" FEATURE FOR JULY 25-27

Thrilling Excitement Promised By Strongest Play Camp Has Produced This Season

Variety seems to be the watchword at the stock company at Ironton this summer. They have jumped glibly from high comedy to mystery thriller to insane farce, all in the short time of three weeks, and now this week the nights of July 25, 26 and 27, they will produce an exciting melodrama entitled "Strictly Blackmail."

"Scrambled Matrimony," a delightfully ludicrous farce, which devolves around the story of a will, inheritance and the ins and outs of real and fake cousins, wives and beneficiaries. Harry Young and Gretchen Rickel carried away the acting honors as the young couple around whom all the excitement centered — the young couple who owed so many bills that an inheritance was to them just a sop to the creditors. Miss Rickel, as the wife with "ideas," and Mr. Young as the inventor who went to three deaths all to inherit $5.27, were capable and entertaining in their comedy touches.

Others who furnished amusing moments were David Houman and Dorothy Fritz as the maid and the butler, Elvera Baker as the lost wife who said to three men, "Oh George, I'd know you anywhere by the way you kiss." Helen Sellew and Maury Tuckerman, together with Lester Griffith and William Kimball, completed the cast.

"Strictly Blackmail" will furnish feature parts for Dorothy Fritz, Elvera Baker, Lester Griffith and Maury Tuckerman, who all become involved in blackmail, murder, notoriety and thrilling excitement in one of the strongest plays that the National Dramatic Camp has produced this season.

CITY ADVERTISES FOR BIDS ON SEWAGE BONDS

Issue of $73,000 Available Up to Noon of Saturday, August 11

In this week's issue of the Courier, the city is advertising for sealed bids for purchase of $73,000.00 in revenue bonds to be issued for the purpose of constructing a sewage disposal system.

The bonds, payable from revenues of the utility, when established, consist of 73 bonds of $1,000 each, dated January 1, 1934, and payable $2,000.00 on January 1 of each year from 1936 to 1942 inclusive, and $3,000 on January 1 of each year from 1943 to 1951 inclusive, and $1,000.00 on January 1 of each year from 1952 to 1959 inclusive, with interest at 4%, payable semi-annually on January 1 and July 1 of each year.

In case of failure of public sale, the bonds will be absorbed by the Public Works Administration in accordance with contract entered into with the city.

COUNCIL APPROVES PLANS CITY DOCKS

AUTHORIZES THE PURCHASE OF NEEDED MATERIALS

Plans for Several Street Improvements Approved—Start Work on Shuffle Board Courts

Work is expected to start between August 10 and 15 on the construction of a municipal dock on Round lake as the result of action taken Monday night by the city council.

Authorization was granted the mayor and clerk to purchase steel sheet piling and other necessary material, and construction is contingent upon the arrival of these supplies. The new dock, to be built of steel and concrete, will be 292 feet long and 20 feet wide, fronting the recently acquired Wilbur property, site of Charlevoix's pending sewage disposal system. Plans prepared by City Engineer Robert F. Sloan have been approved by the war department. Welfare labor will be used as much as possible on the project.

Plans for several other pending improvements as prepared by the city engineer were accepted. They include construction of curb and gutter on east side of the alley running north from Clinton street behind business places on the east side of Bridge street, revised plans of the Sherman-Newman sanitary sewer. Plans were also accepted for a proposed street running east from Bridge street to Burns street on the north shore of Round lake. The street, designed primarily as a convenience especially to owners of boat houses on the north shore of Round lake, would be known as "Motor Boat Lane." The project has been agitated for some time by summer residents owning boat houses. The project, to be held up pending acquirement of necessary right-of-way, will require 90 per cent labor to be furnished through the welfare commission.

Plans for four concrete shuffle board courts on the municipal bathing beach property on Lake Michigan were approved and construction work started Tuesday morning. Concrete of the first court was to be poured Wednesday. Approval of this project will bring the addition of another entertainment feature at the already popular bathing beach. Authorization was also granted for purchase of three flood lights to be installed at the bathing beach for night bathing.

NEW CLASS SAIL BOATS ARRIVING

REPLACE CHICAGO CLUB FAMOUS 6 METER FLEET

Seven 32-foot Type Sloops Delivered to Local Summer Residents—Five at Harbor Springs

The Charlevoix Yacht Club fleet of 6 meter sailing boats, some internationally famous for their origin and comprising the largest fleet of the class on fresh water in America, is being disbanded.

Replacing the 6 meters is a fleet of trim 32-foot racing sloops, seven of which have already been delivered here from the Russell J. Pouliot plant in Detroit. The boats are open cockpit racing craft, but which also serve ideally for afternoon sailing. They have a fin keel and with the high rigs offer the acme of sailing performance. The boats are of 6 feet 6 inch beam, 21-foot waterline and a 5 feet draft. The total sail area is 313 feet to which is added a balloon jib that also serves as a spinnaker.

New boats have been delivered to Charlevoix and unloaded and outfitted at the Hamilton & Sun Boat Yard for J. P. Wilson, Albert Koep, O. W. Johnson, Dr. E. S. Talbot, Mrs. A. H. Whiting and Eddie Scott. Another was delivered here for E. H. Steadman, Wequetonsing summer resident, who also owns one of five of the new craft delivered at Harbor Springs, making a total of twelve boats of the model now in regional waters.

The reason for changing the type of sailing craft was that the 6 meter boats were too expensive for the short period of sailing each summer season. The move is viewed as one which will popularize sailing here and ultimately result in a steady addition of these less expensive craft to the local fleet. Other Charlevoix summer residents have already expressed their intention of purchasing boats of the type and it is probable the boats delivered at Harbor Springs will participate in the August races on Lake Charlevoix.

Among the restrictions under which the new boats will be sailed is they be handled strictly by amateurs, the length of time a set of sails must be used, etc.

Five of the nine 6 meter craft have been sold and delivered to new owners.

MICHIGAN FARMERS MAY OBTAIN LOANS

Purchase Price for Sheep and Cattle Is Made Available

Michigan farmers may avail themselves of a new type of feeder loans just announced by the Production Credit Corporation of St. Paul, which makes it possible under certain circumstances for the farmer or stockman to obtain the full purchase price of feeder cattle and feeder lambs.

Loans secured by a first mortgage on the livestock bought and on a sufficient amount of feed to finish the stock for market may now be obtained by the farmer who furnishes a sound financial statement, has experience in feeding, and is in a good location and equipped with adequate facilities. He must be known to be a good moral risk also and it is necessary that the price to be paid for the stock shall not be out of line with reasonable expectations as to the price at the time the stock is marketed.

Borrowers who are not experienced will not be granted more than 75 per cent of the purchase price, provided the application is approved, and in cases where feeder prices are relatively high some margin in the shape of cash or a chattel mortgage will be required. The plan is also available in the other states of the 7th district.

BOARD EDUCATION ELECTS OFFICERS

HARKER KIRBY CHOSEN PRESIDENT FOR 1934-35

Wm. P. Hicken Retained As Secretary, Henry Partridge As Treasurer—Improvements Planned

Organization of the board of education was completed Monday night at the first regular business session following the annual district meeting held July 9th.

Harker Kirby was chosen to succeed Clarence B. Moggison as president of the board. Other officers selected from the membership of trustees were: vice-president, Carl Kohler; secretary, Wm. P. Hicken; treasurer, Henry Partridge, the latter two succeeding themselves.

Committees appointed by President Kirby, the first named acting as chairman, were: building and grounds—Carl Kohler, Harker Kirby and Henry Partridge.

Proposed building improvements were taken under consideration at Monday night's meeting and, with completion of detailed plans and cost estimates will be approved at the next meeting.

A tunnel between the manual training room in the grade building and the basement of the senior high school is proposed. The tunnel, to provide a passageway large enough for two lines of students to pass, eliminating the necessity of going out-of-doors to communicate between the two buildings, is primarily designed to furnish a conduit for heating pipes connecting the plant under the grade building to the high school building system. This change will also necessitate changing the high school system from a high to low pressure unit. The alley between the two buildings will be eliminated and the space utilized for cement walks and landscaping.

Other improvement projects include elimination of the chimney on the junior high school building, which will not be occupied, as a safety measure, and completion of the project of painting outside woodwork on the senior high school building. This work was started Tuesday morning.

COMPLETE REPAIRS ON DAMAGED WATER MAIN

Work of repairing the water main under the channel between Round lake and Lake Charlevoix, damaged by recent operations of the U. S. dredge Gen. Meade, have been completed by a Traverse City contractor employed by the city. The damage interrupted temporarily service thru the water main. The Western Union cable, damaged at the same time, has also been repaired.

HERDS ARE TOO BIG FOR FORAGE SUPPLY

REDUCTION MUST BE MADE BEFORE WINTER

Much Michigan Livestock Will Go Hungry Next Winter Unless Numbers Are Reduced

Prospects of a very pronounced shortage of forage for Michigan livestock next winter are pointed out by the Michigan State college, and state livestock owners are advised to cull their herds in preparation for this unavoidable condition.

Rains between now and winter will furnish little relief. Other sections of the nation have no surplus hay to sell and many states are in desperate straits. Michigan livestock owners will have to adjust flocks and herds to the supplies of forage available.

Dr. William Haber, state relief administrator, says that he has no authority to expend relief funds now or next winter to purchase hay for livestock even if such forage could be found. Last year, Dr. Haber spent nearly $200,000 for hay for Michigan livestock. This amount was paid out in a year when hay was comparatively cheap and when most sections had no forage shortage.

Michigan farmers who accept now the advice of men who can not possibly profit or lose from the sale or from the retaining of livestock by owners will have much the best chance of avoiding heavy financial losses. Cattle which are in fair condition and which can be marketed any time within a period of three months can be sold much more advantageously than thin stock which must be sold within a period of a few days.

County chairman of relief commissions have been advised by Dr. Haber to make certain that all wild hay in their territories is cut and stored for use. Grass on roadsides is being cut in many places in the state. These measures will help locally, as will the planting of rye to furnish fall and early spring pasture.

However, such small additions to the forage supply can not solve the main problem which is the presence in the state of greater numbers of livestock than possibly can be carried through the winter on the forage available.

Members of herd improvement associations are advised by the dairy department at the college to use their production records as a basis for culling their herds and to take out the lowest producers until the owner is certain that his feed supplies will carry the number of cows retained. Dairymen who do not belong to associations can not be as certain in their culling work, but they should have tests made at cream or milk buying stations to determine as nearly as possible which are their cull cows.

The poor producers should be moved out as rapidly as market conditions permit and it should be remembered that it is a human tendency to wait as long as possible. If that happens in Michigan, all the stock will go on the market at the same time and the prices will reflect the effort to sell more stock than the market will absorb.

On the basis of present prices for feed and of 25 cents per pound for butterfat, no cow producing less than 300 pounds of fat per year can make a profit for the owner. With feed prices increasing, no chance for pro-

STATE BANK NEARS GOAL IN ITS REORGANIZATION EFFORT

Announcement by Archie L. Livingston, conservator of the Charlevoix State Savings bank, that capital stock for the new bank now being organized has been over-subscribed, heralds completion of another important detail in the institution's reorganization efforts.

Mr. Livingston returned Tuesday from Lansing, where he certified that the necessary capital had been raised to the state banking commissioner, who then issued an order to give public notice of the reopening of the bank. Judge Parm C. Gilbert of Traverse City, has set Monday, August 13, at 2 p. m., as the date for hearing in circuit court, where all protests against the plan may be heard.

The exact date of opening will now depend entirely upon the routine called for under the regulations of re-opening.

STATE TAXES 22 MILLION UNDER LAST YEAR

Above Sum Cited by Administration As Savings to Taxpayers

State administrative officers point to this from the record of the present administration as a tonic for the fellow who thinks he is being swamped with taxes.

The report of the state tax commission records that property taxes in the state were reduced $57,000,000 during the first year of the administration of Governor William A. Comstock, as compared with the administration of Governor Wilber M. Brucker.

The sales tax, one of the measures adopted in the administration's taxation reform policy produced approximately $35,000,000 for the first fiscal year of the present administration.

The net savings to the taxpayers on these items are $22,000,000.

DISTRICT HEALTH UNIT BULLETIN

Summer Vacation and Mental Hygiene

The summer vacation has come to be one of the necessities of modern life, as far as the city worker is concerned.

The concentration of population in cities, the complexities and the wear and tear of modern life have been listed as two of the leading causes responsible for the increase in mental illness during recent years. There can be no doubt that one of the things most deadly to the nerves and to general welfare is the constant din and turmoil of the city. Add to this the rather monotonous and somewhat humdrum life that many city dwellers lead and it is understandable why man's mental equipment is put to a severe strain and why breakdowns are more frequent in occurrence under modern conditions. It would seem that the city dweller would have to make the best of it, adjust and accept conditions and all the consequences of those conditions.

But there is no need to take such a fatalistic view. It is true that the city has given us a difficult problem to solve, but it has also given us means partially, if not wholly, to solve it. It has given us better pay, shorter hours of labor and plenty of leisure time. It has given us the automobile wherewith to travel during our leisure time, and thus has made possible to many what had formerly been possible only to the few—a real vacation. As variety is the spice of life, the vacation serves to freshen out our minds and strengthen them to stand the strains of city life.

It is a question how much real diversion we need. We all need some; some need more than others. All who can arrange it should get a vacation of a week to a month. Those who cannot arrange a vacation and those who can arrange one only occasionally should by all means take an occasional holiday to play. The movie or a baseball game, an afternoon lunch or tea with a friend—any or all of these are good for a person. They are shorter vacations, important because they keep us from becoming dull companions, unfit for even our own company.

Many of the counties in northern Michigan such as those of District Health Unit No. 3, Antrim, Charlevoix, Emmet and Otsego, have regular dairy and resort inspection. The resort inspection includes water supply, sanitary facilities, bathing beaches, camp site, garbage and rubbish disposal and food handling. These inspections are all carried on by the district sanitary inspector, Dr. A. R. Renwick.

The summer vacation offers great promise when it comes to conserving the mental and physical health of the city worker.

The Ten Leading Causes of Death in Charlevoix County

What are the prime causes of death in Charlevoix county? Although a list of the ten leading causes would vary somewhat from year to year, we find the principal causes such as heart disease, apoplexy, cancer, nephritis and pneumonia together with violent and accidental deaths almost invariably in the forefront.

Heart disease usually stands first as the leading cause of death. This is an "old-age" disease due to the wearing out processes which directly affects the heart of older persons as a result of the stress and strains which life puts on the heart. Following heart disease, we find apoplexy and cancer take the largest toll of life.

Among the leading causes of death, one thing particularly noticeable is that of violent and accidental deaths. There is being a continued increase throughout the state. Automobile accidents lead as a cause of accidental deaths. This means that we must have more education and better methods of preventing this steadily increasing toll.

The following table indicates a decided comparison of the first three causes, referred to as old-age diseases, with that of other causes of death that occurred in Charlevoix county during 1933:

Heart Disease	44
Apoplexy	15
Cancer	13
Violent and Accidental	10
Senility	9
Pneumonia	8
Influenza	5
Nephritis	4
Tuberculosis (all forms)	3
Other Disease of Early Infancy	3

During 1933, there was one death resulting from scarlet fever and one death from typhoid fever. There were no deaths from smallpox, diphtheria, measles or whooping cough.

The district health department, sponsored by the Children's Fund of Michigan, is particularly interested in lowering the death rate from all preventable diseases. Heart disease and apoplexy will probably always play an important part in the causes of death, but undoubtedly, the incidence can be lowered by the reduction of those causes which tend to produce these conditions. Cancer can be reduced only by the patient's going to a physician early and by immediate treatment.

AT THE MOVIES

Comedian Fills Groom's Place On Honeymoon

The plot of "Here Comes the Groom," the Paramount film comedy, coming Friday and Saturday to the Palace theatre, is built on the hilarious situation of a bewildered young man in love with one girl who spends a honeymoon with another.

Jack Haley, Broadway stage comedy-star, recently featured with Jack Oakie in "Sitting Pretty," has the leading role, with Mary Boland, Neil Hamilton, Patricia Ellis, Isabel Jewell, Sidney Toler and Larry Gray in featured roles.

New Film Exposes "Case Makers"

Racketeering lawyers, doctors and insurance 'adjusters'—known under the generic term of 'ambulance chasers'—come in for a showing-up in "Born to Be Bad," showing Sunday and Monday at the Palace theatre.

In this 20th century picture, produced by Joseph M. Schenck and Darryl F. Zanuck as a co-starring vehicle for Loretta Young and Cary Grant, the cinema-going public will see how 'ambulance chasers' engineer a heavy damage suit against a wealthy man following a trivial accident.

Sallie Blane can take her water or leave it alone. The youthful star, who is appearing at the Palace theatre Wednesday with Berton Churchill and Joel McCrea in Universal's "Half a Sinner," uses water on her face and uses but little else for drinking. The first think in the morning she takes a glass of water into which she has squeezed a lemon. That's the internal treatment to give luster to the eyes. Then she rubs a piece of ice briskly over her face. That gives the skin a glow. It is the only time water touches her face as she uses cold cream for cleansing.

ANNOUNCEMENT

To the Citizens of the Eleventh Congressional District of Michigan:

I announce my candidacy for Representative of the Eleventh District of Michigan in the Congress of the United States.

From time to time at various places in the District, I will discuss the questions that are of interest to our people.

Space does not permit an extended discussion of my record in the 73rd Congress, but it is not out of place here to point out a few matters of interest to the citizens of the District. Our reviving forests have attracted more Conservation Camps than any other comparable district in the country and their growth and development are being thereby greatly encouraged. Public Works and consequent public employment have been greatly aided. Our important fishing industry has been recognized and our farmers have benefitted by better prices and aided where drouth has affected them. The financing of our industries, our agriculture and the safety of our bank deposits has encouraged our prosperity. I have given my attention and devoted my efforts to these interests of the District. For the present and future I shall continue to encourage forest conservation, to further aid agriculture, to maintain by the opening of our fish hatcheries our fishing industry and to do my part in supporting the Recovery Program.

I have supported every endeavor of the Administration to better labor conditions, raise the general level of wages and provide better security for those who have aged in industry.

I am confident that the interests of the District will be best served by the re-election of a representative who has been with the President in his efforts to get out of the depression and that the District will be best served by a member of the party in charge and control of the administration of the government.

ANNUAL REPORT
Charlevoix School District No. 1, City and Township
Dated July 9, 1934.

Report of Secretary

The annual meeting of the School District was held in the high school auditorium on the above date.

The meeting was called to order at 8:00 o'clock p. m. by President Clarence Meggison.

The Secretary read the minutes of the annual meeting of July 10th, 1933. The minutes were approved as read.

Harker Kirby read the law relative to the qualifications of a voter.

The annual report of the Librarian, as submitted by Miss Minnie Payton, was read by Mr. Hicken.

It was moved by Mrs. VanAllsburg, seconded by Dr. F. F. McMillan, that the librarian's report be received and filed. Carried.

The annual report of the Treasurer was read by Henry Partridge. It was moved by William Cook, seconded by William Palmer, that the treasurer's report be received and filed. Carried.

The annual report of the Secretary was read by William P. Hicken. It was moved by William Cook, seconded by Dr. Wilkinson, that the report of the secretary be received and filed. Carried.

Matters contemplated by the Board, such as the furnishing of free text books to the pupils, the installation of a stoker and the changes in the heating system, were outlined by Mr. Hicken.

In order to adopt this contemplated program it was pointed out that it would be necessary to raise an additional 2 mills on our tax levy.

It was moved by William Cook, seconded by John Martin, that the school district levy an additional 2 mills for a period of one year, said levy to be based on the valuation of the school district as set by the Board of Review.

President Meggison appointed the following tellers: Oakley Hammond, Joseph Moore, Dr. Carlton Dean, Robert Bridge and Floyd Ikens.

The tellers were sworn by Archie Livingston, notary public.

The ballots were collected by the tellers, with the result of the vote as follows:

In favor, 32; against 6. One ballot blank.

The motion having received more than a two thirds vote, was declared carried.

The president called for nominations for a trustee to succeed Clarence Meggison, who's term had expired.

William Cook nominated Mr. Meggison to succeed himself. The nomination was seconded by Dr. F. F. McMillan.

Mr. Hicken moved that the nominations be closed and that Mr. Kirby as vice-president of the board, cast the unanimous ballot of the school district for the re-election of Mr. Meggison. This motion was seconded by Dr. McMillan. The motion was carried unanimously.

William Cook moved that the meeting adjourn. Seconded by John Martin. Carried.

The meeting adjourned at 9:20 p. m.

WILLIAM P. HICKEN, Secretary.

Annual Report of Secretary

During the past year your Board of Education has held 20 regular and 6 special meetings.

Due to drastic reductions in practically every item on our budget we were able to continue our school program on a nine months basis and to close the school year with all our bills paid, and with a substantial cash balance in the treasury.

During the past winter extensive improvements were made to the high school building. These improvements were made possible by the allotment of funds to Charlevoix, by the federal government through the C.W.A. and the school board is exceedingly grateful to Joseph Foster, chairman of the C.W.A. board in Charlevoix county, and to all of his assistants for their splendid cooperation and work on this project.

Out of our debt service levy we were able to meet all of the interest on the school district bonds and to pay $4,000.00 on the principal. There was an additional $4,000.00 in bonds due January 1, 1934, and we have arranged for an extension of time on this amount to on or before January 1, 1935.

The only item to exceed the budget was the item of fuel. Our budget called for an expenditure of $2,000.00 for fuel, while the actual expenditure for fuel was about $3,300.00.

The Board has for some time considered the matter of issuing free text books to the pupils. We have also contemplated the installation of an automatic stoker in the grade building.

The assessed valuation of the school district has been cut nearly 20% and the tax rate, as set by the county tax commission, has been reduced to 4.7 mills.

Respectfully submitted,
WILLIAM P. HICKEN, Secretary.

CONSERVATION DEPT. NEWS BULLETIN

The monthly record of arrests for conservation law violations showed a drop of 25 per cent during June with a corresponding decrease in fishing law infractions. These figures are brought out in the report of the field administration division, department of conservation.

Of a total of 319 arrests, 289 were for violations of the fishing laws. Seventeen individuals were taken into custody for breaking hunting regulations and four for shooting song birds. The remaining arrests during June were divided as follows: trapping violations, taking frogs in closed season and burning without a permit, two each; leaving a permit fire unattended, cutting timber on state tax land and operating a motorboat without a muffler, one each.

As a result of 20 years of rigid protection by most farmers and land owners, the maintenance of favorable habitat and food conditions in many localities, quail are now fairly plentiful in the south and central part of the lower peninsula.

If all the seedlings and transplants distributed from Higgins Lake nursery last spring were planted in one plot and matured they would form a pine forest covering 2,500 acres of land.

Approximately 1,750,000 were distributed, including 1,500,000 which went without charge for plantings on public projects, according to the forestry division, department of conservation. The total, however, does not include the number planted on state forests.

A dead chimney swift wearing a metal band on one leg, found by Wehlo Sirvio, near Matchwood in Ontonagon county early in June, had been banded October 20, 1932, by Ben B. Coffey, Jr., of Memphis, Tennessee.

State trappers scored heavily against "vermin" during June.

According to a report of H. P. Williams of the bureau of biological survey, 194 predatory animals of four different species were taken in the upper peninsula during the month.

TAKING OFF!

You are about to start on your summer vacation. You have been planning anad talking about it for a long while. Don't spoil all those anticipated hours of pleasure because of a moment's carelessness. Remember it never pays to take unnecessary chances. First be sure your car is in good mechanical condition. Drive carefully under all circumstances, observe the rules of the highway, watch for dangerous intersections and slow up at all rail crossings. Thousands of motorists have needlessly sacrificed their lives trying to save a few minutes driving time. If your vacation takes you to the shores of some lake keep in mind the added element of danger. There are certain bathing beach rules that always should be observed. It is neither cute or heroic to endanger your life or the lives of others by pulling off fool stunts in the water. Common sense teaches you what to do—don't turn a good time into tragedy. Good bye—we hope you have a fine outing.

TAX BATTLE LOOMS

The filing of the Farm Bureau tax suit in the Ingham county circuit court marks the beginning of one of the most important legal battles on behalf of the farm that has ever developed in this state.

It is the Farm Bureau's contention that the state board of tax administration erred when it ignored the legislature's resolution defining its intent to exempt from taxation under the sales tax all items consumed in the production of other articles designed for eventual sale at retail. Two lower courts have already ruled in accordance with the Farm Bureau's contention in cases involving manufacturers.

If it is successful in its action, the Farm Bureau will have saved the farmers in excess of a million dollars a year and at the same time will have ended a most unpopular form of double taxation. In any event farmers the state over will be grateful to the Farm Bureau and the heads of rural cooperative associations that have made this legal test possible.

It might also be mentioned that Secretary of State Frank D. Fitzgerald has been outspoken in his objection to the ruling which the Farm Bureau is attacking, but his opposition was overridden by the majority faction of the state board of tax administration consisting of Auditor General Frye, State Treasurer Stack and Director Mogun.

SHOULD BE DEFEATED

Are we headed toward the writing of all our laws into the constitution, which should be in reality but the fundamental law of the state? Hundreds of thousands of names are reported to have been signed to petitions for the submission of a constitutional amendment which will limit the tax on gasoline to two cents per gallon; and it is safe to say that the great majority of the people signed those petitions without knowing just how it would affect the finances of the state and without realizing what it may mean to the roads over which they drive. They only knew that it might mean a reduction, and a very slight one, in the cost of the limited amount of gasoline which they buy. They have no sympathy for the farmers who still live on unimproved roads and who cannot get their roads improved without the gas tax, and neither have they any sympathy for the men who will be thrown out of employment on the highways because of a lack of funds. The gas tax reduction amendment should be defeated.—Cassopolis Vigilent.

Bids Wanted

For $73,000.00 City of Charlevoix Sewage Disposal System Revenue Bonds.

NOTICE is hereby given that sealed bids will be received for the purchase of $73,000.00 Revenue Bonds to be issued by the City of Charlevoix, Charlevoix county, Michigan, for the purpose of constructing a Sewage Disposal System for the city, as a self-liquidating project.

The bonds are not to be an indebtedness or general obligation of the city, but are to be payable solely out of the revenues of the Sewage Disposal System to be constructed, and for their payment a statutory lien is to be created on all the revenues of the System in accordance with Act No. 94, Public Acts of Michigan, 1933, and the city is to be obligated to maintain sufficient rates to provide for such payment and for the protection of the security as set forth in that Act.

The issue consists of seventy-three bonds of $1,000 each, dated January 1, 1934, and payable $2,000.00 on January 1 of each year from 1936 to 1942 inclusive, and $3,000.00 on January 1 of each year from 1943 to 1951 inclusive, and $4,000.00 on January 1 of each year from 1952 to 1959 inclusive, with interest at 4%, payable semi-annually on January 1 and July 1 of each year.

The City will furnish printed bonds and the approving legal opinion of Miller, Canfield, Paddock and Stone, attorneys, of Detroit, Michigan.

Each bid must be accompanied by a certified check for $1,000.00, to be retained by the City as liquidated damages in case the bidder, if awarded the bonds, shall fail to take up and pay for the bonds when ready for delivery.

Bids must be filed in the office of the City Clerk in the City of Charlevoix, Michigan, before 12 o'clock noon on Saturday, August 11, 1934, and will be publicly opened and considered by the City Council at its meeting to be held in the Council Rooms in the City of Charlevoix, Michigan, at 8 o'clock p. m. on August 13th, 1934.

The City Council reserves the right to reject any or all bids.

By Order of the City Council.
Ray S. Hamilton, City Clerk.
Charlevoix, Michigan.

ANNUAL CAMP-MEETING AUGUST 3 TO 12

Church of God of Northern Michigan Sponsor Series Meetings

The annual camp meeting of the Church of God of northern Michigan will be held August 3 to 12 on the camp grounds near Charlevoix, adjoining the Loeb school.

Meetings will be held throughout the day, beginning every morning at 6 o'clock and closing each evening with an evangelistic service beginning at 7:30 o'clock. Ministers will be present from various parts of the state.

Meals will be served on the free will offering plan, and rooms may be had in the dormitory or over the dining room. The management extends a cordial invitation to everyone in the community to attend. For further information see or address Dr. A. C. Stewart, 204 W. Hurlbut avenue, Charlevoix.

Potassium Proved Value

One lot of calves at the Ohio experiment station was fed on the milk from cows which were getting normal feeds while another lot was fed on the milk from cows which were being given one gram of potassium iodide per day each. The calves fed on the milk from cows getting the potassium iodide made better use of their feeds. Another test at the same station showed that cows on pasture produced butterfat approximately twice as potent in vitamin A as the butterfat of the same cows before turning them on pasture.—Successful Farming.

Record Friesian Cow

A German newspaper, Gemeinnutzige of Varel, Oldenburg, East Friesland, Germany, reports that G. Tabor of Poggenkrug, Kreis Wittmund, East Friesland, has received highest reward for record Friesian cow, Gertrud 131181. In her test of 365 days she produced 13,849 kilograms milk (approximately 30,465 lbs.). This matter was brought to our attention, says the Rural New Yorker, by a reader, Carl Ufken, whose early home was in that part of Germany.

DAIRY NOTES

A cow producing 8,000 pounds of milk a year manufactures nearly 1,100 pounds of dry matter in her milk.

* * *

In New York state's first cooperative bull association, 17 dairymen have the use of one of three bulls, each animal worth $220, for an investment of $56.

* * *

In a Pennsylvania test where a large number of dairy herds were used, it was found that a cow receiving silage would produce 150 gallons of milk more than when not receiving silage.

* * *

In a preliminary study of the effect of culling in 20 cow herds, it was found that on an average, the best cow in the herd produced more milk and butterfat than the two poorest cows.

* * *

Special pastures are needed to furnish food for the droughty period. Modern cow men are providing them.

* * *

The cow's udder must be free from mud or other filth, the milker's hands must be clean, the bucket must be so clean that a drink of water tastes good out of it.

Three practices necessary to keep cream sweet in warm weather until it is delivered to the creamery are: Washing utensils carefully, cooling the cream and frequent delivery.

Care at Proper Times Needed to Save Trees

To preserve trees properly it is necessary to have a complete knowledge of their nature and the trouble that may befall them. And it is only through such knowledge that tree surgeons are able to save trees from the diseases and dangers that so often prematurely destroy them.

Most of the few remaining survivors of former forests or of old time planting are gradually going to pieces. The process is slow, unobserved, unnecessary. A little care given at the proper time would have saved those trees. Some can still be saved if cared for promptly.

It is an encouraging fact, says an authority, that during the last twenty-five years most cities have been increasingly active in the planting of street trees.

But unfortunately, for lack of adequate care, a large proportion of these trees have become cripples, doomed to an early death. Lawn trees and park trees are going the same way. Perhaps one reason for this is that people too frequently see only the foliage of the tree and the shade that it offers. They fail to observe the ravages of decay, resulting from poor pruning or injuries from storms, vehicles or from any number of other causes. The trees are largely neglected. Neglected city trees have a poor chance for long life, for city conditions are unnatural and trees have extreme difficulty in withstanding the conditions under which we ask them to live.

Architects Plead for Saving of Shade Trees

The American Institute of Architects, through its committee on city and regional planning, deplores the extent to which city trees are sacrificed in street widenings and extensions. The committee recognizes the necessity for removing street and boulevard trees in some instances, but believes the destruction is far greater than would be necessary if due consideration were given ways and means to avoid it.

Attention is called to a California law which authorizes the planting of roadside trees where widenings make removals necessary. Other states, it is said, are providing extensively for shade tree planting.

When we consider the cost and care we give to grow city trees, the importance attached to trees in the development of new residential sections, we cannot but marvel at the ruthlessness with which beautiful old elms, oaks, maple or poplars are destroyed when a feasible change of planting might preserve them. — Kansas City Times.

Business Man's Problem

Many business men lose sight of the fact that the man who attends a country fair is there for a day only, at inconvenience to himself, and that he will perspire and have his feet stepped on and will eat peanuts and drink whatever they offer him, because he is there temporarily to satisfy a desire of his heart.

But when business is a fixed proposition, involving perhaps several generations in its making, with the traditions that are back of the organization of a city or town, and the consequence of the investment of money and the best thought of the human mind, the businessman must be careful whether he says, "I want my store so situated that only the first few who get there can be conveniently served."

Unless he treats this problem unselfishly with respect to that which the direct attributes that lie beyond give to him, he sooner or later is going to face the problem that he is losing trade, because that factor in trade, human contact, is not being adequately maintained.—George W. Elliott, general secretary Chamber of Commerce of Philadelphia.

Home Fire Hazards

The annual fire loss in the United States approximates $500,000,000, of which a large proportion is occasioned by fires in residences.

A part of the heavy yearly loss to home owners is due to the fact that the home, being a private institution, is not subject to the rules and regulations imposed by law upon factories and business properties, has no paid watchman, no compulsory clean-up, and if systematic fire inspection is carried on, it is done at the discretion of the owner.

Inexpert repairs and alterations inside the home and lowgrade or wrongly installed appliances may constitute serious hazards.

Construction Needs Study

It is necessary that the proper height, thickness of walls, general structure, and the position of the outlets of the chimney with reference to nearby buildings should be carefully noted and observed in selecting or building a flue.

Rectangular shapes should never have a diameter less than width and length of more than the ratio of two to one. No flue should be less than eight by eight inches, nominal measure, and not less than 30 feet in height.

Mr. See states: "The longshoreman's strike here is causing plenty of inconvenience. No gasoline in Portland, and as I am on my way there today, am taking enough along to get back home with. Plenty of activity on the reservation this year. About 650 men, mostly Indians, employed for the most part in I. E. C. W. camps (Indian Emergency Conservation Work.) Have a few Michigan Indians out here in this work. One fellow from Cross Village."

DEMONSTRATION AT BELVEDERE SUNDAY DREW LARGE CROWD

Sunday afternoon a life-saving demonstration held at the Belvedere pier on Lake Charlevoix drew a large and interested assemblage, Miss Rae Graveur and Tom Darling were in charge of the exhibition.

A short playlet entitled "How Swimming Began" proved to be very interesting to the spectators. The history of swimming was portrayed from the time of the Stone Age period up to and including all modern methods of swimming. Among those participating in the pageant were Joe Morris, Marjorie Edwards, Sam Lortz, Russell Lortz, Shirley Hollingsworth, Jimmy Tramel, Betty Bernard and Gertrude Zimmerman.

Miss Gravuer and Mr. Darling demonstrated the proper execution of all of the known swimming strokes, which was followed by an interesting exhibition of diving performed by Mrs. Jeane Darling, who appeared in many diving exhibitions in Miami, Fla., during the past winter season. The directors demonstrated the various methods of approaching a drowning person, carrying them to safety, breaking the different strangle holds, disrobing in deep water and artificial respiration.

A large crowd of Belvedere resorters and their friends witnessed the demonstration.

NEARLY FIFTEEN THOUSAND SPENT FOR RELIEF

The June report of the State Emergency Welfare Relief commission, showing a drop of 5.5 per cent in the number of families in the state needing aid either by dole or work relief, reveals $14,834.33 was spent in Charlevoix county on 881 cases. Local welfare officials report the relief load in the west portion of the county has dropped considerably since the opening of the summer resort season.

WILL PICK WINNERS AT 4-H CLUB CAMP

Gaylord Champs to Compete Against Other Districts at Detroit Fair

Plans for the encampment of 500 4-H club members and for the selection of district champions at Gay-Gag-Lun, Gaylord, July 30 to August 1, are announced by A. G. Kettunen, state club leader.

Those attending camp are selected from 5,500 members enrolled in 25 counties north of the Oceana-Bay line. Clubs in this territory are engaged in all forms of club activities from handicraft to forestry. Winners in contests at the Gaylord camp are awarded trips to the state fair at Detroit, August 31 to September 9, where they compete against representatives from lower Michigan and from the upper peninsula.

The members eligible to attend Camp Gay-Lun are honor delegates from their local clubs. The youngsters must have completed a project in a previous year and must be doing satisfactory work in the club activity in which they are now enrolled. The Detroit trips will be awarded to 28 winners in the various contests.

Activities at camp begin with the welcome campfire service and the tribal organization on Monday evening. The health contests in which one boy and one girl are designated health champions for the district will be held on Tuesday. Dr. Carlton Dean, Charlevoix, will select the winners.

The star Arcturus, which is so far away from the earth that its rays reach this planet 40 years after they leave the star, will have a part in the candle lighting service which will commemorate the completion of 20 years of extension work in the U. S. The master candle used to light the candles at the Gaylord camp was first lighted at Chicago by energy derived from Arcturus. The candle lighting service is to be held Tuesday evening when five boys and five girls will be honored by membership in the 4-H service club.

The ninth annual club banquet is scheduled for Wednesday evening and the winners of the style show, held during the day, will be announced at the banquet. Four girls are given Detroit trips for exhibiting the best garments in four different classes of costumes. These garments are made by themselves as part of their clothing club work. The garments compare favorably with dresses bought in stores and the girls get first hand information in the care and time necessary to make good looking clothes.

Motion pictures of the Chicago World's fair will be shown at the banquet by O. B. Price, agricultural agent of the Michigan Central Railroad. Several films depicting phases of club life will also be put on the screen.

Fun night, directed by C. H. Nickle, dramatics director, M. S. C., will be held Thursday evening. The public is invited to watch this amusement festival in which each of the 500 club members will take part. Group games and contests form the basis for the evening's pleasure.

The camp concludes Friday with contests and demonstrations to determine members of the teams who are to go to Detroit. Teams are selected in judging poultry, dairy cattle, canning, clothing and crops; and groups are selected to demonstrate some phase of poultry husbandry, dairying, housekeeping and growing crops.

A health service supervised by Mrs. H. Gaggisberg, county nurse, Otsego county, will be maintained at camp through the entire week. Meals are served at camp at prices which cover only the cost of food and its preparation.

All state leaders of club work will be at the camp and they will be assisted by A. C. Baltzer, specialist in dairy husbandry, M. S. C., and by Mrs. Lydia Lynde, specialist in child training, M. S. C.

STATE SALES TAX SURPLUS OVER 2 MILLIONS

Total retail sales tax collections for 1933-34 amounted to $31,897,508, recent official reports reveal.

Legislative appropriations and administration expenses consume $32,060,000. The surplus above definite allocations, $2,837,500, is assigned to school aid.

Legislative appropriations of the sales tax include $19,000,000 for state purposes; $12,000,000 for welfare; $300,000 for University of Michigan; and $200,000 for Michigan State college. Administration expense is estimated at not to exceed $360,000.

LEGAL NOTICES

STATE OF MICHIGAN
In the Circuit Court for the County of Charlevoix in Chancery.

PATRICK H. O'BRIEN, Attorney General for the State of Michigan, for and in behalf of Rudolph E. Reichert, State Banking Commissioner, Plaintiff

v.

CHARLEVOIX STATE SAVINGS BANK, a Michigan Banking Corporation, of Charlevoix, Michigan, Defendant.

Order to Show Cause

At a session of said court held in the court house in the city of Charlevoix, Michigan, on the 24th day of July, A. D. 1934.

Present: Parm C. Gilbert, Circuit Judge.

On reading and filing the petition of Patrick H. O'Brien, Attorney General for the State of Michigan, setting forth the details of a certain plan of reopening and/or reorganization of the Charlevoix State Savings Bank, a Michigan Banking Corporation of Charlevoix, Michigan, requesting that this court set a day for a hearing thereon and for an order, after such hearing, approving said plan for the reopening and/or reorganization of said banking corporation and this court being fully advised in the premises;

On motion of Patrick H. O'Brien, Attorney General, and Walter A. Kirkby and Byron Geller, Assistant Attorneys General, attorneys for petitioner

IT IS ORDERED, That a hearing upon the petition of Patrick H. O'Brien, Attorney General, upon the details of the plan of reorganization of said bank be held in my court room in the City of Charlevoix, Michigan, on the 13th day of August, 1934, at two o'clock in the afternoon of said day, or as soon thereafter as the same may be heard, why said plan of reorganization should not be approved, and an order entered by this court approving and permitting such reorganization and reopening of said bank in accordance with said plan.

IT IS FURTHER ORDERED, That depositors of said bank may at said time and place register any objections which they or any of them may have to said plan of reorganization, which objections shall be stated in writing.

IT IS FURTHER ORDERED, That notice of said hearing be given depositors of said bank by printing a copy of this order in the Charlevoix Courier, a newspaper printed and circulated in Charlevoix county, the county in which said bank is located and in which said petition is pending, by publishing the same in said newspaper once each week for not less than two successive weeks immediately preceding the date herein set for hearing upon said petition; and by posting a copy of said notice upon the front door of said bank.

PARM C. GILBERT, Circuit Judge.

MAKES YOU LOSE UNHEALTHY FAT

A young woman of Norwich, Conn., writes: "I lost 18 lbs. with my first bottle of Kruschen. Being on night duty it was hard to sleep days but now since I am taking Kruschen I sleep plenty, eat as usual and lose fat, too."

To take off fat—take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—one bottle that lasts 4 weeks costs but little—get it at any drugstore in America. If this first bottle fails to convince you this is the SAFE and HARMLESS way to lose fat—your money gladly returned.

Don't accept anything but Kruschen if you want to reduce safely.

WEEKLY CAMP CHARLEVOIX NEWS COLUMN

Edited by

ED. TAYLOR

Last Tuesday the juniors all went to town to see the Seils Sterling circus. All had a swell time enjoying the clowns, the wild animals and all the peanuts, pop, etc, that go with the circus.

Friday two baseball teams representing the camp traveled to Camp Fairwood, which is located on Torch lake, to compete with their teams. The elder boys' team lost 13 to 5, but the younger boys came back to even the count by winning 7-5. After the ball games everyone went for a swim and then we were guests of Fairwood for supper. The Chief and Herm Everhardus gave short talks after the meal. The return trip was delayed a short while by the arrival of the girls from a neighboring camp. All of the boys seemed inclined to want to stay but finally they were herded into the truck and returned home. The truck stopped in Charlevoix for a few minutes while all engaged in guzzling a few cokes and sodas.

At the campfire last Wednesday evening we were entertained by Frances Peters with his violin. First he played a few old time selections and then teamed with Larry Quinn and his harmonica for a few numbers. He then exhibited several tricks and entertained us with a jig dance and a song. We enjoyed his program greatly and hope that he will be able to give us another treat soon.

Last week several cabins were out on overnights. Monday night Mark Wakefield and Johnny Olwin took their cabins out on trips to Mount McSauba. John Piccard, the stratosphere authority, forgot his mess kit but took his knife and cut himself a set of eating tools and a birch bark plate. If all the campers had John's initiative perhaps the dish washing on trips would be abolished. Last Wednesday night Oke took his cabin to Pine Point in the canoes. Frank Smith's cabin paddled to Whiting park. Tim Neal's cabin made the same trip on Monday evening. The remaining cabins will take their trips this week. The purpose of these overnights is to acquaint the boys with the ways of camping out of doors and to get them ready for the week trips.

Larry Quinn gave the sermon in church Sunday morning. He used as his subject, "Getting Along With Your Fellowmen." Norman Pitcairn read the scripture after which Don Piccard gave a short prayer. A quartet composed of Wiley Hitchcock, Bill Thompson, Louis Spiesberger and Ed. Lilienfield, accompanied by Paul Van Kueren, rendered a special song. Bob Borden and Mrs. Reimann furnished the accompaniment for the singing.

Sunday afternoon the seniors took a trip to Mount McSauba and the 'Pirate ship.' The juniors took a hike down the beach and had a picnic supper while the intermediate section stayed in camp and used the boats and horses.

Monday the photographer spent the day in camp taking many different scenes around the campus. He took several pictures of the camp as a whole and one of the staff. Special groups, such as the riding, riflery, wrestling, basketball and football groups were then photographed.

Saturday afternoon a green-gray canoeing meet was held. The greys won in the junior section, while the greens were victorious in the intermediate contest. The seniors had the closest meet with the greys winning.

Saturday evening a big contest was held in the lodge. Each counsellor had charge of a game and the boys played each game in rotation remaining with their cabin. Mark Wakefield had charge of the games and spent a great deal of time fixing up the many different entertainments. "Tad" Wieman and ye editor were the scorers. Cabin 15 had the high score for the evening, marking up 324 points on the ten games. Cabin 11 was second with cabin 13 coming in third. "Red" Boetticher, Wendell Gates and Ray Pinkham were the high scorers for the evening. In each cabin prizes were given to the high men, the winners being Sidney Frohman, Bob Lausten, Bill Sill, Bob Reinhart, Bud Summerfield, Jim Karn, Bill Thompson, Jim Hart, Ray Pinkham, Bob Koebel and "Red" Boetticher.

"Tad" Wieman arrived in camp Thursday afternoon to spend ten days with us giving the boys instruction in football and athletic training. Tad has been conducting classes every day and has everyone in camp interested in football. He is also a good checker player and can be seen during his spare time playing three fellows at a time in checkers on the front porch. We certainly are fortunate in having him with us this summer for he has already, in these few days, added much to camp life with his wonderful spirit and by his inspiring talks.

This coming Saturday is Dad's day. Many Dads will be here at camp to enjoy the program which has been planned for them by Doctor Olwin and his committee. The fathers will go with their sons to their morning activity groups. In the afternoon there will be a ball game for each section with the fathers playing the boys. Then in the evening the big Dad's day banquet will be held with a special program following that.

Next week everyone in camp will be out on a trip. A group will visit the World's fair, another will go to Canada, some will take the horses, still another group will take the canoes down through the many inland lakes south of here, while the rest go in the sailboats. All of these trips will be real treats to the campers and each will have its own seperate adventures.

After abolishing the carnival last year it was decided to have it again this year since many of the boys and staff members requested it. (August 11 will be the big day and all friends of the camp are invited to attend. Wendell Gates will present his first marionette show as a special attraction.

Dick Thorsch of Highland Park, Ill., arrived Saturday morning to spend the rest of the summer. Dick was put in the Doctor's cabin in the senior section. He is a real boy and a veteran camper and will add much to camp life.

Mugwump! That mysterious word began drifting around camp the other day while everyone wondered what it meant. Some said it was a bird, others thought it was an animal, while others didn't have any idea what it was. Finally after much suspense Curt Matthews told us what the word really meant. The Mugwump is a stick with a knot in the end of it which is to be sheltered by one of the teams until the other team can take it away from them. Each time a team successfully shows it before a group of the other side and gets away with it they will be credited with points for their side. Many rules have to be put into effect to regulate the use of the Mugwump, but we think that it will add much to the contest between the greens and the greys. After flipping a coin "Red" Boetticher, captain of the greens, won the toss and received the sacred Mugwump and now it is up to them to keep it.

Earl Martineau, backfield coach at Princeton and a friend of "Tad" Wieman, will spend Thursday with us giving instruction in football. Since he was an all-American halfback at Minnesota he will probably spend most of his time teaching the boys backfield tricks.

"Orenda the Tooth Magician," was in camp Monday evening and gave a magic show. He is sponsored by the Good Teeth Consul for Children and is making a tour of all the camps in northern Michigan. Several of his tricks were showing how different food makes good teeth and others make bad teeth.

Several members of the staff have taken up bicycling this year. Wendell Gates and Herb Ackerman rode up from Jackson on their vehicles and every day someone has been riding. Wendell seems to be the most consistent cycler with Herb Oke and yours truly usually accompanying him.

Mark Wakefield seems to be the most successful fisherman in camp. He has brought in several nice messes of perch, having caught them here in the bay. Bob Lyon also has brought some nice fish in, making his catches in Susan lake.

At the staff meeting last week the famous Charlevoix scissors game was introduced to the new men. We'll wager they would still be playing if Herm Everhardus hadn't become disgusted and threatened to go to bed if they didn't explain it to him.

OF INTEREST TO FARMERS
By B. C. Mellencamp

On Tuesday, August 7, A. J. Bell, extension agricultural engineer, from M. S. C., will have the opportunity of visiting a large number of farms in the county to help in any problem pertaining to agricultural engineering. Please get in touch with your county agent if you would like to have us visit you. Possibly, you might be interested in irrigation, ditching, blasting, septic tanks, poultry house construction, and other forms of construction generally used on a farm.

It is felt that farm visits might be of more value than to have a public meeting. In this way, we can give personal attention to specific difficulties. Already, several requests have come to the office for a visit from Mr. Bell. Let us know at once so that sufficient time may be reserved for you.

CONGREGATIONAL CHURCH

Sunday, July 29th, we are introducing Rev Peter Koopman, pastor of the Atwood Reformed church. Rev. Koopman needs no introduction to Charlevoix people because of his appearance several times in our pulpit. He is a delightful and impressive speaker. You will be highly repaid if you attend the service.

You can also hear him over W. C. H. L., the local broadcasting station.

The Bible class, taught by Miss Emma Buss, is growing. If you wish a course in Bible study join this class at once. It will last through the summer. The class meets at 10:00 a. m.

Another interesting speaker will occupy the pulpit Sunday, August 5.

At Ironton Mrs. Miller, director of the National Dramatic Camp, will address the Ironton church Sunday morning taking as her subject, "Religious Drama."

CHOOSE MICHIGAN FOR YOUR VACATION

Michigan offers both the natural and man-made facilities for almost any kind of vacation one can desire. The vigorous follower of land and water sports . . . the lover of beauty in nature . . . the student of history or modern commerce . . . or the person interested only in doing a good job of resting' . . . all can satisfy their longing in Michigan, at surprisingly moderate cost.

Michigan's tourist and resort business brings large sums of money to the state each year. It provides employment for thousands, and greater prosperity for all of us. We can increase that business further by telling out-of-state friends about Michigan's vacation advantages and by spending our own vacations here.

And, no matter which part of Mirbigan you visit this summer, banish worry by telephoning home and office frequently. Call ahead for reservations, or to tell friends you are coming. Long Distance calls will add but little to the cost and much to the enjoyment of your vacation.

SAVE TO BUY
and
BUY TO SAVE

READ this headline forwards or read it backwards—it gives you the same, sound advice.

You have certain fixed living expenses—rent, food, clothing, light, and other necessities. You save money every week so that these bills can be paid at the first of every month. Whatever else you buy must come from surplus savings, over and above those set apart to cover living costs. To make those savings buy the utmost value for the money is the essence of true economy.

Save to buy—then buy to save. Know what you need to buy before going to the store. Know what you can afford to pay before you start out to make a purchase. That is the one sure way to get the most for your money.

Make it a habit to read the advertisements in your newspaper every day. By doing so you will learn where to buy the things you need and where your dollar will buy the greatest value. The advertisements will show you where to purchase better food, better clothes, and yet save you money. They will help you live better and enjoy the good things of life. They help you to buy in order to save.

VOTERS TO PASS ON SIX CHANGES

WILL APPEAR ON NOVEMBER ELECTION BALLOTS

Gasoline and Weight Tax Reductions, Reorganization of County Governments Included

Although nearly a score of proposed changes to the state constitution were discussed in the last few months, only six of the proposals have been qualified for places on the ballot at the November election. Five of the questions will be submitted to the voters after initiatory petitions bearing sufficient signatures were filed with the department of state. The sixth question was ordered on the ballot by the legislature. The order in which the proposals will appear on the ballot and brief summaries follow:

1. This provides that all judges be elected on non-partisan ballots.

2. This proposal would reduce the gasoline tax from three to two cents and would prohibit the legislature from increasing the tax above two cents a gallon.

3. At the present time the automobile weight tax is 35 cents per hundredweight. This proposed amendment would prohibit the legislature from increasing the weight tax above the present figure.

4. Reorganization of county systems of government along plans adopted by the legislature or submitted by initiatory petition, is provided for in the fourth proposal. The amendment would permit abolishing any present constitutional office upon approval of a majority of the voters in a county.

5. This proposed amendment would eliminate the "uniform taxation" provisions from the state constitution and would allow the legislature to enact an income tax law.

6. This proposal would give justices of the peace jurisdiction in civil cases up to $300 in cities of more than 250,000 inhabitants.

DEMOCRAT SEEKS SENATORIAL POST

C. A. Vogelheim to Run for Democratic Nomioation to State Senate

C. A. Vogelheim, prominent Rogers City business man and a life time resident of that city, has announced his candidacy for the nomination of state senator from the 29th district on the Democrat ticket. The district includes Alpena, Montmorency, Presque Isle, Otsego, Charlevoix, Emmet and Cheboygan counties.

Mr. Vogelheim is well known through this section of the state. He is a staunch supporter of the Democratic party and was one of the most active leaders in the last campaign. He is a member of the Mackinac Island commission and as such has had close contact with affairs in the northern section of the state.

For years Mr. Vogelheim has been a prominent figure in the fishing industry. He operates two boats out of the fishing fleet operating out of Rogers City. In more recent years he engaged in extensive building operations and erected many of the modern homes in Rogers City. He organized the Vogelheim Lumber Co., now in active charge of his son, Karl. Mr. Vogelheim has been affiliated with the Rogers City bank and has always been active in city affairs.

STICKER EXTENSION IS ASKED OF SOLONS

Fitzgerald Requests Use for An Additional Month

A poll of members of the legislature asking approval of a plan to extend the time for use of 1934 automobile half-year "stickers" from August 1 to September 1 has been started by Secretary of State Frank D. Fitzgerald.

The stickers were sold this spring at half the price of regular plates and were intended to license autos for the first seven months of the year. In addition, Fitzgerald asks approval of a plan to permit purchasers of new cars after August 1 to be licensed at the half fee instead of waiting until September 1.

Both propositions are submitted on the theory that the more cars operating the greater the collections of gasoline taxes.

HERDS ARE TOO BIG FOR FORAGE SUPPLY

(Continued from page 1.)

fit with low producing cows is in sight. Low producing cows are apt to be in better flesh than good dairy cows and will make better beef.

Owners of beef cattle and sheep will have the same problems that confront the dairymen, according to the animal husbandry department at Michigan State college. Beef herds and flocks of sheep should be reduced to meet the forage available in the community in which the animals are to be wintered.

Disposing of surplus beef stock and sheep will involve market complications similar to those encountered by dairymen. Early selection of surplus stock will permit their owner to choose the time of marketing better than if the decision to sell is postponed until winter. Beef cattle usually lose weight in periods of dry pasture and when flies disturb the animals the most. This often occurs in August in Michigan.

Many Michigan farmers, themselves or in cooperation with neighbors, can realize more profit from butchering surplus stock and preserving the meat for home use than by selling the animals alive on the open market. The animal husbandry department at the college has tested many ways of curing meat, and will furnish salting and pickling receipts to anyone who requests them.

The home economics division at the college now is showing at many places how meats can be canned and held through indefinite periods. Either tin or glass cans can be used and one or more women can work together to care for large amounts of meat. Bulletins describing this method of canning will be sent to anyone who requests "Successful Home Canning," extension bulletin No. 132, from the bulletin clerk at East Lansing.

Livestock owners, of course, will remember that no person now can foretell exactly what will happen in the future. Members of the college departments are performing their duty in pointing out present conditions. Favorable weather between now and winter can not change the situation of too little forage for the numbers of livestock now on farms in Michigan.

TRAVERSE MAN ADMITS GAS THIEVING

Given Thirty Days in Jail—Drained Cars on North Side

Local sheriff's officers believe they have checked the persistent theft of gasoline from cars parked on streets of the north side district.

Archie Champagne of Traverse City, whose car contained a hose and five 5-gallon cans of gasoline, was found one night last week on Auld avenue, was later arrested by Traverse City police and turned over to Sheriff Floyd Ikens.

At a hearing before Justice H. R. Fowler, Champagne pleaded guilty to a charge of larceny and was given a 30-day jail sentence and assessed costs of $15.

According to Prosecuting Attorney A. L. Fitch, Champagne has a previous record.

Duty Removed for Outboard Motors, Tents, Camping Equipment

An announcement of considerable interest to those contemplating a Canadian vacation is the recent modifying of the customs regulations on tourists' outfits.

Outboard motors, tents and camp equipment, on which a deposit has been required in the past, are now included with the articles that may be admitted free of either duty or deposit. Other articles in this class are guns and rifles, fishing tackle, golf clubs, tennis racquets and cameras.

Complete information on such matters is contained in a leaflet "How to Enter Canada," issued by the National Parks of Canada, Department of the Interior.

INDIANS TAKE SLUGFEST FROM PETOSKEY

Defeated Kahler & Friend Team 18 to 5 Last Sunday

In a game featured by five double plays and the strong hitting of the local club, the Charlevoix Indians defeated the Kahler & Friend team from Petoskey by an 18 to 5 score here Sunday afternoon.

Peters went the route for the Indians on the mound, gathered several long hits and was ably supported behind the plate by "Stub" Lord. Thompson, who started for Petoskey, was relieved in the seventh inning by Yohr.

The Indians meet the fast Kegomic M. T. & E. team next Sunday afternoon at the south side park. Peters and Lord will be the starting battery.

"Truth" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, July 29.

Among the Bible citations is this passage (Hebr. 4:12): "For the word of God is quick, and powerful, and sharper than any two-edged sword, piercing even to the dividing asunder of soul and spirit, and of the joints and marrow, and is a discerner of the thoughts and intents of the heart."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p.420): "The fact that Truth overcomes both disease and sin reassures depressed hope. It imparts a healthy stimulus to the body, and regulates the system. It increases or diminishes the action, as the case may require, better than any drug, alterative, or tonic."

VISITORS DAY AT BIOLOGICAL CAMP

PUBLIC INVITED THERE ON SUNDAY, AUGUST 5

Visit to University of Michigan Station on Douglas Lake Provides Unusual Pleasure

The University of Michigan Biological station cordially invites the public to its annual visitors' day on Sunday afternoon, August 5, 1934, from 2 to 5 p. m., eastern standard time. There will be educational exhibits of plants and animals of northern Michigan and displays of class work and investigations in progress.

The biological station is located on the southeast shore of Douglas lake, Cheboygan county, on the old Cheboygan-Petoskey road, 13 miles from Cheboygan. The roads from Cheboygan, Topinabee, Brutus and Pellston will be well posted with biological station signs. There will be plenty of room to park, help in parking, guide service and free admission to all places of interest. Come and meet your friends.

The biological station is now holding its 26th consecutive session, having been established on Douglas lake in 1909, as a part of the University summer session. It was the aim of its founders to provide training of a sort which could not be had at colleges and universities during the regular session and to give opportunity to investigate the plants and animals of a part of the state not usually visited by scientists. From the first, the courses offered have stressed work in the field rather than the laboratory. More than 1,200 individual students have studied here, while many have returned for several summers. During the early years, the enrollment varied from 13 to 30 or 40, but for some years past it has ranged from 90 to 100, with a maximum enrollment of 108. This year there are 92 students, 51 men and 41 women. The largest number of students always comes from Michigan, this year 21, but 21 other states are represented. After Michigan, Ohio, Illinois and Pennsylvania send the most students. Far-away Arizona, Utah, West Virginia, South Carolina and New Hampshire send one student each.

The investigation of biological problems has from the first received much attention. More than 330 scientific reports on the plants and animals of the region about the biological station have been published and these have been distributed to the biologists in this country and abroad.

The University tract of about 4,000 acres lies between Douglas and Burt lakes with frontage on both lakes. Entirely cut over many years ago, this tract is now being replanted under the direction of Professor W. F. Ramsdell of the School of Forestry and Conservation. Since May 1, 1931, when this work began, more than 650,000 trees, mostly white and Norway pines, have been set out, using labor secured within the neighborhood. Members of the forestry school are carrying out basic scientific studies which are expected to result in the improvement of the forest in this tract.

Many miles of fire lanes have been constructed and maintained to give protection to the developing forest and the buildings. The funds for the planting and for fire lane construction have come very largely from the Pack family, formerly of Saginaw, while the young trees were presented by the state nursery near Roscommon.

Since the biological station is located far from any village, it must provide for all the needs of its population of more than 160 people. Its 130 buildings are arranged as a village on a main street paralleling the lake shore and on cross streets. Eleven buildings are used for laboratories and 92 for living quarters. The remainder include the administration building containing offices, stock room, store and photographic rooms on one floor and the dining room and kitchen on the other; club house; library; aquarium; garages and harbor building. The station has water and sanitary systems, and gets its electricity for light and power from the power line crossing the tract.

On its annual visitors' day, the station opens its doors to its friends and to those who wish to learn more concerning its nature and work. There will be numerous exhibits, all free, plenty of parking space for cars, help in parking, and guide service.

The hours for visitors' day are 2 to 5 p. m., eastern standard time; the date, Sunday, August 5. A cordial invitation is extended to all.

MRS. JOHN CARBERRY, BELOVED WOMAN, DIES

Funeral Services Conducted Saturday from St. Mary Church

Funeral services were conducted at 9 o'clock Saturday morning from St. Mary church for Mrs. John Carberry, beloved and respected local woman, who died at 3 o'clock last Thursday at her home on Garfield avenue following a lingering illness.

Mary Graham was born August 15, 1859, at Springbrook, N. Y. She came to Charlevoix with her parents at the age of six years. About 40 years ago she was united in marriage at Buffalo, N. Y., to John Carberry. The couple had made their permanent residence in this city 22 years.

Surviving besides the husband are a daughter, Mrs. M. J. O'Brien of Cheboygan, and a son, William E. Collins of Boston, Mass.

Belvedere summer residents whom Mr. Carberry has served over a long period of years, gave the use of the cars for the funeral.

RIVIERA TENNIS TOURNEY MONDAY

9TH ANNUAL CHAMPIONSHIPS AT THE INN COURTS

Usual Field of Outstanding Tennis Stars Are Entering Play in All Divisions

Play in the 9th annual Michigan Riviera tennis championships, Charlevoix's major summer entertainment feature, will open Monday, August 6th, at The Inn clay courts.

Considered one of the outstanding tennis events in Michigan, the Riviera will again draw a field of prominent tennis stars. Due to the fact the tournament this year does not conflict with any other major tournaments in nearby states, the entry is expected to exceed that of a year ago in quality and probably in number.

Entries have been coming in at a good rate the past week. Heading the list of nationally known players will be Karl Kamrath of Austin, Texas leading player in the Texas association; Scott Rexinger, Chicago, ranked fourth in the Western Association; Carl Fischer, 1934 Detroit city champion and 1933 runner-up in the Riviera. Jack Harris, 1933 champion, will defend his title and it is rumored John Hennessey, former Davis cup star and many years Riviera champion, may participate. However, Club officials have not received his formal entry.

Walter T. Hayes, official of the Western Lawn Tennis Association, will head the Chicago contingent and will act as official referee.

In competition for the women's singles title will be Miss Catherine Wolf of Elkhart, Ind., the defending champion and first ranking player in the Western Association. Lucille Daily of Saginaw, Michigan closed doubles champion, is an entry, and it is anticipated Mrs. Ruth Reise, also of Saginaw and former Michigan champion, will participate.

The junior field at the present time is douhtful. Few entries in this division have been received up to the present time, although it is anticipated the usual Detroit contingent, augmented by entries from northern Michigan summer boys' camps, will result in the usual large field.

Entries for the tournament will close Monday noon, August 6, and the draw will be made immediately afterwards. It is quite probable play will start Monday afternoon.

TWO DEMOCRATS SEEK LEGISLATIVE OFFICES

Elmer G. Smith, Gaylord, and Wm. J. Schram, Omena, Qualify

Due to incomplete information at the time of publication last week, the names of two petitioners who qualified for nomination at the September primary election were omitted.

They are Elmer G. Smith of Gaylord, Democratic candidate for state senator of the 29th district; and William J. Schram of Omena, Democratic candidate for state representative from the Charlevoix-Leelanau district.

ANNUAL MEETING BELVEDERE CLUB

WILL BE HELD AT CASINO TUESDAY, AUGUST 14

Dates of Annual Belvedere Golf Club Handicap Tournament Announced for August 15-18

Notices of the annual meeting of the Belvedere Club, to be held at 10 o'clock Tuesday morning, August 14, in the casino, have been issued by Emerson W. Price, secretary.

At this session the annual reports of the secretary and treasurer and the various committees will be heard. Election of officers will be an important part of the yearly business. Three trustees will be chosen, as the terms of George D. Webb of Chicago, James B. Balch of Kalamazoo, present president of the Club, and Logan G. Thomson of Cincinnati, Ohio, expire on the date of the annual meeting.

The report of E. J. Edwards, warden, on improvements on the Club grounds, cottages and properties will be of unusual interest.

Golf Tourney Soon

The annual Belvedere Golf Club handicap tournament for hotel guests, cottagers and their guests has been announced for August 15-18, inclusive.

The qualifying round of 18 holes will be played on Wednesday, August 15th. The first eight qualify for the Belvedere cup, which must be won three times for ownership, and others qualify for subsequent flights of eight. Match play will start Thursday, August 16. All matches will be 18 holes excepting the championship finals, which will be 36 holes.

Prizes will be awarded winner of the first and subsequent flights, also to the low medal score in the qualifying round.

The committee in charge of the tournament is composed of R. V. Clark and C. B. Fox of St. Louis, Mo., and C. W. McGuire Jr. of Chicago.

Announcement of the dates for the annual Belvedere tennis tournament, another popular entertainment feature at the Club, are expected within a short time.

Plans are in the making for a day of water sports at the Belvedere Club. Tom Darling, swimming instructor at the Belvedere, and Miss Rae Gravuer, a qualified Red Cross [illegible] for the day of sports [illegible] outstanding list of attractions.

ANNUAL CABARET SHOW AT THE INN

PROGRAM FRIDAY NIGHT AT PATIO, 8:30 O'CLOCK

Outstanding Talent Featured In Annual Summer Entertainment — Public Invited to Attend

The annual cabaret show, a yearly summer entertainment feature, sponsored by the management of The Inn, will be an event of Friday evening of this week.

The program, with Abner C. Rozenzweig, Detroit theatrical director, as master of ceremonies, will open at 8:30 o'clock at the beautifully lighted and decorated patio on the grounds in front of the hotel.

Featured on the program will be Rudy's Inn orchestra with Rudy and his "talking violin;" The Inn ballet and chorus; Ione Randels, Ann Arbor composer, who will favor with piano selections; Raymond York of Southern Pines, N. C., with popular songs; R. A. Smith of Cleveland, Ohio, who has pleased Inn audiences in previous years with his vocal numbers and is a popular opera artist.

Other program numbers will feature Judith Schalfer of Detroit, with impersonations; Lynn Beth Nover, another Detroiter, in tap specialties; Sylvia Lenich of Detroit, with song selections; Lois Schalfer, Detroit, songs and impersonations; Tula Greenberg of Detroit, with vocal selections, and Betty Ann Cohen of Detroit, accordian artist.

A final number which is heralded as a surprise and has not been announced will climax the program.

The evening of entertainment will be open without admission charge to all those desiring to attend. The artists on the impromptu program are recruited from the talented members of the Charlevoix summer colony. The Inn management extends a cordial invitation to all.

AUTO STICKER GOOD UNTIL SEPTEMBER 1

Secretary Fitzgerald Announced Another Month Extension

The use of motor vehicle half-year license permits is extended to September 1 and registration of all unlicensed motor vehicles at the half-year rate will become effective August 1.

This announcement was made by Secretary of State Frank D. Fitzgerald after securing approval of a majority of the members of the legislature. The legislators showed clearly they approved of both plans to provide tax relief for the motorist.

Not only will this action on the part of the department of state give relief to the 400,000 motorists now using the windshield permits but it will also mean added revenue to the state in permitting the uninterrupted use of thousands of motor vehicles. Many thousands of owners have shown that they cannot secure 1934 plates by August 1.

The value of tax reduction and tax relief to the motorist is shown by the fact that over 100,000 more motor vehicles are licensed for use this year than in 1933 and also by the increase in gasoline tax revenue which, it is estimated, will be $1,500,000 more in 1934 than in 1933.

WILL CONTINUE PARKING EAST SIDE BRIDGE STREET

Take Year Lease on Ayres Boal and Washburn Properties With Option to Purchase

Lease for one year, providing subsequent purchase of two parcels of property on the east side of Bridge street for park purposes, was voted Monday night by the city council at an adjourned session.

The action will result in the continuance of a plan started several years ago to acquire and divert for landscaping and parking the Round lake frontage on the east side of the city's main business thoroughfare. Previous efforts in this direction resulted in the beautification of the entire block between Antrim and Mason streets with exception of the parcel occupied by the Priest building. It was an improvement of decided advantage to a resort community in the opinion of many progressive citizens.

[illegible] included all of the Ayres Boal property excepting the building occupied by the Min-Eva Restaurant, and the entire Washburn property east to Round lake and south to the alley north of Hotel Charlevoix. The transaction on the first parcel calls for one-year lease at $1,200 to apply on purchase price of $8,000; and that on the Washburn property for one-year lease at $1,000 to apply on $6,000 purchase price.

While the council did not go into the details of improvements contemplated, it is believed the plans as previously followed will be carried out. The council vote on the transaction was 5 to 1, Alderman Kihhe of the second ward opposing.

Another step toward final acquisition of the Wilbur property for sewage disposal plant site was taken when the council voted to enter formal contract for purchase of the property.

BUSINESS MEN ADVISED ON ERA ACCOUNTS

All Bills Must Be Presented On or Before 5th of August

Local business men holding bills against the ERA which date back to April or before are given final warning by the Lansing state headquarters that unless these bills are received for payment on or before August 5th, it will be impossible to pass them for payment.

The local ERA office, on the strength of the Lansing office information, has issued the following concerning bills against the organization:

"Unless April bills are received by us for approval on or before August 5th, it will be impossible to authorize them for payment.

"All May bills must be submitted on or before August 20th.

"Outstanding April relief orders should be cancelled as of August 10th."

DRAMA CAMP PRESENTS NEW PLAYS

START AUGUST PROGRAM WITH "SATURDAY'S CHILDREN"

Augmented Cast Is Coming for Presentation Soon of "Ten Nights in a Barroom."

The players at Ironton who are associated with the National Dramatic Camp are presenting one of the finest pieces of work that they have done in their two seasons at the Theatre by the Lake. The play is "Strictly Blackmail," a thrilling melodrama that grips the audience with suspense at the very first entrance of Lady Marley and which carries that suspense through the exciting murder of the second act to the final pathetic confession of the true murderer.

An excellent play, containing all the tricks of dramatic suspense, capably acted by these seasoned players.

Dorothy Fritz gave an exciting and thoroughly finished enactment of the woman who is the cause of all the trouble and the instigator of the blackmail from which the play receives its name. Elvera Baker was seen possibly to the best advantage thus far this season, as the cultured, harrassed and noble wife, whose courage won her final happiness.

Maury Tuckerman was great as the wastrel, whose misspent life was so artistically and flawlessly portrayed by this very fine actor. Mr. Tuckerman acted as an excellent foil for Lester Griffith, the unimpeachable, yet understanding doctor who was somehow entailed in all the trouble, through no fault of his own.

Edna Mower, the daughter of Walter Mower, and a summer resident of Ironton, added a delightful comedy bit as one of the alibis in the last act.

Gretchen Rickel and Harry Young were well cast as the two young lovers.

Other interesting contributions were offered by David Houman, Gregory Miller, Murray Roth, William Kimball and Hazel Allen.

On August 1, 2 and 3 the company will produce, "Saturday's Children," an entertaining comedy of love among the middle classes, by that great American author, Maxwell Andersnn.

One of the big treats of the current season at Ironton is the coming of an augmented cast to produce that [illegible] that every adult will want to see, and that every child should see, that he may be informed and entertained in the grand theatre manner of the nineties.

LATTER DAY SAINTS WILL HOLD REUNION

Annual Meeting at Park of Pines from August 3 to 12

The 14th annual reunion of the northern and western Michigan districts of the Latter Day Saints' church will be held August 3-12, at the Park of Pines, located two miles northeast of Horton Bay on Lake Charlevoix.

The daily program provides for class work in religious education in the forenoon, recreation in the afternoon and preaching in the evening. Religious services will be held all day on both Sundays, beginning at 9 o'clock.

Fine music and good teachers and preachers will be provided. The public is cordially invited to attend the services.

FISH PONDS PROVE A POPULAR ATTRACTION

Visited Daily by Hundreds of Tourists and Summer Visitors

Proving a popular attraction and visited daily by hundreds of tourists and summer residents, the fish ponds constructed last winter as a CWA project in the city park on Bridge street, are proving a worthwhile venture.

Thirty native rainbow trout, ranging from 9 to 14 inches in length, have been placed in the upper portion of the pond and in the lower are smaller fish of the same species. The fish were obtained from the state hatchery at Oden, by William H. Wallace and Milton Block.

Where a slip means death!

MOST AMAZING PROOF EVER KNOWN OF EXTRA TRACTION AND NON-SKID SAFETY

UP . . . UP . . . UP . . . to 14,000 feet above sea-level! Skirting yawning chasms, tearing around 181 treacherous turns at breath-taking speeds, daredevil drivers fight their way up, grinding, pounding, swaying! In the annual Pike's Peak Race, where a slip means death, Firestone High Speed Tires were on the winning car. Surely this is the most amazing proof ever known of Extra Traction—Non-Skid Safety—and Dependability!

The new Firestone High Speed Tires for 1934 have the toughest, longest wearing tread Firestone has ever made. They have a wider tread of flatter contour, deeper non-skid, more and tougher rubber, giving you more than 50% longer non-skid mileage.

Every cotton filer inside every cord is soaked and coated with Extra Rubber — eight additional pounds absorbed by every 100 pounds of cotton cords. This is Gum-Dipping, the Firestone patented process that provides *extra Blowout Protection.*

50% LONGER NON-SKID MILEAGE

Remember — with every Firestone Tire you get the Triple Guarantee

OF INTEREST TO FARMERS
By B. C. Mellencamp

Ten Women Attend Farm Women's Week

Over 600 ladies from all over Michigan attended the annual Farm Women's week at the Michigan State college from July 22 to July 27. Charlevoix county was again represented by a splendid group of ten ladies who have participated in the home economics extension program carried on in this county.

From early morning until late evening, it was a constant round of meetings, recreation activities and entertainment stunts. One lady reported that she had never had a better time and that she wouldn't have missed it for anything in the world. Another lady said that she didn't even dream that Michigan State college had so much to offer in the way of assistance to Michigan people. In fact, some of the ladies have become accomplished tap dancers. Others have studied dramatics and still others have interested themselves in community problems.

The following ladies attended this week from Charlevoix county: Mrs. Louis Lockman, Boyne City; Mrs. Bernice Anthony, Boyne City; Mrs. Ida Detcher, Boyne Falls; Mrs. Emmeline Howard, Boyne Falls; Mrs. Bert DeNise, Boyne Falls; Miss Mary Sevenski, Boyne Falls, Miss Martha Sevenski, Boyne Falls; Mrs. Mabel Olson, Mrs. Nellie Ranney and Mrs. Orvie Gunsolus, East Jordan.

Charlevoix County Guernsey Tour On Monday, August 6th

The first Charlevoix county Guernsey tour has been scheduled for Monday, August 6. All Guernsey breeders in the county are looking forward to visiting many of the leading Guernsey herds throughout the county. A. C. Baltzer, dairy extension specialist from the M. S. C., will be [illegible] discussing the various points of interest on the various farms. During the noon hour at Whiting park, he will informally discuss the dairy problems that exist today.

In past years the Guernsey Breeders association has had a show and picnic. This year, it is felt by the board of directors, that a tour would be something different and would afford the dairymen throughout the county an opportunity of seeing what the other man is doing on his own farm, under farm conditions. Every dairyman in the county, whether he is a Guernsey man or a lover of any other breed of cattle, is cordially invited and urged to attend this tour or any portion of it that it is convenient to contact.

The following schedule will be carefully adhered to:

First stop 9:30—A. M. Murphy, East Jordan. One mile southwest of East Jordan. Herd of purebreds. Shows similarity of type and produce between dam, daughters and granddaughters. Purebreds largely developed from one cow. Real type.

Second stop 10:00—Irving Crawford, East Jordan. Across road from South Arm grange hall. Proves that a good purebred sire used on grades can develop a fine producing herd. Herd consists of good rugged practical farm type characters.

Third stop 10:30—Floyd Liscum, East Jordan. Next to Ranney school. Six farmers have organized a bull association. Best example in county of what a good bull will accomplish in the community. See their new sire and some of the young stock.

Fourth stop, 11:30—Bert Elliott, Charlevoix. Two and a half miles northwest of Phelps. Herd started from a calf club animal. Now has all purebreds except two head of cows. Represents size, production and quality that one dreams of but seldom attains. Only bulls of rich breeding used.

Fifth stop 1:30—Whiting county park. Basket dinner. A. C. Baltzer will speak.

Sixth stop 2:30—Ray Loomis, East Jordan. Two miles southwest from Whiting park. See what can be done by using good sires plus good feeding and management. Again, you will see fine size, type and rugged constitutions. Both purebreds and grades.

Seventh stop 3:00 — New fire tower. It will be interesting to see the new tower recently constructed. A beautiful view of the surrounding area from this point.

Eighth stop 3:30 — Clyde Clute, Boyne City. One-half mile east of Tainter school. Ten years ago, all breeds could be found on this farm. The use of good sires has now been responsible for high quality Guernseys, possessing real Guernsey type and production. Shows results of constructive breeding and careful culling.

Ninth stop 4:00—Ben Gardner, Boyne City. On Wildwood Harbor road. As a successful ending, see this beautiful farm home, rich in beauty. Result of the home landscaping project.

With a program like this lined up, most certainly, a large number of dairymen in the county should enjoy the day. It will be a day of relaxation and rest. See first hand the development that has taken place in these herds.

Michigan State Fair to Truly Represent Michigan Agriculture

The Michigan state fair this year, is endeavoring to attract more exhibitors from northern Michigan. One contest that I believe should be of interest to farmers in this county is the Ira H. Butterfield Memorial grain growing contest. The premium list in this contest is $357.00, first prize, $15.00 in each of the wheat, barley and oat classes. This contest is developed primarily to recognize the best yields of the three grains. To enter, the farmer must have a field of five acres or more of each of the grains. A representative pick will make up the exhibit at the fair. The field must be measured by the county agent, Smith-Hughes instructor or [illegible] improvement association. The yield will be witnessed and the awards will be based on the yield, size of field and quality of grain.

Another exhibit that should be of interest is one for the largest animals in the state of Michigan. Fifty dollars will be paid out as first prize for the largest horse, beef animal, dairy animal, ox team and for the smallest pair of animals broke to drive. Twenty-five dollars will be paid for the largest sheep and hog. In addition, $20 for transportation will be allowed if the distance exceeds 100 miles one way. If interested, kindly contact your county agent who will give you more details in these classes and the other departments.

The boys' and girls' club department this year has been brought up to the extent that the premium list is much greater than it ever has been before. It is hoped that several of the club members in Charlevoix county will enter the competition.

County Wheat Reduction Contract Signers Hold Annual Meeting

As prescribed by the by-laws of the Charlevoix County Wheat Control association, the annual meeting of all members was held last Monday night at the Marion Center grange. A full attendance was present. Arlo Wickersham presided at the meeting as president. The election of officers for the 1934 year resulted in Arlo Wickersham, Charlevoix, president, D. E. Ingalls, Charlevoix, vice president, and Floyd Black; Charlevoix county, secretary, all for a one-year term.

Other important business transacted was that of executing the proof of compliance certificates, the adoption of a new budget and the authorization of rates of pay for the various services.

The 1934 program is very similar to the 1933 activity in that the same reduction of crops will take place and the same payments will be made. This reduction program is to continue through 1935 which will complete the three-year agricultural policy. It is gratifying to announce that all members of the association have complied with all the requirements and have entered into the program for this year.

CHRISTIAN SCIENCE CHURCH

Sunday morning service, 10:45.

Every Wednesday evening at 7:15.

Reading room Tuesdays and Saturdays, 3 to 5 p. m.

"Love" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, August 5.

Among the Bible citations is this passage (I John 4: 7,8): "Beloved, let us love one another: for love is of God; and everyone that loveth is born of God, and knoweth God. He that loveth not knoweth not God; for God is love."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p.205): "When we realize that there is one Mind, the divine law of loving our neighbor as ourselves is unfolded; whereas a belief in many ruling minds hinders man's normal drift towards the one Mind, one God, and leads human thought into opposite channels where selfishness reigns."

MARION NEWS

Mrs. Joe Stover called on Mrs. Charles Cellner, Monday.

Introducing the
JUNE BRIDE
to Phillips 66

Married just one month . . . honeymoon is over . . . budgets begin . . . and hubby's theme song is, "We gotta watch our pennies." So let's listen in as Bob tells Mary, in six easy lessons, how to save money when buying gasoline and oil:

LISTEN, MARY—PHILLIPS IS ONE OF THE BIGGEST COMPANIES IN THE BUSINESS. WHY THEY ARE THE WORLD'S LARGEST PRODUCER OF NATURAL HIGH TEST GASOLINE
July GRAVITY (FOR HIGH TEST RATING) 62.1° TO 66.5°
LOOK HOW THEY PRINT THE OFFICIAL HIGH TEST FIGURES OF PHILLIPS 66 EVERY MONTH. NO SPREADEAGLE WORDS, PLAIN FACTS. I WONDER WHY OTHER COMPANIES DON'T PRINT THEIR GRAVITY FIGURES!
AND WHAT MILEAGE! THIS PHILLIPS 66 IS A GREAT GAS ALL YEAR ROUND. NOT JUST SUMMER OR WINTER, BUT MORE MILES TO THE GALLON EVERY MONTH IN THE YEAR. CONTROLLED VOLATILITY DOES IT. SOUNDS KIND OF TECHNICAL, BUT IT SURE WORKS WONDERS
NOW FOR ANTI-KNOCK QUALITY, ONE SURE WAY OF KNOWING IS TO LOOK FOR THIS PLATE ON THE PUMP. IT'S REQUIRED BY LAW IF THE GASOLINE CONTAINS LEAD TETRAETHYL—AND THAT'S THE FINEST ANTI-KNOCK FLUID DISCOVERED UP TO NOW
BUT DARLING DOESN'T SUCH A WONDERFUL GASOLINE COST MORE MONEY? DON'T IT 2¢ EXTRA A GALLON?
THAT'S THE BEST PART OF IT. PHILLIPS 66 DOESN'T COST A SINGLE CENT MORE THAN ORDINARY GASOLINE
AND DON'T FORGET, ALWAYS GET PHILLIPS 66 MOTOR OIL THE SAME PLACE YOU GET GAS. IT IS JUST RIGHT FOR OUR KIND OF HIGH SPEED MOTOR. IT'S A GREAT OIL AND VERY ECONOMICAL

Phill-up with Phillips

You can get it all Phillips "66" Stations. Look for the Orange and Black Shield Signs.

WORKERS OF MAGIC

For a first class example of sleight of hand financing we cite the following record made at Lansing:

Welfare takes the money the legislature appropriated for the schools.

The schools received advances from the general fund.

The general fund spent the auto tax money.

The counties went begging.

The highway department operated largely on federal aid.

We note that the democrats call this a business administration, but it looks to us like another case of the hand being quicker than the eye.

THE RURAL SCHOOL

A popular bit of news among the correspondents for country newspaper weeklies these days are accounts of the annual district school meeting. Invariably it is the leading item of local news for that week. The interest shown by a community in the rural school district meeting is indicative of the large place occupied by the rural schools in the improvement of country life. The rural school is close to the heart of the people it serves. Contacts are intimate and personal. The rural school is a center of the intellectual life of adults as well as young people. Preserving this educational foundation of the Republic is the first duty of every American citizen.

THE MOTORIST'S FRIEND

Through the efforts of Secretary of State Frank D. Fitzgerald, use of half-year license stickers has been extended to September 1. At the same time the half-year rate on new registrations will become effective August 1.

Michigan motor car owners have much for which to thank Mr. Fitzgerald. He has been untiring in their behalf, leading the campaign which resulted in the substantial lowering of the weight tax by the legislature this spring. Through Mr. Fitzgerald's practical solution of the many problems confronting the motorist during these trying times more than 100,000 more than of a year ago, are now driving their cars. Such sympathetic understanding is most worthy of commendation.

DUE FOR REVISION

One act of the 1933 legislature that is due for harsh criticism and practical revision by the 1935 legislature, is the Motor Vehicle Financial Responsibility Law.

As knowledge of this law becomes more widely diffused thru its application the greater becomes the belief that the legislators were caught napping while the insurance companies were slipping something through the legislative hopper that was little short of compulsory automobile insurance, if not actually worse.

As an example of somebody's fine hand in writing the Act, one section provides that where it becomes necessary for an automobile owner to file a certificate of financial responsibility it must be continued in force and effect for a period of three years. We can conceive of nothing more unfair or excessive in the way of selfish legislation as it affects the poor man and no automobile.

AMERICANS—A QUEER LOT

We are a queer lot, we Americans. We expect whatever party happens to be in charge of the government to so manipulate the handling of public affairs as to afford us a cure for the results of our own folly. We seem to assume that it is possible for us to get well economically by the waving of a magic wand. We think we can force prosperity and to the majority of the people of the country prosperity means a return of the hectic days preceding the stock market crash of 1929. This theory disregards the fact that those hectic days were created by false and inflated values which in turn were created by a false and inflated philosophy. In the creating of this inflation we disregard all natural laws of economics; it is absurd for us to expect to escape trouble by the same process. But it cannot be done. The only way back to solid ground and sound prosperity and will being exercised with common sense, courage and will be by the exercise of thrift and hard work and in keeping of the budget of every individual. E. P. Chase.

TOO RIDICULOUS

The efforts of some over zealous tax reducing enthusiasts who are circulating petitions to place a constitutional amendment before the voters at the coming fall election to reduce the gas tax seems to us as ridiculous. Loading the constitution down with amendments prohibiting this, that and the other thing that are trivial and subject to changing sentiment seems unwise.

And yet how easy these proposed amendments can be forced on a ballot as long as men and women will sign any kind of a petition that is presented to them with a few words of commendation for their proposition.

If people who are presented a petition to sign could be as free to say no as yes, and not sign any petition until they understand it and are personally in favor of it, the abuse of the petition racket would be done away with.

To lower the gas tax might be a commendable action one year and ill advised a year or two later. Anyway it seems to us to be a matter for the legislature to deal with.

And we are not criticising the constitutional right of any person to petition his or her government for relief. What we do deplore is the fact that so many people will sign petitions without reading them or understanding what effect they will have.—Augusta Beacon.

CHURCH OF GOD

C. A. Stewart, D. D., Pastor

There will be no services at the Church of God, due to the annual camp meeting that begins this Friday, August 3, and continues thru August 12th. The camp grounds are located about two miles from Charlevoix, adjoining the Loeb school. Some of the outstanding ministers of the Church of God will preach. Meetings from 6 o'clock in the morning throughout the day, closing each day with a service at 7:30 at night. Messages on "Full Salvation," "Christian Living," and "Divine Healing." Meals served on the grounds on the free will offering plan. A cordial welcome to all.

At the rate they're going with liquor regulations, they'll probably have them so complicated finally that the only way a man can get a drink will be to consult a lawyer.

It is said a really valuable puppy costs as much as $5.00 a week to keep. So it isn't the original cost, it's the upkeep.

Let the government, as for the individual, there is but one way to reduce taxes—spend less money.

Investment in School Buildings Gets Results

Security and return constitute the two important factors in any investment and the astuteness of New York city as an investor is indicated by the vast sums of money expended on the school building program. The security of the investment is assured by the permanently increased land valuation in localities where new schools are built and is guaranteed by the unusually long usefulness of the structures, since it is estimated that a school building outlives the ordinary structure two or three times. Other benefits from this vast investment are manifold, the outstanding results being represented by three important and profitable returns:

First—Better citizenship by the more thorough, educational facilities afforded children and in many instances promoting a community spirit and advantageously benefiting the adults in the neighboring surroundings.

Second—By the development of new sections in outlying portions of the city, resulting in enhanced real estate values from which the city secures increased taxes.

Third—By the unearned increment, since in practically every instance the land and structures are valued far in excess of the original cost.

"Tie House to Ground," Is Shrubbery's Purpose

In considering shrubs to be planted in the front yard, there is a very large variety to select from.

The purpose of such planting is first to "tie the house to the ground," and next to mark the boundaries of the lot. Not all houses need planting about the foundation to make them look as though they grew there, but most do.

This planting must be adapted to the architecture. It may be continuous, that is, unbroken, so that the foundation is nowhere visible, or it may consist of groups of shrubs at the corners and angles. The problem is very much like that of designing a lady's hat. The idea is to produce a decoration which will harmonize with and set off the lines of the house, as a hat harmonizes with the face, and emphasizes its wearer's beauty.

The planting must be considered for its contour or elevation and its plan, or area occupied on the ground. Since one cannot change plantings with the season as one changes hats, the effect in all seasons of the year should be considered. This will require chiefly a study of flowering seasons, and fruit, bark and foliage effects.

Tree Destruction

In all large cities and towns deciduous trees often grow up in vacant lots and out-of-the-way corners and are generally pulled up by boys before [illegible] transplanted, and as a matter of course these trees soon wilt away and die.

There are many among the older trees who, when pruning, will stop and cut off one or two of the main roots of a tree which has grown up close at hand, or yank it out by main strength, throw it in the car, carry it home, transplant it, and expect it to live.

As a general rule school education does not include any instruction in tree planting and as a result, millions of trees are sacrificed.

Advantages of Face Brick

Colonial face brick will raise your new home a real home—substantial, comfortable, satisfying—one that will serve a lifetime and pass down to your children's children, lovely with the mellowness of the years, precious with the cherished memories of family fireside and genial friends.

Durable, comfortable through all the seasons, safe from fire, slow to depreciate, with low insurance rates and smaller fuel bills, freedom from repair costs, a face-brick home will, in the long run, cost no more than the house built of less beautiful, less enduring materials.—Buffalo Courier.

Airplane Sight of City

Now the discovery is being made in Europe that the next advance in transportation introduces a point of view unthought of even a decade ago. How do our finest cities look from the air, and what is to be the first impression of those who approach a flourishing city by airplane? Far-seeing architects are coming to realize that in the near future this aspect must be taken into account in the planning, not only of cities, but of commercial and industrial plants and other private enterprises that acknowledge a community responsibility.

Put Playground First

You cannot have a playground and a flower garden on the same piece of ground. A playground is a necessity. Children must play; it is a part of their natural inheritance. It is necessary for their health. So, a playground is the first consideration, but still much might be done for beauty. Beautiful surroundings will make the children more contented, and in addition will cultivate in them a love for the beautiful that will follow them when they have left the home of their boyhood.

OLD AGE PENSION CHECKS SENT OUT

Payment Begins to Applicants in Nine Michigan Counties

The first 100 checks totaling $9,360 on the old age pension fund, created at the last regular session of the legislature, were mailed Friday to nine counties.

At the same time Ed. L. Williams, chief of the old age pension bureau, said 150 additional checks will be mailed early next week. The checks average $9.36 each.

Old age pension warrants were mailed to Kalamazoo, Kent, Oakland, St. Clair, Bay, Saginaw, Sanilac, Oscoda and Chippewa counties.

The policy of the pension fund bureau is to return money collected by a county, through the $2 head tax, to the county as pension funds when such money has been turned over.

We strive to became what people expect of us.

FAMOUS TRIO APPEAR SOON AT INN HOTEL

Heerman Trio to Give Concert Program Sunday, August 12th.

The Inn at Charlevoix will play host on Sunday, August 12, to the Heermann Trio of Cincinnati, Ohio. This stellar group of musicians, one of the best known trios in the United States, is returning to The Inn for its second annual concert, so popular did its appearance there last year prove to be.

The members of the trio are Emil Heermann, violinist, concert master of the Cincinnati Symphony Orchestra; Walter Heermann, 'cellist, assistant solo 'cellist of the Cincinnati Orchestra, and Miriam Otto, leading ensemble pianist of Cincinnati. The two brothers are also members of the faculty of the College of Music of Cincinnati and, in the summer, of the National Music Camp at Interlochen. Miss Otto is a member of the faculty of the Cincinnati Conservatory of Music and spends her summers in Interlochen, the Music Capital during the warm months, in order that the work of the trio may continue uninterrupted.

The concert of August 12th at The Inn will begin at 8:30 in the evening and will be open without admission charge to all visitors and residents of Charlevoix who enjoy good music. A delegation of music lovers from the summer colony at Interlochen has already planned to motor up for the event and it is expected that other parties will gather from Harbor Point, Petoskey, Walloon Lake and other nearby points.

REVIVAL OF CWA IS FORECAST BY SPEAKER

Federal Relief Officials Tells Governors New Plan Ready

A revival of the CWA or some similar federal relief program was forecast by Aubrey Williams, assistant federal relief administrator, speaking before the closing session of the governors' conference Friday night.

Williams declined to extend his remarks but told the executives that there has been little decrease in the number of persons dependent upon governmental relief. Drouth conditions in the middle west have aggravated the problem.

RAIN CAUSES POSTPONEMENT OF PETOSKEY'S WATER EVENTS SUNDAY

The rain storm of Sunday afternoon and the chill atmosphere which accompanied it forced a postponement of the Aquatic day program arranged at Haiwatha beach.

The Petoskey and Charlevoix swimming and diving teams were there but not all of the Harbor Springs team came. Those who took an early practice swim soon became chilled so the program was announced for next Sunday afternoon at 2:30 o'clock.

[illegible] 22 who were present, were awarded their medals, trophies and ribbons.

PREDICT BUMPED RESORT BUSINESS MONTH OF AUGUST

With local summer hotels reporting record patronage for late July and more cottages occupied than in any year since 1929, the month of August, the peak of the summer resort season in Charlevoix, promises to be one of the best on record.

The heat wave which has swept the nation in recent weeks has driven thousands of vacation seekers into northern Michigan resorts and Charlevoix is receiving a gratifying share of this patronage.

BELVEDERE HOTEL ACTIVITIES

Among those playing at the weekly card party held in the solarium of the Belvedere hotel were: Mrs. E. W. Beach, Mrs. S. Woodruff, Mrs. Gladys Gray, Mrs. J. W. Fristoe, Mrs. W. P. TOTS PLAYING WITH GUN WITH FATAL RESULTS

Little Johanna Hastings, 3½ years old, daughter of Dr. and Mrs. R. E. Hastings of Elk Rapids, was accidentally killed about 3:30 o'clock last Wednesday afternoon when a revolver she and her brother, one year her senior, were playing with, discharged. While playing about the family car the gun was found by them in the pocket of the car where Dr. Hastings had carried it for protection.

DISTRICT HEALTH UNIT BULLETIN

Health of the Pre-school Child

The habits formed by the child in his first six years of life are apt to remain for his lifetime. The pre-school age, from the second to the sixth year, being a period of rapid physical and mental development, require careful health supervision in order to correct promptly and beginning defects and to lay sound foundations for future health.

Sunshine and fresh air are two of the requirements of a healthy, happy childhood. A child should have as much sunshine as possible, unfiltered by window glass. He should play out of doors daily and should sleep in a room with the windows open.

Rest is as important as exercise in a well-balanced day. Little children should have from 10 to 12 hours of sleep at night and an afternoon nap besides. They should have an early, simple supper and be put to bed directly afterward, without any violent and exciting stories.

The child should have three meals a day. Meals should be at the same time every day with the hearty meal at noon. The chief thing to remember about the child's food is that each day he should have milk, fruit and vegetables and whole grain products. The daily amount of milk, including that cooked in foods, should be from one and one-half pints to one quart.

A well-balanced diet should contain some from each of the following groups of foods:

1. Foods that build the body:
   (a) Proteins in milk, eggs, lentils, cheese, nuts, meat, fish.
   (b) Minerals in cereals; vegetables, fruits, milk, eggs, sea foods, meat.
2. Foods that heat the body:
   (a) Sugars in syrup, honey, fruits, candy, sugar.
   (b) Starchs in cereals, bread, macaroni, vegetables, milk.
   (c) Fats in cream, butter, oil, bacon, egg yolk.

and make it grow:

   (a) Minerals and vitamins in milk, whole wheat bread and cereals, butter, eggs, vegetables, fruits and cod liver oil.
4. Water: Constitutes two-thirds of the body weight. Necessity to regulate body temperature. Aids digestion, absorption and elimination.

Diet is very important in building good teeth. The pre-school child should have plenty of milk, whole grains, leafy vegetables and fruits. Care of the baby teeth is just as important as of the permanent ones because bad baby teeth often cause diseased tonsils, enlarged glands, ear ache, a bad heart, kidney or other trouble that may last through life.

Every pre-school child should be protected against the preventable diseases—diphtheria, scarlet fever and smallpox. No child should ever knowingly be exposed to any disease. The longer the diseases of childhood can be postponed the less severe they are likely to be. Keep children away from anyone who has a cold. Fresh air, sunshine and proper food help to build up resistance against disease.

Pamphlets on the pre-school child can be obtained from Miss A. Winnifred Galley, R. N., Charlevoix, or directly from the District Health Department, Charlevoix, which is composed of the counties of Antrim, Charlevoix, Emmet and Otsego.

WEEKLY CAMP CHARLEVOIX NEWS COLUMN

Edited by

ED. TAYLOR

Saturday was one of the main events of the season, being Dad's day. A few of the Dads came into camp in time for breakfast, while most of them arrived later. The Dads assisted the boys in the morning clean-up after which they went with their sons on their morning activities. Some went riding, some sailing, some to riflery, some to athletics, while others went to handicraft. During rest hour the Dads and Mothers had a meeting on the porch at which they elected Alger Sheldon of Detroit the chairman. "Tad" Wieman then gave a short talk. The annual fatherson ball games followed with the fathers losing in the senior and junior games and tying in the intermediate game. Following the ball games everyone went to the Indian sweat lodge, after which they went swimming. The concluding event of this day was the big Dad's day banquet which was followed by a very interesting program. Harlan Bond led the group in singing, then entertained with a violin selection. A quartet composed of Wendall Gates, Harlan Bond, Larry Quinn and Mr. VanKuren then gave a few selections, changing instruments each time; another quartet composed of "Oke" Oldham, "Red" Boetticher, Frank Smith and Doc Olwin rendered several college songs. Mark Wakefield, acting as toastmaster, then introduced the Chief, who welcomed the Dads and Mothers to Camp Charlevoix. Alger Sheldon, the newly elected chairman of the parents' committee, gave a short talk and announced a committee which he had chosen to assist him. Mr. Wilson of Akron, Ohio, then talked for the Dads, after which Oscar Boetticher responded for the campers. Herm Everhardus represented the staff while "Tad" Wieman was the main speaker of the evening. At the close everyone sang "Once Again We Come Together Again," and "Taps." The Dads, tired, stiff, sore, but happy, then began to slowly leave camp after the most successful Dad's day in our history.

The week of trips is this week with everyone in camp being on some expedition. One group left Sunday afternoon for a canoe trip down thru the lakes south of here. The Canadian trip pulled out early Monday morning as did the Chicago trip. The horse trip left soon after for the stone cabin which is located in the headwaters of the Jordan river. The juniors will leave Tuesday on their sail boat trips. All will return to camp Saturday and will probably have many interesting tales to relate.

Last Wednesday evening all the rocks, cars and faces of our lads were spick and span. The reason, Kamp Kairphree was coming over for a dance. The dining hall was cleared and our mess hall looked very much like a ball room. Several girls played the piano while Harlan Bond fiddled away on his violin. Many games were set up for those who didn't care to dance and refreshments were served during the evening. A good time was had by all and here's hoping that wasn't the last one.

The Mugwump is still in possession of the Grays. They have shown it twice successfully since capturing it. Just before the fair maidens from down the lake arrived last Wednesday evening it was shown and also again on Dad's day just after swim. The Mugwump will have a lot to do with the final scoring of the Greens and Grays, so the side who can keep it will probably win.

Dr. John Olwin gave the talk in church Sunday morning.

Special music was furnished by Larry Quinn, Harlan Bond and Frank Smith, accompanied by Wendall Gates.

Sunday morning was a sad day in camp. The reason, "Tad" Wieman was leaving camp. Although he had only been here ten days he had made friends with everyone and we sure hated to see him leave. Here's hoping he'll be here with us next summer.

"Little Man, What Now?" Lowdown on What Woman's Love Will Do

"If a woman sincerely loves a man, she will stick to him through thick and thin, come what may."

This is the assertion of Margaret Sullavan, star of Frank Borzage's romantic Universal drama, "Little Man, What Now?" which comes to the Palace theatre Sunday and Monday with Douglass Montgomery in the leading male role.

"When a woman falls deeply in love," says Miss Sullavan, "she is ready to sacrifice everything at the dictates of her heart, and material things do not enter into the question. Misfortune or privation only serve to draw her closer to the man to whom she has given her affection, and to make here more of a helpmeet than before. A wife likes to feel that she is doing her share in facing the world and its fickle fortunes, and that she and her husband are on an equal footing when it comes to making life a success. Nothing is so sure a test of true love as a touch of poverty.

"These are the ideas which animate the character I play in my latest picture, and they so closely parallel my own that I feel I have put my heart into the role. In the story Douglass Montgomery and I are seen as a young couple undaunted by the cruelties of the world-wide depression because they have youth —and each other."

There ought to be a law to make some Charlevoix people happy even if they do not act as though they would like being that.

BANKERS SUPPORT SOUND EXPANSION

By R. S. HECHT

Vice President, American Bankers Association

BANKERS universally recognize that the prime economic need of the nation is the stimulation of sound industrial and commercial activities and recent travels over a wide stretch of the country have shown me that they everywhere are making all effort possible to lend constructive financial support within the scope of their proper banking functions to promoting the expansion of business activity.

R. S. HECHT

Frequently in times past when our country suffered from an economic depression and consequent unemployment on a large scale, the rise of some broad new industrial development, such for instance as a new industry like the automobile industry, has been a powerful factor in stimulating a return or an accelerated growth of national prosperity. Such a movement means the creation of new wealth, the employment of large groups of people on useful lines and as a consequence the production and distribution of sound, effective purchasing power, which is a form of wholesome economic stimulant that has none of the evils of monetary inflation.

A New Force for Business Improvement

Perhaps we have at hand, if not the rising of a wholly new industry, a measurable equivalent in the potentialities of a widespread rebuilding and modernizing movement such as home renovising, plant remodeling, the putting of our railroads on a high speed air conditioned basis and other valuable developments in the construction field. The effects of such activities on employment and many lines of business would be most beneficial and I can repeat without reservation that we bankers are willing and eager to play our full economic part in any such constructive developments.

It has been made to appear that money has not gone to work because of the timidity of bankers rather than what is a true explanation, because business men have not had enough confidence in the business outlook to borrow the dollar from the banker and put it to work.

The basic requisite to the expansion of commercial bank loans is sound, normal business conditions on which to conduct sound, normal banking operations. The best business a bank can wish for is the opportunity to loan money to successful business men and manufacturers imbued with confidence to enter upon aggressive business enterprises and endowed with the ability to bring them to successful conclusions. Such loans mean business activity for the community, growing pay rolls and prosperity, and the banker wants to make them because to be identified with such activities not only means profits to him but, additionally, brings him the reward of good will in his community.

There is no better proof of the great desire of banks to take care of the short term requirements of the business world than to point out the abnormally low rates at which this demand is being supplied at the present time.

NO SPAWN FISHING ALLOWED THIS YEAR

Conservation Dept. Will Continue Policy Adopted Last Fall

Continuing the policy inaugurated in 1933 the department of conservation has decided not to permit the taking of spawning whitefish and trout during the closed season in Great Lakes waters this fall for the purpose of securing eggs for propagation work.

A strictly closed season on trout and whitefish was ordered last fall and no permits were issued to take fish during the closed season. In previous years the bulk of trout and whitefish eggs secured during the closed season was handled by the Charlevoix, Alpena and Duluth stations of the United States Bureau of Fisheries. These were closed last year.

It will be possible, however, for the fisheries division of the department of conservation to continue some propagation work this year, it is believed, without permitting fishermen to take either species during closed seasons.

Under state law all commercial fishermen who catch trout or whitefish that are ripe with spawn after the seasons reopen are required to save, fertilize the eggs and turn them over to the state.

Last year the department obtained [illegible] and expects to obtain a supply again this fall. They will be hatched at the Thompson and Harrisville stations.

Bids Wanted

For $73,000.00 City of Charlevoix Sewage Disposal System Revenue Bonds.

NOTICE is hereby given that sealed bids will be received for the purchase of $73,000.00 Revenue Bonds to be issued by the City of Charlevoix, Charlevoix county, Michigan, for the purpose of constructing a Sewage Disposal System for the city, as a self-liquidating project.

The bonds are not to be an indebtedness or general obligation of the city, but are to be payable solely out of the revenues of the Sewage Disposal System to be constructed, and for their payment a statutory lien is to be created on all the revenues of the System in accordance with Act No. 94, Public Acts of Michigan, 1933, and the city is to be obligated to maintain sufficient rates to provide for such payment and for the protection of the security as set forth in that Act.

The issue consists of seventy-three bonds of $1,000 each, dated January 1, 1934, and payable $2,000.00 on January 1 of each year from 1936 to 1942 inclusive, and $3,000.00 on January 1 of each year from 1943 to 1951 inclusive, and $4,000.00 on January 1 of each year from 1952 to 1959 inclusive, with interest at 4%, payable semi-annually on January 1 and July 1 of each year.

The City will furnish printed bonds and the approving legal opinion of Miller, Canfield, Paddock and Stone, attorneys, of Detroit, Michigan.

Each bid must be accompanied by a certified check for $1,000.00, to be retained by the City as liquidated damages in case the bidder, if awarded the bonds, shall fail to take up and pay for the bonds when ready for delivery.

Bids must be filed in the office of the City Clerk in the City of Charlevoix, Michigan, before 12 o'clock noon on Saturday, August 11, 1934, and will be publicly opened and considered by the City Council at its meeting to be held in the Council Rooms in the City of Charlevoix, Michigan, at 8 o'clock p. m. on August 13th, 1934.

The City Council reserves the right to reject any or all bids.

By Order of the City Council
Ray S. Hamilton, City Clerk,
Charlevoix, Michigan.

CONSERVATIDN DEPT. NEWS BULLETIN

Nearly 150,000 acres of land in Michigan's state forests have been planted to jack, Norway and white pine seedlings and transplants from the state forest nursery at Higgins lake, according to a report of the forestry division, department of conservation.

An extraordinary increase in the number of arrests for fishing law violations has been noted during the past three months by the department of conservation. Fishing law infractions have been running 75 per cent of the total arrests. Since the majority of these cases have been for fishing without a license, it is the belief of the fisheries division that many persons are still uninformed concerning the 1933 legislative act reducing the license fee from $1.75 to 50 cents and making it applicable to all fishermen instead of only trout fishermen.

An increase in the number of forest fires and acreage burned over was seen in the reports to the department of conservation for the week ending July 21. A total of 149 fires was reported with an aggregate acreage of 650 burned over. This represents an increase of 200 per cent over the previous week.

There are no complimentary fishing or hunting licenses issued in Michigan, the department of conservation announces. All persons, over 18 years of age must have a license when fishing in the inland waters.

Wild ducks naturally favor lakes, marshes, rivers and lagoons, but they do not always nest near water. Two years ago a department of conservation worker found a black duck nest in an upland grove of jackpine fully a half mile from the nearest lake or marsh. Duck nests have been authentically reported at even greater distances than that.

Resident timber wolves of Michigan are under control and other predators are decreasing. That is the contention of H. P. Williams of the bureau of biological survey, who directs the operations of 27 state trappers working in the upper peninsula. Williams' report for the fiscal year ending June 30 shows a catch of 1,287 predatory animals, including 872 coyotes, 195 fox, 148 bobcats, 46 wolves and 26 bear. Pelts forwarded to the department of conservation for sale to fur dealers at public auction numbered 439.

SUNDAY DINNER SUGGESTIDNS By Ann Page

This week and next yellow Elberta peaches will be at the height of their season and the price is moderate. Since late peaches will be scarcer and high, now is the time to do canning and preserving. Thompson seedless and Malaga grapes are plentiful and reasonable. Cantaloupes are good and attractively priced, and honeydew melons are fine but expensive.

Tomatoes, lettuce, celery, cucumbers and cabbage, together with beets and carrots, are plentiful and cheap. These vegetables help to make summer salads and cold plates the appetizing things they are.

Meats in general are a little cheaper or no more expensive—which is good news.

Here are three Sunday dinner menus:

Low Cost Dinner

Veal Fricassee Mashed Potatoes
Buttered Carrots
Bread and Butter
Sliced Peaches
Tea or Coffee Milk

Medium Cost Dinner

Roast Lamb with Gravy
Boiled Rice Glazed Carrots
Bread and Butter
Jellied Fruits
Coffee (hot or iced) Milk

Very Special Dinner

Cream of Corn Soup
Jellied Veal Stuffed Tomato Salad
Sliced Cucumbers
Hot Biscuits Butter
Sponge Cake Sliced Peaches
Whipped Cream
Coffee (hot or iced) Milk

CAMP CHARLEVOIX ANNUAL CARNIVAL

RENEW BIG EVENT ON SATURDAY, AUGUST 11TH

Program Opens at 2:30 With Great Variety of Entertainment — Parade Friday Afternoon

(By Ed. Taylor, Camp Cor.)

Camp Charlevoix will hold its annual carnival Saturday afternoon at 2:30 o'clock at the camp which is located on Oyster bay. There will be a great variety of entertainment with the main attraction being the free show at which Wendall Gates will present his marionette show and the girls from Kamp Kairphree will put on a short skit. Parents and friends of the camp, boys' clubs, and the public are invited to come and everyone will be welcome.

Friday afternoon at 4 o'clock there will be a big parade in Charlevoix with all the members of the camp participating. Louie Baker has charge of the parade and has lined up what will prove to be quite a parade.

The carnival itself will be a gala affair. Mark Wakefield and his committee have been working for several weeks arranging the different exhibits and have gotten together many interesting shows.

Cabin 2 will have charge of the sailboats and these will offer many thrills to those who like water sports. Cabin 3 will run the fish pond which no carnival could get along without. Cabin 4 will be in charge of many different games of chance; these will offer everyone a chance to show their skill at throwing darts, quoits, bran bags, etc.

A mystic magic show will be offered by cabin 8 and it is understood that some of their tricks would baffle the great Thurston himself. The one and only Bingo game will be under the direction of cabin 9. Cabin 10 will run a "Hit the Nigger Baby" game and this sport is one that can be enjoyed by both young and old. A very unique entertainment will be put on by cabin 11. They will put on a monkey show which promises to be humorous and also very entertaining.

Cabin 12 will operate the ancient red buggy and have some games of chance. Many freaks of nature and famous sights will be in cabin 13's "Believe It or Not" tent. "Duck the [illegible]" will be the attraction offered by cabin 14 while cabin 15 will be in charge of the "House of Fun."

Bob Beuhler will have command of the shooting gallery, where there will be several difficult marks to shoot at with large prizes being given to the successful marksmen. The business department will have charge of all the concessions and refreshments.

This is the seventh year of the carnival and it is hoped that it will be the best ever. To get to the camp, drive one mile down the Boyne City-Petoskey road from U. S. 31. The distance is about six miles from Charlevoix.

ARTHUR FAGAN ACQUIRES OSCAR NELSON BUSINESS

Arthur Fagan, well known local young man, has purchased the Oscar Nelson cigar store and billiard room, better known as Recreation. He has taken over the ownership and management of the business.

BELVEDERE CLUB ANNOUNCES SUMMER ATTRACTIONS

Social and sports activities at the Belvedere Club will reach their height during the remaining weeks of August and plans are now in the making for several events.

The annual cabaret party has been announced for Thursday evening, August 16th, and the masquerade for the following Thursday evening, August 23rd. Both events will be held at the casino.

The annual Belvedere Golf Club handicap tournament gets under way with the qualifying round on Wednesday, August 15th. Match play will continue Thursday and Friday and the finals on Saturday, August 18th.

Officers of the Belvedere Club have adopted a policy of extending the courtesies of the casino only by invitation in the future, due largely to congestion brought about by the heavy influx of summer residents during August. The public will be requested to observe this new ruling.

DOUBLE BASEBALL BILL NEXT SUNDAY

Indians Schedule Two Fast Teams for Tilts at South Side Diamond

A double baseball bill has been announced for next Sunday at the Legion diamond by Glenn Rose, manager of the Charlevoix Indians, local ball club.

The opening contest of the doubleheader will be between the Indians and Spears' Lion Tamers, a picked Northern Michigan team of colored players. The game will be called at 1:30 o'clock. The second contest will match the Indians with the fast Wolverine-C. C. C. camp team from Springvale. It is expected this game will start at 3:30 o'clock.

On Thursday evening of this week the Indians play the Ellsworth Packers at Ellsworth.

The local club lost by a 6 to 1 score to Kegomic in a twilight game here last Thursday evening. Jepson and Saller were the winning battery, while Peters and Johns worked for the Indians.

DEWOLF HOPPER TO APPEAR HERE

IS AMERICA'S FOREMOST COMEDIAN OF TODAY

Company Will Present "The Mikado" at High School Gymnasium at 8:15 Tuesday, August 14

DeWolf Hopper, America's foremost comedian, will make a personal appearance in Charlevoix with his Comic Opera company on Tuesday, August 14th. The company will present "The Mikado."

DeWolf Hopper will be remembered by many as having played the lead in "Wang," "Happyland," "Ermine" and the Gilbert and Sullivan light operas, "The Mikado" and "H. M. S. Pinafore." More recently he played the lead in the original company of "The Student Prince."

Last winter Roxy used Hopper as the master of ceremonies at the opening of Radio City. With him in the company is H. C. Howard, who plays Pooh-Bah, Helen Hutton, who plays Katisja, and Lillian Glasor Hopper, who plays Yum-Yum. Hopper plays the role of Ko-Ko, Lord High Executioner.

DeWolf Hopper has just finished taking the leading part in the filming of Dickens' "A Christmas Carol." The Redpath Bureau is making engagements for the company for a few weeks this summer. At Battle Creek they played to an audience of 2,400 people. They have a two-day engagement at Bay View and, an open date preceding this, made it possible to get this attraction for Charlevoix.

Prices are very low for this type of attraction. Any profit made will go to the school milk fund. Anyone wishing to hear fine music, and enjoy pure comedy as only DeWolf Hopper can present it, should attend.

The program will be given at the high school gymnasium, beginning at 8:15 o'clock.

SIX HUNDRED ATTEND INN CABARET PROGRAM

Near-Professional Entertainment Is Provided Friday Evening

Over six hundred persons, the largest assemblage in recent years, witnessed the annual Cabaret show presented by the management of The Inn at the patio last Friday evening.

The program, directed by Abner C. Rosenzweig, was near professional. Featured were The Inn ballet and chorus, Rudy's Inn orchestra and Rudy, violin soloist; Ione Randels, Ann Arbor composer, with piano selections. Eddie Mitchell and Raymond York favored with vocal selections; Henry Balabnn, Chicago, with recitations. Little Lois Schalfer of Detroit, who sang popular songs with much emphasis, was brought back for two encores, and her sister, Judith Schnlfer, pleased the audience with two clever impersonations. An acrobatic and dance number by Laynn Beth Novar of Detroit, drew deserved applause. Betty Ann Cohen of Detroit, closed the program with two accordian numbers.

Dancing on the patio floor interspersed the program and the attitude of the crowd was significant of the enjoyment provided by the affair.

CHASE S. OSBORN TO SPEAK HERE FRIDAY

Michigan's Former Governor and Ace Conservationist To Honor Us

Former governor of Michigan, Chase S. Osborn, will be the guest of the local Fitzgerald-for-Governor Club at a Republican rally, held in the high school gymnasium on Friday evening, August 17th.

Mr. Osborn is coming here at the solicitation of the club, notwithstanding the fact that he is much in demand throughout the state and has a full engagement book. It is hoped, therefore, that there will be a first-rate attendance, not only to hear an orator of exceptional power and force, but to do honor to Michigan's staunchest Republican and most distinguished citizen. Chase S. Osborn needs no introduction to the people of Michigan and his appearance next Friday evening in Charlevoix will doubtless be greeted, as usual, by a large and enthusiastic audience.

ANNUAL OPEN NET MEET ANNOUNCED

CHARLEVOIX OPEN TOURNEY TO BE HELD AUGUST 13-19

Annual Tennis Event at The Inn Courts Will Follow Michigan Riviera Now in Progress

Tennis will continue next week to provide the major entertainment for both local and summer residents.

Following closely completion of the annual Michigan Riviera championships, which this year has drawn the largest tournament entry in the mid-west, the Charlevoix Tennis Club will stage the annual Charlevoix Open tournament at The Inn clay courts.

Play will open Monday, August 13th, and continue through Sunday, August 19th. The open tournament has in previous years been held in advance of the Riviera, but rather than discontinue the event, officers of the local tennis club are conforming to numerous requests by holding the tournament on the dates above mentioned.

The Charlevoix open has always drawn a large entry of summer and local residents from this as well as other resort cities of the northern Michigan region. While the field has never contained any players of international ranking, this fact has added to the closeness of competition by a more evenly matched entry.

Last year's champions were Ralph Ellis, Winnetka, Ill., men's and junior singles; Z. Reynolds, Atlanta, Ga., boys under 15 years; Austin Lelund and Charles Fox Jr., St. Louis, Mo., men's doubles; Ann Ellis, Winnetka, Ill., women's and girls' singles.

The same schedule of events as last year will be held again. Entries may be made at The Inn hotel. The fee will be 50c, entrants to furnish balls.

OLIVER A. COOPER BURIED HERE MONDAY

Former Local Resident Died Last Thursday at Spring Lake

Oliver A. Cooper, well known former local resident, who died of heart trouble last Thursday at Spring Lake, was buried at Brookside cemetery Monday following short funeral services conducted by Rev. W. W. Hurd at Brookside chapel.

Born September 28, 1858, in Canada, Mr. Cooper came to Charlevoix with his parents when a youth and spent most of his early life in this city. He later moved to Grand Haven and the past two years had resided with his sister, Mrs. A. C. Fessenden of Cadillac.

Surviving are three sisters, Mrs. Adah Beeman and Miss Minnie Cooper, this city, and Mrs. A. C. Fessenden of Cadillac.

ANNUAL HOSPITAL TAG DAY SET FOR AUG. 18

Plans for Drive for Local Institution Now Being Made

Members of the board of trustees of Charlevoix hospital have announced that the annual tag day drive to raise funds for the institution will be held Saturday, August 18th.

Members of the Hospital Auxiliary will have charge of the drive as in previous year. Complete details will be announced when available.

"TEN NIGHTS IN A BARROOM" AT CAMP

NEXT OFFERING OF NATIONAL DRAMATIC PLAYERS

Grand Old Melodrama to Be Given By Augmented Cast on August 8th, 9th and 10th

"Ten Nights In a Barrom! The play of the ages! The classic of the seventies! The grand old melodrama that every generation owes to itself to witness. Those who have never laughed and wept, and learned a telling lesson from this great temperance masterpiece should feel they must see it, and of course there are those who will want to revive old and pleasant impressions of a grand evening in the theatre.

The National Dramatic Camp Stock company will present "Ten Nights In a Barroom," the evenings of Wednesday, Thursday and Friday, August 8, 9 and 10, at their well equipped and comfortable theatre on route 66, just north of the Ironton ferry.

The talented and versatile members of the Players will not only appear as the various characters in the play, but will also entertain with specialty numbers between the scenes, as was originally done in the earlier productions. There will be dances, recitations and songs in the period of the play.

In spite of its ancient theme and the somewhat creaky sentimentalism of the emotional sequences, the play will be given in a serious manner—with no trace of parody or burlesque, and although some of the more earnest moments are laugh provoking, there still remains in this venerable vehicle enough simon pure pathos to interest the most sophisticated, and to well balance the intentional comedy hits that were considered funny in the days after and even before the civil war.

In addition to the regular members of the company there will also appear in the augmented cast, Mr. Allen G. Miller, who made himself liked last season in "Mary, Mary Quite Contrary," and "The Second Man." Elsie Shields, in private life Mrs. Allen G. Miller, the director of the Camp, who appeared last season in "Summer Resort," and in "Her Sons," will play the harrassed wife of Joe Morgan, the drunkard. Other new members of the cast will be Wallace Ray, [illegible] "Olympia" last summer, and George Irving Quimby, a new face at the Company.

One of the most finished productions of the season was witnessed last week, when the play of the week was "Saturday's Children," a sophisticated and entertaining comedy by the well known author, Maxwell Anderson.

Miss Baker, Miss Fritz and Mr. Young were prominent in the cast that also included Helen Sellew, who gave a sincere performance of the tolerant mother of the troublesome younger generation. Lester Griffith, David Houman played father and husband respectively. Gretchen Rickel delighted her fast increasing fans by a surprising bit of characterization as the cockney boarding house keeper, in the last act.

COUPLE INJURED IN EASTPORT AUTO CRASH

D. A. LaLonde of Williamsburg, was seriously injured and his wife was cut about the head and shoulders when their car collided with a car driven by Mrs. Claude Snahey of Detroit on M-88 east of Eastport shortly after noon Friday.

Mr. LaLonde was taken to the Munson hospital at Traverse City where it was feared he had broken his hip.

AUTOCHROME LECTURE AT BELVEDERE CASINO MONDAY NIGHT

An outstanding attraction is promised in the presentation of an Autochrome lecture (direct color photography) at the Belvedere casino next Monday evening, August 13th.

Appearing under the sponsorship of the Charlevoix County Nursery, Dr. C. O. Schneider of Chicago, will conduct the lecture beginning at 8:30 o'clock.

The subject will include gardens and flowers, Zion National Park, Grand Canyon National Park and Bryce Canyon National Park. These are said to be the most beautiful pictures ever produced in natural color.

CORRESPONDENCE

CENTRAL LAKE

Mr. Lodestone is working for the Public company at Bellaire.

Harvey Edwards of Detroit, is visiting a few days with his mother at Bay View, northwest of town.

Wayne Wilson and Homer Loper of De Tour Sec. attended Sunday school at Grand View on Sunday afternoon.

Rev. A. Wall, retired minister of the Congregational church, attended services at the Eastport Baptist church on Sunday.

Mr. Francis Kendall of Alden is visiting here now and at Ellsworth and is now working at the Ellsworth canning factory.

The big Glazier picnic is to be held at the Eastport Glazier woodlot on Thursday, August 16. Central Lake's homecoming is the same week.

Rev. G. A. Weaver and nephew, Richard, visited Bay View and Grand View Sunday schools last Sunday, where Rev. Weaver preached two fine sermons.

Charles Dawson and family returned Sunday to their home in Detroit after a two weeks' visit at the Sydney Dawson home and with other friends and relatives here.

Mrs. Genevieve Dawson McGuire was quite badly scalded by hot water while at work at home last week. Dr. Duffie's services were required twice in giving medical aid.

E. S. Carrol is slowly recovering from an attack of blindness, brought on a few weeks ago. He intends to attend the big Twin Bridges Sunday school rally this week Wednesday, as does Kenneth McKay.

The following Sunday schools will participate in the big picnic and rally at Twin Bridges this week Wednesday: Barnard, Bay View, Cresswell, Grand View, Green River, Antrim City and South Milton.

Mr. Tyrrel's Sunday school class spent a merry time at his resort Saturday evening of last week, as has been their custom for the past few years. They also stayed over Sunday. This is the class in the Eastport Sunday school.

Mrs. Edward Dawson's brother-in-law and family of Detroit, were up for a visit last week. The other brother and family were up the week before, when their little child was buried at the cemetery here. It had fallen from the bed and broken its neck.

Farmers are busy these days picking and taking string beans to the Ellsworth factory. The cherry harvest, which was a fair one, has ended. Cherries were brought to the factory from as far as the western orchard of Kewadin and taken to East Jordan.

Miss Irene Triplett Post and child of Grand Ledge, is visiting for a week at the John Triplett home. She was formerly teacher in the Bay Shore, Boyne City and Lansing schools. Her sister, Audrey, has written three articles on arithmetic work for the school magazine of Tennessee.

Forest Dewey, the Ellsworth barber, with his family, visited at the John Dawson home in town, Sunday, and at the William McGuire and Maurice Dawson homes at Grand View, west of town also. Jasper Dawson and family of Pontiac, also visited at the J. Dawson home.

Miss Kate Wilson, former Antrim county school commissioner, is spending her vacation at her home here and at the James Wilson home at Wildwood. She will go back to teaching in the Flint schools again next year for her eleventh term. She has taught school for about 50 years.

Mr. and Mrs. Harry Clark, son Harlan, and daughter Norine, of Detroit, have returned home after a two weeks' visit with the Burr Sage family and other relatives here and at Bay View. He is still with the Kroger store at Detroit, and his wife still teaching in the Detroit schools.

It is said that Dr. Huston of Elk Rapids saw piles of cattle being burned in the drouth stricken area. The Roach girls, coming here from the West, report seeing two cows in their path that kept looking poorer and poorer as they approached them, and at last were found to be mere skeletons. They had to turn out of the road to escape running over them, as other motorists had done.

Many friends and relatives of Mrs. A. F. Walbrecht here, are saddened by her passing, which occurred at Traverse City hospital a week ago Sunday. She was well and favorably known here and at Mancelona, where her husband operated grist mills. She had been in ill health for a number of years. She leaves, besides her husband, a daughter, Helen, of New Jersey, Howard of New York, and Mrs. Martin Smith of this place, and a step-son, Gus, of Texas. Funeral services were held last week Tuesday.

Arthur Johnson, residing seven miles northwest of town, passed away at his home at 8 o'clock Friday morning. He leaves a son, Duane, who resides on the farm. Funeral services were preached from the home Sunday afternoon by Rev. Peggs of the local Congregational church. There was a profusion of flowers in testimony of the regard of friends. There was no singing. Remains were interred in Eastport cemetery. Deceased was a member of the Eastport Congregational church as was his wife, who preceded him in death two years ago. He was also a member of Eastport Maccabee lodge.

Ye correspondent, in company with O. R. Lyle and Victor Morse, enjoyed a visit to the Soo locks last week. It was the first time we had been above the Straits and was quite a treat. We had been to the World's fair at Chicago forty years ago, and last year, the St. Louis exposition in [illegible] Philadelphia, but had never seen all of Michigan. We were loosely questioned as to the things we purchased in a trip across to Canada, for everything except the lunch we got there. We spent two days huckleberrying at Whitefish bay, saw two wild deer on the way back and enjoyed the magnificent scenery while crossing the Straits coming back. One could see Lake Michigan to the west, with St. Helens Island, the Straits, Mackinaw Island, Bois Blanc Island and Round Island to the north and east, and Lake Huron to the east. It was a fine way to study geography. Big freighters were traversing the waters in different directions. At the locks, wheat boats were going to Superior.

A terrible accident occurred at Bay View, northwest of here, in front of the S. B. Anway place, last Friday, when a car driven east by Mrs. Claude Snarey of Detroit, and Marine resort at Eastport, collided with the car of D. A. LaLone of Williamsburg, containing himself and family. Mrs. Snarey came up the Anway hill, meeting the LaLone car about the middle of the road. The cars struck nearly head-on. Mrs. Snarey was only slightly injured, but Mr. LaLone and wife were badly cut up. Mrs. LaLone was badly cut about the head and chest. Dr. Duffie of Central Lake, gave first aid, and the LaLones were taken to Munson hospital at Traverse City. Both cars were badly wrecked. Mrs. Snarey drove a new Dodge and the LaLones of Williamsburg, a Chevrolet. The steering wheel of the Chevrolet and windshield and windows were badly shattered, but the windshield only of the Dodge, of shatter-proof glass, was broken. It is a wonder that all were not killed. The state police and sheriff, called by Mrs. Snarey, it is said, were soon on the scene.

ROCK ELM

Elmer Jensen reports a better cutting of alfalfa than he expected.

Cherry picking was completed last week and both the Jensen and Porter orchards have been given the final lime-sulphur spray.

Lawrence Jensen harvested his oats Saturday and cut oats for John Blad Monday, using his tractor on the binder instead of his team.

Mr. and Mrs. George Metz of Florida, after visiting relatives in the southern part of the state arrived at the home of his sister, Mrs. Lawrence Jenson, Friday night. His mother, Mrs. Lizzie Metz, who has been with her daughter in Flint for some time, came with them.

WEEKLY CAMP CHARLEVOIX NEWS COLUMN

Edited by
ED. TAYLOR

The week of trips is over and once again we all are back in camp after having many different experiences during the past week. First to return to camp was the group which had ridden to the old stone cabin on the horses. They rode in late Friday afternoon after a hard ride of some 35 miles. Harlan Bond came in about an hours and a half behind, having walked his horse from Boyne City. I guess he was a little horse-sick. The week was spent at the ancient old cabin which is located at the headwaters of the Jordan river. Each day groups would go both by horse and by foot on trips, exploring the surrounding country.

The Canadian "trippers" had many interesting experiences during their week's stay in the Mississauga river region. Dick Thorsch, Bob Huber, Norm Pitcairn and Oke were the champion fishermen. Herm Everhardus, the demon fisherman, came through in great style, catching a pike. He also had the honor of tipping over while taking an early morning paddle. The visit to Aubrey falls was considered one of the main highlights of the trip. This is one of the highest falls in the world and also one of the most beautiful. Several of the boys came back sporting bright red flannel shirts. They proved so popular that a dozen fellows immediately filed orders for them.

The Chicago group returned Saturday afternoon after spending a week at the fair seeing all the exhibits, and last but not least, the mid-way. The Ford exhibit and the Standard Oil live animal act were most enjoyed by the group. Jack Hogan had quite a time keeping the boys together and several times spent quite a while searching for someone who had wandered off.

The juniors had two trips during the week. Tuesday and Wednesday they spent at Whiting park with the sailboats and then on Friday they went to Cross Village, where they spent an interesting two days exploring the old Indian country which surrounds the place.

The canoe trip through the Intermediate lakes proved to be one of the best trips ever taken from camp. The first day, while going down Central lake, a strong tail wind blew up and the boys rigged up sails with their ponchos and sailed their canoes. During the big storm Wednesday night Mark Wakefield spent most of the night hanging on the tent pole trying to keep it from blowing away. More people killed! Friday night in Elk Rapids all went to the show. To decide who would remain with the food and duffle the campus game of Wang-Ho was played with Paul Van-Kueren and Jim Chase winning, or perhaps we should say, losing. Anyway, they took it like men and stayed in camp batting mosquitoes while the rest of us were enjoying the movie.

The grand carnival will be held Saturday. Each cabin will hold its own show and there will be a special show afterwards. Friday afternoon the whole camp will go to Charlevoix to parade around the city advertising the gala event. All the parents and friends of the camp are invited to attend.

The next two weeks will bring many interesting events. Next Tuesday the annual camp battle for the little brown jug will be held. This is an annual affair and is always looked forward to by the boys. Thursday will be campers' day. On this one day the campers take the places of the men on the staff and run the camp. Several political parties are being organized and the big election will be held the night before. A group of boys under 11 years of age are going to come out to camp soon for a baseball game with our juniors. This gives the juniors a chance to represent the camp and we are sure they won't let us down. Camp Fairwood is bringing their tennis, swimming and rifle teams up for matches. We split even with them in baseball when we journeyed there, so here's hoping the colors of Charlevoix will fly high on Tuesday afternoon.

The chief talked in church Sunday morning, using as his topic "The Well Liked Boy and Man." Wendell Gates "garnished the sperla music on the organ.

BELVEDERE HOTEL ACTIVITIES

The weekly bridge party was held last Wednesday [illegible] crowd in attendance. Among those playing were Mrs. Ernest Roberts, Mrs. George Rassieur, Mrs. Trigg Waller, Mrs. M. McKay, Mrs. P. Powers, Mrs. Carolyn Dewing, Mrs. Frank Blake, Miss Katherine Carr, Mrs. Maude Vander Voort, Mrs. Arthur P. Taylor, Mrs. James B. Balch, Miss Ann Edmunds, Mr. and Mrs. Donald Carnall, Messrs. Mark and Billy Carnall, Mrs. J. W. Fristoe, Mrs. E. N. Beach, Mrs. Mabe Pike, Mrs. W. P. Holliday.

Top scores were won by Mrs. G. Rassieur, Mrs. M. Vander Voort, Mrs. James B. Balch, D. Carnall and Mrs. W. Holliday.

Miss Rose Bud Valier was hostess to nineteen friends at dinner on Tuesday evening. After dinner, Mr. and Mrs. Charles Valier entertained the young folks at the local theatre, after which they attended the dance at the Belvedere casino.

Mr. and Mrs. Leonard Matthews entertained at dinner on Thursday evening. Covers were laid for Mr. and Mrs. R. Vernon Clark, Mr. and Mrs. J. D. Ferguson, Mrs. J. McKay, Mrs. H. L. McGregor, Mrs. J. M. Fristoe, Mrs. C. B. Fox, Mrs. Ernest Roberts, Mrs. Trigg Waller, Mrs. Witherspoon, Mr. and Mrs. Carl Steiner. Following the dinner, Mr. and Mrs. Matthews entertained their guests at their cottage.

Mrs. J. F. Skinner was hostess to twenty-six friends at luncheon on Friday. The afternoon was spent in playing bridge in the solarium of the hotel.

A large attendance was noted at the weekly bridge tournament last Friday evening. Among those playing were Mr. and Mrs. George Harris, Miss Evelyn Mayer, J. R. Conley, Mrs. H. Sharpsteen, Mrs. C. E. Fuller, H. Sharpsteen, R. L. Hosch, Mrs. Stephen Woodruff, Mrs. Supernaw, Mr. and Mrs. A. J. Mayer, Mrs. Carolyn Dewing, Mrs. George E. Bliss, Mrs. C. Steiner and J. Brubaker. Top scores were made by Mr. and Mrs. Harris for north and south, and Mrs. C. Steiner and J. Brubaker for east and west.

OF INTEREST TO FARMERS

Seventy-six Acres Certified Seed in Charlevoix County

Word has been received from H. C. Moore, in charge of certified seed work in Michigan, that Charlevoix county has approximately 76 acres being grown this year. This is about the same acreage as we had last year.

For the first time, we have two men certifying the new variety, Nebalin, a white skinned potato which is very similar to the Russet Rural. The people with this new [illegible] by our commercial potato growers as well as by the consumers. Also, included is one acre of White Rurals and 15 acres of the Irish Cobbler variety.

At the present time, potatoes are developing rapidly and as a result of the recent rain, are very promising. The acreage of certified seed being grown in the state is practically the same as last year, which ought to mean profitable prices to the growers.

In Charlevoix county, the following men are raising certified seed:

Harry Behling, Boyne City, 3 acres Rural Russets, 1 acre White Rurals; Frank Behling, Boyne City, 3 acres Rural Russets, 1 acre Kats, 1 acre I. C.; Charles Koteskey, Boyne City, 5 acres R. R.; H. C. Stephens, Charlevoix, 7 acres R. R., 1 acre I. C.; Lee Sneathen, Charlevoix, 10½ acres R. R., 5 acres I. C.; August Knop, East Jordan, 5 acres R. R.; Edward P. Jensen, Walloon Lake, 12 acres R. R.; W. K. Straw, Charlevoix, 11 acres R. R., 8 acres I. C.; Henry Korthase, Boyne City, 2 acres R. R.; Elmer Hott, East Jordan, ½ acre Kat.

All farmers who have signed contracts in the corn-hog reduction program will be interested in the announcement that some of the last steps necessary before payment can be made, are being taken. On July 31, August 1 and 2, the county allotment committee, consisting of William Shepard, East Jordan, Wm. Mayne, Charlevoix, and Frank Fox, Boyne City, put in a busy three days.

In the first place, we were notified that our number of pigs had to be reduced before payment could be made. This meant that the evidence attached to each contract had to be carefully analyzed as to its accuracy and all inconsistencies removed. From the listing sheet, it was found that there is an average of 1,534 marketed hogs in the 66 contracts. We were forced to cut down at least ten per cent in order to bring our production in line with the 1930 census.

Throughout the state, the same program has to be carried out which has taken considerable time. Many counties have had to remove as many as 25 per cent of the hogs reported for sale in order to get under the allotment.

We are indeed hopeful that our report will be accepted by the state board of review. If accepted, the contracts will be immediately typed and forwarded to Washington.

ASKS NEW SCALE OF WAGES ON HIGHWAYS

State Highway Dept. Seeks to Raise Scale on Federal Projects

The state highway department Friday said it would recommend to officials of the U. S. Bureau of Public Roads in Washington a new blanket wage scale to be used in the distribution of the $6,000,000 federal highway allocation to Michigan.

The wage scale to be recommended and which must be approved by officials in Washington before adoption will be higher than a year ago and uniform over the state in order to overcome the discrepancies in wages caused by the set-ups of the FERA and other federal agencies operating in the state last year under different wage scales.

The recommended scale provides 50 cents an hour for unskilled labor, 65 cents an hour for intermediate labor and $1.20 for skilled labor. This compared with 40 to 56 cents for unskilled labor a year ago and 50 to 66 cents for skilled, there being no intermediate wage.

Highway officials reported of the last year's allocation the final $12,400,000 is under contract and that only four additional jobs remain to be let.

"LES TERRIBLES" TO MARCH AGAIN

32nd Division to Convene at Detroit, Michigan, on September 1-2-3

The latter days of July and the early days of August will forever be a period of grim memories for those veterans who served with the Red Arrow (32nd) division during the World war.

The closing days of July found this famous division moving through the war-torn streets of Chateau-Thierry and on through the villages beyond the Marne. Fighting, fighting, ever onward to crush the most powerful enemy ever concentrated at one point. The result, of course, is now history but it was nevertheless a very decisive blow that the 32nd division handed the Hun in driving them back 19 kilometers to the village of Fismes and the Vesle river, which was accomplished by August 5, 1918.

Now, 16 years later, finds the state of Michigan and the city of Detroit acting as host to this great body of men who on September 1-2-3 are holding a reunion including memorial services, parade, banquet, sight-seeing trips and continuous entertainment. A large downtown club has been leased as a special rendezvous where the password will be "Do you remember when."

SET 30-DAY DUCK SEASON FOR STATE

COMMISSIONERS VOTE FOR A CONTINUOUS OPEN SEASON

Upper Peninsula Shooting Opens Oct. 1—Lower Peninsula Gunners Wait Until Oct. 15

The state conservation commission Friday set a 30-day continuous hunting season for ducks next fall.

In the lower peninsula the open season will be October 15 to November 14, inclusive, in the upper peninsula open dates will be October 1 to October 30, inclusive. Some petitions had been received asking for a jump date hunting season with several days open each week, but these requests were not followed. It was considered such procedure would be confusing to hunters.

The 30-day open season was set to conform with federal game regulations, made necessary, it was said, because of the depletion of water fowl due to the drouth. Last year the duck season was extended from October 1 to November 15.

The beaver trapping season in the northern part of the state was extended to include November 25 to December 20 for upper Michigan, and the lower peninsula north of town line 20, which extends from the northern boundary of Mason county, across the state to the northern boundary of Arenac county, except that no trapping will be allowed in Benzie, Manistee or Wexford counties. No beaver trapping is allowed below town line 20. Last year the beaver season was from December 5 to December 20.

An outbreak of deer law violations in Mackinac and Chippewa counties recently resulted in the apprehension of eight men, all of whom pleaded guilty to charges in justice court. One of the respondents was ordered to leave the upper peninsula.

COUNCIL OK'S RAG WEED ELIMINATION

Voted Funds to Continue Campaign Inaugurated Last Summer

Following up a campaign started last summer, the city council Monday night appropriated $150 for use toward elimination of ragweed, dreaded enemy of hay fever sufferers.

Several adult supervisors will work with children gathering rag weed within the city at a specified hourly wage. The campaign, under direction of the street department, will commence at once.

Early commencement of the Wilbur dock project, a preliminary step in the sewage disposal system, also construction of curb and gutter at the rear of business places in block 4 and 5, was guaranteed by council action in authorizing the mayor to make application with the FERA for these projects.

The council voted an appropriation of $50 to defray expenses of the city band's attendance at the Northern Michigan Band Association meeting at Beaverton, August 18th.

Progress on preliminary plans for the sewage disposal system resulted from a visit here Tuesday of William E. Stanley, engineer of the Chicago firm of Greely & Hanson, who are drawing plans for the local utility. In company with city officials, Mr. Stanley made survey of the proposed system for location of pumping stations, etc.

PROGRESSIVE PARTY MEETS AT BAY CITY

State-Wide Rally to Be Held Monday, August 13th

Progressives from all sections of Michigan will gather at the Wenonah hotel in Bay City, Monday afternoon, August 13th, to hold their state convention, of the People's Progressive party.

Robert R. Pointer, chairman of the state central committee, announces that a full ticket of candidates will be named for the state offices and that the ticket will be headed by a business man for governor.

The People's Progressive party, at a convention held in Saginaw recently adopted a platform which advocated repeal of the Federal Reserve Bank act; government owned and operated banks; immediate cash payment of the soldiers' bonus in federal currency, not backed by bonds and direct credit from the government to the people at an interest rate not to exceed three per cent.

According to Mr. Pointer the state platform will carry reforms dealing with the sales tax and the liquor commission and will advocate the abolition of certain bureaus and commissions which the People's Progressive party deem useless.

DISTRIBUTE SCHOOL AID FUND IN AUGUST

Charlevoix County Gets $32,261 Through Thatcher-Sias Act

Acting upon the authorization of the attorney general's office, a general distribution of Thatcher-Sias Act aid will be made to school districts that have not received 50 per cent of their total allocation computed on the basis of $15,000,000. It is probable that the distribution, requiring approximately $2,000,000 will be made in two installments during August.

Mandamus proceedings, brought by Iron Mountain, Ironwood and Escanaba, to compel the distribution of the total equalization fund prior to the distribution of the primary supplement fund, has been referred to the October term of the supreme court.

The method now used gives each district 50 per cent of its total allocation under the terms of the act.

With the completion of the present distribution Charlevoix county schools will have been given $32,261.00 through the Thatcher-Sias act.

COMSTOCK OPPOSED TO TRAP NETTING

Assures State Cooperation in Fight Against Equipment

Governor William A. Comstock expressed unreserved opposition to deep trap, or submarine fishing in any Michigan waters in a recent statement on the battle of Michigan Commercial Fishermen's Protective association against this practice in Lake Michigan waters.

He assured commercial fishermen that the state conservation department will be directed to make every effort to enforce the new law prohibiting submarine netting in waters greater than 80 feet deep, effective immediately.

COUNTY GRANGE RALLY IS SET FOR SATURDAY

All-Day Session With State Officers As Principal Speakers

The largest rally of the year for Charlevoix county and northern Michigan grangers will be held Saturday, August 11th, at Deer Lake grange hall, according to Anna Warner, secretary of Charlevoix County Pomona Grange.

John C. Ketchman of Hastings, former master of Michigan State Grange, national grange officer and representative to Washington, also Mrs. Dora Stockman, member of the home economics department of Michigan State college, will be the principal speakers of the day.

A grange officers' conference will be held at 11 o'clock. Every officer in the county is urged to attend this conference.

A cooperative dinner will be held at 12:15 and the afternoon session will be called to order at 1:30 o'clock. The program will consist of music and messages from the distinguished guests of honor.

A prize will be awarded, the Grange having the largest number of members present. Visitors are urged to attend the afternoon session and will find a cordial welcome. It is expected the new Charlevoix county song books will be ready for distribution at the meeting.

MUCH INTEREST MANIFEST IN CONCERT SUNDAY BY HEERMAN TRIO

A special feature of the concert to be given by the Heerman Trio of Cincinnati at The Inn in Charlevoix on the evening of Sunday, August 12, will be the performance of a trio for violin, 'cello and piano of a composition by Rabbi James G. Heller of the Plum Street Temple in Cincinnati. The work is new, having been presented for the first time at a concert in March last by the Heerman Trio, to whom the composition is dedicated.

Much local interest in Charlevoix is being created by the announcement that Rabbi Heller's composition is to be performed, for his mother is a summer resident here and he is well known to many Cincinnatians who are sojourning here to escape the torrid heat of the city. All are invited to attend the concert of August 12, for which there will be no admission charge.

RELOCATION U. S. 131 IS OPEN TO TRAFFIC

County Has 3.4 Miles New Concrete North of Boyne Falls

The portion of the new concrete pavement on U. S. 131 which extends 3.4 miles south from the north boundary of Charlevoix county was completed July 19 and opened to traffic Thursday, August 2, it is announced by State Highway Commissioner Murray D. Van Wagoner.

The opening of this portion was arranged by the state highway department to give access to the Walloon Lake Country Club, which is located on the county line road west of the intersection with U. S. 131. The C. A. Handeyside Construction Co., Detroit, built the project at a cost of $84,436.

The northern section of the new U. S. 131 includes 5.7 miles in Emmet county and was completed Wednesday, August 8. However, the shoulders and finishing on this stretch will not be ready until the last of August. Meanwhile, traffic can use the county line road for a short distance to its intersection with the old U. S. 131 and thence into Charlevoix county. The Middle West Roads Co., Flint, is in charge of construction; the cost is $145,517.

These are two of the 300 or more highway construction jobs, either completed or under way, financed from the $12,736,000 federal PWA grant to Michigan, according to Mr. Van Wagoner.

DISTRICT HEALTH UNIT BULLETIN

Protect Childhood — What Some Schools Are Doing

"Health is more than merely freedom from disease; it is a condition of abounding vitality in which there is a capacity of the person to make satisfactory adjustments to the stimuli that come from the physical and social surroandings," according to Dr. Lewellys F. Barker, a specialist in child care.

Schools, both public and private, are coming more and more to the realization of their duties and responsibilities in regard not only to the health of the pupils they admit but also to the maintenance of health after admission.

Principal Features of a School Health Program

1. A thorough physical examination on admission to the school.

2. Daily inspection of students.

3. Periodic health examinations at intervals.

4. Systematic supervision of the hygiene of school work and recreation.

5. Contact relations of school physicians and nurses with the families of pupils and with their private medical advisors.

6. Examination of the health of teachers, janitors and cafeteria workers.

7. Conference of parents and teachers at which the health difficulties of pupils can be freely discussed with reciprocal benefit.

"The welfare of the pupils should be the main consideration, for on that welfare depend the health, the happiness and the usefulness of the developing generation," Dr. Barker concludes.

The District Health Department, composed of the counties of Antrim, Charlevoix, Emmet and Otsego, in cooperation with the schools, is trying to see that this program is carried on for the benefit of every child. Further information concerning this program can be obtained from Miss A. Winnifred Golley, R. N., Charlevoix county nurse, Charlevoix.

CHRISTIAN SCIENCE CHURCH

Sunday morning service, 10:45.

Every Wednesday evening at 7:45.

Reading room Tuesday and Saturdays, 2 to 5 p. m.

"Spirit" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, August 12.

Among the Bible citations is this passage (II Cor. 6:16): "But will God in very deed dwell with men on the earth? behold, heaven and the heaven of heavens cannot contain thee; how much less this house which I have built?"

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 334): "Spirit, being God, there is but one Spirit, for there can be but one infinite and therefore one God. There are neither spirits, many nor good many. There is no evil in Spirit, because God is Spirit."

The easiest person to deceive is yourself.

LEGAL NOTICES

STATE OF MICHIGAN
In the Circuit Court for the County of Charlevoix in Chancery.

PATRICK H. O'BRIEN, Attorney General for the State of Michigan, for and in behalf of Rudolph E. Reinhert, State Banking Commissioner, Plaintiff

v.

CHARLEVOIX STATE SAVINGS BANK, a Michigan Banking Corporation, of Charlevoix, Michigan, Defendant.

Order to Show Cause

At a session of said court held in the court house in the city of Charlevoix, Michigan, on the 24th day of July, A. D. 1934.

Present: Parm C. Gilbert, Circuit Judge.

On reading and filing the petition of Patrick H. O'Brien, Attorney General for the State of Michigan, setting forth the details of a certain plan of reopening and/or reorganization of the Charlevoix State Savings Bank, a Michigan Banking Corporation of Charlevoix, Michigan, requesting that this court set a day for a hearing thereon and for an order, after such hearing, approving said plan for the reopening and/or reorganization of said banking corporation and this court being fully advised in the premises;

On motion of Patrick H. O'Brien, Attorney General, and Walter A. Kirkby and Byron Geller, Assistant Attorneys General, attorneys for petitioner

IT IS ORDERED, That a hearing upon the petition of Patrick H. O'Brien, Attorney General, upon the details of the plan of reorganization of said bank be held in my court room in the City of Charlevoix, Michigan, on the 13th day of August, 1934, at two o'clock in the afternoon of said day, or as soon thereafter as the same may be heard, why said plan of reorganization should not be approved, and an order entered by this court approving and permitting such reorganization and reopening of said bank in accordance with said plan.

IT IS FURTHER ORDERED, That depositors of said bank may at said time and place register any objections which they or any of them may have to said plan of reorganization, which objections shall be stated in writing.

IT IS FURTHER ORDERED, That notice of said hearing be given depositors of said bank by printing a copy of this order in the Charlevoix Courier, a newspaper printed and circulated in Charlevoix county, the county in which said bank is located and in which said petition is pending, by publishing the same in said newspaper once each week for not less than two successive weeks immediately preceding the date here in set for hearing upon said petition; and by posting a copy of said notice upon the front door of said bank.

MICHIGAN BELL TELEPHONE CO.

"OH, THEY'RE NOT HOME, AND I MUST FIND A TELEPHONE!"

It's inconvenient and often embarrassing to use a neighbor's telephone frequently. But it would be serious . . . perhaps even tragic . . . should sudden sickness, fire, accident or other emergency occur while the neighbors were away, and you could not reach a telephone promptly.

Why continue the inconvenience and risk of being without a telephone of your own? Telephone service costs only a few cents a day. Call, visit or write the Telephone Business Office to place an order. Installation will be made promptly.

Otto W. Bishop

Candidate for the Office of

STATE SENATOR

29TH SENATORIAL DISTRICT

Otto W. Bishop, who has entered the race for State Senator from this District, was born in Alpena and has always resided in Northern Michigan. He has an extensive acquaintance throughout the district and is thoroughly familiar with the problems and conditions of this part of the State.

He has always been active in the business, civic, political and fraternal life of the district. After an active connection with the banking business for twenty years he resigned to engage in business for himself. His several business ventures have been very successful.

It is claimed by friends who have urged Mr. Bishop to enter the contest that his years of banking experience together with his active business career, his valuable experience gained on many civic and political commissions, especially qualify him for the office of State Senator from a district with which he is so thoroughly familiar.

If elected to this important office he promises an energetic representation of the district in the State Senate.

AT THE MOVIES

Famed Fields Juggling Act in New Movie

The famous comedy juggling act that made W. C. Fields, Paramount player, a Ziegfeld Follies star, was recorded for the first time by the movie camera for his new starring picture "The Old-Fashioned Way," coming Friday and Saturday to the Palace theatre.

Colman At His Best

Ronald Colman makes a triumphant return to the screen after a year's absence from pictures, in "Bulldog Drummond Strikes Back," which comes to the Palace theatre on Sunday and Monday, August 12 and 13—and 20th Century could not have chosen a happier vehicle for their new star than this thrill-packed sequel to the delightful "Bulldog Drummond," which brings him back in the characterization most beloved of his fans.

"Bulldog Drummond Strikes Back" finds the lovable adventurer returned from a big game hunting expedition to attend the wedding of his nit-witted friend, Algy, to a gushing young beauty named Gwen, and swearing off excitement for life. Lost in a London fog, he wanders into a deserted house and finds the body of a murdered man. When he returns with the police, he is baffled to find the sinister Hindu Prince Achmed, apparently spending a quiet evening at home with his daughter, Lady Jane, and her husband, Dr. Southern—all amazed at the very idea of violence.

The glamour of watching motion pictures in the making has worn off for Marion Nixon, petite screen star, who plays opposite Chester Morris, in the new Universal comedy, "Embarrassing Moments" at the Palace theatre Thursday.

During her time between scenes, Miss Nixon can be found sitting in some out of the way corner working at "needle-point."

This Great New MOTOR OIL...

...Climaxes Continental's 59 Years of Leadership!

Continental Oil Company's half-century of quality leadership reaches a climax in *New and Improved Conoco Germ Processed Motor Oil!* It is the result of over two years of research and experiment and 963,000 miles of road tests.

This great new oil has these advantages:

1. Two to four times greater film strength than any straight mineral oil. 2. Penetrates and combines with metal surfaces—the "Hidden Quart that never drains away." 3. Stability under all conditions; will not thin out. 4. Prevents carbon and sludge troubles.

Here's proof that it gives you *greater motor protection* and *lower oil consumption:* Tested at Indianapolis Speedway against five other nationally known oils in identical cars, five quarts of New and Improved Conoco Germ Processed Motor Oil carried its car 4,729 miles—3,015.8 miles farther than the first oil to fail, 1,410.2 miles farther than the best of the five other oils!

18,000 Conoco Stations in 40 states have this great new motor oil for you in refinery-sealed cans and in bulk. Fill with New and Improved Conoco Germ Processed Motor Oil and know your motor has the finest protection you can give it!

COUNTY SENT 40 TO GAYLORD CAMP

TWO 4-H CLUB MEMBERS WIN STATE FAIR TRIP

Three Hundred Club Members from 25 Counties Attended Annual Session At Gaylord

(By B. C. Mellencamp.)

Without a doubt, the outstanding 4-H club encampment held at Gaylord, came to a successful conclusion last Friday afternoon. From morning until night, contests, demonstrations, recreation activities, programs and entertainment took place. In addition to several numbers put on by the club members, there were movies of the World fair and other educational subjects.

Charlevoix county was represented by a splendid delegation of 40 club members. Of this number, 18 spent the entire week, while the other 22 were present for a period of two days or less.

In the various contests, Gwendon Hott of East Jordan, repeated his ability of last year in the crops judging contest and won a place in the top three, which gives him a trip to the Michigan State fair in recognition. Lorena Brintnall of East Jordan, won a place on the canning judging team with the same award. At this time, we do not know the results of the dairy judging contest. In this contest, Adolph Ecklund and David Matchett of Charlevoix, have a splendid chance to win. Elva Gould and Eloise Gaunt of East Jordan had a demonstration of jelly making which was very well given but fell a little short of winning the trip to Detroit.

In addition to the club members, there were eight club leaders who attended the camp as follows: Mrs. Harry DeNise, Boyne Falls; Mrs. Belle Gount, East Jordan; Miss Martha Reidel, Boyne City; Miss Nita Shearer, Charlevoix; Douglas Ross, Bay Shore; Dwight Fisher, Boyne Falls; William Parsons, Charlevoix, and Curleton Smith, Charlevoix.

The following club members spent the entire week at the camp: Irene Wilson, Helen Timpkins, Boyne City; Loretta Matchett, Jane Parsuns, Charlevoix; Agnes O'Dell, Amy Lou Johnson, Bay Shore; Lorena Brintnall, Irene Brintnall, Beatrice Rancy, East Jordan; David Matchett, Clayton Smith, Clure McGhun, Charlevoix; Lewis Straley, Ora Hughes, George Gallop, William Gallop, Howard Deneen, Boyne Falls; Versel Crawford, Gwendon Hott, East Jordan. The following spent two days or less: Millard Tousley, Wayne Deneen, Raymond Deneen, Boyne Falls; Wilbur McDonald, Howard McDonald, East Jordan; Adolph Ecklund, Lawrence Ecklund, Charlevoix; Douglas Ross, Bay Shore; Ruth Slate, Murjorie Scott, Vera Staley, Vanetta Faust, Elva Gould, Eloise Gaunt, East Jordan; Eda Zipp, Bay Shore; Alice Ecklund, Eleanor Ecklund, Marjorie Smith, Charlevoix; Amaryllis Detcher, Ongtu Simpson, Maxine Sevenski, Irma DeNise, Boyne Falls.

All the club members report a most enjoyable time and hope that they may again enjoy club week another year. As soon as announcement has been received in regard to the results of the dairy judging contest, the news will be published, so watch the papers.

Working Man Earns Less and Pays More for Existence

Living costs in industrial Michigan today stand generally 24.5 per cent less than during the base period of 1923-26, but corresponding wage decreases are pulling the worker down to a mere existence, the commission of labor and industry reports.

The total weekly cost of living for wage earners in ten of Michigan's industrial cities, the report indicated, averages $25.05 today compared to $33.19 before the depression struck.

At the same time it was pointed out "that the budget of the average working man in Michigan in industrial centers is believed to be very near to the minimum requirements of living. Any prolonged downward revision of the expenditures for food would result in impairment of health."

The Tri-County Fair association will hold the northern Michigan agricultural fair in Petoskey August 27 to August 31, it has been announced. Cheboygan, Emmet and Charlevoix counties will take part in the events, which will include a summer grange rally, a Republican and Democratic day.

Plans are being made to have Gov. Comstock as the speaker for Democratic day, August 29. U. S. Senator Arthur H. Vandenberg, Frank Fitzgerald and Harry S. Toy may be speakers for Republican day, August 30.

LEGION ACTIVITIES!
By F. V. Tyler

Regular annual election of officers was held Tuesday evening, August 7, by Leslie T. Shupton post and resulted in the selection of William E. Goss as commander; Neal Kemp, adjutant; Herbert C. Wilson, vice commander; Oscar P. North, finance officer; Albert P. Taylor, chaplain; Herbert C. Wakefield, sergeant-at-arms; Leo W. Allard, post service officer and Frank H. Wilkinson, Americanism officer. Two delegates were elected from the post to represent it at the department convention at Traverse City in September, who with the new commander as number one delegate will make up the quota of delegates permitted this post by reason of its membership. They are Shirley B. Henry and Albert J. Rehfus. Alternates elected were Clarence B. Meggison, Fenton R. Bulow and O. P. North. Installation of the new officers will take place next Wednesday evening, instead of Tuesday evening, as usual.

The post voted to hold the projected keno party on Wednesday, August 22nd.

MISSOURIAN NEW RIVIERA CHAMP

HAL SURFACE, KANSAS CITY, TAKES SINGLES TITLE

Eugenie Sampson Kamrath, Chicago, and Sidney Jentzen, Detroit, Women's and Junior Winners

Sunday's finals brought to a close the 9th annual Michigan Riviera tennis championships at The Inn courts and produced new champions in every division of play.

Hal Surface of Kansas City, Mo., holder of the Michigan open and many other titles, succeeds Jack Harris, Chicago, as the men's singles champion. In a four-set match, Surface defeated Karl Kamrath, former Texas star now playing out of Chicago, by score of 6-4, 7-5, 3-6, 6-4. Surface, top-ranked player and the favorite, won largely through his ability to score points when most needed.

Eugenie Sampson Kamrath, Chicago, wife of the men's singles runner-up, won the women's singles title left undefended by Catherine Wolf of Elkhart, Ind. Mrs. Kamrath, who is the Chicago city champion, defeated Bernice "Jackie" Ayer, member of the Allerton Club team of Chicago, by scores of 6-2, 5-7, 6-3.

Sidney Jentzen, Detroit, who dominated play in the junior division throughout the tournament, won the junior singles crown in the finals Saturday, defeating his fellow townsman, William J. Mills Jr., by scores of 6-2, 9-7, 6-4.

Surface and Jentzen both share doubles titles in their divisions of play.

Surface, teamed with Phil Castlen, Los Angeles, Calif., co-holder of the Michigan open and Canadian doubles titles, won the Riviera crown in the finals Sunday afternoon, defeating Walter T. Hayes and Karl Kamrath, Chicagoans, by scores of 6-1, 6-2.

The junior doubles crown went to Jentzen and Frank Durham, the latter of Greencastle, Ind., winners over William Seelback and Douglas McKellar of Cincinnati, Ohio, 5-7, 6-1, 6-2, 6-3.

Success marked the efforts of local tennis officials in staging the Riviera tournament this year. The entry, numbering around 130 in all divisions, was the largest in the mid-west this season and the rank of the participants approached several years ago when many of the nation's outstanding players participated in the local event.

LOCAL COUPLE HURT IN AUTO ACCIDENT

Mr. and Mrs. Peter Jensen Injured In Intersection Crash

Mr. and Mrs. Peter Jensen, employes at Charlevoix hospital, received minor injuries in a motor accident at 8 o'clock Sunday evening.

The mishap occurred when their machine was side-swiped by another driven by Versil Mason of Central Lake, as they drove onto U. S. 31 at the intersection with the short highway running west from Brookside cemetery.

According to local officers, it is apparent Jensen did not see the approaching car as he drove onto the trunk line, and the other driver was unable to stop.

BIRMINGHAM YOUTH IS KILLED IN CAR WRECK

William Mortimer Purves Jr., 16, son of Mr. and Mrs. William Purves of Birmingham, was fatally injured Saturday evening near Walloon Lake, when a car in which he was riding with Winthrop Allen, 17, of Walloon Lake, left the road and crashed. Purves suffered a brain concussion and died at Petoskey hospital, Sunday.

ANNUAL BELVEDERE WATER CARNIVAL TO BE HELD ON SUNDAY

The annual swimming carnival, to be held Sunday afternoon at the Belvedere bathing pier on Lake Charlevoix, will be an event of interest to summer residents of the Belvedere Club.

The program, with a schedule of varied and interesting events, will be directed by Miss Rae A. Graveur and Tom Darling. Features will include a "water circus" which will open the program, followed by various races for swimmers of all ages and several novelty races.

Attractive prizes will be awarded the winners in each event.

ANNUAL HOSPITAL TAG DAY DRIVE SATURDAY

Woman's Auxiliary Organizes Campaign to Raise Finances

The annual Tag day drive for the benefit of Charlevoix hospital will be held Saturday, August 18th, according to an announcement by the Hospital Woman's Auxiliary, sponsors of the event.

The plan for solicitation of the city will be similar to that of previous years with exception that a picked group of young people will sell tags, and the city has been divided into districts with chairmen responsible for their respective districts. Those in charge will include Mrs. Laura Courier, Mrs. Helen Cook, Mrs. F. E. Cartier, Mrs. E. L. Dawson, Mrs. F. F. McMillan, Mrs. Dorothy See, Mrs. Angus Fochtman, Mrs. Allan Campbell, Mrs. Harry Walstead, Mrs. A. J. Usher, Mrs. Wm. P. Hicken, Mrs. Margaret Miller.

Headquarters will be established at the Charlevoix Insurance Agency office on Bridge street.

While the hospital board of trustees have been able to weather the distressing depression period and keep the institution in operation, continued support of the public in providing finances is imperative. Thus a generous response during the drive for funds will be greatly appreciated.

DEWOLF HOPPER TROUPE GIVE FINE PERFORMANCE

"The Mikado" Finest Dramatic Play Ever Witnessed Here

A large and appreciative audience witnessed one of the finest dramatic performances ever given in Charlevoix when DeWolf Hopper and his comic opera company presented "The Mikado" at the school gymnasium Tuesday evening.

Although "The Mikado" is an old tuneful opera and undoubtedly had been seen by over half the audience, it was enjoyed because of the uniqueness and cleverness shown by each actor and actress in the portrayal of their roles.

Practically every song was encored and several were called back more than once. The costume and acting of DeWolf Hopper in the portrayal of Koko, Lord High Executioner of Litipu was superb. His songs and witty speeches kept the audience in a gale of laughter, and his informal speech between acts was enjoyed immensely.

It is to be hoped that Charlevoixans will have the pleasure of another visit from DeWolf Hopper and his troupe.

JAMES B. BALCH AGAIN BELVEDERE CLUB HEAD

Re-Elected Along with Other Officers At Annual Meeting

James B. Balch of Kalamazoo, was re-elected president of the Belvedere Club for 1934-35, his third consecutive term, at the annual meeting held Tuesday morning at the casino.

Other officers re-elected were: vice-presidents, C. B. Fox, St. Louis, Mo., and George D. Webb, Oak Park, Ill.; secretary, Emerson W. Price, Charlevoix; treasurer, Logan G. Thomson, Cincinnati, Ohio; assistant treasurer and warden, E. J. Edwards, this city.

James B. Balch, Logan G. Thomson and George D. Webb were re-elected members of the board of trustees. The executive committee named is composed of James B. Balch and R. Vernon Clark and Charles E. Valier of St. Louis, Mo.

REGION AQUATIC DAY NEXT SUNDAY

PROGRAM WATER SPORTS AT ROUND LAKE

Selection Northern Michigan Water Queen Feature—Many Local Contestants to Enter

The annual Northern Michigan Aquatic day, featuring the 2nd annual bathing beauty contest for water queen of Northern Michigan, holds the spotlight of public attention for Sunday, August 19th.

The event, to be staged at Hiawatha Beach on Round lake, off the Petoskey-Harbor Springs road, is a regional affair to which contestants and spectators from all northern Michigan will gather.

In the selection of water queen, swimming ability and appearance will be judged equally. Miss Bernice Lamphear, daughter of Mr. and Mrs. Charles Lamphear, this city, was the 1933 water queen. William C. Bellinger and P. D. Campbell are the local members of the committee of bathing beauty judges. Any girl 15 years of age or over may enter. There is no entry fee. The first 12 entrants will receive latest style bathing suits. Cups and other prizes will be awarded the winners.

A large list of swimming and diving events is listed, including 10 yds. for children 9 and under; 25 yds. for children 12 and under; 50 yds. for boys 15 and under; 50 yds. for girls 15 and under; 100 yds. boys and girls 18 and under; 200 yds. boys any age; 200 yds. girls any age; 100 yds. boys back stroke; 100 yds. girls breast stroke; mixed relay, open, two boys and two girls on each team, swim 50 yds. each. Diving events: children 15 or under, boys 18 or under, girls 18 or under, boys open, any age, girls open, any age.

Other water sports include canoe tilting, obstacle race, duck race, greased pole, watermelon polo, professional exhibition diving, professional exhibition swimming. Dick Scott, instructor at the municipal bathing beach, is one of the swimming judges.

Local contestants, including Miss Lamphear, the 1933 queen, are getting organized for the competition. A relay team has been organized and many other individuals will participate.

In connection with the water sports, a general picnic for ex-service men, sponsored by 40 et 8, Voiture No. 1023 of the American Legion, will be held in connection.

Plans to hold the northern Michigan event at the Charlevoix municipally-owned bathing beach another year, are being considered.

NOTED SPEAKER COMES HERE SATURDAY NIGHT

Dr. Guy Lockwood to Address Open Air Meeting, Corner State-Mason

Dr. Guy Lockwood, writer, poet, humorist, will address an open air meeting at the corner of State and Mason streets at 8 o'clock Saturday evening, August 18th.

Dr. Lockwood, who is principal of Lockwood Art School and editor of the Art and Nature and The Billy Goat magazines, will use as his topic, "The Economic Questions of the Day."

In case of unfavorable weather, the meeting will be held in the court house. Dr. Lockwood comes here under the auspices of the Charlevoix Socialist party.

PRESENT DOROTHY PARKER SKETCHES

AT BELVEDERE CASINO MONDAY EVENING

National Dramatic Camp Players Come to City for Program of Popular Short Plays

On Monday evening, August 20th, at the Belvedere Hotel casino, there will be an evening of the Dorothy Parker sketches presented by members of the National Dramatic Camp.

Miss Gretchen Rickel, who is the ingenue at the Ironton theatre this summer, has had much professional experience, and just before coming here for the summer, she was a featured member of the company which produced, on successive Sunday evenings, these sketches at the Satler hotel. Other members of the company who appeared in Detroit with Miss Rickel were Don Burroughs, star of "Death Takes a Holiday," and Clara Clemens, daughter of Mark Twain, and an actress in her own right, as the star of "Saint Joan."

These short plays are dramatized versions of the stories from Dorothy Parker's popular books, "Laments for the Living" and "After Such Pleasures," and are patterned after the popular Barbizon Plaza Evenings in New York City. There will be two companies of players producing these sketches on the road next season, so the patrons of the Belvedere are particularly fortunate in being able to see them this next week at Charlevoix. All of these sketches are full of the typical Dorothy Parker acid wit and humor and are ironically amusing bits of word play between clever people. The six sketches chosen by the National Dramatic Camp for presentation at the Belvedere are "Dusk Before Fireworks," the story of an average girl and a very bored young man.

"Here We Are"—A bride and groom enroute to New York for their honeymoon.

"The Waltz"—An extraordinarily funny mental picture of a girl dancing with an awkward and unattractive young man.

"You Were Perfectly Fine"—In which a young woman tells her partner how "perfectly fine" he was the preceding evening.

—The last sketch on the program will be "Glory In the Daytime," an entertaining story of an average young matron when she meets and is completely disillusioned by an actress whom she had glorified.

Tickets are on sale at the Belvedere or may be purchased at the door on Monday evening.

INDIANS WIN THREE VICTORIES IN A ROW

Take Double-Header Sunday and Visiting Colored Team Tuesday

Three wins in as many games is the record of the Charlevoix Indians in week-end engagements.

The local club won both ends of a double-header Sunday afternoon, defeating the Spears' Lion Tamers, a picked northern Michigan colored team, 19 to 3 in the first game, and the Wolverine C. C. C. camp 17 to 3 in the second. The Indians were superior in both tilts.

In a twilight game Tuesday evening, the Indians defeated the highly-touted C. W. C. Colored Giants of Muskegon, by a 7 to 6 score in a fine baseball exhibition.

ROBERT STRUTHERS VICTIM AUTO CRASH

Died Sunday in Newberry from Injuries Received Friday Near Moran

Robert Struthers, 53, well known local and Hayes township resident, died in Newberry hospital at 8:30 Sunday evening from injuries received in an automobile accident early Friday morning, August 10th.

Mr. Struthers, employed on the Str. Fred W. Green, then in drydock for repairs, was enroute for a visit home when the accident occurred near Moran. He suffered a fractured skull and other injuries which resulted in his death.

Deceased was born in Charlevoix on May 5, 1882, and, with the exception of a period of 14 years residence in Oregon, had spent his entire life here.

Surviving are four daughters, Mrs. A. V. Winnick and Doris of Sturgeon Bay, Wis.; Mrs. C. F. Schleffel of Detroit, and Annis of Portland, Ore.; one son, Robert, Jr., of Portland, Ore.; his aged mother, Mrs. Elizabeth Struthers, and two brothers, Andrew and John of Hayes township; another brother, Charles, residing in Oregon; three sisters, Mrs. Henry Howe, this city, and Mrs. Andrew Pederson and Mrs. John Haggerty of Oregon.

The body will be brought to Charlevoix and funeral services held Friday afternoon at 2 o'clock from the Henry Howe residence, Mason street, Rev. W. H. Rauch of the Baptist church officiating.

OPEN TENNIS TOURNEY DRAWS OVER 100 ENTRY

Play in 10th Annual Event at The Inn Began Tuesday

Play in the 10th annual Charlevoix Open tennis tournament, staged under auspices of the Charlevoix Tennis Club and The Inn, opened Tuesday morning.

The largest entry in recent years, 107 to be exact, comprises the field. The men's singles division has 18 entries, junior 27, women's 14, boys' 20, girls' 8 and men's doubles 20. The championship competition in all divisions is wide open, due to the fact none of the 1933 title-holders are competing. Charlevoix, as well as other northern Michigan resorts, boys' and girls' camps are represented.

William Novak, local young man and Mt. Pleasant normal college student, is managing the tournament for the tennis club.

GUEST ARTISTS APPEAR AT THE DRAMATIC CAMP

Specialty Numbers Between Acts of "Letty Comes to Town"

Specialty numbers by guest artists will furnish the between-act features during the presentation this week by the National Dramatic Camp of "Letty Comes to Town."

Mr. and Mrs. Tom Darling, the former Belvedere swimming instructor, and the latter assistant to Miss Calla Travis in the conduct of her dancing classes, will appear Wednesday, Thursday and Friday evenings. Mr. and Mrs. Darling won high acclaim for their performances last winter at Miami, Florida. They will give two numbers.

Miss Louise Ann Usher, daughter of Mr. and Mrs. H. W. Usher of Grand Rapids, who has pleased Charlevoix audiences on several previous occasions, will present acrobatic and tap numbers Friday evening.

ACTIVE CHURCH WORKER TAKEN BY DEATH

Miss Agnes Rodger, 85, Died Monday—Funeral Thursday Afternoon

Miss Agnes Rodger, who resided with her brother, John, at their farm home on the outskirts of this city, died Monday, August 13th, at the age of 85 years.

Until the infirmities of age prevented, Miss Rodger was an active worker in the church, Sunday school, missionary society, Woman's Christian Temperance Union and other organizations devoted to building up the Kingdom of God on earth.

Besides her brother, John, and her brother and sister-in-law, Mr. and Mrs. Walter Rodger, she leaves a host of friends and acquaintances who mourn her passing.

Funeral services will be held at the Congregational church at 2 o'clock Thursday afternoon, Rev. G. R. Parker officiating. Interment in Brookside cemetery.

Come and bring your friends. Lawn Social, Thursday, August 16, from 4 p. m. to 10 p. m. at 708 Bridge street. Benefit St. Mary church.—Adv. 33t1, pd.

CITIZENS LEAGUE ORGANIZED HERE

REGULATION MOTOR TRUCK IS AIM OF GROUP

Officers Chosen for Local Unit of Michigan Railroad Employes and Citizens League

A Charlevoix unit of the Michigan Railroad Employes and Citizens League was organized here last Wednesday evening at a meeting held at the high school building.

Conducting the meeting as organizers were P. C. Howard of Battle Creek, and E. R. Carter of Gladstone.

Local officers elected were: president, W. E. Byers; vice-president, Richard K. Paddock; secretary, I. B. Nickerson. Members of the citizens' executive committee are: H. I. Ochs, W. H. Wallace, Ray S. Hamilton, Albert Cook, E. L. Dawson, C. B. Meggison, Harold Byers, E. J. Hiller, D. T. McHugh, W. E. Byers, O. P. North, Dr. C. J. Winder, R. F. Sloan, R. K. Paddock, I. M. Sloan, H. W. Kirby, A. L. Fochtman, P. B. Ross, Robert Dickie, L. S. See, Albert Staley, K. A. Usher.

Members of the Railroad Employes' executive committee are: B. Nickerson, C. Kist, C. A. Taylor and C. Sevrey.

The purpose of the league, which now has a membership of around 300,000 and units in practically every Michigan community, is to promulgate and support regulatory legislation governing operation of commercial trucks on the public highways of the state. Unlike the railroads which, indispensible to the nation, are governed by both state and federal regulations, the trucks, which have multiplied in recent years to almost unbelievable numbers, operate under the most flimsy of regulations and to a great extent at the expense of the public which stands the bill to maintain highways for their routes.

Inroads of trucking lines has effected the revenues of the railroads to an alarming point. The railroads, with which no community can exist without, pay 45 per cent of the primary school funds and, insurance companies, the protection relied upon by millions of people, have invested hundreds of millions of their policyholders' money in railroad bonds.

In view of these facts, it is of great importance that trucks be placed under the same regulations as their competitors, the railroads, in order to protect this country's greatest institution. Thus the Michigan Railroad Employes and Citizens League.

DUCK SEASON CHANGE OCTOBER 3 TO NOV. 11

Monday and Tuesday of Each Week Will Be "Rest Days"

The waterfowl season will be on a five-day-a-week basis in Michigan this year, according to word received from federal authorities by the state conservation commission.

The season will be from Oct. 3 to Nov. 11, inclusive, Monday and Tuesday of each week were designated "rest days," upon which no hunting will be allowed. The open season will be the same in the upper and lower peninsulas.

The commission had recommended a continuous 30-day season because of the difficulty of enforcing rest days and had proposed seasons beginning Oct. 1 in the upper peninsula and Oct. 15 in the lower peninsula. These recommendations were rejected by the United States biological survey.

CANCEL APPEARANCE OF CHASE S. OSBORN

Republican Rally Called Off When Speaker Unable to Come

Due to the demands of a previous engagement, ex-Governor Chase S. Osborn has been forced to cancel his appearance at a Republican rally scheduled for Friday evening at the school gymnasium.

This announcement was made by Frederick V. Tyler, secretary of the county Fitzgerald-for-Governor Club, under whose auspices the rally had been arranged. The meeting will necessarily have to be postponed indefinitely.

MALT STILL BEING SOLD IN MICHIGAN

Malt sales in Michigan still provide a sizable part of the state's revenue.

For the fiscal year ending June 30, 1933, malt tax revenue amounted to $439,149. This period corresponds roughly to the last year before beer could be sold legally. For the fiscal year ending June 30, 1934, records of the malt tax division of the department of state show that $95,712 was collected from this source.

CONSERVATION IN SCHOOLS IS PLAN

Department Representative to Act As Instructors This Fall

The gospel of conserving the wild life of Michigan will be effectively preached in the schools of the state next fall with the conservation department representatives acting as instructors.

Through pictures and lectures the value of wild life and forests to Michigan will be set forth in detail so that when the children complete the two and one-half weeks course they will not only be aware of what Michigan has to offer the tourists and home folks but will themselves be conservationists.

Don Rochester, field representative of the department in 21 counties in this district with headquarters in Gaylord, will be the instructor in this region. During the summer, among his other duties, he has been showing conservation motion pictures in the tourist camps.

Among other activities this summer the conservation department is maintaining an information booth along the state highway near Walton. Here information is passed out to tourists and other visitors as to fishing and hunting, roads and resorts of the region. The success of this booth has shown the department how valuable this service is to strangers and it is possible that a string of the stations will be established through the north next season.

REPORTS ASKED ON AVIATION GASOLINE

The gasoline tax division of the department of state has again called the attention of licensed wholesale gasoline distributors to the necessity for complete detailed reports on gasoline sold by their various outlets for aviation purposes.

Funds available for the board of aeronautics to carry on its work of promoting aviation in Michigan and in improving airports, are obtained from the tax paid on gasoline used by airplanes. The tax is collected by the department of state in connection with the collection of the automobile tax and unless retailers give a complete detailed report of all gas sold for aviation purposes, it is impossible for the wholesale distributors to make a proper accounting in the monthly tax report.

WEEKLY CAMP CHARLEVOIX NEWS - COLUMN

Edited by
ED. TAYLOR

The first big wrestling show of the year was promoted by "Red" Boettcher last Wednesday evening. Six boxing bout and one wrestling match completed the card for the evening. Tim Neal, Herm Everhardus and the Chief acted as judges while the Hon. E. Stanley Oldham was the third man in the ring. San Ladd was timer with Curt Matthews and Frank Smith seconding the fighters. Ray Shewell and Howard Carruthers were the chief ushers. John Swisher, Keith Wright, John Gann, and Ed. Taylor represented the press. In the first bout "Scotty" Woods defeated "Chief" Allen. "Luke" Gilkey, the Kalamazoo Terror, then slugged out a win over Don Piccard in a battle royal which was featured by some fast and furious slinging of leather. In the third bout "Pug" Pitcairn won over "Ace" Bennett. Following them "Kid" Summerfield outfought "Terror" Fuller. George Haun gave "Professor" Piccard a good trouncing and then in the final boxing event of the evening "Killer" Koebel shellacked "Red" Mattson. In the big wrestling event Wimpy Breiner threw "Hippo" Heyman in two minutes and thirty seconds.

Thursday afternoon the junior baseball team were hosts to a group of boys from Charlevoix, who came out for a ball game. Our little boys sure held up the camp when they won 17-11. All of them played swell ball and they deserved to win. Ed. Lilienfield and Bob Henderson pitched, with Bob Huber catching. Bob Lausten, Skid Livingstone and Bob Campbell led the hitting.

Thursday was a sad day in camp for many of us. The reason: Herm Everhardus was leaving. Since he was voted a member of the All Star team which is going to play the Chicago Bears on the 31st of August, it was necessary that he go to Chicago to begin practice. Herm was a great asset to camp life this summer. As well as being a good football instructor, he was able to teach the boys leadership and sportsmanship. To show their appreciation to him the boys and staff members presented him with a travelling case. Herm was sure a great fellow and we all hope that he will be with us next summer.

Friday afternoon the big pre-carnival parade was held. The whole camp participated in the grand march through the city of Charlevoix. The line of march consisted of, first, Norm Pitcairn and Fred Pinkham, next came the rifle squad with their bugles with Herb Ackerman and George Haun on horses following. Next came Mr. Reimann's car with the Mayor the Chief and the Doctor. Behind them came the yellow buggy and the big float. Next came the brass band, which rendered some snappy tunes as the procession moved through the town. Following came the campers on foot who had costumes, while behind them came the boys in their camp uniforms. Next in line came the pony and cart which was followed by the rest of the horses. Last but not least, came the "Alert," that sturdy little sailing vessel commanded by Rear Admiral Matthews with Commander Taylor at the helm. Cabin 8 had a choice fake horse which fell apart in the middle of the parade and had to be removed.

Saturday was the day of the big carnival itself. All morning the boys slaved getting their exhibits ready for the big show. Finally at 2 o'clock the entertainment began and the crowd began to arrive. At 5 o'clock the free show started. First the girls from Kamp Kairphree put on several numbers, which included a tap dance, two monologues and a song. Wendall Gates then presented his marionette show. The parts were taken by Phil Huber, Paul Van Kueren and Wiley Hitchcock. Joe Dain did a specialty with his dancing clown. The carnival this year was a great success, which was mostly due to the splendid way which Mark Wakefield and his committee worked everything out.

Saturday night was the one and only "Gyp" night. The committee composed of Tim Neal, Curt Matthews, Bob Lyon and yours truly, arranged a wet evening for everyone. Most of the tricks were played on the new campers, but several old ones were suckers and bit on the gyps also. Bob Lyon led the fellows in the famous yell of Siam college to start the evening. The funnel trick, seeing stars through a sleeve, feeding marshmellows, pinning a glass to the wall and several others comprised the list of pranks. Flypaper was applied to the manly chests of Oke and the Doctor, but it did not have the effect that was hoped for.

Sunday the program was changed from the regular routine. In the morning everyone rested and then took a long swim. After lunch the seniors and intermediates went to Charlevoix, where they witnessed the finals of the Riviera tennis tourney. The juniors took the boats and went down the bay for the afternoon. In the evening a vesper service was held on the beach. After singing several songs the boys were given a chance to get up and say anything that they thought they would like to pass on to the rest of the camp. Some told of incidents that certain individuals had done that were worth mentioning. Others repeated some lines of poetry or prose that they had heard and that they thought would be worth passing on to the group.

Many interesting events are in store for us during the next week. Monday the rifle team journeys to Kamp Kairphree for a rifle match with the girls. Tuesday will be the day of the annual camp battle between the Greens and Greys. Wednesday the birthday party for all the boys who have their birthdays during the camp season will be held. Afterwards the second big wrestling show of the year will be held. Two big bouts lined up so far are between "Wimpy" Breiner and Elmer La-Pointe and "Highpockets" Harlow and ye Editor. Plenty of action is promised by the contestants of these bouts and also by the others who are on the program. Thursday will be Campers' day. On this occasion the boys fill the positions of the staff members and the counsellors become campers. There are two political parties which have their own candidates and platform and make the competition for the different positions close. It is usually the practice of the party managers to fix it so that the head men around camp get the job of washing dishes and waiting table on that day. Thursday afternoon the campers and the counsellors will have their big baseball game. This year since there is a larger group of seniors than usual, the boys are conceded a slight chance of defeating their rivals.

Last Tuesday three teams, representing Camp Fairwood, visited our camp and played us in swimming, riflery and tennis. Our rifle team lost by 63 points. John LeBolt, Ted Mattson, Sheldon Putnam and Rolly McLaughlin composed the squad. McLaughlin had the honor of being the first man to ever shoot a 50 on the camp range. He peppered five straight shots into the center of the bullseye to register a perfect score. Bob Beuhler, the rifle instructor, offered a free show to anyone who would perform this feat, so Rolly will be Bob's guest at a show soon. The tennis match ended in a tie at 3 all. George Cunningham won his singles match and teamed with Dick Thorsch to capture one of the doubles. Bob Koehel and Jim Hart were also victorious in their doubles match. Charlevoix won the swimming meet 32 to 27. Bob Heyman, Dave Wilson, Jim Hendrickson and Red Boetticher won firsts, while the relay team of Hendrickson, Boetticher, Wilson and Ray Shewell was victorious.

After having to forfeit the Mugwump to the Greens for improper showing of it, the Greys recaptured it the other evening after the Greens had successfully shown it once. It seems the Greens had hidden it in the Doctor's car and when they went to hide it the car was gone so they carelessly hid it only to have the Greys find it.

Many boys participated in the Riviera tennis tourney, which was held last week at The Inn courts and more of them are playing in the Charlevoix city championships which are being played this week. George Cunningham, Dick Thorsch, John LeBolt, Jim Hart and John Swisher played in the Riviera while Noel Pope, San Ladd, Tim Neal, George Cunningham, Dick Thorsch, Jim Hart, John LeBolt, John Swisher, Frank Breiner, Bob Koebel, John Gann, Rolly McLaughlin and Bob Bennett entered the city matches.

TURN EXTRA STOCK INTO CORNED BEEF

Surplus Meat Can Be Preserved for Future Use by Pickling or Drying

Beef which can not be used fresh or which can not be canned may be preserved by drying or corning to provide palatable meat dishes in the future, according to the animal husbandry department at Michigan State college.

The necessity of reducing the number of cattle in the state and the low market prices now paid for common cattle will make it possible to prepare beef from good cuts at a very low cost.

Beef is ready to be corned as soon as it has cooled out thoroughly. The meat should be cut in pieces four to six inches square, and salted down by using 10 pounds of coarse salt to 100 pounds of meat. A layer of salt is placed on the bottom of the container, then a layer of meat, and so on alternately to the top of the meat which should be covered with a layer of salt. The meat is allowed to stand for 12 hours and then is covered with a brine.

The brine is made up of four pounds of sugar and two ounces of saltpeter dissolved in four gallons of water for each 100 pounds of meat. The brine is poured over the meat which is then covered with a loose board weighted down.

The meat should be watched and, if any changes occur so that the brine is not clear, the meat should be taken out, the container thoroughly cleaned, and a new brine added. The new brine may be reduced in strength if the meat was in the first brine for considerable time.

Beef can be prepared for drying by using the same brine as for corned beef except that one more pound of sugar for each 100 pounds of beef should be added. The portion of the carcass commonly cut into round steak makes the best dried beef. The meat should be cut in strips with the grain for drying.

After the beef has become cured in the brine, it is removed, smoked, and hung in a dry place. The meat can be used any time after it has been smoked but it continues to dry and can be held for long periods if moisture is kept from it.

Ninety pelts, representing nine species of fur bearers, brought a total of $127.50 at the July fur sale conducted by the department of conservation.

CONTINUED DROUGHT HURTS STATE CROPS

Sharp Decline In Condition Noted During Month of July

Continued drought and high temperatures during July caused a sharp decline in the condition of corn, field beans, and potatoes in this state, according to the August 1st crop report released by the Michigan Co-operative Crop Reporting Service.

The damage to these crops was most severe in southern counties. In the upper peninsula, northern half of the lower peninsula, and in most counties of the Saginaw valley and Thumb area, prospects are considerably above the state average. Rains on August 2 and weather conditions since that date have been more favorable for late crops, but more precipitation is needed, especially in the southern part of the state.

MICHIGAN DEPT. OF STATE WEEKLY NEWS

Sale of new automobiles in Michigan was 58 per cent greater during the first seven months of 1934 than during the same period in 1933, records of the department of state show. Used car transactions increased 24 per cent during the same months.

The statistics were obtained from department records showing the number of certificates of title issued. Thus far in 1934, a total of 91,988 titles were issued on new vehicles or 33,999 more than for the corresponding seven months in 1933; 223,445 titles were issued on used cars as compared with 172,896 in 1933.

Another interesting fact is the 24 per cent decrease in the number of vehicles that are repossessed. Thus far this year 5,445 cars were repossessed, being 1,524 fewer than last year.

Thus far this year 5,445 cars were reported stolen and of this number all but 69 have been reported as recovered. Up to August 1, 1933, a total of 1,114 cars were reported stolen. This decrease in auto thefts is significant when it is realized that 114,398 more vehicles were licensed for operation on August 1 this year.

Copper automobile license plates are being tested in Michigan.

CENTRAL LAKE CIRCUIT M. E. CHURCH

Earle M. Mumby, Pastor

On Sunday, August 19, the district superintendent, Rev. M. E. Reusch of Traverse City, will bring the message, his subject being, "The Mission and Utility of the Church."

The service will begin at 10:30 a. m. We are expecting special music from Barnard and Norwood. The worship will be followed by the fourth quarterly conference session. Sunday school will meet about 12 M.

There will be no service at Atwood. Those from this point who are not able to take part in the Central Lake service are invited to Barnard at 3:00 p. m., or Norwood at 7:30 p. m., where the pastor will preach on "The Arrow Beyond Thee."

FEDERAL HOUSING PROGRAM STARTED

Plan Provides Borrower Contact Local Banks for Loans

The first phase of the administration's tremendous housing program gained speed with the publication of regulations governing home renovation loans.

The rules were mailed to 18,000 banks and financial institutions throughout the nation.

The plan whereby the housing administration hopes to put 5,000,000 men to work and pour $1,500,000,000 into the veins of the stricken building trades industry is simple. The man who wishes to rehabilitate his property goes to his local banker or other leading agency which is affiliated with the Housing Administration.

The borrower fills out a "property owner's credit statement" which contains questions similar to those of an application for credit at a retail department store. The banker makes the loan without collateral.

In event the banker requires cash immediately he may borrow the entire face value of his renovation loans from the Housing Administration.

TENTH GRANGE ESSAY CONTEST ON SAFETY

National Grange Conducts Annual Competition for Young Members

In a period of increasing traffic mishaps and fatalities, the National Grange announces a renewal of its annual safety campaign, according to L. J. Taber, national master, in a letter sent recently to lecturers of 8,000 subordinate or local granges throughout the country. The Grange, one of the dominant farm organizations of the country, consists of more than 800,000 members.

"This contest," the national master writes, "has been of great service in promoting highway safety and in recognizing ability among our young members."

The campaign is the tenth of a series of similar competitions among younger members of the grange. It takes the form of an essay contest that in other years has enlisted participants from all of the 33 states where the grange is organized.

The subject on which the essays are being written is a challenge to the urban population of the nation with the question, "Why the Grange Should Lead in Highway Safety."

TEMPERANCE GROUP MEETING ON FRIDAY

Discussed Topic of "Citizenship" at Regular August Session

Mrs. F. F. McMillan entertained the Charlevoix Temperance Union last Friday afternoon on the porch of her home, 219 Park avenue.

Mrs. Hamilton presented the topic, "Citizenship," and gave the reason for political parties, the meaning of party platforms and the outstanding differences between the Democratic and Republican parties.

An appeal for contributions to a souvenir booth at the state convention to be held at Battle Creek, October 17-19, resulted in the appointment of Mrs. Saltonstall and Mrs. Hart as a committee to take charge of the matter locally.

The hostess served tea and a pleasant social hour followed the meeting.

CONSERVATION DEPT. NEWS BULLETIN

Over-crowded conditions at Michigan's state parks and other circumstances have made it necessary this year for the parks division, department of conservation, to enforce the regulation on the one-week and two-week maximum visiting periods.

Duck hunters who plan to use permanent blinds this fall are requested by the game division, department of conservation, to have their applications at Lansing not later than September 1. This will afford ample time for examining and approving locations and to make necessary adjustments. All applications up to September 1 will probably be acted upon at once. Those received subsequent to September 1 will be considered in the order received.

Beware of field fires, urges the department of conservation. Even in areas without extensive timber standthey are potentially destructive. The practice of permitting field fires to "burn out" in farming districts of southern Michigan during drought periods is often fraught with danger.

CIRCUIT COURT IS IN AUGUST SESSION

Reorganization Plan of Charlevoix State Savings Bank Approved

The August term of circuit court, which convened Monday before Judge Parm C. Gilbert, entered the third day of the session today.

Applications for citizenship, probation cases and discharge of a long list of "no progress" cases upon which no action had been taken for long period occupied Monday's session.

In the case of Myrtle Weast vs. Dr. F. F. McMillan, trespass on the case, the court denied a motion for a verdict of no cause for action due to disagreement of the jury at a recent triad. Plaintiff may bring the case before a new jury at any future time.

The reorganization plan of the Charlevoix State Savings Bank was approved by the court and seventeen days, instead of the customary ten days, was allowed for stockholders to meet their assessments. Opening of the bank, it is understood, will be contingent upon approval by the R. F. C. of application for loan.

John Lynch, Boyne City, pleaded guilty to violation of the liquor law and was assessed costs of $50 to be paid on or before November 1.

Horace Payne, Antrim county, entered a plea of not guilty upon arraignment on a charge of resisting an officer, as did also Steven Fuller of East Jordan, to a statutory charge. The cases will come to trial later this week.

The case of the people vs. Arlo Wickersham, charged with assault, occupied Tuesday and is still on trial today.

CONGREGATIONAL CHURCH
Charlevoix and Ironton

Next Sunday in Charlevoix will be known as "Camp Charlevoix day." The boys from this camp will be guests, about 90 in number.

Dr. A. K. Foster, student secretary of the Northern Baptist association, will preach. This will be Dr. Foster's last message to this community this year.

STANDING ROOM ONLY AT DRAMATIC CAMP

"Ten Nights In a Barroom" Drew Record Attendances

"Standing room only" was the slogan at the National Dramatic Camp all last week, when the large audiences saw their excellent production, "Ten Nights In a Barroom."

The players outdid themselves, not only in their sincere and authentic presentation of the fine old melodrama, but proved their versatility as entre acte entertainers.

The audiences entered into the spirit of the occasion, hissed the villain, laughed at the comedian, joined the pledge at the end of the play. But the actors proved their ability, when in spite of the old fashioned lines and the desire of the audience to laugh, they were able to touch deep emotion and bring real tears in the more serious scenes.

"Ten Nights In a Barroom" is an example of the kind of theatre that was enjoyed by our forefathers and although creaky in spots still remains a grand evening in the theatre.

The National Dramatic Camp players were each excellent in their respective roles. Three additional members of the company drew honors to themselves—Allen G. Miller in the role of the drunken and then reformed Joe Morgan; George Irving Quimby—as the philanthropist and chronicler, and William Titus as the Squire's profligate young son.

An interesting feature of the production was that although the play was presented in a completely serious vein in action and line reading, still the actors were able to come out of character between acts and put on some of the merriest bits of sunning that have been seen in the parts in some time. The sextette of the "Flying Trapeze" was riotous, as was "After the Ball," and "Don't Swat Your Mother Boys," as sung by Maury Tuckerman.

GRAIN PRICES URGE FERTILIZER

HEAVIER YIELDS COUNT UP QUICKLY. Prospects are for continued better grain prices. Fertilizer pays on wheat. Alfalfa and other crops following fertilized wheat always show large increases in yield. You get two returns from fertilizer.

WE RECOMMEND FARM BUREAU FERTILIZERS because they have the quality that gets results. Their nitrogen is 95% water soluble and quickly available as against 70% required by State law. Our phosphorus and potash carriers are the best. Farm Bureau fertilizers are extra dry, granulated and easy to regulate. Priced low.

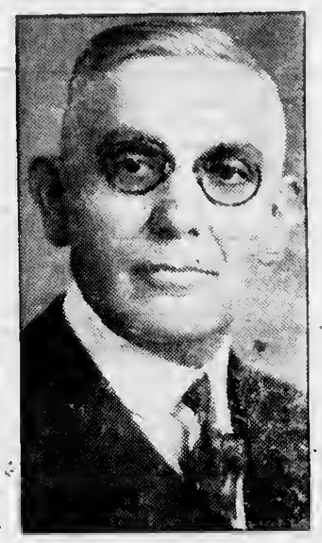
Otto W. Bishop

Candidate for the Office of

STATE SENATOR

29TH SENATORIAL DISTRICT



Otto W. Bishop, who has entered the race for State Senator from this District, was born in Alpena and has always resided in Northern Michigan. He has an extensive acquaintance throughout the district and is thoroughly familiar with the problems and conditions of this part of the State.

He has always been active in the business, civic, political and fraternal life of the district. After an active connection with the banking business for twenty years he resigned to engage in business for himself. His several business ventures have been very successful.

It is claimed by friends who have urged Mr. Bishop to enter the contest that his years of banking experience together with his active business career, his valuable experience gained on many civic and political commissions, especially qualify him for the office of State Senator from a district with which he is so thoroughly familiar.

If elected to this important office he promises an energetic representation of the district in the State Senate.

DISTRICT HEALTH UNIT BULLETIN

Sunshine and Rickets

Recent scientific investigation has cleared up the mystery of the origin and nature of a children's disease known as rickets, which, oddly enough, can be prevented and cured by two such dissimilar remedies as cod liver oil and sunshine.

It is certain that rickets is a deficiency disease of childhood—a vitamin and calcium deficiency in the food eaten—which sunlight can prevent or cure. Even when a child suffering from the disease is cured through the use of cod liver oil it is sunlight that does the curing—in this case "bottled sunlight." When cod liver oil is exposed to sunlight it absorbs the sun's rays, and thus, indirectly does the curing. The ultra-violet rays found in sunlight are health factors whose real importance we have just begun to fully realize.

Rickets is chararterized by a weakened condition of the entire body and by alterations in the growing bones. An infant suffering from the disease experiences a general soreness of the body so that when an attempt is made to move the child cries. A slight fever, accompanied by restlessness at night, and a tendency to throw off the bed clothes, is suggestive of the disease when in addition to these signs the child perspires a great deal, particularly about the head and neck, so that the pillow is constantly damp, a doctor should be called. As the disease is one which particularly affects infants of one and two years, any child of these ages which exhibits such symptoms should be examined.

The disease is particularly marked among those of the larger cities who are badly housed and ill-fed. Want of sunlight, impure air, confinement and lack of exercise are the important factors leading to the development of the disease.

The beneficial element in the sunlight and in cod liver oil is the ultra-violet ray. However, anyone cannot administer the treatment. Successful results require a careful and understanding exposure to the sun's rays since proper amounts are beneficial and excessive amounts injurious.

During the past winter, with the help of the welfare, approximately four and one-half barrels of cod liver oil were distributed by the District Health Department, composed of the counties of Antrim, Charlevoix, Emmet and Otsego. Miss A. Winnifred Golley, R. N., Charlevoix county nurse, has been one of the most influential in securing this cod liver oil and properly distributing it in Charlevoix county.

All infants should be regularly examined by their family physician and treatment for malnutrition or rickets should always be under the supervision of a physician.

Arliss Breaks a Rule

George Arliss broke a rule to which he has strictly adhered during all his years in Hollywood when he attended an unannounced "sneak" preview of "The House of Rothschild," his first starring vehicle under his new contract with Joseph M. Schenck and Darryl F. Zanuck's 20th Century Pictures, which United Artists brings to the Palace theatre Sunday and Monday.

"Side Streets," Tale of Fight for Love at Palace Thursday

"Side Streets," the story of a woman's great love, which is in conflict with lesser loves and "lights-o'-love," comes to the Palace theatre Thursday with Aline MacMahon in the stellar role and Paul Kelly taking the masculine lead.

The story is that of a sedate and matronly shopkeeper who falls in love with a much younger sailor, married him, and then fights to keep him despite the wiles of other more attractive women, one of them her own young niece.

Loves come and go with kaleidoscopic swiftness in the lives of the characters of this First National masterpiece, but the one deep passion of the fur shop-keeper is a love that endures despite slights, neglect and unfaithfulness. She forgives, and forgives again, with a complete forgetfulness of self.

LOST 20 LBS. OF FAT IN JUST 4 WEEKS

Mrs. Mae West of St. Louis, Mo., writes: "I'm only 29 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts. Just 4 weeks ago, I now weigh 150 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—that's the SAFE, harmless way to reduce as tens of thousands of men and women know.

For your health's sake ask for and get a bottle of Kruschen at any druggists—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle you are not joyfully satisfied with results—money back.

"When your head aches; when Neuralgia tortures you, when Muscular Pains make you miserable—take a Dr. Miles' Anti-Pain Pill.

Mr. Smith is one of millions who have found this easy way to prompt relief.

"I keep Dr. Miles' Anti-Pain Pills in my pocket and when I get a dull heavy feeling in my head, I take a Dr. Miles' Anti-Pain Pill and the pain passes off."

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a sluggish, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at drug stores. © 1931 C. M. Co.

DEMOCRATIC CANDIDATE FOR GOV. OUTLINES POLICIES

Would Aid Conservation, Farmers, Change System of Taxation—Cooperate With Federal Gov't

Speaking before a large assemblage here Saturday noon Judge Arthur Lacy of Detroit, seeking nomination for governor on the Democratic ticket, outlined his policies.

We quote in part his address:

"The real purpose of government is to promote the general welfare, and the state and federal and local governments should cooperate to that end.

"What is necessary to promote the general welfare of all of the people? I think I voice the sentiments of everyone when I say that we citizens want security in home and farm ownership, and in the assurance that our children may receive a good education. We want security in employment. We want security against poverty and old age. We want employment for labor and a restoration of industry and business. We want the farmer relieved of his distress and his buying power restored, and agriculture put on a paying basis. We want economy in government. The people should not be taxed to death on their farms and homes, and we want the cost of government cut so that home owning will not become a luxury and farm owning a near catastrophe.

"Agriculture is a fundamentally basic industry in this country, and until the farmers are made prosperous and their buying power is restored, we will continue to have a permanent unemployment and public welfare relief problem in our industrial cities.

"The commissioner of agriculture of the state of Michigan should be a farmer, a tiller of the soil, who knows the problems of buying and selling commodities.

"A liberal part of the state highway department revenues and federal allotments for highways should be used for the improvement and building of farm-to-market roads, so as to provide a quick, cheap transportation for farm products, especially fruits and other perishable products.

"The constitution should be amended to abolish the uniform rule of taxation as has been done in many other progressive states, so as to provide a more equitable distribution of tax burden on all of the people according to their ability to pay, and make possible a further reduction of the taxes on farms, homes and other real estate, and to provide funds for the payment of old age pensions and state aid for unemployment compensation.

"The constitution should be amended to provide for an income tax on a referendum vote of the people, for educational and other necessary public service.

"All real estate taxes for state purposes should be abolished, because these taxes should be reserved exclusively for local government.

"There should be no tax exempt bonds or securities.

"I have said we want security against poverty and old age. We should have a workable old age pension law properly financed. The head tax will not produce enough money and it is un-American in character. May I suggest that the state could provide at least a substantial portion of the money to pay an old age pension at home.

"It goes without saying that it is to the advantage of the entire state of Michigan that conservation, particularly in Northern Michigan, should be promoted to the completest extent possible. I have observed with a great deal of satisfaction the fine work being done there by the civilian conservation corps and it has occurred to me that this should be made permanent for that region and should become, in fact, a national forestry, conservation and recreational training school from which the young men of that section could go out, after training, to service the nation in these imperative fields. The upper peninsula of Michigan can and should become the Florida of the North, and be the tourist paradise of this country.

It is necessary that there should be a state-wide consciousness and understanding of the importance of the development of the upper peninsula and the northern portion of the lower peninsula, along these lines, because the welfare of the state as a whole depends upon the welfare of all of its parts.

"I am opposed to the sales tax on necessary food staples. It is an unjust imposition on the poor, who are least able to pay. I do not think that a tax upon bread, butter, milk and other food-stuffs necessary to sustain life is defensible upon any basis."

OF INTEREST TO FARMERS

By B. C. Mellencamp

The third annual meeting of the Jordan Valley Cooperative Creamery attracted close to 500 patrons of the creamery who freely expressed their satisfaction of the splendid year's report. This cooperative institution has certainly accomplished the purpose for which it was organized to a greater degree in a shorter time than its sponsors dared hope. In fact, during the first three years it has increased its production to the goal set for five years.

For the year just ending, 1,241,327½ pounds of cream were purchased from the patrons and 514,260 pounds of butter were produced. This is an increase of over 100,000 pounds from the previous year. The creamery serves a considerable area, not alone in Charlevoix county, but also in Antrim county.

The election of officers resulted in the re-election of Howard Stephens of Charlevoix and the election of Louis Oosterbaan of Ellsworth to succeed Harold Xyland from the same district. Mr. Cowan of Cadillac personally gave the auditor's report. He was well pleased with the progress of the creamery and with the future plans. Another feature was the talk by A. C. Baltzer, who gave an interesting account of the wonderful value of milk and its products as a source of food. He clearly proved the fact that folks generally little appreciate the real food value contained in a gallon of milk. He urged the dairymen to constantly maintain quality and to have their cows disease free.

To better serve the patrons, during the last year, a new can washer has been purchased as well as a new churn in addition to other minor improvements. The management of the creamery may be justly proud of the record this last year. Patrons of the creamery are greatly pleased with the fine management extended by Percy Penfold, its manager, and the other employees of the creamery. The dairymen of the county have received a much better price for their products as a result of the cooperative creamery than could possibly be obtained in its absence. The creamery welcomes visitors at all times and it is in a position to serve more patrons.

The board of directors of the Top O' Michigan Potato Show association will hold an important meeting in the Gaylord court house, Friday, August 17, at 2:30 o'clock.

After a lapse of one year, great plans are being formulated for this year's show. This show always has had the reputation of being one of the very finest district shows anywhere in the country and is one that merits the cooperation of the farmers in this area. In view of the present conditions, each county in the show area has appropriated a smaller amount of money than usual. With state help that already has been promised, there is no question but what the show will be a financial success.

The junior department will be strengthened over the show of two years ago. Likewise, new contests will be initiated which will prove very attractive to the visitors.

Charlevoix county has been one of the leading counties in so far as premiums won were concerned and it is hoped that the same fine record will result in this year's participation.

BELVEDERE ACTIVITIES

The weekly bridge party was well attended last Wednesday evening. Among those playing were: Mrs. Trigg Waller, Mrs. E. C. Price, Mrs. Carolyn Dewing, Mrs. F. H. Carpenter, Mrs. P. E. Allen, Mrs. W. G. Caldwell, Mrs. J. H. Landis, Mrs. W. Corry, Mrs. J. F. O'Neil, Mr. and Mrs. W. W. Harper, Mrs. J. W. Peers, J. D. Ferguson, Mr. and Mrs. L. E. Lortz, Mrs. Norman Jones, Mrs. Sam Pingree, Mrs. J. High scores were made by Mr. and Mrs. C. George Harris and Misses Frances Rickards and Winifred Heal.

C. O. Schneider of Chicago gave a very interesting Autochrome lecture on Monday evening in the Belvedere casino. The subjects covered were gardens and flowers, Zion National park, Grand Canyon National park, Bryce Canyon National park. These are said to be the most beautiful pictures ever produced in natural color.

The annual swimming carnival will take place on Sunday afternoon, the 19th, at the Belvedere pier. Miss Rae A. Gravuer and Tom Durling are directing the program and have announced an interesting and varied schedule of events to be presented. A water pageant entitled "A Water Circus," will open the program, which will be followed by various races for swimmers of all ages, including several novelty races. Attractive trophies will be awarded the winners in each event.

SMITH HITS UTILITIES AT PETOSKEY MEETING

An excellent meeting was addressed by John W. Smith, candidate for the Republican nomination for governor, at Petoskey, Friday evening, August 10. The Petoskey Smith-for-Governor Club secured a hall and a large crowd was gathered to hear Smith explain his views upon state government.

In the two-fisted style that has won him the title of the "crusading candidate," Smith assailed the activities of past administrations and pointed out what his policy would be, if elected governor. He devoted particular attention to the Public Utilities commission and urged the complete development of Michigan's gas and oil resources.

CHRISTIAN SCIENCE CHURCH

Sunday morning service, 10:45.

Every Wednesday evening at 7:45.

Reading room Tuesdays and Saturdays, 3 to 5 p. m.

"Soul" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, August 19.

Among the Bible citations is this passage (Ps. 42:5): "Why art thou cast down, O my soul? and why art thou disquieted within me? hope thou in God: for I shall yet praise him for the help of his countenance."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 322): "When understanding changes the standpoints of life and intelligence from a material to a spiritual basis, we shall gain the reality of Life, the control of Soul over sense, and we shall perceive Christianity, or Truth, in its divine Principle."

STARR COMMONWEALTH TAG DAY AUGUST 28TH

Drive for State Boys' Home to Be Held in Charlevoix

On Tuesday, August 28, the citizens of Charlevoix will again have the privilege of making their yearly contribution to character building when the Starr Commonwealth for Boys, located at Albion, conducts their annual Tag day and drive for funds, permission for which has been granted by Mayor See.

The Starr Commonwealth is a school and home for the underprivileged boys of the state of Michigan. It has frequently been called a "character building factory," for it has as its aim the rebuilding and reshaping of the lives of boys, enabling them to get started in life with the right viewpoint.

Situated on the shores of a little lake three miles west of Albion, the Starr Commonwealth has been doing a flourishing business in character reclamation for more than two decades. It does not operate with a single set of rules; there are as many different regulations as there are boys in the home. Boys are not sent there as a punishment but rather to be given the opportunity to be good that has been denied them in their own communities. There are no bolts, walls, guards or uniforms.

According to Floyd Starr, the founder and present head of the institution, there are no "bad boys." Starting on the assumption that every normal boy will make good if given the opportunity in an environment of love and activity, Mr. Starr has proven by years of work and hundreds of boys that there are no bad boys in any sense of the word.

It is hoped that all will contribute generously toward making this year's tag day a huge success.

GOOD BOXING SHOW STAGED WEDNESDAY

Four of Eight Bouts Knockouts—Re-match Boys Tonight

Eight bouts, every one a whirlwind of action, rewarded a packed house attending the Charlevoix Boxing Club show staged last Wednesday evening at the school gymnasium.

It was without question the best bill of bouts ever staged in Charlevoix. Four of the eight matches ended in knock-outs and otherwise there was not a dull spot in the program.

Following are the results;

"Hardrock" Ager, Charlevoix, and Saggy LaLonde, Cheboygan, fought to a draw.

Guy John, Charlevoix, won by knockout over Chebalier, Cheboygan.

Anthony Barsonac, Camp Wolverine, won by knockout over Bob Atchison, Charlevoix.

Jos. Detrick, Camp Wolverine, won by decision over Denney Procter, Cheboygan.

Bob Wolverton, Elk Rapids, scored knockout over Roy Rose, Cheboygan.

Herb Gerke, Camp Wolverine, and Sailor Woods, Charlevoix, fought to a draw.

Whitey DeVries, Camp Wolverine, won decision over Bill Tryon, Boyne City.

Ed. Clark, Petoskey, won by knockout in fourth round over Walter Blanks, St. Louis, Mo., in the six-round main event.

The local club will stage another show at the gymnasium the evening of August 15, re-matching several of the performers on last Wednesday night's bill.

PLAN FALL AND WINTER EDUCATIONAL CLASSES

County Committee Is Organized to Act As Advisor Group

A committee representing the entire county has been formed to act as an advisory group in planning a fall and winter program in education.

The purpose is to furnish work for people able to teach and also to provide classes giving opportunity for training in many branches. Suggested classes range from nursery classes to college subjects, commercial, academic, vocational, domestic science or recreational. The teaching cost will be taken care of by the state and will be in addition to that otherwise spent in the county. The local community will take care of the cost of providing place of meeting.

Teachers for these activities will be selected on their ability to present the various subjects. The usual certification will not be necessary. For example, anyone who can teach others to sew will be considered, whether or not she has the legal qualifications of a teacher.

Information as to how many are available for teaching, and how many are interested in being members of a class is wanted by the committee before August 27th. Those living in the cities should get in touch with the superintendent of schools, and those in the rural communities with the county school commissioner.

Men will sacrifice more for a poison indulgence than for food.

MICHIGAN CLASSED AS DROUGHT AREA

Forty-one Counties Included in Section to Get Federal Benefits

Forty-one Michigan counties have been designated as being in the secondary drought area by E. W. Sheets, federal drought relief administrator.

The principal benefits accruing to Michigan farmers from this designation are the granting of special freight rates on livestock shipped from the area to other sections where feed is more plentiful, and on feeds bought for use within the 41 counties. Freight rates will be one-half of the regular schedules.

Counties included in the secondary drought classification are Berrien, Cass, St. Joseph, Branch, Hillsdale, Lenawee, Monroe, Wayne, Washtenaw, Jackson, Calhoun, Kalamazoo, Van Buren, Allegan, Barry, Eaton, Ingham, Livingston, Oakland, Macomb, St. Clair, Lapeer, Genesee, Shiawassee, Clinton, Ionia, Kent, Ottawa, Muskegon, Montcalm, Gratiot, Midland, Isabella, Mecosta, Newaygo, Oceana, Mason, Lake, Osceola, Clare and Gladwin.

Classification as secondary drought territory does not permit the federal government to buy cattle. The purchase of cattle is confined to primary drought areas.

Placing these Michigan counties in the secondary drought classification does not mean that the efforts of livestock men to help the situation should be relaxed. Reduction of freight rates on feeds will help only if hay and grains can be found at prices which make it practical to feed them to livestock. No trouble is expected in finding plenty of grain but the purchase of hay or other roughage will be a different matter.

All livestock and dairy cattle owners' organizations in Michigan are using all possible means to call the seriousness of the situation to the attention of their members. There is not enough hay in Michigan or within any reasonable shipping distance in other states to carry the present number of cattle in Michigan through next winter.

Adjustments will have to be made in the herds by the owners. Only the owner knows which animals can best be spared with the least damage to his future plans. Present market prices for the common grades of cattle are extremely low and some terminal markets are glutted with such stock. No cattle should be shipped to any market until the conditions there are known. Slaughter and consumption of the cattle at home either as fresh meat or as canned or preserved beef is preferable if it possibly can be done.

SUNDAY DINNER SUGGESTIONS

By Ann Page.

* * * * * * * * * * *

Red, ripe tomatoes, big and meaty, are plentiful and cheap. Luncheon and supper menus should be built around them. With bread and butter and milk or cheese, they make a simple, satisfying and inexpensive meal. Cheese at its present price offers more nourishment for the money than almost any other food.

Fruits and vegetables in variety are fairly cheap and abundant. Beets, carrots, onions, turnips and carrots, egg plant, green beans and summer squash are all good choices. Boston and Romaine lettuce, green peppers and cucumbers are also low in price. Iceberg lettuce is less expensive than last week.

Peaches are already less plentiful, and fresh prunes are replacing plums. Bartlett pears are inexpensive, and with bananas, cantaloupes, grapes and oranges are the best fruit choices.

Here are three menus to choose from:

Low Cost Dinner
Pan-broiled Round Steak
Mashed Potatoes
Cole Slaw
Bread and Butter
Jellied Fruits
Tea or Coffee Milk

Medium Cost Dinner
Roast Lamb Browned Potatoes
Corn-on-the-Cob
Bread and Butter
Lemon Pie

Very Special Dinner
Fruit Cup
Broiled Sirloin Steak
Baked Stuffed Potatoes
Buttered Beets
Lettuce and Tomato Salad
Rolls and Butter
Snow Pudding Custard Sauce
Coffee (hot or iced) Milk

HOUSING PROGRAM AID HOME OWNERS

FARMERS AND CITY DWELLERS WILL BENEFIT

Applications for Loan May Be Made With Any Authorized Banking Institution

Americans who live in small communities and on farms should benefit as much as the city dwellers from the Modernization Credit Plan of the Federal Housing Administration, under provisions of the National Housing Act as proposed by President Roosevelt, enacted by Congress and put into operation by Administrator James A. Moffett.

Success of the Modernization Program is believed by Mr. Moffett to depend fully as much upon the response and cooperation of the farmer and the citizen of the small community as upon those who live in metropolitan areas.

At least, the need on the farm for repairs, alterations and improvements is as great as in the city, as indicated by a current farm housing survey of the department of agriculture.

Preliminary figures of this survey indicate that out of every 100 farm houses, probably 50 are under the minimum standard of livability; that 15 out of each hundred houses need new foundations, 15 to 20 need new roofs, 10 to 15 need new floors, ten need new walls and a large number lack bath facilities.

Through the Modernization Program of the Federal Housing Administration, which got under way August 10, the United States government offers the farmer as well as the city dweller the means of bringing his home up to modern American living standards, and also of improving his barns and other buildings, through the regular banks and other lending agencies of his community.

In the drought-stricken states many farmers will be helped in deepening wells or digging new wells.

No money is given away and the borrower does not deal directly with the Federal Housing Administration. But the money is made available as "character loans" through regular established lending agencies.

12TH ANNUAL COUNTY PICNIC ON LABOR DAY

Preparations Are Now Under Way for Extensive Program

Plans are under way for the 12th annual Charlevoix county picnic, to be held on Labor day, Monday, September 3, at Whiting park.

County Agent B. C. Mellencump, who is arranging the program, announces entertainment will be provided for every minute in the day. In the afternoon sports and running races will be conducted, also two ball games between teams yet to be announced. Efforts are being made to line up a hill of boxing matches between the Wolverine C. C. C. camp boys and local performers. The county American Legion posts will provide the concessions.

Of particular interest is the announcement that Perry Whiting, donor of Whiting park to Charlevoix county, will be present at the annual picnic this year.

Citizens of the county are asked to arrange their plans now for attendance at this annual farmer-merchant get-to-gether.

BOXING CLUB WILL STAGE THIRD SHOW

Seven Bouts on Bill at School Gym Thursday Night

The Charlevoix Boxing Club, following up its success in staging two boxing shows at the school gymnasium, have announced another attraction of seven matches for Thursday evening, August 23rd.

The bouts, featuring many of the performers of previous shows, are as follows:

Art Depoliesta, Wolverine C. C. C., vs. Bob Crampton, Charlevoix; Whitey DeVries, Wolverine C. C. C., vs. Jack Holliday, Wilderness C. C. C.; Hub Gerke, Wolverine C. C. C., vs. Johnny Mearing, Wilderness C. C. C.; Glen Rock, Wilderness C. C. C., vs. Chuh Wilmot, Kenosha, Wis.; Joe Jusinski, Wilderness C. C. AUGUST COURT TERM CONCLUDED FRIDAY

East Jordan Man Sent to Jackson for Serious Offense

The August term of circuit court, convening before Judge Parm C. Gilbert of Traverse City, adjourned Friday noon.

Steven Fuller, East Jordan, convicted on statutory charge, was sentenced to serve from two to ten years at Jackson prison. Horace Payne, Saginaw, convicted on charge of resisting an officer, was sentenced to serve 60 days in the county jail, following which he will be on probation two years.

The embezzlement charge against Peter Umbor, former South Arm township treasurer, was dismissed upon payment of $192.57.

After a trial requiring nearly two days, a jury brought in a verdict of not guilty in favor of Arlo Wiekersham, well known Marion township farmer, charged with assault. In the chancery case of Decker vs. LaLonde, the latter's request for dismissal of the case was granted.

Foreclosure decree, awarding the sums of $5,545.87 and $4,210, was given the Charlevoix State Savings bank in its suit against Nellie Iddings.

Divorces and other non-jury matters were disposed of on the closing day of the session.

FINALS BELVEDERE GOLF TOURNEY TODAY

John Knight, Grand Rapids, Richard Moss, St. Louis, Are Finalists

John Knight of Grand Rapids, and Richard Moss of St. Louis, Mo., survivors of match play in the championship flight of the annual Belvedere Golf Club handicap tournament, will meet today for the title. Knight was the 1933 runner-up.

The women's title went to Mrs. L. S. Bisbee of Jackson, who Sunday defeated Mrs. W. D. Kincaid of St. Louis, Mo., 4 and 3 in 36 holes, following a tie at the end of the regulation 18-hole match Saturday.

Other winners were: Men's class B—J. N. Rarick, St. Louis, Mo., defeated E. J. Sieboldt, St. Louis, Mo., 1 up in 36 holes. Men's class C—J. F. Hickey, St. Louis, Mo., defeated Forsythe Tramel, Chicago.

FINE GRANGE RALLY HELD AT DEER LAKE

Dora Stockman and John Ketchum Were Principal Speakers

According to those in attendance, the Grange rally last Wednesday evening at Deer Lake grange, was one of the best ever held in Charlevoix county.

Mrs. Dora Stockman led an inspiring officers' conference in the forenoon. The entertaining grange served a fine dinner at noon.

John C. Ketchum addressed the afternoon meeting, giving a stirring talk on present and past legislative affairs. Mr. Ketchum went on record as opposing the proposed amendment to reduce the gas tax, also opposing the sales tax on food and clothing. He talked in favor of a state income tax.

COLORED SINGERS TO APPEAR AT THE INN

"Cotton Blossom Singers" On Program Friday, August 31

The "Cotton Blossom Singers," students from Piney Woods school, Piney Woods, Miss., will present a program of music in the lobby of The Inn on Friday evening, August 31.

The program, which is free to the public, will include negro spirituals, folk songs, dialect readings, plantation songs, work songs, love songs, etc.

An offering will be taken for the school, which is operated for underprivileged boys and girls who make their way by their labor on the school farm and in the laundry.

The program promises to be instructive as well as entertaining and a large attendance is desired.

"ALLIGATOR JOE" PUT ON EXHIBITION HERE

Alligator wrestling, a sport new to northern Michigan, was an attraction at the municipal bathing beach last week.

Joe Coppinger, known throughout the nation as "Alligator Joe," put on his daring and sensational bout with alligators for the amusement of a large crowd. Coppinger has been highly publicized through newspapers and news reels of the country for his feats. Several large alligators were transported by the wrestler for use in the exhibition.

BELVEDERE WATER CARNIVAL SUCCESS

LARGE CROWD OUT FOR PROGRAM LAST SUNDAY

"Water Circus" Main Attraction — Competitive Events Drew Large Entry

The annual Belvedere swimming meet, held Sunday afternoon at the Belvedere swimming pier on Lake Charlevoix, was witnessed by an unusually large number of enthusiastic summer residents.

A water circus was the main attraction, opening the afternoon program of events. Jimmy Lortz acted as band master of the parade. Russell Lortz, Sam Lortz and Taylor Brian gave a very clever imitation of seals, both in tricks and dives. One of the most humorous numbers in the circus was presented by Jeanne Darling, Helen Hollingsworth and Dwight Thomson, who appeared in very old-fashioned bathing suits and performed "modern dives in an old-fashioned way." Others participating in the circus were Gertrude Zimmerman, Esther Kay, Joe Morris, Mary Tyler and Marjorie Edwards.

The circus was followed by the major events, with the results of the various contests as follows:

Tiny tots free style: Jane Morris and Russell Lortz; 25 yard junior free style: girls, Jean Meserve; boys, Joe Morris; 5 yard senior free style: men, Dwight Thomson; girls, Jeanne Darling; 25 yard junior back stroke: girls, Jean Meserve; boys, Joe Morris; 50 yard senior back stroke: girls, Mary Tyler; men, William Brown; 25 yard junior breast stroke: girls, Jean Meserve; boys, Joe Morris; 50 yard senior breast stroke: girls, Esther Kay; men, Dwight Thomson. Diving: men, William Brown, girls, Jeanne Darling. Egg and spoon race: Jean Meserve. Balloon race: Russell Lortz.

The program was under the direction of Miss Rae A. Graveur and Tom Darling. The officials included Homer D. Jones, Mrs. C. C. Steiner and E. J. Edwards.

CHARLEVOIX COUNTY FAIR SEPTEMBER 11-14

Many Fine Attractions Provided for Four-Day Exhibit

The 1934 Charlevoix county fair, the 49th annual exhibit sponsored by the Charlevoix County Agricultural society, will be held September 11, 12, 13 and 14 at East Jordan.

Premium books, listing several hundred dollars in prizes for agricultural exhibits, 4-H Club and Grange displays, as well as for horse racing and prizes for various contests have been issued.

In addition to three days of horse races, various sports and free attractions including baseball games, boxing matches, livestock parade, balloon ascensions, etc., are being offered for entertainment.

NEWVILLE BROTHERS AN ATTRACTION HERE

The Newville Brothers of Detroit, harmony singers, were a recent attraction at Moonlight Gardens and The Inn.

The boys, Bill, Jack and Bob, are 10, 13 and 16 years of age, and have appeared on the stage of many Detroit theatres in addition to entertaining at various luncheon and service clubs in southern Michigan. They were accompanied on the piano by their father.

"JUST SUPPOSE" CAMP OFFERING

A. E. THOMAS PRODUCTION AT IRONTON THEATRE

Augmented Cast in Presentation This Week — Repeat "Ten Nights In a Barroom" at Gym Monday

The National Dramatic Camp will produce on Wednesday, Thursday and Friday nights of this week, at their theatre by the lake, one of the most delightful and entertaining plays of their season—"Just Suppose," by A. E. Thomas.

"Just Suppose" is an imaginative story of what might have happened had the Prince of an hypothetical country visited this country on a moonlit week end and fallen deeply in love at sight with a charming Virginia girl. Comes the time for the great battleship to sail and the decision of the Prince and his new found love furnish the conclusion to a beautiful comedy, with an appealing touch of pathos.

An augmented cast has added interest to happenings at the Camp, as well as the appearance of two local actresses in the company.

Freda McMillan, the talented daughter of Dr. and Mrs. McMillan of Charlevoix, will appear in a lovely character role. And word comes from the Camp that her work in this part will be one of the best things in which she has locally appeared.

James Doll, who will be remembered as a member of the National Dramatic Camp its first season, has returned for the next two weeks and will appear in the role of the officious but understanding foreign ambassador.

Gretchen Riekel and Maury Tuckerman who have made for themselves a host of friends because of their excellent performances throughout the summer season, will appear in the very sympathetic roles of the two young lovers, who are so entirely the playthings of fate.

Paul Allen made for himself many friends last week when he appeared for the first time with the company, and he will be particularly enjoyed this week as the personal friend and appointed guardian of the Prince.

LEAVE ALL MEADOWS HAY WILL BE HIGH

Ruined Seedings and Fields Will Make Forage Supplies Scarce

Evidence of the extreme shortage of forage throughout the country is contained in the advice given by Dr. A. J. Pieters, U. S. Department of Agriculture, not to plow up any meadow which will produce hay in 1935.

The federal man says that reports from all over the nation show that a large proportion of the 1931 seedings have been killed by adverse weather conditions. Old hay fields which would normally be plowed up as their production decreases must be depended upon to furnish a large part of next year's hay crop.

All available hay supplies will be cleaned out of barns and stacks before next spring so the hay supply for the 1935-36 winter feeding period must be produced in the 1935 season. Prices, of course, are determined by the supplies available, and the probable good prices next year will make hay a profitable crop on ground which normally would be plowed.

Charlevoix: 1st ward 4, 2nd ward 11, 3rd ward 7. East Jordan: 1st ward 2, 2nd ward 3, 3rd ward 7.

MRS. LEWIS SANDEL SUCCUMBED TUESDAY

Had Been Resident Here 64 Years—Funeral Services Thursday

Mrs. Lewis Sandel, 70, a beloved and respected resident of Charlevoix and vicinity for 64 years, was found dead in bed at her home on Alice street Tuesday morning. Her passing was a shock to her family and many friends.

Emma Gaunt was born February 6, 1863, in Ohio. She came to Michigan with her parents at the age of four years, residing on a farm 21 years before coming to Charlevoix, where she had since made her home.

Surviving in addition to her husband are two daughters and three sons, viz: Mrs. Clifford Peters and Mrs. Sam Peters, this city; Robert and Roy Dickie of Charlevoix, and George Dickie of Flint; also two sisters and two brothers.

Mrs. Sandel was a devout christian and loving mother. She was a member of the Pilgrim Holiness church and had attended the Church of God the past 21 years.

Funeral services will be held at 2 o'clock Thursday afternoon from the Church of God, Rev. Stewart officiating.

FITZGERALD SPEAKS AT PETOSKEY AUG. 30

Northern Michigan Republican Rally at Emmet Fair Grounds

Attention of Charlevoix county citizens is called to a Northern Michigan republican rally to be held at 8 o'clock Thursday evening, August 30th, at the Emmet county fair grounds in Petoskey.

Frank D. Fitzgerald, seeking the republican nomination for governor, and Harry S. Toy of Detroit, candidate for the republican nomination for attorney general, will be the principal speakers. Other candidates for state office have been invited to appear.

The rally is intended to take in the counties of Alpena, Emmet, Cheboygan, Otsego, Charlevoix and Antrim.

ANNUAL INDIAN CAMP MEETING OPEN AUG. 31

Daily Services at Greensky Hill Mission With Outside Speakers

The annual Greensky Hill Indian camp meeting will be held at the Indian mission church from Friday, August 31, to Sunday, September 9, inclusive.

Services will be held daily with excellent speakers, both in the Indian and English languages. On Sunday, September 9, at 2:30 p. m., Rev. Reusch, district superintendent, and Rev. W. W. Hurd, local Methodist pastor, will have charge of the service.

Visiting preachers will include Rev. John Silas of Bay City, and Rev. George Sturgeon of Holland.

EIGHTY THOUSAND GARDENS BY WELFARE PLAN

The Michigan emergency relief garden program instituted last spring has produced 80,000 individual gardens and 2,135 acres of vacant land set out as community gardens, it was reported this week by the emergency welfare relief commission.

TROUT SEASON TO CLOSE LABOR DAY

FISHING IS BELOW NORMAL THROUGHOUT STATE

Extend Season for Rainbow in Lake Charlevoix and Portions of Several Rivers

The closing of the regular trout fishing season Labor day will find many Michigan fishermen convinced that trout fishing generally was not as good this year as in some former seasons, but that there are still plenty of trout in the streams.

Although many good catches have been reported, complaints of poor fishing have been common. Many conservationists, however, are awaiting with interest the reports on creel census cards, which will give a comparison of this year's catches with other years. The information will be tabulated by the Institute for Fisheries Research, Ann Arbor.

While the regular trout season expires Labor day, fishing for rainbow trout or steelhead will be permitted after that date in waters listed as follows:

Soo Rapids of St. Mary's river up to September 15.

In the following inland lakes and parts of streams through September, October and November:

Muskegon county — Muskegon river, Muskegon and White lakes and White river.

Oceana county—White river down from dam at Hesperia, Pentwater lake and Stoney lake.

Mecosta, Newaygo counties—Muskegon river down from Rogers dam.

Mason county — Pere Marquette river down from Indian bridge, Sec. 23 T. 18, NR 16 W.; South branch Pere Marquette down from Riverview bridge Secs. 35 and 36, T18 NR16 W., and Pere Marquette lake.

Manistee county—Manistee river, Manistee, Arcadia and Portage lakes.

Wexford county—Manistee river down from U. S. 131.

Benzie county — Round, Platte, Bronson, Ann, Lower Herring and Betsie lakes.

Cheboygan county — Mullet and Burt lakes, Indian and Crooked rivers and Sturgeon river down from dam at Wolverine.

Emmet county — Crooked river, Crooked and Pickerel lakes.

Charlevoix county—Lake Charlevoix.

Antrim county — Channel below new power house at Elk Rapids.

FALL SEED LOANS ARE NOW MADE AVAILABLE

Farm Credit Administration Announces Aid for Farmers

A bulletin from County Agent B. C. Mellencamp announces that the Farm Credit Administration will make crop production seed loans for fall crops.

These loans are very similar to the seed loans made this spring and the maximum allowance per acre is $1 for fallowing, $1 per acre for purchase of seed for winter grains, $2 per acre for the combined fallowing and seed purchase. $250 is the maximum loan to any one individual except in drought stricken areas where the limit is $100. Loans of this type may be had up to and including September 15, 1934. A crop mortgage is taken on the crops, the loan maturing August 31, 1935, and the interest is 5 per cent per annum until paid.

Those interested in securing a loan may contact the county agent.

DRIVERS' LICENSES EXPIRE THIS YEAR

Over Half Million People Must Secure New Licenses

A total of 559,851 automobile drivers must secure new motor vehicle operators' licenses before the end of the year, according to records of the department of state.

The new law became effective May 1, 1931, and for the balance of that year 737,130 licenses were issued. Each license must be renewed every three years and since May 1, 1934, only 177,279 licenses were issued up to August 15.

For the first two weeks of August, licenses have been issued at the rate of 2,365 a day.

WEEKLY CAMP CHARLEVOIX NEWS COLUMN

Edited by

ED. TAYLOR

This is the final week of camp and everyone is sorry to see the season drawing to a close. This has been the most successful season in the history of the camp. We have had a fine group of campers here this summer and also a wonderfully trained staff to lead them in their work and play. We hope that through this column we have been able to keep the parents of the boys and friends of the camp well posted on the activities that have been going on and of the accomplishments of the campers.

Our rifle team evened the score with Camp Fairwood when they won the telegraphic meet which was held last week. Fairwood had a total score of 888 points, while Charlevoix scored 909. Elmer LaPointe was high man with 242. John LeBolt had 234, with Rolly McLaughlin and Ted Mattson shooting 222 and 211. In a personal match with the Fairwood instructor Bub Beuhler was victorious, 242 to 241.

Thursday was Campers' day. Each member of the staff became a camper while some boy filled his position for the day. Two parties, the "Mugs" and the "Wumps," had their candidates up for election by the campers. John Swisher took Mr. Reimann's place, while Norman Pitrairn was Mrs. Reimann. "Red" Boetticher acted as the doctor for the day, even wearing his instruments. George Cunningham took Oke's place as swimming instructor for the day, while George Hain acted as Tim Neal. Jerry Quinn's position was filled by John Dain. Wally Heyman and Keith Wright took the positions of Jack Hogan and Noel Pope in the business office. Others elected to office and the staff position they held were: Wendall Gates, Jim Hendrickson; Mark Wakefield, Bob Koebel; Frank Smith, Jim Hart; San Ladd, Jim Kury; Bob Lyon, Bob Bennett; Curt Matthews, Wiley Hitchcock; Bob Beuhler, John Gann; Louis Baker, Bill Thompson; Herb Ackerman, Bob Heyman; Ed. Taylor, Phil Huber; Bill Brownell, Jack Shewell; John Schorpfle, Skid Living-tone; Jim Evans, Vernon Evans. In the afternoon the campers lost to the new staff members in a baseball game 8-7. John Swisher and Jack Shewell pitched for the winners, with Bob Heyman catching. Frank Harlow, Oke and Ed. Taylor pitched for the losers with Oke and Taylor catching.

The junior baseball team met the boys' team from Charlevoix in a return game last week and again defeated their rivals, this time by a score of 11-10. Saturday afternoon the Wilson family of Akron, and several boys who live near them at their cottage over at Ironton, came over and trimmed our team 19-11. Jack Shewell, Thorsch and Hain all hurled for the camp, while Dave Wilson an ex-twhile camper, pitched for the visitors. Monday afternoon a team from the Belvedere Club came to camp to play our older boys' team and they went home on the short end of the count, 25-13. Our team certainly ended the season in great style by giving the visitors a good trouncing. Swisher, McLaughlin and Thorsch pitched, with Bob Heyman and "Gazelle" Shewell receiving.

Friday afternoon was the scene of the big sailboat race between those two master helmsmen, E. Curtiss Matthews and Dr. John Olwin. Skipper Olwin piloted the "Alert," while the commander of our fleet was at the tiller of the "Zonta." Although both boats were disabled during the race, both finished, with the "Alert" winning by two minutes.

Friday night the older boys and assistant counsellors went down to Kamp Kairphree for a little entertainment. The girls put on a dancing exhibition and then dancing and refreshments were enjoyed by all. Everyone had a swell time and we hope that our friendly relations with the girls' camp will be continued next year.

Last Wednesday night the second big fight show of the year was put on by promoter Boetticher. The same officials as the week before took charge. In the first bout of the card "Killer" Sill dethroned the junior champ, "Battling" Gilkey, by scoring three punches. The "Killer" then challenged anyone in the junior section, but no one dared to raise his hand against the new champ. In the next bout Bob Camp soundly trounced Buddy Spiesberger. The third bout was a great exhibition of how wrestling should not be done. The participants, "Demon" Harlow and "Kung-fu" Taylor put on five minutes of honest professional grappling, etc. The bout ended in a draw since neither battler was able to score a fall. Bob Koebel and Johnny Gann then put on three fast rounds of boxing with Gann, winning on a close decision. "Tinker" McLaughlin and "Wally the Hippo" Heyman wrestled to a draw. In the main bout of the evening "Chief Wimpy" Breiner was declared the winner over "Jo-Jo" LaPointe, after the latter was unable to continue the bout. It was rumored that "Jo-Jo" had over indulged at the evening meal.

The annual birthday party was held last Wednesday evening. All of the boys who had birthdays during the camp season were seated at the head table and were honored by a special big birthday cake. Mrs. Reimann then presented each one of the guests with a present, also adding a few choice remarks which tended to lend a little humor to the gathering.

Saturday, before the baseball game, the Greens and Greys competed in a tug-of-war. Each section had their own battle with the Greys being victorious in each of the three fights, but only after a hard struggle. Last Tuesday was the great camp battle. In the junior section the Greys won, and also the Greys won in the intermediate fight. The Greens came through in the senior fight to capture their opponents' flags.

The "50" Club, which is composed of boys who have shot a perfect target, went to the show Monday evening as guests of Bob Beuhler, the rifle instructor. The only members are Rolly McLaughlin, Elmer LaPointe and Beuhler. The first two have each shot one perfect target, while Bob has shot two.

Monday afternoon Kamp Kairphree came up for a return rifle match. Although they had been defeated earlier in the year our boys strengthened by the addition of a few men, won 1070 to 899. John LeBolt was high man, with Ted Mattson second. Sheldon Putnam, Bob Lautrp, Norman Pitrairn and Bob Henderson were the other members of the squad.

George Cunningham, the "flash" from Evansville, won the boys' singles tournament which was held during the past week at The Inn courts in connection with the Charlevoix city championships. He defeated some of the best players in this part of the country to capture the title and certainly deserved to win. Camp Charlevoix is proud of George and hope that he will have the same success in future meets.

Last Tuesday evening the whole camp went to the show. Half of the group went to the high school to see DeWolf Hopper in his famous stage play "The Mikado," while the rest went to see George Arliss in his new picture. Both entertainments were certainly worth while seeing and were enjoyed by the boys.

Sunday morning the whole camp went to the Congregational church in Charlevoix for their morning worship. In the afternoon everyone was free to do what he pleased. In the evening a vesper service was held in the chapel. Each boy was asked to say a few words concerning what he got out of camp during the eight weeks he had spent here. Many worthwhile things were brought out by the different fellows as they gave short talks about their own feeling of what the camp had done for them.

There are many interesting events on the program for this week even if it is our last in camp. Tuesday afternoon the staff will challenge the campers to a baseball game. Tuesday evening the big Green and Grey banquet will be held, with the losers treating the winners. In the evening the final pillow fights will be held, with everyone wanting to get in one last crack at some fellow or another.

Wednesday evening the final council ring ceremony will be held at the sacred council ring. The ceremony will be opened by lighting the fire from the spirits of the gods in heaven. The awards will then be presented to the campers as a token to remind them that they are members of the tribe of Charlevoix. This year a new system of awards is being put into effect. All of the boys will be given the arrow C and every year afterwards at the end of the year they will be given this emblem for their jerseys. As special awards, anyone whom the staff feels is deserving of mentioning, will receive special mention at the final ceremony. As a final gesture for the closing of the season the spirit of Charlevoix and the camp records for the year will be buried at the foot of the altar until next summer.

Thursday will be our final day in camp. All of the day will be spent in packing and truck check-up and then at 5 o'clock the final banquet will be held. Mark Wakefield is in charge of the program and has a fine treat in store for everyone. After the banquet everyone will sorrowfully bid each other farewell. Here's hoping we see you all next summer here at camp.

CONGREGATIONAL CHURCH
Charlevoix and Ironton

* * * * * * * * * * * *

We are offering to the public extra-ordinary programs for next Sunday.

In the morning we will have what is known as "Glad Sunday." At that time the church auditorium will be decorated with hundreds of gladioli. At the close of the service the blossoms will be given to our summer guests. The service was so delightful last season that many expressed the desire to make "Glad Sunday" an annual affair. Mrs. Rollie Lewis and Mrs. Clarence Wood will have charge of the decorations and dispensing of the flowers.

In the evening we are offering another Oxford group meeting at 7:30. The group will be under the leadership of Mrs. William W. Talman, assisted by other members of her family: William W. Jr., Jim and Tom.

The Oxford Group movement is a moral and spiritual revolution, whose concern is vital, Christianity bringing about a new world for all.

Of tremendous significance, internationally, nationally and individually, is the fact that in the historic old town of Oxford, England, in July of this year of our Lord, 1934, a gathering of some eight thousand people, representing 40 different countries, came together for the sole purpose of finding God's answer to the personal problems and the problems of the world at large.

A family that has been for some time identified with the movement, and who were privileged to be at Oxford during the entire house party, will attempt to describe some of the events of this epoch-making gathering and to explain the principles and aims of the movement.

The public is not only invited, but urged to be present.

43% MORE NON-SKID MILEAGE"

"You're too modest!"

Motorists who got the first G-3's put out—months before the public announcement—say "You're too modest!" Many of them report 50% to 100% more non-skid mileage. Why, then, do we insist on only 43%? Well, 43% is a definite test-car-proved figure. Very likely it is low for normal use—because the tests which established the 43% average were gruelling: cars speeding up to 50, jamming on brakes, mile after mile, day and night. Very likely most motorists will get more than 43% more non-skid mileage. But we'll string along with 43%—because it's plenty to deliver at no extra cost. Come see the tire that's the talk of the nation.

REPORTS INDICATE BETTER BUSINESS

Corporation Privilege Taxes Show Gain Over Last Year

Indications that business in Michigan is on the upgrade is shown by the manner in which corporations are filing annual reports with the department of state.

According to the corporation division, over $200,000 more had been received on August 15 in payment of 1934 corporation privilege taxes than had been paid in on August 15, 1933.

All corporations authorized to do business under the laws of Michigan must file annual reports by September 1 each year. This includes not only 19,000 companies incorporated to conduct business for profit but also 6,000 non-profit companies, who do not pay the privilege tax but which must make annual accountings to the state.

AQUATIC DAY PROGRAM LAST SUNDAY POSTPONED

Northern Michigan Event Set Ahead to Sunday, August 26

The Northern Michigan Aquatic day, scheduled for last Sunday at Hiawatha beach on Round lake, but postponed because of unfavorable weather, will be held next Sunday, August 26th.

A large group of local competitors, including Miss Byrnece Lamphear, the 1933 northern Michigan water queen, will participate. The city council has appropriated funds for a Charlevoix trophy and local merchants have donated numerous individual prizes.

EMPLOYMENT GAIN IS SHOWN BY STATE

One of Every Three Former Unemployed Now at Work

One out of every three men who were out of work a year ago was back at gainful employment during July, the state department of labor and industry reports. The July figures showed only a 6.8 per cent drop from those of June and the decline is principally due to seasonal fluctuations of the automobile industry.

Based upon the number of men employed in Michigan industrial plants, the department reports an improvement of 37.3 per cent for the year. The total payrolls of plants reporting was up 23.2 per cent and the income of the individual worker was advanced, from 36.8 per cent during the year.

The aggregate payrolls were 15.9 per cent less in July than they were in June.

SUNDAY DINNER SUGGESTIONS

By Ann Page

Food shoppers this week end find pork prices high, beef the same, and lamb lower. The drought, affecting milk supplies, is raising the prices of butter and cheese. Unaffected by the drought in North America, bananas are a leading value this week.—Try them fried, broiled, or in ice cream. Ample supplies of home-grown fruits put grapes, cantaloupes and prunes on the low-priced list. As for vegetables—tomatoes, coming from nearby truck gardens, are top-notch and chenp, and good values will be found in celery and Boston lettuce.

Here are three menus to choose from:

Low Cost Dinner

Broiled Lamb Patties with Bananas and Tomatoes
Scalloped Potatoes
Bread and Butter
Lemon Jelly
Tea or Coffee Milk

Medium Cost Dinner

Braised Chuck Roast of Beef with Potatoes, Onions and Carrots
Cucumber and Lettuce Salad
Mustard Pickles
Bread and Butter
Stewed Fresh Plums
Tea or Coffee (hot or iced) Milk

Very Special Dinner

Melon Cup
Roast Leg of Lamb with Browned Potatoes
Lima Beans and Corn
Tomato Stuffed with Celery and Cabbage Salad
Hot Rolls and Butter
Bananas Baked in Sherry Wine
Sponge Cake
Tea or Coffee (hot or iced) Milk

HOSPITAL TAG DAY NETTED SUM OF $200

Auxiliary and Trustees Extend Appreciation for Cooperation

Following compilation of receipts from all sources, the committee of the Woman's Auxiliary in charge of the tag day drive for Charlevoix hospital have announced the collection of $200 in the campaign last Saturday.

The Hospital Auxiliary and board of trustees extend their appreciation to those active in the drive and to the public for its response. A group of twenty-eight young people conducted the tag sales under the direction of committees representing every district of the city.

PETOSKEY'S INDIAN PAGEANT THIS WEEK

Indians from three counties are joining in rehearsals for the pageant, "The Dream of Hiawatha," to be presented Wednesday and Thursday in the Petoskey high school auditorium.

According to the Rev. Fr. Aubert, O. F. M., Indians from Emmet, Cheboygan and Charlevoix counties have offered their services to make the production highly accurate and entertaining.

The pagennt is based on selected portions of Longfellow's immortal poem "The Song of Hiawatha."

Along with the pageant there will be n showing of motion pictures of the re-enactment of the massacre at Fort Michilimackinac at Mackinaw City.

CENTRAL LAKE CIRCUIT M. E. CHURCH

Earle M. Mumby, Pastor

Sunday, August 26

Services will be held at the usual hours except no service at Norwood.

Norwood church is invited to Atwood at 11:30 a. m. and will bring their choir.

Rev. G. A. Jackson, who is living on Intermediate lake near Central Lake, will bring the message. He is a man of rich experience and wide travel. Was a former prison chaplain and Y. M. C. A. worker in France.

At Barnard the choir will assist with anthems at the 3:00 service.

Church school at Norwood Friday, August 24. The Loiselly brothers will again bring vocal and instrumental numbers on the guitar and euchelion.

Dixie Cotton Blossom singers will bring a program of Negro spirituals and other appropriate numbers following the league service at Barnard Sunday, 7:30 p. m. Free will offering.

CITY BAND ATTENDED BEAVERTON MEETING

ANNOUNCE BIRTH OF BABY SAME AS AUTO ADVERTISING

Polly Ann Garverick of Ottawa, Ohio, is truly a child of the machine age—and a girl, too!

When Polly was born to Mrs. C. C. Garverick, her proud father mimicked announcements of a new motor car model, as follows:

"Garverick Production Co., Ottawa, Ohio, announces 1934 baby model, Polly Ann Garverick, released April 10.

"C. C. Garverick, designer and chief engineer, Marion Garverick, production manager, W. B. Light, M. D., technical assistant.

"Features of new model—two-lung power, free squealing, and changeable seat covers."

HOLIDAY FALLS ON ELECTION DAY

The state law makes no provision for a religious festival which this year, falls on September 11.

In Michigan the sun sets and the holiday ceases at 6:49 p. m. and this will allow those who take part in the holiday one hour and 11 minutes to arrive at the voting booths before they close. The state election law declares that all those waiting in line outside the voting booth at the prescribed closing hour shall be allowed to vote.

WELFARE RELIEF LOAD DOWN 14.6% IN AUGUST

The statistical department of the state emergency welfare relief commission announced this week that on the basis of reports received from the 83 counties in the state the welfare load for all branches of relief will be reduced to 14.6 per cent of all families in Michigan during August. The load was reported at 25 per cent last April.

LAUNDRY EMPLOYES ENJOY BEACH PARTY

A beach party given by the employes of the Troy Laundry was an enjoyable event last Friday evening. A pot-luck supper and "weiner" roast were features. Mrs. Monroe, wife of the manager, was the recipient of a lovely embroidered linen from the employes.

LEADERSHIP

The Detroit Tigers by rising from a pre-season rating as a second divison team to the leadership of the American League under the dynamic leadership of Manager Micky Cochrane have won the wholehearted admiration of all Michigan.

There is something captivating to the imagination about the manner in which this young leader of a young team has developed a will to win that simply will not admit defeat until the last man is out in the ninth inning.

We suspect that every Tiger fan feels down in his soul a certain kinship with these young fellows, for have we not all started this year in the second division, with nothing much beyond our fighting spirit to bring us out on top? Little wonder then, that Micky Cochrane's fighting Tigers have this whole souled support of Michigan fandom in this crucial period of their pennant drive.

About Bank Loans

"As for the charge that the banks will not extend credit, the first and obvious reply is that the banks themselves are made up of the very bone and sinew of the industrial, commercial and agricultural interests of the country. Bank directors, and, to a large extent, bank officers, are drawn from the business and farming population. If they do not feel at any given moment that it is wise to make a particular loan, it is more than probable that there are sound reasons for not making it," says an editorial in the Saturday Evening Post.

Famous Painting Restored

In the baptistry of the cathedral of Seville is a famous painting of "St. Anthony and the Christ Child" by Murillo. In 1874 the kneeling figure of St. Anthony of Padua was cut from the canvas. Soon it was offered for sale in New York by a Spaniard, who sought out a well known collector, Mr. Schatus. The latter, who knew of the theft of the figure from the Murillo painting, paid $250 for the work. He then notified the Spanish consul. The figure was returned and amid public festivities it was restored to the baptistry.

Tests for Mastitis

Tests for the presence of mastitis in dairy cows was one of a number of features of an exhibit at a group of dairy meetings held in Syracuse, N. Y. This exhibit was prepared by the experiment station and the college of agriculture, and was of much interest to the various cattle breed associations, as well as to the State Dairymen's association. Mastitis has long been a baffling malady in dairy herds and much attention is being given to its detection and treatment. Exchange.

MISSIONARY GROUP HAD FINE MEETING

Miss Florence Sprague Gave Interesting Travel Talk

The annual picnic of the Congregational Woman's Missionary society was held in the city park last Wednesday.

Following a sumptuous dinner and a short business session, Miss Florence Sprague, who is resorting at Ironton, gave a travel talk descriptive of a trip around the world taken by her sister and herself a few years ago.

They visited cities in Japan, Korea, Manchuria, China, Burmah, India, Egypt, Bulgaria, Roumania and other countries, and everywhere made contacts with missionaries and Y. M. C. A. workers, as well as native people and dignitaries.

Miss Sprague's talk was both instructive and entertaining and the society hopes to hear her again next summer.

DEMOCRATS TO RALLY AT BEAVER ISLAND

Northern Michigan Round-Up Scheduled for Sunday, August 26th

Democrats of Northern Michigan will gather here next Sunday, August 26th, for a party rally and outing to be held at Beaver Island.

Members of the Charlevoix County Democratic committee, who are arranging the event, have announced that the mail boat Marold II will make a special excursion to St. James, leaving Charlevoix at 8:30 a. m. and returning at 8:00 p. m.

Congressman Prentiss M. Brown of St. Ignace, will head a group of prominent speakers now being arranged for the rally.

GRAIN PRICES URGE FERTILIZER

HEAVIER YIELDS COUNT UP QUICKLY. Prospects are for continued better grain prices. Fertilizer pays on wheat. Alfalfa and other crops following fertilized wheat always show large increases in yield. You get two returns from fertilizer.

WE RECOMMEND FARM BUREAU FERTILIZERS because they have the quality that gets results. Their nitrogen is 95% water soluble and quickly available as against 70% required by State law. Our phosphorus and potash carriers are the best. Farm Bureau fertilizers are extra dry, granulated and easy to regulate. Priced low.

Summer Colds and Clothes

Are you dressed for summer? There is such a thing as being overdressed, or even of being underdressed, though the former is more apt to be the case in summer.

When the thermometer goes up in signal of hot weather, it is time for scanty attire. The modern woman, on the whole, is sensibly clad for summer. How much cooler does he seem that the modern man that goes sweltering around in his coat even in the hottest of wrather? Understand, when we infer that woman is more sensibly dressed than man we are speaking of man and woman generally and not of particular cases.

It is the belief of various observers, although there is no positive proof for the statement, that it is the overdressed person who is particularly subject to colds in summer.

Here is the idea. A person dressed too warmly perspires at the least exertion under hot weather conditions. Then he seeks a spot in the shade to cool off. His underclothing, and quite likely his outer garments are damp. If the temperature in the shade is not appreciably cooler than in the sun, no possible ill effects will result. Or if a man is in a good healthy physical condition his system will tend to throw off any possible ill effects. However, should there be a cool breeze blowing so that there is a decided cooling effect, or should his body suddenly be cooled because of any other set of circumstances, a person not in first rate conditions will, quite likely, be taken with a cold.

The skin is chilled by the cold and the speedy evaporation of moisture in the clothing. What is the physiological result, that is, the reaction of the physical man to these conditions? The blood vessels near the skin covering the body contract and the blood rushes to the nose, throat and bronchial tubes. This produces congestion and furnishes fertile soil for the welcome of invading disease germs. Thus it may actually lead to illness.

The summer and the winter colds are first cousins—there is no essential difference. It is known that persons who live in overheated homes are more disposed to contract colds than are those who live in a cooler atmosphere. When such persons go from these overheated homes to the outdoors they must be careful or they will catch cold. Those who live in highly heated homes must learn when warm for cold weather. This is where experience helps.

If you would enjoy summer weather thoroughly we should dress to be comfortably cool.

PLAN INSTRUCTION IN CONSERVATION

Course in Northern Michigan Schools Being Outlined

Through material prepared and distributed by the state departments of conservation and public instruction and through personal contacts to be made by a representative of the conservation department, the public schools of northern Michigan during the coming year will be given intensive instruction in the subject of conservation.

The published material is expected to be distributed to the schools by early September.

Donald M. Rochester, field representative of the conservation department, has been assigned to work through the entire northern part of the lower peninsula, including about 24 counties. Working from the Gaylord regional office of the department, he will contact first all school teachers making known to them the kind of material available, stressing the importance of instruction in conservation and assisting them in ways and means of presenting the material to the students. He then plans to visit the schools, county by county, lecturing on conservation with motion pictures, and showing portable exhibits to increase interest in the subject. The program is expected to consume all of the winter months.

Superintendents of schools and county school commissioners who are interested in having Mr. Rochester visit their schools should write to him at the Gaylord office to be included in the schedule he is now preparing.

The published material to be distributed includes a manual for teachers and a reader for the use of the students.

CONSERVATION DEPT. NEWS BULLETIN

The state conservation commission at its August meeting created seven new wildlife sanctuaries and renewed dedications on eight others. Thirteen were dedicated for the minimum five-year periods prescribed by law; two for 10-year periods. More than 1,000 acres of land were involved, including 80 acres in Eveline township, Charlevoix county, dedicated by Ralph Price.

More than 150 prelators were taken by state trappers operating in the upper peninsula and northern part of the lower peninsula during July under direction of H. P. Williams of the bureau of biological survey.

According to a report of the department of conservation, the catch of mink and muskrats was the largest in years. The merchantible pelts of these animals will be sold to fur dealers by the department.

The migrations of deep trapnet fishermen from Harbor Beach and other points on Lake Huron to the southern half of Lake Michigan has greatly alarmed pound and gillnet fishermen along the lower east shore of the lake.

Local organizations are being formed by fishermen in several localities to urge legislation that would bar entirely the use of the deep trapnet. Pound and gillnet fishermen contend that the use of the deep trapnet is a serious menace to the whitefish resources of Michigan waters.

It is the belief of many commercial fishermen that the law enacted by the last legislature, banning the use of the trapnet in water more than 60 feet deep, is not stringent enough.

Those familiar with the use of the deep trapnet declare that whenever the operator leaves their scene of activity, it is significant that the whitefish supply there has been depleted, says the fisheries division, department of conservation. Up to this season the trapnet has not been used in lower Lake Michigan.

USE OF FERTILIZER HELPS WHEAT CROP

Extra Bushels and Benefits to Legume Seedings Obtained

The use of fertilizer for wheat has proved to be a profitable investment in tests conducted by the soil department at Michigan State college over a period of years on many different soils types.

In addition to the increase in wheat yields, there is a marked benefit to seedings which may be sown with the grain as a nurse crop. Applications of the right analyses of wheat fertilizers have paid in the college tests even with the extremely low prices that have prevailed for wheat in the past few seasons.

In tests made on the John Reagle farm, near Cass City, yields were improved 20 bushels per acre when 250 pounds of superphosphate were applied per acre. The use of 250 pounds of 4-16-4 also gave a 20 bushel increase, and the same amount of 2-12-6 added 21 bushels per acre to the harvest.

With wheat at 86 cents a bushel, the returns for each dollar spent for fertilizer would be $6.93 for superphosphate, $3.74 for 4-16-4, and $5.47 for 2-12-6. The increase in yields would have paid for the fertilizer if wheat had been worth only 13 cents a bushel when the phosphate was used. Eighteen cent wheat would have paid for the 2-12-6, and 23 cent wheat would have returned the money spent for 4-16-4.

ASK FARMERS TO HELP ON FORAGE INVENTORY

Federal Officials Will Use Records to Plan Drought Relief

Michigan farmers will be asked to helpin making a survey of the available livestock feed by filling out and returning a report form on the subject mailed from the office of Verne H. Church, state agricultural statistician.

This inventory of feed resources is being conducted over the whole United States and the information found will be used to make future plans for drought relief work. The feed records from each state will be sent to Washington and will be compiled there.

Michigan is concerned in this matter as many of the counties are listed in the secondary drought area and assistance from the federal government will be partially based on this survey of feed resources. The report blanks will be mailed and in the farmers hands immediately. Unless out and returning them, relief measures here will have to be conducted blindly.

Farmers who have a surplus of feed are as much concerned in filling out the blanks as those who do not have enough feed. The government wants to know where there is excess forage which can be bought and used in areas where there is too little.

3 Feminine Stars in New Crosby Film

The three women in Bing Crosby's life in his newest Paramount picture, "She Loves Me Not," coming Friday and Saturday to the Palace theatre, all had the unique distinction of playing leading roles in their respective motion picture debuts. They are Miriam Hopkins, who is costarred, and Kitty Carlisle and Judith Allen, who are featured.

"She Loves Me Not," which was adapted from the sensational stage hit, also features Henry Stephenson, Warren Hymer, Lynne Overman and George Barbier, and introduces several new hit tunes by Gordon and Revel and Rainger and Robin.

Stars Support Stars in "Cellini" Comedy

The "Stars Supported by Stars" slogan adopted by Joseph M. Schenck and Darryl F. Zanuck as the policy of their 20th Century Pictures company was impressively enforced in casting "The Affairs of Cellini," their new comedy which begins a two-day run at the Palace theatre Sunday. Constance Bennett and Fredric March are co-starred in this adaptation of Edwin Justus Mayer's sensational New York stage hit. "The Firebrand," and Fay Wray and Frank Morgan, two of Hollywood's most popular and capable artists, are featured in their support.

Others prominent in the imposing cast are Louis Calhern, Vince Barnett, Jessie Ralph, Paul Harvey, Ivy Eaton and Irene Ware, famous beauty of the musical stage.

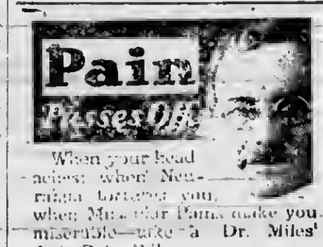
MAKES YOU LOSE UNHEALTHY FAT

A young woman of Norwich, Conn., writes: "I lost 16 lbs. with my first bottle of Kruschen. Being on night duty it was hard to sleep days but now since I am taking Kruschen I sleep plenty, eat as usual and lose fat, too."

To take off fat—take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—one bottle that lasts 4 weeks costs but little—get it at any drugstore in America. If this first bottle fails to convince you this is the SAFE and HARMLESS way to lose fat—your money gladly returned.

Don't accept anything but Kruschen if you want to reduce safely.



When your head aches; when Neuralgia bothers you, when Muscular Pains make you miserable—take a Dr. Miles' Anti-Pain Pill.

Mr. Smith is one of millions who have found this easy way to prompt relief. He says:—

"I keep Dr. Miles' Anti-Pain Pills in my locker and when I get a full blown feeling in my head, I take a Dr. Miles' Anti-Pain Pill and the pain passes off."

DR. MILES' ANTI-PAIN PILLS

IF YOUR BREATH HAS A SMELL YOU CAN'T FEEL WELL

When we eat too much, our food decays in our bowels. Our friends smell this decay coming out of our mouth and call it bad breath. We feel the poison of this decay all over our body. It makes us gloomy, grouchy and no good for anything.

What makes the food decay in the bowels? Well, when we eat too much, our bile juice can't digest it. What is the bile juice? It is the most vital digestive juice in our body. Unless 2 pints of it are flowing from our liver into our bowels every day, our movements get hard and constipated and ¾ of our food decays in our 28 feet of bowels. This decay sends poison all over our body every six minutes.

When our friends smell our bad breath (but we don't) and we feel like a whipped lizzard, don't use a mouthwash or take a laxative. Get at the cause. Take Carter's Little Liver Pills which gently start the flow of your bile juice. But if "something better" is offered you, don't buy it, for it may be a calomel (mercury) pill, which loosens teeth, gripes and scalds the rectum as many people. Ask for Carter's Little Liver Pills by name and get what you ask for—Adv. ©1934, C.M. Co.

AT SPEECHIFY TIME

During the last few days [illegible] would [illegible] Central American [illegible] tariff wall [illegible] rapidly.

[illegible] one more step [illegible] to have as its [illegible] total abstinence [illegible] the American sugar industry [illegible] contrast to the [illegible] administration [illegible] must [illegible] production.

The whole theory of the A. A. A. is [illegible] curtail production of surpluses so that American farm products can [illegible] bring prices [illegible] protection of a tariff wall. The main difference between American sugar, and other staples, such as wheat, corn, cotton and livestock, is that we do not produce a sufficient supply of sugar to meet domestic needs and therefore have no surplus to curtail or destroy. All American sugar requires is a tariff sufficient to insure growers a fair return on their investment.

However, the present administration has bludgeoned both the representatives of the growers and Congress into accepting the principle that Cuba and other foreign countries have a vested right to share our home market, and has sharply limited domestic production to make room for these outsiders. Now, by means of reciprocal tariffs, the main bulwark of the industry, is being undermined.

With beans, dairy products, potatoes and fruits and vegetables already definitely excluded from the scheme, it is going to be extremely difficult for democratic campaigners to find good material for speech-making at farmers' picnics in this state this year.

MICHIGAN'S SUGAR INDUSTRY

The government plan of sacrificing American agriculture for the benefit of sugar and other agricultural products produced in foreign countries by American capital appears to have been checked for the moment. Advices from Washington predict that of the many reciprocal tariff treaties now in the making, none but the Cuban treaty will be shown to the public before election day.

That is a start. However, it is up to our sugar beet, bean, dairy and fruit and vegetable farmers to see that they make their opposition to these deliberate efforts to steal the home market so formidable that the whole plan will be scrapped regardless of the outcome of the election.

The whole theory behind the reciprocal tariff [illegible] of political opportunism rather than economics. It is urged by the brain trusters that sugar can be obtained at less cost by the American consumer from foreign sources than it can be produced at home. They conclude that we should therefore buy sugar abroad and pay for it with exports of other commodities which we produce cheaper than the rest of the world.

We will admit that foreign sugar can be put on the market at a lower price than American sugar, but so also, for that matter, can Argentine corn, Australian mutton, Japanese beans and Chinese poultry and eggs be had for less than the price necessary to give American producers a reasonable return.

Why, then, should sugar be picked at as one of the first to be marked for slaughter? In our opinion there are three statements that sum up the entire situation. First, Wall Street has a heavy investor in the sugar industry of many nations, while it is not interested directly in other staples. Second, there are fewer beet and cane sugar farmers than there are corn, sheep or poultry growers. Third, by "cracking down" on one group at a time, the organized opposition of farmers may be weakened to such an extent that an entire program of wholesale reciprocal tariffs detrimental to the farming industry may later develop.

None of these things are likely to occur if the farmers register a thundering rebuke to the program of reciprocal tariff while it is still in its infancy.

A CLEVER MOVE

The gas tax reduction movement will probably stand or fall on the answer which John W. Public gives one question: Will the public save one cent per gallon if the tax is reduced, or will the oil companies gobble it up as extra profit?

Our own observation leads us to believe that gasoline prices represent about all the traffic will bear, regardless of taxes, cost of production or any other such item.

It is true, we think, that gas would fall one cent immediately after, if such an amendment should go into effect, but we would expect the price to be juggled back to the old level within a few months.

All we know about the price of gas is that we run the old flivver under the pump and someboby tells us gas has gone up. Nobody ever seems to know just why.

However, nature being what it is, we do not believe the oil companies would be pushing this amendment as hard as they are if they did not expect to cash in. We'd rather see the money we pay go into better roads so our gas will last longer, than to hear that it has been paid [illegible] builders of the oil companies.

CORRECT ATTITUDE

The bitter factional spirit within democratic ranks has resulted in numerous ousters of public servants of low and high degree who have dared to assert opinions contrary to those of the group now in control.

In refreshing contrast, Secretary of State Frank D. Fitzgerald advised the employees of his department that although he is a candidate for the governorship, he would continue to judge those who work for him on the basis of the value of their services to the state rather than to his campaign.

We happen to know that this statement by Mr. Fitzgerald is more than mere window dressing, and that knowledge gives us confidence in the Fitzgerald promise to see that public servants shall be judged on merit rather than political worth wherever the governor's power extends if he becomes Chief Executive.

We have long believed that the same principles which govern private employment should obtain in the public service, and we unhesitatingly approve Mr. Fitzgerald's record and platform on this question.

REACH FOR A BALDWIN —

By the Christmas Seal Doctor.

Have an apple.

With apple-harvesting days only a short time away in Michigan, the world turns again to an expectant and happy contemplation of that fruit.

Poems have been inspired by its sweetness, proverbs have been written on its health-giving qualities, but many have never recognized one of its most valued qualities.

Its slight acidity stimulates the flow of saliva and it encourages mastication in a pleasant way, which cleans the teeth in a far more effectual manner than the toothbrush.

And, according to Dr. George Thanson, chairman of the British Dental hospital, "If parents could be persuaded to spend money on fruit for their children instead of on cheap and unwholesome sweet stuffs, one of the chief, if not the chief, causes of ill health would be removed."

Have an apple?—Michigan Tuberculosis Association.

Buy "American-Made" goods.

EXTRA! EXTRA!

Last week in a small mountain town in Pennsylvania a crew of rescue workers gladly and knowingly risked their lives to dig into an unprovided mine in an effort to save one man entombed there. Their story made the front page of a every metropolitan newspaper 500 miles away.

Two years ago the kidnapping of a famous baby stirred up an entire countryside with state troopers, deputy sheriffs, and amateur detectives.

Yesterday six people died of tuberculosis in Michigan. Today, there will be six more. Tomorrow? Tomorrow will be the same. One need wait only a little over a day for someone the age of the young miner to go of the same disease. Almost every 15 days—and once in a lifetime—but every 15 days a baby as young as the one sought so anxiously two years ago is kidnapped—not by humans, by tuberculosis.

Yet, Mr. Average Person, when reminded of the tuberculosis sick of his state, sighs and says: "Um, yes . . . poor devils" and promptly forgets them. The Michigan Tuberculosis Association would remind him that he must not forget about them, because once he does, they become unknown and in the unknown and uncared for cases—not those in sanatoriums—lies the danger of infection for Average Person and his family.

THE FARMER SPEAKS

Another hot blast was fired against the effort of the oil companies to grab an additional cent per gallon on gas when the representatives of 75 farmers' cooperative associations gathered at Lansing, August 10, adopted resolutions condemning the proposed constitutional amendment to write gas and weight tax limitations into the state constitution.

Many of the cooperative groups represented at that meeting have intimate knowledge of the gasoline business because they are themselves heavy retailers of the product. It is therefore of especial interest to find them affirming their belief that the amendment will not bring down the price of gasoline except temporarily, but will instead, rob the road funds for the benefit of the oil companies.

These associations of farmers are one of the very few groups directly concerned in the gasoline business who are in a position to tell the public what they think of the amendment and we suspect their words will carry conviction to thousands of voters who have been uncertain as to which side to believe.

THE DIFFERENCE

Before issuing instructions that the six months license tags be honored on motor cars until September 1, Secretary of State Frank D. Fitzgerald obtained approval from a majority in both houses of the legislature. Consequently, while the extension is not covered by statute, the people have the knowledge that appropriate legislation would be enacted were the legislature to be specially convened for the purpose. The result is altogether wholesome and at the same time the expense of a special session has been avoided.

This procedure stands out in decided contrast to the action of the Democratic administration in spending $150,000 to administer the head tax law, when but $25,000 was appropriated and in face of an overwhelming demand on the part of the legislators for the repeal of the tax.

PROMISES A REAL FIGHT

John W. Smith, president of the common council of the city of Detroit, former mayor and postmaster of that city, is a real candidate for the Republican nomination for the governorship of this state. Mr. Smith has had in addition to the above, experience as a state senator and has held county positions. He should know government in Michigan.

Mr. Smith promises a real campaign. His entry has not yet been taken seriously outstate but he guarantees a campaign packed with dynamite and for that reason we suggest that our readers watch the development of his program and the revelations relative to conditions which he promises to make.

HAVE NO EXCUSE

The crusade by the churches against indecent movies should be centered at Hollywood where they are originated and made. And while the cause is organized, let it be led against newspapers that flood their columns with any indecent display of nudity, far more harmful to public morals than anything shown on the silver screen. Newspaper pictures get the eyes of millions where the movies are seen by hundreds. There may be a financial excuse for the movies, but there is no excuse for the newspapers.

When mistrust or wilfulness enters love departs.

BEAVER TRAPPING SEASON ON NOV. 20

36 Counties Allowed to Trap This Year for 26-Day Period

A 26-day open trapping season on beaver in 36 counties of northern Michigan was decided upon by the state conservation commission at its August meeting. The season will open on November 25 and continue to and including December 26 and will be 11 days longer than in 1933.

Trapping for beaver will be permitted in all of the 15 counties of the upper peninsula and all counties north of townline 20 north in the lower peninsula, except Manistee, Benzie and Wexford. Townline 20 is the north line of Mason, Lake, Osceola, Gladwin and Arenac counties.

No change was made by the commission in the general trapping regulations. The season limit per trapper remains at eight pelts and the special license fee at $2. Seals to be provided by the department at a price of $1 each must be attached to each hide before it can be sold.

Every Wednesday evening at 7:45.

Reading room Tuesdays and Saturdays, 3 to 5 p. m.

"Mind" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, August 26.

Among the Bible citations is this passage (Romans 12:2): "And be not conformed to this world: but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect will of God."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p.128): "A knowledge of the Science of being develops the latent abilities and possibilities of man. It extends the atmosphere of thought, giving mortals access to broader and higher realms. It raises the thinker into a native air of insight and perspicacity."

BUY TO SAVE

READ this headline forwards or read it backwards—it gives you the same, sound advice.

You have certain fixed living expenses—rent, food, clothing, light, and other necessities. You save money every week so that these bills can be paid at the first of every month. Whatever else you buy must come from surplus savings, over and above those set apart to cover living costs. To make those savings buy the utmost value for the money is the essence of true economy.

Save to buy—then buy to save. Know what you need to buy before going to the store. Know what you can afford to pay before you start out to make a purchase. That is the one sure way to get the most for your money.

Make it a habit to read the advertisements in your newspaper every day. By doing so you will learn where to buy the things you need and where your dollar will buy the greatest value. The advertisements will show you where to purchase better food, better clothes, and yet save you money. They will help you live better and enjoy the good things of life. They help you to buy in order to save.

JOHN A. COOPER, EVELINE PIONEER, DEAD

Succumbed to Heart Attack at Farm Home Last Wednesday

John A. Cooper, widely known retired farmer and one of this region's early pioneers, died of heart attack last Wednesday afternoon, August 15, at his home in Eveline township. He had been ill about three weeks.

Funeral services were conducted Saturday afternoon at 2 o'clock from his home, Rev. James Keith officiating. Burial at Lakeside cemetery.

Mr. Cooper was born May 22, 1856, at Upbridge, Canada. He came to Charlevoix at the age of 20 years, taking up a homestead in Marion township, returning to Upbridge the following year and came back in 1878, bringing his parents, sisters and brother to live with him here.

Mr. Cooper's early interests were divided between lumbering and farming. He was one of the operators of the Smithson mill in Norwood township until he lost a hand. He then moved with his parents to Charlevoix and two years later operated a saw mill near Adams lake, which burned. He was then appointed chief of police and acted in that capacity for four years.

In 1894 he bought and operated the W. J. McGeagh farm and mill four miles out of Charlevoix.

He was united in marriage to Miss Minnie Kowalski, East Jordan, February 14, 1894.

In 1896 he purchased a farm in Eveline township, where he resided until his death.

He is survived by the widow, one daughter, Mrs. Will Walker of Eveline township, and two sons, Walter and Charlie Cooper of Flint, also two sisters, Mrs. S. McIntosh of Onaway, and Mrs. James Johnson of Cupertim, Calif., one brother, Fred Cooper of Portland, Oregon, besides a host of other relatives and friends.

In the death of Mr. Cooper Charlevoix county has lost a well known citizen and beloved resident. He was a kind husband and father, generous to a fault, loved and respected by all who knew him and will be greatly missed in the community.

Card of Thanks

Words cannot express our appreciation to relatives and friends for their many acts of kindness shown during our recent bereavement. Mrs. John Cooper, Walter Cooper and family, Charlie Cooper and family, Will Walker and family.—Adv. 3411

CITY TO MAKE NEEDED FIRE HYDRANT REPAIRS

Vote Approximately $700 to Maintain Better Fire Protection

The city council at an adjourned session Monday night made provisions for more adequate and dependable fire protection for future months.

The sum of approximately $700 was voted for installation of new water hydrants and repair of existing hydrants. Considerable difficulty was experienced through frozen and unworkable water connections last winter and by the action taken Monday the council aims to eliminate this trouble.

The council heard City Engineer R. F. Sloan's report on progress toward commencement of the new docks on the Wilbur property. Construction will be started upon arrival of material and FERA approval of the project.

NEW OPEN TENNIS CHAMPS ARE NAMED

Play in 10th Annual Event Closed Last Saturday

The 10th annual Charlevoix open tennis tournament, which this year drew the largest entry in recent years, produced a new group of champions as play closed at The Inn courts.

Dan Morse, Indianapolis, Indiana, seventeenth ranking in the national junior listing, won the men's singles title. He defeated Ned Farr of Midland, 6-3, 6-2.

After going to the semi-finals in junior singles, Morse, the favorite, defaulted to play in a tournament at home, leaving the title to James Talman of Detroit, who defeated Raymond York, the other semi-finalist, 6-0, 6-0.

Mary Wagner of Cincinnati, Ohio, succeeds Ann Ellis of Winnetka, Ill., as the women's singles champion. In the finals Saturday afternoon she defeated Mrs. Richard Lowenstein of Chicago, by scores of 6-1, 6-1.

Finals of girls' singles, between Mary and Jane Wagner, sisters, remains to be played.

George Canningham of Evansville, Ind., won the 'boys' championship, defeating Billy House of Charlevoix, by scores of 6-1, 7-5, 7-5.

The junior and men's doubles both went to the winners by default. The team of James Talman of Detroit, and George McKay of St. Louis, Mo., won in the junior division, and the Boyne City team of Tarcott and Tarcott took the men's title.

HOUSING PROGRAM AID TO HOME OWNERS

(Continued from page 1.)

The Federal Housing Administration insures the lending institution against 100 per cent of all loss, provided the total of such loss does not exceed 20 per cent of the total volume of such credits advanced.

Property owners who receive an income in form of proceeds from the sale of agricultural crops or livestock may pay the installments corresponding to the dates on which they receive their income, provided they make payments at least once a year to meet the interest and reduce the principal.

Any approved bank, trust company, building and loan association, farm credit institution or other lending agency has all the necessary information for the person seeking a Modernization loan. Here is a concise summary, however, of information the property owner needs to go [illegible]

1. A Modernization loan is solely for the purpose of repairing, altering or improving your home, barn, silo, shop store or other building (also deepening or digging wells in drought-stricken states). Diversion of the money to any other purpose is strictly prohibited.

2. The loan cannot be for less than $100 or for more than $2,000. In addition, the borrower must have a bona fide source of income equal to at least five times the annual payments.

3. The loan can be made for terms of one, two and three years, but may be paid in full earlier than the maturity date if the borrower desires.

4. Maximum charges, including interest and all fees, cannot exceed an amount equivalent to $5 discount per year per $100 original face amount of the note.

5. To get a Modernization loan, the property owner must present to the bank or other lending institution a precise estimate of the cost of the improvements and must be able to prove that they are necessary or advisable.

6. In addition, the property owner must file a Property Owner's credit statement, showing his financial condition, sources and amount of income and other information necessary to determine his ability to repay the loan.

If the bank considers the improvements advisable, and the property owner able to meet the payments when due, it can advance the money on the personal note of the property owner. The note must be signed by [illegible] if the property owner is married. No mortgage or collateral security is necessary, unless state laws or the bank officials demand it.

Administrator Moffett asks each property owner to do these things:

Look over your properties, especially your home, and determine what improvements are necessary or advisable. Get exact estimates of their costs. Take these estimates to your bank or other lending institution and apply for a Modernization loan, which you should get if the improvements are justifiable and your income sufficient to repay the loan. Then sign the contract and tell the contractor to start at once. Or, if you are doing the job yourself, buy the materials and go ahead with the work of modernizing your property.

"THE DRUNKARD" PRESENTED HERE

GRAND OLD MELODRAMA AT GYM FRIDAY NIGHT

Holiday Players, Fo mer Members 'National Dramatic Camp, Ap- pear in Cast

Next Friday night the Holiday Players will present at the high school gymnasium that grand old melodrama, "The Drunkard," the same play that ran for over 300 performances in Los Angeles, where it was first revived, and is still running in Detroit, Chicago and New York.

"The Drunkard" is one of the best examples of that large mass of dramatic writing that grew out of the temperance crusade of the last half of the 19th century. There have been a number of these plays revived in the last few years--and aside from the curiosity of the younger generation--their enthusiastic reception has proven them to have a wealth of entertainment undiminished by the years and the changing times. Quite often in the production of these plays for modern audiences it is the tendency to stress the ridiculousness of the sentiment which they reflect of the period in which they were first presented or, in the speech of the theatre, to "horse" them, in order to gain a few more laughs, but such a performance succeeds only in being cheap and artificial. The proper interpretation of these plays carries over to the audience not only the satisfying humor of their rollicking comedy but the deep and abiding sincerity of the moral lesson which was the primary reason for the writing of the plays.

The Holiday Players' production will be done in the grand old manner under the expert direction of Gerhardt Lindemulder, who has gained much prominence as the former director of the Allegan Little Theatre and as a member of the Grand Rapids Civic Players.

Prominent among the members of the cast are several former members of the National Dramatic Camp, whose production several weeks ago [illegible] such a success. The leading role will be taken by Harry Young, whose portrayal of the garrulous Yankee hero in "Ten Nights" will long be remembered. Mr. Young's work as leading man at Ironton for the past two seasons has been very favorably received by Charlevoix theatre-goers. Dorothy Fritz, who plays opposite Mr. Young, is another who needs no introduction for her work also for the past two seasons has been notable. Other familiar names are Elvera Baker, David Houman and Lester Griffith.

CITY MOURNS DEATH OF O. D. HAMMOND

Life-Long Resident Succumbed Monday After Long Illness

O. D. Hammond, for many years identified with the business and civic life of Charlevoix, died Monday afternoon following an extended illness. He was 64 years of age.

Deceased, born in Eveline township August 27, 1870, was a life-long resident of Charlevoix county. He served the city of Charlevoix as street commissioner several years and for eight years was a member of the county board of road commissioners. While his business interests were diversified, they were largely confined to highway and concrete contracting.

Mr. Hammond was married in September, 1894, in this city, to Lephia Hunnington, whom, together with three children, two brothers and two sisters, survive, viz.: Oakley J. Hammond, this city; Stanley Hammond and Mrs. King Saunders, Lansing; Mrs. Mary Prevost and Frank Hammond of Charlevoix; George Hammond of Greenville, and Mrs. Alice Southerland of Bell, California.

Pythian funeral services were conducted from the home on East Lincoln avenue Wednesday afternoon, Rev. W. W. Hurd officiating. Interment in Brookside cemetery.

G. O. P. RALLY TO BE HELD AT TRAVERSE

FORMER LOCAL WOMAN IS TAKEN BY DEATH

Mrs. Nellie P. Wood Died August 22 in New Hampshire

Word has come to R. W. Paddock of East Jordan and Charlevoix from his niece, Mrs. A. W. Goddard, that her mother, Mrs. Nellie P. Wood, passed away Wednesday morning, August 22, at Lincoln, New Hampshire. Interment took place Friday, August 24th, at Clairmont, N. H.

Having lived in Charlevoix for ten years or more, Mrs. Wood's many friends will regret her passing. She owned a home at 304 Dixon avenue, where she resided during her residence here. Mrs. Wood was a native of Illinois. She lived at Oak Park, her husband having died there about thirty years ago. Mrs. Wood is the first of a family of seven to pass.

Besides her daughter, Mrs. A. W. Goddard, she leaves to mourn her death a stepdaughter, Mrs. John Washburn of Grays Lake, Ill., also three brothers and three sisters, viz.: R. W. Paddock, East Jordan; Albert Paddock, Round Lake, Ill.; Ray Paddock, Wauconda, Ill.; Mrs. C. L. Smith, Oak Park, Ill.; Mrs. A. V. Smith, Waukegan, Ill.; and Mrs. Sidney Avery of Lake Villa, Ill.

49TH ANNUAL FAIR OPENS SEPT. 11TH

EXHIBITS PROMISE TO SET A NEW RECORD

Excellent List of Free Attractions, Baseball, Boxing, Horse Races, Have Been Arranged

"Something doing every minute" is the slogan of the Charlevoix County Fair board as they finish lining up attractions for the 49th annual exhibition which opens Tuesday, September 11, at East Jordan.

Many improvements have been completed to put the grounds in first class condition. There will be plentiful exhibits and a variety of worthwhile free attractions at both day and night fairs. A baseball tournament between leading teams of the county will be a feature.

A total of $450 in purses will be offered winners in the horse races, which are scheduled the afternoons of Wednesday, Thursday and Friday. Events listed are 2:15, 2:18 2:20, 2:24 and 2:29 class trot or pace; and half-mile running races for all three days. Some fast horses will compete for the purses.

The big attraction will be a balloon ascension with a triple parachute drop each afternoon. Other entertainment features include aerobatic exhibitions in front of the grand stand day and night, boxing matches, livestock parade, contests for both men and women and plenty of band music at all times.

The mid-way will be larger than usual with numerous sideshows, merry-go-round, ferris wheel, etc.

The fair opens at 7:00 a. m. Tuesday, September 11th, and will close Friday night, the 14th.

FROST DAMAGE REPORTED THRUOUT COUNTY

Tuesday Night's Low Temperature Nipped Corn and Potato Crops

Reports have been received of heavy crop damage by frost due to Tuesday night's drop in temperature.

Potatoes and corn were nipped at scattered points throughout the county, more particularly in the eastern portion and also in low districts in Marion and Eveline townships in the western portion.

While the low temperature reading at the local coast guard station Tuesday night was 42 degrees above zero, other points throughout the county reported readings below the freezing point. As early as last week killing frosts occurred in the Jordan and Boyne river valleys.

FORMER LOCAL YOUNG MAN DIED AT CHICAGO

Local residents will regret the news of the death of Quinton J. Walker, son of the late Rev. Quinton S. Walker, a former pastor of the Methodist church of Charlevoix. Quinton died at his home in Chicago of pneumonia on July 24th. Besides his wife, Agnes, he leaves a son, Carl, 8 years old, a sister, Miss Louise Walker of Kalamazoo, and a brother, John, of Cincinnati, Ohio.

DRAMA CAMP LAST PLAY THIS WEEK

CLOSE 1934 SEASON HERE FRIDAY NIGHT

Present "Her Husband's Wife" As Final Production of Successful Season at Ironton

Patrons of the National Dramatic Camp last week enjoyed one of the finest plays of the season, and one that made a lasting impression by the beauty of its setting and lighting and the appreciative acting of the cast.

The play, "Just Suppose," is a thing of beauty in itself. The last act, played entirely in the moonlight, and brilliantly acted by Gretchen Rickel and Maury Tuckerman as the young lovers, made for a delightful audience experience. Other members of the company were excellent and especial honors go to a local girl, Freda McMillan, who gave a sympathetic portrayal of the charming old southern grandmother.

The National Dramatic Camp players will conclude their season this week with the rollicking farce, "Her Husband's Wife." This play happens to be by the same author as "Just Suppose," and it will be interesting to see the different fashion in which he so capably handles a romantic comedy like "Just Suppose" and a ridiculous farce in "Her Husband's Wife."

Miss Juliet Chase, who is well known in Charlevoix and at Belvedere, is to play an important part, and her many friends will be glad to welcome her to the company at Ironton.

Gretchen Rickel and Paul Allen will portray the wife and the husband about whom center all the nonsense of the play that keeps audiences in hysterics right from the start. Others in the cast include Maury Tuckerman, James Dolle and Elsie Shields.

Charlevoix and Ironton again bid goodbye to Mrs. Allen G. Miller and her capable company that are a definite asset to this resort community, and wish them a successful winter season, and a return to Ironton next summer [illegible] entertainment.

P. M. ANNOUNCES FALL TRAIN SCHED

SEQUANOTA BOATHOUSE IS LEVELLED BY FIRE

Blaze of Undetermined Origin Destroyed Resort Property Monday

Fire of undetermined origin destroyed the boathouse at the Sequanota summer resort on Lake Charlevoix near Ironton, Monday evening.

The boathouse, which had not been in use for several years because of low water, was a total loss and the connecting dock was partially destroyed.

The local fire department was called and assisted to keep the flames from spreading to other resort structures.

FOOTBALL NOTABLES AT TRAVERSE CITY

Appear in Game Sept. 15 During State Legion Convention

Herman Everhardus, Michigan's All-American halfback last year, not to mention Glen Presnell, Nebraska; Dutch Clark, Colorado; Joe Gailus, Ohio State, and a score of other outstanding stars will be seen on the Traverse City football field on the afternoon of Saturday, September 15, when the Detroit Lions of the National Professional Football League play the Traverse City Independents.

This football game will be one of the features of the state Legion convention to be held there September 11-15.

The Lions, who incidentally bring their own cubs as mascots, have been purchased from Portsmouth, Ohio, where they were runners up in the National League and will represent Detroit from now on in "pro" football.

The game will be played at 4 o'clock Saturday afternoon immediately following the great Legion parades and will take place in Traverse City's new athletic park on Thirteenth street.

LOCAL SCHOOLS OPEN SEPT. 17TH

PREPARATIONS NOW UNDER WAY FOR OPENING

Many Improvements In Buildings and Equipment Announced by Supt. O. P. North

Announcement that Charlevoix public schools will open Monday, September 17, for the 1934-35 term was made Wednesday morning by Supt. O. P. North. The opening date is one day earlier than a year ago.

Extensive repairs and improvements to all buildings are now being made with hopes of completion before the commencement of school. Funds remaining from the old CWA school allotment are being utilized for painting, cleaning and other necessary work.

The work of changing the high school heating system for connection with the plant serving the new grade building was started Tuesday of this week. Equipment from the junior high building, to be abandoned this year, will be moved and utilized in the other buildings. Preliminary details for the construction of a tunnel connecting the high school and grade building are under way and it is expected work on this project will be started in a short time.

Within recent weeks outside trim of the grade and high school buildings has been repainted and a similar program, also including cleaning of walls and stationary equipment is being continued inside the buildings.

The newly-adopted plan of furnishing free text books to all grades is now being worked out and details will be announced as soon as information is available. The plan also includes purchase by the board of education of all second-hand text books now held by students. An announcement of a definite time for these transactions will be made.

POINTS TO LOSSES BY SLASH IN TAXES

Gas and Weight Tax Amendments Would Curtail Sales Tax

Passage of two proposed amendments to the state constitution at the November election which would limit the gasoline and weight tax upon automobiles will prevent the state from collecting a sales tax on those items, the highway department has been advised by the attorney general.

The opinion was asked by the highway department which has been opposing passage of the amendments.

According to James E. Mogan, director of the sales tax administration, exemption of auto retail sales and gasoline from the sales tax would cause a loss of $5,000,000 a year in revenue in addition to the reductions in the auto taxes.

The amendments would reduce the present three cent gasoline tax to two cents and limit, by constitutional provision, the cost of license plates to the present 35 cents per hundredweight of each vehicle. The 35 cent schedule was adopted at the last session of the legislature which cut the cost from 55 cents.

ANNUAL COUNTY PICNIC SEPT. 3

WHITING PARK SCENE OF ANNUAL GET-TO-GETHER

Program of Baseball Games, Boxing, Sports, Arranged for Entertainment of Visitors

(By B. C. Mellencamp.)

Charlevoix county folk are looking forward to Whiting county park on Monday, September 3, when the 12th annual Charlevoix county picnic will be held. Everyone is cordially invited, whether old or young. Action will take place every minute of the day. Come early and stay late. Forget your troubles. Meet your friends once again and enjoy the wonderful facilities that Whiting park is noted for.

At 11:00 sports and running races will feature the program. In addition to the ordinary races, there will be several new ones that will be very attractive and of course, the famous tug-of-war between the city and country, will be included.

Baseball. At 12:30 comes the first of two ball games. This game presents the Boyne Falls and Barnard teams who have already opposed each other on previous occasions and are all set for the pennant. They will present their regular community lineup and it will be a knock-down and drag-out affair from start to finish. The second game starts at 3:15, between the Wolverine C. C. C. boys and the County All-Stars. Camp Wolverine has licked the better teams in this district and are a great bunch of ball players. The County All-Stars will be made up of the best rural players from the entire county. From the latest information, the young athletes (some not so young) are primed for these gruelling encounters.

Perry Whiting Day

Announcement has come to us that Charlevoix county citizens may have the opportunity of hearing and meeting Perry Whiting, the donor of the park, at 2 o'clock. He will be delighted to meet all of his friends once again. Although he lives many miles away, he has always had a [illegible] ity.

Boxing

Now here comes the big feature of the day. Starting promptly at 2:15, at the conclusion of the address by Mr. Whiting, there will be staged five thrilling boxing matches between the Wolverine Camp boys and Charlevoix's best mitt slingers. The five best boys at the camp will be all set to show their stuff and you certainly should not miss these red hot bouts. The card is as follows:

PETOSKEY GIRL IS NAMED WATER QUEEN

Charlevoix Contestants Place in Several Events Last Sunday

Jane Sims, 18 year old Petoskey girl, was named Northern Michigan water queen at the bathing beauty contest held Sunday at Hiawatha Beach, succeeding Miss Byrnece Lamphear, this city, who placed third. Miss Margaret Bradley of Harbor Springs, was the second choice.

In the competitive water events, Harold Mayhew placed third in the open diving contest; Edwin McCann and Norman Ance were second and third in the 200 yard swim for men; Betty Ross was second in the swimming and diving event for girls; Miss Byrnece Lamphear was the only local contestant to win a first place, carrying off the 100 yard swim for girls. Mildred MacArthur placed third in this event.

The Charlevoix relay team, composed of Byrnece Lamphear, Mildred MacArthur, Norman Ance and Edwin McCann, placed second, the event going to the Harbor Springs team.

CONGREGATIONAL SUNDAY SCHOOL PICNICKED

The junior and older members of the Congregational Sunday school picnicked last Thursday at Young's state park. About half the party went by truck and the rest in autos. Everyone had a good time despite the rain in the afternoon and the necessity of taking shelter in the pavilion. A picnic for the primary children was held the previous week in the city park.

The Rebekah Lodge No. 293 will open their regular meeting Tuesday, September 4th.—Adv. 35t1.

Mr. and Mrs. William Seymour of Charlevoix and Mr. and Mrs. John Bassett of Kingsley, visited Mr. and Mrs. Plenny Genett last Friday.

Mr. and Mrs. Charles Mason of Saratoga, Calif., who are visiting relative here, called on Mr. and Mrs. Plenny Genett Tuesday afternoon.

James Dice is visiting his aunt and uncle, Mr. and Mrs. I. L. Dice. Mr. Dice is the only son of Mr. and Mrs. C. V. Dice of South Bend, Ind.

Mr. Bimbo and son of Detroit, visited Mr. and Mrs. Merrill Richardson over the week end, at Norwood, also Mr. and Mrs. Dunn of Petoskey.

Buddy and Dickie Hallett of St. Jo., are visiting their grandparents, Mr. and Mrs. Genett, for a couple of weeks before the beginning of their school work.

Mr. and Mrs. Adamson of Bellaire and their son and daughters-in-law, Mr. and Mrs. Thayer and children of Traverse City, were Sunday guests at the Frank Richardson home.

Mr. and Mrs. Garfield VanDusen of Grand Rapids, who are enjoying a vacation at the auto park in Charlevoix, visited Mr. and Mrs. William Alward last Friday. Mr. VanDusen is a nephew of Mrs. Alward.

Mr. and Mrs. Doris Perrene are entertaining relatives at their farm home near Norwood: Mr. and Mrs. Perrene, parents of Doris Perrene of Ohio, also Mrs. Perrene, father and brother, Mr. Dunn and Ralph, of Indiana.

A troup of 25 young people enjoyed a delightful party on the beach last Friday evening in honor of William Parson's birthday anniversary. Around the camp fire, with much merriment, the group enjoyed a marshmallow roast.

Mrs. Sadie VanDusen of Lansing, accompanied by her brother-in-law and sister, Mr. and Mrs. Beute of Grand Rapids; are visiting relatives at Norwood before leaving for a trip around Lake Michigan. They expect to visit the World's fair in Chicago also.

Mr. and Mrs. R. E. Stafford and daughter, accompanied by Mr. Stafford's sister, Miss June Stafford, enjoyed a motor trip to Traverse City and Northport last Thursday. Miss Stafford expects to spend the remainder of her vacation in Charlevoix before returning to Detroit, where she is teacher in one of the schools in that city.

Mrs. Frank Richardson was delightfully surprised when 22 ladies gathered at her home Tuesday evening of last week and reminded her of her birthday anniversary, which was very cleverly arranged by her niece, Mrs. George Light. Bunco and other games were enjoyed, after which a cooperative luncheon was served. Mrs. Richardson was presented with a beautiful dress material by Mrs. William Alward on behalf of the guests. Everyone departed wishing Mrs. Richardson many more happy birthdays.

BARNARD

Cool weather for August.

An enjoyable time was had by all who attended the tea with Mr. Burns.

Rev. Jackson of Central Lake, preached here Sunday in the absence of the pastor.

Mary Smith is employed at the Robert Sloan home in Charlevoix for the present.

Bean growers have been having a sort of vacation on account of the cool weather slowing up the crop.

Doyle Warner, five-year-old son of Charles Warner, had the misfortune to fall from a load of hay and broke his leg one day last week.

The Cotton Blossom Singers gave a fine concert at the church Sunday evening. A large crowd attended and all were enthusiastic over the wonderful program.

Mr. and Mrs. Ed. Boss, Mr. and Mrs. John Boss and Maggie left Monday for Fern, Indiana, to meet Rev. DeYong and wife. Maggie will accompany Mr. and Mrs. DeYong to their home in New Jersey, where she will be employed for some time.

NORTH BARNARD

Mrs. Ed. Ager of East Jordan, visited last week at the home of Will Ager.

Work at the Belvedere Club grounds is falling off very fast. Clifford Genett, one of the employes on the grounds, is only working part time now.

A party of friends gathered at the home of Guy Stutzman Saturday evening to help his son, Joe, celebrate his birthday anniversary. The latter part of the evening the young folks attended the dance at Marion Center.

We were very sorry to hear of the accident to little Doyle Warner, son of Charles Warner of the Clark district. He jumped from a load of hay and broke his leg about half way between the hip and knee. The little fellow is confined in the hospital at Charlevoix.

Mr. and Mrs. John L. Beattie and two children, Allan and Lois, of Ann Arbor, visited over the week end at the home of his parents, Mr. and Mrs. Albert Beattie. They were enroute to Iron Mountain to spend their vacation at the home of Mrs. Beattie's parents, Mr. and Mrs. William Lewis.

SOUTH BARNARD

The graded lesson system is being introduced into the Sunday school. It is believed that this will be a more effective way of teaching the children.

The new white garment with which the church has been outfitted has improved the appearance of the edifice greatly. This decorating was accomplished by volunteer labor.

The attendance at the Sunday service has been very good this summer—with nearly a full house every Sunday. Everyone is cordially invited to attend this service, which is held at 1:30 p. m. Sundays.

Miss Maggie Boss, who has been a very faithful organist and pianist at the Reformed church for several years, has departed for Patterson, New Jersey. She expects to make her home with Rev. and Mrs. Peter DeJong of that city. Mr. DeJong filled the pulpit of the South Barnard church a few summers ago. A host of friends bade Miss Boss farewell and wished her well in her new venture. While we are sorry to see her go, her many friends are glad that such an opportunity to study the East has come to Maggie. We are sure that this experience in the metropolitan center of the United States will enrich her outlook upon life.

CENTRAL LAKE

Kenneth Sage is back from Michigan University.

Mrs. Harter and Mrs. Parker attended Grand View Sunday school last Sunday.

Hubert Morrison and son, Casper, returned to their home at Lansing last week Tuesday.

Rev. Snider of the Pentecostal church, called on the Johnson family at Torch Lake shore, last Sunday.

The road men are graveling the Torch lake shore road this week with gravel from the Moses King gravel pit.

Thirty-three were present at week ago last Sunday at Eastport Sunday school, 18 last Sunday at Bay View, 29 at Creswell and 38 at Grand View.

Miss Nora Axtell and mother are back from Berglands upper peninsula, and Miss Ayott and Alice Hopper will attend Central Lake high school again this year.

James Dawson and Edward Dawson and families were Traverse City business visitors last Friday. Edward intends to move soon from the store building opposite the Bay View school house.

Tom Edwards and wife and Harvey Edwards have returned to Flint and Detroit, respectively. Tom, a former U. of M. coach, now has a position with the federal government on the welfare work.

Laurence DeVries and father and Miss Audrey Triplett were visitors two weeks ago at the big Jamestown picnic. A party was given at the J. A. Triplett home last Friday evening in honor of the birthdays of Laurence DeVries and Clare Triplett. The young folks of the vicinity enjoyed the event.

Charles Mason, the last teacher of the writer's, from San Diego, Calif., has been visiting in this vicinity. Mrs. Lizabeth Cooper Wheeler Johnson of California, sister of John Cooper, who passed away last week, was one of the first teachers of the writer. Mr. Cooper was a friend of the writer's and will be greatly missed.

The local canning factory expects to begin operations soon, canning sweet corn. They report having orders for five car-loads of corn. Ellsworth factory is still taking in beans, of which there is not a surplus this year on account of the dry weather. With such cloudy, cold weather, the beans are not growing very fast, although the recent rains have helped considerably.

Another bad accident happened Thursday afternoon of last week at the Kennedy Corners, northwest of town. A car driven by Jess DeForest, with his son, Clinton, in the seat with him, and Herbert Parker and Cliff Zimmerman (the ball player) in the rear seat, was sideswiped by a truck, proceeding south on M-88. The car was completely demolished and was given to Frank Williams as old junk, for taking it home. Jess DeForest was quite seriously injured, having five ribs stove in and shoulder injured. He was immediately given first aid by the Central Lake physician, as were the other occupants. Mr. DeForest was rushed to Charlevoix hospital, where he appears to be as well as could be expected under the circumstances. Clinton was cut about the stomach and hand injured. Mr. Zimmerman was cut on the arm. Mr. Parker had glass broken from his spectacles over his blind eye and head and face bruised.

ISO-VIS "D" DOOMS SLUDGE, THE OIL-EATER!

YET STANDARD'S FAMOUS ANTI-SLUDGE MOTOR OIL IS "PREMIUM QUALITY" IN EVERY RESPECT

If the price of Iso-Vis "D" were 31c, or even 30c a quart, you'd *still* be getting the finest motor-oil value on the market. At the price you pay for it today it's a downright *bargain!*

When you buy Iso-Vis "D" you get the very latest development in fine, sturdy lubrication for automobile engines—a motor oil treated by the patented Propane Dewaxing and Chlorex Extraction process. That gives it a unique quality—it *will not sludge* even under the hardest, hottest driving! Furthermore, it deposits almost no carbon, and its "body" doesn't thin out dangerously under heat or thicken greatly in cold. All these advantages go to make up the *most economical* fine lubrication you can buy.

Sludge causes high oil consumption. Piston rings clogged with sludge pump oil—cause needless waste. Put Iso-Vis "D" in—keep sludge out!

Next time you drive into a Standard Oil Station ask them to show you Iso-Vis "D." It's always ready, in accurately measured glass bottles, so you can see the clear, glistening *good oil* that you are getting. You'll like its looks. You'll like the way it behaves in your engine. Try it!

STOP RODENTS EATING VALUABLE STOCK FEED

Community Campaign to Kill Rats and Mice Can Be Arranged

Feeding good grain to rats and mice is going to be more expensive than usual this fall and winter when livestock feeds are apt to be a better price than in the past few years, according to G. C. Odelkirk, specialist of the U. S. biological survey.

Trash piles which serve as breeding and hiding places for the rodents should be burned. Lumber piles or piles of posts should be repiled on supports to keep them a foot above the ground so cats or dogs can get beneath to destroy the rats and mice.

Sheet metal or heavy screen can be used to make rat-n cribs and granaries rat and mice proof. It should be remembered that, if a door is left open, no amount of metal will make a grain storage proof against rodents.

Poison and traps are valuable aids in control campaigns. Both can be successfully used if proper care is exercised. The best poison to use for rats is not poisonous to animals so no danger occurs from placing it about buildings. This poison is red squill, a preparation made from the root of a plant.

County agricultural agents can arrange with the biological survey to make a campaign to kill the rodents in a community if the residents want it done and will cooperate in the work. These campaigns should be made before cold weather begins. This work will be done either in towns or in the country.

AT THE MOVIES

"Scarlet Empress" Rates Top Listing! Dietrich Is Superb

"The Scarlet Empress," which more than justifies its advance heralding as Marlene Dietrich's greatest starring opportunity and Director Josef von Sternberg's most pretentious production, opens at the Palace theatre Sunday and Monday.

Miss Dietrich, as Catherine, offers a characterization which compels attention throughout the picture. John Lodge, a comparative newcomer among leading men, scores derisively in the role of Count Alexei. Sam Jaffe as the idiotic Grand Duke Peter and Louise Dresser as Empress Elizabeth likewise make the most of colorful roles.

More than forty supporting players portray the various personalities of the Imperial Russian court of 1750.

Morris Says, "Let's Talk It Over" with Songs

Chester Morris bursts into song in his latest picture, and sings the reheat ditty known to fame as "Barnacle Bill, the Sailor."

To make it even better, Morris is quite properly "oiled" when he puts on the number for a group of somewhat bewildered society people, and gives a rendition which is filled with gusto and hiccups.

This is part of a scene in "Let's Talk It Over," Morris' latest starring vehicle which is at Palace theatre Thursday.

Playboy Falls for Operator in Mad Farce

The hectic and tremendously amusing love affair between a wealthy playboy and the telephone operator in his hotel, who handled him a swell line when he dialed the wrong number.

That, in brief, is the basic story of "Let's Talk It Over—Listen," coming Friday and Saturday to the Palace theatre, with Cary Grant, Frances Drake, Edward Everett Hatton, George Barbier, Nydia Westman and Charles Ray in the principal roles.

SUNDAY DINNER SUGGESTIONS

By Ann Page

Shoppers, faced with a double holiday this week end, will find that in spite of generally higher food prices broiling and frying chickens and ducks are cheap.

Ham, long a Labor day favorite, is not expensive. Tomatoes, green beans, and peas represent good values in fresh vegetables, while cantaloupes and seedless grapes are our recommendations for fruits.

From the above information our experts have made up two Sunday menus and a labor-saving Labor day menu which should give you the most for your time and money.

DISTRICT HEALTH UNIT BULLETIN

A committee which studied the economic aspects of milk says, "The dairy industry could add millions of dollars to its annual receipts if only milk of the finest quality were produced." Ten or fifteen years ago it was difficult in some places to sell sweet milk of good flavor. Since then agencies like the federal and state departments of agriculture, agricultural experiment stations, and 4-H clubs have worked out ways of producing milk under the most sanitary conditions.

In 1929 through the cooperative extension work and the general distribution of information 78,552 farms improved their practice so that they have now a more sanitary product. The successful efforts of the California state department of agriculture in winning the cooperation of producers and manufacturers of dairy products and in instructing dairymen in the best known method to secure economical and sanitary production, are especially worthy of notice. Trade organizations and health organizations, both official and semi-official, have also aided the industry in raising its standards and in reducing losses through improperly produced milk and cream.

Three states, Michigan, Maine and North Carolina, have made efforts to rid their herds of bovine tuberculosis with gratifying results.

All dairy herds producing milk in District Health Unit No. 3, composed of the counties of Antrim, Charlevoix, Emmet and Otsego, and are approved by the health department, have been regularly tested for tuberculosis and all tuberculin animals are eliminated. This speaks very highly for the county agricultural agents located in these various counties.

HOT WEATHER RETARDS USE FOOD REQUIREMENTS

The extreme heat during July, which caused people to cut down on their food requirements, is reflected in the eighth period sales report of the Kroger Grocery and Baking company.

The total sales for the four-week period, which ended August 11th, was $16,079,706, compared to $16,167,308 for the same four-week period of 1933, a decrease of one per cent.

The cumulative sales for the first eight four-week periods of 1934 compared to the first eight periods during 1933 continued to show a substantial increase of $9,162,597, or seven per cent. The total sales during these first eight periods is $134,328,735 compared to $125,166,138 for the same first eight periods of 1933.

Ab Jenkins praises Firestone tires in toughest endurance run he ever made.
Lake Bonneville, Utah
Aug. 19th, 1934
Mr. Harvey S. Firestone, Chairman,
Firestone Tire & Rubber Company,
Akron, Ohio
Dear Mr. Firestone
Under A.A.A. supervision I have just completed a 5,000-mile run on the hot salt desert at Lake Bonneville, Utah, averaging 117.2 miles per hour, breaking 77 Speed Records—without one tire trouble. Firestone Tires give me almost unbelievable performance, with temperatures as high as 140 degrees.
Last year I made a similar run with a car of less power and used eight tires of another make whose material advertising said stood blowout protection. Yet, I had a blowout and all a number of tire changes.
This year I also used Firestone Spark Plugs and a Firestone Extra Power Battery with your new All-Rubber Separator. Not a spark plug failed and the battery required no service of any kind.
It is very fine indeed what my Firestone Tires went through they would appreciate what Gum-Dipping means in strength and heat protection that make Firestone Tires safe from blowouts. This is the toughest run I have ever made in my 15 years of breaking speed records.
Sincerely yours,
Ab Jenkins
Wilbur Shaw, using widely advertised competitive tires, had eleven tire failures, preventing him from establishing records worthy of the car he was driving.

Mr. Harvey S. Firestone, Chairman,
Firestone Tire & Rubber Company,
Akron, Ohio
Dear Mr. Firestone
I have just finished a 5,000-mile test at Lake Bonneville, Utah, driving a stock car of a leading manufacturer, equipped with tires which a large manufacturer has recently brought out as the newest development in tire construction. I had eleven tire failures and made two precautionary tire changes.
When a right front tire blew out, I was unable to get the car under control for a quarter of a mile, leaving a trail of rubber and fabric on the hot salt bed.
After this experience, I appreciate what a vital part Firestone Gum-Dipped Tires have played in my success during the fourteen years I have used them on my racing and personal cars. Without them I know I could never have made the many speed records I have established.
Very truly yours,
Wilbur Shaw

THOUSAND REFUNDS STILL UNCLAIMED

Approximately 1,000 state warrants representing weight tax refunds are still held in the unclaimed fund of the department of state. This represents slightly less than $5,000 which Michigan citizens can secure by sending proper addresses to the department.

Each warrant being held in the unclaimed file was mailed to the address given by the automobile owner in securing 1934 plates and has been returned unclaimed because the motorist moved without leaving a proper forwarding address.

ARTHUR L. FITCH
for
PROSECUTING ATTORNEY
SECOND TERM

Elsewhere in this newspaper there appears the report of the Prosecuting Attorney for the period covering his first term to date. Mr. Fitch believes that every public official owes a duty to the people to report his doings and activities for the current term. He believes that every official who is a candidate for re-election should be required to do this by law. At least this is true of a Prosecuting Attorney, who can, if he wants to, spend more of the peoples' money than any other county officer. Mr. Fitch is glad to make such a report and it is not done for political purposes. How else can the people know what is going on and know whether an official is entitled to re-election? Mr. Fitch makes the following additional statement:

I wish the people to know that the period of my first term now nearly finished has been the most trying and exacting in my long experience as a lawyer. New tax laws, new liquor laws, changes in many other laws, welfare programs, and the general unrest and actual suffering amongst the people, have many times increased the duties and responsibilities of the office of Prosecuting Attorney. They have demanded all of the knowledge gained by long experience and a large and accurate acquaintance with the people in all parts of the county as well as understanding of affairs. The strictest economy has been necessary, and has been diligently practiced, in order to lessen as much as possible the already too heavy burden of the tax payers. As a tax payer myself I have fully realized all this. The result has been more encouraging than I thought possible. It has received the approval of the Board of Supervisors and the auditing committee of the Board. Doubtless I have made mistakes, but they were not intentional ones nor the result of carelessness. My endeavor has been to help hold down court expense as the records conclusively show in the small number of prosecutions. I have tried to get results in other and equally effective ways and I have reasons to know that they have been effective. My office has been "all over the county," not in a chair in the Court House. In co-operation with the peace officers of the county no effort has been spared to make the county a safe place to live in. I have not pleased everyone. No man can do that and discharge his duty. I have aimed to be just and to exercise sound judgment.

It will be impossible for me to make a campaign and interview the voters without neglecting my work and this I will not do. I cannot take the time to defend myself against unwarranted untrue statements. The records are the best evidence and speak for themselves. They are open to your inspection at all times. I have been fortunate in defending an action begun against the county and the Road Commission for a large amount of claimed damages.

I appreciate the trust and confidence reposed in me in the past and now ask only your sincere and unprejudiced consideration while a candidate for re-election to a second term. (Political adv.)

FIVE THOUSAND SEEKING PUBLIC OFFICES

Names Appear on Michigan Primary Ballots September 11

At least 5,000 Michigan men and women are seeking public office and will have their names presented to the voters at the primary September 11, according to estimates made by the department of state.

Under recent changes in the election law, there will be many candidates, however, whose names will not be on the primary ballots. In cases where a candidate is unopposed for the nomination for the office he is seeking, the name will not be printed on the ballot. Several county clerks report that this change in the law will result in considerable savings.

Another change in the election law that is of importance to voters is the provision regarding length of residence in the voting precinct. Under the old law, voters were required to live at least 20 days in the ward and precinct in which they voted. The present law requires 20 days residence in the city, village or township and allows for transfer of registration on election day.

The state law governing election expenses requires every candidate and every primary campaign committee treasurer to file a report of expenses incurred within 10 days following the primary election. Candidates and campaign treasurers have 20 days in which to file reports after the November election.

CIVIL ACTION COLLECT PENSION TAX

No Criminal Action to Be Taken to Force Collection

No criminal action will be taken against persons who refuse to pay their old age pension bond tax for 1933, but county clerks will be directed to bring civil suit to force collection, Governor Comstock has announced.

The statement was made after a conference with Miss Evelyn S. Mershon, state welfare director, whose department is charged with supervising the collections.

ST. JAMES, B. I.

Mrs. Lawrence Dittliffsen of Milwaukee, returned to her home Sunday.

Grace Bradley and brother, Jack, are spending some time in Chicago before returning to their home in Milwaukee.

Mr. and Mrs. W. Smith and daughters, Sarah and Margaret, returned to their home in Wheeling, W. Va., Monday.

Mr. and Mrs. H. McCauley and family of Detroit, returned home on Monday.

Mr. and Mrs. P. Gallagher, son James and Danford of Charlevoix, returned home Sunday.

An excursion of Democrats spent Sunday on the island. Their rally was held in the hall. Speakers included Prentiss M. Brown. The boat returned to Charlevoix at 5:30.

Miss Marian O'Shew of Chicago, and Miss Maybelle St. Lawrence of California, returned to Chicago after a week's sojourn on the island.

A dinner party in honor of the newly-weds, Mr. and Mrs. Bruce McDonough, was held in the Vesty McDonough home, Saturday, August 25. The young couple returned from a honeymoon on Thursday, reporting an ideal time. The fifty guests at the party included relatives of the couple. Dancing followed the dinner, which was thoroughly enjoyed by young and old. Now that the couple are launched on the sea of matrimony, we again wish them every happiness.

Mrs. E. DeVincent and daughter, Imogene, are spending several days on the island.

The M. S. Rambler made a trip to Manitou Islands this week.

VETERANS TO HOLD BIG CELEBRATION

Free Attractions and Sports Contests at Hiawatha Beach Sept. 2

The Veterans of Foreign Wars celebration for the public will be held all day and evening of Sunday, September 2, it has been announced, at Hiawatha Beach, Round lake. Numerous free attractions, sports contests for prizes, open air dancing exhibitions, and a midway are some of the features planned. No gate charge or entry fee will be charged. The event is sponsored by the Emmet county post.

Lunches and beverages will be obtainable on the grounds.

Among the free attractions promised will be Rex Roy King, handcuff escape artist, who will do a spectacular escape after being handcuffed, locked in a mail sack and thrown into the water.

The Human Fish, a young lady who claims to be the greatest human fish in the world, will be present, and has challenged the best fisherman in the North to try to land her with pole and line.

Professional diving and swimming exhibitions, aquatic and land sports for prizes, will be open to all without charge.

Park plan dancing on an outdoor floor will continue afternoon and evening. A midway including a fortune teller, will also be featured.

COUNTY GETS TWO HIGHWAY PROJECTS

Are Part of Winter Program to Provide Welfare Employment

Tentative plans for a $6,452,568 winter highway program financed with federal funds to provide welfare employment gives Charlevoix county two projects, according to an announcement by Murray D. VanWagoner, state highway commissioner.

The program, divided between state highways, municipal streets and secondary roads, includes 114 projects. It is still subject to final approval by federal authorities after construction plans are submitted.

The Charlevoix county projects, totaling $42,500, are as follows:

U. S. 31—Crossing protection signals northeast of Charlevoix, $2,500.

M-66—East Jordan south to county line, grading, drainage and gravel surface, 2.8 miles, $40,000.

MORE NON-RESIDENT FISH LICENSES SOLD

Michigan Tops Other States In Number Licenses Issued

More non-residents came to Michigan for their fishing sport during the year 1932-33 than to any other state of the Union.

This is brought out in figures compiled by the United States bureau of fisheries, which show that Michigan topped all other states in the total of non-resident fishing licenses issued.

During the past year Michigan issued 30,127 full-time fishing licenses to non-resident male anglers and 9,365 licenses to their wives. In addition Michigan granted short-time licenses to 26,090 fishermen from out of the state. This is an aggregate of 65,582.

Wisconsin rates second with 43,646 non-resident licenses including those granted to aliens, and Minnesota comes third with 30,608 non-resident licenses. In Maine 21,275 part-time and 7,099 full-time non-resident licenses were sold.

CHRISTIAN SCIENCE CHURCH

Sunday morning service, 10:45.

Every Wednesday evening at 7:45.

Reading room Tuesday and Saturdays, 3 to 5 p. m.

"Christ Jesus" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, September 2.

Among the Bible citations is this passage: "Matthew 6:6: "But thou, when thou prayest, enter into thy closet, and when thou hast shut thy door, pray to thy Father which is in secret; and thy Father which seeth in secret shall reward thee openly."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 16): "Only as we rise above all material sensousness and sin, can we reach the boundless liberation and spiritual consciousness, which is indicated in the Lord's Prayer and which instantaneously heals the sick."

LEGAL NOTICES

General Primary Election

To the Qualified Electors of the City of Charlevoix, State of Michigan:

Notice is hereby given that a General Primary Election will be held in said City on

Tuesday, Sept. 11, A. D. 1934

At the place in said city as indicated below, viz.:

Council Chambers in Carnegie Library Building

For the purpose of placing in nomination, by all political parties participating therein, candidates for the following offices, viz.:

National — One candidate for United States Senator, full term.

State—One candidate for Governor; one candidate for Lieutenant Governor.

Congressional—One candidate for Representative in Congress for the Congressional district of which said Township forms a part.

Legislative — One candidate for Senator in the State Legislature for the Senatorial District of which said Township forms a part. One candidate for Representative in the State Legislature for the Legislative district of which said Township forms a part.

County—Also candidates for the following county offices, viz.: Prosecuting Attorney, Sheriff, Clerk, Treasurer, Register of Deeds, Circuit Court Commissioner, Drain Commissioner, two Coroners, Surveyor.

Delegates to County Conventions

There shall also be elected as many Delegates to the County Convention of the several political parties as said ward, precinct or district is entitled to under the call of the county committees of said political parties, which number will be indicated by the number of blank lines printed on the official primary ballots used at said election, under the heading "Delegates to County Conventions."

The Board of Primary Election Inspectors shall certify to the County Clerk the names of the electors so elected as delegates, naming the political party upon whose ballots such electors were elected. The County Clerk shall notify by mail each person elected as such delegate, and shall certify to the chairman of the committee of each political party of the county, the delegates elected by such political party as delegates to the fall and succeeding spring county convention.

The name of the candidate for delegate to the county convention shall not be printed upon the official primary election ballot, but one or more such names may be placed on such ballot by printed or written slips pasted thereon by the voter, or the names may be written in by the voter.

Procedure In Case of Tie

As provided by Sec. 2923, Chapter 7, Part III, Act No. 237, Public Acts of 1931—In case two or more persons have received equal number of votes for delegates to the fall county convention and failure to elect is caused thereby, the Board of County Canvassers shall appoint a day for the appearance of all such persons before the County Clerk, for the purpose of determining by lot among such persons, the right to such office.

Suggestions Relative to Voting

Separate Ballots for each political party will be provided. The elector must name the political party of his choice when asking for a ballot and in marking his ballot must make a cross in the square to the left of the name of each candidate for whom he desires to vote, and can vote for only one candidate.

After the ballot is prepared it should be folded so that the initials of the inspector below the perforated corner will be on the outside.

Notice Relative to Opening and Closing of the Polls

Election Revision of 1931—No. 119 Chapter VIII

Sec. 1. On the day of any election the polls shall be opened at seven o'clock in the forenoon, and shall be continued open until six o'clock in the afternoon and no longer: PROVIDED, That in townships the board of inspectors of election may, in its discretion, adjourn the polls at twelve o'clock noon, for one hour, and that the township board in townships and the legislative body in cities and villages may, by resolution, provide that the polls shall be opened at six o'clock in the forenoon, and may also provide that the polls shall be kept open not later than eight o'clock in the evening of the same day. Every qualified elector present and in line at the polls at the hour prescribed for the closing thereof shall be allowed to vote.

The POLLS of said Election will be open at 7 o'clock a. m. and will remain open until 8 o'clock p. m. Eastern Standard Time

Dated July 26, A. D., 1934.

RAY S. HAMILTON,
City Clerk.

LOST 20 LBS. OF FAT IN JUST 4 WEEKS

Mrs. Mae West of St. Louis, Mo. writes: "I'm only 28 yrs. old and weighed 154 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 130 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—it's the SAFE, harmless way to reduce to tons of thousands of men and women know.

For your health's sake ask for 1oz. bot. Kruschen at any druggist—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle you are not joyfully satisfied with results—money back.

Pain Passes Off

When your head aches; when Neuralgia tortures you, when Muscular Pains make you miserable—take a Dr. Miles' Anti-Pain Pill.

Mr. Smith is one of millions who have found this easy way to prompt relief. "I keep Dr. Miles' Anti-Pain Pills in my pocket and when I get a dull heavy feeling in my head, I take a Dr. Miles' Anti-Pain Pill and the pain passes off."

DR. MILES' ANTI-PAIN PILLS

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral waters, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul. Your skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at drug stores. ©1931 C. M. Co.

BANK DEPOSITS WERE SAFEST INVESTMENTS

High Government Official Says No Investments Except U. S. Bonds Suffered as Little Loss as Deposits in Closed Banks

WASHINGTON, D. C.—No form of investments except Government bonds suffered as little loss as deposits in closed banks during the years 1931-32-33, Jesse H. Jones, Chairman of the Reconstruction Finance Corporation, declared in a recent address.

"A point generally overlooked in connection with bank failures in this period, is that upon the whole, depositors in closed banks will get a somewhat larger percentage than has been true in bank failures over a period of say twenty-five years," Mr. Jones said. "Heretofore they have gotten about 85%, but in these wholesale bank closings, my estimate is that they will, upon the average, get about 65% of their deposits.

"Another point worthy of mention is that a depositor in a closed bank loses only a part of his deposit, while the bank stockholder loses all, plus a stock assessment.

"No form of investment, except Government bonds, has suffered as little loss as deposits in closed banks, and while I appreciate that there is little consolation in this fact, those who had their savings invested in stocks, bonds, mortgages, real estate, industrial investments, or in businesses of any kind, have had losses very much greater, and in a much larger percentage, than have depositors in closed banks.

"It is for these reasons, and others not necessary here to enumerate, that it is not possible to justify paying depositors in closed banks with the taxpayers' money."

NO GOOD REASON FOR PESSIMISM

F. M. Law, President American Bankers Association, Sees Improving Conditions and a Changing Future

WASHINGTON, D. C.—There is no good reason for pessimism today, for though the "depression is not by any means over we are coming out of it," F. M. Law, President of the American Bankers Association told the American Institute of Banking convention here recently.

"Banking is a necessary business and will endure," Mr. Law said. "In order to endure, it must be the right sort of banking, under the right sort of management.

"The American Institute of Banking commands and is entitled to great respect because its major objective is to teach and promote the right kind of banking. One of the big reasons for [illegible]

Banking is a serious business, he said. "I know not one single man [illegible] who has made a success of [illegible] over a long period of years is the worker." He added:

"Take for your motto the old German [illegible] 'Ich Dien,' (I serve). Meaning what? Serve your depositors, your customers and society.

"Let no one tell you that private initiative is dead. On the contrary, it commands a greater premium today than ever before. Banks Repay R. F. C. Loans

Banks and trust companies on May 21 had repaid 61 per cent, or $967,959,923.08 of the $1,581,357,085.08 in cash which they had received from the Reconstruction Finance Corporation since its establishment on February 2, 1932.

FEDERAL RESERVE BOARD FINDS BANKING BETTER

WASHINGTON, D. C.—A review by the Federal Reserve Board indicates that the condition of operating banks, particularly in country districts, has improved in recent months, as shown by the fact that these banks have been able to reduce their indebtedness to the reserve banks, to the Reconstruction Finance Corporation and to others.

The July bulletin of the board in discussing these findings says:

"At the same time progress has been made in making available to depositors funds that had been tied up in closed banks.

"Banks in financial centres have been out of debt to the Federal Reserve Banks for a long time and in addition have had a large volume of excess reserves. At the beginning of the year there were still many small banks throughout the country, however, that carried a considerable load of indebtedness.

Country Banks Reflect Improvement

"The liquidation of indebtedness by these banks reflects in part improvement in business condition and the consequent ability of customers to repay bank loans which long had been frozen. It constitutes a strengthening of the banking position."

The board pointed out that the reduction of member bank indebtedness has been continuous since the beginning of 1932 except for a brief period during the banking crisis in the Spring of 1933. The review continued:

"In 1932 liquidation of indebtedness of member banks to the reserve banks was accompanied by an increase of their borrowings from the Reconstruction Finance Corporation. In the past year and a half, however, indebtedness of member banks to the Reconstruction Finance Corporation has also been reduced."

SEES TURNING POINT IN BANKING HISTORY

NEW YORK — The American Bankers Association Journal in its July issue presents the following review of banking and business conditions:

"It is an almost universal opinion among bankers that June has been the turning point in banking history in the matter of recovery. Reasons for the optimism are twofold—the condition of the banks and the prospects of better banking business.

"The reorganization of the banking system after the holiday of sixteen months ago is now practically complete. The comparatively few banks yet to be reorganized and reopened are no longer a serious factor in the situation. The year's preparatory period for the enforcement of major provisions of the Banking Act of 1933 has passed, and banks now have a definite idea of where they stand."

Training for Bankers

The American Bankers Association has been active for many years training young men and women in order that they may be duly qualified for the business of banking. Standard courses are furnished with able and experienced teachers. This work is done under the direction of the American Institute of Banking Section of the association. Over two hundred chapters, or local banking schools, are in active operation throughout the country and thousands of the younger generation of bankers are being graduated each year. These students are taught not only banking practices and policies, but they are also well grounded in the highest ideals and standards of business ethics. A proposal is now under consideration to establish a central board, which will offer advanced or graduate work to a selective list taken from those who have completed the standard courses.—F. M. Law, President American Bankers Association.

Partners in Purchasing

AS WE make our purchases for Fall—clothes and fuel, furniture and food—we are a vast body of people, all responding to the urge of the oncoming season. But in still another way are we joined. We seek aid, advice and suggestion from today's advertising in this paper.

This habit of ours to look to the printed word for help has grown in quite a natural way. From experience over the years we have found that it pays. For only a worthy store and product can be advertised continuously. To pay the advertiser, advertising must be honest.

That is why advertising is a helpful partner of us all. It helps the manufacturer and store to sell. It helps you—the customer—to buy to the best advantage.

SEVEN GOOD BOUTS ON BOXING PROGRAM

Show Promoted Last Thorsday Best of the Season

Seven three-round bouts featured the third card sponsored by the Charlevoix Boxing Club at the school gymnasium Thursday evening. There was not a dull spot in the entire program.

In the main bout, Bob Crampton of Charlevoix, was given the nod over Art Depodesta of Camp Wolverine, marking his first defeat in 15 starts. Whitey DeVries of Camp Wolverine, was given an unpopular decision over Jack Holliday of Wilderness camp, after a spirited contest in which the loser showed plenty of ability and more gameness. Hub Gerke of Wolverine camp, and Johnny Mearing of Wilderness camp, fought to a draw. Glenn Rock of Wilderness camp, and Chub Wilmot of Kenosha, Wis., fought to a draw in a match in which both absorbed plenty of punishment. It was one of the best attractions of the show.

Guy Johns of Charlevoix, scored a technical knockout of Joe Jaskinski of Wilderness camp. Referee Powers stopped the bout before the first round was barely under way. Jaskinski was out on his feet when hostilities were stopped. "Hardrock" Ager of Charlevoix, knocked out Billy Street of Wilderness camp, in about 10 seconds. Ager landed the only blows of the match, about a half dozen in all.

K. O. Edgender of Wilderness camp, won the decision over Frank Spruss of Chicago, in the first bout. The two lads were willing mixers and put on a great exhibition. Spruss, the aggressor, suffered one knock-down which cost him the decision.

Otto W. Bishop

Candidate for the Office of

STATE SENATOR

29th Senatorial District

Otto W. Bishop, candidate for the office of State Senator from this district, was born in Alpena and has always resided in northern Michigan.

After spending the early years of his life on farms in Alpena county and in the mercantile business, and after an active connection with the banking business for twenty years, he engaged in business for himself. His several business ventures have been very successful.

For nine years he served as a member of the Municipal Council, four years as its President. He urged the revision of the antiquated City Charter of Alpena and was elected a member of the Charter Commission which formulated a new Charter under which the City now operates.

Mr. Bishop's varied experiences have given him an understanding of the problems of both the farmer and the village and city resident. It would therefore appear that his training has been such that it especially fits him for the performance of the duties of the office which he seeks.

He deplores the lack of cooperation in the northern counties of Michigan and urges unity of action for the welfare of this area of the state which has been sadly neglected.

If elected he promises energetic representation of northern Michigan in the State Senate and pledges his every effort to the development and progress of the district.

COUNTY SCHOOL FUND ALLOTTED

STATE SENDS OVER FIVE THOUSAND TO DISTRICTS

Coonty Treasurer Lillis Flanders Mails Checks to Schools Not Given Emergency Fonds

Distribution of funds due Charlevoix county schools under the school aid act has been completed by County Treasurer Lillis M. Flanders.

The distribution is handled by the state department of public instruction, and the funds go to districts which did not receive their money as an emergency appropriation last spring.

A total of $5,081.00 was mailed to Charlevoix county schools as follows:

Bay	$ 245.00
Chandler	82.00
Charlevoix City	2,797.00
Eveline	168.00
Hayes	285.00
Marion	305.00
Melrose	282.00
Norwood	315.00
Peaine	56.00
St. James	179.00
South Arm	94.00
Wilson	276.00

Many of the county school districts participated in a distribution of emergency funds last spring to carry them through the balance of the school year, thus they are not included in the distribution just completed.

"THE DRUNKARD" PRESENTED HERE

(Continued from page 1.)

The production Friday night will be done with all the trimmings. It is traditional in the presentation of the old melodramas to include other features of entertainment between the acts. The cast has spent great deal of time and effort in unearthing the old heart-rending ballads and recitations appropriate to the time and manner of the play and have given them some novel and interesting interpretations.

The curtain will go up at 8:00 o'clock.

ILLUSTRATED GAME LAW BOOK ISSUED

New Pamphlet Contains Valuable Information for Sportsmen

The 1934-35 digest of Michigan's general game laws will be new in every way.

For the first time it will carry illustrations. A full page is devoted to pictures of three upland game birds on which shooting is permitted in season, the ruffed grouse, sharp-tailed grouse and prairie chicken. Another page has illustrations of protected ducks, the bufflehead, ruddy duck and woodduck, to aid hunters in their identification.

A page is reserved especially for the deer hunter, showing a skeleton drawing of a buck and the vital heart area. This picture is to aid the hunter in getting his deer and reduce the chances of leaving wounded animals in the woods.

On the back cover is a half-tone cut of the famous "doe and fawn" picture under the caption: "Look Before You Shoot." The digests contain all the latest hunting regulations, including the federal regulations on migratory waterfowl. They are now in the hands of the printer and are expected to be ready for distribution within a fortnight.

The Club holds an important meeting at 2:30, Thursday, September 6th, at the church, to determine special financial business.

CONGREGATIONAL CHURCH
Charlevoix and Ironton

We wish to thank the Mary Brewster Circle for the beautiful display of gladioli last Sunday. Between six and seven hundred spikes were given away. Mrs. R. Lewis was the chairman of the committee on decoration.

A large group of people gathered in the evening to hear Miss William W. Talman and her group of helpers set forth the principles of the Oxford Group movement and give a report of the house party held at Oxford, England, in July. William Talman, Jr., acted as chairman of the occasion. The interesting feature was the presence of a large percentage of young people.

At Ironton we had the pleasure of having the Misses Thompson and Bentley direct the music at the morning service.

Next Sunday the pastor will occupy the pulpit.

MICHIGAN VOTERS TO POLLS TUESDAY

REPUBLICAN, DEMOCRATIC TICKETS IN THE FIELD

Candidates Seeking Nomination to National, State, Legislative and County Offices.

The Michigan primary election, with Republicans and Democrats seeking nomination for national, state, legislative and county offices, will be held Tuesday, September 11.

While several parties have qualified, only two have candidates in the field for the primary. Also, under recent changes in the election law, there will be many candidates whose names will not be on the primary ballot. In cases where a candidate is not opposed, the name will not be printed on the ballot.

Party lines must be adhered to, as the voter will be asked which party he cares to vote for and will be given that party's ballot.

Following are the candidates seeking nomination on the Republican and Democratic tickets, the names preceded by (*) being the present office holder:

Republican—State

Governor—Alexander J. Groesbeck, Frank D. Fitzgerald, Ola A. Bailey, John W. Smith.

Representative, Charlevoix-Leelanau district—Edward E. Cross, William J. Scheam.

Unless changed by resolution of the city council prior to election day, the open hours of the Charlevoix polls in the Carnegie library building will be from 7 a. m. to 6 p. m.

SEPTEMBER WELFARE BUDGET FIVE MILLION

Anticipate 750,000 Persons on Welfare Rolls for Month

A budget of approximately $5,000,000 for relief in Michigan during September of 160,000 families has been announced by Dr. William Haber, director of the Emergency Welfare Relief Commission.

Of this amount $4,555,000 will be granted to counties from state and federal funds. In addition, it is estimated, about $450,000 in local funds will be spent for relief purposes.

TUESDAY PRODUCED RECORD BUSINESS AT COUNTY STATE BANK

Robert Bridge, cashier of the Charlevoix County State Bank, has announced that Tuesday, September 4th, produced the largest day's business in the history of the institution.

Commercial deposits for the day were $45,000, with checks handled amounting to over $34,000. Checks on other banks either paid and deposited amounted to $30,000.

As a result of Tuesday's rerord-breaking business, the bank's commercial deposits nt the close of the day were $234,000, an inrease of $144,000 over the $90,000 total on February 24, 1934, the date when the reorganized bank opened.

MRS. GRANT HAMMOND DIED LAST TUESDAY

Was Many Years Respected Resident in Ironton District

Mrs. Grant E. Hammond passed away at her home on North Main street in East Jordan, Tuesday, August 28, following a six months' illness with Bright's disease.

Cora Blanche Smith was born in South Arm township, Charlevoix county, Dec. 11, 1880, her parents being William and Jennie Smith. On Dec. 11, 1900, she was united in marriage to Grant E. Hammond at Charlevoix. They resided at Ironton from 1900 to 1923 and at Lansing from 1923 to 1931, returning to East Jordan in the latter year.

Besides the husband, she is survived by two daughters and a son, Mrs. Jos. Clark of East Jordan, Miss Margarette Hammond of Grand Rapids and Edward L. Hammond of Caro. Also two brothers, Guy and Swayne Smith of Charlevoix.

Mrs. Hammond was a member of the Presbyterian church, and in fraternal circles, a member of the Rebekahs and the W. B. A.

Funeral servires were held Thursday afternoon, Aug. 30, conducted by Rev. C. W. Sidebotham, pastor of the Presbyterian Church. Burial was at Sunset Hill.

COUNTY FAIR TO OPEN ON TUESDAY

49th ANNUAL EXHIBITION AT EAST JORDAN

Many Entertainment Attractions Have Been Arranged—Displays Promise to Equal Average

The 49th annual Charlevoix County Fair gets under way at East Jordan next Tuesday, Sept. 11th and, until the gates close Friday night, Sept. 14th, the Fair Board promises one of the finest fairs ever staged at the East Jordan grounds.

People who saw the thrilling contests in the horse races last year are assured of just as keen competition this year. There will be a balloon ascension with double and triple parachute drops each afternoon.

The board is also rounding up some of the best baseball teams in this part of the state to give the baseball lovers some fine exhibitions of the national pastime. There will be three baseball games.

The night fair will be enlivened with a number of first class boxing matches.

The various granges of the county are putting on some free arts in front of the grandstand. Other big free attractions are also listed. Livestock parades will pass in front of the grand-stand on two days.

Thursday is "School Day" and Congressman Prentiss M. Brown will speak on that day.

Other candidates are being invited to appear during the Fair and the management has announced that candidates will be welcome to use the loud speaker system which will be installed during the fair.

There will be a program of sports for boys and girls, a nail-driving contest for women, tug-of-war contests, three-legged races, etc.

The midway will be larger than usual, featuring various side-shows, whip, merry-go-round, ferris wheel, etc. There will be plenty of hand music each day and evening.

Indications are that the exhibits will be up to standard, which will combine to make the 1934 Charlevoix County Fair one of the most successful ever staged at East Jordan.

NRA ADJUSTERS WORK OUT OF TRAVERSE CITY

The Traverse City Chamber of Commerce offices have been designated as headquarters for NRA field adjustors who will make regular visits to Traverse City to assist in code compliance in this vicinity, according to word received from Abner E. Larned of Detroit, state NRA compliance director.

VETERANS' PICNIC POSTPONED TO SEPTEMBER 8-9

Due to Sunday's rain, the picnic to have been held at Hiawatha Beach under auspices of the Emmet county Veterans of Foreign Wars has been postponed. The event will take place Saturday afternoon and night and Sunday afternoon and night, September 8 and 9.

CHURCH GROUP IS SPONSORING PLAY

"THE WORLD'S ALL RIGHT" HERE SEPT 17-18

Home Talent Cast of Over One Hundred to Play Under Auspices of Mary Brewster Circle

The Mary Brewster Circle of the Congregational church is sponsoring "The World's All Right," a musical comedy to be presented September 17 and 18 at the high school gymnasium.

"The World's All Right" is a story of life in a radio station, with many musical numbers of all types occurring frequently. The cast of over 100 is entirely loral talent.

Norman Ance and Miss Angie Scott will appear in the leading speaking roles, Mr. Ance as the owner of radio station WAR, where the action of the play takes place, and Miss Scott as his secretary and fiance.

Fay Bradley has the principal comedy role, with Miss Grace Bebling as "Gertie Green, the vamp of New Orleans," doing a song and dance number with him in the second act. Walter Bergeon is playing the part of Mr. Dinkell, the wealthy business man, and Louis Greenman has the role of the bill collector.

The singing roles are being taken by Mrs. Marjorie Livingston, as the "Melody Miss," Mrs. Mildred Webster as the "Tell-Me-A-Story Lady," and David Livingston as Skipper Ericson. A quartet will appear with two clever numbers.

A chorus of "hill-billies," made up of the local business men, is sure to be an outstanding number on the program with local men singing many favorite songs and going in for a little terpsichorean art in the way of square dancing.

The inimitable song, "Frankie and Johnnie," will be acted in pantomime in the melodramatic style reminiscent of the Gay Nineties. The two choruses of dancing girls will include 16 of Charlevoix's most attractive and talented young ladies. Also four others will take part in the Minuet Toe-Dancing chorus. A select choir composed of members of the Congregational and Methodist choirs will sing three hymns.

"The World's All Right" is one of the finest community shows to be brought to Charlevoix. It is the culmination of the best in play writing, costuming, stage directing and business promotion; made possible by the tremendous re-sources of the Universal Producing Company.

GRAND RAPIDS MAN DIED WHILE FISHING

Fell From Boat Near Chula Vista; Coast Guards Recover Body

George Hopper, of Grand Rapids, summer resident at Chula Vista, Lake Charlevoix beach resort near Boyne City, died last Wednesday while fishing from a boat near his cottage.

Mrs. Hopper noticed an empty boat near where her husband had been fishing and called help. Friends unsuccessfully sought the body which was later recovered by men from the coast guard station at Charlevoix.

According to the coast guard, Mr Hopper probably suffered a heart attack and fell from the boat into the lake. There was no evidence of drowning, the coast guard declared.

SCHOOL TERM TO OPEN SEPT. 17TH

STAFF ANNOUNCED FOR THE 1934-35 TERMS

Several Changes in Grade Faculty Roster—Free Text Books to Be Provided Pupils

A week from next Monday, September 17th, will be the end of vacation days for the several hundred pupils of Charlevoix public schools.

The opening of schools on that date for the 1934-35 terms will find several changes in the staff of instructors—confined wholly, however, to the grades.

In an announcement this week, Supt. O. P. North gave the following staff for the year:

Senior and junior high school principal, Harry Bingham. Senior and junior high instructors: Mathematics and coaching, Ray Kipke; history and mathematics, Bea Ferncan; English and dramatics, Ruth Dowd; commercial, Agnes Anderson; Latin and French, Ray Elizabeth Sawyer; geography and English, Floranz Milner; band and mathematics, Robert B. Magor; manual training, Walter Weisenberger. Grade instructors: sixth grade, Freda McMillan; fifth grade, Clara Dittmer; fourth grade, Sophia Manson; third grade, Gertrude Dick; second grade, Ellen Cook; first grade, Vera Belding.

Miss Helen French, grade principal for several years, has resigned to teach in Battle Creek, subsequently leaving a vacancy in the kindergarten which as yet has not been filled. Miss Ida Ingalls will again be employed in the office.

Free text books will be furnished this year to all pupils. Books which are needed and in good condition will be purchased by the school board during the first few days of school for a price depending upon the condition of the books.

Progress is being made on the changing over of the high school heating system and the building of a tunnel between the grade and high school buildings. While this work will not be completed before school opens, the operations will not interfere to any extent with classes.

RETURN REV. HURD METHODIST CHURCH

Parishioners Invite Pastor to Serve Fourth Consecutive Year

At the recent annual business meeting of the First Methodist church, Rev. and Mrs. W. W. Hurd received a unnanimous vote to return for the fourth year.

At the meeting reports from the finance depactment, the Sunday school, Epworth League, the two aid societies and the Missionary society were presented. The Sunday school has been newly organized to include a modern young people's department. The Epworth League reported 32 regular members and a mission study class with 12 members.

The Missionary society had forwarded to headquarters $92, and the Aid society and Literary and Sewing club receipts amounted to $526. The district superintendent highly commended the pastor and the church for being the best church in the district for accuracy and loyalty in prorating all payments to the four items of ministerial support—bishops, retired ministers, district superintendents and the pastor.

ONLY TWO PARTIES HOLDING PRIMARY

Names of Unopposed Candidates Do Not Appear on Ballots

Despite the fact that there are nine duly qualified political parties in Michigan, only two of them will be represented at the primary election Sept. 11.

The state law provides for primary elections only for parties which poll more than two per cent of the total vote cast for secretary of state at the last general election. Under this provision, the primary balloting will be confined to the Republican and Democratic parties.

Other parties wishing to be represented on the ballot at the general election Nov. 6, must select their candidates by caucus or convention and must certify the names of their candidates with the secretary of state at least 25 days prior to election.

At least four parties will be on the November ballot as the department has been notified by officials of the Socialist and Farmer-Labor parties that they will have candidates for state and congressional offices. One or two other parties may secure places on the ballot with partially filled tickets, it is believed.

LAKE FISHERMEN MET AT ST. JAMES

DISCUSS PROBLEMS CONTRONTING INDUSTRY

Seek Regulation Deep Sea Trap Nets; Ask Government to Manage Spawn Taking

Commercial fishermen from Charlevoix, Beaver Island and other northern Michigan lake ports discussed problems confronting their industry at a meeting held Sunday at St. James.

Particularly an attack was centered upon the inroads being made by the use of deep sea trap nets which were placed under regulation by the last legislature. The consensus of opinion among those in attendance was that in view of the wholesale destruction of small fish through the use of the trap nets, the state conservation department would be fully justified in prohibiting the use of such equipment entirely, following the same procedure resorted to when emergency rules are adopted for the protection of game fish and animals.

Another outcome of the meeting was an agreement to petition the federal government to control spawn gathering next season, or in other words, place it back on the old basis of federal management which proved successful for many years before the function was taken over by the state conservation department. Last fall spawn fishing was suspended and a closed season plan inaugurated. The action resulted in the suspension of operation of the local federal fish hatchery and the resultant loss of employment. The same ruling is still in effect for the coming fall. Return of spawn taking to the federal government would bring about reopening of the Charlevoix hatchery and more successful propagation of lake trout and whitefish, it was pointed out Sunday.

Speakers at the meeting included Otto W. Bishop of Alpena, seeking the Republican nomination for state senator; William J. Pearson of Boyne Falls; State Representative D. D. Tibbitts of Boyne City, and Prosecuting Attorney Arthur L. Fitch of this city.

STATE BANK DIRECTORS TO BE ELECTED TODAY

Special Meeting of Stockholders Has Been Called for Purpose.

Through authorization by the state banking department, Archie L. Livingston, conservator of the Charlevoix State Savings Bank, now reorganizing, has called a special meeting of stockholders for Thursday afternoon at 3 o'clock.

The purpose of the meeting is to elect directors of the new bank, one of the required steps in the reorganization which is rapidly reaching completion.

CHURCH LEADERS GO TO PETOSKEY

ANNUAL METHODIST CONFERENCE NEXT WEEK

Noted Leaders and Speakers in Religious and Social Work Will Be in Attendance

Northern Michigan will be honored next week with the presence in Petoskey of a group of noted leaders and speakers in religious and social work. Occasion for the gathering is the Michigan 99th annual conference of the Methodist Episcopal church, which convenes Wednesday, September 12, for a five-day session.

Early history of the church will be reviewed during this, the sesqui-centennial year. Records show that in the fall of 1874, the Rev. George C. Cole, in charge of the Charlevoix circuit, organized the Petoskey church as a branch of the work here. The conference, which handles Methodist work in the western half of the lower peninsula, comes to Petoskey for the first time. It met in Bay View 17 years ago and has not since come this far north. Bishop Frederick D. Leete of the Omaha area of the Methodist church, with headquarters in Omaha, will preside. Bishop Leete is the son of one of Michigan's pioneer Methodist preachers.

The program of the evening of the first day will be a banquet at which the speaker will be Chase S. Osborn, former governor of Michigan. At 8 p. m., there will be a public meeting with an address by Dr. George H. McClung of Grand Rapids on religious and social trends in Europe. Dr. McClung has just returned from a study of the situation on the other side of the Atlantic.

Dr. George A. Buttrick of the Madison ave. Presbyterian church, New York City, summer resident at the Sequanota Club, will deliver the conference lecture Thursday night. He also will speak Thursday and Friday afternoons.

The Men's Brotherhood banquet will be held Friday night with John C. Ketcham as speaker. The same evening at a public meeting, Dr. Clyde B. Stuntz of India will speak. Other speakers will include President Horace G. Smith of Garrett, Chicago, a theological school; Dr. F. C. Eiselen of the Methodist board of education; and Dr. C. A. Richardson of the board of home missions.

On Saturday night, Signor Mario Cappelli, American-Italian tenor, will give a concert.

In the evening of conference Sunday, Deets Pickett of Washington, D. C., will be speaker at a Christian citizenship service.

HARDWARE DEALERS WILL CONVENE HERE

Sectional Meeting September 11 at Hotel Hallett

A sectional meeting of hardware dealers under the direction of the direction of the Michigan Retail Hardware association, the largest trade organization in the state, is scheduled for Charlevoix at 7 p. m. in Hallett Hotel, Tuesday, September 11. C. F. Wood, Charlevoix, is chairman and Jos. Louisignau of Cheboygan is vice-chairman.

One of the principal speakers will be Louis H. Buisch, widely known as an authority on retail merchandising and salesmanship. Mr. Buisch enjoys an enviable success as a speaker. During recent months he has addressed almost every type of meeting—national and trade state association convention, meetings of retailers, sales people, Chambers of Commerce, service and advertising clubs. His address on "How I Can Sell More," will include practical suggestions on how merchants can increase their sales.

Association officers will be present at the meeting and will lead in the discussion on trade problems of particular interest to retailers.

The meeting will close with an informal question box session on merchandising and management problems in which all present are expected to take part.

MODEL HOME LAUNDRY FORCE ENJOYED PICNIC

An enjoyable event of Labor Day was the annual picnic of employes of the Model Home Laundry. Rainy weather, which necessitated holding the party indoors, did not detract from the enjoyment of those attending and participating in the excellent chicken dinner served.

CORRESPONDENCE

Mr. and Mrs. Jack McCall and three children of Traverse City accompanied by their friends, Mr. and Mrs. Walter Real of Chicago, spent Sunday with Mr. and Mrs. Frank Richardson.

Mr. and Mrs. Merril Richardson and son Doyle motored to Petoskey Saturday where they visited Mr. and Mrs. Hunn until Sunday evening. Doyle will attend Petoskey high school this term.

Norwood school opened Tuesday with Miss Russell of East Jordan as teacher. Although it is Miss Russell's first term of teaching she comes to Norwood highly recommended. We wish her success at her new work.

Mr. and Mrs. Glenn See are entertaining a party of relatives at their cottage on Lake Michigan at Norwood. The guests include Mr. See's parents, Mr. and Mrs. Chas. See of Oregon, Mr. and Mrs. Seth Smith and son of Frankfort, Mrs. Smith being a sister of Mr. See, and Mr. Smith's sister and her son.

Mrs. E. W. Publow entertained 12 young folk at her home last Thursday evening, honoring her sister, Miss Marjorie Richardson, who expects to leave for Detroit Sunday. Bunco was the leading game for the evening, Miss Richardson winning first prize and James Lord the gentleman's prize. Refreshments consisting of ice cream and cake were served by the hostess.

At a recent meeting of the Norwood L. A. S. at the home of Mrs. Floyd Wagner, an account of the past year was read which was gratifying. All expenses of the church were paid with a balance in the treasury of $20. New officers elected: Mrs. Lester Harwood, president; Mrs. Robert Halvebeke, secretary; Mrs. George Light, assistant secretary; Mrs. Floyd Wagner, treasurer; Mrs. E. R. Jones, floral committee; Mrs. E. W. Publow, serving committee; Mrs. I. L. Dice, finance committee.

SOUTH BARNARD

The male quartet from the Atwood Reformed church will sing in connection with the play.

Joseph Bottema of Grand Rapids, spent the past week-end with his mother at the Bottema homestead.

The position of pianist, formerly held by Miss Margaret Boss in South Barnard, is now filled by Mrs. John L. Boss.

As the pastor will be attending classis meeting in Muskegon next week, there will be no class in Christian doctrine that week.

The Rev. James Burggraaff, minister of the Second Reformed church in Kalamazoo, called on the pastor of the South Barnard church Monday of this week.

Much intensive practice is being given the past few weeks to the missionary play, "The Pill Bottle," to be presented at the church Friday evening this week. Miss Madeline Telgenhof is coaching the cast.

Mr. and Mrs. Ed Boss, Mr. and Mrs. John E. Boss reported a very pleasant trip up on their return from Indiana. They tell us that the crops look much better in Charlevoix county than in southern Michigan or Indiana.

Word received from Miss Margaret Boss of Paterson, N. J., says that she arrived there safely and that she enjoyed the trip over the mountains in Pennsylvania. We believe that she will enjoy her new home so much that homesickness will not affect her.

The reorganization of the Sunday school into graded departments finds the following new faces in the faculty: Mrs. John L. Boss, teacher of the juniors; Mrs. Richard Potter, teacher of the primary department, and Mrs. Henry Potter for the beginners.

The school bells are ringing again and the children wend their way with books under their arms. Doyle Warner, who recently fractured his leg, will be among the absent for several weeks. With his leg in a cast, he is confined to bed and so appreciates visitors.

The splendid rains of the past few days have helped immeasely. We are grateful to the source of these blessings for His kindly providence. It has been very evident this year in the West and South that Providence can bring about a more effective curtailment of crops than government.

IRONTON

Mrs. Ross Alexander entertained a few guests at a luncheon Tuesday afternoon.

Otto W. Bishop

Candidate for the Office of

STATE SENATOR

29th Senatorial District

Otto W. Bishop, candidate for the office of State Senator from this district, was born in Alpena and has always resided in northern Michigan.

After spending the early years of his life on farms in Alpena county and in the mercantile business, and after an active connection with the banking business for twenty years, he engaged in business for himself. His several business ventures have been very successful.

For nine years he served as a member of the Municipal Council, four years as its President. He urged the revision of the antiquated City Charter of Alpena and was elected a member of the Charter Commission which formulated a new Charter under which the City now operates.

Mr. Bishop's varied experiences have given him an understanding of the problems of both the farmer, and the village and city resident. It would therefore appear that his training has been such that it especially fits him for the performance of the duties of the office which he seeks.

He deplores the lack of cooperation in the northern counties of Michigan and urges unity of action for the welfare of this area of the state which has been sadly neglected.

If elected he promises energetic representation of northern Michigan in the State Senate and pledges his every effort to the development and progress of the district.

THE OLD MUSIC TEACHER

By FANNIE HURST

(©, by McClure Newspaper Syndicate.) (WNU Service.)

THE music teacher was seventy-three. She was a little old lady. She had not always been so little. As a girl, she had been at least an inch or two taller. Those added inches, coupled with an enormous amount of vitality, had made her appear larger than she really was. But the long years of position at the piano and the amount of work she had done sitting hunched over musical scores, had taken their toll in actual inches. At seventy-three, she was frankly full of years; bent, loose-skinned and, worst of all, racked and all but ruined by rheumatism.

Her once supple fingers were as knotted as hickory sticks. They lay upon the keys, when she permitted herself to open the lid of her beloved piano, like so many bunches of barbs. Horrible, gnarled, stiff old fingers, knotted and rigid with age. In the beginning, when the rheumatism began its first merciless onslaught, the madam used to have a horror of her hands. She could not bear to look at them. She kept them behind her when visitors called.

But there came the day when she found herself obliged to be reconciled; to shift her point of view, to take up the new threads of a new life.

For ten years the little madam had now reconciled herself to the fact that she must live off the bounty of her former pupils. And they were many. In her day, the music teacher had enjoyed brilliant and outstanding success in her field. Names that were to become world-famous had walked out of her studio, equipped for the concert stage. From all over the country children had journeyed to her, accompanied by parents or guardians, filled with the hope that the little madam would see in them talent sufficient to warrant her taking them as pupils.

The great Moritzy had been prepared for his triumphant career in madam's studio. Lilienthal, Mann, Forenzi, Lans and Spanner were all of the brilliant company of madam's pupils. She had worked with them with a patience, with an understanding and with a wisdom that was unfaltering. Her hour lessons could easily stretch into two or three or five. And in the case of Spanner, probably the most infallible genius of them all, she had taken him free of fee into her home, under the surveillance of her constant guidance, her unfailing patience.

No wonder that, at seventy-three, madam looked her age. She had fought so many separate battles. She had achieved so many individual successes. She had conquered obstacles for so many bitter hours. She ar-rived at herself, at her virility and at her time; at her wisdom and at her curious musical instinct.

It was as if she had begun a well of inspiration and vitality—a well of inspiration from which those with the gerdes of music could drink. Could drink, and then go forth and conquer their worlds.

Madam herself had never been a brilliant piano performer. But she was undoubtedly the most brilliant teacher of her time. She did not play Brahms with any outstanding facility, but she knew his heart to the core. Ehrenzi once said of her that she knew Beethoven better than Beethoven could have known himself.

She had a wonderful faculty for passing on this knowledge of the masters she loved—to the pupils she loved. She could train fingers and brains and hearts to interpret the beauties which the great musicians of the past had captured for the future by means of little marks on paper. Madam could interpret the soul of music and could give her pupils, in magnified degree, this gift of interpreting its soul.

Though her own fingers, even in her prime, had never had the facility, the power, to transfer to the keyboard of a piano the depths of the music she studied and loved, her brain had the faculty of giving others the gift she lacked.

No wonder her former pupils never forgot her. She made them. She created them. She lived in them, long after her active life was ended.

On her seventy-third birthday, as was their wont, as many of her former pupils as were within possible distance, gathered around her. The birthday of madam was an outstanding occasion. Not only her pupils, but the important names of the musical world, came flocking to her little home, bearing gifts of affection for the little lady whose day had passed.

Of course there was something pathetic and heart-hurting about these birthdays. Each one found her a little smaller and a little more gnarled and a great deal more crippled. She never referred to this first condition, but those who knew her knew with what yearning eyes she gazed upon the young prodeges and musical talents who were brought to her home from time to time just to be able to say that they had looked upon and met the great little madam.

It was difficult to realize, upon these birthday occasions when the world remembered, the lonely, despairing three-hundred-sixty-four days that preceded them. Here was a woman whose life had been crammed to the hilt. Not with lovers. Not, strangely enough, with the adulation of men. But with the devotion and crying need of hundreds of human beings who looked to her for the fulfillment of their destinies.

Her own life had been crammed with the task of creating other lives, of moulding them into success, of bringing out in them talents and genius in order that they might shower the beauties of talent and genius upon the world.

It was not easy after years filled with this kind of accomplishment to sit back, old and gnarled and helpless, in an easy chair, waiting. Because that was what it practically amounted to, those three-hundred-sixty-four days of the year when madam's world was too busy to pause at her door. Checks came from her erstwhile pupils, gifts and sometimes letters, but for three-hundred-sixty-four days in the year she was practically alone, waiting for the one day when they remembered to come.

And this one day was all too brief. It began in a shower of flowers. It ended in the arms, blessings and the many happy returns of friends and benefactors of her wisdom who loved her. But almost before the door closed on the last of them, the waiting began again.

And yet, in a way, the little madam, who hated to be alone, would begin to console herself the very first night

of the year, tucked sixty-four that she could keep track of her.

How wonderful it was to be able to sit there, lonely? Yes. Racked with rheumatism? Yes. But secure and radiant in the knowledge that, even as she sat there, hundreds of her pupils were spreading abroad over the world some of the beauty which she had inculcated in them.

Found Fortune's Start in Subway "Gold Mine"

"One day ten years ago," said a western millionaire to a Chicago Herald Examiner writer, "I stood without a nickel and without the door of a restaurant in San Francisco. I was indulging in an optical feast, gazing at the display of uncooked roasts, chops and steaks, garnished with watercress, and altogether lovely, in the window. 'The song, or rather its refrain, 'Thou art so near and yet so far,' was whispered to me by the gaunt brownie of hunger.

"Then a prosperous looking man who was dipping a half dollar in his hand dropped the coin which tinkled through an iron grate and fell into a subway below. The man gave an almost unconcerned glance in the direction the coin had gone and then went away humming a popular air.

"I always possessed some resource and I was determined to possess that coin. The occasion is what is frequently spoken of as a ground hog case. I was 'out of meat,' also bread. I spoke to the proprietor of the place, told him I had dropped a 85 gold piece through the grate and asked if I might go and retrieve it. 'Certainly,' he said, and gave me a hatchet with which I might remove a wooden bar that had been nailed across a door leading from the basement to the opening under the grate.

"There was much litter and dust down there, and in searching for the lost coin I found many others which had been dropped in a similar way. Thus I cleaned up $8 from that prospect drift. The amount supplied me with a place to put the able-bodied appetite which I had concealed about my person. It also gave me an entree to a clean shirt and a proportionate supply of self-esteem and self-reliance.

"I visited men of influence whom I had not been sufficiently courageous to meet in the immediate heretofore, and I have not been seriously insolvent since that day. Thus you may see on what a slender thread oft hangs a chance in life."

Like the Beggar

Melvin Traylor, the Chicago banker, said in New York the day he sailed on the Berengaria:

"One cause of American business success is our American honesty. We weren't so very honest in the past. Our past methods, in fact, compared with our present ones, make us look like the beggar.

"This beggar had been blind for many years, but one day he hustled up to a steady patron, looked him straight in the eye and said:

"'Could ye gimme a dime for a cup o' coffee, boss?'

"'What's this I see,' said the patron, 'have you recovered your sight?'

"The beggar nodded.

"'Dog died, ye see,' he explained, 'and not havin' time to train another I had to turn deef and dumb.'"

Immense Floating Dock

At Southampton, England, is said to be the largest floating dock. It is capable of lifting ships with a displacement of 60,000 tons, covers an area of approximately 3½ acres and has 17,210 tons of steel in its hull. The height of the dock from the bottom of the pontoon to the top deck of the side wall is over 70 feet and the berth in which it is placed has been dredged to a depth of 65 feet. The dock consists of a hollow steel pontoon, or floor, surmounted on each side by hollow steel walls, the whole forming a structure like an enormous letter U.

Banks Repaying Loans From R. F. C.

Although banks and trust companies have been the largest borrowers from the Reconstruction Finance Corporation, they have exceeded all other classes of borrowers in the rapidity of their repayments. Since the inception of the R. F. C. in February, 1932, loans have been authorized by it to 7,080 banking institutions in the amount of $1,395,000,000. Of this sum $112,000,000 was not taken by the borrowers, the actual advances being $1,553,000,000.

Repayments against these advances through April 30, 1934, aggregated $925,000,000, or about 60 per cent. The ratio of repayments for all classes of borrowers has been only about 37 per cent. These rapid repayments by the banks are taken by competent observers as a strong indication of returning normal financial and banking conditions.

Bankers Finance Scholarships

The American Bankers Association Foundation for Education in Economics has since its establishment in 1928 awarded 731 college loan scholarships the total loans repaid in that period being $212,000 and the amount now outstanding $35,000. The total investments of the funds are $540,000.

FALL IS HERE

The calendar may say no, but the weather says yes. Fall is officially here. That means housecleaning and a host of necessary new things.

So we suggest you take stock today. Does the house need painting, shingles, storm windows? What about the furnace? It's not too late to put it in first-class order even if you have already started the fire. Look well at the dining-room rug, the living-room furniture, the paper on the walls. Are they full worthy of you—esperially when visitors call? And the car! Soon it will need anti-freeze and a general tuning up after a Summer of hard use. The lawn may need seeding (Fall is the ideal time) and the flower beds with their winter covering. And you yourself need clothes.

All these things are so easy to choose. Just read the advertisements in this paper. They are safe guides to goods and services. Study them carefully, and you will be well repaid in quality and price.

ROAD COMMISSIONERS MEET AT RAMONA PARK

Tenth Annual Session There Friday and Saturday

The Tenth Annual meeting of the Northern Michigan Road Commissioners association will be held at the Ramona Park hotel Friday and Saturday, Sept. 7 and 8, with prominent state officials on the list of speakers. program are G. Donald Kennedy, business manager of the state highway department, Charles E. Hayes, district engineer of the highway department, Dr. William Haber, state welfare administrator, Murray D. Van Wagoner, state highway commissioner, Oscar G. Olander, commissioner of public safety, and Ray Foley, director of public relations for the highway department.

The outstanding public event of the convention will be the dedication of the new concrete pavement on M-131 entering Petoskey. Mr. Hayes who is stationed at Cadillac, announces that the ceremonies will take place on the high hill several miles outside Petoskey where a beautiful view of Little Traverse Bay and the surrounding country is provided. The dedication will be held at 5 p. m.

The banquet of the association will be held Friday evening with Wilson J. McDonald, of Petoskey, as master of ceremonies. A series of feature numbers will be presented by entertainers during the speaking program.

The convention will adjourn following a business session Saturday morning at the Ramona Park hotel.

CANDIDATES WHO LACK OPPOSITION WILL NOT APPEAR ON BALLOT

Under recent changes in the election law, there will be many candidates for nomination at the primary election on Sept. 11 whose names will not be on the primary ballots. In cases where a candidate is unopposed for the nomination for the office he is seeking, the name will not be printed on the ballot. Several county clerks report that this change in the law will result in considerable savings.

Another change in the election law that is of importance to voters is the provision regarding length of residence in the voting precinct. Under the old law, voters were required to live at least 20 days in the ward and precinct in which they voted. The present law requires 20 days residence in the city, village or township and allows for transfer of registration on election day.

FUNERAL FOR MRS. A. N. CHASE WEDNESDAY

Beloved Local Woman Died Monday After Month's Illness

Funeral services were conducted at 2 o'clock Wednesday afternoon from the Methodist church for Mrs. A. N. Chase, well known local woman, who died at 8 o'clock Monday evening following an illness of a month.

Rev. W. W. Hurd officiated and interment was at Brookside cemetery.

Isabelle Jane Baker was born in Dunerief, Ont., October 30, 1862. At the age of 9 years she went to Grand Rapids with her parents, residing there for seven years before coming to Charlevoix, where she had since made her home.

She was united in marriage to Alsher Chase on April 27, 1879. Mr. Chase preceded her in death. Surviving are two daughters, Mrs. Merle Trimble, this city, and Mrs. Albert Howard of Ludington. Another daughter, Mrs. Henry Block, is deceased.

For the past 12 years Mrs. Chase had been cook at Charlevoix hospital. She had a host of friends who will mourn her death.

THOMAS L. BRADY TAKEN BY DEATH

Died Early Wednesday Morning Following Brief Illness.

Thomas L. Brady, well known local resident, died at 7 o'clock Wednesday morning at his home on Norwood road from ptomaine poisoning. He was taken ill Monday evening and his sudden passing was a distinct shock to the many acquaintances of the family.

Deceased was born May 14, 1869, in Fremont Center, Mich. He was a veteran of the Spanish-American war and, prior to coming to this city 16 years ago, spent the greater part of his life traveling.

He was married October 21, 1918. Surviving are the widow, a stepbrother, Claude M. Brott of Port Huron, two step-sisters, Mrs. Cora Smith of Evanston, Ill., and Mrs. Louise O'Connell of Denver, Colo.

Funeral arrangements have not been completed at this time.

JOHN RODGER VICTIM HEART ATTACK

Charlevoix Township Resident Died Suddenly Last Wednesday

John Rodger, respected Charlevoix township resident, died at his farm home last Wednesday from a heart attack which occurred while he was alone and resting in his chair after finishing his day's work.

Deceased, son of James S. and Mary Ann Rodger, was born in Oakland county, August 5, 1853. After residing in Presque Isle county several years he spent until 1906 in Oakland county, coming from that point to Charlevoix.

Mr. Rodger is survived by two brothers, Walter of Charlevoix, and Alexander of Ann Arbor, a sister, Caroline of Chelsea. Another sister, Agnes, died August 14th.

Funeral services were conducted Saturday afternoon from the Congregational church, Rev. G. R. Parker, the local pastor, and Rev. C. W. Sidebotham of East Jordan, officiating. Interment at Brookside cemetery.

Mr. Rodger's christian character and friendliness won him many friends and he will be greatly missed by all who knew him.

MATCHETT-HURD WEDDING PRETTY EVENT

Popular Couple Wed Last Wednesday at Bride's Home

A very pretty wedding was solemnized at 8 o'clock last Wednesday evening at the home of Mr. and Mrs. Robert Matchett, when their daughter, Margaret, was united in marriage to Vernard Hurd of Horton Bay.

Rev. Jewell of the Evangelical church, performed the ceremony, using the ring service. The bride was dressed prettily in pink georgette. The bridal couple were attended by the bride's sister, Ruth, and Lee Shapton. The groom's sister, Freda, played the wedding march. Only the immediate families were present.

Mrs. Hurd is a graduate of Charlevoix high school, county normal and Central State Teachers' college. For the past three years she has been teaching in North Carolina. Mr. Hurd, who attended Boyne City high school, attended the M. S. C. the past two years.

The young couple are now at home to their friends at Undine.

STICKER PERMITS VOIDED AUGUST 31

Enforcing Motor Vehicle Law Now Up to Local Officers

Enforcement of motor vehicle laws relative to license plates after August 31st is in the hands of local law enforcement officers.

Time for use of 1933 plates with windshield permits was extended from August 1 to August 31 by Secretary of State Frank D. Fitzgerald after this action had been given written approval of majorities of both state senate and house of representatives.

In response to a query, the Michigan Department of Public Safety was informed that enforcement of laws was up to local officers after the expiration of the additional 30-day period.

SAVE SEED STOCKS, SUPPLY IS LIMITED

Do Not Empty the Bins for Feed Until Sure of Next Year's Crop

One of the by-products of the 1934 crop season will be a scarcity of adapted seeds if care is not exercised in saving for seed all varieties saitable for that purpose, according to the farm crops department at Michigan State College.

The lack of livestock feeds will complicate the sitaation because grains will be fed which might otherwise be carried through the winter and for available next spring. Michigan will have to depend almost entirely apon her own resources for next year's seed stocks.

Seeds are scarcer in many other sections; and, areas where sarplases are held, do not all produce seeds which are adapted to Michigan conditions. The federal government, in some sections, is baying seed stocks and holding them for distribution next spring. That soarce should not be depended upon by Michigan men.

SUNDAY DINNER SUGGESTIONS

By Ann Page

After holidays and feasting, simple foods taste best. A wide variety of vegetables are available at low prices —chief among them being carrots, beets, cabbage, turnips, onions, potatoes, corn, squash, eggplant, green wax and shell beans, tomatoes and cucumbers. Pot roasts and stews with plenty of vegetables are satisfying and inexpensive.

Fruits or fruit, cheese and crackers make the best desserts. Half a dozen different varieties of grapes are in market at moderate prices. Bartlett pears and plams or fresh pranes, together with grapes and bananas, make an attractive, inexpensive fruit bowl for dessert service. Cantaloupes and honeydews offer good valaes as well.

From a list of foods available at moderate prices, the following menus have been made up:

Low Cost Dinner

Pot Roast of Beef with Potatoes
Onions, Carrots
Cole Slaw
Bread and Butter
Fruit Cup
Tea or Coffee Milk

Medium Cost Dinner

Roast Veal Mashed Potatoes
Baked Stuffed Tomatoes
Bread and Butter
Blue Plum Pie
Coffee Milk

Very Special Dinner

Celery Olives Radishes
Roast Leg Lamb, Browned Potatoes
Peas with Mint
Combination Salad
Rolls and Butter
Baked Fruits Whipped Cream
Coffee Milk

CHRISTIAN SCIENCE CHURCH

Sanday morning service, 10:45.

Every Wednesday evening at 7:45.

Reading room Tuesdays and Saturdays, 3 to 5 p. m.

"Man" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, September 9.

Among the Bible citations is this passage, (Luke—17:20,21): "And when he was demanded of the Pharisees, when the kingdom of God should come, he answered them and said, The kingdom of God cometh not with observation: Neither shall they say, Lo here! or, lo there! for, behold, the kingdom of God is within you."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 259): "In divine Science, man is the true image of God. The divine nature was best expressed in Christ Jesus, who threw apon mortals the truer reflection of God and lifted their lives higher than their poor thought-models would allow—thoaghts which presented man as fallen, sick, sinning, and dying.

HOW COULD MARY FIND A WAY OUT

By FANNIE HURST

(c) 1934 Mc[illegible] Syndicate, Inc.

THE call that brought flying the announcement of Mary Estes to Dr. Lincoln Parke were the most overwhelming ones of a certain type of personality, singularity of social standing and wealth ever placed upon by human lips of such petites questions.

In the Harbor Hills West city where Mary Estes had been born and reared Ben Aiken Parke was regarded as one of the most promising young bachelors of the community. While Mary Estes was still attending high school and taking the commercial course with the ultimately to prove helpful for her work as secretary to the Parke family, Ben was the idol of the Estes household. The Parkes were a highly respectable and conservative family in reduced circumstances, probably a shade or two higher in the social strata than the Parke family, although Benjamin's father was a doctor of solid standing and good practice.

The two young people of these respective and respectable families, in spite of the disparity of ten years in their ages, were thrown socially together by way of church, entertainments and bridge party. Their ultimate engagement was as normal as sunrise. A little flurry of anticipatory gossip had, of course, preceded it; its announcement was a matter of local prestige; its consummation looked forward to by a group of friends and relatives who moved interestedly around the nucleus of the happy pair.

It was fun to be engaged. It was great fun to be the center of interest, the center of pleasant attention, and consideration of the group of people that made up Mary's world.

The slightly envious attention of her friends who were not yet engaged, the sisterly acceptance of her as one of themselves by the girls who were engaged. The tolerant interest in her by those of her friends who were newly married. And the affectionate, hushed attention from the older women—matrons, spinsters and widows alike.

All of Mary's world paid her the charming tribute that is the lot of happy young love. And she found this tribute most flattering, most attractive.

Two months after the announcement of the engagement, Mary Estes resigned her pleasant and lucrative position as secretary to the richest man in town and began preparations for a June wedding. Benjamin Parke, by then sole proprietor of a small but genteelly furniture store on High street, was known to be in the market for an attractive building lot on Kay street, one of the town's pretty bungalow districts. The friends of Mary began to plan linen showers and small festivities that had to do with the approaching marriage. Benjamin Parke took out a fifty life insurance policy and announced that he was building an ell to his furniture store.

It was an alliance that promised well. Mary and Benjamin would be a good, substantial addition to the citizenry of the community, were the kind to foster stability, decency and clean living.

There was nothing in particular in the engagement of this young pair to differentiate it from alliances that were constantly being made, and yet it is possible that Mary and Ben were regarded when in the eyes of the community might be regarded as the ideal marriage.

The ideal marriage that would lead to years of happiness, of struggle, of accomplishments. Mistakes, of course. But on the whole the usual happy and successful life in which hardships and pleasures are mingled.

That was what made the condition so harrowing, so terrible, so secretly frightening to Mary Estes when certain nonsaving facts began to take on a reality she had been struggling against ever since the first few weeks following her engagement.

Everything was right, everything was as it should be. A better, steadier, more considerate boy than Benjamin Parke could not be imagined. Her parents were happy, his parents were happy, and, with a bungalow on Kay street, an old dream of her was about to come true. As Mary confided to her best chum, Alice McMahon, a pretty doll with china-blue eyes, it was a story-book engagement in its total unobjectionableness from every angle.

All except one—and that one angle Mary did not begin to admit, even to herself, until weeks after the announcement of her engagement.

Mary was not in love with Benjamin Parke. Strange how after the matter ultimately became to her. Not until after a long period of self-hypnosis, did Mary come to realize that, from the very beginning, she had thrown herself consciously into a state of mind about Ben. She had talked herself into a condition of seeming to be in love with him. The wish father to the thought, she had deliberately tried to force herself into a state of mind.

The engagement to Ben had been the result. It had seemed to her, during those months while the facts of her self-hypnosis still lasted that she had accomplished right and righteousness. And then gradually, and a little horribly, it began to dawn upon her during those festive weeks of linen showers, bridge parties, evenings with Ben over blue prints of their new bungalow, that everything she was casting was dead sea fruit.

In the dead of night, Mary would wake up with a sense of oppression in her breast, with a dread of tomorrow, with terror of what she was doing.

Mary did not love Ben. She liked him, she respected him. She even admired him. The thought of him as her husband filled her with dread.

Sometimes it seemed to Mary that, to be free once more, to be free to come and go at her secretarial work, to be the girl once more unhampered and unhooked by the dread of marriage, was the one state of being that mattered over and above anything that had ever happened. She regarded those of her girl friends who were still outside the pale of matrimony and still unhampered by ties of engagement with an envy that was as illogical as it was unlike her.

Mary had only one desire in life now—to be free. To be unengaged. To see her life stretch before her once more filled with the old ideal of some day meeting the ultimate life companion.

To be unengaged was out of the question. Ben took her so for granted. Her parents were in their seventh heaven of approval. His parents made no effort to conceal their pride. The community smiled. Mary was committed. Terror, rebellion, agony, panic rose within her, only to be hidden by the calm, demure exterior she showed to the world.

The day of her wedding approached and it seemed to Mary that with it there descended upon her a dread of living that must ultimately annihilate her. She knew that she must not go through with this dishonest thing of marrying Benjamin Parke.

And yet, what way out? What way out? The question beat about in Mary's tortured brain like a great, imprisoned moth. What way out?

She turned the question over and over in her hot, tired brain.

What could she do? How could she find a way out? What did other girls in the same predicament do? For surely other girls had made her mistake; though they could marry a man and then, suddenly, or gradually, realized that lack of love would make marriage intolerable.

But there was nothing to do. She couldn't do the only thing possible; tell Benjamin that she didn't love him. It would seem such a simple thing, yet it was fraught with all sorts of impossible complications. It would mean bringing hurt unhappiness to her parents and his parents. She herself would feel that she had failed—to her family, to his family—to Benjamin and to her own word. There seemed, to Mary, something dishonorable in breaking her engagement.

So what way out was there for her?

The way out came in the form of a brief note delivered to her one morning two weeks before her wedding day. It read:

"Dear Mary:

Since there is no way of telling you, without hurting you, the cruel thing which I am about to say, I shall say it in the shortest way possible. Alice McMahon and I were married at ten o'clock this morning.

(Signed) Ben."

LOST 20 LBS. OF FAT IN JUST 4 WEEKS

Mrs. [illegible] of [illegible], Mich., writes: "I'm only 28 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—it's the SAFE, harmless way to reduce as tens of thousands of men and women know.

For your health's sake ask for and get Kruschen at any drugstore—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle you are not joyfully satisfied with results—money back.

IF YOUR BREATH HAS A SMELL YOU CAN'T FEEL WELL

When we eat too much, our food decays in our bowels. Our friends smell this decay coming out of our mouth and call it bad breath. We feel the poison of this decay all over our body. It makes us gloomy, grouchy and no good for anything.

What makes the food decay in the bowels? Well, when we eat too much, our bile juice can't digest it. What is the bile juice? It is the most vital digestive juice in our body. Unless 2 pints of it are flowing from our liver into our bowels every day, our movements get hard and constipated and ¾ of our food decays in our 28 feet of bowels. This decay sends poison all over our body every six minutes.

When our friends smell our bad breath (but we don't) and we feel like a whipped forecat, don't use a mouthwash or take a laxative. Get at the cause. Take Carter's Little Liver Pills which gently start the flow of your bile juice. But if "something better" is offered you, don't buy it, for it may be a calomel (mercury) pill, which loosens teeth, gripes and scalds the rectum in many people. Ask for Carter's Little Liver Pills by name and get what you ask for—4tg. ©1934, C.M.Co.

DISTRICT HEALTH UNIT BULLETIN

Checking School Well Water Supplies

Each year the sanitary inspector with the District Health department takes a sample of the well water on the school premises. In the future it is expected that the teacher and the school children shall take the sample and send it to the Department of Health laboratory at Lansing. The reasons why this procedure is recommended are: (1) Because it is sometimes quite a long time after the opening of the school year before the inspector gets around to some schools, and the school well water should be tested at the beginning of the year; (2) Because it gives children the training necessary to test their own well supply at home; (3) Because it teaches them just how contamination may get into a well supply, that is, the potential or possible sources of contamination of the water.

Location of the Well

Anyone who sinks a well at his home, should give serious consideration to its location. Have it drilled or driven as far as practicable from the sources of contamination such as vault privies, septic tanks, cesspools, barnyards, sewers and similar structures.

Dense soil like clay and heavy loam are more resistant to seepage or pollution than the lighter soils such as sand or gravel. So it is impossible to specify any particular distance as being safe; the type of soil as well as the contour or slope of the land must be considered. But where possible a well should be located not nearer than 75 feet to a known source of pollution and in all instances where land is available the distance should be greater.

A well on a slope or on the crest of a slope is far superior to one in a low spot. If a well is in a depression surface wash and seepage from any sources of contamination in the vicinity flow toward the well and may enter it if there is an opportunity to do so.

Depth of Well

As might be expected, the comparison of depth with the results of tests of water clearly show a direct relation between the depth of a well and its ability to produce a safe water. Samples being sent to the Department of Health by individuals show that many of the wells of less than 20 feet depth give evidence of dangerous contamination which can be attributed to no other cause than lack of depth.

Types of Wells

As its name implies, a dug well is a pit dug into the ground to the water level. A dug well with an open top is especially dangerous.

Anyone who has ever seen such a well cleaned must agree that the possibility of getting a really wholesome water from such a well is remote. The open top furnishes an opportunity for dust and dirt to get in; earth worms and small burrowing animals find entrance between the top of the wall and the wooden cover, and surface seepage enters through the cracks of the masonry walls or underneath the covering over the wall.

With these channels for the entrance of filth, there is evidently abundant opportunity for disease germs to accompany it. While it is possible to construct a dug well with masonry walls in such a manner as to overcome the dangers of contamination, it is very difficult to do so. This difficulty of excluding pollution from dug wells is clearly illustrated by the experience of roadside water surveys. Of 417 samples of water collected from dug wells during the seasons of 1925 to 1930 inclusive, 61 per cent were found to be unsafe on laboratory testing.

Most of the wells in this district are driven wells. A driven well is simply a pipe about one and one-half to two inches in diameter with a well point or screen screwed to the end of the drive pipe.

Many driven wells are fitted with pitcher pumps. Experience shows that such pumps are more likely to admit contamination than any other types. The opening in the top of the pitcher pump allows dust and dirt to enter. The Department of Health believes that contamination which has been shown so often in wells equipped with this style of pump comes from the pump itself rather than from the ground water.

When water cannot be secured at a depth or in a formation which can be reached by a driven well, it is necessary to resort to drilling.

Potential Sources of Contamination of Driven Wells

In this northern country it is necessary to protect the pump from freezing. This is usually done by a frost pit which is a chamber four or five feet deep surrounding the well and usually built of concrete, stone or brick masonry. In order to prevent freezing, a small hole (weep hole) is drilled into the suction pipe so that water will run out before freezing takes place.

A properly constructed frost pit has a concrete bottom fitting tightly against the drive pipe and the bottom slopes to one corner of the pit. From this corner a drain pipe cannot be brought out to the surface of the ground but a hole may be dug and filled with large stones. The open spaces around the stones afford an opportunity for the ground to absorb the flow from the frost pit. No great capacity is necessary for this purpose because in a frost pit of this type only a few quarts of water each day will need to be disposed of.

It will be noticed that the top of the frost pit is fitted with a substantial concrete cover. In this cover is a manhole to permit entrance for inspection and repair. The rim of the manhole extends an inch or two above the platform and is fitted with an overhanging cover to prevent the entrance of pollution.

Taking a Water Sample

A sample bottle can be obtained for the purpose of sampling any well water supply by writing to the Laboratory, Michigan Department of Health, Lansing.

In Lansing the sample is tested to determine if any sewage pollution is getting into the water. In analyzing the sample, the test is made to find the colon bacillus—the germ which is always present in sewage. That is why we say the test is made to determine if there is any sewage pollution. Should sewage be getting into the water the supposition is that disease germs can by the same channel get into the supply.

PAVILION BUILT AT YOUNG STATE PARK

The pavilion at the state park is an added attraction to the thousands of visitors to the 1000-acre playground. The veranda more than 100 feet long, would afford a fine shelter in case of storm. The floor inside the large building would accommodate a dancing party of large proportions and the refreshment counter is well kept under the direction of Floyd Aldread.

The new caretaker cottage, built of logs, located on the main road, a half mile or more from the lake, is growing rapidly and will be one of the best on the north road to Charlevoix.—Boyne Citizen.

CONSERVATION DEPT.

It may not be so easy for violators to "spot" a conservation officer in the woods this fall. The old-style dress caps by which the officers were easily distinguished while on patrol duty will not be seen. New-type felt hats of conventional style will be worn instead.

More than 1,400 acres of Michigan timberland were added to the "burned over" column as a result of forest fires during the week ending August 18, according to the department of conservation. A total of 182 fires was reported and the acreage burned was estimated at 1,432.

Violations of state fishing laws made up nearly 90 per cent of the arrests by conservation officers during July, according to the monthly report of the department of conservation. The dominating offense was fishing without a license. Of 316 violations reported by officers, 130 involved that charge. Total number of arrests for fishing violations was 283. The other arrests were divided as follows: hunting violations, 27; interfering with an officer, 2; operating a motorboat in a reckless manner, failure to make fur reports, carelessly setting a fire and burning without a permit, one each.

AMERICA WAITS

The Chicago Daily News, in a front-page editorial titled "America Waits," informed President Roosevelt that in his recent speech he failed to deal "with the realities which a grim-faced people are confronting everywhere."

"You told us frankly you would experiment and when convinced a policy was wrong you would change to another policy," the editorial said in part.

"God has taken crop reduction off your hands. Will you change that policy now?

"Reducing the gold content of the dollar has done none of the things you were assured it would do. Will you accordingly announce definitely that there are to be no more changes, that the dollar is stabilized?

"NRA is in a terrible mess. Its codes are observed chiefly in their breach. Even Hugh Johnson wants to quit. Will you not reduce the system to simple terms which will insure against child labor, sweat shop wages and excessively long hours—and, for the rest, take business out of chains?"

WELFARE EDUCATION PROGRAM OUTLINED

Orrin W. Kaye, State Administrator, Met With County Committee.

At a meeting held last Friday evening, Orrin W Kaye, state administrator of work relief in education, met with the county educational committee and the county welfare board to outline the work that can be done this winter.

Teachers and any qualified to teach who are on the welfare rolls or can be classed as needy unemployed, are asked to apply for this work. Then if classes of sufficient size can be organized, they will be employed.

The most interesting information brought out at the meeting was the advance plans regarding the freshmen colleges to be established throughout the state. Wherever 40 or more are interested in doing first year college work, suitable instructors will be sent to act under the jurisdiction of one of the state colleges. Credit for work done will be given by the institution sending the instructors. It appears that Charlevoix county will be under the jurisdiction of the University of Michigan.

Full plans have not as yet been worked out. It is hoped sufficient interest will be shown to have a "freshmen college" located in Charlevoix.

FESSENDEN-HAHN NUPTIALS PRETTY EVENT OF SUNDAY

At a charming wedding ceremony on Sunday evening, Sept. 2, Miss Lola Elizabeth Fessenden became the bride of Mr. Charles William Hahn of South Haven.

It was a small home wedding at which only the families of the two young persons and a few close friends were present, but it was none the less beautiful. The house was bright with flowers which were massed especially about the fire-place where the ceremony took place.

The bride was lovely in her white satin gown with a head-dress of lace and tulle veil, a bouquet of white bridal roses on her arm. Her sister-in-law, Mrs. William Fessenden, who was maid of honor, wore a gown of pale blue crepe and carried pink roses.

To the strains of Mendelssohn's Wedding March, played by Mrs. Marguerite Swinton, the bride descended the stairway, preceded by her maid of honor and was met by her father who escorted her to the altar. There she was met by the groom and her brother, William, who acted as best man. The beautiful ring service was used, the Rev. G. R. Parker performing the ceremony.

In the dining-room the flower-decked table had for its center-piece the festal wedding-cake, the bride cutting the first piece.

Mrs. Walter Richardson was mistress of ceremonies and at the table the Misses Dorothy Withers and Eloise Tillotson, long-time friends of the bride, served the wedding party and guests.

Afterward the bride, according to time-honored custom, tossed the bridal bouquet as she ascended the stairs, to the waiting group of girl-friends below, Miss Madeline Lemieur being the fortunate one who caught it.

The young couple left later to spend a week of their honeymoon at a cottage on Beaver Island to be followed by a week at the World's Fair.

Mrs. Hahn has grown up in Charlevoix where she has always been extremely popular. Very talented musically, she has specialized in music at Olivet and Marygrove colleges. Mr. Hahn was a classmate at Ferris Institute of the bride's brother, William Fessenden, and is a popular young druggist at South Haven.

The out-of-town guests were Mr. and Mrs. Ray Hahn, parents of the groom and his two sisters, Minnie and Genevieve. Also Mr. and Mrs. Gerald Richardson of South Bend, Ind.

J. Warne Davis for County Clerk

J. Warne Davis of East Jordan, will be a candidate for the office of County Clerk on the Republican ticket at the September Primary.

Mr. Davis will be remembered by his many friends as the former manager of the re-employment office at Charlevoix during the life of the CWA and PWA movements.

Your support will be truly appreciated at this time.—Adv. 36t1pd.

Welfare Set-Up Prepared to Find Jobs for College Students

Certain boy and girl high school graduates of Charlevoix county, who desire to continue their education, yet find it impossible to attend college because of financial conditions, may be granted the privilege of attendance at higher institutions of learning under a plan set in operation by the state Emergency Relief commission.

Boys and girls who are eligible are invited by County Welfare Director M. A. Muma to make application. The proper procedure is to write the president of any authorized college they desire to attend, and this application will in turn be referred back to the local county welfare director for investigation. There are 38 eligible institutions in Michigan. Information regarding the plan may be obtained at the local welfare office.

Plans have been drawn to permit between 2,500 and 3,000 Michigan students to secure aid for their college education during the coming year.

The federal regulations will not permit any student to earn more than $20 per month and the allotment of funds to each college participating in the program is set at $15 a month for at least 12 per cent of its entire enrollment of full time students.

It must be definitely shown that a student applying for work under this plan would be unable to attend college without this aid. The hourly rate of pay will be not less than 30 cents.

MANY OVERLOOKED STATE'S HEAD TAX

Only 1,239 Out of 7,000 in Charlevoix County Have Paid

Out of approximately 7000 residents of Charlevoix county eligible to pay the old age pension tax of the state, only 1,239 have paid, leaving 5,761 delinquent, according to County Clerk Fenton R. Bulow.

This tax was due last spring and all persons over the age of 21 years were supposed to pay this head tax either at the office of the county treasurer or their township treasurer. A few over 1200 paid and the remainder overlooked it.

County Clerk Bulow is preparing a report to be sent to Lansing at the request of state officials. Just what will be done about the matter is now up to the state.

The Charlevoix county figures, it is believed, compare favorably with those compiled in other counties of the state.

Modern Cinderella Ball Climaxes "Romance in the Rain"

One of the most colorful and brilliant motion picture scenes ever filmed is the Cinderella ball in Universal's "Romance in the Rain," a romantic comedy with music, which will open an engagement at the Palace theater starting Friday, Sept. 7.

Be Like Me!

On the screen of Paramount's "Now and Forever," coming to the Palace theater next Sunday and Monday, Shirley Temple, the youngest and one of the most talented actresses in Hollywood, stepped out of character to give Gary Cooper a point or two on the fine art of acting.

The five-year-old actress, who shares starring honors with Cooper and Carole Lombard in this film, has become conscious of the fact that she is clever at repeating lines, and rarely falters.

She's the Girl!

Margo, who makes her screen debut in Paramount's "Crime Without Passion," coming next Tuesday and Wednesday to the Palace theater, obtained her chance at what now promises to be a brilliant film career by the merest accident.

Wynne Gibson, who comes to the Palace theater on Thursday, Sept. 13, in Universal's absorbing life drama by Vicki Baum, "I Give My Love," has one rather strange superstition.

She will never read a newspaper that has been read by someone else before she received.

METHODIST EPISCOPAL CHURCH
W. W. Hurd, Pastor

Sept. 9 topic, "One Man's Wings." This is the pastor's last regular service of the year, before going to conference in Petoskey Wednesday, Sept. 12.

All subscriptions, payments and other financial matters are now due, and should be paid at once.

The club has an important meeting this Thursday afternoon at 2:30 in the church. Brief, but important.

As guest speaker, while the pastor is absent at conference, for Sept. 16, the Rev. Harry Quant has been secured. Many will be glad to hear him again. The service will be held as at present at 11 o'clock, until after conference is over.

The Aid society meets next week Tuesday, with Mrs. Chas. Arnold on Dixon avenue.

NOTICE!

To the People of Charlevoix County:

We have learned that certain inaccurate rumors are being circulated concerning county finances. Such reports may be intended to alarm the people but this committee wishes to advise you that there is no occasion for alarm. The books of all officers are audited annually by the Auditor General of the State. The audit completed July 1st of 1934 shows ALL funds of the county intact without any loss or irregularity. There has been some difficulty in procuring bonds of the County Treasurer due to the banking situation and the unwillingness of bonding companies to write such bonds. However, the situation has been kept well in hand and is satisfactory in every other way. No bonding company will bond money in the bank depositories.

Again we say THERE IS NO CAUSE FOR ALARM.

Signed: Howard C. Stephens, William F. Bashaw, Wm. M. Sanderson, Roy Scott.

Attest: W. F. Tindall, Chairman Board of Supervisors; Fenton R. Bulow, County Clerk.—Adv. 36t1.

CLASSES RESUME STUDIES MONDAY

PLANS FOR OPENING SCHOOLS ARE NOW COMPLETED

Curriculum Is Unchanged From a Year Ago—Work on Improvements Nearly Finished

Vacation days will come to an end Monday for an indefinite period as Charlevoix public schools open for the 1934-35 term.

Classes on the opening day will run on a half-hour basis to allow for registration, class assignments and procuring text books. Tuesday the entire system will be running in full force.

According to present plans as announced by Supt. O. P. North, all high school subjects offered last year will again be available for the present school year. The list is as follows:

Four years of English, two years of Latin, two years of French, algebra, geometry, world history, American history, civics, economics, physics, general science, manual arts, bookkeeping, shorthand, typewriting, junior business training. Students desiring to prepare for college will be notified of the necessary subjects.

In the grades, special work in music and physical education has been discontinued, but work in both will be given by the regular teachers.

The junior high school building has been abandoned completely and equipment moved to the senior high and grade buildings. This work will be completed before the opening of school next Monday. Work is also progressing nicely on the tunnel connecting the high school and grade building, changing the high school heating equipment and other improvements undertaken some weeks ago.

Contracts for installation of thermostatic heat control in the high school building and of a fuel stoker have been let by the board of education.

Students returning to school next Monday are requested to bring text books they desire to sell. Those needed and in good condition will be purchased.

The vacancy in the kindergarten will be temporarily filled until a permanent instructor is signed for the position.

FALL-WINTER TRAIN SCHEDULE ANNOUNCED

Provides One Train North and South Daily Except Sunday

Charlevoix will have through sleeper service to and from Chicago until October 15, according to the new train schedule announced by B. Nickerson, agent for the Pere Marquette railroad.

Train No. 1, which arrived from Detroit and Chicago daily except Sunday at 1:15, will carry a sleeper from Chicago to Petoskey, and No. 8, which leaves for the south daily except Sunday at 3:07, will also carry a through Chicago sleeper.

The following schedule is effective starting September 10 and trains will operate on central standard time:

No. 1 from Detroit, Chicago and Grand Rapids arrives in Charlevoix at 1:15 p. m.

No. 8 for Detroit, Grand Rapids and Chicago leaves Charlevoix at 3:07 p. m.

TEMPERANCE GROUP WILL MEET FRIDAY

Election of Officers and Choose Convention Delegates

The monthly meeting of the Woman's Christian Temperance Union will be held Friday afternoon at 2:30 o'clock in the community rooom.

There will be business of importance to transact, including election of offirers for the ensuing year and appointment of delegates to the state and district conventions.

Gifts will be received for the souvenir booth at the state convention and the topic, "Social Betterment," will be discussed under the leadership of Mrs. Lois Campbell.

ENGAGEMENT POPULAR LOCAL GIRL IS ANNOUNCED

Rev. and Mrs. G. R. Parker have announced the engagement of their daughter, Helen Margaret, to Norman Francis Kane of Memphis, Tenn. The wedding will take place in October.

BALCH CUTS COSTS OF UTILITIES COMMISSION

Running Expenses Cut in Half by New Commission Chairman

The Michigan Public Utilities Commission has decreased its operating costs at approximately $131,715.88 a year, it is reported today by Chairman James Balch of the commission.

According to the report, the past six months period has been the most active in the commission's experience. The commission was reorganizen by Governor William A. Comstock six months ago and the annual savings is based on the amount of operating costs reduced during this period. The running expenses of the commission were cut in half, the report states.

Reduction of the number of employes from 117 to 87 was one of the first steps of the new chairman. The motor transportation division which formerly had 57 inspectors now has 21.

RECORD SOFT BALL GAME HERE SUNOAY

LOCALS DEFEAT PETOSKEY IN 24-INNING CONTEST

Bill Supernaw Scored Winning Run to Give Knight Team Win Over Petoskey All-Stars

In the longest softball game ever played in Northern Michigan—24 innings—Johnnie Knight's Charlevoix team defeated Feldman's Auto Parts 1 to 0 at Charlevoix.

Both pitchers, Lyle Beaudoin and Carl Feldman, went the entire route for their teams. Beaudoin allowed six hits and Feldman eight in 24 innings.

The fielding was nearly perfect. "Shoeless Joe" Dickey made a left-handed catch of a drive that looked like a sure hit. Bill Novak, Charlevoix short stop, made some sensational catches.

There were numerous chances to score as both teams worked men to third but they always died there until the 24th inning. In this inning Supernaw walked and Novak was safe on a fielder's choice. Beaudoin walked and Smith hit, scoring Supernaw with the winning run.

Feldman had two good opportunities to score. In the ninth Dickie reached home safely but was called back to third on an overthrow ruling. He died there. Hoffman had a chance to score the winning run in the twentieth but was called out at the plate.

Batteries were: Beaudoin and May; C. Feldman and Rose. The following played for Petoskey: Rose, Phillips, H. Feldman, M. Dickey, Holhen, Evick, C. Feldman, Hoffman, and L. Dombroski. For Charlevoix: Gatti, Carey, Higman, Supernaw, Novak, Beaudoin, Smith, Knight, and May. Umpires: Powers and Woodruff.—Petoskey Evening News.

MRS. FOSTER HOSTESS AT BRIDGE-LUNCHEON

Mrs. Joseph Foster was the charming hostess at a bridge-luncheon given last Friday afternoon at her Norwood cottage honoring Mrs. Mabel Hobbins of Orlando, Flu., and Mrs. Robert Wolf of Chicago. Eighteen guests, including twelve from Petoskey, were present at the delightful affair.

FITZGERALD MAJORITY 100,000 OVER GROESBECK; LACY LEAD OVER COMSTOCK NOT DECISIVE

BICE DEFEATS FITCH FOR PROSECUTOR

Other Republican Incumbents Seeking Nomination for County Office Given Heavy Majorities—Bishop Leads for State Senator—Cross Appears Defeated for Representative

Latest down-state reports give Frank H. Fitzgerald and Arthur J. Lacy majorities in the race for the Republican and Democratic nomination for governor, respectively.

With 1987 out of 3447 precincts reported, the Republican vote stood: Fitzgerald 200,038, Groesbeck 77,598, Smith 9,310, Bailey 5,870. In the democratic contest, 2876 precincts gave Lacy 96,433 and Comstock 92,105.

Read, the republican, and Stebbins, the democratic incumbent, were leading in the contest for lieutenant-governor. No figures were available on the democratic contest for U. S. Senator.

In the republican legislative race for state senator, Otto W Bishop of Alpena, has a majority over Alonzo Green, while figures in the democratic contest between Elmer Smith and Charles Vogelheim are lacking. Reports indicate William Schram was favored over Edward E. Cross for nomination as state representative from the Charlevoix-Leelanau district.

As far as Charlevoix county was concerned, Tuesday's primary brought out the lightest vote in history. The contests between republican candidates for county offices overshadowed other issues apparently, for only around 300 democratic votes were cast in the entire county. Some townships voted straight republican, much to the satisfaction of the party cohorts.

With but one exception, all republican incumbents were nominated. Arthur L. Fitch, present prosecuting attorney, was defeated by C. Meredith Bice of East Jordan, by a margin of 368 votes. The four-way race for county road commissioner brought out the closest contest of the election, Frank H. Wangeman of East Jordan, incumbent, winning by a margin of 60 votes over R. G. Watson, his nearest opponent. The contest was in doubt up until the last two precincts were reported.

Other republican incumbents were nominated by majorities ranging from 1,013 to 1,530 in favor of Fenton R. Bulow, county clerk, who led his party ticket in the county contests.

Following is the complete vote in Charlevoix county:

LARGER HOTELS CLOSE SUCCESSFUL SEASONS

Cold Weather Hastened Closing of Bumper Resort Year

Completing one of the most successful seasons in recent years, The Inn and Belvedere, Charlevoix's larger summer hotels closed last week, The Inn on Wednesday and the Belvedere the following day.

While the hotels usually close soon after Labor Day, the cold weather of the past week hastened the departure of guests earlier than heretofore. The same conditions also brought about the departure of many cottagers earlier than previous expectations, bringing the resort season to probably one of the most abrupt closes in recent years.

The smaller hotels are still operating with very good business. The influx of hay fever patients has added to their patronage as well as those remaining here for the early fall months.

TIGER-NEW YORK CONTEST ON AIR

BROADCAST AT MEMORIAL PARK NEXT TUESDAY

W. H. Wallace, Local White Star Distributor, Sponsoring Play-by-Play Broadcast of Game

The baseball game between the Detroit Tigers and New York will be broadrast to residents of Charlevoix on Tuesday, September 18th. Because of the unusual interest in Northern Michigan in the fight the Tigers are making for the American League pennant, W. H. Wallace, distributor of Mobilgas and Mobiloil in this territory, is making special arrangements to have a play-by-play announcement of this game given the people of this city.

Northern Michigan has watched the rise of Mickey Cochrane's men to leadership in the American League with more interest than has been displayed in any baseball campaign since the last Tiger pennant in 1909, but because of peculiar air conditions radio reception has been so poor that the broadcasts from Detroit have not reached here.

With the cooperation of the White Star Refining Company, Mr. Wallace has arranged to bring the play-by-play account to this city where it will be broadcast at 3 p. m. Tuesday, Sept. 18th. It will be a regular Mobiloil and Mobilgas broadcast just like those which have aroused fans in Detroit and southern Michigan to such wild enthusiasm this year. The broadcast is one of a series in northern Michigan.

"We have lots of Mobilgas and Mobiloil customers in northern Michigan," said Mr. Wallace, "and we want them all to be our guests at the game."

Accompanying the Mobilgas baseball broadrast car will be the famous automobile which runs without radiator or water.

This "torture test" car, filled with Mobilgas and lubricated with Mobiloil stood up under the terrific punishment of a run from coast to coast without any cooling system.

SOCIALIST GUBERNATORIAL CANDIDATE COMING

Alfred E. Larson, Socialist candidate for governor of Michigan at the November general election, will speak at a public meeting to be held at 8 o'clock Friday evening, September 14th, at the Charlevoix court house.

INFORMATION BUREAU TO BE CLOSED ON SATURDAY

Frederick V. Tyler, secretary of the Association of Commerce, has announced that the information bureau will be closed all day Saturday, September 15th, due to his attendance at the American Legion state convention at Traverse City.

RAILROAD SHIFTED SCHEDULE SUNDAY

RESORT TRAINS OFF EXCEPTING POST-SEASON RUNS

Arrival Time and Delivery of Mail From Postoffice Altered—New Schedule Is Announced

With the fall railroad schedule taking effect last Sunday, it is suggested that travelers consult the ticket agent before completing plans, for not only do the changes effect leaving time here, but also connections at division points.

The Pere Marquette train No. 1 will arrive in Charlevoix northbound at 1:15 (2:15 Charlevoix time) and train No. 8 will leave southbound at 3:07 (4:07 Charlevoix time) daily except Sunday. These trains will handle a through Chicago sleeper until October 15.

The Resort Special will be operated southbound on September 12, 16 and 23. These trains will carry complete equipment the same as regular summer trains. Southbound they leave terminals on September 11, 15 and 21.

With the change in train time mail schedules also have been altered. Operation of the star route between Charlevoix and Petoskey was inaugurated again Monday morning by H. R. Fowler. The bus returns at approximately 8:45 E. S. T. with the first mail of the day.

Under this arrangement, the first city delivery will leave the postoffice at approximately 9:30 o'clock. Mail from the south arrives here at 2:15 p. m., and outgoing mail should be in the postoffice at 1:30 o'clock. Arrival of the southbound is at 4:07, and the dead line for mailing will be at three o'clock.

This city will have two mail deliveries daily. Both will be complete to the business district, but the residential districts will receive only first class mail on the afternoon delivery.

Starting October 1 the postoffice will close Saturday afternoon. The lobby will remain open and box-holders will receive mail service.

PETER BLOCK, BARNARD PIONEER, DIED MONDAY

Was One of First Settlers in That District—Funeral Thursday

Peter Block, age 83 years, a pioneer resident of this district, died Monday following a brief illness.

A native of the Netherlands, Mr. Block came to Michigan with his parents at the age of 13. The family were among the first settlers of the Barnard district, where Mr. Block operated a farm and a cheese factory for a long period. He retired about ten years ago.

Surviving are a daughter, Mrs. Harold Jacobs of Flint, and five sons, Henry, Martin, Milton, George and James, all of Charlevoix.

Funeral services will be held at 2 o'clock Thursday afternoon from the Milton Block residence on State street, Rev. W. W. Hurd of the Methodist church officiating.

SECTIONAL HARDWARE DEALERS MEETING HERE

Al Bremmeyr, Petoskey, Chosen Chairman at Meeting Tuesday

Forty hardware dealers of northern Michigan attended a sectional meeting under the direction of the Michigan Retail Hardware Association at the Hotel Hallett, Tuesday evening.

The principal speakers were H. W. Bervig of Lansing, secretary of the state association, and Louis H. Buisch of Dayton, Ohio.

Al Bremmeyr, Petoskey hardware dealer, was chosen district chairman, succeeding Joseph Louisignau of Cheboygan. The next sectional meeting will be held in Petoskey.

LIBRARY HOURS CHANGE WINTER SCHED. MONDAY

Hours of the Charlevoix public library will change to fall schedule beginning Monday, September 17th, according to Minnie E. Payton, librarian.

The new schedule is as follows: Open from 2 until 6, and from 7 until 8:30 each week day.

Quality Roofing of all kinds. Now is the time to roof your buildings before cold weather. Call and look my line over. Louis S. Orlowski.—Adv. 36t4.

Harrison Loper, Helen and Clinton DeForest went to Charlevoix hospital to see their father, Jess DeForest last Sunday.

No trace appears to have been found of the culprits who broke into the Smallegan and Smith store two weeks ago. Officers have been working on the case for some time.

William Hillman is now working on the Torch lake road job on the three last days of the week. The work is progressing finely, and it is expected that the road on the east side of the lake will be completed by Nov. 1st.

Russel Thomas and family of Eveline Orchards, Charlevoix county, were guests of the Leroy Fitzpatrick people Sunday and attended Pentecostal church of which they are members here. They also helped out with Grand View Sunday school, Mrs. Thomas kindly acting as organist.

James Johnson's brother and family from Flint have been visiting him and the Swansons on Torch lake shore the past week. They all attended Bay View Sunday school last Sunday. There were 18 present.

Karl Hadcock of Detroit is visiting relatives and friends here this week. He expects to stay two weeks or perhaps a month if his company will allow. He is collector for Dodge Motor company. He has held the position for seven years.

O. R. Morse and family of Bay View called at the John Dawson home here the first of the week. Mr. Morse will purchase potatoes again this year for the Kruger company of Traverse City. The outlook for potatoes appears to be pretty good.

BARNARD

The Epworth League young people are having a party and business meeting at the church on Friday evening of this week. Pot-luck supper.

The Ladies' Aid Society meeting has been postponed until further notice on account of its being Fair week and everyone extremely busy.

Our 4-H Dairy, Canning and Corn clubs took a good exhibit to the County Fair. They all plan to attend on Thursday which is Club Day.

Carlton and Clayton Smith accompanied County Agent Mellencamp to the State Fair a few days last week and report an enjoyable trip in spite of the rainy weather.

There will be no church or Sunday school service next Sunday as some of our people wish to take advantage of the nearness of the annual conference and will attend it that day.

A musical program will be given at the church on Tuesday evening, September 18th. A free will offering will be taken and will be used to help pay for the fireplace in the church basement.

A kitchen and miscellaneous shower was given last Wednesday at the Grange hall for Miss Lauretta Stutzman who is to be married this month. She was the recipient of many beautiful and useful articles. Pot-luck lunch was served and all enjoyed a fine afternoon.

DISTRICT HEALTH UNIT BULLETIN

Complications May Result from Mild Scarlet Fever

Scarlet fever varies in type from extremely mild cases to overwhelming attacks that may cause death in [illegible] Dr. Bauer, health leader in his series of articles on communicable diseases. The uncertainty of whether the disease will be mild or very serious is reason enough for getting the proper treatment started at once, states Dr. Bauer.

There is probably no other disease of childhood of which complication factors are so numerous, so dangerous and so prone to occur even in what appears to be the mildest cases, Dr. Bauer writes. The complications most commonly seen are ear diseases and kidney involvement, either of which may be serious. There may also develop mastoid disease and generalized infections.

To guard your children against scarlet fever, especially in the presence of an epidemic, it is well to keep them away from those who show signs of illness, and to isolate all children who are ill. Patients with scarlet fever should be taken to the hospital, believes Dr. Bauer. The hospital routine with regular temperature and pulse observations makes for better progress toward recovery and the early discovery of any serious complication. Where it is impossible for the patient to go to the hospital, a physician should be called for the diagnosis and treatment in the home.

There is an antitoxin which is valuable when used early as treatment in severe cases of scarlet fever. This antitoxin is continuously kept on hand by the District Health Department, composed of the counties of Antrim, Charlevoix, Emmet, Otsego, and is available free of charge to any physician upon request. Most physicians do not use this in mild cases or for prevention.

A test known as the Dick test is used now to show whether a person is naturally immune to scarlet fever or whether he might contract the disease if exposed. There are apparently some persons who may have a negative Dick test indicating immunity to scarlet fever but a year or two later lose this immunity. This indicates that scarlet fever immunity may not be very lasting.

There is a method of protecting against scarlet fever by injection of three or more doses of scarlet fever toxin. This does not always protect and those who do gain some immunity may lose it later.

ATWOOD

The Clarke school opened Monday morning with Miss Juinetta Baker of Charlevoix as teacher.

Work has been resumed on the Atwood school. The [illegible] leveled and the basement finished.

Mr. and Mrs. Con Klooster are the proud parents of a ten-pound baby boy born Thursday of last week.

Noah Stanley, after spending several weeks at the home of his uncle Frank Brown, left Friday morning for Grand Rapids.

There was no school in Atwood Thursday of last week, giving the pupils an opportunity to attend the fair at Traverse City.

Mr. and Mrs. John Parsons of Ellsworth and Miss Bertha Pierce of Norwood were visitors at the Geo. Parsons home Thursday evening.

Andrew Miller and family, Mr. and Mrs. Ernest Brown, Frank Brown and family and Mr. and Mrs. Francis Sheets spent Sunday at the home of Geo. Clarke near Deer Lake.

Reading room Tuesdays and Saturdays, 3 to 5 p. m.

"Substance" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, September 16.

Among the Bible citations is this passage (John 2:15, 16): "And when he had made a scourge of small cords he drove them all out of the temple, and the sheep, and the oxen; and he poured out the changers' money, and overthrew the tables; And said unto them that sold doves, Take these things hence; make not my Father's house an house of merchandise."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 313): "Jesus of Nazareth was the most scientific man that ever trod the globe. He plunged beneath the material surface of things, and found the spiritual cause."

THE MONEY YOU SAVE with MORE LIVE POWER PER GALLON mounts up fast

IN the course of the summer and fall your savings —as a result of the *extra* Live Power in Standard Red Crown Superfuel—will amount to real money. For this richer, thriftier gasoline will take you farther for less money—and *faster* when you want, or need, speed.

→ This bigger store of responsive driving energy —more Live Power per gallon—is made available to you without extra charge. Not even a fraction of a cent has been added to the price of "regular" gasoline.

→ Hence, from the standpoint of *economy*, as well as performance, Standard Red Crown Superfuel today is the greatest outright VALUE Standard Oil has ever offered. → Remember: every penny of your gasoline money buys More Live Power in Standard Red Crown Superfuel. And the money saved soon mounts up into many dollars.

ORDINANCE NO. 179

AN ORDINANCE AUTHORIZING THE CONSTRUCTION AND OPERATION OF A SEWAGE DISPOSAL SYSTEM AND AUTHORIZING AND PROVIDING FOR THE ISSUANCE OF SELF-LIQUIDATING REVENUE BONDS OF THE CITY OF CHARLEVOIX, CHARLEVOIX COUNTY, MICHIGAN, FOR THE PURPOSE OF DEFRAYING THE COST OF THE SAME, UNDER THE PROVISIONS OF ACT 94, PUBLIC ACTS OF MICHIGAN, 1933, AS APPROVED MAY 26, 1933; AND PRESCRIBING ALL OF THE DETAILS OF SAID BONDS AND PROVIDING FOR THE FIXING, COLLECTION, SEGREGATION AND DISPOSITION OF THE REVENUES OF THE SEWAGE DISPOSAL SYSTEM OF SAID CITY OF CHARLEVOIX INCLUDING APPURTENANCES AND EXTENSIONS THERETO, FOR THE PURPOSE OF PAYING THE COST OF AND OPERATION AND MAINTENANCE THEREOF, PROVIDING AN ADEQUATE DEPRECIATION FUND THEREFOR AND PAYING THE PRINCIPAL AND INTEREST OF SAID REVENUE BONDS; AND PROVIDING FOR A STATUTORY LIEN, IN FAVOR OF THE HOLDER OR HOLDERS OF SUCH BONDS, UPON THE WHOLE OF SUCH REVENUES.

THE CITY OF CHARLEVOIX ORDAINS:

Section 1. It is hereby determined and declared to be necessary and conducive to the public health and welfare of the City of Charlevoix to construct, and it is hereby determined to construct, a Sewage Disposal System, consisting of intercepting sewers, force mains, pumping stations, river crossings, treatment works, and other incidentals, as part of Sewage Disposal System of the City of Charlevoix in accordance with the maps, plans and specifications prepared by Greeley & Hansen, Engineers, and in accordance with the maps, plans and specifications accompanying said City of Charlevoix application for a loan and grant filed with the Federal Emergency Administration of Public Works (P. W. A. Docket No. 2825).

Section 2. That the Council has caused an estimate of the cost of constructing the foregoing to be made by the said Greeley & Hansen, Engineers, and does hereby determine that the total estimated cost of such improvement is the sum of Eighty Seven Thousand Two Hundred ($87,200.00) Dollars.

Section 3. That to pay the cost of constructing such improvement it will require the issuance and sale of and there is hereby authorized to be issued and sold, pursuant to the provisions of Act 94, Public Acts of Michigan of 1933, revenue bonds in the aggregate principal sum of Seventy Three Thousand ($73,000.00) Dollars, being seventy-three (73) bonds of One Thousand ($1,000.00) Dollars each, numbered one (1) to seventy-three (73), inclusive, dated January 1st, 1934, and payable serially as follows: Two Thousand ($2,000.00) Dollars on January 1st of each year from January 1st, 1936 to January 1st, 1942, inclusive; Three Thousand ($3,000.00) Dollars on January 1st of each year from January 1st, 1943 to January 1st, 1951, inclusive; and Four Thousand ($4,000.00) Dollars on January 1st of each year from January 1st, 1952, to January 1st, 1959, inclusive, with interest at four (4%) per cent payable semi-annually on January 1st and July 1st in each year; both principal and interest to be payable in lawful money of the United States at the office of the City Treasurer of the City of Charlevoix, Michigan. Said bonds shall be signed by the Mayor and countersigned by the City Clerk and the corporate seal of the City affixed thereto, and the interest coupons attached to said bonds shall be signed by the facsimile signatures of said Mayor and said City Clerk and said officials by the execution of said bonds shall adopt as and for their own proper signatures their respective facsimile signatures on said coupons.

Section 4. Said bonds shall not be a general obligation or indebtedness of the City of Charlevoix, but shall be payable solely from the revenue derived from the operation of said Sewage Disposal System, including all appurtenances and extensions thereto, and to secure such payment there is hereby created a first lien upon the whole of the revenue of the Sewage Disposal System of said City of Charlevoix, including all appurtenances and extensions thereto, to continue until the payment in full of the principal and interest of such bonds.

Section 5. The holder or holders of said bonds or coupons representing in the aggregate not less than twenty (20%) per cent of the entire issue then outstanding may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect and enforce the statutory lien upon the revenue of said system, including appurtenances and extensions thereto, and may, by suit, action, mandamus, or other proceedings, enforce and compel performance of all duties of the officers of the City of Charlevoix including the fixing of sufficient rates, the collection of revenues, the proper segregation of the revenues of the system, including appurtenances and extensions thereto, and the proper application thereof: Provided, however, that said statutory lien upon said revenue shall not be construed to give such holder or holders of any bond or coupon authority to compel the sale of such system.

If there be any default in the payment of the principal of or interest upon any of said bonds, any Court having jurisdiction in any proper action may appoint a receiver to administer and operate said system, including appurtenances and extensions thereto, on behalf of the City of Charlevoix, and, under the direction of said Court and by and with the approval of said Court, to perform all of the duties of the officials of the City more particularly set forth herein and in Act 94, Public Acts of Michigan, 1933.

The holder or holders of any of such bonds, or any coupons therefrom, shall have all other rights and remedies given by said Act No. 94, Public Acts of Michigan, 1933, for the collection and enforcement of said bonds and the security therefor.

Section 6. The construction, alteration, repair, operation and management of said Sewage Disposal System shall be under the immediate supervision and control of the Superintendent of the Electric Light and Water Plants of the City of Charlevoix, Michigan, subject to the order, rules and regulations of the Council.

Section 7. The rates for services furnished by said Sewage Disposal System shall be levied upon each lot or parcel of land, building or premises having any sewer connection with said Sewage Disposal System, on the basis of the quantity of water used thereon or therein as the same is measured by the water meter there in use, and shall be collected at the same time and in the same manner as provided for the payment of water bills. The Council may classify the users of water according to the quantity of water used, and charge such rates to users in each class as it may deem reasonable. Such classes and rates are hereby tentatively fixed as follows:

Charges per 1,000 gallons $0.16
payable quarterly
Minimum charge per quarter .. $1.00

The City shall pay out of the appropriate general funds the reasonable cost and value of the services rendered to the City by such Sewage Disposal System on the basis of the foregoing schedule of rates and amounts of water used by the several departments, agencies or instrumentalities of the City. Special rates may be allowed by the commission for rates not clearly covered by the regular schedule. Charges shall constitute a lien on the property served by such connections, and if not paid within ninety days shall be collected in the same manner as general city taxes.

Section 8. The rates hereby fixed are estimated to be sufficient to provide for the payment of the interest upon and the principal of all such bonds as and when the same become due and payable, to create a bond and interest redemption fund therefor, to provide for the payment of the expenses of administration and operation and such expenses for maintenance of said Sewage Disposal System as are necessary to preserve the same in good repair and working order, to build up a reasonable reserve for depreciation thereof and to build up a reserve for reasonable and proper improvements, betterments, and extensions thereto other than those necessary to maintain the same in good repair and working order. Such rates shall be fixed and revised from time to time as may be necessary to produce these amounts, and it is hereby covenanted and agreed at all times to fix and maintain such rates for services furnished by said Sewage Disposal System as shall be sufficient to provide for the foregoing.

Section 9. The Council may make such rules and regulations governing the operation of said Sewage Disposal System and the collection of the service rates as it shall deem necessary. The Superintendent of the Electric Light and Water Plants may make such further laws, not inconsistent with the rules and regulations of the Council, as it may deem necessary for the management and protection of the Sewage Disposal System. Such rules, regulations and by-laws shall have the same force and effect as ordinances.

Section 10. The said Sewage Disposal System shall be operated on the basis of a fiscal year commencing on January 1st and ending on December 31st.

Section 11. The gross revenues of said Sewage Disposal System including all appurtenances and extensions thereto, are hereby pledged and ordered to be set aside and distributed monthly or oftener into separate funds, as follows:

(a) OPERATION AND MAINTENANCE FUND: There shall be first set aside out of the gross revenues amounts sufficient for the payment of the current reasonable and necessary expenses for operation, administration and maintenance of the System, including insurance.

(b) BOND AND INTEREST REDEMPTION FUND: There shall be next established and maintained a Bond and Interest Redemption Fund (hereinafter called the "Bond Fund"), which shall be, used solely and only for the purpose of paying the principal of and interest upon the Bonds. During each fiscal year, out of the first available gross revenues there shall be set apart and paid into the Bond Fund a sum equal to 110 per cent of the aggregate amount of interest upon and principal of the bonds becoming due during each such year. The amount by which each such payment exceeds such aggregate amount of interest and principal shall be held in the Bond Fund as a reserve for deficiencies and used solely in accordance with the provisions hereof; provided, however, that no further payments need be made into said Bond Fund after enough of the Bonds have been retired so that the amount then held in said Bond Fund (including such reserve for deficiencies) is equal to the entire amount of the interest and principal that will be payable at the time of the maturity of all of the Bonds then remaining outstanding. If in any fiscal year the City of Charlevoix shall fail to pay into the Bond Fund the full amount hereinabove stipulated, then an amount equivalent to such deficiency shall be set apart and paid into the Bond Fund from the first available revenues of the following fiscal year or years.

If the City of Charlevoix shall fail to make any such payment into the Bond Fund as aforesaid during any fiscal year, any sums then held in the Bond Fund as a reserve for deficiencies, as above provided, shall be used for the payment of any portion of the interest upon and principal of the Bonds becoming due in such fiscal year, on which Bonds there would otherwise be default; but such reserve shall be reimbursable therefor from the first available payments made into the Bond Fund in the following fiscal year or years in excess of the required payment for the then current fiscal year. All moneys held in said Bond Fund, as hereinbefore provided shall be deposited in a Federal Reserve System member bank, as hereinafter provided, and the deposits continuously secured by a valid pledge of direct obligations of the United States Government having an aggregate market value (exclusive of accrued interest), at all times at least equal to the sum on deposit in said Bond Fund, or shall be invested in such direct obligations of the United States Government, deposited with such bank under an escrow agreement containing suitable provisions for the sale of such obligations when it shall prove necessary to draw upon said Bond Fund or the reserve therein.

(c) DEPRECIATION FUND: Out of the remaining gross revenues there shall be set aside sums sufficient to build up a reasonable reserve for depreciation of the existing System.

(d) CONTINGENT FUND: Out of the remaining gross revenues there shall be set aside sums sufficient to build up a reserve for reasonable and proper improvements, betterments and extensions to the existing System.

(e) SURPLUS: Any surplus accumulated in the Operation and Maintenance Fund which may be in excess of the cost of operating and maintaining the System during the remainder of the then present and next ensuing fiscal year shall be transferred to the Bond Fund; any monies in the Depreciation Fund in excess of the amount necessary for probable replacement to be needed during the then present and next ensuing fiscal year, as determined by the Council, shall be transferred to the Bond Fund; and any monies in the Contingent Fund in excess of the amount necessary for reasonable and proper betterments to the System during the then present and next ensuing fiscal year, shall be transferred to the Bond Fund or used to purchase outstanding Bonds, and if used to purchase in the open market outstanding Bonds not yet due, such Bonds shall be purchased at not more than the fair market value thereof and shall thereupon be cancelled, provided, however, that any such transfers from the Operation and Maintenance Fund and—or Depre-

A Very Significant ANNOUNCEMENT..

a Change in Name—

HOLSUM Now becomes MICHIGAN

MICHIGAN BAKERY, northern Michigan's largest and most modern bakery, announces that its products, heretofore known as HOLSUM, will from now on be known as MICHIGAN.

The change in name is both logical and convenient. MICHIGAN BAKERY is owned by Michigan people; all its employees are Michigan folk; its products enjoy a wide acceptance throughout this part of the state. Therefore, to name these fine bakery products after our state is to accept a reasonable and inevitable conclusion.

The name only has been changed. HOLSUM has stood for the highest quality in bakery products for many years. It is not too much to say that MICHIGAN succeeds HOLSUM in this as well as in name.

The name MICHIGAN stands now, and will continue to stand, for the finest loaf of bread and the finest rolls and coffee cakes it is humanly possible to bake.

To you who have been loyal to HOLSUM bread and rolls these many years, we say a deeply-felt "thank you." At the same time, we dedicate the entire resources of our plants, the fullest skill of our men, the complete facilities of our laboratories, to the making of products that will continue to justify your appreciated patronage.

MICHIGAN bakery products, like HOLSUM, are sold by independent grocers. They are delivered at the peak of freshness each day in our own delivery cars to make sure you get them oven-fresh wherever you buy them.

The insignia that has, for some years identified our product, continues to appear prominently on the new cream-colored wrapper. Look for it . . . it's your guarantee of highest quality.

You save money when you buy at your independent grocer's. His merchandise and prices are planned to gain your continued patronage, not to catch your eye or pocketbook for the moment.

FISH LICENSE SALES SHOW A BIG INCREASE

Twenty Per Cent Gain Over 1933 Recorded Up to July 30

Twenty per cent more resident fishing licenses were sold in Michigan up to July 30 than for the entire year of 1933, according to a report of the License Division, Department of Conservation.

During the first seven months of 1934, the report shows, 335,251 licenses were purchased by resident fishermen. The total for the entire year of 1933 was 286,532.

The demand among non-residents for special 10-day licenses has exceeded the demand for annual licenses this year. The non-resident annual license costs $2; ten-day license, $1.

A tabulation of August returns is expected to see increases over the total for 1933 in all types of fishing licenses. The figures up to July 30 as compared to 1933 are:

	1934	1933
Non-resident annual	17,981	30,127
Non-resident special	19,751	26,090
Wife licenses	13,276	9,365
Resident licenses	355,251	286,532

DEPARTMENT GETS STRANGE REQUESTS

Is Clearing House for All Types of Information

The Department of State is a clearing house for information relative to state government.

Despite the manifold duties intrusted to the department by law, every mail brings strange requests for information. These requests every week ask for information concerning the proper procedure in cases where workers fail to receive PWA checks, or where the worker feels that there is some irregularity concerning the work. In each case, the request is referred to the proper department.

Other recent requests ask for information concerning the height of high tension wires; if notaries public can perform marriage ceremonies; if the state issues peddler's licenses. One of the strangest requests received in recent weeks called for information concerning congressional districts in Alaska.

FALL SEED LOANS ARE OBTAINED BY FARMERS

The Federal Emergency Crop Loan office is now receiving applications from farmers for advances for fall seeding of wheat, rye, or other crops maturing in 1935.

The maximum loan is $2.00 per acre to be used for seed, fitting land, etc. The security is a crop mortgage maturing Aug. 31, 1935. Applications are received at the County Agent's office and must be made before Sept. 15.

TOP O' MICHIGAN POTATO SHOW PLANNED

Event Will Be Held at Gaylord Oct. 31st to November 2nd.

Active plans are now under way for holding the Eleventh Annual Top O' Michigan Potato and Apple Show at Gaylord on October 31st and November 1st and 2nd, according to Arthur W. Glidden, secretary.

This show, which has grown to be the biggest agricultural institution in northern Michigan, was forced to suspend holding n show last year. The directors and officers hope that with its renewal the show will receive the support it has received in the past.

In order to encourage showing, the premiums will be liberal. This is made possible by small county appropriations, the use of funds released from the banks, and state assistance. As usual, the show will consist of exhibits, programs, luncheons, banquets and general discussions.

Local county agricultural agents are assisting in the show and will have premium books to distribute, which will be available about Oct. 1st. The secretary suggests that interested persons write their local county agricultural agent for one of these premium books, or mail a card to Arthur W. Glidden, secretary, Gaylord, Mich.

CONGREGATIONAL CHURCH
Charlevoix and Ironton

The 57th Annual Meeting of the Cheboygan Association of Congregational churches will be held at the Ironton church next Tuesday and Wednesday. The program will begin with organization of the young people of the association under the direction of Miss Helen Boyd, state director of religious education for Congregational churches. In the evening of Tuesday Rev. Percy V. Dawe will speak.

On Wednesday such speakers as Dr. S. A. Lloyd, state secretary, Mrs. Bagnell, state president of woman's work, Rev. Darley Downs of Japan and Marguerite Davison of Alabama will appear upon the program. Rev. O. E. Priest will deliver the associational sermon. The missionary ladies of the Charlevoix church will have a prominent part. Mrs. G. R. Parker will direct the devotional period, and Mrs. Brayton Saltonstall will present Projects, White Cross and Box Work. A platlett is also announced by our ladies. The public is invited to all services.

Next Sunday morning Rev. Edmond Hold Babbitt, the energetic pastor of the Watervliet Michigan Methodist church will speak at 11 o'clock. Subject, "Ambassadors for God." We associated with Rev. Babbitt a short time before coming to Charlevoix and feel that you will miss a rare opportunity to miss hearing him next Sunday morning.

RAFFLE BRINGS FUNDS FOR WELFARE PURPOSE

Quilt Donated by Mrs. John C. New Won by Mrs. F. W. Sass

Through the generosity of Mrs. John C. New of Indianapolis, Ind., a Charlevoix summer resident, a considerable sum of money which will be devoted to the welfare particularly of children has been raised.

Mrs. New gave a quilt, which, under the direction of the county welfare office staff on Petoskey avenue, was raffled Monday afternoon after a very successful campaign of ticket sales. Mrs. Frederick W. Sass of Michigan avenue, held the lucky ticket and was awarded the quilt.

While no definite plans have been made for disposition of the funds, the money will either be spent to purchase clothing for indigent school children, or held for distribution through means of gifts at Christmas time.

Local welfare officials extend their appreciation to Mrs. New for her generosity, also to the public for its response.

RURAL SCHOOLS GET STATE AID MONIES

Nearly $300,000 Distributed This Week to 88 Institutions

The State Department of Public Instruction this week is mailing to 88 rural agricultural schools and seven township school districts checks for $229,563 from the state treasury to assist in the schools' maintenance and transportation of children.

The 95 school districts participating in the cash disbursement are located in 47 counties, of which 13 schools are in the upper peninsula and 34 schools in the lower peninsula.

The combined area of the districts participating in this fund is more than one-tenth of the area of the entire state. Within this area 15,000 children are transported daily to school in 487 busses. The average length of each bus route is 7.6 miles.

CAMPAIGN EXPENSES FILED COUNTY CLERK

Candidates Must Present Statements of Monies Expended

All campaign expense accounts, under the law, are filed with county clerks. Candidates file their personal accounts with the clerks in the counties in which they reside. County campaign committees for candidates seeking state or national offices file in their own counties while state campaign committees file their accounts in the home county of the candidate.

The law requires that all expense accounts be filed within 10 days after a primary election.

GASOLINE TAX SHOWS INCREASE FROM 1933

Records Show $1,600,000 More Collected Than Last Year

The automobiles gasoline tax for the fiscal year ending June 30, 1934, was $1,600,000 more than was collected for the fiscal year ending June 30, 1933. Records of the Department of State show that for the 12 months ending June 30, 1934, a total of $15,741,210 was paid into the state coffers from this source.

MRS. MARGARET SPEIGL OF CHARLEVOIX COUNTY DIED LAST FRIDAY

Mrs. Margaret Speigl, wife of Wolf Speigl, well known farmer of the Bay Shore region, and a daughter of Mr. and Mrs. Wolf Diermier, of Petoskey, passed away Friday in that city after an illness of several weeks.

Funeral services were held at 9 a. m. Monday from St. Francis church with burial in St. Francis cemetery.

Mrs. Speigl was born in Petoskey 42 years ago and spent her entire life in this region.

Surviving her besides the husband and parents are seven sons, five daughters, one sister and a brother, Katherine Diermier, of Grand Rapids and four brothers, Wolf, John, George and Michael, residing in Petoskey.

COUNTY OFFICES CLOSING THURSDAY FOR FAIR

All county offices in the court house building will close at 10 o'clock Thursday morning to allow officers to attend the Charlevoix county fair at East Jordan. Likewise practically all business places in the city will be closed for the same purpose in the afternoon.

95% WATER SOLUBLE!

NITROGEN CONTENT of Farm Bureau Fertilizers is NOT LESS than 95% soluble in water as against 70% required by State law. Practically ALL the nitrogen in Farm Bureau fertilizers is promptly available to the young plant when needed most for a vigorous start. Our phosphorus and potash sources are the very best. Farm Bureau fertilizers are extra dry, granular, and easy to regulate. You can depend upon them for heavy yields.

COUNCIL PROCEEDINGS

September 10, 1934.

The common council of the city of Charlevoix met on the above date with Mayor See presiding.

Aldermen present: Carey, Fessenden, Hallett, Kibbe and Webster. Absent: Ald. Ranger.

Minutes of meeting held August 27, 1934, and September 4, 1934, were read and approved.

Enter Ald. Ranger.

Moved by Ald. Fessenden seconded by Ald. Webster that the order of sewer cleaning equipment from the Sparta Sewer Machine Co., amounting to $172.50 be approved. Motion carried by the following yea and nay vote: yeas, Ald. Carey, Fessenden, Hallett, Kibbe, Ranger and Webster.

Ald. Carey moved the adoption of the following Resolution, seconded by Ald. Kibbe:

BE IT RESOLVED by the Common Council of the City of Charlevoix, Michigan, that bids be received on the construction of the SEWAGE DISPOSAL WORKS at 10:00 a. m. eastern standard time on the eighth (8th) day of October, 1934, and that the City Clerk be and hereby is authorized and instructed to arrange with the consulting engineers to have the proper "Notice to Contractors" published for two consecutive weeks in the Charlevoix Courier and in the Michigan Contructor and Builder, a publication of statewide distribution, the publication of the advertisement being subject to apprnval by the State Engineer. P. W. A.

Ayes: Ald. Carey, Fessemlen, Webster, Hallett, Ranger and Kibbe. Nays: None. Absent: None.

The following preamble and resolution were offered by Ald. Fessenden and supported by Ald. Ranger:

WHEREAS the City of Charlevoix, Michigan, heretofore issued its refunding bonds in the sum of Twenty-five Thousand ($25,000.00) Dollars, said bonds being each of the denomination of One Thousand ($1,000.00) Dollars, said bonds bearing interest at the rate of four and one-half (4½%) per cent per annum, duted October 1st, A. D., 1914, and maturing October 1st, A. D., 1934;

WHEREAS said bonds were the legal and valid obligations of said City of Charlevoix; and

WHEREAS, in the opinion of this council, it is not only necessary but advantageous to said City of Charlevoix to extend the time of payment of said above described bonds;

THEREFORE BE IT RESOLVED, that the Clerk make application to the Public Debt Commission of the State of Michigan for approval of the issuance of Twenty-five Thousand ($25,000.00) Dollars, refunding Bridge Bonds as hereinafter described and set forth in this Resolution; and

NOW THEREFORE, BE IT RESOLVED, that new bonds of said City of Charlevoix be issued in the place of the above described Twenty-five Thousand ($25,000.00) Dollars, refunding Bridge Bonds becoming due October 1st, 1914, in such manner as merely to change, but not to increase the indebtedness of said City of Charlevoix;

BE IT FURTHER RESOLVED by this Council that said City of Charlevoix issue its Refunding Bridge Bonds in the sum of Twenty-five Thousand ($25,000.00) Dollars, said bonds to be each of the denomination of One Thousand ($1,000.00) Dollars, numbered from one (1) to twenty-five (25) consecutively and inclusively, to bear date of October 1st, 1934, maturing serially as follows:

One Thousand ($1,000.00) Dollars, on October 1st, each year from 1935 to 1937 both inclusive and Two Thousand ($2,000.00) Dollars each year from 1938 to 1948 both inclusive, with interest thereon until paid at the rate of five (5%) per cent per annum, paynble semi-annually on the first day of April and of October of each and every year from the date thereof, the principal and interest of said bonds to be payable at the office of the City Treasurer of Charlevoix, Michigan, said interest to be evidenced by coupons to be signed by the original or lithographed or printed signatures of the Mayor and Clerk of said City of Charlevoix, Michigan.

BE IT FURTHER RESOLVED That the Mayor and Clerk of said City of Charlevoix be and they are hereby authorized and directed to sign and countersign, respectively, and execute said bonds in conformity with the above specifications, and attach thereto the corporate seal of said City of Charlevoix; and that upon the due and legal execution of said bonds, the said Mayor and Clerk be and they hereby are authorized and directed to deliver said executed bonds to the Treasurer of said City.

BE IT FURTHER RESOLVED that the Bonds and coupons shall be in substantially the following form, to-wit:

UNITED STATES OF AMERICA
STATE OF MICHIGAN
COUNTY OF CHARLEVOIX
CITY OF CHARLEVOIX
REFUNDING BRIDGE BONDS

KNOW ALL MEN BY THESE PRESENTS That the City of Charlevoix, County of Charlevoix and State of Michigan, hereby acknowledges itself justly indebted and for value received, promises to pay to [illegible]

ONE THOUSAND DOL[illegible] lawful money of the United States of America on the first day of October 19—, at the office of the City Treasurer of the City of Charlevoix, Charlevoix County, Michigan, with interest thereon until paid at the rate of Five (5%) per cent per annum, payable semi-annually on the first day of April and of October of each and every year from the date thereof at the said office of the City Treasurer, City of Charlevoix, Charlevoix County, Michigan, upon the presentation and surrender of the proper interest coupons hereto attached as they severally become due: and for the prompt payment of the prinripal and interest of this bond and of the series of which it forms a part, the full faith, credit and resources of said City of Charlevoix, are hereby irrevocably pledged.

This bond is one of a series of twenty-five (25) bonds of like date and tenor issued under, in pursuance of and in conformity with the Provisions of Act No. Thirteen (13), Public Acts (extra session) of Michigan for the year 1932, as amended by Act. No. One Hundred Forty Three (143) of Public Acts of Michigan for the year 1933, and was authorized by a Resolution of the Common Council of said City of Charlevoix, duly passed at a regular meeting of said Common Council held on Monday the 10th day of September A. D. 1934. Said series of twenty-five (25) bonds of which this is one, has been issued for the purpose of refunding Twenty-five Thousand ($25,000.00) Dollars, Refunding Bridge Bonds dated October 1st, A. D., 1914, and maturing October 1st, A. D., 1934, the principal and interest of this bond and of the series of which it forms a part are payable out of the Interest and Sinking Fund of said City of Charlevoix, and said series of bonds are hereby declared to be tax exempt under and in accordance with the laws of the State of Michigan.

It is hereby certified and recited that all acts, conditions and things required to be done precedent to and in the issuance of said series of bonds of which this is one, in order to make them valid and binding obligations of said City of Charlevoix, have happened and have been done and performed in regular and due form and time, as required by law, and that the total indebtedness of said City, including the series of bonds of which this is one, does not exceed any constitutional or statutory limitation.

IN WITNESS WHEREOF the Mayor and Clerk of said City of Charlevoix, County of Charlevoix and State of Michigan, have, by the order and direction of the Common Council of said City of Charlevoix, officially hereunto subscribed the Corporate name of said City, affixed the Corporate Seal thereof and executed this bond this first day of October A. D., 19—.

SPRINGVALE N. F. L. A. SELLS LAST ACREAGE OF JOHN KNAPP FARM

The last acreage of the former John M. Knapp farm, comprising 7 tracts of 20 acres, has just been sold by the Federal Land Bank of St. Paul to Charles Skornia of Boyne City, says Ben R. Gardner, secretary of the Springvale National Farm Loan association in the territory in which the farm was located. Mr. Skornia expects to take immediate possession of the tract, which is situated only 7 miles north of Boyne City. Assisting in the negotiations was R. C. Churchill of Traverse City, field representative of the bank.

Word from the Land Bank indicates that August will show an even larger record of farms sold than did July, says Mr. Gardner, July having shown 47 farms sold to make a total of 477 compared with 229 for the corresponding portion of 1933. The great increase in the sale of farms is laid to the fact that land prices on the average have gone up several dollars per acre, that there are evidences of business gains in several lines, and that farms can be had on favorable terms.

Michigan farms in particular have been moving readily this year, and the Land Bank reports that four Michigan men lead the list of all its salesmen with 22 to 25 farms each for the season thus far, compared with 19 farms for the next highest salesman out-side of Michigan.

NO FOOD SHORTAGE FOR COMING WINTER

State Welfare Department Denies Rumors of Shortage

Despite unfounded rumors to the contrary, there will be no appreciable food shortage in Michigan next winter, according to an open letter being sent to all county relief organizations by Wm. Haber, Administrator for the State Emergency Welfare Relief Administration.

Dr. Haber based his statement on a survey just completed by Federal authorities, who in turn based their calculations on the food consumption throughout the nation for the last ten years and the estimated production of all kinds of foods during the 1934-5 period.

The administrator's letter conveys the information that there will be no shortage at all of two-thirds of the food items in general use, and but from 5 to 10 per cent on the remainder, although in some cases it is said the shortage on these latter will not even reach so small a percentage.

MAKES YOU LOSE UNHEALTHY FAT

A young woman of Norwich, Conn., writes: "I lost 16 lbs. with my first bottle of Kruschen. Being on night duty it was hard to sleep days but now since I am taking Kruschen I sleep plenty, eat as usual and lose fat, too."

To take off fat—take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—one bottle that lasts 4 weeks costs but little—get it at any drugstore in America. If this first bottle fails to convince you this is the SAFE and HARMLESS way to lose fat—your money gladly returned.

Don't accept anything but Kruschen if you want to reduce safely.

Saved by new Vitamins of Cod Liver Oil in tasteless tablets.

Pounds of firm healthy flesh instead of bare scraggy bones! New vigor, vim and energy instead of tired listlessness! Steady, quiet nerves! That is what thousands of people are getting through scientists' latest discovery—the Vitamins of Cod Liver Oil concentrated in little sugar coated tablets without any of its horrid, fishy taste or smell.

McCoy's Cod Liver Oil Tablets, they're called! "Cod Liver Oil in Tablets", and they simply work wonders. A little boy of 3, seriously sick, got well and gained 10½ lbs. in just one month. A girl of thirteen after the same illness, gained 3 lbs. the first week and 2 lbs. each week after. A young mother who could not eat or sleep after baby came got all her health back and gained 10 lbs. in less than a month.

You simply must try McCoy's at once. Remember if you don't gain at least 3 lbs. of firm healthy flesh in a month get your money back. Demand and get McCoy's—the original and genuine Cod Liver Oil Tablets approved by Good Housekeeping Institute. Refuse all substitutes—insist on the original McCoy's—there are none better.

ORDINANCE NO. 179

(Continued from page 5).

ciation Fund and—or Contingent Fund to the Bond Fund, shall not operate as an abatement of the Bond Fund requirements hereinbefore set forth.

Section 12. The gross revenues derived from the operation of the System shall be deposited in a Federal Reserve System member bank, duly qualified and doing business in the State of Michigan, in the separate and special funds hereinabove described, and each of said designated funds held therein shall be impressed with a trust for the benefit of those entitled thereto.

Section 13. Such bonds shall be sold and the proceeds applied in accordance with the provisions of said Act. No. 94, Public Act of Michigan, 1933.

Section 14. The Charlevoix County State Bank of Charlevoix, Michigan, is hereby designated as depositary of the proceeds of the sale of such bonds and of the revenues of said Sewage Disposal System and on the written acceptance of such trust and the giving of security therefor in accordance with law and to the satisfaction of the Council, all such monies shall be deposited in said Bank to the credit of the appropriate funds.

Section 15. The bonds hereby authorized shall be in substantially the following form:

UNITED STATES OF AMERICA
STATE OF MICHIGAN
COUNTY OF CHARLEVOIX
CITY OF CHARLEVOIX
SEWAGE DISPOSAL SYSTEM
REVENUE BONDS

No._____ $1,000.00

KNOW ALL MEN BY THESE PRESENTS, that the City of Charlevoix, Michigan, for value received, hereby promises to pay to the bearer, or, if registered, to the registered holder hereof, but only out of the revenues of said Sewage Disposal System, including all appurtenances and extensions thereto—the sum of One Thousand Dollars on the 1st day of January, A. D., 19—, with interest thereon from the date hereof until maturity at the rate of 4 per cent per annum, payable semi-annually on the 1st day of January and on the 1st day of July of each year, on presentation and surrender of the annexed interest coupons as they severally become due. Both principal of and interest on this bond are payable in lawful money of the United States of America, at the office of the treasurer of the City of Charlevoix, Michigan, and for the prompt payments thereof the gross revenues of said Sewage Disposal System, including all appurtenances and extensions thereto, after provision has been made for reasonable and necessary expenses for operation, administration and maintenance, is hereby irrevocably pledged, and a statutory first lien thereon is hereby created.

This bond is one of a series of seventy-three bonds of like date and tenor, except as to date of maturity, aggregating the sum of $73,000.00 issued pursuant to the authority of Act No. 94 of the Public Acts of Michigan, 1933, which bonds do not constitute an indebtedness of said City of Charlevoix within any State constitutional provision or statutory limitation, and of an Ordinance No. 179 duly adopted in pursuance thereof by the Council of the City of Charlevoix on September 10th, 1934, for the purpose of constructing a Sewage Disposal System for the City of Charlevoix and is payable solely out of the revenues of said Sewage Disposal System including all appurtenances and extensions thereto. The City of Charlevoix hereby covenants and agrees to fix and maintain at all times while any of such bonds shall be outstanding such rates for services furnished by said Sewage Disposal System as shall be sufficient to provide for the payment of the interest upon and principal of all such bonds as and when the same become due and payable, to create a bond and interest redemption fund therefore, to provide for the payment of the expense of administration and operation and such expenses for maintenance of said Sewage Disposal System necessary to preserve the same in good repair and working order, to build up a reserve for depreciation of said Sewage Disposal System, and to build up a reserve for improvements, betterments and extensions to said Sewage Disposal System other than those necessary to maintain the same in good repair and working order.

This bond is a self-liquidating revenue bond and the principal of and interest on this bond are exempted from any and all state, county, city, incorporated village, municipal and other taxation whatsoever under the laws of the State of Michigan and is secured by the statutory lien created by said Act No. 94 of the Public Acts of Michigan, 1933, and payable solely from the revenues of said Sewage Disposal System, including all appurtenances and extensions thereto; and is not a general obligation of the City of Charlevoix.

This bond may be registered as to principal only on the books of the Treasurer of the City of Charlevoix in the name of the holder, and such registration noted on the back hereof by the Treasurer, after which no transfer shall be valid unless made on the books and noted on the back hereof in like manner, but transferability by delivery may be restored by registration to bearer. Such registration shall not affect the negotiability of the interest coupons.

It is hereby certified and recited that all acts, conditions and things required by law precedent to and in the issuance of this bond exist and have been done and performed in regular and due time and form as required by law.

IN WITNESS WHEREOF the Council of the City of Charlevoix, Michigan, has caused this bond to be signed, in the name of the City of Charlevoix, by its Mayor and countersigned by its City Clerk and the corporate seal of the City of Charlevoix affixed thereto, and the coupons hereto attached to be signed by the facsimile signatures of said Mayor and said City Clerk, which officials by the execution of this bond do adopt as and for their own proper signatures their respective facsimile signatures appearing on said coupons, and this bond to be dated the 1st day of January, 1934.

Section 16. The City of Charlevoix hereby covenants and agrees with the holder or holders of the bonds herein proposed to be issued or any of them that it will punctually perform all duties with reference to said Sewage Disposal System required by the Constitution and Laws of the State of Michigan, including the making and collecting of sufficient rates and segregating the revenues of said plant and the application of the respective funds created by this ordinance, and it hereby covenants and agrees not to sell, lease, mortgage or in any manner dispose of said Sewage Disposal System, including all appurtenances and extensions thereto until all of the said bonds herein authorized to be issued shall have been paid in full, both principal and interest, or unless and until provisions shall have been made for the payment of all bonds and interest thereon in full; and the City of Charlevoix further covenants and agrees with the holders of said bonds to maintain the System in good condition and operate the same in an efficient manner and at a reasonable cost and so long as any of the bonds are outstanding, to maintain insurance for the benefit of the bond holders on said System of a kind and in an amount which usually would be carried by private companies engaged in a similar type of business; and to keep proper books of records and accounts (separate from all other records and accounts) in which correct entries shall be made of all transactions relating to the System; and to furnish, upon written request, to any holder of any of the bonds, not more than 30 days after the close of each six months fiscal period complete operating and income statements of the System in reasonable detail covering such six months period, and, not more than 60 days after the close of each fiscal years, complete financial statements of said System and the City of Charlevoix covering such fiscal year and certified by independent auditor; and the City of Charlevoix covenants and agrees that any purchaser of 25 per centum in aggregate principal amount of bonds at the time then outstanding or any holder or holders of said amount of outstanding bonds shall have the right at all reasonable times to inspect said System and all records, accounts and data of the City of Charlevoix relating thereto.

Section 17. While any of the bonds hereby authorized shall be outstanding and unpaid, no additional bonds shall be issued payable from the revenues of said Sewage Disposal System, including all appurtenances and extensions thereto, which shall be senior to or on a parity with the bonds herein authorized.

Section 18. If any section, paragraph, clause or provision of this ordinance shall be held invalid, the invalidity of such section, paragraph, clause or provision shall not affect any of the other provisions of this ordinance.

Section 19. Any accrued interest received from the sale of such bonds shall be deposited in the Bond Fund and applied toward the payment of interest next maturing after delivery of said bonds.

Section 20. All ordinances, resolutions or orders, or parts thereof, in conflict with the provisions of this ordinance are to the extent of such conflict hereby repealed.

Section 21. This Ordinance shall be published in the Charlevoix Courier, a weekly newspaper published and circulated in the City of Charlevoix, once a week for two successive weeks, and shall take immediate effect after such publication.

Adopted at a regular meeting of the Common Council of the City of Charlevoix, Michigan, held in the Council room in said city, on the 10th day of September, A. D. 1934, by the following yea and nay vote:

Yeas: Carey, Fessenden, Hallett, Kibbe, Ranger, Webster.

AT THE MOVIES

Film Combines Music, Mystery

There have been many musical and backstage pictures; and there have been equally as many films dealing with the diabolical designs of fiendish murderers; but Paramount brings to the screen the first picture combining the two.

"Murder at the Vanities," the film version of Earl Carroll's successful current season stage hit, coming to the Palace theater next Friday and Saturday, September 14 and 15, mixes music and mystery for the first time.

"Gambling Lady" Star Wins Gamble With Life

Barbara Stanwyck, who has the role of a gambling queen in the Warner Bros. production of "Gambling Lady," which comes to the Palace theater on Sunday and Monday, September 16 and 17, has been flirting with Lady Luck all her life. But not by the way of cards or the roulette wheel or the ivory cubes. She knew nothing about that kind of gambling before she played the picture role. But she knows what it is to take a chance on the game of life, for she was left an orphan at an early age and literally had to battle her way for a chance to make a living.

Starting in a night club as hostess, she fought her way up the ladder although it was many years of hardship before Lady Luck smiled at her and made her one of the most famous of picture stars.

"Housewife" Dynamic Drama of Special Appeal to Women

"Housewife," the Warner Bros. picture which comes to the Palace theater on Tuesday and Wednesday, September 18 and 19, is a dynamic love drama spiced with hilarious comedy, and with an especial appeal to women inasmuch as it shows, for the first time, how the wife inspires her husband to success.

It has an unusually strong and well balanced cast with George Brent, Bette Davis and Ann Dvorak forming the triangle in a unique domestic entanglement and John Halliday crashing in to complicate matters as the lover of the neglected wife.

SUNDAY DINNER SUGGESTIONS
By Ann Page

A decided drop in the price of butter is good news for food shoppers. Eggs are no more expensive but even the cheapest egg is good, thanks to cooler weather. Cheese stays cheap and cheese is one of the best foods we have. Meats continue high or higher.

Potatoes are remarkably fine in quality, and even cheaper than they were a year ago. People afraid of excess weight have made many other people forget what a delicious and healthful food potatoes really are. The trouble with potatoes is the number of extra pats of butter that are eaten with them or the fat they are fried in.

Fruits are plentiful and low or moderately priced, including several varieties of grapes, melons, apples and pears. New crop grapefruit are juicy and well flavored. Fresh prunes, crabapples and quinces will help fill the preserving closet.

DEER FEED EXPERIMENT SHOWING GOOD RESULTS

Animals Show Preference for Sunflowers, Buckwheat, Field Peas

Sunflowers are apparently much favored as food by the deer of Alpena county.

I. H. Bartlett of the Game Division, Department of Conservation, recently made a check of the six one-acre food patches planted by the Department in Muy on the Doctors' Hunting club and LeRoy Hunting club in Alpena county.

Bartlett found that all six patches had been used by the deer and that the sunflowers on two of the patches had been stripped of their tops and leaves, leaving only the bare three-foot stalks and leaf steps. Some of the sunflowers had shown a growth of seven feet and several bore flowers.

Buckwheat in all but one patch had been browsed to a stubble. Canadian field peas and soy beans had been browsed down, but the vetch showed little evidence of having been fed upon. The millet which had grown to a height of four feet, had not been used. The vetch, sudan grass and hemp had also grown well.

The food patches are experimental plantings made by the department in an effort to learn what plants will attract deer. Those not browsed at this time are expected to furnish food later in the season to both deer and game birds.

Considering the dry weather and conditions under which they were planted last May, the experimental box elder plantings on the two clubs have proved highly successful. Of 1,876 trees planted, only 351 or 18 percent have died. Some are sprouting profusely, bearing sprouts as long as 32 inches. The box elders are expected to serve as winter deer browse.

LEGION CONVENTION AT TRAVERSE CITY

Six Thousand Expected for State Gathering Opening Friday

A troop movement which will rival the concentration of men in cantonments back in 1917, will begin this week when members of the Michigan Department, American Legion, start moving on Traverse City for the annual convention and by the time the convention opens its three-day session on Friday, September 14, more than 10,000 ex-service men and their guests will be assembled there.

Thursday—Several pre-convention meetings will be held with various committees and officers of both the Legion and Auxiliary participating and the annual pre-convention dance open to the public will be held Thursday night.

Friday—The convention program will shift into height with Department Commander Don Beardsley calling the convention to order Friday morning at 10:30. It will be at this opening session that National Commander Edward Hayes will deliver his address. Business meetings will be held throughout the day and at two o'clock in the afternoon the drum and bugle corps preliminaries will begin at Thirteenth street Athletic Park. The finals will begin at eight o'clock Friday evening. This will be one of the colorful events of the entire convention.

The annual convention parade, in which more than 6,000 veterans will pick up the rhythm they dropped in November 1918 will be held Saturday afternoon, starting at two o'clock. This procession will end at the Thirteenth street Athletic Park where at four o'clock the classic football game between the Traverse City Independents and the Detroit Lions of the National League, a professional organization, will be held. The annual Legion banquet will be held Saturday evening.

Sunday—The day will be devoted exclusively to business sessions and a memorial service, election of officers, selection of the meeting place for 1935 and other matters will be disposed of.

PLANS DISTRIBUTION PRIMARY SCHOOL FUND

Amount This Year Will Be $7.84 per Child—Less Than Before

Plans are being made by the state department of public instruction to send out the September installment of primary school interest fund money which is to be distributed this year on the basis of 1,389,117 school children. The amount will be $7.84 per child, a total of $10,900,000.

The census list of school children shows an increase of only 6,239 over the number of children a year ago, a retardation in the rate of increase as compared with prior years. Prior to 1929 the number was increasing from 35,000 to 50,000 children each year. From 1929 to the present time, the retardation in increase has been constant.

The rate per child this year is $2.58 less than it was a year ago. The total rate per child for both the September and December installments will be a little more than $10 per child, the report states. The rate last year was $12.50 per child. The additional $3.00 per child will be distributed in December.

"HOLSUM" BREAD CHANGES NAME TO "MICHIGAN"

The bakers of "Holsum" bread in this community announce that effective at once the name "Michigan" takes the place of "Holsum" on all products baked by the company.

In discussing the name change, Mr. Percy Owen, President of the company, stated it was the consensus of opinion of officers and directors as well as dealers, that the name "Michigan" was ideally adapted to the bakery's products, inasmuch as the company is owned entirely by Michigan people, all the employees are Michigan folk, and distribution of the products is exclusively among Michigan grocers and consumers.

Mr. Owen also emphasized that the change was a change in name only. He stressed that the high quality standards responsible for the wide acceptance of the company's products, under the "Holsum" name, would be resolutely maintained under the new "Michigan" name.

SCHOOL ENROLLMENT DECREASES

DECLINE IN ALL DEPARTMENTS SHOWN IN REPORT

Routine Work Tuesday Morning Following Registration and Assignments Monday

Charlevoix public schools opened for the 1934-35 term Monday morning with registration. Class assignments followed and now everything is running smoothly and regular routine under way.

With enrollment of students practically completed, Supt. O. P. North has made available figures which show a decrease from a year ago. The drop in enrollment is a general one, apparent in all grades from high school down.

Up to the present time 351 students have enrolled in the junior and senior high schools. This number compares with 358 a year ago and 387 for the 1932-33 term. The grade enrollment to date is 277, as compared with 283 a year ago and 320 two years ago. The total enrollment of the 1934-35 term is 628, 13 less than a year ago when the figure was 641. The 1932-33 enrollment was 707, which included the county normal, abandoned two years ago.

Following is the enrollment by grades:

High School

Grade	This	Last
12th Grade	46	50
11th Grade	63	69
10th Grade	71	59

Junior High

Grade	This	Last
9th Grade	79	83
8ht Grade	44	51
7th Grade	48	42

Elementary Dept.

Grade	This	Last
6th Grade	46	53
5th Grade	44	37
4th Grade	39	38
3rd Grade	34	40
2nd Grade	44	40
1st Grade	45	55
Kindergarten	25	31

Among the 351 students enrolled in high school, 72 are tuition students, according to Mr. North's report.

TEMPERANCE GROUP ELECTED OFFICERS

Mrs. Gladys Palmer Heads Local Union Ensuing Year

The community room was beautifully decorated with fall flowers for the W. C. T. U. meeting last Friday afternoon and the members brought gifts for the state convention souvenir booth.

The topic "Social Bettermen" was presented by Mrs. Lois Camphell in a paper which was well received by her audience.

Plans were made to send delegates to the district convention at Mancelona about Oct. 1st and to the state convention at Battle Creek Oct. 17-19; also to collect unpaid dues before Oct. 1st; to replace any flags and standards missing from the school rooms; to subscribe for the "Young Crusader" for the 4th, 5th, and 6th grades; to supply needed wall rolls and pledge cards to the Sunday schools; to have the "decent movie" movement presented in Charlevoix Oct. 21st; and to send cars to bring local life members to the November meeting which will have special features in their honor.

Officers for the ensaing year were elected as follows: President, Mrs. Gladys Palmer; vice president, Mrs. Mary Kirby; cor. secretary, Mrs. E'la Usher; rec. secretary, Mrs. Lillian Bartholomew; treasurer, Mrs. Cora Kehlerhouse.

FERRY TRAFFIC HAS HUGE GAIN

Increases 65 Per Cent Over Same Week of Last Year

Increasing 65 per cent, 18,497 passengers cross the Straits of Mackinac on state ferry boats during the week ending August 26, compared with 11,942 passengers the corresponding week of 1933, Murray D. Van Wagoner, state thighway commissioner announced.

The number of vehicles jumped 63 per cent, or to 9,946 this year as compared with 6,302 a year ago. Revenue showed an increase of 60 per cent, climbing from $11,209 to $17,607.

RAILWAY OFFICIALS VISIT HERE SUNDAY

Special Train Brought Officials of Major Rail Lines

Charlevoix was visited Sunday evening by a special train bringing officials of the Erie, C. & O., Nickle Plate and Pere Marquette Railroad systems here on a tour of inspection of Pere Marquette properties.

There were six private cars, a diner, a Pullman and a day coach making up the train. From Charlevoix the train went to Ludington, leaving there to visit other points in the system.

This is the first time that high officials of these four railroads have ever visited this city. The entire list of members was not made public but noted in the party were O. P. Van Sweringen, of the Nickle Plate; President Whittaker, of the Erie; and Vice President Probert, of the P. M. Other officials of the P. M. aboard the train were A. E. Badger, Detroit and J. A. Grigware, Grand Rapids.

FOOTBALL SEASON OPEN SEPT. 29TH

THIRTY CANDIDATES OUT FOR INITIAL PRACTICE

Kipmen Face Five-Game Schedule and Have Tip of Michigan Conference Title to Defend

Facing a stiff five-game schedule, and with the Tip of Michigan Class C. conference title to defend, Charlevoix high school football stalwarts started practice Monday afternoon.

The Kipmen, although playing but three games a year ago, were undefeated, winding up the season with the conference title tacked away for the first time. This year's schedule calls for two more games than a year ago, all with class C schools.—The season opens September 29th at East Jordan.

Coach Kipke lost hat three regulars from last year's championship team and has reasons to view the approaching season with optimism. Roen and Potter, ends, graduated last spring, also Kerchnk, half, but despite Kerchak's loss Coach Kipke has an all-veteran backfield, including Shapton and Carey, halves, the former captain, Foster, at quarter, Hebert at full. All saw full service last year except Shapton, who alternated at half. Foster was perhaps one of northern Michigan's outstanding backfield performers.

Veterans in the line this year will include Pearl at center; Mayhew, regular guard and Ralph Shapton and Block, last year's reserve guards; Bergman, LaBlanc and Emery, tackles. Ed Radle, a reserve end last year, is available. Other likely candidates included in the group of thirty who reported for the initial practice session Monday afternoon include Keith Nickerson, Leroy Zelley and Morris Foster. 1933 subs, Lee Smith, Theo Jeffery, Fairbanks, Elzinger, Nowland and Oliver, as well as several others.

Games following the East Jordan contest are as follows:

Oct. 6—Boyne City here.
Oct. 20—Boyne City there.
Oct. 27—Harbor Springs here.
Nov. 3—Rogers City here.

ANNUAL RED CROSS MEET SEPTEMBER 28

Session to be Held in Charlevoix Public Library at 8 p. m.

Mrs. J. M. Harris and W. L. Martin, Boyne City, acting president and secretary, respectively, of the Charlevoix county chapter, American Red Cross, have issued notice of the annual meeting to be held Wednesday September 26th, at 8 p. m., in the Charlevoix public library.

Officers to be elected are president, vice-president, secretary, treasurer and ten members of the board of trustees. The president and secretary should live in the same town.

It is requested that nominations for candidates be sent to S. B. Henry of Charlevoix, chairman of the nominating committee.

STATE BANK HELD UP HERE SATURDAY

LONE BANDIT TOOK $1,314 FROM SMALL SAFE AND FLED BEFORE MAIN VAULT OPENED

LOOT DROPPED IN ALLEY RECOVERED LATER

Robber, Concealed in Bank, Bound Robert Livingston, 16-Year-Old Janitor, Held A. L. Livingston and Mrs. Harold Hallett Until 9:30—Police Fail to Find Clues

Charlevoix experienced its first bank robbery in history last Saturday morning.

As an unsuspecting public went about the usual routine of morning business only a few feet distant, a lone bandit held up the Charlevoix State Savings Bank, took $1,314 and made a clean get-away only to drop the loot in the alley behind the bank in a hurried departure. The money, enclosed in a canvas bag, was found by Police Officer Clarence Heise in a puddle of water about ten feet from a rear door of the bank, from which the robber made his exit.

Gaining entrance to the bank through an apper rear transom at an early morning hour, the handit, described as being young, five feet nine inches tall, wearing a light coat and glasses, completely masked and armed with a revolver, met Robert Livingston, 16-year-old son of Archie L. Livingston, conservator of the institution, as the youth entered at 7:30 to do the janitor work. Robert was tied up and made to lie down on the floor of a rear office room.

At 8 o'clock Mr. Livingston entered, noticed no cleaning done, went to the rear room looking for Robert and was greeted with the command, "Hands up." He was at first ordered to lie down and later allowed to sit in a chair while the robber questioned him regarding means of obtaining money. Mrs. Harold Hallet entered the bank at about 9 o'clock and was forced to join the other two.

The handit, apparently at ease, carried on a lengthy conversation with his captives. When informed the vault was governed by a time lock and would not open until 9:30, he said he would wait. He claimed to have been in Charlevoix four years ago, that he had transacted business with Mr. Livingston's bank, as well as the Charlevoix County Bank and showed surprise that Mr. Livington did not remember him.

As the regular hour for the bank opening at 9 o'clock passed and unsuspecting patrons of the institution tried the front door to gain entrance, the bandit became nervous. Shortly before 9:30 he forced Mrs. Hallett to open a small safe containing the $1,314. He waited about 10 minutes and, with the word he would be back and a warning not to sound an alarm for five minutes, departed through the rear door.

Loss of the money was an accident, it is believed, and not due to loss of nerve. Mrs. Clayton Trimble, who was seated in an automobile parked behind the postoffice, saw the man feel inside his coat and look back as he ran west up the alley intersecting State street by the Methodist church. It is believed the money fell from his coat when he ran as bank employes turned on the burglar alarm.

That the robber was an amateur, officers think, is proven by the fact that when Mr. Livingston entered and was ordered to "stick 'em up," he simply laughed, walked to the window of the rear office and put up the curtain which had been pulled down. The bandit made no move to shoot, simply ordering Mr. Livingston to lie down and again pulling down the curtain.

During the wait for the vault to open, the phone rang and Mr. Livingston answered it, with the handit's pistol in his back and orders not to "try anything funny." Mrs. Livingston had called to ask why the bank was not open. She was assured that it would open soon and that a business conference was in progress.

Mrs. Livingston had been called by Mrs. Harry Craig, wife of the bank president, who was down town shopping and had noticed the blinds drawn, though they had been open when she had passed a few moments earlier.

County and city police officers were called and were soon joined by state police from Traverse City. An intensive search was conducted Saturday and Sunday, but up to the present time no trace of the bandit has been found. While officers believe the robber to be local talent, they admit having no clues.

REV. HURD RETURNED LOCAL M. E. CHURCH

Assigned Again to This Field at Annual Methodist Conference

Rev. W. W. Hurd, popular pastor of the Charlevoix Methodist Episcopal church, was returned to this field for another year by the annual conference which closed Sunday at Petoskey.

The appointment was accompanied by some very complimentary remarks by the bishop in consideration of the ananimous vote of the local church. However, this church has the Episcopal system and the bishop only has the appointing power.

The Rev. Quant goes back to Big Rapids, the Rev. Lockyer goes to Remas, the Rev. Pollock back to Alhion district, the Rev. Pellowe returns to Petoskey, the Rev. Eley to Boyne City, the Rev. Lieich of East Jordan retires and Rev. Cermak from Northville goes there, Rev. Stanford of Levering goes to Clare and the Rev. Finkbeiner goes to Levering and Pellston.

DISTRIBUTE NEXT PRIMARY FUNDS IN JANUARY

The State Department of Pahlic Instruction announced today that the next release of Federal and state school aid money would not be made until after the Christmas holidays. Eleven million dollars of primary school money has already been distributed to aid in the school opening. Other school aid funds are accumulating. Present resources must suffice until January.

APPLY FOR A LOCAL FRESHMAN COLLEGE

Thirty-eight of Needed 40 Have Signified Intention to Attend

Application is being made for the establishment of a Freshman College in Charlevoix, according to an announcement by Supt. O. P. North of local public schools.

Already 38 have shown interest in attending these classes. Forty or more are needed and anyone interested is asked to notify the school.

If the application is approved, instructors will be furnished by the University of Michigan and compensated by the state under the FERA plan now being put into effect throughout Michigan.

Subjects to be offered will likely be college mathematics, English, history and language. Credit will be given at the university and is transferable to other colleges. The local school board furnishes the rooms, heat, light and library facilities. Classes may start as early as October 1st, according to Mr. North.

LACY IS VICTOR OVER COMSTOCK

HAS PRIMARY MAJORITY OF OVER 9,000 VOTES

Fitzgerald Wins Republican Nomination by Margin of More Than 150,000 Over Groesbeck

Former Judge Arthur J. Lacy today bears the Democratic stamp of approval as the party's nominee for governor after defeating the incumbent, Governor William A. Comstock for the nomination by nearly 10,000 votes, with only 48 districts of the state's 3,447 to be heard from.

Only 5 were in Wayne county and the other 43 in the state carried relatively few votes.

Comstock earlier had indicated he would contest the vote and ordered state police to seize and guard Wayne county ballots. A few hours later he reconsidered, withdrew the police and sent his rival congratulatory telegram admitting the Lacy victory and offering his services in the November campaign.

With 3,399 districts of 3,447 reported the vote stood:

Lacy—119,390.
Comstock—109,968.

Meanwhile Secretary of State Frank D. Fitzgerald added to his already commanding lead and appeared to have won the Republican nomination by better than 150,000 votes over former Governor Alex J. Groesbeck.

John K. Stack, Jr., auditor general, was a poor third in the Democratic gubernatorial contest. John Smith, Detroit city councilman, was far behind for the third place on the Republican side, and Ora W. Bailey ran fourth.

MICHIGAN TITLE ASSN. CONVENTION SEPT. 27-30

Group Entertained Here in 1923 Return for Annual Convention

Preparations are under way at the present time for the entertainment of members of the Michigan Title Association, who will come to Charlevoix for their annual convention on Thursday, Friday, Saturday and Sunday, September 27, 28, 29 and 30.

The Michigan association, a branch of the American Title Association, met at the Belvedere Hotel in 1932. The membership comes from every corner of the state. It is anticipated at least 125 members will be present, many of whom will bring their families for the four-day session.

Headquarters for the convention will be at either the Hotel Hallett or Hallett's Inn, depending upon the number attending. Mr. and Mrs. Robert F. Sloan of this city, the former a member of the executive committee, have charge of local arrangements.

SPORTSMEN WANT RETURN OF BOUNTY

FOUR MONTHS OF SPORT PROMISED

LOWER PENINSULA HUNTING OPENS OCTOBER 1

Only Changes in Game Laws This Year Are Regulations Covering Ducks and Beaver

Fall is in the air and so are thousands of sportsmen who are beginning to wonder just what regulations will govern their shooting and trapping this year. "When does the pheasant and grouse shooting season open?" "Is there any change in the rabbit shooting code?" "Will we have any wood cock shooting this year?" "Has the deer season been changed?" "Is the season closed on fox squirrels?" These and other questions seem to be bothering the licensed hunters of the state and well they should for the open hunting season is less than a month away.

Outside of new wildfowl regulations and no change in the beaver trapping season the principal hunting sports remain the same as last year. The open dates, bag limits and species of the game that may be hunted this year follow in the order named:

DUCKS—Oct. 3 to Nov. 11 with Monday and Tuesday of each week rest days; 12 in one day, 24 in possession, 100 in the season with the exception that not more than five combined may be taken in any one day or more than 10 may be had in possession at any one time of canvasbacks, redheads, greater and lesser scaup, ringnecks, green wing, blue wing or cinnamon teal, shovellers or gadwalls.

GEESE AND BRANT—Season is the same as ducks. Four in one day and eight in possession.

JACK SNIPE (Wilson Snipe)—Season same as ducks. Ten in one day, 20 in possession and 50 in season.

GALLINULES AND RAILS—Season same as ducks.—Ten in one day, 20 in possession and 50 combined in season.

COTTONTAIL AND JACK RABBITS—Oct. 15 to Jan. 31 in lower peninsula and Oct. 1 to Jan. 31 in upper peninsula. Five in one day, 10 in possession and 50 in season. In the upper peninsula this means of combined species.

FOX SQUIRREL.—Oct. 1 to 10 in upper peninsula; Oct. 15 to 24 in lower peninsula. Five in one day, 10 in possession and 15 in season.

BADGER—North of Township 16 N. Oct. 15 to Jan. 31. South of this Oct. 15 to Jan. 1. No limit on number that may be taken.

CHANGE DATES GAY-LORD POTATO SHOW

Event Will Now Be Held on November 6, 7, and 8

The dates of the 11th Annual Top O' Michigan Potato and Apple Show have been changed to November 6, 7, and 8 due to the dates of October 31, November 1 and 2 conflicting with the Annual Extension Workers Conference at Michigan State College. This action was taken by the Board of Directors of the Top O' Michigan Potato Show Association at a special meeting in Gaylord on September 17.

It is the belief of the directors and officers that the change in dates may be more satisfactory for the show in general, as indications point towards a late digging season this year. Plans were made by the directors for the addition of several edacational features in the 1934 show which will add to the practical value to the large number of patrons.

STATE BANK DIRECTORS AND OFFICERS ELECTED

Harry A. Craig, Pres., A. L. Livingston Chosen Cashier

At a recent meeting, directors of the Charlevoix State Savings Bank, now reorganizing, were chosen and officers elected by the board of directors.

The new directors are: Harry A. Craig, Martin Block, Dr. F. F. McMillan and Frank Partridge. The new officers elected were: President, Harry A. Craig; vice-president, Dr. F. F. McMillan; cashier, Archie L. Livingston.

Reorganization efforts of the institution are rapidly nearing completion.

LEGAL NOTICES

ORDINANCE NO. 179

AN ORDINANCE AUTHORIZING THE CONSTRUCTION AND OPERATION OF A SEWAGE DISPOSAL SYSTEM AND AUTHORIZING AND PROVIDING FOR THE ISSUANCE OF SELF-LIQUIDATING REVENUE BONDS OF THE CITY OF CHARLEVOIX, CHARLEVOIX COUNTY, MICHIGAN, FOR THE PURPOSE OF DEFRAYING THE COST OF THE SAME, UNDER THE PROVISIONS OF ACT 94, PUBLIC ACTS OF MICHIGAN, 1933, APPROVED MAY 26, 1933; AND PRESCRIBING ALL OF THE DETAILS OF SAID BONDS AND PROVIDING FOR THE FIXING, COLLECTION, SEGREGATION AND DISPOSITION OF THE REVENUES OF THE SEWAGE DISPOSAL SYSTEM OF SAID CITY OF CHARLEVOIX INCLUDING APPURTENANCES AND EXTENSIONS THERETO, FOR THE PURPOSE OF PAYING THE COST OF AND OPERATION AND MAINTENANCE THEREOF, PROVIDING AN ADEQUATE DEPRECIATION FUND THEREFOR AND PAYING THE PRINCIPAL AND INTEREST OF SAID REVENUE BONDS; AND PROVIDING FOR A STATUTORY LIEN, IN FAVOR OF THE HOLDER OR HOLDERS OF SUCH BONDS, UPON THE WHOLE OF SUCH REVENUES.

THE CITY OF CHARLEVOIX ORDAINS:

Section 1. It is hereby determined and declared to be necessary and conducive to the public health and welfare of the City of Charlevoix to construct, and it is hereby determined to construct, a Sewage Disposal System, consisting of intercepting sewers, force mains, pumping stations, river crossings, treatment works, and other incidentals, as part of Sewage Disposal System of the City of Charlevoix in accordance with the maps, plans and specifications prepared by Greeley & Hansen, Engineers, said maps, plans and specifications accompanying said City of Charlevoix application for a loan and grant filed with the Federal Emergency Administration of Public Works (P. W. A. Docket No. 2825).

Section 2. That the Council has caused an estimate of the cost of constructing the foregoing to be made by the said Greeley & Hansen, Engineers, and does hereby determine that the total estimated cost of such improvement is the sum of Eighty Seven Thousand Two Hundred ($87,200.00) Dollars.

Section 3. That to pay the cost of constructing such improvement it will require the issuance and sale of and there is hereby authorized to be issued and sold, pursuant to the provisions of Act 94, Public Acts of Michigan of 1933, revenue bonds in the aggregate principal sum of Seventy Three Thousand ($73,000.00) Dollars, being seventy-three (73) bonds of One Thousand ($1,000.00) Dollars each, numbered one (1) to seventy-three (73), inclusive, dated January 1st, 1934, and payable serially as follows: Two Thousand ($2,000.00) Dollars on January 1st of each year from January 1st, 1936 to January 1st, 1942, inclusive; Three Thousand ($3,000.00) Dollars on January 1st of each year from January 1st, 1943 to January 1st, 1951, inclusive; and Four Thousand ($4,000.00) Dollars, on January 1st of each year from January 1st, 1952, to January 1st, 1959, inclusive, with interest at four (4%) per cent payable semi-annually on January 1st and July 1st in each year; both principal and interest to be payable in lawful money of the United States at the office of the City Treasurer of the City of Charlevoix, Michigan. Said bonds shall be signed by the Mayor and countersigned by the City Clerk and the corporate seal of the City affixed thereto, and the interest coupons attached to said bonds shall be signed by the facsimile signatures of said Mayor and said City Clerk and said officials by the execution of said bonds shall adopt as and for their own proper signatures their respective facsimile signatures on said coupons.

Section 4. Said bonds shall not be a general obligation or indebtedness of the City of Charlevoix, but shall be payable solely from the revenue derived from the operation of said Sewage Disposal System, including all appurtenances and extensions thereto, and in secure such payment there is hereby created a first lien upon the whole of the revenue of the Sewage Disposal System of said City of Charlevoix, including all appurtenances and extensions thereto, to continue until the payment in full of the principal and interest of such bonds.

Section 5. The holder or holders of said bonds or coupons representing in the aggregate not less than twenty (20%) per cent of the entire issue then outstanding may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect and enforce the statutory lien upon the revenue of said system, including appurtenances and extensions thereto, and may, by suit, action, mandamus, or other proceedings, enforce and compel performance of all duties of the officers of the City of Charlevoix including the fixing of sufficient rates, the collection of revenues, the proper segregation of the revenues of the system, including appurtenances and extensions thereto, and the proper application thereof: Provided, however, that said statutory lien upon said revenue shall not be construed to give such holder or holders of any bond or coupon authority to compel the sale of such system.

If there be any default in the payment of the principal of or interest upon any of said bonds, any Court having jurisdiction in any proper action may appoint a receiver to administer and operate said system, including appurtenances and extensions thereto, on behalf of the City of Charlevoix, and, under the direction of said Court and by and with the approval of said Court, to perform all of the duties of the officials of the City more particularly set forth herein and in Act 94, Public Acts of Michigan, 1933.

The holder or holders of any of such bonds, or any coupons therefrom, shall have all other rights and remedies given by said Act No. 94, Public Acts of Michigan, 1933, for the collection and enforcement of said bonds and the security therefor.

Section 6. The construction, alteration, repair, operation and management of said Sewage Disposal System and the supervision and control of the Superintendent of the Electric Light and Water Plants of the City of Charlevoix, Michigan, subject to the order, rules and regulations of the Council.

Section 7. The rates for services furnished by said Sewage Disposal System shall be levied upon each lot or parcel of land, building or premises having any sewer connection with said Sewage Disposal System, on the basis of the quantity of water used thereon or therein as the same is measured by the water meter there in use, and shall be collected at the same time and in the same manner as provided for the payment of water bills. The Council may classify the users of water according to the quantity of water used, and charge such rates to users in each class as it may deem reasonable. Such classes and rates are hereby tentatively fixed as follows:

Charges per 1,000 gallons

payable quarterly $0.16

Minimum charge per quarter ..$1.00

The City shall pay out of the appropriate general funds the reasonable cost and value of the services rendered to the City by such Sewage Disposal System on the basis of the foregoing schedule of rates and amounts of water used by the several departments, agencies or instrumentalities of the City. Special rates may be allowed by the Council for cases not clearly covered by the regular schedule. Charges shall constitute a lien on the property served by such connections, and if not paid within ninety days shall be collected in the same manner as general city taxes.

Section 8. The rates hereby fixed are estimated to be sufficient to provide for the payment of the interest upon and the principal of all such bonds as and when the same become due and payable, to create a bond and interest redemption fund therefor, to provide for the payment of the expenses of administration and operation and such expenses for maintenance of said Sewage Disposal System as are necessary to preserve the same in good repair and working order, to build up a reasonable reserve for depreciation thereof and to build up a reserve for reasonable and proper improvements, betterments and extensions other than those necessary to maintain the same in good repair and working order. Such rates shall be fixed and revised from time to time as may be necessary to produce these amounts, and it is hereby covenanted and agreed at all times to fix and maintain such rates for services furnished by said Sewage Disposal System as shall be sufficient to provide for the foregoing.

Section 9. The Council may make such rules and regulations governing the operation of said Sewage Disposal System and the collection of the service rates as it shall deem necessary. The Superintendent of the Electric Light and Water Plants may make such further laws, not inconsistent with the rules and regulations of the Council, as it may deem necessary for the management and protection of the Sewage Disposal System. Such rules, regulations and by-laws shall have the same force and effect as ordinances.

Section 10. The said Sewage Disposal System shall be operated on the basis of a fiscal year commencing on January 1st and ending on December 31st.

Section 11. The gross revenues of said Sewage Disposal System including all appurtenances and extensions thereto, are hereby pledged and ordered to be set aside and distributed monthly or oftener into separate funds, as follows:

(a) OPERATION AND MAINTENANCE FUND: There shall be first set aside out of the gross revenues amounts sufficient for the payment of the current reasonable and necessary expenses for operation, administration and maintenance of the System, including insurance.

(b) BOND AND INTEREST REDEMPTION FUND: There shall be next established and maintained a Bond and Interest Redemption Fund (hereinafter called the "Bond Fund"), which shall be used solely and only for the purpose of paying the principal of and interest upon the Bonds. During each fiscal year, out of the first available gross revenues there shall be set apart and paid into the Bond Fund a sum equal to 110 per cent of the aggregate amount of interest upon and principal of the bonds becoming due during each such year. The amount by which each such payment exceeds such aggregate amount of interest and principal shall be held in the Bond Fund as a reserve for deficiencies and used solely in accordance with the provisions hereof; provided, however, that no further payments need be made into said Bond Fund after enough of the Bonds have been retired so that the amount then held in said Bond Fund (including such reserve for deficiencies) is equal to the entire amount of the interest and principal that will be payable at the time of the maturity of all of the Bonds then remaining outstanding. If in any fiscal year the City of Charlevoix shall fail to pay into the Bond Fund the full amount hereinabove stipulated, then an amount equivalent to such deficiency shall be set apart and paid into the Bond Fund from the first available revenues of the following fiscal year or years.

If the City of Charlevoix shall fail to make any such payment into the Bond Fund as aforesaid during any fiscal year, any sums then held in the Bond Fund as a reserve for deficiencies, as above provided, shall be used for the payment of any portion of the interest upon and principal of the Bonds becoming due in such fiscal year on which Bonds there would otherwise be default; but such reserve shall be reimbursable therefor from the first available payments made into the Bond Fund in the following fiscal year or years in excess of the required payment for the then current fiscal year. All moneys held in said Bond Fund, as hereinbefore provided shall be deposited in a Federal Reserve System member bank, as hereinafter provided, and the deposits continuously secured by a valid pledge of direct obligations of the United States Government, of the aggregate market value (exclusive of accrued interest), at all times at least equal to the sum on deposit in said Bond Fund, or shall be invested in such direct obligations of the United States Government, deposited with such bank under an escrow agreement containing suitable provisions for the sale of such obligations when it shall prove necessary to draw upon said Bond Fund or the reserve therein.

(c) DEPRECIATION FUND: Out of the remaining gross revenues there shall be set aside sums sufficient to build up a reasonable reserve for depreciation of the existing System.

(d) CONTINGENT FUND: Out of the remaining gross revenues there shall be set aside sums sufficient to build up a reserve for reasonable and proper improvements, betterments and extensions to the existing System.

(e) SURPLUS: Any surplus accumulated in the Operation and Maintenance Fund which may be in excess of the cost of operating and maintaining the System during the remainder of the then present and next ensuing fiscal year shall be transferred to the Bond Fund; any monies in the Depreciation Fund in excess of the amount necessary for probable replacement, to be needed during the then present and next ensuing fiscal year, as determined by the Council, shall be transferred to the Bond Fund; and any monies in the Contingent Fund in excess of the amount necessary for reasonable and proper betterments to the System during the then present and next ensuing fiscal year, shall be transferred to the Bond Fund or used to purchase outstanding Bonds, and if used to purchase in the open market outstanding Bonds not yet due, such Bonds shall be purchased at not more than the fair market value thereof and shall thereupon be cancelled, provided, however, that any such transfers from the Operation and Maintenance Fund and—or Depreciation Fund and—or Contingent Fund to the Bond Fund, shall not operate as an abatement of the Bond Fund requirements hereinbefore set forth.

Section 12. The gross revenues derived from the operation of the System shall be deposited in a Federal Reserve System member bank, duly qualified and doing business in the State of Michigan, in the separate and special funds hereinabove described, and each of said designated funds held therein shall be impressed with a trust for the benefit of those entitled thereto.

Section 13. Such bonds shall be sold and the proceeds applied in accordance with the provisions of said Act, No. 94, Public Acts of Michigan, 1933.

Section 14. The Charlevoix County State Bank of Charlevoix, Michigan, is hereby designated as depositary of the proceeds of the sales of such bonds and of the revenues of said Sewage Disposal System and on the written acceptance of such trust and the giving of security therefor in accordance with law and to the satisfaction of the Council, all such monies shall be deposited in said Bank to the credit of the appropriate funds.

Section 15. The bonds hereby authorized shall be in substantially the following form:

UNITED STATES OF AMERICA
STATE OF MICHIGAN
COUNTY OF CHARLEVOIX
CITY OF CHARLEVOIX
SEWAGE DISPOSAL SYSTEM
REVENUE BONDS

No.———— $1,000.00

KNOW ALL MEN BY THESE PRESENTS, that the City of Charlevoix, Michigan, for value received, hereby promises to pay to the bearer, or, if registered, to the registered holder hereof, but only out of the revenues of said Sewage Disposal System, including all appurtenances and extensions thereto, the sum of One Thousand Dollars on the 1st day of January, A. D., 19—, with interest thereon from the date hereof until maturity at the rate of 4 per cent per annum, payable semi-annually on the 1st day of January and on the 1st day of July of each year, on presentation and surrender of the annexed interest coupons as they severally become due. Both principal of and interest on this bond are payable in lawful money of the United States of America, at the office of the treasurer of the City of Charlevoix, Michigan, and for the prompt payment thereof the gross revenues of said Sewage Disposal System, including all appurtenances and extensions thereto, after provision has been made for reasonable and necessary expenses for operation, administration and maintenance, is hereby irrevocably pledged, and a statutory first lien thereon is hereby created.

This bond is one of a series of seventy-three bonds of like date and tenor, except as to date of maturity, aggregating the sum of $73,000.00 issued pursuant to the authority of Act No. 94 of the Public Acts of Michigan, 1933, which bonds do not constitute an indebtedness of said City of Charlevoix within any State constitutional provision or statutory limitation, and of an Ordinance No. 179 duly adopted in pursuance thereof by the Council of the City of Charlevoix on September 10th, 1934, for the purpose of constructing a Sewage Disposal System for the City of Charlevoix and is payable solely out of the revenues of said Sewage Disposal System including all appurtenances and extensions thereto. The City of Charlevoix hereby covenants and agrees to fix and maintain at all times while any of such bonds shall be outstanding such rates for services furnished by said Sewage Disposal System as shall be sufficient to provide for the payment of the interest upon and principal of all such bonds as and when the same become due and payable, to create a bond and interest redemption fund therefore, to provide for the payment of the expense of administration and operation and such expenses for maintenance of said Sewage Disposal System necessary to preserve the same in good repair and working order, to build up a reserve for depreciation of said Sewage Disposal System, and to build up a reserve for improvements, betterments and extensions to said Sewage Disposal System other than those necessary to maintain the same in good repair and working order.

This bond is a self-liquidating revenue bond and the principal of and interest on this bond are exempted from any and all state, county, city, incorporated village, municipal and other taxation whatsoever under the laws of the State of Michigan and is secured by the statutory lien created by said Act No. 94 of the Public Acts of Michigan, 1933, and payable solely from the revenues of said Sewage Disposal System, including all appurtenances and extensions thereto, and is not a general obligation of the City of Charlevoix.

This bond may be registered as to principal only on the books of the Treasurer of the City of Charlevoix in the name of the holder, and such registration noted on the back hereof by the Treasurer, after which no transfer shall be valid unless made on the books and noted on the back hereof in like manner, but transferability by delivery may be restored by registration to bearer. Such registration shall not affect the negotiability of the interest coupons.

It is hereby certified and recited that all acts, conditions and things required by law precedent to and in the issuance of this bond exist and have been done and performed in regular and due time and form as required by law.

IN WITNESS WHEREOF the Council of the City of Charlevoix, Michigan, has caused this bond to be signed, in the name of the City of Charlevoix, by its Mayor and countersigned by its City Clerk and the corporate seal of the City of Charlevoix affixed thereto, and the coupons hereto attached to be signed by the facsimile signatures of said Mayor and said City Clerk, which officials by the execution of this bond do adopt as and for their own proper signatures their respective facsimile signatures appearing on said coupons, and this bond to be dated the 1st day of January, 1934.

Section 16. The City of Charlevoix hereby covenants and agrees with the holder or holders of the bonds herein proposed to be issued or any of them that it will punctually perform all duties with reference to said Sewage Disposal System required by the Constitution and Laws of the State of Michigan, including the making and collecting of sufficient rates and segregating the revenues of said plant and the application of the respective funds created by this ordinance, and it hereby covenants and agrees not to sell, lease, mortgage or in any manner dispose of said Sewage Disposal System, including all appurtenances and extensions thereto until all of the said bonds herein authorized to be issued shall have been paid in full, both principal and interest, or unless and until provisions shall have been made for the payment of all bonds and interest thereon in full; and the City of Charlevoix further covenants and agrees with the holders of said bonds to maintain the System in good condition and operate the same in an efficient manner and at a reasonable cost and so long as any of the bonds are outstanding, to maintain insurance for the benefit of the bond holders on said System of a kind and in an amount which usually would be carried by private companies engaged in a similar type of business; and to keep proper books of records and accounts (separate from all other records and accounts) in which correct entries shall be made of all transactions relating to the System; and to furnish, upon written request, to any holder of any of the bonds, not more than 30 days after the close of each six months fiscal period complete operating and income statements of the System in reasonable detail covering such six months period, and, not more than 60 days after the close of each fiscal years, complete financial statements of said System and the City of Charlevoix covering such fiscal year and certified by independent auditor; and the City of Charlevoix covenants and agrees that any purchaser of 25 per centum in aggregate principal amount of bonds at the time then outstanding or any holder or holders of said amount of outstanding bonds shall have the right at all reasonable times to inspect said System and all records, accounts and data of the City of Charlevoix relating thereto.

Section 17. While any of the bonds hereby authorized shall be outstanding and unpaid, no additional bonds shall be issued payable from the revenues of said Sewage Disposal System, including all appurtenances and extensions thereto, prior to or on a parity with the bonds herein authorized.

Section 18. If any section, paragraph, clause or provision of this ordinance shall be held invalid, the invalidity of such section, paragraph, clause or provision shall not affect any of the other provisions of this ordinance.

Section 19. Any accrued interest received from the sale of such bonds shall be deposited in the Bond Fund and applied toward the payment of interest next maturing after delivery of said bonds.

Section 20.—All ordinances, resolutions or orders, or parts thereof, in conflict with the provisions of this ordinance are to the extent of such conflict hereby repealed.

Section 21. This Ordinance shall be published in the Charlevoix Courier, a weekly newspaper published and circulated in the City of Charlevoix, once a week for two successive weeks, and shall take immediate effect after such publication.

Adopted at a regular meeting of the Common Council of the City of Charlevoix, Michigan, held in the Council room in said city, on the 10th day of September, A. D. 1934, by the following yea and nay vote:

LATE RAINS HELP MICHIGAN'S CROPS

Improvement Over August Noted in September State Report

Rains and cooler weather during August resulted in some improvement in the prospects for most late crops in Michigan,

Corn, potatoes, sugar beets, late cutting of alfalfa, and apples all showed gains during the past month, according to the September 1 report of the Michigan Co-Operative Crop Reporting Service.

Frosts August 29 and 30 caused considerable injury to potatoes and other crops in the upper peninsula, northern half of the lower peninsula, and on low ground in other parts of the State. Many sections are still in need of additional moisture to bring late crops to maturity.

DISTRICT HEALTH UNIT BULLETIN

Milk and Communicable Diseases

Practically every legal requirement in the production and distribution of milk had its inception or justification in the desire to prevent the spread of communicable disease.

The practice of scoring barns, utensils, the facilities for sterilization, cooling, methods of milking and handling milk all goes back to the well founded fact that dirty milk is unsafe milk. It is unsafe not only because it is more likely to contain whatever specific germs of disease such as typhoid or diphtheria, may be present among the handlers but because it is quite certain to contain the germ or germ products that cause diarrhea in infants and small children. The bacteria count was introduced simply to enable the responsible official to determine how much care is being taken to keep milk clean when he is not looking.

The tuberculin testing of cattle is primarily for the purpose of preventing the transmission of bovine tuberculosis to man, particularly to children.

Pasteurization, if properly done, is a great aid in helping to prevent the transmission of disease through milk. Boiling the raw milk used by children is another safe practice.

Only a comparatively few of the communicable diseases are known to be capable of transmission through milk. They are:

Cholera, diphtheria, paratyphoid fever, poliomyelitis (infantile paralysis), septic sore throat, tuberculosis, typhoid fever, bacillary dysentry, scarlet fever, undulant fever, including Malta fever.

In addition to these, which are specific infections, milk may contain a great variety of bacteria or their products which produce vomiting or diarrhea or both.

peculiar to human beings, the exceptions being tuberculosis and undulant fever. For this reason, in seeking the ultimate cause of a milk borne epidemic we usually look for an infected human being who has been in a position to infect the milk either directly, or through the water, or the utensils, or through having infected the cow.

It follows from this that milk which is merely dirty, or has a high bacterial count, cannot cause these specific infectious diseases unless the specific germ is present also. Nor are they likely to be present unless there is an infected human being handling the milk or utensils or polluting the water supply.

The infected human being may be either sick with the disease or a "carrier" of it. Carriers are individuals in whom the specific germs are present but who show none of the usual symptoms of the disease. In most diseases the condition is temporary; but in case of typhoid the chronic (continuing) carriers undoubtedly greatly exceed the number of temporary carriers and cases combined.

Where milk has been recognized as the means of transmitting the disease we have been considering as peculiar to human beings, an unusual number of cases have been taken sick within a short period of time. In tuberculosis and undulant fever, on the other hand, the cases occur at more widely spaced intervals and the evidence indicating that milk is responsible is less direct.

Ordinarily milk is infected at the farm. In from 80 to 90 per cent of the later epidemics of milk-borne disease this has been found to be the case.

The cities of Charlevoix, Gaylord, Harbor Springs, Petoskey and Elk Rapids have milk ordinances requiring a certain quality of milk before it can be distributed within the city limits. All dairies in the District Health Unit No. 3 are inspected by Dr. A. R. Renwick, Sanitary Inspector of District Health Unit No. 3 and also State Dairy Inspector.

WILSON'S CREED

I do not want to live under a philanthropy. I do not want to be taken care of by the government either directly or by any instruments through which the government is acting. I want only to have right and justice prevail so far as I am concerned. Give me right and justice and I will undertake to take care of myself. I will not live under trustees if I can help it. I do not care how wise, how paternal, the trustees may be. I have never heard of any group of men in whose hand I am willing to lodge the liberties of America in trust.—Woodrow Wilson.

EDUCATION

No nation in these times can hope to survive, to say nothing of progressing in the arts and the sciences, in commerce, in trade, or in industry, unless it is composed of a well educated democracy, depending, as it must depend, upon an informed public opinion for the selection of its leaders and the framing of its laws, hope long to endure unless it consists of a highly and universally educated electorate. The individual American must be educated not only that he may be able to enjoy a happier and fuller life; he must be educated in order that, in co-operation with other educated Americans, he may do his part toward sustaining and upbuilding an intelligent and beneficial and capable government. — Secretary Harold L. Ickes.

THAT ROAD AMENDMENT

The proposal to limit by constitutional enactment the amount of the gas weight taxes on cars is meeting with a storm of opposition. There are many reason why this should not be adopted. In the first place it is legislation and has no place in any constitution. The place for any such determination is in legislation. The need for such taxes may vary from year to year and consequently should be left to the legislature to deal with from time to time as necessity may require.

There would never be any such movement in good times but with the coming of the depression and its consequent problems, we have had just such a situation as might be expected. The people grow wild under the pressure and so adopt many measures which should not otherwise have been considered.

The result of such action would be to completely demoralize county financing. Many of them would have to default on payment which have through the gas and weight taxes been taken from real estate. If this action were taken they would have to be returned as debt service levies on realty and as such would be in addition to the fifteen mill limitation.

The question is one on which the public should have all possible enlightenment.—Rockford Register.

WELL KNOWN LOCAL COUPLE ARE WEDDED

Hazel Greiner Became Bride of Raymond Snider Saturday

At a pretty wedding solemnized Saturday, September 15th, Miss Hazel Greiner, daughter of Lopie Greiner, became the bride of Raymond Snider, son of Mr. and Mrs. Ed. Snider, this city.

The ceremony was performed at the home of the bride's parents by Dr. C. A. Stewart, pastor of the Church of God. Immediate members of the two families and a few invited friends were present.

Both young people attended the local high school and are well and favorably known. They left immediately after the ceremony for a short visit in Grand Rapids, then for a few days at the World's Fair in Chicago, after which they planned to drive to Massachusetts to make their home.

HOME TALENT PLAY A FINE ENTERTAINMENT

Two Showings of "The World's All Right" Highly Commended

Probably the spiciest bit of home talent entertainment Charlevoix has been privileged to witness resulted from the presentation Monday and Tuesday evenings of the musical comedy, "The World's All Right," under the auspices of the Mary Brewster Circle of the Congregational church.

The play, a Universal Producing Company production, had an entertaining plot, fine musical numbers and plenty of amusement. Fine judgment was shown by the director in selection of the cast and near-professional performance resulted from the excellent training given. It was typical of the fine productions offered by the Universal Producing Company.

LOCAL FANS HEARD TIGER-YANKEE GAME

Play-by-Play Broadcast Tuesday by White Star Sound Car

Many Charlevoix baseball fans unveiled themselves of the opportunity Tuesday afternoon to hear the play-by-play broadcast of the Detroit-New York baseball game.

The broadcast was made by equipment of the White Star Refining Co., brought here through the courtesy of William H. Wallace, local White Star distributor. Report of the game was carried by Western Union telegraph wires direct from Navin Field in Detroit to the sound car stationed in Charlevoix.

The description of the game could be plainly heard in most every section of the city and as far distant north as the Walker farm.

Members of the Production Credit Associations in the Seventh district [illegible] during the week ending September 7 and paid back $15,636, the Production Credit Corporation of St. Paul says. Their total loans outstanding after they have repaid practically $300,000, is $3,413, as follows: Michigan $611,173; Wisconsin $987,16; Minnesota $1,367,012; North Dakota $447,343.

LACY ASSAILS FITZ-GERALD-McKAY GROUP

Democratic Nominee for Governor Challenges Opponent

Judge Arthur J. Lacy, Democratic nominee for Governor of Michigan assailed the "reactionary Fitzgerald-McKay machine" and laid down a challenge to his Republican opponent in a public statement accepting the nomination.

The candidate described as "lurking behind a guileless exterior," but in fact being an agency adverse to good government, the "McKay-Fitzgerald combination."

"I accept the Democratic nomination for Governor with gratitude for the expression of public confidence placed in me. I will faithfully fulfill this trust," said Judge Lacy.

Then he continued "A critical situation faces Michigan. In the primary, the powerful and reactionary Fitzgerald-McKay machine which lurks behind a guileless exterior, but which is political in the offensive sense of the term, has defeated the more responsible elements of the Republican Party."

"The people must look to the Democratic Party as an agency for good government to protect and save this state from the ruthless extravagances, reactionary policies and interweavings of this political combination, which are so detrimental to the public good. With a united Democratic front and the help of thousands of independent, progressive-minded Republicans, as good citizens in action, we will go forward to save the state from that unhappy contingency, and, in harmonious co-operation with the National Administration of President Roosevelt, will promote the general welfare of all the people."

BISHOP AND SMITH WIN NOMINATIONS

Are Victors in Race for Senator of 29th District

Candidates for the State Legislature from 29th Senatorial District at the November election will be O. W. Bishop, Republican, Alpena, and Elmer G. Smith, Democrat, Gaylord, according to returns which are practically complete, one precinct, Posen, in Presque Isle, and four small ones in Cheboygan being unrecorded. Results from these precincts are not expected to materially alter the outcome.

According to figures at hand, Bishop's plurality is 772 and Smith's, 210.

Following are the figures by counties:

Thomas Copping, veteran carrier on Bay Shore Route one, will retire on September 30.

FISHERMEN ARE URGED TO TURN IN CREEL CARDS

Michigan fishermen who have received creel census cards are urged by the Fisheries Division, Department of Conservation, to turn them over to the local conservation officer properly filled out.

The data from these cards are compiled each year by the Institute for Fisheries Research and furnish an interesting cross-section of fishing conditions in the state. The information is used by the Department in determining what waters need stocking with particular species of fish.

It is human to stand with the crowd, it is divine to stand alone. It is man-like to follow the people, to drift with the tide; it is God-like to follow a principal, to stem the tide.

It is natural to compromise conscience and to follow the social and religious fashion for the sake of gain or pleasure; it is divine to sacrifice both on the altar of truth and duty.

COUNCIL PROCEEDINGS

September 17, 1934.

The common council of the city of Charlevoix met on the above date at a special meeting with Mayor See presiding.

Aldermen present: Carey, Fessenden, Hallett, Kibbe, Ranger and Webster. Ald. Webster was excused.

Ald. Fessenden offered the following resolution as read seconded by Ald. Ranger.

The following preamble and resolution were offered by Ald. Fessenden and supported by Alderman Ranger:

WHEREAS the City of Charlevoix, Michigan, heretofore issued its refunding bonds in the sum of Twenty-five Thousand ($25,000.00) Dollars, said bonds being each of the denomination of One Thousand ($1,000.00) Dollars, said bonds bearing interest at the rate of four and one-half (4½%) per cent per annum, maturing October 1st, A. D. 1934;

WHEREAS said bonds were the legal and valid obligations of said City of Charlevoix; and

WHEREAS, in the opinion of this council, it is not only necessary but advantageous to said City of Charlevoix to extend the time of payment of Twenty Thousand ($20,000.00) Dollars, of said above described bonds;

THEREFORE BE IT RESOLVED, that the Clerk make application to the Public Debt Commission of the State of Michigan for approval of the issuance, and exchange or sale of Twenty Thousand ($20,000.00) Dollars, Refunding Bridge Bonds as hereinafter described and set forth in this Resolution; and

NOW THEREFORE, BE IT RESOLVED, that new bonds of said City of Charlevoix to the amount of Twenty Thousand ($20,000.00) Dollars be issued in the place of the above described Twenty-five Thousand ($25,000.00) Dollars, refunding Bridge Bonds becoming due October 1st, 1934, in such manner as merely to change, but not to increase the indebtedness of said City of Charlevoix;

BE IT FURTHER RESOLVED by this Council that said City of Charlevoix issue its Refunding Bridge Bonds in the sum of Twenty Thousand ($20,000.00) Dollars, said bonds to be of the denomination of Five Hundred ($500.00) Dollars, Two Hundred ($200.00) Dollars, and One Hundred ($100.00) Dollars, numbered from one (1) to Seventy-five (75) consecutively and inclusively, to bear date of October 1st, 1934, maturing serially as follows:

Five Thousand ($5,000.00) Dollars, on October 1st, each year from 1935 to 1938 both inclusive, with interest thereon until paid at the rate of four and one-half (4½%) per cent per annum, payable annually on the first day of October of each and every year from the date thereof, the principal and interest of said bonds to be payable at the office of the City Treasurer of Charlevoix, Michigan, said interest to be evidenced by coupons to be signed by the original or lithographed or printed signatures of the Mayor and Clerk of said City of Charlevoix, Michigan.

BE IT FURTHER RESOLVED, That the Mayor and Clerk of said City of Charlevoix be and they are hereby authorized and directed to sign and countersign, respectively, and execute said bonds in conformity with the above specifications, and attach thereto the corporate seal of said City of Charlevoix; and that upon the due and legal execution of said bonds, the said Mayor and Clerk be and they are hereby authorized and directed to deliver said executed bonds to the Treasurer of said City.

BE IT FURTHER RESOLVED, that the bonds and coupons shall be in substantially the following form, to-wit:

UNITED STATES OF AMERICA

CITY OF CHARLEVOIX
REFUNDING BRIDGE BONDS

KNOW ALL MEN BY THESE PRESENTS that the City of Charlevoix, County of Charlevoix and State of Michigan, hereby acknowledges itself justly indebted and for value received, promises to pay to the bearer hereof the sum of

.....Dollars

lawful money of the United States of America on the first day of October 19..... at the office of the City Treasurer of the City of Charlevoix, Charlevoix County, Michigan, with interest thereon until paid at the rate of four and one-half (4½%) per cent per annum, payable annually on the first day of October of each and every year from the date thereof at the said office of the City Treasurer, City of Charlevoix, Charlevoix County, Michigan, upon the presentation and surrender of the proper interest coupons hereto attached as they severally become due; and for the prompt payment of the principal and interest of this bond and of the series of which it forms a part, the full faith, credit and resources of said City of Charlevoix, are hereby irrevocably pledged.

This bond is one of a series of seventy-five (75) bonds of like date and like tenor except as to denomination, issued under, in pursuance of and in conformity with the Provisions of, Act No. 13, Public Acts (extra session) of Michigan for the year 1932, as amended by Act No. 143 of Public Acts of Michigan for the year 1933, and was authorized by a Resolution of the Common Council of said City of Charlevoix, duly passed at a regular meeting of said Common Council held on Monday the 17th day of September A. D. 1934. Said series of seventy-five (75) bonds of which this is one, has been issued for the purpose of refunding Twenty Thousand ($20,000.00) Dollars of the issue of Refunding Bridge Bonds dated October 1st, A. D. 1914 and maturing October 1st, A. D. 1934, the principal and interest of this bond and of the series of which it forms a part are payable out of the Interest and Sinking Fund of said City of Charlevoix, and said series of bonds are hereby declared to be tax exempt and in accordance with the laws of the State of Michigan.

It is hereby certified and recited that all acts, conditions and things required to be done precedent to and in the issuance of said series of bonds of which this is one, in order to make them valid and binding obligations of said City of Charlevoix, have happened and have been done and performed in regular and due form and time, as required by law, and that the total indebtedness of said City, including the series of bonds of which this is one, does not exceed any constitutional or statutory limitation.

IN WITNESS WHEREOF the Mayor and Clerk of said City of Charlevoix, County of Charlevoix and State of Michigan, have, by the order and direction of the Common Council of said City of Charlevoix, officially hereunto subscribed the Corporate name of said City, affixed the Corporate Seal thereof and executed this bond this first day of October A. D. 1934.

Emergency Feed Loan Deadline Extended

It has been announced by the Farm Credit Administration in Washington that the date previously set, September 15, for discontinuing to receive applications for emergency loans, has been extended to December 31, in secondary drouth areas. These loans are not made through the regular loan channels of the Farm Credit Administration, such as the PCA's or Intermediate Credit Bank, but through the special emergency agencies set up for that purpose.

CONSERVATION DEPT. WEEKLY NEWS BULLETIN

A concerted effort is to be made by the Fisheries Division, Department of Conservation, this fall to capture for propagation purposes some of the few remaining Michigan grayling in the Otter river, Houghton county. A request has been made to the state office, Emergency Conservation Work, for a crew of five CCC enrollees to assist in the work.

Ten timber wolves are listed in the catch of 193 predatory animals taken by state trappers during August according to reports made to the Department of Conservation.

Since the method of utilizing ground water supplies in fighting forest fire has been successfully developed, a start has been made by the Department of Conservation in providing its fire organization with equipment capable of projecting a 60-foot stream of water, sometimes within a period of 10 minutes, depending upon soil conditions.

"Don't be too quick on the trigger! Be sure your bird is not a hen." This is the warning broadcast by Dr. P. E. English, game cover specialist of the Department of Conservation, to pheasant hunters who plan to open the upland gamebird hunting season in the lower peninsula October 15.

In spite of the fact that some authorities have declared that grayling could not be successfully propogated artificially, the Michigan Department of Conservation has been having excellent results with eggs obtained from Montana.

There are now 50,000 yearling Montana grayling at the Wolf Lake hatchery ready for planting in state waters. These young fish, the balance of the 1933 hatch not planted, range up to eight inches in length.

Fifteen thousand acres of land in state forest units are to be planted this fall to jack, Norway and white pine seedlings grown at the state forest nursery near Roscommon, it is announced by the Forestry Division, Department of Conservation.

The stock to be used is two years old and shipments are now being made from the nursery by auto trucks to the various forest units.

Reading room Tuesdays and Saturdays, 3 to 5 p. m.

"Matter" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, September 23.

Among the Bible citations is this passage (Exodus 3:7): "And the Lord said, I have surely seen the affliction of my people which are in Egypt, and have heard their cry by reason of their taskmasters; for I know their sorrows."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 231): "The verity of Mind shows conclusively how it is that matter seems to be, but is not. Divine Science, rising above physical theories, excludes matter, resolves things into thoughts, and replaces the objects of material sense with spiritual ideas."

Land Bank Pay Interest to Borrowers!

It may not be generally known (though some borrowers know it and are utilizing this opportunity) that the Federal Land Bank of St. Paul pays interest to its Land Bank borrowers who send in payments three months or more in advance. The rate is four per cent a year on the amount of the advance payment for the period of time it is received prior to the date due, but no interest is allowed on fractional parts of a month or on payments for less than one installment. The Bank is receiving thousands of dollars in advance.

CHARLEVOIX, MICHIGAN, SEWAGE DISPOSAL WORKS NOTICE TO CONTRACTORS

Sealed proposals endorsed "Proposals for Sewage Disposal Works" will be received by the City Clerk at the City Hall, Charlevoix, Michigan, until 10 a. m., Eastern Standard Time, on the eighth (8th) day of October, 1934, and will then be publicly opened and read.

The work for which proposals are invited will be paid for in cash and includes the following divisions:

DIVISION A—SEWERS. This division includes approximately 4,500 feet of sewers 8 inches to 21 inches; a river crossing; two small pumping stations and appurtenances.

DIVISION B—SEWAGE TREATMENT PLANT. This division comprises the settling tanks, sludge digestion tank, sludge drying beds, a building housing the settling tanks sludge pumping station, garage and offices. Various equipment and appurtenances are also included.

DIVISION C—SLUDGE COLLECTORS. This division includes the furnishing and erection complete in place of equipment for the collection of sludge in the rectangular settling tanks.

DIVISION D — DIGESTION TANK COVER. This division includes the furnishing and erection, complete in place, of a floating type cover for the 28-foot inside diameter circular sludge digestion tank.

DIVISION E—SLUDGE FILTERING EQUIPMENT. This division includes complete equipment for dewatering digested sludge. The right is reserved to omit this division of the construction work.

MAJOR EQUIPMENT. Proposals for sewage pumps, sludge pumps and chlorine equipment will be received for furnishing these equipment items to the general contractor of Division B.

All proposals must be on forms and in accord with "Instructions to Bidders" furnished by the City of Charlevoix.

Instructions to Bidders, Form of Proposal, Contract, Specifications and Plans may be obtained from the City Clerk, Charlevoix, Michigan, or from the Engineers, Greeley & Hansen, 6 N. Michigan Avenue, Chicago, Illinois, upon deposit of Twenty-Five Dollars ($25.00), which sum so deposited will be refunded to bona fide bidders if said Plans, Specifications, etc., are returned in good condition within fifteen (15) days after the opening of bids. In cases where no bona fide bid is made, one-half (½) of the above deposit will be refunded upon such return of Plans, Specifications, etc.

Each proposal must contain the full name of every person or company interested in the same and shall be accompanied by a certified check made payable to the City Clerk of the City of Charlevoix, Michigan, a bid bond, or a cash deposit equivalent to five per cent (5%) of the total bid price, this sum to be a guarantee that if a proposal is accepted a contract will be entered into and its performance properly secured.

This is a non-Federal P. W. A. project to be financed by funds from a loan and grant to be obtained from the Federal Emergency Administration of Public Works, and all rules and regulations of the Federal Administration of Public Works shall be complied with.

Attention is called to the fact that not less than the minimum wage rates prescribed by the Federal Emergency Administration of Public Works must be paid on the project.

Each proposal must be accompanied by a signed certificate of compliance with N. R. A. (Form 61, P. W. A.).

The City of Charlevoix reserves the right to reject any or all bids, waive or not waive any informalities in the bids received and to accept any bid for any division or combination of divisions which is considered most favorable to the City.

Acceptance or rejection of the proposals will be made as soon as practicable after the bids are received and passed on by the State Engineer, P. W. A.

Dated this 10th day of September, 1934.

LOST 20 LBS. OF FAT IN JUST 4 WEEKS

Mrs. Mae West of St. Louis, Mo., writes: "Fifty-one years old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. Lost 20 lbs. I also have more energy and furthermore I've never felt better since."

For health's sake ask for and get Kruschen at any druggists—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle you are not joyfully satisfied with results—money back.

Saved by new Vitamins of Cod Liver Oil in tasteless tablets.

Pounds of firm healthy flesh instead of bare scraggy bones! New vigor, vim and energy instead of tired listlessness! Steady, quiet nerves! That is what thousands of people are getting through scientists' latest discovery—the Vitamins of Cod Liver Oil concentrated in little sugar coated tablets without any of its horrid, fishy taste or smell.

McCoy's Cod Liver Oil Tablets, they're called! "Cod Liver Oil in Tablets", and they simply work wonders. A little boy of 3, seriously sick, got well and gained 10½ lbs. in just one month. A girl of thirteen after the same disease, gained 3 lbs. the first week and 2 lbs. each week after. A young mother who could not eat or sleep after baby came got all her health back and gained 10 lbs. in less than a month.

You simply must try McCoy's at once. Remember if you don't gain at least 3 lbs. of firm healthy flesh in a month get your money back. Demand and get McCoy's—the original and genuine Cod Liver Oil Tablets—approved by Good Housekeeping Institute. Refuse all substitutes—insist on the original McCoy's—there are none better.

GROWING TURKEYS MADE PROFITABLE

Confinement Method for Poults Is Practical.

Eastern states have an advantage in growing turkeys, with the development of new methods and the closeness to market, providing they send high quality turkeys to market, according to Ira D. Hollar of the New York state college of agriculture.

In the Middle West many small flocks are kept as a sideline, but because of the blackhead, a disease of the intestines and liver, and low prices many of these flocks have been discontinued. The western states that have grown the most turkeys are now growing fewer and some states that have not been considered important are now increasing their flocks. Pennsylvania shows a 25 per cent increase in 1929 and 8 per cent more in 1930, he says.

The old theory that turkeys must have plenty of range is not only untrue but more expensive than the new methods. It has been proved that turkeys can be profitably raised in confinement. At the Pennsylvania state college 93 per cent of all turkeys started were to sell in market age when confinement was practiced. In New York state the dry-lot method of turkey confinement has also proved satisfactory.

Many of these new suggestions about raising turkeys are available on request to the mailing room, College of Agriculture, Ithaca, New York. Ask for New York state turkey folder.

ILLS OF POULTRY ARE DISCUSSED

Opportunities for Spread of Disease Greater.

"Diseases of Poultry," a book of about [illegible] pages just issued for the assistance of the livestock owners and poultrymen, by the Colorado Agricultural college experiment station, Dr. L. E. Newsom, in charge of veterinary pathology at the college, is the author.

"While knowledge of the cause of disease and its control is essential to the poultryman," says Doctor Newsom, "the ideal should always be kept in mind of a system of management that will keep the birds in a state of health. Theoretically at least this is a possible accomplishment, and an outbreak of disease in a flock is evidence that the laws of hygiene have not been fully observed.

"With the increase in the size of flocks, opportunities for the spread of disease are greater, and the difficulties of housing and feeding are greatly increased. With the modern poultry plant of today careful attention must be given to these details or the business cannot be maintained."

Among the subjects discussed in the bulletin in a general way are housing, feeding, water supply, yards, cleaning, disinfection and breeding.

A large number of diseases are discussed in detail. Some of these are nutritional roup, rickets and leg weakness, cholera, typhoid, bacillary white diarrhea, tuberculosis, roup, diphtheria, Canadian flu, turkey roup or sinus disease, chickenpox, paralysis, coccidiosis, blackhead, thrush, parasitic diseases such as lice, mites and scaly leg; round worms, tapeworms, crop bound, cannibalism, constipation, dropsy, broken yolks, egg bound, air under the skin, bumble foot, soil diseases, tumors, botulism poisoning, salt poisoning and arsenic poisoning.

Copies of the bulletin may be obtained on request.

Housing Early Pullets Helps Egg Production

Prof. Willard C. Thompson of the New Jersey station gives the following sensible advice about getting pullets into their laying houses:

"When the combs of early-hatched pullets begin to turn red, it is time to make the laying houses ready for occupancy promptly these birds usually can be depended upon to add to the poultryman's income at a time when other flocks are slackening their efforts.

"Space for the early-hatched pullets can be found in the laying houses by culling market hens and culls, and concentrating the survivors in fewer pens.

"Pens reserved for the incoming pullets should be cleaned, disinfected and supplied with litter. Space may be allotted at the rate of four square feet a bird, and once the pullets are in their new quarters, they should be confined to the pens. The regular laying rations are advised for the pullets as they go into winter quarters."

Art of Caponizing Is Profitable Operation

Poultry raisers who can spare a little time should study up the art of caponizing. Capons demand a good price upon the market, and are always in good demand. The operation process is easily learned and is so profitable that it pays any poultryman to try his hand at it. The slips are not lost, and if you kill a few by practicing you can sell the carcass on the market or use it for home consumption. Of course it is necessary that you have proper tools to do this work, but these can be purchased at poultry supply stores anywhere.

Poultry Hints

Eliminate the males and improve the quality of summer eggs.

• • •

If poultry owners are in earnest about building up a flock of pure breds and keeping them up to the mark as layers and breeding fowls, they will soon begin to make more money.

• • •

Potatoes are not a good poultry food for summer, because they contain too much heat-giving substances; but a proportion may be used with advantage when the weather is cold.

• • •

During the hot weather leave doors and windows open in the poultry house to give all possible comfort to the birds.

Steel Cut Oats Favored Feed for Young Chicks

So many poultry raisers lose sight of the fact that oats are lower in price than other grains, and at the same time one of the very best poultry feeds. They are a much better feed during hot weather than corn, being less heating and containing less fattening matter. If oats are boiled, they will be more relished by the hens; one quart of oats will swell into two quarts when boiled. Steel-cut oats also make excellent feed for young chicks. Sprouted oats are extensively used as a winter green feed, and produce good results amongst the laying hens.

Take Good Care of Eggs to Keep Quality Right

At this season of the year it is important that eggs be gathered regularly, and it is a good plan to get rid of the male birds at the end of the hatching season.

Eggs are a perishable product, in fact this is not sufficiently recognized. Exposure to light, and especially to sunlight, has a serious effect on eggs. Heat naturally is harmful, and the producer is inclined to overlook the effect that nest-boxes exposed to the sun on the south side of a fowl-house will have rapid deterioration of the eggs in the hot weather.

Keep Poultry Healthy by Culling Sick Birds

Culling out and isolating or disposing of sick birds is one of the most important steps toward improved health among poultry, says J. H. Claybaugh of the Nebraska College of Agriculture. He suggests that spread of disease may be somewhat controlled by disinfecting the drinking water with chlorinated lime or permanganate of potassium. Two tablespoons of lime to three gallons of water is sufficient. The correct amount of potassium permanganate causes the water to become a bright wine color.

Don't Rush Pullets

Those who hatched some of their chicks early or bought them early doubtless have some of these pullets laying. Many owners of such flocks of early laying pullets are highly elated over the eggs they are getting now and probably have no further plans for these birds than to get "more and bigger eggs." It will pay to give these birds some attention right now and not rush them head-on into high production without considering a few points.

Discard Roosters

June 1 is usually set aside as the day on which to sell, pen, or cook every rooster. This usually marks the end of the hatching season and the males from that time on are a full of expense.

The production of fertile eggs means a big loss during the summer by lots overlaying. This cannot occur when the males are sold because an infertile egg will not. It can evaporate and spoil in the shell, but it is entirely free from [illegible]

OF INTEREST TO FARMERS

By B. C. Mellencamp

Fall Seed Loans Yet Available

All farmers interested in securing a fall seed loan may make their application at the County Agent's office any time before October 15, 1934. This extends the time one month.

Briefly, this loan will permit farmers to put in grain crops and to summer fallow, the maximum being $2 per acre for these purposes. The interest is 5½ per cent and the note falls due on August 31, 1935.

Corn-Hog Contracts Sent to Washington

Of interest to all farmers in Charlevoix county who have signed the corn-hog reduction contracts is the announcement that the contracts have been forwarded to Washington and that the first payment can be expected within the next two or three weeks. These contracts were mailed on Wednesday, September 12 so that if Washington makes the prompt payment that they promised, these checks are due the last week of this month.

The final figures indicate that at $2 per head, that approximately $2088.00 will be received by the 68 contract signers. When all payments have been made, approximately $5000.00 will be paid in the county.

FOOD SUPPLY AMPLE TO FEED EVERYONE

Full Dinner Tables in Sight for All and Unwise Buying Boosts Prices

Emphasis placed on drought stories for the past few months have aroused an unwarranted concern among consumers that there will be shortages of human food, according to the Consumers Counsel at Washington.

Members of the Counsel assure everyone that the food supply for human beings is ample. Many staple foods are available in amounts greater than have ever been required in this country. Other foods which have been reduced by the drought are still plentiful enough to remove any need for worry.

Supplies of wheat, corn, and milled rice will be available in quantities equal to normal or above. Milk supplies will be nearly normal, 90 per cent of the normal amount of butter is in sight, cheese is only 5 or 10 per cent below the usual requirements, and the usual amount of condensed milk is available.

Potatoes are 10 per cent below the 10 year average, beans, peas, and peanuts are 5 per cent down, but all other vegetables are normal in quantity. Citrus fruits are above normal and all other fruits are only 10 per cent below the ordinary supply level.

Eggs and poultry are 10 per cent down. Fish supplies are normal. Pork supplies are the scarcest of any food material, being only 70 per cent of normal. Beef and mutton have been more plentiful part of the year but have declined a little in the last months.

Sugar supplies are normal or above. Vegetable fats are plentiful but lard and margarine are 10 per cent lower than usual.

Unwarranted rises in food prices will be caused by unwise overbuying. The supply is ample for everyone.

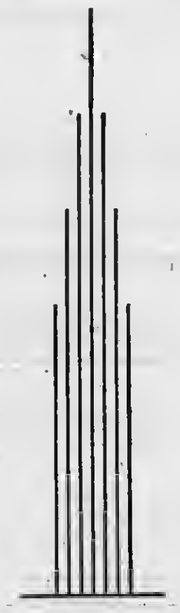
GILBERT H. ISBISTER

The candidacy of Gilbert H. Isbister, Port Huron, register of deeds of St. Clair county, for the Republican nomination for secretary of state has been announced by George C. Watson, veteran member of the state legislature who is chairman of the Isbister-for-Secretary committee.

Mr. Isbister is a veteran of the World War, having served five months in France where he was wounded in action. He is the only resident of the Seventh congressional district who is seeking nomination for a state office at the Republican convention in Flint Sept. 27.

"We Serve Michigan"

The days of the "3 R's" have returned for 1,382,630 of Michigan's school children . . .



"If Government ownership should come, the railroads would be an investment, as the carry on Postoffice Department's now are and the taxpayer would not only have to make up the 400 millions in taxes annually paid by the lines but would be further taxed for their operation.

Railroad taxes—$7,829,198 in 1933-34—go directly toward the education of those youngsters.

Railroad taxes are the bulwark of our primary school fund. But now those tax payments are in danger.

Unfair, inequitable competition, particularly from unregulated trucks, has so cut into the railroads' income that their tax payments have become a problem. If this situation continues those tax payments inevitably must stop.

To the extent that the railroads are destroyed as a source of tax revenue the payments they now make will have to fall upon the citizen.*

Can he afford, then, to permit the job of transportation to be shifted largely from a tax-yielding agency—the railroad—to a tax-consuming form of transport? Is he ready to take on this added tax burden?

The railroad problem is deplorable, but not beyond remedy. It can be solved within our legislatures.

Our next Michigan legislature should see that motor trucks and buses are taxed to meet fully the costs to the public which their operation entails; that they submit to regulations comparable with those governing the railroads, and, in addition, that they contribute equitably to the general expense of government.

Michigan and the "3R's" need the railroads. And the railroads need constructive legislation. It is only fair that they be given at least an equal chance.

4-H CLUBS EXHIBIT COUNTY FAIR

OVER SIXTY CANNING CLUB ENTRIES WERE MADE

Calf Clubs Display Thirty-Two Animals—Announce Prize Winners Among Members

(By B. C. Mellencamp)

The boys and girls 4-H club had a most wonderful exhibit at the Charlevoix County Fair held last week. All of the club work was on display at the Educational Building with the exception of the dairy club animals that occupied the front of the horse barn. Never before in the county has there been such a complete exhibit covering all phases of club work as was seen during Fair week.

In the clothing project, first year members, Jean Bugai, East Jordan, won first place with Eleanor Ecklund, Charlevoix 2nd. In the second year competition, Lorena Brintnall, East Jordan, and Frances Lenoskey, Boyne City, won first and second. In the third year, Shirley Burnett and Ethelyn Zipp of Bay Shore were the winners. In the fourth year activity, first place went to Lillian Meggeson, Charlevoix with Arthella Yahr, Bay Shore, second.

In the handicraft club exhibit for first year members, Frank Ingalls and Marlin Ingalls, East Jordan, won first and second. Second year first was won by Versel Crawford, East Jordan, with Russell Knapp, Boyne City, second. Third and fourth year exhibits were won by Bobby Straw and Levi Balch, Charlevoix.

In the hot lunch poster competition, the Undine school, Charlevoix, won first with Murray school, Bay Shore, second.

For members of the summer clubs, the canning club competition was the greatest of all club activities with seven clubs and over sixty entries. In the club exhibits, first place was won by the Peppy Preservers, Deer Lake Community, Martha Reidel, leader. Second place by the We Can Can Club, Bay Shore, Mary Ellen Johnson, leader; third by the Sisters Club, East Jordan, Martha Warloo, leader, and fourth place by the Barnard Community club, Ruth Matchett, leader. Other entries in this competition were the East Hudson Community Club, Vanderbilt, Mrs. Holborn and Mrs. Glazier, leaders, The Tip Top Canners, Boyne River Grange, Violet Russell, leader, and the Peninsula Champions, Belle Gaunt, leader.

In the first year competition, first place was won by Margaret Morton, Deer Lake, second by Leona Knapp, same community, third Eleanor Ecklund, Barnard, and fourth Evelyn Reidel, Deer Lake. In the competition for second year members, Elsie Hilton, Barnard, won first, Nellie O'Dell, Bay Shore, second, Lela Johnson, Bay Shore, third, and Helen Fisher, East Jordan, fourth. In the class for third, fourth, fifth and sixth year members, first place was won by Martha Reidel, Deer Lake, second by Rhea Fisher, East Jordan, third by Lorena Brintnall, East Jordan, and fourth by Amy Lou Johnson, Bay Shore.

In the county sweepstakes competition, Martha Reidel, Deer Lake, had the best collection in the county; Irene Brintnall, East Jordan, the best jar of fruit; Helen Fisher, East Jordan, the best glass of jelly, Gene Culdwell, Vanderbilt, had the best jar of vegetables and Martha Reidel, Deer Lake, the best jar of canned meat.

In the food preparation posters, the Burgess Merry Mixers won first with the East Hudson Community Club second and the Boyne River Excelsior Club third.

In the dairy club exhibit, first places went to Bobby Straw, Charlevoix, Carl Glazier, Vanderbilt, Clayton Smith, Barnard, Ernest Matz, Chandler Hill, Oral Hughes, Chandler Hill, Fred Simpson, Boyne Falls, Clare McGhan, Barnard, Richard Detcher, Boyne River, Lorita Matchett, Barnard, Adolph Ecklund, Barnard, Carleton Smith, Barnard, and George Gallop, Chandler Hill.

In the poultry competition, Murel Smithingell, East Jordan, won first.

In the potato competition, first place went to Gwendon Hott, East Jordan, second to Robert Reidell, Deer Lake, and third to Rex Mangles, Deer Lake. In the bean club exhibit, Bobby Straw, Charlevoix, won first. In the corn project class, Ronald Lyon and Iver Lyon, Charlevoix, won first and second.

One of the most interesting contests was the canning judging which resulted in Lorena Brintnall, East Jordan, winning first, Martha Reidel, Deer Lake, second, and Ruth Slate, Peninsula Club, third.

In the demonstration contests, first place went to Elva Gould and Eluise Gaunt of the Peninsula Club who gave a splendid demonstration on the making of jelly.

In the dairy judging contest, Clayton Smith and Adolph Ecklund of the Barnard Club, won first and second with Marjorie Smith, third.

The quality of work displayed by over 100 boys and girls in the county was very freely commented upon by the hundreds of people who viewed the exhibits. Many people could not believe it possible that these young boys and girls, scattered throughout the county could accomplish so much, many of them being only eleven and twelve years of age.

SUNDAY DINNER SUGGESTIONS

By Ann Page

People who like pork chops or a roast loin of pork will be able to satisfy their appetites this week as the price is now within reason. Lamb prices, too, are moderate. Butter and cheese are still attractively priced though butter prices may change at any time.

Apples, grapes and melons in variety are the outstanding fruits though pears, plums and prunes are fairly plentiful.

Potatoes are even cheaper than a week ago. Sweet potatoes and yams are also lower. Lima beans and peas are less expensive but string beans and spinach are the outstanding green vegetables. Cabbage, cauliflower, broccoli and Brussels sprouts are all in market at reasonable prices.

The following menus are made up from the latest market news available.

Low Cost Dinner
Boiled Picnic Ham
Mashed Potatoes Creamed Cabbage
Bread and Butter
Apple Pie
Tea or Coffee Milk

Medium Cost Dinner
Roast Loin of Pork
Sweet Potatoes
Scalloped Tomatoes
Bread and Butter
Jellied Fruits
Coffee Milk

Very Special Dinner
Tomato Soup
Roast Beef Browned Potatoes
Creamed Celery
Tomato and Lettuce Salad
Rolls and Butter
Orange Whip Custard Sauce

FRESHMAN COLLEGE HERE IS APPROVED

WILL OPEN SOON AFTER FIRST OF OCTOBER

Meeting for Registration Announced for Monday at Senior High School Assembly Room

Word has been received from the University of Michigan and also from the State Welfare Administrator nt Lansing, that the Freshman College for Charlevoix has been approved. The selection of teachers, to be taken from a list prepared in Lansing and Ann Arbor, is now taking place.

Full details have not yet been given out, but enough is known to make possible a few announcements. The subjects will be those usually given in the first year of college work. Mathematics, history, language and English in some form will be the subjects offered. Just what division of these subjects will be offered, and what order, has not been determined. This is somewhat dependent upon the teachers available. Other subjects may be offered if possible to teach them and providing they are desired. However, it is not possible to provide subjects requiring laboratory or shops, due to the lack of equipment for teaching such subjects on a college basis.

Entrance requirements have been modified so that anyone who is a graduate of a high school may attend. For successful work, credit will be allowed which can be applied on future work at the university or other colleges. If the student continues into college, however, the usualy high school subject entrance requirements must be met.

The administration of the college is required of the local school. Direction of the work will be done by the University department acting through one of the teachers who is appointed supervisor. It is expected that three additional teachers will be available.

A meeting of all interested in becoming students is to be held in the senior high school session room on Monday, October 1. As much information as is available will be given out at that time and registration take place. It is hoped to start classes as soon after October 1st as possible. Already 46 have shown an intention to attend. A place to hold [illegible] awaiting the opinion of those who will conduct the college.

The State Administrator has called a meeting of representatives of Freshman Colleges at Lansing for Thursday afternoon. Following this meeting complete details should be available.

LEROY SHELDON DIED SEPT. 21st AT FLINT

Was Formerly Pastor Church of God at Boyne City

Word has been received here of the death on Friday, September 21st, at Flint, of Leroy Sheldon, former pastor of the Church of God at Boyne City, and well known to residents of Charlevoix.

Deceased, 80 years old at his death, had been a minister 40 years. He moved to Boyne City from Detroit several years ago to act as pastor of the Church of God. Due to ill health he resigned and made Boyne City his home until last spring when he moved to Flint.

Surviving are the widow, one daughter, Mrs. Hazel Hughes of Lansing; two brothers, Earl of Flint, and C. B. Sheldon of this city.

Funeral services were held at Flint and the remains were brought to East Jordan for interment at Lake View cemetery.

HALF MILLION MOTORISTS NEED LICENSES

Only Quarter Million Operators Observed Law Since May 1

Slightly more than 500,000 Michigan automobile drivers must secure new motor vehicle operators' licenses before Jan. 1, 1935.

From May 1, 1931, when the new drivers' license law became effective until Jan. 1, 1932, a total of 765,095 were granted licenses. Since May 1, this year 255,000 have secured new licenses as the old ones expired.

The department of state is issuing licenses at the rate of 3,500 a day at the present time.

TOWNS MUST DEFRAY PART WELFARE COST

Communities Expected to Match Material for Federal Dollars

The State Emergency Welfare Relief Commission has warned local communities that henceforth from 25 to 30 per cent of the relief burden must be borne by them instead of by the federal government.

A statement from the commission explained that for a 12-month period ending July 1 local communities had provided only 6.01 per cent of the total relief funds. In that period a tabulation showed $2,000,000 contributed, $11,000,000 from the state and $29,000,000 from the federal government.

The commission stressed that in order to secure federal grants for the fall program local communities must gradually assume more of the burden. It was pointed out that the state may supply $5 per person per month for materials for work projects but the commission warned that there is no immediate promise of an inclusive works program which will cut down the direct relief rolls.

LIO OFF FOOTBALL SEASON SATUROAY

KIPMEN GO TO EAST JORDAN FOR INITIAL TILT

Foster, Injured in Practice, May Not Play in Opening Game—Tentative Line-Up Named

The football season for Charlevoix high school opens Saturday when the Kipmen play the initial contest of a five-game schedule with Coach Abe Cohen's stalwarts at East Jordan.

The local team, defending Tip of Michigan class C conference championship, is practically a veteran aggregation. Only three players were lost by graduation last spring, and stepping into their berths will be men who saw action as reserves a year ago. That the team may repeat as conference leaders appears very possible.

The Kipmen's chances in the opening game are somewhat dimmed, however, by the possibility that Jack Foster, who last year proved the team's outstanding ball-toter, received a sprained ankle during Monday night's practice session. Foster may not be in the line-up when the team plays at East Jordan.

While the final award of positions has not yet been made by Coach Kipke, he has announced the following tentative line-up for Saturday's contest: Bill Bergman and Bob Emrey at ends; Theo Jeffery and Emerald LaBlanc at tackles; Mayhew, Ralph Shapton or Block at guards; Radle or Pearl at center; Hebert at fullback, Warren Shapton, Carey and Nickerson in the backfield. In event of Foster's playing, he will replace Nickerson, and if not Shapton will call signals. Fairbanks and Zelley are candidates for end positions and Lee Smith for guard.

Saturday's contest will open the season's schedule for both Charlevoix and East Jordan. Harbor Springs and Boyne City played a scoreless tie last Saturday, while Gaylord, another conference school, lost to Petoskey.

The Kipmen will make their first home appearance October 6th when they meet Boyne City at the south side field.

LEADERSHIP TRAINING CLASS PLANNED

Lessons at Cong. Church Ten Weeks Starting October 8th

A leadership training class will be conducted at the Congregational church this fall with Rev. G. R. Parker as instructor.

Weekly lessons will be held on ten consecutive Monday evenings beginning October 8th. "The Worker and His Bible" (New Testament section) has been selected as the text book.

Anyone interested in bible study will be welcome. The course will be of special value to Sunday school teachers. International credits, recognized by all denominations, will be given those who take the course and fill the requirements.

Study books will be available and the first lesson assigned at the church next Thursday, October 4th, any time between 7:30 and 8 p. m.

The South Side Circle of the Congregational church will hold a Rummage Sale in the Holley building, Saturday, September 29.—Adv. 39t1

SPORTSMAN'S CLUB PLANT GAME FISH

CLOSED MOST SUCCESSFUL SEASON MONDAY

Approximately 50,000 Trout Planted in Waters Throughout Charlevoix County

The fish propagation of the Charlevoix Sportsman's Club for the summer of 1934 was brought to a close Monday with the planting of fish raised to advanced fingerling stage in the Stover creek rearing ponds.

The plant, distributed throughout the county, was the largest since the Club started its activities several years ago. The number of fish planted was estimated to total the output of the 1932 and 1933 seasons combined. The fish ranged from 2 to 5 inches and longer in length.

An estimated total of 8,000 steelhead trout were placed in the south Arm of Lake Charlevoix near Ironton; 25,000 mackinaw trout were released in Lake Charlevoix; 20,000 brook trout were divided between Horton, Monroe, Loeb and Stover creeks, and 5,000 German brown trout were planted in the north branch of the Boyne river near Boyne Falls.

Guy Lincoln, in charge of the state hatchery at Oden, assisted local club members in the work of planting, using a state truck in addition to one donated by Milton Block of this city.

Success of the 1934 fish propagation program is attributed largely to the installation of a by-pass to control flood waters during periods of heavy rainfall. The amount of fingerlings lost against the screens and flooding this year was almost negligible, while in former years the loss from these causes has been enormous.

Results of the local club's efforts were credited by conservation officials as being on a par with any in northern Michigan this year, and in many instances far more successful. It is anticipated improved fishing conditions will continue to result from the Club's efforts.

WORLD SERIES GAMES WILL BE BROADCAST

W. H. Wallace Makes Provisions to Give Play-by-Play Account

Charlevoix baseball fans will have an opportunity to hear a play-by-play account of the world's baseball series which opens Wednesday, October 3rd, at Navin field, Detroit.

Through the courtesy of William H. Wallace, local White Star Refining Co., distributor, a broadcast of the series games has been arranged. Amplifiers will be installed at the station, corner Bridge street and Belvedere avenue. It is anticipated the broadcast will be audible within some distance from the station.

W. H. Wallace recently provided a broadcast of the Detroit-New York contest through the White Star Refining Co. sound car.

ENROLLMENT FOR WINTER EXTENSION WORK FRIDAY

All Charlevoix women interested in taking up sewing through the Michigan State College extension department course to be instituted soon are requested to meet at 2:30 o'clock Friday afternoon September 28th, in the community room. Enrollment for the first lesson will be conducted at the meeting.

TITLE CONVENTION TO OPEN THURSDAY

MICHIGAN ASSN. HOLDS FOUR-DAY OUTING HERE

Headquarters at Hallett's Inn; Many Prominent Speakers and Fine Entertainment Arranged

Starting Thursday, September 27, Charlevoix will be host to the 34th annual convention of the Michigan Title Association, whose members will enjoy a four-day outing at Hallett's Inn.

The convention actually opens with registration Thursday, but aside from this formality, the balance of the day will be devoted to golf and sight-seeing. Golf rivalry will be renewed and at 6 p. m. a golf dinner will be in order.

The first business session of the convention will open at 7:30 Thursday evening, the deadline for registration, to be followed with reports of the various officers and district chairman, and closing with the appointment of committees.

Friday morning will be devoted strictly to business. City Attorney Rollie L. Lewis will give the address of welcome. Addresses on subjects of interest and importance to members will take up the balance of the morning. Friday afternoon the visitors will enjoy a boat trip on the Marold II to Petoskey, Harbor Springs and other points. The convention will reconvene in the evening for addresses and round table discussions.

Business sessions will continue Saturday morning and Saturday afternoon will again be devoted to pleasure. The annual banquet will be an event of the evening at 6:30 o'clock. The speakers will include William B. Cudlip, general counsel of the Michigan Bankers' Association, and Cong. Prentiss M. Brown of St. Ignace. Entertainment numbers will include a vocal solo by Mrs. Archie L. Livingston, piano duet by Mrs. R. B. Magor and Mrs. Carleton Dean, and a cornet solo by R. B. Magor, director of the school and city bands.

Mr. and Mrs. R. F. Sloan, the former a member of the association executive committee, are arranging the entertainment and program features.

The convention will adjourn Sunday.

CHRISTIAN SCIENCE SOCIETY BUY HOME

Purchase Myers Property on Clinton Street for Church Use

The Christian Science Society of Charlevoix has purchased the Myers property at 205 Clinton street through Earl A. Young, local realtor, for use as a church home.

The work of remodeling and decorating has been in progress the past week. The first service in the new location will be held Wednesday evening, October 3.

For a number of years past services have been held in VanPelt Hall, but the desire to be on the ground floor and a more accessible location, as well as the desire to own their own home, has prompted the change.

Services will be held each Sunday morning at 10:45, and the first Wednesday evening of the month at 7:45.

The Maccabees will hold a rummage sale October 5, and a bake sale October 6 in the Holley Building.—Adv. 39t2.

A Careless Match

FRANK FOX, HORTON BAY, DIED FRIDAY

Was One of Well Known Residents of Region for Many Years

Frank L. Fox, one of the well known farm residents of Horton Bay, died late Friday following a stroke of apoplexy suffered the day previous. He was 51 years of age.

Mr. Fox had spent nearly his entire life in this region, his parents being pioneer farm residents of the North Bay region. He grew to manhood there and for years operated a successful farm.

He was always active in community affairs and was widely and favorably known throughout the region.

Surviving him are one son, Donovan, three brothers, Merton Fox, Iron Mountain; Volley Fox, Boyne City and Horton Bay; and Lester Fox, Boyne City; and one sister, Mrs. John Brevheisen, Bay Shore.

The funeral services were held from the Horton Bay church Sunday afternoon at 2 o'clock with Rev. M. R. Jewell, pastor, in charge.

SCHOOL RECEIVES PRIMARY MONEY

MARION CENTER GRANGE HOLD "BOOSTER NIGHT"

Program, Farm Produce Exhibit, Baking Contest Planned

Plans are under way for a "Booster Night" to be held Saturday evening, September 29th, at Marion Center Grange. A program of music, readings, talks and a speaker is being arranged. Other features will include a farm produce exhibit, baking contest of white and brown bread, white and dark cakes and white and dark cookies in two classes, one for women and one for girls under 16 years of age. Those taking part in the contests are asked to bring their entries early so judging may be completed before the program. There will be small prizes. All interested in the Grange and its activities are cordially invited to attend.

PRIEST MOVES STUDIO TO CLINTON ST. RESIDENCE

George W. Priest, veteran local photographer, has announced plans to move his studio equipment from the present location in the Dahlquist building on Bridge street, to his residence at 201 Clinton street. The transfer has been made, also the installation of equipment and alterations necessary to provide for the work in the residence.

HARMONY KEYNOTE REP. CONVENTION

FOLLOWERS BACK CANDIDATES ONE HUNDRED PER CENT

Delegates and Alternates Chosen to State Convention at Flint on Thursday, Sept. 27th

A spirit of harmony unequalled in many years prevailed as Charlevoix county Republicans gathered at Boyne City last Thursday for the county convention.

Speakers who pointed to the huge vote cast for Republican candidates at the primary election as an indication of a return to Republicanism in Michigan this year, urged 100 per cent backing of the party's nominees at the general election in November.

W. J. Pearson of Boyne Falls, acted as temporary chairman.

Effective republican speeches were delivered by J. M. Harris on social economic conditions; Rev. Guy Smock on the saloon and the public school; Vice-chairman Wm. Sanderson stating the party shall support republicanism and suggested adopting a slogan; D. W. Dicken supporting a drive to make Michigan a 100% republican state; Mrs. R. B. Armstrong spoke as a former delegate to the national convention in Chicago; Prosecuting Attorney A. L. Fitch and Attorney R. L. Lewis spoke on the Constitution and the importance of supporting republican candidates.

Appointment of committees were as follows: Credential committee—R. L. Lewis, J. M. Harris and A. L. Fitch; Slogan committee—William Sanderson, Charles Emrey and Ed. Lorch; Permanent Organization—Wm. Tindall, George Weaver and W. L. Martin; Resolution committee—Arthur Fitch, J. M. Harris and A. J. Rogers.

Convention resolutions endorsing Senator Arthur H. Vandenberg, Frank D. Fitzgerald and other state, legislative and county candidates were adopted.

Delegates were chosen to attend the state convention to be held Thursday, September 27, at Flint. All those in attendance at the county convention were given a vote in the selection of the following delegates:

Dr. F. H. Wilkinson, Charlevoix; D. D. Tibbitts, Rachel Scott, D. W. Dicken, Boyne City; W. J. Pearson, Boyne Falls; L. G. Corneil, C. M. Bice, East Jordan; James H. Gallagher, St. James; Fenton P. Bolow and Thomas Leo Carey of Charlevoix.

Alternates chosen were: George W. Weaver, William Withers, Charles H. Emrey, George Block, Charlevoix, A. G. Rogers, R. G. Watson, East Jordan; John Olson, Mrs. Agnes Lorch, S. A. Tokoly, Boyne City; Ed. McLaughlan, St. James.

ADULT AND NURSERY SCHOOLS ARE PLAN

Qualified Teachers Are Being Sought for Adult Classes

Plans are being made for Adult and Nursery Schools to be conducted in Charlevoix this fall and winter under provisions of the FERA.

A few applications have been received from those desiring to teach, but there is still a demand for qualified people to present subjects that will have an attraction to adult students. The usual teacher qualifications are not necessary. Anyone needing work who can present a subject in which enough people are interested will be considered.

At present classes in instrumental music, history, commercial work, physical education and photography are being planned. Other subjects will be considered as people apply to teach them. The teaching cost of these classes is taken care of directly by the state and does not detract from the county's regular share of relief.

The nursery school which will take care of children from 2 to 5 years of age, is almost assured. In addition to the teaching cost and quarters, children in this school must be fed once a day. They are to be given orange juice, codliver oil and milk. This make an expense which must be taken care of by local organizations. The American Legion has pledged itself to be ready with up to one hundred dollars for this purpose.

CORRESPONDENCE

NORWOOD

Vern Smith of Midland was a week-end guest of his parents, Mr. and Mrs. Joe Smith.

Mr. and Mrs. Jos. Brownman and their two daughters and a son-in-law were Sunday guests of Mr. and Mrs. Jos. Holecheck.

Mr. and Mrs. H. E. Voegeli of Chicago are enjoying a few days of the beautiful autumn weather at their cottage in Norwood.

A fisherman located on the beach at Norwood, commonly called "Bill," had the misfortune to lose his smoke house by fire last week. He is now building a stone smoke house.

Mr. and Mrs. M. B. McPherson of Lowell, were last week guests of Mr. and Mrs. E. R. Jones. Mr. McPherson, who is a state tax commissioner, gave a talk at Boyne Falls on the trip.

Mr. and Mrs. Fred Hoff and their daughter Dorothy accompanied by a friend, Jos. Stott, motored to East Jordan Sunday where they visited Mr. Hoff's sister, Mrs. Jay McPherson, who is very ill.

Rev. E. M. Mumby, pastor of Norwood M. E. church, was returned to this field for another year by the annual conference. Rev. Mumby has served one year in this charge and his efforts are very pleasing to the people.

Mr. and Mrs. Henry Wagner and Mrs. Geo. Light and daughter Helen and Mrs. Frank Richardson motored to East Jordan Sunday where they visited Mr. and Mrs. Miles and later in the evening they visited Mrs. Cliff Evans at Boyne City.

BARNARD

Farmers are filling silos.

Orrin Manley is in Ann Arbor for surgical treatment.

Wesley Manley is attending Moody Bible Institute in Chicago.

The community club meeting will be held next Tuesday, Oct. 2, at the church.

We have promise of a special musical number by our pastor next Sunday at the church service.

Visitors are invited to Booster Night at the Grange hall Saturday evening. An open meeting is planned.

Ruth Matchett left Sunday to attend Central State Teachers' College at Mt. Pleasant during the coming year.

Mr. and Mrs. Thoma Matchett and her brother of Detroit were guests at the Robert Matchett home last week.

A church board meeting was held at the Frank Matchett home on Tuesday to discuss plans for the coming year.

Miss Jennie Brock of Grand Rapids is home for a few days because of the illness of her grandmother, Mrs. Potter.

Mr. Clyde Warner, [illegible] Juanita Baker and Miss Leona Keyser attended the rural teachers' meeting Thursday evening.

Mr. and Mrs. George Hamilton and [illegible] of Joe Clifford were called here on account of the serious illness of her mother, Mrs. Potter.

Mr. and Mrs. Pixley and children and Mrs. Ellis of Detroit were week-end guests at the Warren Frank home. Mr. Frank accompanied them here to spend the week-end with his family.

Several members of the Epworth League attended the Rally at Bellaire on Friday evening. The district president, Cecil Elmore of Cadillac, was present and gave a fine talk.

SOUTH BARNARD

The Misses Alice and Lucy Brock, James Brock, and Rosetta Gillis have returned from an auto trip.

Mrs. Vermeulen, who has been spending the summer with her daughter, Mrs. Frank Smith, plans to return to her home in Detroit this week.

Miss Jennie Brock, housekeeper in the Highland Home at Grand Rapids, is spending some days at the home of her parents, Mr. and Mrs. Frank Brock.

Hiram Klooster, William Potter, Ernest Brock, Jacob and Oscar Bosa were Sunday visitors in Charlevoix. An occasional going to town is quite a diversion for the country swains.

"The Lady I Love" is the sermon topic for next Sunday in the "Little White Church on the Hill." Everyone is cordially invited to attend this service on Sunday afternoons at 1:30 o'clock.

Dr. W. J. Van Kersen, district secretary of the Board of Foreign Missions of the Reformed Church in America, is expected to be in the "Little White Church on the Hill," in the near future to show slides on phases of mission work in foreign lands.

"Grandma" Potter, the mother and grandmother of several persons in our community, is confined to her bed at the home of her daughter Mrs. Albert Klooster. She has been ailing more or less for some time, but last Friday her condition became worse. Her daughters are caring for her.

IRONTON

Mr. and Mrs. J. R. Nelson left Monday for Ann Arbor.

Miss Florence Sprague left last Thursday for her home in Toledo.

The last of the Sequanota colony left this week for their various homes.

Mrs. C. F. Messenger and family leave Thursday for their home in Chicago.

Miss Betty Mower left Wednesday to resume her studies at Rollins University, Florida.

Mr. and Mrs. H. C. Mower of California are visiting Mr. and Mrs. S. W. Mower for a few weeks.

We are happy to report that Mrs. Pete Bennett is rapidly recovering from her recent illness and is now home.

Mr. and Mrs. Sam Alexander and Mr. and Mrs. Ross Alexander and family drove to Camp Wolverine Sunday.

Booster Grange night will be held at the Ironton Grange hall Saturday night, Sept. 29. It will be an open meeting and everyone is welcome.

Saturday noon Ralph Price miscue[illegible] eye when glass flew and hit him in the eye leaving a cut eye-lid and several other cuts.

The annual convention which was held at the church last week was reported very successful. The ladies handled the three meals at the church very nicely and with the assistance of Mr. and Mrs. Ralph Price the young folks were given entertainment.

ATWOOD

Rev. and Mrs. C. J. Kendall were callers in this vicinity one day last week.

Mrs. Elizabeth Peeples of Ellsworth, Mrs. Sylvia Blaine of Alba and Mrs. Tom Gogarty of Marion, O., were recent visitors at the Geo. Pacey home.

The fifth, sixth, seventh, eighth and ninth grades of the Atwood school with their teachers attended the program given by the Conservation Department at the Ellsworth town house Monday afternoon.

The M. E. Ladies' Aid Society met at the home of Mrs. Geo. Parsons Thursday of last week. The following officers were elected for the ensuing year: President, Mrs. Grace Parsons; vice president, Mrs. Dessie Farrell; secretary, Mrs. Cecil Sheets; treasurer, Mrs. Minnie Harwood; treasurer of floral committee, Mrs. Anna Henry.

ST. JAMES

Bruce McDonough returned home last week.

H. A. Craig of Charlevoix was an Island visitor last week.

Mrs. Chas. Roddy of Chicago is visiting with her parents, Mr. and Mrs. D. B. O'Donnell.

Mr. and Mrs. Nels Lafreniere, Joseph Lafreniere and Mrs. Lloyd McDonough returned from a ten-day visit at the World's Fair.

The past week was the beginning of the season for card playing, which makes a think that winter is approaching and maybe it has arrived, judging from our cold weather.

CENTRAL LAKE

Sheriff Rushton was down this way on business Saturday.

Lake View Sunday school has 20 members enrolled. They will miss the Browns who have moved to Detroit.

The Atwood store bandits have not as yet been apprehended. Mr. and Mrs. Bos have been attending the World's Fair.

Robert Batterbee of Green River was a caller here and at Charlevoix last Sunday. His father will preach at Creswell next Sunday.

Mrs. Anna Watson, who is staying with her son Robert, is blind in one eye and nearly blind in the other. She has a cataract on the eye.

Garret Stoel and sons of north of Eastport have been constructing a new barn on their farm. Material was taken from their own timber for shingles and lumber.

Thomas Wardrop's people say that they and the Donelson, now occupying the former Baumbach farm, do not know how long they will stay there as the farm has been sold to County Agent Oosterom.

The big W. C. T. U. meeting of the 11th district will be held at Mancelona on October 3 and 4. Part of it conflicts with the teachers' association date which convenes at Petoskey on October 4 and 5.

Orson Barber, living west of town is very seriously ill with carbuncles which appear to have scattered poison through his system. Neighbors are assisting with his work on the farm during his illness.

D. D. Sutton of Central Lake and Harbor Springs has a paper at District Five Teachers' Association at Petoskey on "Recent Developments in Teaching Social Science. Meeting is Thursday and Friday, Oct. 4 and 5.

Mr. Janek and C. H. Morse, and Rollo Johnson and family are among those planning on sojourning in Florida the coming winter. Mr. Janek will construct a house car that he can take the journey in a leisurely fashion.

Blaine Wilson and Homer Loper of the Torch furre visited Grand View Sunday school last Sunday. They say special services will begin this week, Tuesday evening at the Pentacostal church at Central Lake. A good speaker has been engaged.

Sweet corn has come into the canning factory pretty fast the past week. Fodder is being taken home by the farmers for silage. Payment for the corn will be made in December when the canned corn is sold. E. B. Gill is now owner of the factory.

Louiselle brothers furnished music for the Creswell people last Sunday and they, with the Ohman sisters, will be on the program at the big Sunday school rally near Petoskey next Sunday. Last Friday evening they furnished music for a meeting at Green River.

H. H. Whitney had as guests last week, Mrs. Erving Moran of Traverse City. Mr. Whitney attended Grange [illegible] at Forest Home Grange near Bellaire last week, and was elected gatekeeper for the Antrim County Pomona Grange, recently organized. Meeting will be held Nov. 21 with Grass Lake Grange, south of Bellaire.

SUNDAY DINNER SUGGESTIONS

By Ann Page

Grapefruit is again in season and moderate sized fruit is selling at low cost. They will largely replace melons in the coming weeks. A large variety of grapes is available though the season for slip-skins grows short. Tokays are especially plentiful. Both cooking and eating apples are abundant and low in price.

White potatoes, cabbage and yellow onions are unusually cheap. Fine quality spinach is available and the season for broccoli, Brussells sprouts and cauliflower is getting under way. Sweet potatoes and yams are at their best. Carrots and beets are still plentiful and cheap. Tomatoes are less plentiful but still cheap, and iceberg lettuce has come down in price and up in quality.

The following menus are made up from the latest market news available:

Low Cost Dinner

Baked Beef Loaf Baked Potatoes
Creamed Onions
Bread and Butter
Apple and Grape Salad
Tea or Coffee Milk

Medium Cost Dinner

Diphtheria Can Be Stamped Out!

Not so many years ago diphtheria was the black enemy of childhood. All over the world it claimed a frightful toll, and the tragedy was that three-quarters of its victims were little tots under six—hardly more than babies. Swiftly it struck with deadly result without warning—and there was no sure way of combating it.

Then came antitoxin. Children who received the treatment at once enjoyed a better chance in their struggle for life, and the diphtheria death rate was lowered. However, antitoxin is effective only after diphtheria develops. It checks the progress of the disease—but it does not give lasting protection. Now comes a great triumph of medical science—the prevention of diphtheria!

Today, eminent specialists state positively and definitely that through modern preventive treatment, Diphtheria can be stamped out! Toxoid administered in two doses, serves to give the large majority of children immunity to the disease. A few still remain susceptible.

The wonderful discovery of Dr. Schick of Vienna is now being used to show which children still remain susceptible and which are immune to the disease. The Schick test consists in giving the child a tiny injection in the skin of the arm. If, after a few days, a red spot appears where the injection was made, the child is still susceptible. If no spot appears, the child is immune. Children who are Schick positive, that is, those who show little red spots on their arms, should be given another course of treatment.

The Schick test does not make the child immune but authorities agree that the toxoid treatment does. Experience shows that both the test and treatment are harmless.

District Health Unit No. 3 workers and all experienced Health Boards urge that you take your children at once to a physician and have them protected from this scourge by means of the toxoid treatment. The Health Department when introducing these treatments or the Schick test into the public schools needs your heartiest co-operation. If your child brings home a request for your approval for the test or for the toxoid treatment, do not hesitate to give permission.

THE GOODYEAR MARGIN OF SAFETY

GOODYEAR ALL-WEATHER
43% Longer Non-Skid Mileage . . . No Extra Cost.

DOUBLY GUARANTEED
1. Against road hazards.
2. Against defects for life.

Skidding—cause of 5½ times more accidents than blowouts—becomes more dangerous as winter approaches. For quickest stops buy "G-3" Goodyears—proved safest by 8,400 tests.

When you must suddenly jam on your brakes, averting an accident often is a matter of inches. Well, stop tests on slippery pavement show: on smooth tires you slide 77% farther, on other new tires you slide 14% to 19% farther than on new "G-3" Goodyear All-Weathers. That's the Goodyear Margin of Safety—a big reason why more people buy Goodyears than any other tire. Since it costs you nothing extra, why not have this margin of safety on your car too?

DAIRY FACTS

LOW-TESTING COW CUTS DOWN PROFITS

Good Animals Prove Value in Milk Prices.

By C. G. DILLEY, New York State College of Agriculture.—WNU Service.

Despite low milk prices, New York state dairymen can still collect pre war prices for high testing milk, for the rate is still four cents a "point." Under these circumstances, dairymen are giving more attention to their herd test and to removing low-testing cows.

For example, a dairyman who has an average milk test for his herd of 3 per cent butterfat has 20 cents a hundred deducted when he sells on a market that requires milk to test 3 5-10 per cent of fat. With milk at $1 a hundred, he is paid but 80 cents a hundred. If milk were selling for $3, he would get $2.80; a loss, but not in proportion to the 1932 loss.

Many New York state dairymen are using the dairy record club, or the mail order testing association, to discover the low testing cows in their herds. The charge for testing is made by the cow rather than by the herd and dairymen take the samples at home and keep part of the records. The samples are mailed to a central testing laboratory for testing and for the remainder of the record keeping. The service is available to dairymen any place in New York state. Information is available from the local farm bureau office or from the department of animal husbandry at the State College of Agriculture at Ithaca.

GOOD CARE MAKES MONEY FOR OWNER

Comfort of Dairy Animals Important in Winter.

By C. A. SMITH, Extension Dairyman, Colorado Agricultural College.—WNU Service.

Good dairy cows are as near depression proof as any class of live stock or any class of agriculture. Winter dictates winter feeding and winter care. To forget about the water heater, to overlook the bedding shed, to try to skimp through on reduced rations is to "kid yourself." Wartime prices for butterfat do not prevail, neither do wartime prices for good protein feeds.

With hogs at new low levels for 25 years, and with feeder lambs actually bringing less than a nickel a pound, the owner of a herd of good dairy cows has much to be thankful for this winter. Year by year the dairy herd-improvement associations tell the same old story. Proper feeding combined with proper care and the use of potentially good cows have made a profit every winter for half a century. Cheap feeds fed to good cows will tell the same story next spring.

The agricultural college herd of ten registered Holsteins ranked first among small herds for a month with an average production of 42.5 pounds of butterfat and 1,253 pounds of milk per cow. The Colorado school for the deaf and blind owns a herd of 23 registered Holsteins that was first among [illegible] of 46.5 pounds of butterfat and 1,441 pounds of milk. The Myron Stratton home, Colorado Springs, owns a herd of 59 registered Holsteins that was first among large herds with an average of 39.2 pounds of butterfat and 1,179 pounds of milk.

Rations That Make for Milk-Flow Stimulation

Feeds rich in protein and green forage stimulate the milk flow. Dry, starchy foods such as timothy hay, cereal hays and corn fodder accomplish the reverse, so the first step in the drying-off process is to change to a dry ration. Then by leaving a little milk in each quarter at every milking the milk flow will gradually be reduced. After it has been reduced to 20 or 25 pounds per day, only one milking a day is enough. When the milk flow is further decreased, the length of time between milking periods should be lengthened. When only a gallon is produced in three or four days, milkings may stop with an occasional stripping.

As soon as the drying up process is complete the ration should be changed so that the cow will be brought back into condition. By calving time, she should be in good physical condition and in addition carry a good amount of flesh.—Dakota Farmer.

Let Cow Grind Roughage

The dairy cow fers all the essential equipment needed to prepare and to digest feeds, says Prof. H. A. Hopper of the New York State College of Agriculture, in cautioning New York state dairymen against spending money trying to make poor roughage as good as the best. Grinding roughage for dairy cows has not proved profitable. More roughage may be eaten, but the expense and effort are not justified. Further, experiments show that soaking and "predigesting" fodders, which seemed to offer promise, have not proved profitable. The ordinary cutting machine, the silo and silage, do save roughage and every stalk of corn should be saved in the silo. New York state dairymen can do no better than to grow good roughages and feed them according to approved practices, Professor Hopper says.

Bringing the Medical Profession Up to Date

That the amount now paid by the average family for doctors' bills will be substantially decreased when the medical profession drops its old-fashioned ideas about advertising, and learns to adopt modern merchandising methods, is the theory advanced by Ernest Elmo Calkins, nationally known magazine writer and advertising man, writing in Medical Economics, a business magazine for doctors.

In his article "Doctors Advertise? Why not?" Mr. Calkins says, "If a program of advertising could be instituted, shared in, and supported by every doctor in the country, not only would the incomes of doctors go up, but the cost of medical attention would go down. There are hundreds of thousands who should have a doctor's care who are not getting it, thousands who could have escaped elaborate treatment or operation if taken in time. Doctors should be paid less money but by more people. The entire United States should be under the care of competent medical men. The immense store of medical knowledge now available should be utilized by more people. The way to keep well is not through ignorance and luck, but by wise advice and knowledge.

"If people understood what it meant to keep well all good doctors would be busy all the time. There is enough knowledge today of medicine and surgery to greatly improve the national health, but much of it is unavailable to large numbers of people, through ignorance, prejudice and financial limitations."

Good Cows Prove Their Value in Dairy Economy

There is a limit to economy in feeding, in care and in overhead on a dairy farm. Some of our dairymen have approached dangerously near that limit—to a point where further cost cutting will result in reduction of returns. But still there is any amount of room for improvement in efficiency in the choice and development of individual cows.

Recent official records announced by the Holstein Friesian Association of America credit a heifer owned by E. E. Freeman of Modesto with 811.9 pounds of butterfat; an Adohr heifer with 609 pounds; a Pollenger bossy at Monrovia with 531.1 pounds, and a Los Angeles county farm cow at Hondo with 471.1 pounds of fat. These young matrons have produced an average of over 600 pounds of butterfat in one lactation period.

According to average production of cows, these four have yielded about as much as fourteen ordinary animals. If good cows will produce more than three times as much as ordinary cows the way to efficiency seems clear enough. True, such animals cost more than the common run, but they do not cost three times as much, by any means.—Prairie Farmer.

Feeding Experiments

Values of pea vine silage fed to fattening stock are said to be varied, running from 80 to 90 per cent of the value of corn silage; but in placing such values it is understood that only the dark green and well preserved portion of the pea vine stack is considered, and not the black and rotted outer sections.

Steer feeding tests were also run, [illegible] on a basal concentrate ration of shelled corn and cottonseed meal. One lot got alfalfa hay only, the second group had alfalfa plus corn silage and the third lot received alfalfa and pea silage. The corn silage lot gained the most and the pea vine silage lot gained slightly less than the straight alfalfa-fed group. Hogs followed the steers after December, and reduced the net loss on the basis of pork credits at $3.25 per hundred.—Wisconsin Agriculturist.

Clean Utensils

Poorly cleaned and sterilized milk pails, strainers, surface coolers, and milk cans add large numbers of bacteria to the milk, while well-sterilized utensils add less than 1,000 bacteria per cubic centimeter. Poorly sterilized milking machines add millions of bacteria to every cubic centimeter of milk passing through them. Well sterilized machines add less than 1,000 per cubic centimeter. Storage temperatures of 50 degrees F. or less will prevent noticeable increases in the number of bacteria up to 24 hours or longer. Station Circular No. 93 summarizes much of the available information on the common sources of bacteria and dirt in milk. A copy of this circular may be obtained free of charge upon request to the station at Geneva.—Missouri Farmer.

Weight of Milk

If a can which holds exactly 100 pounds of water is filled with average milk it will weigh 101.2 pounds instead of 100. However, butterfat is lighter than water having a specific gravity of only .93 at around (2) degrees F. Thus Jersey milk testing 7 per cent may not weigh more than 1.03, while skimmed milk may weigh close to 1.038, and 40 per cent cream will weigh little more than water, says a writer in the Montreal Family Herald.

Reason for Happiness

Some little old towns out West feel sad because they don't grow, but ha, when a town is so old that it has elms and maples 60 feet high that form tunnels of shade in the summer, why does it want to "grow?" Isn't it happy enough?—St. Louis Globe-Democrat.

Cattle Guide to Crop Adjustment

Retirement of Land Demands Plans to Use Grain and Forage Yields.

By R. R. SNAPP, Associate Chief in Beef Cattle Husbandry, University of Illinois.—WNU Service.

Retirement of some 1,500,000 acres of corn and wheat land from normal production under the AAA programs is likely to be successful only if live stock numbers are adjusted to the new levels of grain and forage production.

Cattle constitute a "lock washer" which can be used to hold steady and give permanence to many adjustments which may be made in agricultural practices.

Farmers with cattle will quickly see the advantages to be gained by raising less grain and more forage and pasture, since this new supply of forage can be used effectively in beef production. Consequently, changes made by such farmers in their cropping systems will be relatively permanent. On the other hand, farmers without cattle will find their hay and pasture crops even more difficult to dispose of at remunerative prices than were their former surpluses of corn and wheat.

Cattle contribute further to the success of the government's adjustment programs through the aid which they furnish in maintaining the fertility of high-grade land. If marginal and submarginal land is entirely removed from cultivation, it will be imperative that the land used for the growing of harvested crops be maintained in a high state of fertility. For this purpose, cattle manure has no equal.

Furthermore, beef cattle aid in the elimination of burdensome surpluses through their ability to convert a million bushels of corn into five million pounds of beef. The million bushels of corn in its natural state would supply the total cereal needs of 800,000 people for an entire year, while the 5,000,000 pounds of beef will suffice only for 100,000 persons a year at the present scale of beef consumption.

Small fluctuations in the corn, barley and oat crops, amounting to a few million bushels either way, have but slight effect on the grain market so long as there are sufficient cattle in the country to permit the utilization of the surpluses, or to permit the release of sufficient grain to make good the deficit by the varying number of cattle given a grain feed. Without sufficient cattle to furnish this safety factor, relatively small fluctuations in the grain crops may have a great influence on market prices.

Concrete Silos Can Be Put Into Good Condition

Concrete silos which have softened and sloughed off on the inside due to the use of too little cement or to mistakes in mixing or handling the concrete, can be repaired by chipping off the defective material with hammer and cold chisel, soaking the concrete thoroughly several times, crushing with a cream-like grouting of cement and water, then plastering with rich cement mortar.

If the defective concrete extends clear through the silo walls, says a writer in the Montreal Herald, the entire wall can be replaced by cutting out a section at a time and replacing it with good material. When these [illegible] parts can be replaced in the same way.

Leakage of air through silo walls is a common cause of moldy silage. Hollow tile, concrete block and concrete stave silos are often coated with a cement and water wash with the idea of stopping such air leaks; but this does little good, since any cracks will open up again as soon as the pressure comes on the walls. What is needed is a more elastic coating, which will stretch slightly.

Mosquitoes on Farms

A common source of mosquitoes on farms is ponds which provide drinking water for live stock. Obviously, it is inadvisable to treat these ponds with poisonous substances, kerosene, or other material which will impart a taste to the water which would be revolting to live stock, and to drain them of course is also out of the question. If such ponds are made deep enough so that they will not dry up frequently during summer fish can be introduced which will feed on the larvae of mosquitoes.

Rye Hay

Rye hay has about the same feeding value as oats hay, except that it does not contain quite as much digestible protein. The rye should be cut while the grain is in the early milk stage, at which time the stems and leaves may be cured to a bright, dust-free hay of good quality. At that time the awns or beards have not hardened as to become objectionable. This hay may be fed to live stock as any other cereal hay.—Indiana Farmer's Guide.

Ladies' Extension Project Starts October 4th and 5th

Plans are rapidly taking shape for the 1934-35 clothing project that will be studied by something like 18 community groups scattered throughout the county. As was the case last year, the west end local groups will have their instruction at Charlevoix and the east end of the county will gather at Boyne City.

This year's project is on clothing and is an advanced course from the previous year under the direction of Miss Irene Taylor. The Charlevoix meeting will be held on Thursday, October 4th and the Boyne City leader's training meeting on Friday the 5th.

At this time we want to invite several new groups in addition to all of the groups taking the work last year. If you happen to live in a community who thus far have not had any of this work and are interested in joining the class, kindly contact your county agent at Boyne City at once. Present indications point to an enrollment of over 200 ladies which means that this project will be successful.

Corn-Hog Allotment Committee Met Last Week

In carrying out the provisions of the corn-hog reduction program it is now necessary to appoint inspectors to visit each one of the 68 farms under contract and assemble considerable information. This visit has to be made and the compliance certificates signed and forwarded to Washington before the second payment on hogs and the final payment on corn can be sent to the contract signers.

The contracts have already been sent to Washington some two weeks ago and the first payments are now due any time. It will take in the neighborhood of a week or more for the two inspectors in the county to visit the 68 farmers but this will be done immediately.

We fully realize that there is considerable impatience being shown by many farmers who have joined the program but there are so many jobs that have to be completed in carrying out the program that time slips by. The only consoling feature is that the work in this county is up to date with all counties in this part of the state so that we are not alone in not receiving the first payment as yet.

MICHIGAN BELL TELEPHONE CO.

EVERY HOME NEEDS TELEPHONE PROTECTION

Hundreds of Michigan telephone users know the value of telephone service in such emergencies as fire, sickness, accident or burglary. And they know that *the quickest way to summon doctor, firemen or police is by telephone.*

Just one such call, when lives or property are endangered, may be worth more than the cost of the service for a lifetime.

FALL IS HERE

The calendar may say no, but the weather says yes. Fall is officially here. That means housecleaning and a host of necessary new things.

So we suggest you take stock today. Does the house need painting, shingles, storm windows? What about the furnace? It's not too late to put it in first-class order even if you have already started the fire. Look well at the dining-room rug, the living-room furniture, the paper on the walls. Are they full worthy of you—especially when visitors call? And the car! Soon it will need anti-freeze and a general tuning up after a Summer of hard use. The lawn may need seeding (Fall is the ideal time) and the flower beds with their winter covering. And you yourself need clothes.

All these things are so easy to choose. Just read the advertisements in this paper. They are safe guides to goods and services. Study them carefully, and you will be well repaid in quality and price.

CHARLEVOIX KNIGHTS WIN FROM FELDMAN'S SQUAD BY MARGIN OF ONE RUN

The Charlevoix Knights defeated Feldman's Auto Parts at Charlevoix 5 to 4. There was no scoring until the fifth when Feldman's counted three runs which looked like a safe margin for victory.

R. the first man up in the fifth singled. Czar was safe on an error, but Evick forced Rose and H. Feldman flied out.

Treolar singled, Wolgast doubled and Tousain singled.

In the sixth, Haggard, Charlevoix catcher, singled and scored on a couple of errors. They scored another in the seventh—on singles by Knight, Smith and Huggard. Feldman's make it four to two in their half of the seventh when Walgast doubled and later scored. The Knights evened the count in the eighth when Kipke walked, Beaudoin was safe due to an error and Supernaw brought them in with a long triple to left.

The Knights won in the ninth when Haggard singled and was scored on Kipke's triple. Charlevoix outhit Petoskey 14 to 12. Petoskey committed five errors to four for Charlevoix. Haggard had three hits for the winners while Kipke, Supernaw, Knight, and Carey each had two. Wolgast led the Petoskey hitters with three and Evick and Rose each had two.

Playing for Petoskey were Evick, H. Feldman, Treolar, Wolgast, Tousain, C. Feldman, Hoffman, Holben, Rose, and Czar. For Charlevoix, Kipke, Hallett, Beaudoin, Supernaw, Knight, Smith, Carey, Haggard, Anice and Davenport. Batteries: Beaudoin and Haggard; Evick and Rose. Umpires: Powers and Woodruff.—Petoskey Evening News.

FARMERS WILL VOTE ON CONTRACT PLAN

Local Meetings Will Be Held Soon To Determine Wishes

Michigan signers of corn-hog contracts will be asked soon to cast a vote at local meetings to tell whether or not they approve of the government again offering contracts in 1935 according to Henry A. Wallace, secretary of agriculture.

This request for an expression of opinion is made because the agricultural situation has chnaged since corn-hog contracts were offered in 1934. The A. A. A. plan for assisting farmers was inaugurated at a time when huge surpluses of feeds and of livestock were paralyzing the markets for these farm products. Now, the surplus of feeds and of livestock has been reduced.

It now becomes importnnt for the administrntors of the A. A. A. to find out if farmers believe that, through their unaided efforts, they can maintain the gains they have made in orderly production. Past records show that periods of reduced feeds and livestock have spurred farmers back into cycles of overproduction with a consequent piling up of huge carryovers.

The federal plan of benefit payments to signers of corn-hog contracts has been entirely voluntary. If the farmer believed it would be to his financinl advantage to sign a contract, he became a cooperator. Others did not sign the contracts.

Local meetings will be held in Michigan at which county agricultural agents and corn-hog committee men will outline the present livestock and feed situation. After hearing this information, farmers will be asked whether they want to continue the contract plan.

MICHIGAN OIL INDUSTRY SHOWS GAIN

That the oil industry is to be a permnnent part of Michigan's business life, is shown by the fact that several new crude oil refineries have been granted licenses by the gasoline tax division of the department of state in recent months. All of the new plants will refine nothing but Michigan crude oils.

Because of the fact that many new producing wells have been capped to comply with restrictions on crude oil output, it is impossible to determine the actual gain in production during the past year. Despite the restrictions, extensive exploration work is being conducted in many sections of the state in an effort to locate new pools.

"BILL" NOVAK PIVOT ON CSTC FOOTBALL ELEVEN

William Novak, son of Mrs. Charles Novak of this city, will be in the pivot position on the Central State Teachers' college football team when they meet the University of Detroit in their opening game on Friday, September 28th. Novak is a forward. The game [illegible] complete. Others from Northern Michigan on the Bearcat eleven are Edward Wodek of Petoskey, guard; Carlyle Alldread, Boyne City, tackle; Kenneth VanHoesen, Boyne City, half-back; Ralph Clark, Cheboygan, fullback.

CCC CAMPS OPEN TO THREE THOUSAND SOON

Enrollment Open from October 1 to 20 for New Recruits

More than 3,000 boys and young men of Michigan will have an opportunity during October to enroll in the Civilian Conservation Corps for service in the 59 camps scattered through the northern part of the state. The actual quota allowed Michigan by the United States Department of Labor for the six months' period ending March 31, as announced by Wm. Haber, state relief administrator, is 3,050.

Allocation of county quotas is now under way and applicants may enroll at the office of their county relief administrator from October 1 to 20. The age range for eligibles is from 18 to 26 years. So far as possible, the boys will be taken from families on the relief rolls or in danger of becoming dependent, and they must be in good physical condition as determined by a thorough medical examination.

Recruits are paid at the rate of $30 per month in addition to their maintenance. Of this amount $25 is sent directly to the family or other designated dependents and $5 is retained by the camp worker for personal expenses.

The South Side Circle of the Congregational church will hold a Rummage Sale in the Holley building, Saturday, September 29.—Adv. 39t1

AT THE MOVIES

West's Latest Is Set in "Gay 90's"

"Belle of the Nineties," at the Palace Theater Sept. 29 and 30 and Oct. 1st, the third of the Mae West starring pictures to come from Paramount, shows the blonde siren again in a setting of the gay '90's, which was the period of her first picture, "She Done Him Wrong."

Surrounded by three screen sweethearts, Roger Pryor, John Mack Brown and John Miljan, together with Duke Ellington and his orchestra, Katherine DeMille, Warren Hymer and Stuart Holmes, Mae West essays the role of the country's most sensational burlesque queen of the period.

As "American Beauty," Mae West becomes involved with an ambitious young prize fighter, Roger Pryor, of St. Louis, but, through the plotting of the prize fighter's manager, the romance is broken up, and Mae West accepts an opportunity to leave St. Louis to become queen of a popular gambling palace in New Orleans.

The men of New Orleans welcome her to the city, and John Miljan's gambling house becomes the most popular rendezvous in town. Miljan decides to back a young prize fighter, Pryor, Mae West's "St. Louis man," and, in order to get money for this enterprise, induces Pryor to rob Mae West of her diamonds. Pryor gets the diamonds, unaware of the identity of the woman he robs. Mae West from the [illegible] gets Miljan and brings back her remorseful sweetheart.

Leo McCarey directed the picture from an original story and screen play written by Mae West, herself. In the course of the story Miss West sings several songs written for her by Sam Coslow and Arthur Johnston. Dozens of new gowns were designed for this role, all featuring the prevailing fashion of the period, and the settings and incidents of the story are authentically reproduced.

Sea Food Saved These Indians

A FEW YEARS AGO a Canadian medical journal reported that in the Pemberton Valley in Washington, white residents were very subject to goitre. On their places dogs were born with big necks, pigs were hairless, etc.

STRANGELY ENOUGH Indians having a village there never had goitre, nor were their dogs or stock affected. Investigation revealed that the Indian village moved annually for the salmon run. Indians ate salmon, and dried salmon for future use. Dogs and stock got the salmon refuse. Ocean fish thus protected them again Pemberton Valley's mineral deficiency. Ocean water is rich in mineral solids, containing 3 lbs. per 100 lbs. of water.

MERMASH POULTRY RATION gets such good results here because our Lake States soils are deficient in iodine and other minerals. Mermash contains good yellow corn, pure wheat bran, flour midds, alfalfa meal with kelp and fish meal—mineral food from the sea. Ask your co-op about production from Mermash. It's priced low.

More Alfalfa Seed Produced in Ohio

Home Grown Germ Adapted to the Farms Nearby, Say Agronomists.

Prepared by the Department of Agronomy Ohio State University.—WNU Service.

Increased interest in alfalfa seed production is reported from western Ohio. The department of agronomy at the Ohio state university is receiving numerous inquiries about methods of harvesting and handling alfalfa seed.

Alfalfa seed production began in commercial quantities in western Ohio about 1930. Since then, yields of one-half to six bushels have been obtained. Average yields approach two to three bushels.

Thin stands, together with abundant sunshine and little rainfall during blooming periods, seem to favor seed production. Variegated varieties have proved in Ohio to be surer seed producers than the common alfalfas.

Higher yields and better quality of seed result when the second, rather than the third growth, is left for seed.

Agronomists say that three-fourths of the seed pods should be brownish black at harvest time. If a mower with a loucher attachment is used when the plants are tough, less seed is shattered, they say. This sort of harvesting equipment is recommended above other devices.

The seed ripens rapidly if left in small bunches. Storage in the barn or a well-covered stack, or threshing with a clover huller or well-adjusted grain separator should be prompt, because seed is readily injured by rain.

The better adapted the variety originally used, the older the meadow, and the more seed generations grown, the greater the adaptation of this seed will be to farms in the same section, agronomists declare.

Hogs Often Become Ill From Eating Stale Feed

Sometimes hogs are sick because of poisoning rather than some disease; according to veterinarians in the United States Department of Agriculture. Hogs may be poisoned by spoiled feed, frosted alfalfa, excessive amount of cottonseed meal, poisonous plants, and garbage containing lye, soap powders, and other irritating substances. Sometimes hogs are poisoned by eating too much salt and frequently through drinking meat brine, of which they are very fond.

Carelessness in the handling of disinfectants, such as carbolic acid, bichlorids of mercury, and cresol compound in hog lots may poison hogs. Salt poisoning creates an intense thirst, intestinal disturbances, and sometimes paralysis. Symptoms of poisoning are similar in character, such as restlessness, loss of appetite, vomiting, frequent urination, weakness, unsteady gait, increased respiration, and sometimes convulsions.

Medical treatment is of little value, except where the exact cause is known and the illness detected early. Emetics, followed by purgatives, give good results. The sick hogs should have access to plenty of clean drinking water and should not be fed heavily for a few days following the poisoning.

Home Exterior Matter for Careful Thought

The proper finishing of the exterior of the home is a subject of much thought and study on the part of the architect, and a matter which requires the utmost skill on the part of the builder in carrying out the plans. To cover the technique of good exterior construction would require a volume. The following brief generalities are offered as suggestions.

All outside construction should be such as to provide rapid drainage of water and to prevent the accumulation of debris. No enclosed flat spaces on which water remains should be permitted. All horizontal work should be given a slope that will insure good drainage. All joints at the end of horizontal work should be constructed so as to prevent the seepage of water underneath.

All end joints in the gutter should be liberally daubed with white lead. White lead should also be used in the joints in the porch floor.

A good priming coat of paint should be placed on the wood as soon as it is in place. Nail holes should be countersunk and the depression filled with putty after the priming coat has been supplied. Lastly provision should be made for the proper circulation of air around the foundations of porch columns and at the bottom of balusters. This permits water to dry rapidly and aids in preserving the wood.

Sacrifice Worth While for Children and Home

It costs money to build a home. And sometimes it calls for the nerking of little sacrifices; the giving up for a time of certain little pleasures that cost money; possible the delay of a year or two in the ownership of a motor car.

It is an undertaking that requires "backbone," "soul" determination on the part of the men and women who go into it. Then what's the sense of doing it—especially when it is sometimes easier to just keep on renting?

Why do worthwhile men and women long for a family of youngsters? The price is high—in sacrifices, denials and inconvenience. But the happy fathers and mothers pay willingly, gladly—and are rewarded with happiness.

It is just the way of this good old world—just one of the beautiful and inspiring things of life—that the right sort of women and men have the courage to pay for and to protect the two best things of all—children and a home.—Chicago Evening Post.

Protection for Porch

A trellis along a porch or as a screen to shut off unsightly objects is [illegible] and is certain to be a good example of ornamentation. The beauty of such a structure is in the design of the trellis as well as in the climbers which it supports. A trellis along a porch makes it possible to grow climbers to shut off the brighter sunshine of summer, add to the beauty of the house and exclude unsightly or undesirable views. The bright rays of the sun and the heat which they produce in summer make an unprotected porch very undesirable and uncomfortable for occupation during the greater part of the day unless it is protected by screens or some kinds of vines which have a dense growth and produce broad leaves and heavy foliage.

Valuable Limestone

Trees and shrubs and flowers are an effective foil to the beautifully soft light tones of limestone. The delicate shades of gray and buff which distinguish this stone from other exterior masonry materials always blend harmoniously with the vivid colors of nature. They have a way of deepening with the rain and brightening with the sun which gives life and interest to walls constructed of this material.

Limestone is always effective when simply used. Being beautiful in and of itself it does not require much ornamentation. When enrichment is desired this stone can be readily carved most elaborately with the assurance that its carving will stay crisp for years.

Traveler's Impressions

Our roadsides are the most sensitive index of a community. They, and they alone, determine whether you will like a place or dislike it. They are the first and lasting impression.

The roadsides represent what the traveling public sees of our community life. This is true whether they view us from the highways, the railroad or from a boat. It is evident that the general appearance of the community is one of the strongest forces that will impel the purchase of property, expenditures of capital and continued residence, bringing increased values, increased employment and increased business.

Whey is not harmful for chickens and would not cause a decrease in egg production. In fact it makes good drink for chickens and is due to mix. Wet mashes. It does not contain much food value for its bulk but is useful in the poultry pathon.

CHRISTIAN SCIENCE CHURCH

Sunday morning service, 10:45.

Every Wednesday evening at 7:45.

Reading room Tuesdays and Saturdays, 3 to 5 p. m.

"Reality" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, September 30.

Among the Bible citations is this passage (Ps. 85:8): "I will hear what God the Lord will speak: for he will speak peace unto his people, and to his saints: but let them not turn again to folly."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 298): "Life, Truth, and Love are the realities of divine Science. They dawn in faith and glow full-orbed in spiritual understanding. As a cloud hides the sun it cannot extinguish, so false belief silences for a while the voice of immutable harmony, but false belief cannot destroy Science armed with faith, hope and fruition."

MAKES YOU LOSE UNHEALTHY FAT

A young woman of Norwich, Conn., writes: "I lost 16 lbs. with my first bottle of Kruschen. Being out night duty it was hard to sleep days but now since I am taking Kruschen I sleep plenty, eat as usual and lose fat, too."

To take off fat—take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—one bottle that lasts 4 weeks costs but little—get it at any drugstore in America. If this first bottle fails to convince you this is the SAFE and HARMLESS way to lose fat—your money gladly returned.

Don't accept anything but Kruschen if you want to reduce safely.

WEAK AND SKINNY MEN, WOMEN AND CHILDREN

Saved by new Vitamins of Cod Liver Oil in tasteless tablets.

Pounds of firm healthy flesh instead of bare scraggy bones! New vigor, vim and energy instead of tired listlessness! Steady, quiet nerves! That is what thousands of people are getting through scientists' latest discovery—the Vitamins of Cod Liver Oil concentrated in little sugar coated tablets without any of its horrid, fishy taste or smell.

McCoy's Cod Liver Oil Tablets, they're called! "Cod Liver Oil in Tablets", and they simply work wonders. A little boy of 3, seriously sick, got well and gained 10½ lbs. in just one month. A girl of thirteen after the same disease, gained 3 lbs. the first week and 2 lbs. each week after. A young mother who could not eat or sleep after baby came got all her health back and gained 10 lbs. in less than a month.

You simply must try McCoy's, at once. Remember if you don't gain at least 3 lbs. of firm healthy flesh in a month get your money back. Demand and get McCoy's—the original and genuine Cod Liver Oil Tablets—approved by Good Housekeeping Institute. Refuse all substitutes—insist on the original McCoy's—there are none better.

THE GANGSTER TYPE

By R. K. WILKINSON

© Bell Syndicate—WNU Service.

"THE only way," said Producer Howard Heyward, "to inject realism into a picture is to cast the players true to type. By this I mean only real mothers should play the part of screen mothers, war veterans the part of soldiers, cultured men the part of gentlemen—"

"And gangsters the part of gangsters!"

"Exactly. That's the meat in the coconut. Here we have a picture on which we are ready to begin production. The feature role is that of a gang leader, a suave, crafty, intelligent, ruthless sort of person, who lives by his wits and holds the fate of a hundred henchmen in his hand, who is a menace to society—hated, feared, scorned. And who, may I ask, have you cast to play the role? Who?"

A grin, edging on a sarcastic grimace, twisted the corners of Producer Heyward's mouth.

"Donald Fairweather! Of all people from being a gangster type! A good actor, yes. But if you'll excuse my saying so—a rather effeminate sort of person. A master of love scenes, Sentimental, romantic, a direct appeal to the sympathetic instincts of women!"

"Rot!"

Director Ted Philloon rapped the table top and glared.

"Now Heyward, you listen to me. I've been in the movie making game a long time. It's my business. I can't do anything else. And if you'll forgive my immodesty, I've made some pretty good pictures. If I hadn't been able to cast my roles correctly, those pictures would have been flops.

"I'm not saying this to make an impression. They're facts that can't be ignored. You're a banker. You've been out here only two weeks, and at that only because your bank sent you to take charge until the company's stock was disposed of. It's senseless to think you can tell me how to make a picture. It isn't in your line. I happen to have discovered Donald Fairweather. He's versatile. He can play any part. If I direct him!"

• • •

Producer Heyward's face was a dull red.

A sneer was on his lips.

"You're quite a guy, eh, Philloon? Well, get this, either you get a real gangster type to play the role of 'Brick' Lugoon, or you're fired! There's plenty of 'em around, go pick one out."

Director Philloon stared through a window and chewed his cigar.

He could not afford to lose his job. Jobs were scarce.

Besides, he loved the work.

Moreover, this young upstart of a banking man was only a temporary fixture.

Within six months old man Levine, who knew pictures and appreciated Director Philloon's abilities, would be back on the job.

Presently Director Philloon turned.

"I'd like to make you a sporting proposition—I'll go get a gangster, a real one, true to type, and, with your approval, I'll cast him in the role of Brick Lugoon. I'll do my best to build him up and if, as you predict, he comes through, injects realism into the film, we'll use him. If he falls down, we'll play Don Fairweather!"

"Done!"

Heyward slapped the table.

He knew Philloon well enough assured the ... the director would try in all sincerity to make an actor out of the gangster.

And it was with no little feeling of triumph and relief that he agreed to the proposition.

He felt certain that his own ideas on the matter were correct, and that Director Philloon had a surprise coming to him.

• • •

He stood up.

"Just one thing more, Philloon. When selecting your man, remember that this film is actually a character sketch of the well-known gang leader, Tony Scarbo. Pick some one who at least resembles Scarbo in appearance."

"I'll bear it in mind," Philloon agreed.

Two days later Director Philloon entered Producer Heyward's private office in company with a tall, black-haired, olive-skinned youth, who smiled almost whimsically at the producer, but kept his hand in his coat pocket.

"Meet 'Silver' Johnson, Heyward. He's your gangster type, all right."

"I'm not so sure. Acts like one, but looks like a gigolo. Had any experience, Silver?"

"Experience?"

"I mean have you been in the racketeering game long? Know any real gangsters? Ever taken part in a gun-fight?"

"I getcha. The answer is 'yes.' I usta work with Scarbo."

Heyward looked silenced, then suspicious.

"Uh, huh. Where's Scarbo now?"

"On the lam. Hidin' out till the Hennessey killing blows over. They're tryin' to pin it on him. Mob's scattered till Tony sends out word for us to join him some place."

• • •

Heyward pursed his lips, thought a moment.

Then: "O. K., Silver. We need an actor. Gangster type. One who can give us the real thing. You ought to qualify if you've worked for Scarbo.

We know you can't act, but Philloon will take care of that. That's his business."

Tony Scarbo, the gang leader, had become a national hero.

He was front page news.

Big stuff.

Glamorous.

A murderer.

It was Philloon's plan to commercialize the idea.

Build a picture around Scarbo.

Sell him to the theater-going public.

Even Heyward could see the possibilities.

But Heyward insisted on realism.

And you couldn't have realism without having things real.

That's why Silver Johonson was cast in the leading role.

But Silver didn't make good.

Philloon knew he wouldn't, even though he did his best to make an actor of the youth.

At the end of a month even Heyward could see that the picture would be a flop, with Silver playing the lead.

Heyward blamed it on to Philloon.

• • •

"He isn't a gangster, that's what's the trouble. He's a dud. Put one over on us. If he was the real thing he could play the part."

Heyward spat and chewed his cigar.

"You can't tell me that dumb cluck is a gangster. Gangsters are gorillas. This bird's a sissy. I was doubtful from the start."

"Listen, Heyward, I'm telling you Silver's a member of the Scarbo mob. I know it. That's the trouble with him. He's a racketeer, but an actor. Acting isn't in his line, no more than making pictures is in yours. Now, take Don Fairweather. Don's an actor. I can make a gangster out of him. It's his line, and it's my line."

"Nuts! We gotta have realism. We gotta have a real gangster. We gotta have some one who looks and acts and talks like Scarbo. It's Scarbo we're selling, isn't it? Well, use your head!"

Philloon got purple.

He was a little tired of being told what an idiot he was.

"Listen, Heyward, we made a deal. If your gangster didn't make good, I could use Fairweather in the picture? How about it?"

"It's O. K. and it stands. But first you gotta give a real gangster a try-out. This Silver bird is a dud, a joke. He looks about as much like a gangster as I, and acts less like one."

• • •

Philloon smiled, triumph and contentment lighting his eyes.

"Listen, Heyward, you're the one who's nuts. Try usin' your noodle for once. Do you think for a second I could get one of Scarbo's mob up here when they're all on the lam? You must be crazy. Say, if the cops knew we had a Scarbo man here they'd be up and third degree him so quick you wouldn't know what it's all about. Scarbo's wanted by the police and wanted bad. He knows it, too. And he's having a tough time keeping out of sight. So what? So he hears about this picture of ours and comes browsing around. He drops in at my office the day after you and I have our talk, I make a deal with him. I show him to you. We sign him on. Fine! He couldn't be in a safer spot. Then you grab his act by saying he doesn't look or act real enough. He's nuts, and out and start dodging the police again. So what? Well, Heyward, I guess you gotta admit I'm right. Acting isn't in Scarbo's line. He's a gangster. A killer, Heyward, and he doesn't like you at all."

Heyward's face was pale.

He sputtered, choked.

"Say, look here, Philloon. Now, listen, you better keep him on the pay roll awhile. Sure, that's it, keep him on. Pick your own lead, but keep Scarbo on. I'll leave it to your judgment. I gotta be getting back to New York, anyhow. Leaving tonight. You take things over here, but keep Scarbo on the pay roll—"

Philloon wiped his forehead and sat down in the chair vacated by Producer Heyward and grinned.

Some day, he told himself, he'd have to look up this Scarbo guy and see what he looked like.

Mistake at Big Convention

Ohio was represented at the Republican national convention in 1884 by the big four—Foraker, McKinley, Hanna and William H. West. As he spoke, West, a blind lawyer of Bellefontaine, sat in a chair. An orator of unusual ability, he was known throughout the state as "Blind Man Eloquent." When he came to the climax, the time at which he meant to shout the name of James G. Blaine, he half rose from his chair and shouted by mistake the name of James A. Garfield. West immediately realized his mistake, and again half rising from his chair he shouted the name of James G. Blaine, but in the confusion few heard him. Ohio's Garfield had been dead three years.

DEM CONVENTION HELD THURSDAY

PLEDGE COUNTY SUPPORT OF PARTY "NEW DEAL"

J. M. Foster Re-elected Chairman: Delegates to State Convention Were Chosen

Endorsement of the New Deal and placing the helm of the Democratic party in Charlevoix county in the hands of J. M. Foster featured a harmonious convention of Democrats at the court house last Thursday evening.

Mr. Foster was re-named chairman of the party, with Frank Crowell of East Jordan as vice-chairman, and Leo. W. Powers of this city as secretary-treasurer.

Delegates were chosen to the state convention as follows:

Frank Crowell, East Jordan; Frank Pierce, Boyne Falls; William P. Hicken, Charlevoix; Miss Walker, Boyne City. The alternates are: Joe Topolinski, Boyne Falls; Albert Taylor, Charlevoix; William Barnett, Boyne City; George Hanson, East Jordan.

The convention, largely attended, adopted resolutions supporting Democratic candidates for national, state and county offices at the general election in November.

Preparations for the November campaign were discussed and plans for at least three rallies in Charlevoix county during October were made.

$1000 PRIZES, MANY AWARDS ARE OFFERED

Gaylord Potato, Apple, Seed Show Has Fine Premium List

Exhibitors at the Top O' Michigan Potato, Apple and Seed Show will be offered over $1000 in cash premiums, and several hundred dollars more in special awards at the Eleventh Annual Show to be held at Gaylord on November 6, 7, and 8. This money is made available to the exhibitors by direct appropriations from the Boards of Supervisors of the Show district, by liberal state aid, and by the liquidation of funds which have previously been held in closed banks.

There has been an increase in the amount of premium money offered in the individual exhibits of 32 Russet Rural potatoes which will make it possible for more exhibitors to win cash prizes in this class. The directors have given careful attention to the arrangement of the premium list in an effort to do away with the duplication of prize money to the same individuals, and to increase the chances of every exhibitor for winning some of the liberal cash premiums.

A special class has been added to the premium list for the Katahdin, which is a new variety of potatoes recently developed by the United States Department of Agriculture and introduced in Michigan by the Farm Crops Department of Michigan State College. This variety has been widely grown in the state and shows promise of becoming an important variety in some sections.

In the apple division a new class has been added to permit the Delicious variety to compete in the show.

NEW AUTO SALES INCREASED IN AUGUST

Five Thousand More Sales Than in Same Month of 1933

Sales of new automobiles in Michigan were nearly 5,000 more during August, 1934, than during August, 1933, according to records of the department of state.

Last month 13,540 certificates of title were issued on new cars while during August, 1933, only 9,469 titles were issued. The sale of used cars, however, showed a slight decrease with titles on 34,039 being transferred during the month or 2,206 less than during August a year ago.

VOELKER OPPOSES TAX CUTS SOUGHT

Avers Proposed Amendments Would Curtail School Funds

Dr. Paul F. Voelker, superintendent of public instruction, has attacked the proposed constitutional amendments limiting the weight and gas tax with the declaration "that passage of the amendment will deprive schools of $5,500,000 annually."

"While it is true that no part of the gas or weight tax goes to the schools," Dr. Voelker pointed out, "it is also true that the proposal to amend the constitution of Michigan by limiting the amount of tax that will be levied against the weight of a car and its gas consumption, contains a rider to the effect that two cents per gallon and the 35 cents per hundred pounds of weight shall be 'in lieu of any other taxes.' This can mean nothing else than that the schools will be deprived of $5,500,000."

The superintendent claimed passage of the amendments will shut out part of the sales tax, will shut out part of the manufacturers' tax on gas and automobiles, and close all avenues to an income tax based on gas, oil and automobiles.

STATE BANK ROBBERY IS CLEARED

TEDDY MILLER, HIGH SCHOOL STUDENT, CONFESSED

Hat, Lost by Youth in Hold-Up of Kahler & Friend Oil Station Tuesday Night, Fatal Clue

A single clue obtained following hold-up Tuesday night of Fred Friend, an owner of the Kahler & Friend oil station, resulted in the arrest this morning of Teddy Miller, 18-year-old Charlevoix high school junior, and his subsequent confession to the hold-up and the Charlevoix State Savings Bank robbery September 15th.

Advancing from a hiding place on the east side of Belvedere avenue opposite the station, Miller, masked and armed with a nickle-plated revolver, ordered Friend to "stick 'em up" as the station owner walked toward his truck after locking up for the night. Friend's failure to heed the order brought another sharp command, "stick 'em up, I mean business."

Friend was ordered to enter the station and get the cash but not until he was observed with his hands in the air by Theodore Cooper, passing motorist.

Cooper immediately notified Ted Coblentz and Clarence Heise, local police, who soon arrived at the station. In the meantime, however, Friend was ordered inside to open the station safe, with a warning to turn on no lights, but the job was not completed before the arrival of the police.

Seeing the officers approach, Miller, who had remained outside at a window on the east side where he could observe Friend's actions, vaulted over the retaining wall to the ground perhaps 20 feet below on the north side of the station.

Lost Hat Disastrous Clue

In his flight, Miller lost a black felt hat, later recovered by officers. Inside the band was a letter-head of William Bogart, father of Helena Bogart, with whom Miller had kept company a couple years. Mr. Bogart identified the hat and Miller was kept under watch throughout the night. Confronted with the evidence this morning he admitted his guilt when questioned by Prosecuting Attorney A. L. Fitch.

The stolen car, used Tuesday night was recovered from a hiding place on the Belevedere resort. Miller admitted ownership of a revolver, cartridges, mask, coat and other equipment used in the State Savings Bank robbery and later recovered from a hiding place in the city park on Lake Michigan. The youth confessed hiding the equipment after the robbery and told officers how he came back down the alley, looking for the bag containing $1,311 which he had dropped in his hurried departure. He later mingled with the curious crowd in front of the institution.

Miller told officers he attempted the robbery to obtain from the bank $3,000 which his grandfather, C. S. Dodge, with whom he lives, had impounded in the institution.

A second youth, whose name was not made public, was questioned this morning after Miller related telling the youth of the State Bank job. He was later released; Miller denied implication in the attempted entrance to the Charlevoix County State Bank on September 29th.

COUNTY STATE BANK RECEIVES FDIC OFFICIAL INSIGNIA

The Charlevoix County State Bank today received from the Federal Deposit Insurance Corpnration at Washington the official signs which will hang at all receiving windows as visible evidence that the depositors of this institution are insured.

The Charlevoix County State Bunk is one of more than 14,000 licensed banks in the country which are receiving these signs. Insured banks are able to offer protection to their depositurs up to $5,000. Statisticul studies have shown that this maximum fully protects more than 97 per cent of all the depositors in insured banks.

A stutement by the Federal Deposit Insurance Corporation follows:

"The purpose of the signs is to let depositors know which banks are insured.—Heretofore, although 90 per cent of the licensed banks are insured, depositors huve had no easy means of identifying them.

WOODCOCK SEASON OPENS OCTOBER 15

Not a Migratory Waterfowl and Is Considered Upland Game

Much confusion has resulted among Michigan hunters from the publication of notices in some local newspapers that the woodcock season opens in the lower peninsula on October 3.

The date given is wrong, according to the Department of Conservation. The woodcock hunting season in the lower peninsula does not open until Monday, October 15 and hunters who shoot woodcock before that date render themselves liable to arrest and prosecution. The woodcock season will remain open from Oct. 15 to Ort. 26, inclusive.

There will be no open season on woodcork this year in the upper peninsula. Federal regulations do not permit the shooting of woodrock anywhere in the state before Oct. 15.

Woodcock are not being treated as migrutory waterfowl and hunters who shoot them do not need a federal duck stamp in addition to their state hunting license.

TITLE CONVENTION ADJOURNED SUNDAY

MEMBERS ENJOYED FOUR-DAY OUTING HERE

R. F. Sloan, This City, Retained as Member Exec. Committee—Other Officers Re-elected

The 24th annual convention of the Michigan Title Association adjourned Sunduy after its members and their families had enjoyed a fine four-day outing in Charlevoix.

Headquarters for the convention were at Hallett's Inn and the annual banquet, an event of Saturduy evening, was held at Hotel Hallett on Belvedere avenue.

Golf and a boat ride to Petoskey, Harbor Springs and other points provided excellent entertainment for the visitors and fine weather during the convention made their stay more enjoyable.

At the closing business session Saturday, Ray Trucks of Baldwin, was re-elected president for another year. Other officers chosen were: Vice-president, S. K. Riblett, White Cloud; treasurer, R. D. Lovelund, Bay City; secretary, F. W. Smith, [illegible] the executive committee were: A. A. McNeil, Paw Paw; C. W. Seery, Pontiac; R. F. Sloan, Charlevoix; F. W. Smith, Lansing, and Ray Trucks of Baldwin.

Speakers at the annual banquet Saturday evening were William B. Cudlip, general counsel of the Michigan Bankers' Association, and Cong. Prentiss M. Brown of St. Ignace. Banquet entertainment features were provided by local urtists and included a march by Mrs. R. H. Magor; cornet solo, "Curnival de Venice," by R. B. Magor; vocal solos, "The Open Road" and "My Laddie," by Mrs. A. L. Livingston; piano duet, "Hungarian Rapsody No. 2," by Mrs. Carleton Dean and Mrs. R. H. Magor.

The convention was brought to Charlevoix through the efforts of Mr. and Mrs. R. F. Sloan for the first time in 1932 and again this year.

KIPMEN DEFEATED OPENED FRESHMAN AT EAST JORDAN COLLEGE MONDAY

DROPPED INITIAL CONTEST BY 6 TO 0 SCORE

REGULAR SCHEDULE CLASSES NOW UNDER WAY

Make First Home Appearance of Season Here Saturday Against Powerful Boyne City Team

Thirty-four Were Enrolled at Opening and Other Expected to Take Courses in Short Time

With but five minutes to play and both teams scoreless, an intercepted pass gave East Jordan a 6 to 0 victory over Charlevoix high school at East Jordan last Saturday afternoon. The contest was the initial one of the season for both teams and Charlevoix's first in defense of the Tip of Michigan conference title won last season.

While the veteran Charlevoix team kept play in East Jordan territory for the first three periods, they failed to muster the necessary punch for a touchdown. The closest approach to a goal came in the third period when the Kipmen gained a first down on Jordan's 10-yard line. However, the winners held and a fourth down pass incomplete in the end zone ended the threat.

Jordan's score came about the middle of the fourth period. Charlevoix had advanced the ball to their own 40-yard strip. A pass, tossed by Foster to Emrey, was intercepted by Ellis, Jordun half-back, who raced 35 yards down the sidcline for the score. A line buck for extra point failed.

Foster played an outstanding game for Charlevoix.

Charlevoix's Freshman College opened for registration Monday to 34 students. Others will enroll later.

Brief classes were held Tuesday with full time classes on Wednesday. For the present some confusion exists due to lack of outlines and text books, which, however, will be overcome so that next week regular college routine will be followed.

Classes in French are being conducted by Emmanuel Menatsaganian. Two courses are offered, one for those who have had French in high school, and one for those who have not. Mr. Menatsaganian has his master's degree from the University of Michigan and has been doing some work on his doctor's degree.

Miss Ruth Westover is the instructor of English. She has been doing work on a master's degree at Ann Arbor. Rex Supernaw, gradunte of Michigan Tech and Charlevoix high school, is teaching mathematics. The course includes algebra, trigenometry and possibly analytical geometry. The history subjects are being taught hy Arthur Stoughton, who has his master's degree from University of Michigan and has taught at the University of Wisconsin. The subject is general European history.

After the basic subjects have been taken care of, other subjects such as creative literature, mechanical drawing, German political science, music appreciation, American poetry, design and sculpture can be offered hy members of the local faculty.

It is not necessary to take the entire four subjects, although most student are. After the college group has been taken care of, it may he possible to admit some who wish to carry one subject only.

The Freshman College is being held in the community room at the school.

CHILD HEALTH COMMITTEE MEETING TUESDAY

Group Will Reorganize at First Fall Meeting at East Jordan

The fall meeting of the Charlevoix County Child Health group will be held Tuesday [illegible] p. m., in the East Jordan high school.

Miss Olive Sewell of the Michigan State Nurses' Association, will address the East Jordan high school girls on nursing at the same hour and committee members will probably find this talk interesting.

The business meeting will be a reorganization session and u representation of young people interested in furthering child health, is hoped for from every community.

MINISTERIAL ASSN. HAS ANNUAL MEETING

Rev. Edward S. Doane Chosen President at Session Monday

Rev. W. W. Hurd attended the annual meeting of the Little Traverse Bay Ministerial Association, entertained Monday by the Rev. Peter Koopman at his Atwood Reformed church.

The church women served a fine luncheon for the 29 present. Probate Judge Ervan A. Ruggegger put on a mock trial, "Society vs. Harry Brown," a fine study in juvenile crime. Two line solos were given by Lester VandenBerg.

In the annual election of officers, Rev. E. S. Doane of Petoskey, became the new president. Other officers chosen were: vice-president, Rev. Weaver of Petoskey; secretary-treasurer, Rev. W. W. Hurd of Charlevoix.

This association has about 35 members from the various protestant clergymen of the region. The October meeting will be held in Boyne City.

ATTEMPT ROBBERY OF COUNTY BANK

SCREEN BROKEN, HOLES BORED IN REAR DOOR

Robber, Apparently Alarmed While at Work, Did Not Complete Job; Second in Two Weeks

An unsuccessful attempt to gain entrance to the Charlevoix County State Bank was made late Friday night or early Saturday morning.

When Clarence Arnold, an employe, came to the bank Saturday morning, he discovered where someone had drilled through the wooden panel of a door leading to the alley behind the huilding. Further investigation revealed the culprit had broken a hole through the screen door and had used a small drill to cut a square through the panel, apparently to reach through and release the lock.

It is believed the robber was frightened hefore finishing the task, for the job was not completed. That the robber intended to enter the bank and hold up employes when they arrived in the morning is the opinion expressed by officers. Still another door, leading into a buck office, would have blocked progress by the robber gained entrance through the first, which leads to the basement.

Two weeks ago last Saturday morning a bandit gaining entrance through a transom, held up employes of the Charlevoix State Savings Bank, took $1,311 and escaped, only to lose his loot in the alley behind the bank.

DEMOCRATIC RALLY SATURDAY EVENING

Lacy and Brown to Be Speakers at High School Gymnasium

The first of several Democratic rallies to he held in Charlevoix county prior to the general election in November is scheduled for 7 o'clock Saturday evening, Octoher 6th, at the school gymnasium.

Arthur J. Lacy of Detroit, Democratic nominee for governor, and Prentiss M. Brown of St. Ignace, seeking re-election to Congress from the 11th district, will be the principal speakers.

Saturday will mark the opening of the pre-election campaign in northern Michigan, according to J. M. Foster, Charlevoix county Democratic chairman. Outdoor meetings will be held the same day at Mancelona, Bellaire, Central Lake, East Jordan and Boyne City, while indoor meeting are scheduled for Charlevoix and Petoskey, the latter at 8 o'clock followign the Chnrlevoix rally.

EXTENSION GROUPS MEET MONDAY WITH MRS. MILES

Due to the establishment of a Freshman College in the community room at the local high school, the first meeting of Charlevoix group enrolled in the M. S. C. extension work, will be held Monday afternoon, October 8th, at the home of Mrs. Walker Miles, 202 Belvedere avenue.

If troubled with headache, dizziness, nervousness or any other symptom of eyestrain, consult Dr. Leahy, the Optometrist, here on Wednesday, October 10th. Care of children's eyes a specialty.—Adv. 39t2.

WINDER RETAINED HEAD FAIR BOARD

RE-ELECTED AT ANNUAL MEETING MONDAY

Books of 1934 Fair Show Balance After Paying Premiums; Make Plans for 50th Fair in 1935

The annual meeting and election of officers of the Charlevoix County Fair Board at East Jordan, last Monday evening, was marked hy an excellent attendance and much interest was shown. The meeting was held in the council chambers, with the president of the Fair association, Dr. C. A. Winder, presiding.

This year's fair elicited many compliments on the extraordinary attendance, the character of the displays and the fact that all premiums were paid, as promised. The association took in about $2300 and spent in the neighborhood of $2200. The board believes it has found a way to meet last year's premium balance (as yet unpaid) by the first of the year. Many plans are laid for the fair's golden anniversary, next year, which will be the 50th year that the association has conducted a fair.

The officers and members of the board desire to thank most sincerely those who contributed their time and effort to make this year's fair a success. Among those who co-operated most efficiently to this end were the communities who closed places of business on their respective fair days, the granges, the bands, the American Legion, the various judges and superintendents, the exhibitors, the baseball nines and last but not least the public who so generously patronized the fair. A good many changes and repairs have been planned for next year and it is likely that the golden anniversary will he the occasion of one of the biggest and best fairs in the association's history.

The officers elected for the ensuing year are as follows: president, Dr. C. A. Winder; 1st vice president, F. O. Barden; 2nd vice president, Jesse Smith; 3rd vice president, Elmer Murray; 4th vice president; Jack Kenny; secretary, F. E. Crowell; treasurer, G. A. Nelson.

FIRST DICKENS CLUB MEETING WAS MONDAY

Members Enjoyed Meeting With Club President, Mrs. C. S. Webster

After the summer vacation, members of the Charles Dickens Club gathered Monday at the home of the president, Mrs. C. S. Webster, for an afternoon meeting.

The club colors, pale yellow and Chinese blue, were featured in the decorations and the dainty dessert luncheon served by the hostess.

Two songs by Mrs. A. L. Livingston and a clever article showing why Dickens' recently published "Life of Christ" brought higher prices than the writings of many younger authors, read by Mrs. F. J. Fessenden, were much enjoyed.

The year's work has the alluring title, "Wings Over South America," and will be an exhaustive study of that country. Great credit is due the executive committee for the program, which has been prepared in connection with suggestions from the Pan American Union, Washington, D. C. In a letter acknowledging copies of the year book sent them, the Union complimented the program highly and said the books had been placed in their loan library.

The year books, attached to small airplanes, made a most successful take-off at the club meeting and the members are eager to he off on their new adventure.

DECEPTION

Viewed from every angle of State, county and municipal financing needs during an emergency period which is still with us, adoption of the gas and weight tax amendment would be a costly error. For an imaginary saving of less than five dollars to each individual car owner it is proposed to reduce the revenue of the State Highway Department more than $7,000,000, sadly needed for the relief of poor school districts, welfare work and payments of indebtedness to the counties.

Not a single taxpayer should lose sight of the fact that every dollar taken from highway revenues must be made up through other taxation channels. It would mean a higher county tax to care for all highway debts contracted by the counties prior to the 15-mill amendment. It would mean the loss of millions in sales tax revenues on gasoline and in the manufacture and sale of all motor cars registered in this state.

What monumental folly to heed the advice of those favoring the amendment from purely selfish motives. What guarantee do we have that this saving to the motorists, which is their glib talking point, will not disappear some morning when the gas station attendant informs you that the price of gasoline has advanced a cent a gallon. The gas tax is the fairest of all taxes. Michigan's rate is among the lowest levied. Outsiders coming into the state help to carry our highway burdens. If you would build up rather than destroy do not allow yourself to be deceived.

A MAJOR ENTERPRISE

With more than twenty-five million pupils attending schools, ranging in size from little, one-room shacks in distant countrysides, to the magnificent stone structures in our major cities, education is properly called the nation's biggest business.

The public school has been marked almost from its beginning by rapidly increasing responsibilities. The objectives of education have expanded from the simplest tools of learning, to preparation for health and home, service and livelihood. These new responsibilities have required expansions in buildings and equipment. Demands for skill have called forth technique based upon research and experiment.

The history of the public school is typical of all other American ideals and institutions. The school has gone forward. It has paralleled progress in other fields, such as transportation, communication, home building, medical science and manufacturing. The widening conception of education and the increased popularity of its offerings have made the schools one of the nation's principal enterprises, and thus enrollments have extended to include almost a fourth of the population.

The economic crisis has brought progress in this enterprise almost to a standstill and yet the present lack of employment has added further to the responsibilities of the schools. They are a first consideration upon the support and loyalty of the American people.

NATIONS AWAIT PROBE

It is shocking to think that in this modern day of advanced maritime engineering and radio it is possible for a disaster such as the burning of the Morro Castle to occur, and that such an appalling number of lives should be snuffed out in the holocaust.

The whole civilized world will anxiously await a final determination of the reason why these innocent people were sent to so horrible a fate. The public demands a thorough airing of the whispering concerning, incendiarism, insubordination of the crew, dissension among officers and indecision on the part of the acting captain. It will also want to know whether it is true, as charged in the press, that the absence of a fast coast guard vessel on the purely personal mission of escorting Mrs. Ruth Bryan Owen, Minister to Denmark, home from a vacation in Greenland was an important contributing cause for the failure in rescue efforts.

CONVENTION PICK FITZGERALD SLATE

DELEGATES GET BEHIND NOMINEE FOR GOVERNOR

Toy for Attorney General, Brackett for Auditor, Atwood for Secretary of State

Republicans of Michigan gathered behind the two stalwarts who escaped defeat in the Democratic landslide of 1932 and prepared to go to the voters in November with a state ticket composed of nominees heartily in sympathy to the Fitzgerald candidacy.

Uniting with the Wayne delegation supporting Pros. Harry S. Toy the forces of Frank D. Fitzgerald swept the convention placing their favorite candidate into the lists.

Toy, who alone of the Wayne Republicans was elected two years ago, was the unanimous choice of the convention for the attorney general post.

One by one the Fitzgerald-Toy backed candidates were accorded such heavy votes in the early roll calls that their opponents withdrew to allow them the full support of the convention.

Other nominees:

Orville E. Atwood, Newaygo, secretary of state.

Harry D. Brackett, Escanaba, Auditor General.

Gilbert Isbester, Port Huron, treasurer.

The convention opened with a lusty move whereby Edward Barnard's Wayne rump delegation was denied a seating and the Toy delegation led by Edward Kuhlmnn was given the choice. It was the first state convention in years in which Barnard had not controlled the Metropolitan block — a commanding group of 391 votes.

Early it was shown that Fitzgerald was going to go sled length to support his avowed candidates and that he had the active support of the Wayne bloc. This was best evidenced when Isbester was named over Howard Lawrence after the former Governor Fred Green had made a fervent plea for the Lawrence candidacy. The outstate vote was fairly evenly split but the huge block went solidly for Isbester and Green withdrew his forces.

The tickets as chosen presents the men whom Fitzgerald stated publicly earlier in the week were his personal choices for the posts.

B. O. HAGERMAN, FORMER COUNTY AGENT, IS DEAD

Beryl O. Hagerman, 42, of Grand Rapids, supervisor of Michigan and Wisconsin fruit land appraisers for the St. Paul Federal Land Bank and nationally known authority on light soil utilization, died Saturday last in Mercy Hospital, Jackson, from injuries received in an automobile accident near that city.

Mr. Hagerman was Charlevoix County Agricultural Agent from 1922 until 1924, making his home in Boyne City while agent, when he moved to Grand Rapids taking the position of Agricultural Agent of the Pennsylvania railroad.

CHURCH TRAINING CLASS WILL OPEN NEXT MONDAY

The leadership training class sponsored by the Congregational Sunday School Workers Council will be in session for the first lesson from 7:30 to 8:30 p. m. next Monday, October 8th.

The Seven Points That Make "Personality"

Dr. William S. Casselberry, distinguished psychologist, explains what it is that makes people like or dislike you but gives the comforting assurance that you don't have to be 100% to be popular. Read the article in The American Weekly with Sunday's Detroit Times.

ECONOMICS

Economics is not an exact science, but neither is it changing collection of personal opinions. It consists of general principles demonstrable by close reasoning, and confirmed by history. These principles declare that under known conditions economic forces will operate in ways that have been ascertained by repeated experience. Economic principles tell how people have acted throughout recorded history when trying to protect or advance their material interests. Sound economic principles conform to the lessons of that history.

BAPTIST CHURCH HAD ITS ANNUAL MEETING

Fellowship Supper, Election of Officers Monday Evening

The Baptist church members held their annual business meeting at the church Monday evening. The meeting was preceded by a fellowship supper.

A large percentage of the membership was present to enjoy the program. The annual reports showed steady progress in every department and the financial report was the best on record.

The following officers were elected for the coming year: Treasurer, Ernest Peaslee; clerk, Louise Smith; deacons, Harold Dahlquist, Delbert Ingalls, Albert Cook; trustees, Galo Chew, Delbert Ingalls.

Sunday school officers were elected us follows: Superintendent, Harold Dahlquist; asst. supt., Ernest Peaslee, secretary, Jess Gregory; treasurer, Eva McGhan; pianist, Marie Dahlquist; music director, Ruth Ann Dowd; assistant pianist, Ida Ingalls.

The members are sending Rev. and Mrs. Rauch to the Michigan Baptist state convention at Jackson this month.

CHRIST EPISCOPAL CHURCH

Service at 7:30 p. m. on the second and fourth Sunday of each month. Rev. Edward S. Doan of Petoskey, rector in charge. The public is cordially invited to attend.

DUCK SEASON OPENED TODAY IN MICHIGAN

Hunters Must First Obtain Federal Stamp for Waterfowl

With summer officially closed, the next big entertainment feature the region will offer will be the opening of the hunting season.

Duck hunters will be the first to pull the triggers and feel the gun recoil as their season officially opens today and closes November 11. This year Monday and Tuesday of each week during the season have been designated as rest days and ducks cannot be hunted on those days. Another new kink to the duck law is the necessity of procuring a federal duck stamp to be pasted on the hunting license.

Hunting licenses for 1934 have been received by the local conservation headquarters and have been distributed to the same stores and places of business which sold them last year. After procuring a license the duck hunter then must go to the post office and purchase a duck stamp for one dollar which will be attached to his hunting license. All small game hunting licenses are one dollar again this year.

AT THE MOVIES

Boy Weeps at Will

Hollywood's newest child discovery since Shirley Temple is fast gaining fame because of his ability to weep bitterly at will.

He is little six-year-old David Holt, member of the cast of Paramount's "You Belong to Me," coming next Wednesday and Thursday, Oct. 10-11, to the Palace Theater with Lee Tracy, Helen Mack and Helen Morgan featured.

Director Alfred Werker recently revealed the fact that little David, who has several crying sequences in the picture, can control his tears better than many of Hollywood's adult actors.

All Werker has to do is to tell David that the next scene necessitates tears. David bows his head and covers his face with his hands for about two minutes. "I'm ready now," he sobs to Director Werker, and the boy can keep up his unhappy mood for any length of time required, the director said.

LEGION ACTIVITIES

By F. V. Tyler

Leslie T. Shapton Post is planning a family party for next Friday evening—something on the potluck order, in which Legionnaires, Auxiliares and their sons and daughters will take part. The occasion will be in the nature of a farewell for some of the boys and their wives who are leaving for Florida within the next few weeks.

On Wednesday, October 31st, will occur a Hallowe'en masquerade dance—probably at the gymnasium—to which the public will be invited at the usual popular prices. An effort will be made to include some kind of entertainment, using local talent. Proceeds are for the benefit of the nursery class for children of pre-school age, for which the Legion has pledged one hundred dollars. The money is to be used to provide lunches.

"On to Miami" is the slogan of the hour and several members will be missing from their usual seats along the wall up at the Home before long. The post has voted to have their colors carried in the National parade at Miami and Comrade Dick Shapton is slowly getting reconciled to the idea of seeing another parade piecemeal instead of from the sidelines. He and Comrade Charles Reinhart will carry the flags at Miami.

The kindly administrations to the post heating plant are going to make a lot of difference in the comfort the post members will take in their quarters this fall. The beneficial effects of his expert attention were gratefully enjoyed at Tuesday night's meeting.

The post voted, Tuesday night, to offer as a prize a brand new Legion uniform, complete, to the member securing the largest number of points by obtaining renewals and new memberships for 1935. Full details next week.

CHURCH CHOIR SINGING CONTEST PLANNED

Will Be Feature of Gaylord Potato, Apple and Seed Show

A Town and Country Church Choir Singing Contest will be conducted under the auspices of the R. E. Olds Community Music Fund at Gaylord, Thursday, November 8, 1934, at 9:30 a. m., eastern standard time. The contest will be held in the city auditorium.

The choir from any open country church or town church in towns of 2000 population or less (according to the 1930 census) will be eligible to enter the contest. Each choir must consist of at least six singers and as many more as possible. The participants must be regular choir members of the church represented. The leader and accompanist may or may not be members of the choir; if they are not members they must not participate in the singing.

Two selections will be rendered by each contesting group. The first is to be "I Will Lay Me Down in Peace" by Neidlinger. The second number may be any selection of sacred music the group wishes to make.

The required selection may be secured from Educational Music Bureau, Inc., 434 S. Wabash Avenue, Chicago, Ill., at 10c per copy less 10%.

Representatives of the music department at Michigan State College will judge the contest. The following prizes will be offered: First $45, second $35, third $25, fourth $15 fifth $10, sixth $10. All other places $5.

More completed details may be obtained by writing to B. C. Mellencamp, County Agricultural Agent, Boyne City, Mich., who is in charge of this contest. Within a very short time application blanks will be sent to the various churches in the district. If interested, send for your music immediately and get off to the right start. Last year nine choirs entered in a most exciting competition.

CHRISTIAN SCIENCE CHURCH

205 Clinton Street

Sunday morning service, 10:45.

First Wednesday of month, 7:45 p. m.

Reading room Tuesdays and Saturdays, 3 to 5 p. m.

We cordially invite the public to our services and reading room.

"Unreality" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, October 7.

Among the Bible citations is this passage (Jer. 22:18): "Woe unto him that buildeth his house by unrighteousness, and his chambers by wrong; that useth his neighbor's service without wages, and giveth him not for his work."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p.581,525): "The higher false knowledge builds on the basis of evidence obtained from the five corporeal senses, the more confusion ensues, and the more certain is the downfall of its structure . . . . Everything good or worthy God made. Whatever is valueless or baneful, He did not make, hence its unreality."

DISTRICT HEALTH UNIT BULLETIN

Smallpox Fears Vaccination Only. Are You Immune?

A long time ago in England it was discovered that the hands of milk maids were frequently infected with a disease called cowpox. Moreover it was commonly known that these milk maids not only escaped smallpox but could even care for smallpox patients without endangering themselves.

In 1798 Jenner, an English physician, scrutinized the situation. He artificially innoculated volunteer patients with cowpox and then exposed them to smallpox. Those exposed did not take the disease.

Dr. W. W. Bauer explains this interesting discovery in an article in Hygeia, "Smallpox and Chickenpox" which is one of his series, "Communicable Diseases in the Home." The author distinguishes between the two communicable diseases, smallpox and chickenpox. The former is a scourge while the latter is comparatively mild and is not usually futal unless the victim has been exposed to a number of other illness previously.

Vaccination is the only security against smallpox.

"The air is still filled with stories of the wickedness of vaccination. These are based on the experiences, all too true, of the dark days before bacterial causes of infection were recognized, when every person who became vaccinated, like every one who underwents surgery, took a chances on serious illness or even death, when in truth a severe vaccination reaction might be worse than a mild case of smallpox. All that has changed," says Dr. Bauer.

Smallpox exists where vaccination does not. Epidemics are still prevalent in those regions where vaccination is not compelled by law.

In District Health Unit No. 3, composed of the counties of Antrim, Charlevoix, Emmet and Otsego, there has been no smallpox since 1932. This compares with the following number of cases since 1925: 1925, 57; 1926, 10; 1927, 14; 1928, 42; 1929, 156; 1930, 33; 1931, 3; 1932, 0; 1933, 0.

Vaccination by local physicians has had a large part to do with lowering of smallpox in this area. The District Health Dept. has vaccinated 4,500 children since they have been in the territory which has also helped to reduce the incidence of the disease. Vaccination should be performed in the first ten days of life, again at school age and also whenever smallpox appears in the community. If your child has not been vaccinated against smallpox, take your child to your family physician and have him vaccinated at your earliest convenience.

Let The COURIER Sell IT for YOU

It's almost time to take down the screens

MOST of us hate to see Summer go. We miss the freedom that comes from being out-of-doors. We dread being bottled up in heated houses—wearing heavy clothes—fighting colds and all the impositions of Winter.

Since we have to live indoors, let's be gay and make indoors attractive. A new rug will brighten the living room and the one it displaces can go upstairs to cheer up a bedroom. Some colorful curtains will accentuate the pale winter sun. A new kitchen range or sink will take the gloom out of that much-used workshop. Some comfortable chairs will help you relax during the long evenings.

A little money will go a long way today in renovizing your home. Just watch the advertisements in this newspaper — there are amazing bargains in furniture, lamps, curtains, rugs and kitchen equipment. You're always more certain to get full value for your money when you buy products advertised by dependable merchants and manufacturers.

A. & P. 75 YEARS OLD ON MONDAY

NATION-WIDE CONCERN CELEBRATES OCCASION

J. T. Patten, Oldest Living Employe, Tells of Early Tea and Coffee Stores

The Great Atlantic & Pacific Tea Company today announced plans for its 75th anniversary celebration. This company started in 1859 as a single store on Vesey street, New York. Today its anniversary sale will be celebrated by 90,000 employes in 15,000 stores serving 6,000,000 a day.

J. T. Patten, the oldest living member of the organization, gave reporters an eyewitness account of the company's growth.

"My first job with A&P was in May, 1875," said Mr. Patten. "The company was then 16 years old and had only 12 stores, but a large mail order business.

"I remember well the first store I worked in. We sold only tea and coffee. Blending was done locally—if a customer found a blend too weak or too strong, she brought it back and the blend was changed to suit her taste.

"That early store would probably be considered rather ornate today. On the walls were great oil paintings of Chinese scenes. A gallery ran around the store half-way between floor and ceiling. From this gallery hung a multitude of bird cages with canaries, cockatoos, and parrots; and to complete the picture there was a large fountain in the center of the store in which goldfish swam. In the center of the ceiling hung a giant chandelier with many white, gas-illuminated globes on it. Glass prisms hung from under each light. These were always carefully taken off in early summer and the whole was covered with mosquito netting. The prisms were always washed, polished and replaced in the fall. In the windows there were a great many illuminated gas globes in arched rows.

A year later I was moved to 53rd street on Eighth avenue. In 1876 this was the farthest north the company had reached and just about as far north as New York City had reached, for north of 59th street there were only shanties through which ran the Boulevard, now renamed Broadway. In this store we sold tea, coffee and sugar under the smiling sun of a Chinese scene painted on the walls over the tea bins. To this 53d street store many farmers used to come from the country that lay north of 59th street to do their ordering for several weeks."

When asked about the famous blizzard of '88, Mr. Patten told how he saw how our own company grew as a result of it. I remember the first automobile I ever saw, and I, too, yelled 'get a horse." But soon, with automobiles trucking foods to new outlying stores, and with customers coming to stores from greater distances, food stores grew into complete grocery stores with wide assortments. It became less and less necessary to deal with customers by mail, or send our wagons out to their houses to solicit orders.

"Customers began to depend on the new canned foods, on fresh vegetables summer and winter, on individually packaged foods instead of bulk. Retailing grew up with America—every development in American life had its effect on our business.

"Today I marvel when I compare the food business of 50 and 75 years ago with modern, efficient, wasteless food distribution as we know it today."

The development of retail food distribution with the growth of America is portrayed in a series of posters by Louis Fancher to be displayed in A&P stores during the 75th anniversary celebration.

REMOVAL OF TURTLE BEING ENCOURAGED

Conservation Officials Claim They Destroy Ducklings

The removal of snapping turtles by individuals or groups from any of the inland waters of the state is encouraged by the Department of Conservation.

Those who plan to trap turtles however, are asked to notify the local conservation officer in order that he may inspect the traps and have knowledge of the operations and results of the work. If traps are used they must be sufficiently large in mesh so as not to catch or injure fish.

While no intensive study has been made of the habits of the snapping turtle, enough data has been obtained to indicate that he has a voracious appetite and does not spurn a meal of live fish when the opportunity offers.

The extent to which snappers inhabit some of the inland waters of the state is shown by the catch made by Frank Copeland of Houston, Ohio. Copeland took 183 snappers from a half mile of Pere Marquette river in eight days. The aggregate weight was 1,800 pounds.

DEPARTMENT OF CONSERVATION PRESS SERVICE

Michigan hunters who plan to be afield during the small-game season are warned by the Department of Conservation against carelessness with firearms. Records of hunting accidents have been kept by the Department since 1929. These records show that the accident toll during the past five hunting seasons was 112 dead and 176 injured. Of the total deaths 77 occurred during the small-game hunting seasons and 35 during the deer hunting sensons. The small-game hunters injured number 110; deer hunters, 66.

Arrests for violations of state conservation laws totalled 281 during August, according to reports compiled by the Division of Field Administration, Department of Conservation. This total represents a drop of 11 per cent under the July figure and is the lowest recorded since April.

Heavy rains throughout September in many parts of the fire zone has made it possible for the Department of Conservation to reduce its fire force, numbering nearly 300 men, about ten per cent. Several towermen whose areas overlap have been laid-off until the next fire season.

Nine new wildlife sanctuaries having a total area of 3,302 acres, were created by the state conservation commission at its September meeting. Dedications of 10 others were renewed. The land in all of the sanctuaries involved by the commission's action will remain closed to hunting and trapping for periods of five or ten years.

SELECT NOW FOR GAYLORD POTATO EXHIBIT

Farmer Told How to Prepare Samples and Select Types

Potato growers as well as 4-H Club members who wish to try for their share of the $1000 premium money offered at the 'Top O' Michigan Potato, Apple, and Seed Show at Gaylord on November 6, 7, and 8 should begin their selection of Show potatoes at digging time. Early indications are that the competition will be unusually keen this year as the Northern Michigan crop is of exceptionally good quality.

In selecting a show sample certain practices have been followed by the winners of past shows. For the benefit of 4-H club members and others who are making their first showing this year, these practices are given as fololws:

1. While picking up the potatoes select from ten to fifteen bushels of potatoes which are true to type, uniform in size, and of proper color for the variety. Do not save any potatoes unless they are free from scab, black scurf, and growth cracks. Some exhibitors prefer hand digging for the selection of the show sample, as the tubers are less apt to be bruised by this method of digging.

2. Wrap all potatoes selected in this manner at the field with paper to prevent any change of bruising the skin.

3. Store the potatoes in a dark, cooly, dry place that is free from frost.

4. A few days prior to show carefully go over the potatoes selected, removing the dirt with a soft brush or soft cloth; do not wash Show potatoes as this affects the natural color. Select from the stored stock those potatoes which are nearest to perfection. A pair of small scales will be a help in selecting uniform potatoes.

5. After the final selection has been made, again wrap the tubers in paper and pack them tightly in the box in which they are to be transported to the Show.

NEW PUBLIC HUNTING GROUNDS ESTABLISHED

Strip Mile Wide, Three Miles Long Near Tawas Game Refuge

A strip of public hunting ground a mile wide and three miles long was established along the east side of Tawas game refuge by the State Conservation Commission at its September meeting.

Before the commission's action, the east boundary of the refuge coincided with the west line of Tawas National forest, having neither state nor federal land available for public hunting ground. In order to create a public hunting area, to facilitate law enforcement and have a boundary readily distinguishable, the commission moved the east line a mile west to an established fireline. The area within the new boundaries was closed to hunting and trapping for another five-year period.

LOST 20 LBS. OF FAT IN JUST 4 WEEKS

Mrs. Mae West of St. Louis, Mo., writes: "Was 68 yrs. old and weighed 170 lbs. Lost 20 lbs. taking one box of Kruschen and feel just 4 weeks younger. Have lost 15 lbs. I also have more pep and energy. Furthermore I've gotten rid of my aches and pains at the same moment."

For quick relief take one half teaspoonful of Kruschen Salts in a glass of hot water first morning before breakfast. $4.15 is the price for a bottle that lasts 4 weeks. It's the one and only thing of the kind in all the world. If after the first bottle you are not joyfully satisfied with results—money back.

WEAK AND SKINNY MEN, WOMEN AND CHILDREN

Saved by new Vitamine of Cod Liver Oil in tasteless tablets.

Pounds of firm healthy flesh instead of bare scraggy bones! New vigor, vim and energy instead of tired lifelessness! Steady, quiet nerves! That is what thousands of people are getting through scientists' latest discovery—the Vitamins of Cod Liver Oil concentrated in little sugar coated tablets without any of its horrid, fishy taste or smell.

McCoy's Cod Liver Oil Tablets, they're called! "Cod Liver Oil in Tablets", and they simply work wonders. A little boy of 3, seriously sick, got well and gained 10½ lbs. in just one month. A girl of thirteen after the same disease, gained 3 lbs. the first week and 2 lbs. each week after. A young mother who could not eat or sleep after baby came got all her health back and gained 10 lbs. in less than a month.

You simply must try McCoy's at once. Remember if you don't gain at least 5 lbs. of firm healthy flesh in a month get your money back. Demand and get McCoy's—the original and genuine Cod Liver Oil Tablets approved by Good Housekeeping Institute. Refuse all substitutes—insist on the original McCoy's—there are none better.

OF INTEREST TO FARMERS

Landscaping Project Starts This Fall

Another opportunity is being given to many Charlevoix county farmers to have their homes landscaped by O. I. Gregg, landscape specialist from the Michigan State College. This year Mr. Gregg will be in a position to make twelve landscaping outlines for as many farmers.

The first lecture will be given on Friday, October 19. During the forenoon Mr. Gregg will make four outlines. The afternoon lecture will start at 2:30 and be of great interest to all folks who are desirous of beautifying their homes.

We can still make room in our schedule for several more folks who desire to apply for this assistance. Kindly notify your County Agent immediately if your desire to have your farm home landscaped by Mr. [illegible] this service to you.

Ram Truck to Make One Stop in County

The annual visit of the ram truck sponsored by the Michigan Pure Breed Sheep Breeders Association and the Michigan State College will be of interest to many sheep owners in the county. On the truck will be pure bred rams representing the major sheep breeds such as Shropshire, Hampshire and Oxfords, etc. The prices this year will be from $15.00 up. There will be a wonderful selection to look at and best of all, it will be possible to make trades. If you are interested in buying a new ram and have one for sale, bring him along. No doubt someone will want the one you have for sale.

The ram truck will stop at the Boyne City Co-operative Co. on October 18 at 10:00.

Many farmers in the past have been very pleased to have the opportunity of buying rams from the truck as they have a fine selection to look over and to see the animal they buy. Another feature of this meeting will be a discussion on sheep problems by Delmar LaVoi, specialist from the Michigan State College, who will be with the truck and who will transact all business for you.

If you wish to reserve one from the truck, get in touch with your County Agent at once and inform him of the price you want to pay and the breed you want. Mr. LaVoi will then select one for your needs and reserve him for you until time of sale.

Food Preparation Groups Finish Year's Activities

The Food Preparation Clubs are now finishing their requirements. Probably the most enjoyable occasion as well as the concluding event is the banquet that is entirely planned, prepared and served by the members of the club.

[illegible] son Community group had their banquet at the home of Mrs. Holborn. All parents of club members were present and certainly appreciated the efforts of the club members and if you think these club members cannot cook, it would only be necessary to attend to disprove this statement.

On Saturday night the Burgess Food Preparation Group served a meal fit for a king at the home of Mrs. Amandus Evers. The decorations were very attractive, the meal itself was complete in every detail and was very well served by the club members.

These projects have been very favorably received by the communities and already plans are being made to have new food preparation groups another year. Within the next week or so the premium money won at the County Fair will be available for the club members.

Miss Clara Kelderhouse and George Kelderhouse Jr., departed the latter part of last week for a visit with relatives in Chicago and attendance at the World's Fair. They will be away about two weeks.

Mr. and Mrs. Lee McDonald left Thursday afternoon for St. Ignace, where they will visit relatives before going to Southern Pines, N. C. Mr. McDonnld was bookkeeper at The Inn hotel during the summer season.

K. M. R.

The Misses Mary Helen Fochtman and Ruth Krueger, students at McLaughlan Business College, Grand Rapids, spent the week-end with their respective parents, Mr. and Mrs. Angus Fochtman and Mr. and Mrs. Otto Krueger.

Fenton R. Bulow, Dr. F. H. Wilkinson and Thomas Leo Carey, also James H. Gallagher of St. James, returned Friday morning from Flint, where they attended the State Republican convention as delegates from Charlevoix county.

Mr. and Mrs. B. L. Harrington departed Thursday morning by motor on a business trip and visit to relatives in Alliance, Ohio. They will also visit in Grand Rapids with their son-in-law and daughter, Mr. and Mrs. V. Y. Tuttle, before returning.

Salem Mussalem, who has been spending the summer at his cottage on Park avenue while operating business interests in this city, left last week for a month's stay in Chicago, after which he will go with his family to St. Augustine, Fla., for the winter.

Miss Olive Allen, manager of the local Western Union office, left Tuesday on a month's vacation trip. She will visit in Grand Rapids and out-state points. C. R. Garrison, relief manager, is taking care of the local office during Miss Allen's absence.

Mr. and Mrs. Bernard Burns of Plainwell, spent the week-end with Mrs. Burns' parents, Mr. and Mrs. Henry Howe. They were en route on a vacation trip to Canada, following which they will make another short stay in Charlevoix before returning home.

K. M. R.

Thursday's heavy blow started the annual perch "run" into Round lake harbor. The docks along Round lake were crowded with anglers Friday and the usual successful fall catches were reported. The perch "run" is late this season, usually starting the fore part of September.

R. W. Paddock of East Jordan, was a Charlevoix visitor Monday. He was accompanied by his son, William Paddock of Athens, Tenn., who, together with his wife and children are visiting at the home of his parents. Mr. and Mrs. Paddock also have as guest their son, Lieut. Hubert Paddock, U. S. N., of Washington, D. C., who spent the past week-end with his brother and sister-in-law, Mr. and Mrs. R. K. Paddock of this city.

St. Mary Altar Society will serve annual harvest dinner October 21st. Watch for further announcements.—Adv. 40t1.

NORTH MICHIGAN HAD FINE RESORT SEASON

Cars Carried by State Ferries Reflects Increase of Tourists

Northern Michigan is concluding the most pro-perous tourist season since 1929 or 1930.

Restaurant and hotel men, operators of tourists camps, filling station managers and others catering to the wants of summer visitors in the vacation country both above and below the straits of Mackinaw unanimously report a marked increase in business for the summer.

Some index of the pickup in the recreational industry is afforded by automobile traffic across the straits.

Records at the state highway department's ferry office show that in the period from the opening of navigation to Labor Day this year the state ferries carried 96,493 vehicles, as compared with 68,555 for the same period last year.

Traffic for the month of August alone showed the following increase by months over the figures for 1933: May, 18.5 per cent; June, 29 per cent; July, 38.5 per cent; August, 53 per cent.

YOUNG PEOPLE'S RALLY SUNDAY EVENING

About 75 Expected to Gather at Local Methodist Church

A group of about 75 young people from Charlevoix and neighboring communities will gather at 6:30 o'clock next Sunday evening, October 7th, for a rally at the Methodist church here.

There will be a devotional service appropriate to Sunday, followed by a social hour, program and refreshments. About 35 are expected from Barnard and 25 from Boyne City.

Arrangements have been made for a delegation from Cadillac, including the dynamic young district president, Cecil Elmore, who has been asked to give something of the program he recently presented at Harbor Springs. Mr. Elmore is a teacher of music, band and orchestra at Cadillac and is an inspirational leader of young people. He will probably also be present Sunday morning.

4,000 AUTO TITLES ARE AWAITING OWNERS

State Department Holding Titles Until They Are Claimed

There are 4,000 automobile owners in Michigan who do not have certificates of title for their cars. That many titles are being held in a department of state unclaimed file, after being returned by postal authorities because of improper addresses.

In many cases the car owner has moved and failed to leave a forwarding address. In Detroit, transposition of numbers of street addresses causes many titles to be returned to the department. Owners of cars, who have not received their titles should write the title division of the Department of State.

RECOUNTS DELAYING OFFICIAL CANVASS OF VOTE

Recounts in three Congressional and one State Senatorial districts are delaying the official canvass of the primary election. Until recounts are completed, the vote cannot be tabulated.

In the Fourteenth Congressional district, the question of jurisdiction of the recount has been raised. Under the law, there is some doubt whether the recount should be conducted by the department of state or by the Wayne County Clerk.

DISTRICT TEACHERS' MEETING AT PETOSKEY

Offering a program, strictly educational, but intended to bring to the teaching profession worthwhile new things from a different angle than attacked at any previous session, the Fifth District of the Michigan Educational Association will hold its annual convention in Petoskey on Thursday and Friday, October 4 and 5. Charlevoix public schools will be closed Thursday and Friday for the two-dny event.

BARNARD GRANGE HELD "BOOSTER NIGHT" SAT.

Barnard Grange held a "booster night" program at their hall last Saturday evening. The program consisted of talks, readings, recitations, music and songs, and a fine supper was enjoyed by the 105 persons present.

BUILDING, LOAN REPORTS FILED

Reports of the 67 building and loan associations in Michigan to the department of state, show total resources of $132,955,913. This is a shrinkage of 6.8 per cent under the 1933 reports.

FEDERAL HOUSING PROGRAM STARTED

PROVIDES NATION-WIDE IMPROVEMENT PLAN

Offers Citizens of Country Opportunity to Repair and Improve Their Homes

In an ambitious movement designed to lift the lagging construction and capital goods industries out of the doldrums, the Federal Housing Administration has launched its nation-wide program to encourage the repair and modernization of residential and commercial properties. In many communities committees have been appointed to push the campaign.

Under the terms of the Federal Housing Act, private financial institutions are enabled to make investments having the same degree of security and liquidity as is possessed by their best collateral loans. The Government makes no direct loans to property owners, but, rather, creates the machinery by which borrowers may obtain funds from established credit sources.

A National Need

Private industry and public officials alike agree that property modernization in the United States constitutes a national need. Millions of American homes, apartments, offices, stores, factories, and other buildings have suffered seriously from lack of normal care and attention during the past four or five years of depression. It is conservatively estimated that 16,500,000 buildings in the United States have reached a serious state of disrepair, and of these at least 3,600 have arrived at such a physical state that nothing short of a major building operation can save them. The remaining 13,500,000 for the most part require only minor repairs, but they are of the character that must be initiated at once to offset serious deterioration.

How Government Aids

The Federal Government, through the Housing Administration, will insure lending agencies against 100 per cent of all losses, provided the total of such losses does not exceed 20 per cent of the aggregate amount of funds advanced for property improvements. This insurance is virtually an iron-clad guarantee of protection for the financial institutions, since the highest known loss ratio on similar types of loans has not exceeded 3 per cent.

Experts in this field have said that it is hardly conceivable that these credits, extended by prudent institutions, could result in losses greatly exceeding this previous experience. The insurance, they agree, is tantamount to a complete guarantee for financial institutions. That is, if a lending agency acquires notes aggregating a total volume of $100,000 it will be insured against 100 per cent of loss on all items up to total aggregate losses of $20,000. Losses of this portion have never been approached in America on this type of business, even in the worst depression years.

The Federal Housing Administration, in its rules and regulations covering the making of loans, will not require collateral, except in cases where the state law demands mortgages as security for loans. This is true of some building and loan associations and savings banks, but the great majority of loans to be made under this plan will be in the form of character loans, based solely on the reputation of the borrower and his ability to repay. Endorsers and co-makers will not be needed.

MICHIGAN GETS CUT IN FEDERAL MONEY

State Must Carry Larger Portion of FERA Relief Load

The Federal Emergency Relief Administration has carried out its warning that Michigan must proceed to bear a greater share of relief costs. It cuts the state's request for October relief $1,376,000.

Dr. Wm. Haber, state relief administrator, announced the October grant will be $5,273,135 compared with $6,650,000 asked for. Of the grant $5,000,000 is allocated for direct and work relief in counties. Estimated budgets completed earlier this week totalled $5,324,000 for counties.

The balance of the October allotment provides $81,800 for work relief education; $22,000, transient; $46,335, student aid, and $120,000 for rural rehabilitation.

Dr. Haber pointed out that even with the appropriation of $1,000,000 from the sales tax, the money available for October is so far below the estimated minimum requirements that all county administrators are being advised no additions to work relief payrolls in October will be authorized.

SUNDAY DINNER SUGGESTIONS
By Ann Page

Cauliflower is this week's outstanding vegetable. Fine, close, white heads are unusually low priced. Cabbage, onions and white potatoes are very cheap. Dry, mealy sweet potatoes and moist syrupy yams are both at the height of their season.

A variety of fruits are available at reasonable prices, including apples, grapes, melons, pears, grapefruit, oranges and lemons.

Unusually mild weather is prolonging the growing season and so postponing scarcity and high prices of fresh foods.

Meats, particularly beef, but also pork, lamb and veal are also cheaper.

The following menus are made up from the latest market news available:

Low Cost Dinner
Fresh Spareribs and Sauerkraut
Boiled Potatoes
Bread and Butter
Apple Pie
Tea or Coffee Milk

Medium Cost Dinner
Celery Pickles
Pot Roast of Beef
Potatoes Carrots Onions
Bread and Butter
Pie
Coffee Milk

Very Special Dinner
Crabmeat Cocktail
Baked Ham
Browned Sweet Potatoes
Cauliflower au Gratin
Grape and Apple Salad
Rolls and Butter
Lemon Meringue Pie

Reading Fun in Store for Boys

Here's important news for the boys of America. THE AMERICAN BOY—YOUTH'S COMPANION, the nation's quality magazine for boys, has been reduced from $2.00 a year to $1.00. The three-year rate, formerly $3.50, has been reduced to $2.00.

"For a long time we have been seeking a way to reduce the cost of THE AMEICAN BOY to readers," states Griffith Ogden Ellis, editor. "Recently we have effected savings that make the cut possible, and we think boys will agree that the new price is big news on the reading front. We hope boys will help us to spread the good news by telling their friends."

Along with the cut in cost, the magazine's publishers are planning a magazine that will continue to set the pace in fiction, articles, and departments. The favorite characters of millions of boys will parade through THE AMERICAN BOY in new stories. Douglas Renfrew of the Royal Canadian Mounted, Hiltrack, the red-and-gold collie, Bonehead Jim Tierney, the detective, will give the reader many exciting hour in the months to come.

William Heyliger, whose true-to-life, gripping vocational stories have won him wide acclaim from parents and librarians, as well as the hearty approval of boys, is working on new stories. Staff writers are interviewing famous coaches and athletes and world-renowned explorers, to bring boys the color and fun of sports and travel.

In short, THE AMERICAN BOY, under its new price, will continue to give boys a magazine that measures up to the best standards set by adult magazines. Send your subscription to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Michigan. Enclose your name and address and the proper amount of money, and THE AMERICAN BOY will soon be headed your way, loaded with reading thrills.

ASK HUNTERS REPORT PHEASANTS, GROUSE

Use This Method to Obtain Facts on Abundance of Birds

Michigan hunters who plan to be afield during the upland game bird season, are asked by the Department of Conservation to make a report of the number of pheasants and grouse seen and bagged together with other pertinent incidents of the hunting trip.

This information will prove of great value to the Game Division in obtaining a cross-section of the local abundances of birds, the number accidentally killed and the amount of hunting during the open season.

Conservation officers throughout the state are being supplied with gamebird tally cards which will be given to bird hunters. The hunter is asked to write the information requested on the reverse side of the card and mail the card on the last day of the season. The cards require no postage.

Returns on cards distributed last year did not meet expectations. Of 30,000 sent out, only 600 were returned. Personal letters to the gun hunters who filled out cards last fall are being sent out by the Game Division of the Department with a request for continued co-operation.

The Maccabees will hold a rummage sale October 5, and a bake sale October 6 in the Holley Building.—Adv. 39t2.

KIPMEN VICTORS OVER BOYNE "11"

WON SATURDAY CONTEST BY A 19 TO 0 SCORE

Had Decided Advantage Over Visitors, Whom They Meet Again Saturday in Return Tilt

Returning to the form which won them a conference football championship last year, Charlevoix high school gridders toppled Boyne City from the leadership in the Tip of Michigan class C title race here Saturday afternoon.

The victory, Charlevoix's first in two starts, was by a 19 to 0 score. The Kipmen outplayed Boyne in every department.

Radle marked up Charlevoix's first score on the initial play of the contest, intercepting a Boyne forward pass. Hebert's place kick for extra point was good and the Kipmen had a 7 to 0 margin before the game was hardly under way. The remainder of the first, and the second quarter was a punting duel with most of the play in Boyne territory.

Charlevoix scored again in the third period on Carey's long pass to Bergman, end. Their third goal came in the final period. Foster paved the way with a gain of about 20 yards through the line. A lateral pass netted first down, a line thrust two yards more and Foster slipped through center for the score. Hebert's placements for extra points after the second and third touchdowns were wide.

Boyne made a desperate attempt to score in the waning minutes of the game tossing passes, with abandon. Only one was good and the final whistle found the Kipmen again threatening to score.

Charlevoix repeatedly took advantage of a favorable wind to punt into scoring position, especially in the last half. That Boyne was at a great disadvantage may be gathered from the fact that for two entire periods they punted on first down, never attempting another play.

Charlevoix's play, a great improvement over a week ago, was as spotted at times as it was brilliant. Foster's open field running was outstanding and Hebert's punting was good.

The line-ups:

Charlevoix		Boyne
Bergman	le	Lamb
Jeffery	lt	Vincent
R. Shapton	lg	Clute
Pearl	c	Nessen
Mayhew	rg	Nessen
Radle	re	Woerfel
Nickerson	qb	Hausler
Carey	hb	Schneider
Hebert	fb	Green
W. Shapton	hb	Hosier

Substitations, Charlevoix: Foster for Nickerson; Zelley for Pearl. Referee, Ferenz, Traverse City; umpire, Pezet, Traverse City; head linesman, Geneit, Charlevoix.

Charlevoix and Boyne meet again at Boyne this week Saturday in a return tilt. Charlevoix will be out to retain their margin over the Brotherton-coached aggregation.

METHODIST YOUNG PEOPLE HAD RALLY

Nearly Hundred Enjoyed Fine Program Here Sunday Evening

There were ninety-nine persons present at the young people's rally held last Sunday evening at the Methodist church.

The program, conducted by Miss Virginia Taylor, president of the local league, had been carefully prepared, and beautiful decorations of purple and gold were enhanced by a profusion of giant golden dahlias and other flowers.

The first feature of the evening was a fine worship service, followed with special music by Herman Meyers and Ernest Potter. Cecil Elmore of Cadillac, district president, gave a fine inspirational address on character building, also spoke on the approaching convention at Traverse City and the spring institute at Bay View. He was accompanied by Robert Merrill, who spoke on the same topics, adding much to the helpfulness of the program.

A social hour followed the program with the hosts serving refreshments. Many were the outspoken expressions of appreciation for the very good time enjoyed and hopes for similar events to follow.

COUNTY SOLONS IN ANNUAL FALL MEET

CONVENED MONDAY MORNING AT COURT HOUSE HERE

Preliminary Activities Occupy Monday and Tuesday—Committee Reports Expected Soon

Convening Monday morning at the court house with a full roll call, the Charlevoix county board of supervisors went to work on the business of their annual October session.

Monday was devoted largely to the reading of communications, all of which were either placed on file or referred to the proper committees for future action.

Mrs. Chandler appeared with a request for the usual annual appropriation to the Michigan Children's Aid. Her report showed 15 Charlevoix county children had received benefit from the organization during the past year. Hugh J. Gray, secretary, gave a report of the year's activities of the Michigan Tourist & Resort Association and requested this county continue its financial support to the Association.

Following a request contained in a communication from the Department of Aeronautics, Chairman Tindall appointed a committee on aeronautics composed of Supervisors John H. Parker, E. E. Cross, William Webster, Joseph Topolinski and A. J. Bolhuis. It will be the duties of this committee to promote the county airport and matters pertaining to aeronautics in the county.

Reports of Dr. F. H. Wilkinson, secretary of the Soldiers' and Sailors' Commission, County Treasurer Lillis M. Flanders and Sheriff Floyd W. Ikens were heard.

Claims totaling around $700 were referred to the ways and means and financing committees. A request for more vault space and inspection of the court house foundation was referred to committee.

As the board continued Wednesday the more important business of the session was in committee and will in all probability be reported out later this week.

EXTENSION LEADERS GIVEN INSTRUCTION

First M. S. C. Lesson Given Here to Leaders Last Thursday

Fourteen local leaders met in the community room of the Charlevoix school building on Thursday, October 4, to receive the first of a series of five lessons given by Miss Irene Taylor on the M. S. C. extension project, "The Well Dressed Woman." This is a continuation of the project given last year by the Extension Department on "Fitting Your Dress."

If this year's work proves to be as beneficial to the ladies taking the work as last year's project did, it will be an opportunity for those interested in doing their own sewing to obtain help, that will tend toward greater efficiency along this line of work.

The next leaders' class will be held Nov. 15 in the community room.

FITZGERALD WILL SPEAK ON FRIDAY

WILL ADDRESS REPUBLICAN RALLY AT 11 A. M.

Outdoor Gathering Scheduled at Memorial Park—Has Three Other County Engagements

Charlevoix citizens are to have their first opportunity of hearing Hon. Frank D. Fitzgerald, present secretary of state and Republican nominee for governor at the November 6th election, on Friday of this week, October 12.

Mr. Fitzgerald, who speaks Thursday evening in Cheboygan, will arrive here Friday morning. His address is scheduled for 11 a. m. at the Memorial Park, corner Bridge and Antrim streets. If the weather is unfavorable for an outdoor gathering, it is likely that the gymnasiam will be used. Following an informal luncheon at Hotel Charlevoix with the local candidates for office and committeemen, he will go on to East Jordan, where he will speak from the city hall steps. His Boyne City engagement is at 2:15 p. m., speaking at the city park and he will appear in Boyne Falls at 3:00 p. m. at the town hall. A load-speaker outfit will accompany him so that his listeners will have no difficulty in understanding his remarks.

In passing from place to place on his speaking tour of Charlevoix county, it is also planned that a representation from each community shall accompany him to the next one, thus forming a cavalcade of cars in his honor. It is likely that music will be furnished at Charlevoix, East Jordan and Boyne City by the local bands.

Charlevoix county gave Mr. Fitzgerald at the primaries on September 11th a vote exceeding by 70 per cent that cast for all the other candidates for the office of governor in the county. This lead over his opponents in Charlevoix county was greater than his majority in his home county of Euton, or than that in any other county of the state. It is hoped that the attendance at the points where Mr. Fitzgerald is scheduled to speak will be a farther striking evidence of the esteem in which he is held by Charlevoix county Republicans.

SUNDAY SCHOOL RALLY WAS A FINE SUCCESS

Large Attendance at Congregational Church Last Sunday

[illegible] the rally day program of the Congregational Sunday school held at 10 o'clock last Sunday morning, including many visitors besides members of the school.

The special numbers were a violin and piano prelude by Stella Livingston and Betty Dean; Psalm 150 in unison by the school; a recitation descriptive of a rally day of long ago by Martha Craig; and exercises by the primary children which included two songs and recitations by Robert Hamilton, Joan Adams and Virginia Young. Mrs. Tony Novotney directed the singing and Marielle VanAllsburg was accompanist.

One hundred and thirty-four enrolled when the classes assembled for lesson study and this number will no doubt be considerably increased before the end of the month.

The Baptist Ladies' Aid will hold a Rummage Sale in the Holly Gift Shop building, Friday and Saturday of this week.—Adv. 41t1.

BACK NEW DEAL IS LACY'S PLEA

DEMOCRATIC NOMINEE FOR GOVERNOR SPEAKS HERE

Pledges 100% Benefits of the New Deal for Michigan in Address at School Gymnasium

Promising 100 per cent benefits of the new New Deal for Michigan if he is elected governor, Arthur J. Lacy, Democratic candidate for the post of chief executive of the state, spoke at the high school gym Saturday evening.

"The national and state governments must work hand in hand for the solution of the problems of the people," Judge Lacy said. "We want the New Deal for Michigan in its complete form as it is coming to the people of the United States under Franklin Delano Roosevelt.

"Michigan must be 100 per cent behind the New Deal to get 100 per cent of the benefits due. We can't do this if the state elects a government in opposition to the national regime at Washington."

Also speaking at the meeting were Maj. Gay Wilson, Democratic candidate for secretary of state, Prentiss M. Brown, Democratic candidate for re-election as congressman from this district, and Elmer G. Smith, Democratic candidate for state senator from this district. J. M. Foster acted as chairman.

"The administration of the affairs of state vitally affects the success of the program of national and state recovery," Judge Lacy said. "For instance, on this question of taxation, if you lighten the burdens of taxation on the great mass of the people, the farm owners, the home owners and the business men, you leave money in the pockets of the people which is just as good as money earned to them, except that they don't have to work for it because it is saved. They may take it and expend it for the things they need which will increase the opportunities for labor and work in the factories and for the farmers to sell the products of their farms. This will all tend to restore the buying power.

PENSION OFFICIAL MAKES VISIT HERE

District Supervisor Says Payments Depend Upon Tax Receipts

W. T. Miller, district supervisor of the Old Age Pension Bureau, Lansing, was in Charlevoix Monday morning making some arrangements in connection with the payment of old age pensions in Charlevoix county.

He stated that farther payment of old age pensions in the state depended entirely upon the continued remittance of old age assistance taxes until some other method is approved to furnish the needed funds.

"With the coming of winter many old people have a greater need for an old age pension," he said, adding farther that "the old age assistance tax may be paid at the county treasurer's office in Charlevoix and at the offices of the various township and municipal treasurers."

TED MILLER BOUND TO CIRCUIT COURT

Waived Examination Monday on Charge of Robbery Armed

Teddy Miller, who, following his arrest last Wednesday confessed to the Kahler & Friend oil station hold-up of October 2, and the Charlevoix State Savings Bank robbery of September 15th, will answer to a charge of robbery armed before Judge Parm C. Gilbert in circuit October 22.

At a hearing Monday afternoon before Justice H. R. Fowler, Miller waived examination and was bound over to circuit court. Bond was set at $1,000. He was charged specifically with the Kahler & Friend station hold-up job.

DR. F. W. YOUNG WAS AT DETROIT SATURDAY

An article in a recent issue of the Detroit Free Press announced the wedding Saturday of Miss Marjorie Emery Rough, daughter of Mrs. Frank Rough of Detroit, and Dr. Frederick Wellington Young, well known and popular local young dentist. The ceremony was performed at Grace Episcopal church. Dr. Young is the son of Dr. and Mrs. Frederick W. Young of Birmingham.

ANNOUNCE PLANS OF POTATO SHOW

TO BE HELD AT EAST JORDAN, OCTOBER 27th

Banquet and Entertainment Program Being Arranged for Second Annual Exhibit

(By B. C. Mellencamp)

Plans are rapidly going forward for the Second Annual Charlevoix County Potato and Apple Show to be held at East Jordan on Saturday, October 27th. Already the East Jordan Chamber of Commerce has appointed a committee consisting of Howard Porter, Rev. Leitch and Walter Corneil to act as an executive committee and to be responsible for the success of the show. It is expected that the county of Charlevoix, City of East Jordan and the Co-operative Marketing Associations throughout the county will contribute financially to the show.

Approximately $150.00 in premium money will be offered exhibitors in the county. There will be three divisions in the show, namely, potato division, junior department, (including both 4-H clubs and Smith-Hughes projects) and apple department. With this amount of premium money offered, there is no doubt but that the leading potato and apple producers in the county will exhibit. This year there will again be a beginners' class for those who have never exhibited at any previous show. This means that the new men will not have to compete against the experienced exhibitors.

The sponsors of this show urge to make your selection of potatoes and apples right away. Always select your potatoes immediately after being dug from the field. It is desirable to wrap each potato separately so that they will not come in contact with one another and make any bruises or discolorations. If you desire any assistance in making your selection, kindly get in touch with your county agent who will be glad to help you as much as time permits. Watch the papers for farther announcements.

RELIGIOUS COUNCIL CONVENTION SET FOR OCT. 18

The annual convention of the Charlevoix County Council of Religious Education will be held in the East Jordan Methodist church on Thursday, October 18th. There will be afternoon and evening sessions with co-operative supper at 6 p. m. Everyone bring their own table service. All Sunday school workers in the county are invited.

MUST HAVE PERMIT TO HUNT "BAITED" AREAS

Michigan hunters who wish to shoot migratory waterfowl on "baited" premises, must obtain a permit from the Bureau of Biological Survey, Washington, D. C., according to an announcement by the Game Division, Department of Conservation.

DEATH CLOSES ACTIVE CAREER

E. C. STERRITT DIED SATURDAY IN CHICAGO

Was Spanish-American War Veteran and Lighthouse Keeper—Military Funeral Tuesday

Funeral services, with full military honors, were held at 2 p. m. Tuesday for Everett C. Sterritt, Charlevoix lighthouse keeper, who died Saturday morning in Chicago.

Legionnaires, veterans of the Spanish-American War and members of the Veterans of Foreign Wars assisted in the service and members of the local coast guard unit acted as pall bearers. Services were held from the residence on Park avenue with Rev. G. R. Parker officiating. Interment was at Brookside cemetery.

On September 1 Mr. Sterritt went to Marine Hospital, Chicago, for treatment of injuries suffered five or six years ago while working on the government pier here. Pneumonia caused his death.

Born in Rochester, N. Y., May 30, 1874, Mr. Sterritt spent his boyhood in Detroit. He ran away to New York at the age of 12 years, gave a man $2 to swear to his guardianship and joined the navy. He served 12 years, three enlistment periods. He traveled around the world three times and was awarded several medals for service during the Spanish-American war. One medal, awarded by Congress, was given Sterritt for service as fireman on the U. S. S. Oregon when it made its famous 16,000-mile dash from Puget Sound around Cape Horn to Key West. Another medal is a ribbon from the city of Detroit.

Mr. Sterritt served on the Oregon during the blockade before Santiago and was on duty during the battle of July 3, 1898, when Cervera's fleet was destroyed.

After leaving the navy Mr. Sterritt worked at odd occupations for six years. He joined the lighthouse service in 1902 and was keeper of the harbor light here at his death. He also served as keeper of lights at Seul Choix Point, Maskegon, Mackinaw City, Wangoshance, North Manitou Island, St. Joseph and Twin River Point.

Surviving in addition to the widow are two sons, Charles of Detroit, and Robert of this city.

Mr. Sterritt was a member of the Masons, the Spanish-American War Veterans and the Veterans of Foreign Wars. It was through his efforts and promotion that the Charlevoix [illegible] band was organized. He was member of the former organization and an enthusiastic band booster.

FORMER LOCAL RESIDENT DIED AT DETROIT

Funeral Services Conducted Here Monday for Capt. Wm. Hulme

Funeral services were conducted Monday afternoon from the home of Mrs. Archie Alcock for her brother-in-law, Capt. William Hulme Jr., former Charlevoix resident, who died Friday at Marine hospital in Detroit.

Rev. W. H. Raach, pastor of the Baptist church, conducted the services and interment was at Brookside cemetery.

Deceased was born April 8, 1869, at Maple City, Mich. He came to Charlevoix in July, 1887, and on December 21st, 1899, was married to Miss Caroline Brown of this city. During many years residence in Charlevoix, Capt. Hulme sailed the lakes and will be remembered well by local mariners.

Surviving are the widow and two sons, Glennwood B. and Kenneth S., both of Toledo, Ohio; also two sisters, Mrs. Elizabeth Beattie and Mrs. M. K. Chew of Charlevoix.

METHODIST LADIES' AID ELECTED NEW OFFICERS

At a recent meeting of the Methodist Ladies' Aid Society, held at the home of Mrs. Rhinehart on Dixon avenue, the following officers were elected for the ensuing year: President, Mrs. M. R. Hooker; vice-president, Mrs. William Bogart; secretary, Mrs. Fred Glazier; treasurer, Mrs. George Meggison. Nineteen members and four guests enjoyed the luncheon served by the hostess.

Lecture on Landscaping by O. I. Gregg

The first lecture in the series of three to be given by O. I. Gregg, landscape specialist of the Michigan State College, takes place in the assembly room, Federal Building, Boyne City, on Friday, October 19 at 2:30. These lectures will cover the entire field of landscaping and will enable any person to beautify their home surroundings very easily. Last year as a result of this project something like 12 homes throughout the county were beautified and greatly improved in appearance.

Mr. Gregg very cleverly discusses the principals to keep in mind in beautifying the home. He recommends the use of native shrubs and trees. Also, he discusses in detail the manner of putting out shrubs and their care as they develop. No matter whether or not you are planning on new shrubbery, this lecture will help you greatly in caring for what has already been set out.

During the last six or seven years, approximately 25 homes have been landscaped, all of which adds greatly to the beauty of Charlevoix county. Remember that you are cordially urged to attend this series of three lectures the first taking place next week. We still have room in our schedule for making landscaping outlines. If you are interested, put in your application immediately as several requests have come in the last week.

Ram Truck Attracts Interest of Sheep Raisers

Approximately 30 pure bred rams representing the leading breeds will be present on the ram truck when it visits Charlevoix county on Thursday, October 18, at 10:00. This will be a wonderful opportunity for sheep raisers to purchase the type of ram that they need for their flock and one that exactly fits their needs. Not alone that but Delmer LaVoi, specialist in animal husbandry of the Michigan State College, will give a discussion on rams and the points to consider in selection.

If you have a ram that you wish to trade, bring him over as it may be possible to make a trade for a ram on the truck or for one owned by some local farmer.

The rams this year are very well selected and reasonable in price. They come from the leading sheep herds in Michigan. If you desire to buy one it would be a great help to Mr. LaVoi if you make a reservation so that one can be selected to fit your needs.

PROMISES GAS PRICE CUT IF TAX IS REDUCED

Replying to a newspaper inquiry, President Edward G. Seubert of Standard Oil Company of Indiana, announced today that if Michigan would reduce the present 2-cent production of one cent a gallon in the state gasoline tax his company will reduce its prices accordingly the minute the reduction becomes effective.

"Some question has apparently arisen," Mr. Seubert said, "as to whether the oil companies or the consumers who pay the gasoline tax will benefit by the reduction. I can definitely promise for my company that any reduction in the tax will at once be met by a corresponding reduction in the price asked for our gasoline.

"Since the taxation of gasoline began there have been many occasions and places where we have had to raise prices because of tax increases. It would be a novel and enjoyable experience to be able to reduce prices in Michigan because of the reduction in the tax. The burden of the gasoline tax has become unjustly heavy on the motorist, especially since so much of the primary construction of roads has been completed and funds are being diverted to general uses. It is high time there should be a reductions of the gasoline tax everywhere. It would be a high distinction for Michigan to be the first state to return to a 2-cent rate."

Mr. Seubert recalled that when the federal gasoline tax was reduced on January 1, 1934, his company at once reduced prices accordingly throughout its territory.

LAKE TROUT SEASON CLOSES OCTOBER 20

Halt Fishing for 25 Days During Annual Spawning Period

The season for taking lake trout in Lake Michigan closes Saturday, October 20, and remains closed to and including November 14 to protect the trout during the spawning period, according to the Fisheries Division, Department of Conservation.

Lakes Superior and Huron were closed to commercial fishing for lake trout October 10 for a period of 26 days. The season does not open again until November 5.

Closed season on whitefish in Great Lakes waters over which Michigan has jurisdiction are as follows: Lakes Michigan and Huron, November 5 to December 15, inclusive; Lake Superior, November 1 to November 26, inclusive.

Following a policy inaugurated last year, the Department of Conservation will not permit commercial fishermen to remove spawning trout or whitefish from Great Lakes waters during the respective closed seasons, but the Department has arranged to handle all spawn collected by fishermen before and after the respective seasons. The spawn will be handled at the Thompson, Harrisville or Bay City hatcheries.

BARRING DRY WEATHER, FIRES SET LOW RECORD

Barring a recurrence of dry weather and serious fire hazards, Michigan's forest fire damage for 1934 will be one of the lowest on record, according to the Department of Conservation.

The total number of fires reported to date is 2,813 and the total acreage burned is 19,064

From the Editor of The American Boy

During the coming year, the boys of America will get a half-fare rate to adventure and fun! THE AMERICAN BOY YOUTH'S COMPANION, the nation's leading magazine [illegible] costs $1.00. A three-year subscription, previously $3.50, costs only $2.00.

Griffith Ogden Ellis, editor of THE AMERICAN BOY, brings the hearty assurance that the new prices will in no way affect the editorial contents of the magazine. It will be as large, as beautifully printed, as full of high-spirited adventure as ever.

"THE AMERICAN BOY's leadership has been no accident," Mr. Ellis states. "We publish the magazine on the firm belief that boys deserve a magazine as good as any publication for grown-ups. So we use the best illustrators obtainable—well-known artists who work for the biggest magazines. We send our staff writers all over the country digging up the interesting facts of science, interviewing world-famous explorers, talking to coaches and athletes.

"We encourage and assist our writers to go everywhere for material to build. Africa, the South Seas, China—and bring back adventure for American boys. We hire experts on hobbies and boy problems to advise boys and young men. These steps account for our position as the quality magazine for boys, and we shall continue to take them."

Twelve issues of fun and excitement for $1.00! Three years for $2.00! Spread the news among your friends—and send your own subscription direct to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Mich. Service on your subscription will start with the issue you specify.

MAKES YOU LOSE UNHEALTHY FAT

A woman writes: "Norwich, Conn., writes "I lost 16 lbs. with my first bottle of Kruschen. Feel so good daily it was hard to sleep at first but now since I am taking Kruschen I sleep plenty, eat as usual and lose fat, too."

To take off fat—take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast; one bottle (that lasts 4 weeks) costs but little—get it at any drug store in America. If this first bottle fails to convince you this is the SAFE and HARMLESS way to lose fat—your money gladly refunded.

Don't accept anything but Kruschen if you want to reduce safely.

WEAK AND SKINNY MEN, WOMEN AND CHILDREN

Saved by new Vitamins of Cod Liver Oil in tasteless tablets.

Pounds of firm healthy flesh instead of bare scraggy bones! New vigor, vim and energy instead of tired listlessness! Steady, quiet nerves! That is what thousands of people are getting through scientists' latest discovery—the Vitamins of Cod Liver Oil concentrated in little sugar coated tablets without any of its horrid, fishy taste or smell.

McCoy's Cod Liver Oil Tablets, they're called "Cod Liver Oil in Tablets", and they simply work wonders. A little boy of 3, seriously sick, got well and gained 10½ lbs. in just one month. A girl of thirteen after the same disease, gained 3 lbs. the first week and 2 lbs. each week after. A young mother who could not eat or sleep after baby came got all her health back and gained 10 lbs. in less than a month.

You simply must try McCoy's at once. Remember if you don't gain at least 3 lbs. of firm healthy flesh in a month get your money back. Demand and get McCoy's—the original and genuine Cod Liver Oil Tablets approved by Good Housekeeping Institute. Refuse all substitutes (none on the original McCoy's—there are none better).

Ant Foe of Aphids

Aphids, one of the really irritating pests which harass the flower lover, have two natural enemies which aid in keeping them under control, although where they are present in any quantity artificial means, such as spraying with nicotine solutions, are necessary.

The aphids are particularly fancied by the larvae of the ladybirds, or as they are commonly called "lady bugs." Ants, too, find aphids of value as the insects exude a sweet liquid which the ants seek. In fact, ants are known to corral aphids in herds and keep them in captivity, protecting them against other enemies. The aphids form a "dairy herd" for the ants which collect the sweet liquid for food purposes.

The Heart of Hollywood

By THAYER WALDO

© McClure Newspaper Syndicate. WNU Service.

THE arc lamps circled and the music played and twelve thousand people seethed around. Half an hour still before the picture would begin; thirty minutes more of glare and blare and babble, then another Geraheim's Arabian theatre premiere would be history. I stood on the fringe of the crowd, watching and listening to it all.

Out in front of the forecourt there was suddenly a commotion. Into the hanging microphone the voice of the announcer near me cries:

"Here it is, ladies and gentlemen—the big moment everyone's been waiting for. Miss Sylvia Malvern, the lovely star of tonight's picture, is just arriving. In a minute we'll have her here to say a few words to you."

Up the narrow cleared passage from the curb Sylvia made her glittering way. Jewels, fur, and her flashing smile created a picture of dazzling, if overdone, charm. As she passed a few feet from me I became aware of someone at my elbow, squirming and pushing forward. I glanced sideways with a scowl—and hardly stifled an explosion of mirth at what I saw.

There beside me stood a short, squat man whose face was the most absurd concoction of features I have ever looked upon.

I'd just gotten the full startling impression when, to my further astonishment, he grinned and waved at Sylvia Malvern. Moreover, she returned it with a gracious nod. Then she had passed on and I became aware that the fellow was regarding me, his blissful smirk still active.

"Gosh!" he exclaimed in a gurgling voice. "Ain't she grand?"

"Sure is!" I agreed heartily. "Do you know her?"

He bobbed assent and the pop eyes rolled happily.

"Oh, yeah—she's my best friend, really. 'Course I only met her couple o' weeks ago, but now it seems almost like we'd known each other always."

The perfect satisfaction in his tone decided me. I told him:

"That's certainly fine! I've wished for years I could meet her myself. How did you manage it?"

"Well, guess I was just kinda lucky. But it was awful important to me; maybe that helped. I think y' get 'most anythin' y' want bad enough."

Realizing that he was fully launched now and willing to talk, I suggested that we sent ourselves upon a small stone bench which stood beneath some potted palms near by.

"So you were very anxious to see Miss Malvern, eh?"

"Gee, you bet I was!" he replied with something like a wistful note. "Y' see, she was the first person to ever make me feel real happy. Back when I went to school, all the other kids used to laugh and point at me and holler 'Funny-face!' So I got kinda in the habit of stayin' by myself. Sometimes I was pretty lonesome, too, and—but—aw, shucks, that sounds like I was feelin' sorry for myself; I didn't mean it that-n-way.

"I went to movies a lot 'cause it was dark in the theaters and—well, I liked 'em. One day 'bout a year ago I first saw Sylvia—Miss Malvern, that is—and right off I was crazy about her. After [illegible] sweet and—and kind-lookin'. Guess I musta gone back to see that picture five or six times, and the same with all of hers after that."

After an instant's pause he went on more eagerly than ever:

"Then 'long some time last winter I got the idea how swell it'd be if I could see her herself, and maybe even talk to her. So I just up and sold some land my folks had left me and came straight out here from Cedar Hollow—that's my home town, in Iowa.

"I didn't have much notion what to do, but I found Zenith studio and hung around the gate. One day the man in uniform there asked me what I wanted and I told him, and he called somebody else. First thing I knowed they was takin' me right into the place. I waited in some office just a few minutes, and then they told me where to find Sylvia.

"Well, it all turned out like I hoped for. We was alone, on the stage where she'd been actin' for this pitcher. I don't remember just what I said; maybe some of it was kinda foolish, on account of I was so nuts about her. But it don't matter now—all I care about is thinkin' how swell she was to me. I ain't never gonna forget that, and I'll never mind no more when other people make fun of me. All a fella needs is one real friend."

Suddenly he noticed many of the throng drifting toward the theatre entrance, and sprang up.

"Golly!" he cried. "I gotta go; I might miss some of it. Well, hope you meet her some time, too. G' bye."

Before I could summon poise to move or speak, he was gone. I was still sitting there, pondering the tale and its strangely touching teller, when a crisp voice came to me from beyond the palms—the announcer signing off. Quite idly I listened.

"And finally, ladies and gentlemen," he said, "let me urge you to attend this truly great picture soon. I saw it in preview just last night, and it has everything: cast, story, songs, comedy—oh, what comedy! There's one skit I'm sure will be the season's biggest laugh. And they tell me it's absolutely novel; a scene in which the chief actor didn't even know he was appearing. Miss Malvern's with him, and makes it a grand stooge. Honestly, it's a panic, and only one of the high spots in a real four-star show. Thank you; good night."

GET VAST SUMS FROM GULLIBLE

Gambling Rackets' "Loot" Is in the Billions.

Lotteries, "numbers" games and various other gambling rackets mulct millions from the American public annually, says Popular Mechanics Magazine. The sum is conservatively put at $4,000,000,000 to $6,000,000,000. This is divided two ways. Over $1,000,000,000, it is estimated, is taken out of the country by legitimately operated foreign lotteries. The rest is taken by local gaming rackets.

A lottery scheme unearthed by federal officials in New England netted its operators more than $8,000,000 monthly.

Lotteries run from great national sweepstakes, fostered by governments and involving millions, down to local "pools" and "policy" games centered in villages and the corner drug and cigar stores of cities. These small pools—baseball, football and racing—are fed by the nickels and dimes of working men and low-salaried clerks. Even school children have been known to gamble their lunch money on these games. Recent investigation in an eastern city disclosed 90 per cent of its citizenship playing these games. Except for the great legitimate government operated and controlled lotteries the majority of those existing are frauds. All kinds of robbery schemes are worked. False tickets are sold. Recently government authorities confiscated 42,000,000 counterfeit Canadian lottery tickets. These were for sale in the United States at $1 apiece."

Dummy organizations help this crookedness. Dummy organizations with dummy officers. The dummy organization is to fool the law; the dummy officers to fool the lottery-minded public. The game is pure swindle. You buy a share in a newly organized company for a dollar, with the share you get the privilege of voting for the officer-set-up of the company. The president, of course, draws a fine salary; so do other officers of the company. You might even get elected a "salesman." Then the company fails or sells out. The president and other officials were mere dummies.

Doubtful Dad

"Now," said the college man to his dad at the football game, "you'll see more excitement for two dollars than you ever saw before."

"I don't know," replied the old gent, "that's what I paid for my marriage license."—Kansas City Star.

"NATURALLY SKINNY FOLKS"
2 WAYS IN 1 TO ADD WEIGHT. *Quick!*
5 lbs. In 1 Week or No Cost!
Hosts of thin, pale, rundown folks—and even "Naturally Skinny" men and women—are amazed at this new easy way to put on healthy needed pounds quickly. Gains of 15 to 20 lbs.—in one month—5 lbs. in a week—are reported regularly.
Kelp-a-Malt, the new mineral concentrate from the sea, gets right down to the cause of thin, underweight conditions and adds weight, through a "2 ways in one" natural process.
First, its rich supply of easily assimilable minerals nourish the digestive glands which produce the juices that alone enable you to digest the fats and starches . . . the weight-making elements in your daily diet. Second, Kelp-a-Malt's natural FOOD IODINE regulates and nourishes the internal glands which control assimilation—the process of converting digested food into firm flesh, new strength and energy. Three Kelp-a-Malt tablets contain more iron and copper than a pound of spinach or 7½ pounds of fresh tomatoes; more calcium than 6 eggs; more phosphorus than 1½ lbs. carrots; more FOOD IODINE than 1600 lbs. of beef.
Try Kelp-a-Malt for a single week and notice the difference—how much better you feel. If you don't gain at least 5 lbs. of good, firm flesh in 1 week the trial is free. Kelp-a-Malt costs but little at all good drug stores. If your dealer has not yet received his supply, send $1 for special introductory size bottle of 65 tablets to the address below.

MANAGED RECOVERY

We and most of the rest of the world are engaged in a managed recovery. Never before have so many governments undertaken such a wide range of economic experiments in the attempt to restore normal business activity. At present the recovery here and abroad is halting. Its resumption and future progress depend on the degree of sound economic policy guiding the steps that are taken, and on the wisdom with which the government shapes itself in yielding to alluring temptations to undertake more than it can manage effectively. All governments are inexperienced in the task of recovery management.

In this country governmental policy is sensitively responsive to changes in public opinion concerning its economic innovations. Moreover as a people we are now discussing economic problems more widely and more eagerly than ever before. We have more at stake than at any previous time, and the economic changes in our national life that are currently under way are more consequential. For these reasons it is now important as it has never been previously that we should discriminate between the sound and the unsound. Attempting to do good through enforced changes that are economically invalid is one of the surest ways to do harm.—From the Cleveland Trust Company Business Bulletin.

MUST ALL BE ALIKE?

On hard nut for opponents of the county home rule amendment to crack, is the present uniformity and rigidity of the county system in Michigan. A county with a population of 5,000 must have practically the same, identical plan of government that the largest county in the state has.

Why should it be necessary to have the same number and kind of county officers in a rural county, as are required to administer the affairs of a county with a population of a couple of million people? Home rule for cities, in Michigan, was granted long ago, so that five or six types of local city government, are permissible, according to the size, needs, or services to be rendered, or according to the preference of a majority of the tax-paying citizens and voters.

The fact is that uniformity of the county system was all right when this was a rural nation and before there came about great industrial cities and counties. Today the larger counties find it necessary to change their methods of county administration. And some rural counties, still required by the constitution and laws to maintain a full scheme of county government, are actually "in the red" financially—they could get better results, at much less cost, with half of their present county machinery.

This is one aim of those who are pushing for adoption of the county home rule constitutional amendment November 6. They ask for no change in any county that is satisfied to stay as it is. But they favor a plan which will allow some relief to both large and small counties, subject to majority vote of those in the county who pay the bills. In fact they favor the same sort of elasticity in system which Michigan cities for many years have enjoyed.

ALL CITIZENS PAY TAXES

Last year an eastern power company, says the Public Service Magazine, paid nearly $18,000,000 in direct taxes. The company got its tax money from its customers. There was no other place to get it.

This company paid out millions of dollars for fuel and supplies. Every one of these coal mines and manufacturing companies took the money it got from the power company and other customers and paid its taxes with that money.

The power company paid out millions of dollars in wages. Every employe who owned property took part of his wages around to the court house and paid his taxes. A lot of others went around the corner and bought cigarettes. Half of their cigarette money went to the tax man.

And so the tax whilligig goes on. It is spinning so fast now that reliable authorities state that one-third of our national income is paid to the government in taxes. It will grow to even more than this unless the people themselves step in and put a stop to it.

MUST BE CONSERVED

The United States today is facing a crisis, one that affects our scale of living, our prosperity and our future. It is the problem created by using the fundamental wealth of our country without taking proper precautions to provide enough for the future. One of the forms of wealth most abused has been our forests. The original forests of this country were tremendous, multiplied many times by the great resources of such states as our own, for example. From them homes were hewn. Upon them vast industries were created. Combined they paved the way to a great nation. But we have used extravagantly, wastefully and thoughtlessly. A continued yield from these forests is vital to our welfare. We must so govern ourselves that they do not disappear but remain with us. This can be done, but only by conserving, rebuilding, and learning all that men can learn about the intimate facts of trees and forests.

IN THEIR HANDS

For years during every political campaign the people heard the promise of tax relief until it rang in their ears. Distressed and harassed property owners need no longer depend entirely upon the candidate seeking public service for assistance. They have it in their hands to remedy this existing evil by voting for the constitutional amendment to change the uniform rule of taxation. This will permit the legislature to fix a lower tax rate on personal property than that levied on real estate, bringing millions of dollars in valuation out of hiding to greatly reduce the heavy burden borne so long by owners of visible property. Placing the amendment alongside the general election ballot in November was the work of a non-partisan organization for the benefit of the property owner who has found himself in the straight jacket of high taxation, his every effort at progress being blocked as a consequence. It is high time he went to the polls and voted for himself and freedom for which he has been vainly pleading.

LEGION ACTIVITIES
By F. V. Tyler

First and foremost, the Legion benefit masquerade dance at the high school gymnasium on Wednesday evening, October 31st. There will be some kind of an entertainment preceding the dance—probably put on by local talent—and decorations will be in keeping with the significance of the hour. This dance is to help the new project of nursery class lunches lately instituted in the schools.

Memberships for 1935 in the post are now fifty per cent over those reported last week. The boys are working hard for that new Legion uniform promised by the post to the member securing the largest number of memberships for the year.

At the regular meeting, Tuesday night, the post okayed the proceedings of the last Legion county council meeting, held at East Jordan on October 4th, and elected new council delegates. The re-elected delegates (four in number) are Comrades Henry and Tyler, present county commander and adjutant, and Comrades Meggison and Kemp. One new councilman was elected to make up the delegation of five from this post—the post commander, Comrade Spike Goss, taking the place of Comrade King.

COMMITTEE URGING NON-PARTISAN PLAN

The proposed constitutional amendment for the non-partisan election of judges, which will be submitted to the voters on November 6, is attracting wide attention throughout the state. The amendment is sponsored by the Non-Partisan Judiciary Committee of Michigan, composed of nearly 800 members representing every county in the state.

"The primary purpose of the amendment," says Walter Meek, Detroit attorney and secretary of the Committee, "is to give the people of Michigan an opportunity to vote for the men they want as judges, regardless of party label. Judges should be elected for their individual qualifications for the job, not because they carry some particular party brand. Unbiased public opinion is fast coming to recognize this amendment as a step forward in insuring [illegible] political party influence. Judges should be responsible to all the citizens of the state, not to any political group."

COUNTY POTATO SHOW SET FOR OCTOBER 27

The Boyne Citizen says: "Last year's apple and potato show will be rivaled by the show to be put on at East Jordan Saturday, Oct. 27. The high school gym has been secured and plans are already perfected.

"All potato growers as well as orchardists are urged to exhibit their stock. A lively demonstration of interest in this fall show will lead to an annual Charlevoix county exhibition is the belief of many of the citizens."

CORN-HOG CHECKS TOTAL $3,455,000

Michigan farmers participating in the corn-hog reduction program this year will receive benefits aggregating $3,455,000 according to a statement by the State Corn-Hog Board of Review, which has just completed its final check of all counties. Charlevoix county's portion of the distribution will be $5,533. This amount less the local county administration expenses, will be distributed in three payments among the 24,500 producers who signed the final contracts.

Annual Convention

The Annual Convention of the Charlevoix County Council of Religious Education will be held in the Methodist church, East Jordan, on Thursday, Oct. 18. Afternoon and evening sessions only, with co-operative supper. All Sunday school workers in the county are invited.

VALUABLE LOUSE

The cochineal louse is once more in high favor in the Canary Islands, we are told by a writer in Atlantis, Berlin. At Las Palmas in these islands the prosperity of the village is based on this louse, which was imported from Mexico about a century ago. Its cultivation resulted in a scarlet dye that was exported in large quantities. When artificial aniline scarlet was invented, it was discovered to be much cheaper to produce than the cochineal, which was almost completely replaced by the new dyestuffs. Many plantations were abandoned, but a few planters held to theirs believing that one day a need for their dye would come back. When a harmless coloring for rouge and lipstick was sought some one remembered the old cochineal louse and now those who kept their stock and plantations in the Canaries are reaping a reward, as the cochineal is extensively used in the cosmetic industry and is restoring prosperity to Las Palmas.

Why Liquid Laxatives are Back in Favor

The public is fast returning to the use of liquid laxatives. People have learned that the right dose of a properly prepared liquid laxative will bring a more natural movement without any discomfort at the time, or after.

The dose can be easily varied to suit the needs of the individual. The action can thus be regulated. A child is easily given the right dose. And mild liquid laxatives do not irritate the kidneys.

Doctors are generally agreed that senna is a *natural* laxative. It does not drain the system like the cathartics that leave you so thirsty. Dr. Caldwell's Syrup Pepsin is a liquid laxative which relies on senna for its laxative action. It gently helps the average person's constipated bowels until nature restores their regularity.

You can always get Dr. Caldwell's Syrup Pepsin at any drug store, ready for use.

Try Looking Wise

Don't grin when you are photographed. It is more distinguished.

Libya Pierces Deeper Into Northern Africa

Given Additional Territory by Three Nations.

Washington.—Libya, Italy's colonial possession in northern Africa, has been enlarged by a British-Egyptian gift of land adjoining it in the Anglo-Egyptian sudan. News dispatches from Rome also indicate that France will cede to Italy her Saharan territory of Tibesti, bordering on southern Libya and touching the new accession from Great Britain and Egypt.

"Libya, without the additional territory, is more than twice as large as the state of Texas," says the National Geographic society. "While official limits of the African territory ceded by Great Britain and Egypt have not been announced, it lies approximately between the 19th and 24th degrees of east longitude, and the 19th and 22nd degrees of north latitude. The area is triangular-shaped desert land, 300 miles long on its northern, and 200 on its eastern edge.

Largely Uninhabited.

"Tibesti is a mountainous region south of the Tropic of Cancer, lying just west and south of the triangle. It is now a part of French Sudan and is situated approximately between the 15th and 20th degrees of east longitude, and the 20th and 24th degrees of north latitude. The effect of these joint cessions will be to extend Italian Libya some 200 miles deeper into central Africa.

"Emi Kusi, the highest mountain in the Sahara, towers over surrounding Tibesti peaks in the region proposed to be ceded to Italy by France. The Tibestian massif comprises a succession of peaks, gaps, and dried-up river beds rather than a mountain chain, extending into the desert region ceded by Great Britain and Egypt.

"Water sources in Tibesti are frequent but good pasturage areas are rare. Temperatures are mild near the base of mountains and icy-cold near the summits—seldom, if ever, below freezing.—however, Date and palm trees grow in Tibesti and besides camels there are goats and donkeys. Except for a few nomadic tribes—Kounsadn, Toubou, and some Senussi—the region is for the most part uninhabited.

Lack Water and Pastures.

"Presenting a more orthodox desert aspect than the proposed French cession, the Anglo-Egyptian territorial gift is a broad tableland of shifting sands, occasional mountain regions, little pasturage, practically no rain, a hot climate, long caravan routes broken by scattered wells, oases at widely separated points, and few habitations.

"Water supplies may be replenished at the well of Sarra, located in a stretch of hard, reddish sandstone 160 miles south and west of Kufra in Italian Libya. Let southeast-bound caravans drink deeply, however, because it is 500 miles to the next oasis at Uniango, French Sudan, over a route containing no pasturage. Many camels have been sacrificed on this journey. Pasturage has been found 90 miles to the east of Sarra in an unexplored mountain mass not exceeding 150 to 200 square miles, and estimated to reach a height of 4,000 feet.

"Oases are nearer on routes north of Sarra. The Arkenu, in the southwest corner of Egypt, and the Oneinat, in Anglo-Egyptian Sudan, are not far away, although it is believed that the latter has not been included in the British-Egyptian cession. Still farther north is the oasis of Kufra, Italian Libya, the last stronghold of a once powerful religious sect, the Senussi.

"Industrious, the Senussi have succeeded in growing melons, grapes, bananas, and some vegetables at Kufra. Olive trees and many date trees are grown while chickens and pigeons are raised, and camels, sheep, donkeys, and a few horses are bred. Kufra once was the trading center for camel caravans from the south. South and west of the Sarra well, the new accession comprises desert, sand dunes, zones of occasional dry grass affording meager grazing for camels, shifting sands, and no habitations."

Scientists Raise 1,200 Rats to Test

Berkeley, Calif.—The Pied Piper would find ample field for practice at the Life Science building of the University of California here. Scientists experimenting with the effects of vitamins have set up a "colony" of 1,200 rats. Fed several times daily and their quarters cleaned by TERA workers, the rats are waxing fat and sleek.

Start of Drouth Beef Processing

W. G. Kirk of the bureau of animal industry; A. L. Wagner, state relief committee auditor; L. G. Harris, plant superintendent; and Dr. B. E. Robertson, federal meat inspector in the packing house at Albia, Iowa, where the first of the federal drouth beef processing plants has been opened. Five of these plants are planned for Iowa. Cattle are bought by the federal surplus relief administration and the beef prepared for distribution to the needy.

Opium Smoking in U. S. Shows Big Increase

Federal Agents Alarmed by Sudden Spurt.

Washington.—Opium smoking, which in recent years had declined in the United States, is showing an "alarming increase," the narcotics bureau of the Treasury department revealed.

Seizures of smoking opium by federal agents last year totaled 748 pounds, or twice as much as in 1932, the bureau reported. Officials made no secret of the fact that they view the development with alarm.

Practically all of the prepared opium seized, the records disclose, came from China and appeared to be mostly a blend of the Chinese and Persian products.

The heaviest seizures were on the Pacific coast, in the Hawaiian Islands and in the Philippines, nearly all of the drug coming to these areas by ship from the Far East.

On the Pacific coast the most popular brands were found to be "Cheong" and "Yick Kee"; in the Hawaiian Islands, "Lam Kee" and "Lo Fook Kee," and in the Philippines, "Lion," "Dragon" and "Tongee"—all identified by federal agents as originating in the Far East.

The price in the illicit traffic remained about the same as in 1932, but officials said this was due to the increased demand taking up the additional supply believed to be available.

Although the opium traffic has increased, government officials reported decreases in the seizures of heroin and cocaine.

Most of the heroin smuggled into the country came from French ports, while the cocaine seized was of Swiss origin.

Officials also reported a disconcerting development in a number of the states caused by the increasing use of Indian hemp, or "marihuana."

There is an extensive wild growth of the plant in Arizona, Colorado, New Mexico, Texas, Utah and Wyoming. Federal agents found that in sugar beet sheds many field laborers secretly plant marihuana patches and sell the product or use it personally.

The drug is most commonly used in the form of cigarettes, selling generally from 15 to 25 cents each. It is also mixed with beer or other beverages.

47 Soviet Labor Unions to Be Split in 154 Units

Moscow.—In line with the Soviet union's new policy of decentralization in government and industry, the All Union Trade Unions council has decided to split Russia's 47 trade unions into 154.

The purpose of this decision, which has the personal support of Josef V. Stalin, secretary general of the Communist party, is to make the unions more efficient and stronger, it was explained, and bring the men into closer contact with union leadership. The divisions will be both geographical and occupational.

For instance, the gigantic All Union organization of coal mines will be split into three unions—one for central Russia, another for the east, and another in the Donetz basin region. The railroad workers' organization will be divided into unions of engineers, trainmen and similar groups. The existing unions are felt to be unwieldy, some having more than 1,000,000 members each.

Colonels of Kentucky Use a Lot of Ribbon

Frankfort, Ky.—There's not much red tape about getting a commission as a Kentucky colonel—but plenty of blue ribbon.

State records show that more than half a mile of blue ribbon has been used on honorary commissions since December 8, 1931, when Gov. Ruby Laffoon took office.

The state has 2,764 commission certificates, each with a foot of ribbon.

New Deal for Sleepers: a Noiseless Milk Wagon

New York.—A new deal for city sleepers is in the offing. A noiseless milk wagon, equipped with balloon tires and driven by a horse shod with rubbers, was demonstrated before the New York noise abatement commission.

Girl, Turning to Stone, Is Saved by Physicians

Los Angeles.—Facing almost certain death four months ago as a sufferer from calcinos, a disease that has stricken only twenty-two other persons in medical history, Trudy von Ravensberg, pretty nineteen-year-old high school graduate, virtually has recovered and is looking for a job.

When her case came to the attention of the orthopedic clinic at General hospital four months ago the girl's limbs were incased partly in stony shells and the area of calcification seemed to be increasing.

A diet deficient in calcium, prescribed on the theory that too much lime would increase the bony accumulation beneath her skin, failed to help Miss Ravensberg.

Endocrine specialists then took charge of the case and a series of metabolism tests were made.

A hormone of the parathyroid gland, which governs the amount of calcium in the tissues, was prescribed, although physicians were hesitant, as it was known to rob the bones of calcium, their most essential element.

To counteract this a diet of milk, orange juice and other foods rich in lime content was ordered.

This seemingly paradoxical treatment had the desired effect, and physicians have told the girl, who four months ago was slowly turning to stone, that she can again go to work.

The only trouble, according to the girl, is that she can't find a job.

Walking Radio Is Boast of This Experimenter

Los Angeles.—A dog's tail suffices as a radio receiving set for Frank G. Kerk, amateur wireless experimenter.

Kerk attaches an aerial to the collar of Fritz, his 175-pound Great Dane, and hooks an ear phone to the animal's generous-sized tail. The four-legged radio set completed, all that remains is to place the phone to the ear and listen.

Clearly, but not overly loud, comes music or an announcer's voice. Only one station can be heard, but Kerk says he is not aiming for selectivity. Kerk is in a quandary as to what makes the reception possible.

Key to Libby Prison Found in Rubbish Pile

Mt. Carmel, Pa.—A large brass key from Libby prison, made famous in Civil war days, was found here in some rubbish.

The key is about eight inches long and weighs two and one-half pounds. It bears the inscription "Libby Prison" on one side.

The relic was said to have been brought here by a Civil war veteran about 25 years ago. At that time it was a great curiosity. But it was eventually lost and forgotten until found in the rubbish heap.

TRUE DETECTIVE STORY by Vance Wynn © Public Ledger

"So Perish All Traitors"

THE two young men who registered at the Southern hotel, in St. Louis, many years ago, were well dressed and looked prosperous.

Also they seemed to be devoted friends.

Charles A. Preller and Walter L. Maxwell were the names they inscribed on the book, and it later developed that they were Englishmen, having come from Liverpool to Boston and thence to St. Louis.

At all events they were inseparable companions, and their mutual devotion attracted the attention of the other guests of the house.

Maxwell left the hotel first, saying that his friend intended staying a few days longer.

Also he suggested that he had some work to do in his room and did not want to be disturbed.

That was all very well, but when Preller failed to make his appearance after two days the management of the house thought it was time to investigate.

There was no response to the knock on his room door and it had to be forced.

There was a trunk in the corner of the apartment.

It was opened and in it was found the dead body of Charles A. Preller.

His mustache had been removed, probably to change his appearance, and on his clothing was pinned a sheet of paper on which was written:

"So perish all traitors to the great cause."

The first and most natural move on the part of the detectives was to try and find the former companion of the dead man.

There was no special reason for suspecting that he had killed the friend to whom he seemed so devoted, but there was every reason for supposing that he might throw some light on the tragedy.

Did the two men belong to some secret society?

—Were they being pursued by avengers?

It was not easy to get on the track of Maxwell, but it was eventually learned that he had gone to San Francisco.

The chief of police of that city worked in unison with the chief of police of St. Louis.

In a few days he was able to report that a man who looked very much like the description of Maxwell had been seen in the smoking room of the Palace hotel.

Inquiry showed that this man had registered as T. C. D'Anger, of Paris.

He talked with a French accent, although one day, in answering a question suddenly asked by another guest, he spoke perfect English.

Just when the police were planning to place him under arrest he left San Francisco for New Zealand.

He was captured there, but resisted extradition.

He seemed to have plenty of money and legal advice, but eventually the papers were signed by President Cleveland and the suspect was brought back to St. Louis.

For up to the time there was no convincing legal proof that he had killed Preller.

He denied the charge vehemently and defied the authorities.

But the police got to work and in the course of time they proved a number of things.

First it was shown that the handwriting on the note which was pinned to the clothing of the corpse in the trunk was that of Maxwell.

It corresponded exactly with the signature he had placed on the hotel register.

That demolished the theory that Preller had been the victim of the vengeance of some secret society. It was simply an ingenious idea of Maxwell to send the police on a false scent.

Secondly, they proved that Maxwell had gone to a barber shop after leaving the Southern hotel and had his beard taken off, and that after it had been done he turned to the barber and said:

"Do you think any one would recognize me now?"

Thirdly, they proved that he had purchased the trunk in which the body was found.

They produced the porter who had carried it to his room, and they had evidence that he displayed a big roll of hundred-dollar bills shortly after leaving the hotel.

This furnished the motive for the crime—the cold-blooded, calculated robbery of the man who had been his generous friend.

At the trial he was confronted by the druggist from whom he had purchased the chloroform which he had used to overcome Preller before murdering him.

There were no mitigating circumstances whatever, and the jury rendered a verdict of murder in the first degree.

HERE IS PATTERN FOR THAT FROCK

PATTERN 9929

If you know you must have a new frock but are undecided as to just what it should be, this pattern will make up your mind for you. It is the kind of a frock everybody always likes and looks well in—even if she does weigh an ounce or two more than she should. That long rever is a wonder-worker—it slims at the same time it gives smartness—and the V front and buck just below the beltless waistline is another flattering detail. You will probably want to make this frock of a sheer cotton.

Pattern 9929 may be ordered only in sizes 34, 36, 38, 40, 42, 44 and 46. Size 36 requires 3¾ yards 36 inch fabric, and ⅝ yard contrast.

Complete, diagrammed sew chart included.

Send FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, the STYLE NUMBER and SIZE.

Send your order to Sewing Circle Pattern Department, 232 West Eighteenth Street, New York, N. Y.

Walks, Saves Postage

Walking 400 miles from London to Aberdeen, Scotland, to get his uniform and thus save the cost of postage, Guardsman Albert Lorrimer of the First Battalion Scots Guards, wound up by facing a court martial. He was charged with absenting himself from duty for five weeks. Lorrimer pleaded that when he reached home he found his grandmother dying and his father and brothers out of work, so he returned to London to hunt a job.

Silo filling is completed and most farmers have finished cutting their corn.

The farmers in this district who were fortunate enough to have extra hay now have it baled.

The wrecking of the Miles schoolhouse removes an old landmark from the East Jordan-Ellsworth road. It will make that corner look bare.

DISTRICT HEALTH UNIT BULLETIN

Measles Confused With Other Diseases; Symptoms Like Colds

Measles is more serious than most mothers realize, believes Dr. W. W. Bauer, nuthor of a series of articles on communicable disease published in Hygeia, the health magazine of the American Medical Society. Many children experience its baleful effects but for some reason difficult to fathom, mothers too often fail to be sufficiently impressed by them.

The early symptoms of measles—inflamed eyes, cold and cough—are likely to mislead the casual observer into thinking that the patient has simply a common cold. The rash does not appear until from five to seven days after the beginning of the incubation period. By that time, if proper precautions have not been taken, much damage has been done by the exposure of other children in the family or in the schoolroom.

The diagnosis of measles can be definitely made only by the doctor. A mother cannot afford to rely on her judgment, when a child has a rash for there are other diseases that are also red and spotted. Even doctors confused measles with smallpox until the eighteenth century, writes Dr. Bauer.

Second attacks of measles are rare, he points out, though they sometimes do occur. Epidemics can be predicted because they usually occur at regular intervals. The periodic occurrence is probably due to the fact that a new susceptible group of children grow to an age when exposure is likely.

The knowledge of coming epidemics is protected by doctors, enables mothers to keep their children away from public places, especially the younger children, in whom the disease is more serious.

Information concerning the prevention of the spread of measles can be obtained from the District Health Officer, Carleton Dean, M. D., Charlevoix, and pamphlets may be obtained from Miss A. Winnifred Galley, R. N., Charlevoix County Nurse.

AT THE MOVIES

Like a Native!

Robert Donat, young English screen and stage star who plays the title role in Reliance's million dollar production of "The Count of Monte Cristo," released through United Artists and showing Saturday and Sunday, Oct. 13 and 14, at the Palace Theater, had difficulty getting accustomed to four things in Hollywood.

One was piloting a left-hand drive car on the right side of the street instead of the left. The second was asking for gasoline when he wanted "petrol". The third was the fact that a small, thin dime is worth more than a big, plump nickel. The fourth was California night birds that sang all night and seriously interfered with his sleep.

By practicing patience and patiently practicing, however, he managed, in time, to get used to all four, and now he can "take it" like a native.

Tracy Enacts Runyon "Kid" For New Film

Lee Tracy, who has made his reputation on the stage and screen in fast talking, swift moving roles, is in the title lead of Paramount's new Damon Runyon story, "The Lemon Drop Kid," which comes Wednesday and Thursday, Oct. 17 and 18, to the Palace Theater.

Can You Prove Your Oil is Better than the Others?

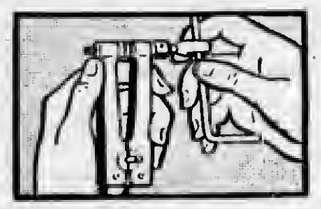
We Can and Do!

This Machine Shows Why this New Oil Cuts Motor Wear and Saves You Money!

YOU, as a buyer of Motor Oil, should ask that question—and *demand facts!* Here is Continental's answer:

In the demonstration pictured below, the film strength and oiliness of every well known motor oil in America have been shown to be increased by the addition of a drop of Germ Essence.

Demonstrations before at least two hundred thousand motor-minded men have proved that "Any oil would be better oil if Germ Processed!" But there is *only one oil* made by the patented Germ Process—*New and Improved Conoco Germ Processed Motor Oil!* Use this oil of *proved* strength in your car! It saves you money by giving greater motor protection and lower oil consumption. It gives you the comfortable feeling that you know your car is protected by the safest, finest motor oil made!

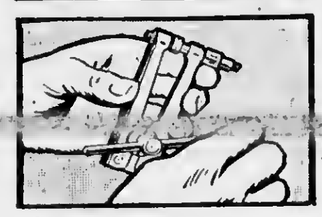


1

Assembled instrument. Split bearings and shaft, lubricated with competitive oil, are clamped between "jaws" of instrument. With set-screw, extreme pressure is applied.

2

Crank is now used to turn shaft. Oil film ruptures and bearings "seize." Shaft extremely hard to turn. You can even *hear* the metal-to-metal contact!



3

Drop of Germ Essence is added to oil in bearing. Same pressure applied. Shaft can now be turned movement—no seizing no sound. *Proof* that Germ Processing increases oiliness and film strength of any oil!"

TO CAR OWNERS OF CHARLEVOIX

Continental backs claims with *facts.* To prove that New and Improved Conoco Germ Processed Motor Oil gives you lower oil consumption as well as greater motor protection, we drove six brand new cars to destruction, testing this oil against five other nationally known oils. Any Conoco station will give you a booklet that tells the story of this convincing test. It will pay you to read it. Drive in and ask for a copy—or try this oil!

DAIRYMEN FACE LOSS FEEDING POOR COWS

Takes Excellent Animal to Return Profit on High Priced Feeds

Dairy cows which would pay their owners a profit in 1933 are a dead loss to their owners now, and the dairy department at Michigan State College urges Michigan farmers to cull their herds on the basis of butterfat production high enough to pay a profit on high priced feeds.

It cost $36 to feed a cow which produced 150 pounds of butterfat in 1933. The feed cost now for the same cow would be $45. The returns from sales of butterfat at 30 cents a pound will be only $45 so the owner of such a cow this year will lose all his labor and any costs other than those for feed.

The 1934 feed cost per year for a cow producing 300 pounds of butterfat is $54. The returns from butterfat sales at 30 cents a pound will be $90, leaving a margin of $36 between the price of the feed and the receipts for butterfat. This margin, of course, is not profit because all expenses other than feed must be deducted.

Unless cows are better than the state average in producing ability their owners will lose money on all the feed supplied to them this winter. Such cows are of little value as breeding stock because they tend to produce daughters which are no better than themselves.

The one advantage of a low producing cow is that these animals usually are in better condition than good cows and make better beef. Market prices and the demand for feeds will be so good that state farmers can not afford to permit poor cows to eat up this source of ready cash.

MICHIGAN BAKERY HAS NEW MANAGER

C. R. Heaney Now Manager of the Traverse City Plant

Percy Owen, president of the Michigan Bakery at Traverse City, announces an important change of personnel at the local plant. C. R. Heaney now assumes managership of that plant.

With the announcement, Mr. Owen points out that the move puts this bakery, Northern Michigan's largest, in the hands of a man whose experience and background admirably fit him for this position of responsibility.

Mr. Heaney brings to his new post a knowledge of the baking industry gained through association with some of the country's largest and most important baking and milling enterprises, over a period of years.

The increasing demand for Michigan Bakery products in this community clearly indicates that the high quality standards set by these products must be adequately and constantly maintained. For that reason, the promotion of a man to manage the Traverse City plant was approached with more than an ordinary amount of care.

TOURIST AND RESORT MEETING OCTOBER 12

Special Invitation Issued Business Men and Supervisor Boards

The annual meeting of the Michigan Tourist and Resort Association will be held at the Pantlind Hotel, Grand Rapids, beginning at 1:00 p. m., Friday, October 12, it was announced today. Plans include a dinner Friday evening at the Pantlind, with Governor Comstock as the principal speaker. Business meetings will continue during the morning of Saturday, October 13.

Many questions of vital importance to Western Michigan will be discussed at the business sessions, in addition to the election of directors. These meetings, including the dinner, are not confined to supporting members of the association. They are open to the public, who are cordially invited to attend. H. J. Gray, [illegible] expressed the hope that at least one representative from the Charlevoix county board of supervisors be appointed as a delegate to these meetings.

No Political Speeches

In speaking of Governor Comstock's acceptance of the invitation to address the banquet Friday evening, Mr. Gray said, "The Governor has shown a great personal interest in the development of the tourist and resort business. He has been of great help during the past year, has a wonderful vision as to what this business means to Michigan and of course his talk will be in no way political."

At the dinner meeting there will be a first class orchestra and an entertaining floor show arranged by the Pantlind Hotel. Tickets to the dinner will cost one dollar each.

"During the past few sad years," said Mr. Gray, "we have every reason to believe that the tourist and resort business has remained nearer normal than any other business in the state of Michigan. During the past 1934 season it is admitted by everybody that probably as many people have visited Michigan as during any other year. As to revenue we would say it has shown an increase of at least 60 per cent over last year and it would seem to us that the business men in your community should show at least interest enough to attend these meetings and favor us with their ideas and advice."

IRONTON GRANGE WILL ELECT NEW OFFICERS

The next regular meeting of the Ironton Grange will be held next Tuesday evening, October 16. Election of officers is the important order of business, and it is desired all members will be in attendance.

The Methodist Ladies' Aid Society will serve their annual chicken pie supper at the church parlors Wednesday, October 24.—Adv. 41t1.

CHRISTIAN SCIENCE CHURCH
205 Clinton Street

Sunday morning service, 10:45.

First Wednesday of month, 7:45 p. m.

Reading room Tuesdays and Saturdays, 3 to 5 p. m.

We cordially invite the public to our services and reading room.

"Are Sin, Disease, and Death Real?" will be the subject of the Lesson-Sermon in all Christian Science churches through the world on Sunday, October 14.

Among the Bible citations is this passage: (Job 29: 2-4): "Oh, that I were as in months past, as in the days when God preserved me; When his candle shined upon my head, and when by his light I walked through darkness; As I was in the days of my youth, when the secret of God was upon my tabernacle."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p.231): God is not the author of mortal discords. Therefore we accept the conclusion that discords have only a fabulous existence, are mortal beliefs which divine Truth and Love destroy. To hold yourself superior to sin, because God made you superior to it and governs man, is true wisdom."

W. W. Hurd, Pastor

October 14. Guest speaker, The Rev. M. E. Brusch, district superintendent, will preach and use the last 10 minutes for brief business usually connected with the First Quarterly Conference.

Each class in the Sunday school will give a "stunt" song, exercise, etc., in the Rally Day program in the Sunday school hour.

An entirely different program is arranged for Oct. 21.

The Club meets this afternoon, Thursday, with Mrs. Clayton Trimble, on Wood street. Mrs. Dick speaks on "Echoes from the Institute."

Official Board take note! Meeting this Friday evening, 7:30, to consider a very special, and a very important proposition, as well as some regular business.

Ninety-nine were in attendance at the Epworth League rally last Sunday evening. Regular meeting next Sunday. One of the young men has arranged to lead the service.

CONGREGATIONAL CHURCH
Charlevoix and Ironton

Sunday morning we will celebrate the Lord's Supper. If possible we will receive several who have indicated their desire to unite with our church.

A new organization among the young men is being perfected and will hold its first meeting Sunday morning at 12:15.

Because of the time of meeting for our church school it has been impossible for the pastor to help in that organization. The new organization of young men will make it possible for him to return to the teaching line of service. The persons who will make up this class are those unattached to any other S. S. class or church and who are at least upperclassmen in high school. Young men out of school or in the Freshman College class are also invited.

The World Wide Guild officers for the coming year are as follows: President, Marie Dahlquist; vice-president, Maude Hardy; secretary, Rose Dodd; treasurer, Bernice Edwards; advisor, Mrs. Lottie Rauch.

INTRODUCE SPRUCE HEN AT WILDERNESS FOREST

Efforts are being made by the Game Division, Department of Conservation, to re-establish the spruce grouse or "fool hen" in Wilderness State park on the Straits of Mackinac.

Two males and three females were released in the park in late September and a hen and two chicks were released in June. The birds had been captured near Newberry. It is planned to make additional "plantings" in the area as often as the grouse can be obtained.

BACK NEW DEAL IS LACY'S PLEA

(Continued from page 1.)

"There is only one way to accomplish true prosperity in a country and restore the people to a proper basis. And that is by first making the great mass of the people prosperous so that out of their enriched condition will naturally flower and develop the special prosperity of those who, by virtue of their capital and industry, are entitled to specially prosper in order to give stability to the whole structure of society. That is the Roosevelt'an theory, the principle that everything that is in government that is good promotes prosperity, comes upward from the people—always upward."

General Wilson's address was largely a special plea to his comrade veterans of the World War. He spoke particularly on the reaction of the soldier to the New Deal. Representative Brown paid high tribute to Judge Lacy and declared:

"The state could well afford to pay Judge Lacy $100,000 a year for his services as a tax expert but he is willing to take the job for the governor's salary of $5,000 a year," the congressman said.

SUPERVISORS NEAR CLOSE OF SESSION

ANNUAL APPROPRIATIONS ARE PASSED MONDAY

Benton Re-Elected Poor Commissioner—Other Business of Meeting Nears Comoletion.

Reports of the apportionment, finance and sinking fund committees today will in all liklihood bring to a close the annual October session of the Charlevoix county board of supervisors.

Tuesday afternoon the important ways and means committee report, making annual appropriations, was adopted. The appropriations, aggregating $17,125, approximately seven thousand dollars in excess of last year, were as follows:

Appropriations Increase

Agricultural extension fund, $1,500, $500 over last year; Whiting county park, $500; fish and game fund, $300, a boost of $150; District Health Unit, for office expenses, $375; Gaylord Potato, Apple and Seed Show, $75; county Potato and Apple Show, $25; county poor fund, $12,000, an increase of $5,000; Michigan Tourist and Resort Association, $300, a boost of $100; Charlevoix Hospital, $750, an increase of $250; Michigan Children's Aid Society $100 and Starr Commenwealth $100, both new appropriations; balance owed on previous county normal appropriation, $800; county picnic, $50.

Advertise Resort Attractions

Recognizing the necessity of advertising the county's tourist attractions, the board appropriated $200 for advertising. The fund is available to any community or group with a worthy plan which meets the approval of the finance committee. The Charlevoix Hospital appropriation is subject to reservations. It was directed $250 be used for hospitalization of patients entered by the poor commission and that the balance be used as far as possible to aid indigents unable to meet their own hospital expenses.

The aviation committee's request for $300 was granted. The sum will be apportioned as follows: $150 for Charlevoix airport, $50 for Beaver Island airport and $100 to be used, if necessary, at the discretion of the committee.

Officers' Salaries Unchanged

Officers' salaries were left unchanged with the exception that the county clerk's allowance for clerk hire was reduced from $600 to $400. The [illegible] one. A minority report reducing officers' salaries and increasing clerk hire, sponsored by Supervisor R. C. Kurth, was defeated, as was also an amendment to the majority report which would have increased clerk hire for the treasurer and clerk from $400 to $600.

CITY BAND ELECTED ITS NEW OFFICERS

Ho Helms President of Organization for Ensuing Year

At the recent annual meeting of Charlevoix city band, the following officers were elected for the ensuing year:

President, Ho Helms; vice-president, Hnrker Kirby; secretary, Pat Moran; treasurer, Albert Novotny; librarian, Herman Meyers. A large attendance of members was present.

Plans were discussed to hold a concert each month during the winter and a definite decision on this matter will be made soon.

The band members expressed their deep regrets of the death of Everett C. Sterritt, a veteran member and loyal booster for the organization. Mr. Sterritt had played a sousaphone with the band since its organization.

LOCAL GIRL WED TO CENTRAL LAKE YOUTH

Last Tuesday evening at the Oak Park Congregational church parsonage, Rev. Thomas E. Bennett united in marriage Miss Gertrude Clarke, daughter of Mr. and Mrs. Charles Rinehart of Charlevoix, and Russell Curtis, son of Mr. and Mrs. Fred Curtis of Central Lake. The couple was attended by Miss Germaine Achison and Delbert Wales. Mr. and Mrs. Curtis will spend the winter in Florida.—Central Lake Torch.

MISS HELEN PARKER WED LAST SATURDAY

Became Bride of Norman Francis Kane at Pretty Home Wedding

The home of Rev. and Mrs. G. R. Parker was the scene of a quiet wedding Saturday, October 6th, when their daughter, Miss Helen Margaret Parker, became the bride of Norman Francis Kane of Memphis, Tenn.

This wedding was the climax of a college romance which had its beginning while both parties were students at Olivet College. The service was read by Miss Parker's father, and the music was furnished by Mrs. Stelter. The young couple were unattended.

The home was decorated with beautiful autumn leaves and bittersweet. After the ceremony a delicious wedding breakfast was served.

Mr. and Mrs. Kane left immediately on their honeymoon. This trip will include Chicago and New York City, also points of interest between. They plan to reach Memphis about November 1st.

HAYES TOWNSHIP PIONEER IS DEAD

MRS. ANDREW R. STRUTHERS, 94, DIED MONDAY

Had Been a Resident of Charlevoix County 70 Years—One of Its First Pioneers

Hayes township lost one of its earliest pioneers in the death at 7 o'clock Monday evening of Mrs. Andrew R. Struthers, age 94 years, a resident of Charlevoix county 70 years. She had been in failing health for a long period.

Elizabeth Walker was born February 14, 1840, near Stratford, Ont., where she spent her early childhood and received education in the rural schools and Stratford high school.

She was married November 11, 1864, to Andrew R. Struthers, a marine engineer, who preceded her in death 19 years ago. They left for northern Michigan, landing at the outer pier of the then village of Pine River. Their possessions included a flat-bottom boat, personal belongings and $5 in cash. The first summer of their married life was spent in a squatter's cabin on what is now the site of East Jordan. Mrs. Struthers experienced times when a nickel box of matches must supply the family for a year or two; when her husband traveled many miles afoot over [illegible] supplies for the table; when the small garden plot among the logs and stumps was cultivated with a hoe for lack of other implements, and many other similar hardships that beset the early settlers of this region. Through hard work the couple became affluent farmers of Hayes township in latter years.

Mrs. Struthers was the mother of eight children, four boys and four girls, five of whom survive, viz: Mrs. Viola Peterson and Mrs. John Haggerty, Portland, Ore.; Charles of Beaverton, Ore.; Mrs. Henry Howe, Charlevoix; Andrew and John of Hayes township. Mrs. Struthers had resided with her son, John, the past thirteen years.

Funeral services were conducted at 2 o'clock Wednesday afternoon from the Church of God chapel, Rev. C. A. Stewart officiating. Interment was at Brookside cemetery.

O'HARA, BISHOP AT RALLY FRIDAY

REPUBLICAN NOMINEES WILL MAKE COUNTY TOUR

Will Speak in Charlevoix at Memorial Park at 1 o'clock Friday Afternoon—Other Rallies

(By F. V. Tyler)

Republicans of Charlevoix county have been fortunate in securing prominent advocates of their cause in the persons of John J. O'Hara and Otto W. Bishop, who will address meetings in this county on Friday of this week.

Mr. O'Hara hails from Menominee and, at this writing, not so much information is available regarding his career. He is, however, a distinguished member of the Menominee county bar and an orator of no mean eloquence. He is a candidate for Congress from the 11th congressional district.

Mr. Bishop, whose home is in Alpena, is better known to northern Michigan people. He has always resided in this region and has been prominent in its affairs. After spending the early years of his life on farms in Alpena county and in the mercantile business and after an active connection with the banking business for twenty years, he engaged in business for himself. His several business ventures have been very successful. His varied experiences have well qualified him for the office that he seeks. He is a candidate for state senator from the 29th Michigan district.

These two gentlemen will speak at Charlevoix in the memorial park, corner Bridge and Antrim streets, at one p. m., Friday. At 2:30 p. m. they will address East Jordan voters from the city hall steps and at Boyne City they will appear at the city park at 4:00 p. m.

During the three ensuing weeks prior to the election on November 6th, a series of rural meetings at various points throughout the county have been arranged by the county committee. These meetings will be held at the town halls and schools of the country districts and will be served by local speakers and by party representatives from the neighboring counties of Emmet, Otsego and Antrim. Dates and places will be announced from time to time in the rural schools. It is expected that, among other well-known speakers of persuasion and eloquence, Judge Parm C. Gilbert will be numbered. Those who have heard Judge Gilbert need no assurance of his ability to interest and inspire his audiences.

MARION CENTER CLUB TO HOLD FIRST MEETING

The Marion Center home extension group will hold their first meeting at the Marion Center grange hall, Thursday, October 25th. It will be an all-day session for the first lesson of the M. S. C. extension course. All interested are invited to be present.

ANTRIM SHERIFF EXONERATED OF KILLING BLAME

Sheriff C. E. Rushton of Antrim county who shot and killed Edward Graham, former inmate of Traverse City State hospital, Monday afternoon, October 8th, has been exonerated from blame in the matter by Coroner Frank Schroder of Mancelona who conducted and took statements of all witnesses.

POTATO SHOW PREMIUM LIST READY

MANY DIVISIONS OUTLINED FOR EXHIBITORS

County of Charlevoix Assisting East Jordan and Other Organizations With Financing

The success of the Charlevoix county potato and apple show to be held October 27 in the East Jordan high school is definitely assured with the announcement of the premium list. In addition to many East Jordan organizations, the city of East Jordan and the county of Charlevoix are likewise assisting financially. Already definite plans are taking shape for the big banquet and program to follow. Every detail is receiving consideration for your enjoyment on this occasion.

Producers with this premium list will be encouraged to show the best they have. It is exceptional to have such a nicely balanced premium list as you will find submitted herewith in a county exhibition. The following premium list has been announced which will be paid 100 per cent.

FEDERAL RELIEF LOAD NEARING HIGHER PEAK

Expect Families on Relief to Reach Last Winter's Level

Federal relief rolls are approaching last winter's high mark of 4,700,000 families Administrator Harry Hopkins revealed.

Four million families or more than 17,100,000 persons, received relief checks from the government, Hopkins said, in August, the latest month figures are available for. Drought conditions in the Mid-West, Hopkins said, caused the rise from the July figures of 3,800,000 families.

The record high since the government began pouring millions into relief was last April after the CWA disbanded when 4,700,000 families were on the rolls. The relief administration figures 4.4 persons to the family.

4-H CLUB LEADERS TO MEET AT MONTE'S CAFE

Meeting Friday Night to Outline This Winter's Program

The development of this winter's 4-H club program is already under way. In order to outline the program and to discuss its features, all rural teachers in the county and other prospective club leaders are invited and urged to attend a banquet to be held at 6:30 o'clock Friday evening, October 19th, and the program that follows immediately.

Last year there were 222 members of 4-H clubs in the clothing, hot lunch and handicraft club projects. It is hoped that this same program may be continued another year. A. G. Kettunen, state club leader, and Miss Sylva Wixon, assistant state club leader, will attend this training meeting and lead the discussion. Each year efforts are made to improve the quality of work and to make the program more effective.

SEEK TO COMMENCE SEWAGE DISPOSAL

CITY AWARDS CONTRACT FOR DOCK CONSTRUCTION

Ask for New Bids, Revision Sewage Disposal Plans to Come Within Original PWA Grant

Authorization for preliminary work in connection with the construction of Charlevoix's proposed sewage disposal system was made at an adjourned meeting of the city council Tuesday evening.

The contract for removal of old piling and construction of the new city wharf on the Wilbur property, acquired for the sewage disposal plant, was awarded to the Sears Dock & Dredging Co., owned and operated by Franklin C. Sears of this city.

To finance cost of materials for the dock construction, the city will seek permission of the Public Debt Commission to issue $8,000 in 5 per cent notes, payable from tax collections of 1935. While purchase of the property is included in the PWA financing grant for the project, construction of the dock is not, thus necessitating the raising of additional money. The dock construction has been approved by the FERA as a work project. Materials are already here. City Engineer R. F. Sloan has been employed to superintend the construction.

For the present time, the sewage disposal proposition is being held up. Bids received last week were rejected Tuesday night by the council. All were in excess of the PWA grant of $87,000 already approved, due largely to the increase in material costs brought about by the NRA during the period intervening from the time of application for the grant and final approval following removal of legal difficulties. The city council is seeking a supplementary grant of $15,000 from the PWA to cover the added cost, also a revision of plans by the engineers to scale the cost down to a lower figure.

It is thought, however, that revision of plans will bring the cost within the original grant and that the additional $15,000 will not be needed.

The city of Charlevoix has already advanced from its general fund between six and seven thousand dollars in order to hasten the actual work of construction and provide employment. With final approval and receipt of the PWA grant, these funds will be returned to the city general fund.

SPAWN FISHING BAN BAR TO HATCHERIES

PREVENTS OPENING OF FEDERAL UNIT HERE

Cong. Prentiss Brown Issues Statement Telling Facts Concerning Action of Agencies

Without the cooperation of the Michigan Conservation Department in opening the fall spawn fishing season to commercial fishermen there is little hope of interesting the Federal government in the resumption of Federal hatchery operations, according to Congressman Prentiss M. Brown.

Closing of both the Federal fish hatcheries at Alpena and Charlevoix and the closing of the 26-day spawn fishing season last year resulted in much dissatisfaction among the commercial fishermen of the Great Lakes. In the interests of the fishermen Mr. Brown took the matter up with the State and Federal departments in an effort to have the spawn taking season opened and the Federal hatcheries resume operations.

The Alpena and Charlevoix hatcheries were originally closed due to lack of funds, while the closing of the spawn fishing season by the State Conservation Department was also a factor in keeping them from operating.

Following is a portion of a letter from Charles E. Jackson, acting commissioner of the Bureau of Fisheries:

"The Charlevoix hatchery was suspended due to the fact that our funds, even after the outright closure of eight hatcheries, were insufficient to meet the costs of the somewhat expensive activities of propagating the commercial species of the Great Lakes. In addition to this the policy of the state in discontinuing the open season allowing the taking of trout and whitefish for spawn was an influential factor.

"As the matter stands now the Charlevoix hatchery may be opened when and if the action of the Michigan Conservation Department with regard to the open season is revoked, and provided the Bureau's appropriations are adequate."

Congressman Brown continued his efforts to have the hatcheries opened and sought through correspondence with the State Conservation Department the opening of the fall spawn taking season. As recently as August 28th, 1934, Mr. Brown took the matter up with the Department of Conservation, asking their support in his fight to open the hatcheries and to open the closed season in north Lakes Michigan and Huron this fall.

F. A. Westerman, fish division of the Department replied in part:

"We believe that the interests of the fishermen will be better served if the fish are allowed to spawn naturally, and that the mature fish saved by reason of the closed season will be added to the catch at other seasons of the year. We think that this program should be continued for several years until it can be thoroughly tested.

"Under this plan there is really no occasion for opening the Federal hatchery as there is ample capacity for the eggs that will be secured during the open season at the several

MERCHANTS PLANNING DOLLAR DAY FOR SATURDAY, OCT. 27

Plans are in the making for a Dollar Day to be held in Charlevoix on Saturday, October 27th. Business men in co-operation with the local Association of Commerce, are sponsoring the event, which has been an annual affair here over a long period of years.

Members of the committee who are arranging the preliminary details are M. A. Levinson, Martin Block and Mayor L. S. See. It is planned to arrange a program of entertainment events in connection with the Dollar Day. Last year the event was in the nature of an N. R. A. celebration which proved very successful.

A meeting of the committee and all others interested in promotion of the Dollar Day program is being held tonight at the council chambers and full details will be announced next week.

FIRST OF CORN-HOG PAYMENTS RECEIVED

Total of $2,173 Being Distributed to County Farmers

After a long and tedious delay, the contract signers in this county have at last received the first payment of their corn-hog reduction program. Wm. H. Mayne, treasurer of the Charlevoix County Corn-Hog committee, has been busily engaged this last week in distributing these checks.

The total benefit payments to be paid to the 68 contract signers amount to $5225.00 plus $308 for the corn reduction contracts making a total of $5533.00 less the cost of administration which will be something like $250.00. The compliance work will no doubt be completed this week so that the second payments may be expected some time this fall.

The 68 contract signers have produced an average of 224 litters and have produced for market 1393 pigs.

Last week on Monday, October 8, and Tuesday, October 9, the contract signers were invited to a series of three meetings at which time the results of the program and the plans for the future were discussed. At the close of each session, each signer had the opportunity of expressing his opinion by ballot. Out of 24 ballots cast, 22 voted favorably toward continuing the program another year. This means, without a doubt, that the government will continue its efforts toward maintaining the proper adjustment between production and consumption.

COUNTY CATTLE AND HOGS ARE REDUCED

Farmers Sacrificing Stock at Low Prices to Save Feed Purchase

The number of cattle and hogs on Charlevoix county farms has greatly decreased since spring, with scores of dairy cows and young cattle being taken from farms of the county weekly as winter with threats of livestock feed shortage approaches.

The end of the pasture season here will come with herds further depleted to balance a short supply of grain and hay available on local farms for feed. Large stock trucks are daily loading with farm animals to be hauled to Detroit stock yards and other market terminals. Farmers are sacrificing the fine dairy and breeding animals at low prices on the many farms overstocked in ratio to their winter feed supply. With indications that the price of hay will soar much above that of last winter, farmers are preparing to side-step the necessity of purchasing high-priced feed for stock at low market value.

A large number of pigs were killed in the spring at birth to meet the conditions of the government's corn-hog reduction program. However, the rising prices of pork apparently have revived the interest of former local producers in hog raising. While the number of hogs on Charlevoix farms [illegible] seems likely the normal amount of pork may be produced locally the coming year.

RELIGIOUS COUNCIL MEETING THURSDAY

Annual Ssesion at East Jordan—Fine Program Arranged

The annual convention of the Charlevoix County Council of Religions Eduration will be held in the M. E. church at East Jordan on Thursday, October 18th.

The first service will begin at 2.00 o'clock with devotionals, the theme of the convention will be "The Training for Christian Leadership. The Rev. Guy Smock, pastor of the Presbyterian Church of Boyne City will give the keynote of the convention. Others taking part during the afternoon will be the Rev. Koopman, Rev. W. A. Eley, Mrs. Kitsman, and Miss L. V. Perkins.

There will be a business session following these addresses. At 6:30 there will be a pot luck supper and young people's rally, Rev. Parker of the Congregational church of Charlevoix will conduct this rally. At 8:00 o'clock the Rev. Bert Pellowe, pastor of the M. E. church of Petoskey, will be the speaker. Mr. Pellowe is a very interesting speaker and none can afford to miss hearing him.

Let all Sunday school workers plan to attend this convention. For the pot luck supper bring your own dishes and silverware, the entertaining church will furnish coffee, cream and sugar.

LAX THE BLADDER

Use Juniper Oil, Buchu Leaves, Etc.

If you are bothered getting up nights, burning, leg pains, backache, make this 25c test. Flush out the excess acids and waste matter that cause irritation. Get juniper oil, extract buchu leaves, etc., in green tablets called BUCKETS, the bladder laxative. After four days if not satisfied any druggist will return your 25c. F. J. CHRISTIAN SCIENCE CHURCH
205 Clinton Street

Sunday morning service, 10:45.

First Wednesday of month, 7:45 p. m.

Reading room Tuesdays and Saturdays, 3 to 5 p. m.

We cordially invite the public to our services and reading room.

"Doctrine of Atonement" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, October 21.

Among the Bible citations is this passage (Matt. 16:24): "Then said Jesus unto his disciples, If any man will come after me, let him deny himself, and take up his cross, and follow me."

Correlative passages to be read from the Christian Science textbook, "Science and Henlth with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 22): "Waking to Christ's demand, mortals experience suffering. This causes them, even as drowning men, to make vigorous efforts to save themselves; and through Christ's precious love these efforts are crowned with success."

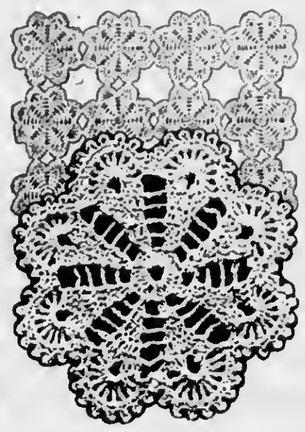
Crochet Motif for Bedspread

By Grandmother Clark



A bedspread in crochet is a work of art, attracts attention and frequently becomes an heirloom. A spread crocheted in one piece becomes cumbersome as the work progresses. How much simpler to crochet one motif at a time and then assemble the motifs to complete spread. Watch your work grow when it can be taken along with you to social gatherings.

The above illustration represents the "Snow Flake" motif and how it shows up when put together. This motif when made of carpet warp measures six inches. Thirty-two motifs can be made from one pound of warp. This is only one of the 29 motifs shown in our book No. 27 on motif bedspreads. These motifs can also be used to make match sets for bedroom: curtains, pillows, chairbacks, scarfs, etc.

Write our crochet department inclosing 15c for this book No. 27, illustrated, with instructions, or send 25c and receive also book No. 26, with 72 edgings and insertions in crochet for all purposes.

Got Her Lock of Hair, but Not Paderewski's

Paderewski has, like many another notability, undergone the ordeal of complying with autograph hunters' demands for signatures. But the famous pianist, if we may judge by what is said to have happened on one occasion, draws the line at the distribution of mementoes in the shape of samples of his beautiful hair, albeit gifted by nature with a profusion of that article.

It was when he was visiting America that a well-known society woman had the audacity to hand through the window of his private car a gushing epistle, winding up with the request for "a lock of hair." It is alleged that Paderewski's secretary replied as follows: "You fail to specify whose hair you desire. M. Paderewski, therefore, in order to avoid disappointment, has secured for you some fine specimens from his manager, secretary, valet, waiter two cooks, and the cat."

KELP

Recently scientists have made startling discoveries of a sea treasure more important to life and happiness than that contained in the rusty, iron bound chests occasionally found in sunken ships.

In the coastal waters of the Pacific Ocean off California there is often found growing a huge sea plant with stems often measuring 90 feet or more in length, known as kelp. In these leaves are found such minerals as iron, copper, calcium, phosphorous, iodine, manganese and other elements once available in abundance in the soil but have been washed to the sea by the rains of the ages. These helpful elements are all found in the leaf of the kelp, the basis of Kelp-a-Malt.—Adv.

Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you need not take a "double dose" a day or two later. *Nor will a mild liquid laxative irritate the kidneys.*

The right dose of a liquid laxative brings a more natural movement, and there is no discomfort at the time, or after.

The wrong cathartic may often do more harm than good.

A properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin brings safe relief from constipation. It gently helps the average person's bowels until nature restores them to regularity. Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the youngest child.

AUTO REGISTRATION SHOWS AN INCREASE

First Upward Trend Reported by Sec'y of State Since 1929

For the first time since 1929, the number of passenger cars in Michigan is showing an increase over the previous year's registration.

On Sept. 30, 1934, records of the Department of State disclose 969,074 automobiles registered for use as compared to 929,039 more than were registered on Sept. 30, 1933.

The increase in registration is attributed to two causes. The first is the two payment plan of purchasing license plates, sponsored by Secretary of State Frank D. Fitzgerald in 1933, which permitted thousands of motorists to keep their cars in use.

The second cause for the increased registration is the reduction in weight tax rates.

EDUCATION COMMISSION OPPOSING AMENDMENTS

Seeking Defeat of Gasoline and Weight Tax Proposals

Striking specifically at the gas and weight tax amendments to the state constitution which will be voted on at the general election next month, the Michigan Educational Planning Commission adopted a resolution opposing all constitutional amendments which will adversely affect the revenues for public schools.

Previous to the adoption of the resolution, the commission members were agreed that amendments two and three which are the gas and weight tax amendments would make a deficiency of nearly six million dollars which would have to be absorbed by the sales tax, thus indirectly curtailing the amount of money from this source that should go for school aid.

CORN-HOG VOTE IS EXTREMELY LIGHT

FRESHMAN COLLEGE IS IN FULL SWING

WORK OF FIRST SEMESTER IS WELL UNDER WAY

Schedule of Six Courses in University Subjects Being Offered to Local Students

The Freshman College in Charlevoix, which is now under the supervision of the University of Michigan extension division, has its first semester program well under way. The records of all students will be kept on file in the offices of the University and all grades will be mailed to the students from there at the close of the first semester.

An introductory history course is being offered by Mr. Stoughton, who is in charge of the College. This course is a pre-requisite to all history courses given at the University. It proposes to teach the principals of note-taking in history, the studying of history and a general background of historic events.

The principals of composition and the discussion of contemporary literature is offered in English I, given by Miss Westover. A study and appreciation of contemporary poetry in Great Britain and America is also offered, without University credit, for those who wish to become acquainted with such present day writings.

Mr. Menat-saganiam is giving a course in introductory French. The aim of this course is to acquaint the students with the fundementals of grammar and pronunciation, the building of a small vocabulary, and to lay a good foundation for the more advanced courses in French. French 31 is also given. This deals primarily with more advanced work in French, intending to give an insight into a few of the masterpieces of French literature. Emphasis will be placed upon fluency in reading, understanding by sight reading and a review of the principles of French grammar.

Rex Supernaw is offering courses in mathematics 7, consisting of advanced algebra for the first seven weeks and trigonometry for the remainder of the semester.

The schedule of classes is as follows:

History H, M.T.W.Th., 10, 11, 2 Mr. Stoughton.

English I, M.W.Th., 9, 10, 1 Miss Westover.

French I, M.T.W.Th., 9 Mr. Menat-saganiam.

French 31, M.T.W.Th., 11, 1—Mr. Menatsaganiam.

Mathematics 7, M.T.W.Th., 11, 1, 2 Mr. Supernaw.

Application of Poetry, t., 3 Miss Westover.

Mr. Stoughton expressed his satisfaction with the organization and with the student body who are taking advantage of the opportunity of a Freshman University course.

Mrs. Tony Novotny is starting a class of piano pupils. Anyone interested call 399-J. Adv. 42t2pd.

FERN CRANDALL, TO BE MARRIED SATURDAY, GIVEN SHOWER

The Misses Bonita Higman and Myrtle O'Neil were hostesses at a miscellaneous shower given Thursday evening at the Lewis O'Neil residence on East Hurlbut avenue in honor of Miss Fern Crandall, whose marriage to Leo Friend of Harbor Spring, will be an event of Saturday, October 20th. Twenty-four guests were present at the delightful affair. Bridge was the entertainment of the evening, honors going to Kathleen McCall, Mrs. LaRue Gill and Miss Esther Goldstick.

FRANK POP GROWS LATE VARIETY RASPBERRIES

Frank Pop, well known Marion township gardener, late last week displayed several quarts of raspberries, picked from a variety of everbearing raspberries which he has been able to cultivate successfully at his farm. While ever-bearing strawberries are very common, it is quite probably few people know that a similar variety of raspberry is being grown.

Would Ban Deer Hunting

A resolution was adopted requesting the conservation commission to close the portion of Charlevoix county west of the Pennsylvania railroad to deer hunting. The value of the deer population as a tourist attraction was set forth in the resolution.

Laud District Health Unit

After hearing a report by Dr. Carleton Dean, director of the District Health Unit, the board, to show its appreciation of work done in Charlevoix county, adopted the following ways and means committee resolution:

"After hearing the report of Dr. Carleton Dean of the Charlevoix Unit of the Children's Fund of Michigan given October 12th, the board fully realizes the vast importance of the work done in Charlevoix county in the past four years. Not only were many lives actually saved, but countless others were instrumental against diseases which cause untold suffering and misery and eventually an untimely death. We wish to hereby express our gratitude and deep appreciation to Dr. Carleton Dean and his able staff of assistants and especially to the Senator James Couzens, whose concern for human welfare has made this effective work possible."

Benton Re-Elected

L. E. Benton, poor commission secretary, was re-elected by a vote of 16 to 9 over H. R. Fowler. Four other candidates for the office were considered.

The road commission report as read was accepted. The commission requested one-half of the 1935 gas tax for maintenance and the other half for interest and sinking fund to retire bonds. No request was made for an appropriation for new construction.

A reduction in dog tax was voted Monday, scaling the tax for females from $1 down to $3, and males from $2 down to $1.50, providing, however, the tax is paid within five days from receipt of such notice.

NAVY DAY OBSERVANCE SET FOR OCTOBER 27TH

Local American Legion Adopts Resolution for Observance

Joining in the nation-wide observance of Navy Day, the local American Legion has adopted the following resolution:

"Whereas an adequate navy is essential to our national peace and security, and

"Whereas, the United States is now short of her quota by 121 ships, as allowed by the Washington and London Naval Limitation Treaties, and

"Whereas the cause of justice and peace in the world best can be promoted through the strict observance of those treaties,

"Therefore, be it resolved that Leslie T. Shapton Post No. 122, American Legion, go on record as commending the full observance of and compliance with those treaties, urging the continued upbuilding of the United States navy uptil it reaches full treaty strength, and in so doing, the American Legion respectfully commends to its members the observance of Saturday, October 27, as Navy Day."

CHURCH RECEPTION AN ENJOYABLE AF. FAIR MONDAY NIGHT

A delightful occasion of Monday evening was a reception given in the parlors of the First Methodist church for Rev. and Mrs. W. W. Hurd, who have been returned to the local pastorate for another year.

An estimated attendance of one hundred church members and friends of the honored guests were present to enjoy the cooperative supper and program which followed.

Frank Poole favored with a vocal solo, accompanied by Mrs. A. C. Belding, the address of welcome was given by A. C. Belding and response by Rev. Hurd and Mrs. Hurd. Other program numbers included a song by Miss Grace Belding, reading by Dr. F. F. McMillan and song by the assembly.

The affair, given as an expression of the esteem in which Rev. and Mrs. Hurd are held in Charlevoix, was a very enjoyable one.

Your Property and The National Housing Act

THE CHARLEVOIX COUNTY STATE BANK has been officially designated by The Federal Housing Administration as an approved lending agency through which loans may be secured to renovate or improve property under the terms of the National Housing Act. If you wish to reroof, repaint, or modernize your home we will be glad to explain the requirements of the financing plan.

Among the conditions requisite for a loan are that the borrower must have an adequate regular income from a dependable source and a good debt-paying record in his community. He must be a property owner; if the property to be improved has a mortgage on it, there must not be outstanding any past due interest, delinquent taxes or assessments.

Amounts from $100 to $2,000 may be applied for, based on the applicant's income. Loans are repaynble monthly and may extend through a period as long as three years. The total charge for the loan is an amount equivalent to a discount of $5.00 per year for each $100 of amount of the loan—there are no other costs.

Any property owner of good credit standing is eligible. It is not necessary that you be an established "customer of this bank."

Memories of the Wild Never Closed to Dog

As his mistress strode through the long grass, Flush, the spaniel, leaped hither and thither, parting its green curtain. What a variety of smells interwoven in subtlest combination thrilled his nostrils: Strong smells of earth, sweet smells of flowers; nameless smells of leaf and bramble; sour smells as they crossed the road; pungent smells as they entered the bean fields.

But suddenly down the wind came tearing a smell sharper, stronger, more lacerating than any—a smell that ripped across his brain, stirring a thousand instincts, releasing a million memories—the smell of hare, the smell of fox. Off he flashed like a fish drawn in a rush through water further and further. He forgot his mistress; he forgot all humankind. He heard dark men cry, "Spaniel Span!" He heard whips crack.—He raced; he rushed. At last he stopped bewildered; the incantation faded; very slowly, wagging his tail sheepishly he trotted quietly back across the fields to where Miss Mitford stood shouting, "Flush! Flush! Flush!" and waving her umbrella.—Virginia Woolf in the Atlantic Monthly.

TRUE DETECTIVE STORY

by Vance Wynn © Public Ledger

The Little Wooden Cube

THE prefect of Prague was taking a stroll one day when he was set upon by three men and badly beaten.

There is no doubt that the men intended to murder him, but he was a strong and courageous person and he gave them such a battle that they finally took to their heels and ran away.

The prefect not only lived, but he determined to find his assailants and see that they were punished, if it required the remainder of his natural life.

The men had come at him so suddenly and he was forced to fight so hard that he did not get a good look at any one of the trio.

But there were two little clews that gave the detectives something to work upon.

One was the odor of musk.

The other was a gray glove that lay on the sidewalk.

The prefect of police called all of his men together and showed them the glove.

He directed them to visit every glove factory in the country and also every establishment where gloves were likely to be sold, in the hope of finding the mate to that gray glove.

It seemed like a hopeless quest, but eventually they found the factory where that kind of glove was manufactured.

There they secured a list of the shopkeepers who sold such gloves at retail, and finally as the result of almost superhuman patience they located a man named Emil Dressler who owned the glove.

He was shadowed for some days because the police wanted to be sure of their man before they placed him under arrest.

While this was going on he discovered that he was being trailed and took alarm.

For five days he remained away from his lodgings.

At the end of the five days, thinking that the coast was clear, he returned.

But the minute he went into his room an officer was at the door demanding admittance.

"It's all up, Dressler," said the policeman.

"Your place is completely surrounded and I call on you to surrender."

"All right," he replied, in a pleasant voice; "if you will give me a minute I'll do as you wish."

The officer waited with all concealed impatience, and just when he was about to pound on the door again he was startled by the loud report of a pistol.

He burst in the door.

On the floor lay the dead body of Emil Dressler, holding a smoking pistol in his right hand.

The prefect of police was summoned and he made a careful search of the premises.

In a bureau drawer he located the missing glove—the mate to the one that had been found on the sidewalk on the day he was assaulted.

On a table was a partly finished letter which the suicide had been writing to his mother.

In it he confessed that he belonged to a secret society which was pledged to wipe out the heads of the government.

They had begun, he said, by trying to kill the prefect of police.

But he was at bay now and would be compelled to quit with his work unfinished.

This was not all, for in a hiding place was discovered a little wooden cube, with the letter "A" inscribed on its side.

It was evident that the members of the organization drew lots when it came time to assassinate a ruler, and that the little cube was the notification that had been sent to Dressler.

That same day a man was arrested while in the act of assaulting a manufacturer of Prague.

He had about him the odor of musk, and in his pocket was found one of the little wooden cubes with the letter "A" upon it.

He was given the third degree and made a confession implicating a number of other men in the city.

They were vowed to overthrow the government and to set up a Red republic.

All of the papers and paraphernalia were found and a trap set for the ringleaders.

That night nineteen of them were arrested.

Some were executed and others imprisoned for life, but the net result was to nip in the bud the movement for the Red republic.

Shared Napoleon's Exile

Four important personages shared Napoleon's exile—Bertrand, Montholon, Las Cases, and Gourgaud. In lesser capacities, Marchand, Cipriana, and Santini were also with Napoleon. The household of Bonaparte consisted of 51 persons, of whom nine, including four children, formed the suite of the emperor, the others being servants. Sir Hudson Lowe was the emperor's guardian on the island.

The "Bouquet" on a Building

"Putting the bouquet" on a building is a phrase that translates the name for a European festival in which the architects, contractors and workmen celebrate the laying of the final stone—symbolic of the completion of all the rough work—by putting above the finished roof a whole fir tree.

RUFFLE EFFECTS SET OFF FROCK

PATTERN 9677

If you choose your trocks with an eye to flattery you'll be sure to like the feminine details of this one. The front bodice panel brings to mind a "tucker," in the way it is stitched on top of the skirt. Ruffles outline the panels front and back, and the sleeves in ruffle effect are gracefully flared in keeping with the mood. A trock that is really slenderizing and a gem for those many informal affairs of the season. It is lovely fashioned of a dainty voile, dimity, lawn or swiss, or one of the gay, new silk prints.

Pattern 9677 may be ordered only in sizes 14, 16, 18, 20, 32, 34, 36, 38 and 40. Size 16 requires 3⅞ yards 39 inch fabric.

Send FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, the STYLE NUMBER and SIZE.

Send your order to Sewing Circle Pattern Department, 232 West Eighteenth Street, New York, N. Y.

Kind of Beautiful

By MARION P. JOHNSON

"PLANNING one of these public weddings is one thing," declared A. H. Hinkler, chairman of the arrangements committee of the Bayview Charity circus, "but putting the foal thing over seems to be an entirely different proposition!"

"Too proud!" exploded Josephus Braun. "After all that bunch of prizes we've offered!"

"Surely," suggested Adolphus Weeks, "we shall find a couple somewhere who will agree to be married—"

A. H. Hinkler waved his arms wildly. "Somewhere!" he shouted. "But where? Do you realize, man, that the wedding is advertised for tonight?"

"And that we've practically crawled all over that platform on our hands and knees at every performance begging—literally begging—some young couple—any young couple—to please step forward and be married so that we can give them fifty dollars in cash and other junk!" added Josephus Braun quite at the top of his lungs.

"Well," said little Mr. Weeks, softly, placatingly, "it isn't our fault if we receive no response. We have the prizes ready. We have, as you say, pleaded. Surely—"

"Surely," mocked A. H. Hinkler, "they won't expect a wedding when we've plastered the whole city with promises that there will be one! Oh, no!"

"Well," growled Josephus Braun, "we can keep trying, I suppose."

One by one, the committee had taken turns pleading, offering prizes, and beaming hopefully at the vast throng attending the circus. Sometimes there would be a nibble, but never a real bite! Messrs. Hinkler, Braun and Weeks had struggled, perspired, cursed and raged.

Josephus Braun, chosen by the committee to make the final plea because of his deep booming voice, stood that evening and hemmed. He began by enumerating the prizes. He dwelt, touchingly, on the interest all these people would take in the young couple to be married here. It was just like a big happy family, he said. Still no response. The crowd sat like a great silent, breathing mass, waiting. Josephus Braun left the ring and consulted his brother committeemen.

"Now, listen, ladies and gentlemen," he beamed upon his return. "The committee will double—ah so-lute-ly double—the cash prize if a couple will walk up here within the next three minutes and allow themselves to be married. Just three minutes, ladies and gentlemen!"—He took out his elaborate watch and marked the time.

Halfway around the auditorium a young couple rose, hesitatingly, whispering. The girl sank into her seat again, but not before Josephus Braun had spotted her.

"Come right along!" he invited cordially, waving the watch. "Right this way! There isn't much time!"

The young man assisted the hesitant girl to her feet, and led her, trembling, to the ring. Triumphantly, Josephus Braun bore his charges away. Flurry. Excitement.

Who were they? wondered the crowd. [illegible] didn't really matter. They were young—and in love. Anyone could see that.

A breathless hush. The circus band began to play Lohengrin, a little blarringly. Attendants, drafted from the circus performers, and transformed by the magic of quick change appeared, taking their places with quiet dignity.

And then the bride with a great bouquet of roses, still wearing her little dark suit, but very lovely! Her cheeks were deeply pink, and she was nervous and a little afraid, but there was a soft, tremulous beauty about her that the crowd sensed and approved. A little dark-eyed bride, trembling! They took her to their hearts and loved her, and smiled at her, and even wept over her, a little. It didn't matter about the groom. Just a good-looking young man, a little shabby.

The wedding went on. The gifts were presented. Josephus Braun beamed. The crowd beamed. The bridegroom beamed. And the little bride blushed and smiled.

The wedding was over. The crowd sighed a little regretfully, and the circus went on—while in the committee room the bridegroom bargained with the committee, taking some of the prizes and trading others for cash. At last, with their little rattletrap car stacked high with booty, the young couple drove away, alone, into the night.

And then a quiet roadway, ribboning into the deeper shadows of the velvety night.

"Tom," said the little bride, snuggling against his broad dark shoulder, "do you think it was all right?"

"Sure," said Tom, slipping his arm around her.

"I was awful scared," she said, trembling a little in remembrance. "I thought maybe they'd arrest us—or something—if they knew!"

"They didn't make any rules about it," said Tom, reasonably. "They just said they wanted a couple to get married!"

"It's wonderful," sighed the girl. "With all that money and all those prizes we can take baby from Aunt Mary and get us a room and live together 'til you get a job."

"Sure," said Tom.

The little car rattled happily on.

"And Tom—"

"Yes?"

"It was kind of beautiful, wasn't it—getting married all over again after three years?"

NOT AGREED ON "PROLETARIAT"

Varying Definitions of Term Long in Use.

Recent political disturbances throughout the world bring up the question: What is the proletariat?

The dictionary gives two conceptions of the term "proletariat." In earlier usage, the word designated the indigent classes collectively of a community or of a state, including day laborers and all other persons without capital or assured means of support. In modern Socialism, the term refers to the wage workers of a state or of the world, collectively, regarded as the producers of capital and creators of wealth; the laboring classes; the workingmen. This last meaning of the term probably arose during the French revolution.

The word is derived from the Latin proletarius, which referred to the body of citizens who were without means and belonged to the fifth property class. They were exempt from military service and served the state by contributing to it their children (proles, offspring). It is believed that this class received its name in the time of Servius Tullius.

Karl Marx was probably largely responsible for the popular use of the word proletariat. In the Communist Manifesto of 1847, by Marx and Engels, the Socialist conception of the term, as opposed to the bourgeoisie, is clearly brought out. Under the heading "Bourgeoisie and Proletariat," the following definitions are given:

"By bourgeoisie is meant the class of modern capitalists, owners of the means of social production and employers of wage-labor; by proletariat, the class of modern wage-laborers who, having no means of production of their own, are reduced to selling their labor-power in order to live."

The notion of class warfare is explained in Engels' preface to the Manifesto in which he says:

"The whole history of mankind (since the dissolution of primitive tribal society, holding land in common ownership) has been a history of class struggles, contests between exploiting and exploited, ruling and oppressed classes. . . . A stage has been reached where the oppressed and exploited class—the proletariat—cannot attain its emancipation from the sway of the exploiting and ruling class—the bourgeoisie—without at the same time, and once for all, emancipating society at large from all exploitation, oppression, class distinction and class struggle."

These theories of Marx and Engels were brought to fullest realization by Lenin and the Bolsheviki, and their division of all persons into two distinct classes, the "workers of the world" and their "oppressors."—New York Times.

In the Bermudas

Bermuda is a group of islands in the North Atlantic, 600 miles southeast of New York. Although said to be 365 in number, of which about a score are inhabited, they occupy a space only 18 by 2½ miles. The largest has an area of 9,000 acres, and the whole group contains 12,000 acres.

Age 13

Old enough for strong drugs?

It is *not* wise to give a laxative of adult strength to a child, just because you give it less often or in less amounts.

Stomach upsets and bowel troubles of growing children can often be traced to this single mistake.

There is a better way to relieve those occasional sluggish spells or constipation in a child of any age:

Use a liquid laxative containing senna (a *natural* laxative). California Syrup of Figs has the right amount for children's use, and this rich, fruity syrup does not harm or upset a child's system.

Doctors advise liquid laxatives, and hospitals use the liquid form. Almost any child who has been convalescing in the hospital usually comes out with bowels working like a well-regulated watch.

Make the change now to pure, California Syrup of Figs instead of harsh medicines, you won't risk any more violence to your child's appetite, digestion, and general physical condition. Those little upsets and complaints just disappear as a rule and the child is soon normal and happy again.

THE "LIQUID TEST." First: select a liquid laxative of the proper strength for children. Second: give the dose suited to the child's age. Third: reduce the dose, if repeated, until the bowels are moving without any help at all.

An ideal laxative for this purpose is the pure California Syrup of Figs, but be sure the word "California" is on the bottle.

"NATURALLY SKINNY FOLKS"

3 WAYS IN 1 TO ADD WEIGHT *Quick!*

GAIN 5 LBS. IN 1 WEEK OR NO COST.

Hosts of thin, pale, rundown folks—and even "Naturally Skinny" men and women—are amazed at this new easy way to put on healthy needed pounds quickly. Gains of 15 to 20 lbs. in one month—5 lbs. in a week—are reported regularly.

Kelp-a-Malt, the new mineral concentrate from the sea—goes right down to the cause of thin, underweight conditions and adds weight through a "3 ways in one" natural process.

First, its rich supply of easily assimilable minerals nourish the digestive glands which produce the juices that alone enable you to digest the fats and starches—the weight-making elements in your daily diet. Second, Kelp-a-Malt provides an amazingly effective digestive substance which actually digests 4 times its own weight of the flesh-building foods you eat. Third, Kelp-a-Malt's natural FOOD IODINE stimulates and nourishes the internal glands which control assimilation—the process of converting digested food into firm flesh, new strength and energy. Three Kelp-a-Malt tablets contain more iron and copper than a pound of spinach or 7½ lbs. of fresh tomatoes; more calcium than 6 eggs; more phosphorus than 1½ lbs. carrots; more FOOD IODINE than 1600 lbs. of beef.

Try Kelp-a-Malt for a single week and notice the difference—how much better you sleep, how ordinary stomach distress vanishes, how firm flesh appears in place of scrawny hollows and the new energy and strength it brings you! Prescribed and used by physicians, Kelp-a-Malt is fine for children too—improves their appetites. Remember the name, Kelp-a-Malt, the original and genuine kelp and malt tablets. There is nothing else like them so don't accept imitations and substitutes. Try Kelp-a-Malt today, and if you don't gain at least 5 lbs. of good firm flesh in 1 week the trial is free.

Kelp-a-Malt comes in packages of 100 jumbo size tablets, 4 to 6 times larger than ordinary tablets and cost only a few cents a day to use. Kelp-a-Malt can be had at all good drug stores. If your dealer has not yet received his supply, send $1 for special introductory size bottle of 65 tablets to the address below.

PLANT FORAGE CROPS ON IDLE WHEAT LAND

Contract Acres Can Be Used to Produce Livestock Feeds

Michigan farmers who have wheat contracts are urged by the crops department at Michigan State College to use the 1935 contracted acreage for the production of forage crops.

Wheat acreages will be reduced only 10 per cent instead of 15 per cent as in 1934. The acres taken out of wheat production may be seeded to any grass, legume, or emergency forage crop. Grass and legume crops may be used for pasture, hay, or seed production. Emergency pasture crops may be used for pasture or hay but cannot be harvested for seed or permitted to reach maturity in growth.

The contract acres also may be planted to soil improvement crops to be plowed down. Summer fallowing or cultivation for the control of noxious weeds is permitted on the contract acres. Permanent removal of the contract acres from crop production by the planting of trees also is possible under the contract terms.

Wheat, corn, rye, barley, grain sorghums, or sugar beets can not be planted in Michigan for harvest on the contract acres. These crops are included in the basic commodities. Special crops such as vegetables or small fruits also are prohibited. Small grains can be sown on the contract acres as nurse crops for seedings if the grain is cut before it reaches maturity.

The government's plan for the 1935 wheat production is expected to produce a crop totaling 775,000,000 bushels for harvest. This will supply domestic requirements and furnish an adequate supply for carryover and export.

BUY EARLY TO GET BEST ALFALFA SEED

Northern Grown Seed Adapted for Michigan Is Short Crop

Michigan farmers who expect to buy alfalfa seed for sowing next spring should locate their seed early because the crop is short and varieties not suitable for this state may appear in the market later, according to the farm crops department at Michigan State College.

Michigan produced 2,600,000 pounds of alfalfa seed last year but the 1934 crop is not expected to be more than two-thirds as large. This Michigan seed is well suited for use here but, as prices are high, much of the supply will probably be moved outside the state. This year's crop is not large enough to supply the Michigan demand if all remained here.

Montana, Idaho, Minnesota, and the Dakotas produce alfalfa seed adapted for use in Michigan but the crops in all those states except Idaho is short this year. Southern grown [illegible] germinates and grows during the summer and fall but kills out during Michigan winters.

Foreign alfalfa seed from warm countries is also a poor buy. It has the same disadvantages for Michigan as seed produced in the southern states.

The Michigan seed law requires all alfalfa seed to be sold in bags marked with the place of the seed's origin. Federal laws require that imported seed shall be stained with a dye so farmers will know where it came from. Buy Michigan or northern-grown alfalfa seed.

SPAWN FISHING BAN BAR TO HATCHERIES

(Continued from page 1).

state hatcheries that are also equipped to handle the eggs."

Congressman Brown believes that the hatcheries should be opened and that the relief and welfare programs in the fishing localities would be considerably aided by opening the season during this emergency. He disagrees with the policy of the State Conservation Department, which refuses to open the fall spawn fishing. He has made every effort to open the hatcheries and the season and as indicated the Federal government take the position that "The Charlevoix hatchery may be opened when and if the action of the Michigan Conservation Department with regard to the open season is revoked.

The fishing area served by the Charlevoix hatchery was one from which hundreds of commercial fishermen obtained their livelihood. These fishermen come from St. Ignace, Manistique, Charlevoix, Cheboygan, Garden, Rogers, Alpena, the Beaver Islands and and other lake towns and villages. St. James, Beaver Island, which has a population of about 1,000 persons, depends almost entirely on the fishing industry for employment.

DISTRICT HEALTH UNIT BULLETIN

What the Individual Farmer Can Do Towards Producing a Clean Milk Supply

Where proper supervision has not as yet been developed, the individual farmer can take definite steps at least for the sake of safeguarding his own family if for no other reason. Even the farmer is affected by complexities of modern civilization and so, far more than in the past, does he need to pay attention to the conditions under which milking is done and under which milk is cared for on his own premises.

Since all milk contains bacteria, and since bacteria multiply rapidly in milk, the farmer who aims to do a good job, keeps the number of bacteria at a minimum. If the milk comes from cows with diseased udders, if it is milked by unclean hands or into imperfectly cleaned pails, if it is unprotected from flies and dust, or if it remains warm, bacteria will grow rapidly in it. When by chance some of the bacteria are disease bacteria, the milk is likely to spread that disease.

The cow's belly, flanks and milders should be cleaned before milking time and long hairs should be cut from the tail so that dirt may not cling to it. The person who milks the cow should be in good health and cleanly in his person and his habits, careful about washing his hands, about coughing and sneezing and blowing his nose. Even the milking stools should be kept clean to avoid soiling the milker's hands. Milking should be done with freshly washed, dry hands. Wetting the hand with milk adds bacteria and sediment to the milk.

Pamphlets and other information concerning production of clean milk may be obtained from Dr. A. R. Renwick, State Dairy Inspector, located in the office of the District Health Unit No. 3, Charlevoix, Michigan.

LEGAL NOTICES

City Registration Notice For General November Election Nov. 6th, 1934

To the qualified electors of the City of Charlevoix, State of Michigan:

Notice is hereby given that in conformity with the "Michigan Election Law," I, the undersigned City Clerk will, upon any day except Sunday and a legal holiday, the day of any regular or special election or primary election receive for registration the name of any legal voter in said City not already registered who may apply to me personally for such registration. Provided however, that I can receive no names for registration during the time intervening between the second Saturday before any regular, special, or officinl primary election and the day of such election.

The last day for General Registration does not apply to persons who vote under the Absent Voters' Law. (See Registration by Affidavit.)

Notice is hereby given that I will be at City Clerk's Office Wednesday, October 17th, 1934, the twentieth day preceding said election, as provided by Part II, Chapter III, Michigan Election Law, from 8 o'clock a. m. until 8 o'clock p. m. on said day for the purpose of Reviewing the Registration and Registering such of the qualified electors in said City as shall properly apply therefor.

Notice is hereby further given to the qualified electors of this city that I, the undersigned Clerk of said city, will register qualified electors who may apply at my office on any business day in the year up to and including Saturday, October 27th, 1934, last day for General Registration by personal application for said election, from 8 o'clock a. m. to 8 o'clock p. m.

The name of no person but an actual resident of the precinct at the time of registration, and entitled under the constitution, if remaining such resident, to vote at the next election shall be entered in the registration book.

Provision in Case of Removal to Another Precinct—Any registered and qualified voter who has removed from one election precinct of the city to another election precinct of the city shall have the right, on any day previous to election day, on application to the City Clerk, to have his or her name transferred from the registration book of the precinct from which he or she has removed to the registration book of the precinct in which he or she then resides. Such elector shall have the right to have such transfer made on election day, or primary election day, by obtaining from the board of inspectors of election of the precinct from which he or she has removed a certificate of transfer, and presenting the said certificate to the Board of election inspectors of the precinct in which he or she then resides.

Dated, October 9th, 1934.

Charlevoix, Michigan Sewage Disposal Works Notice to Contractors

Sealed proposals endorsed "Proposals for Sewage Disposal Works," will be received by the City Clerk at the City Hall, Charlevoix, Michigan, until 10:00 a. m., Eastern Standard Time, on the third (3rd) day of November, 1934, and will then be publicly opened and read.

The work for which proposals are invited will be paid for in cash and includes the following divisions:

DIVISION A—SEWERS. This division includes approximately 4,600 feet of sewers 8 inches to 21 inches. The right is reserved to omit certain sewers.

DIVISION B—SEWAGE TREATMENT PLANT. This division comprises the settling tanks, sludge digestion tank, sludge drying beds, a building housing the settling tanks, sludge pumping station, garage and offices, two small pumping stations and appurtenances. Various equipment and appurtenances are also included.

DIVISION C—SLUDGE COLLECTORS. This division includes the furnishing and erection complete in place of equipment for the collection of sludge in the rectangular settling tanks.

DIVISION D — DIGESTION TANK EQUIPMENT. This division includes the furnishing and erection, complete in place, of the mechanical equipment for the 28-foot inside diameter circular sludge digestion tank.

DIVISION E—RIVER CROSSING. This division includes two 8-inch cast iron pipe lines across the river and inlet and outlet structures. The pipes are to be laid below required navigation limits.

MAJOR EQUIPMENT. Proposals for sewage pumps, sludge pumps and chlorine equipment will be received for furnishing these equipment items to the general contractor of Division B.

The work covered by the above divisions is the project on which bids were previously received and rejected, excepting that a number of modifications have been made in the plans and specifications.

All proposals must be on forms and in accord with "Instructions to Bidders" furnished by the City of Charlevoix.

Instructions to Bidders, Form of Proposal, Contract, Specifications and Plans may be obtained from the City Clerk, Charlevoix, Michigan, or from the Engineers, Greeley and Hansen, 6 North Michigan Avenue, Chicago, Illinois, upon deposit of Twenty-five Dollars ($25.00), which sum so deposited will be refunded to bona fide bidders if said Plans, Specifications, etc., are returned in good condition within fifteen (15) days after the opening of bids. In cases where no bona fide bid is made, one-half (½) of the above deposit will be refunded upon such return of Plans, Specifications, etc.

Each proposal must contain the full name of every person or company interested in the same and shall be accompanied by a certified check made payable to the City Clerk of the City of Charlevoix, Michigan, a bid bond, or a cash deposit equivalent to five per cent (5%) of the total bid price, this sum to be a guarantee that if a proposal is accepted a contract will be entered into and its performance properly secured. The bid bond must be in a form satisfactory to the City Attorney and the State Engineer, P. W. A.

This is a non-Federal P. W. A. project to be financed by funds from a loan and grant to be obtained from the Federal Emergency Administration of Public Works, and all rules and regulations of the Federal Administration of Public Works shall be complied with.

Attention is called to the fact that not less than the minimum wage rates prescribed by the Federal Emergency Administration of Public Works must be paid on this project.

Each proposal must be accompanied by a properly assigned certificate of Compliance with N. R. A. (Form 61, P. W. A.)

The City of Charlevoix reserves the right to reject any or all bids or not waive any informalities in the bids received, to accept any bid for any division or combination of divisions, and to omit certain construction items as may be considered most favorable to the city.

Acceptance or rejection of the proposals will be made as soon as practicable after the bids are received and passed on by the State Engineer, P. W. A.

Dated this sixteenth (16th) day of October, 1934.

LOST 20 LBS. OF FAT IN JUST 4 WEEKS

Mrs. Mae West of St. Louis, Mo., was one eight 28 yrs. old and weighed 20 lbs. until taking one box of Kruschen Salts in 4 weeks lost 20 lbs. Also have many others and furthermore I've never had any sickness. I feel fine. I only take one half teaspoonful in a glass of hot water each morning before breakfast. Kruschen Salts are sold by druggists everywhere—a bottle that lasts 4 weeks costs but a trifle. Ask for and get Kruschen at any druggist—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle you are not joyfully satisfied with results—money back.

WEAK AND SKINNY MEN, WOMEN AND CHILDREN

Saved by new Vitamins of Cod Liver Oil in tasteless tablets.

Pounds of firm healthy flesh instead of bare scraggy bones! New vigor, vim and energy instead of tired listlessness! Steady, quiet nerves! That is what thousands of people are getting through scientists' latest discovery—the Vitamins of Cod Liver Oil concentrated in little sugar coated tablets without any of its horrid, fishy taste or smell.

McCoy's Cod Liver Oil Tablets, they're called ("Cod Liver Oil in Tablets"), and they simply work wonders. A little boy of 3, seriously sick, got well and gained 10½ lbs. in just one month. A girl of thirteen after the same disease, gained 3 lbs. the first week and 2 lbs. each week after. A young mother who could not eat or sleep after baby came got all her health back and gained 10 lbs. in less than a month.

You simply must try McCoy's at once. Remember if you don't gain at least 3 lbs. of firm healthy flesh in a month get your money back. Demand and get McCoy's—the original and genuine Cod Liver Oil Tablets approved by Good Housekeeping Institute. Refuse all substitutes—insist on the original McCoy's—there are none better.

CHARLEVOIX MEETS BOYNE ON SATURDAY

Resume Football Schedule After Two Weeks of Inactivity

Charlevoix high school gridders will swing into action again Saturday following two weeks of inactivity occasioned by an open date in their schedule.

The contest will be away from home with the team playing a return engagement with Coach Brotherton's Boyne City aggregation, whom the Kipmen defeated by a 19 to 0 score here October 6. Regular practice sessions have been in progress this week in preparation for the game.

At the present time East Jordan and Rogers City, both undefeated, occupy the top position in the Tip of Mirbigan class C conference title race. Charlevoix and Boyne, with one victory and one defeat each, are tied for second place. Harbor Springs, three times defeated, is in cellar position. Charlevoix meets Rogers City in their final game on November 3rd.

Following is the conference standing:

	W.	L.	T.	Pct.
East Jordan	2	0	0	1.000
Rogers City	1	0	0	1.000
Charlevoix	1	1	0	.500
Boyne City	1	1	1	.500
Harbor Springs	0	3	1	.000

BURGESS EXTENSION GROUP HELD MEETING

The first meeting of the Burgess Home Management Club was held Thursday, October 11th, at the home of Mrs. Orson Cook. A balanced lunch was served at noon.

The leader, Mrs. George Burns, presented the lesson on "The Well Dressed Woman," also a very interesting test on the subject, "What Colors Should Be Worn by Different Types of Women."

The next meeting will be held Tuesday, November 20, at the home of Mrs. Platt Webster.

FITZGERALD ILL, UNABLE TO APPEAR HERE

Senator O'Doyle of Menominee Addressed Republican Rally Friday

A large group of local citizens, gathered to hear Frank H. Fitzgerald, Republican candidate for governor, were disappointed Friday when, due to sudden illness and fatigue from strenuous campaigning, the speaker remained to rest at Atlanta for a rally at Alpena the same night.

The gubernatorial candidate was scheduled also to appear at East Jordan, Boyne City and Boyne Falls in a county-wide tour. Senator Kenneth O'Doyle of Menominee, filled Mr. Fitzgerald's appointments here and at other scheduled points.

Over one hundred, including Republican nominees for county office, attended a luncheon at Hotel Charlevoix. Itr. Frank H Wilkinson, county Republican chairman, had charge of the meetings.

Schools were closed early in order that students might hear Mr. Fitzgerald and the city band turned out for the event. The assemblage was the largest gathering at a political meeting here in recent years.

WILMA SEE HOSTESS AT DINNER PARTY FOR FERN CRANDALL

Miss Wilma See was the charming hostess at a dinner party given Tuesday evening in honor of Miss Fern Crandall, whose wedding will be an event of Saturday, October 20.

Twelve guests were present at the dinner, followed by bridge. Those attending were the Misses Bonita Higman, Doris Solomon, Angie Scott, Esther Goblstick, Clara Kehlerhouse, Virginia Solomon and Myrtle O'Neil, and Mesdames Dean Davenport, Louis Ketchman and Stewart Coleman.

FIRST PTA MEETING THURSDAY EVENING

Excellent Program Is Arranged for First Fall Gathering

The first meeting of the P. T. A. for the present school year will be held in the high school auditorium Thursday evening, October 18th, at 8 o'clock.

Several topics of especial interest at the present time will be discussed. Wm. P. Hickon will explain the tax amendments to be voted upon in the coming November election. Dr. Carleton Dean, director of the District Health Unit, will talk on the need and importance of immunization. There will also be a discussion of the school subjects called the "Frills of Education." Musical numbers will be given by the school.

It is hoped that all parents interested in the schools and the welfare of children will be present. Any community undertakes a great responsibility through the schools. Our future form of government depends upon what we do to help the schools in their big task. Show your interest in your children, their teachers, the school and community by attending.

METHODIST EPISCOPAL CHURCH

W. W. Hurd, Pastor

October 21st the pastor speaks in Boyne City, and Mrs. Hurd speaks here, from the topic, "Little Men."

The club meets this week Thursday, for a one o'clock luncheon, with Mrs. Milton Block, on State street. Annual dues, paying day. The Aid Society does not meet next week for a regular meeting, because of the annual chicken pie supper on Wednesday, October 24th.

On the following Sunday, October 28th, the pastor plans to speak from the topic, "Cleaning up Heaven. Can it be Repeated Here?"

The Common Council of the City of Charlevoix met on the above date with Mayor See presiding.

Present, Aldermen Carey, Fessenden, Hallett, Kibbe and Ranger. Absent, Ald. Webster.

Moved by Ald. Carey seconded by Ald. Ranger that the Council adjourn to Tuesday evening 7:30 October 16, 1934. Motion carried.

OAKLEY J. HAMMOND,
Deputy City Clerk.

October 16, 1934.

The Common Council of the City of Charlevoix met on the above date with Mayor See presiding. Present, Aldermen Carey, Fessenden, Hallett and Kibbe. Absent, Aldermen Ranger and Webster.

Ald. Carey offered the following resolution seconded by Ald. Hallett.

BE IT RESOLVED by the Common Council of the City of Charlevoix, State of Michigan, that on consideration of the bids submitted for the construction of the City Dock, it is found that the Sears Dock and Dredging Company of Charlevoix, Michigan, is the lowest bidder;

WHEREFORE, said dock is awarded to the Sears Dock and Dredging Company, and

BE IT FURTHER RESOLVED, that the City Attorney be instructed to draft a contract between the City of Charlevoix and the said Sears Dock and Dredging Company, in accordance with the bid submitted and required therein the furnishing of a bond in the sum of $500.00 for the faithful performance of the contract and such other terms and conditions as are usual for the protection of the City upon entering into such contracts;

AND FURTHER, that the Mayor and Clerk be authorized to enter into said contract in behalf of the City of Charlevoix.

Adopted by the following Yea and Nay votes; Yeas, Ald. Carey, Fessenden, Hallett and Kibbe. Nays, None. Absent, Ald. Ranger and Webster.

Ald. Carey offered the following Resolution seconded by Ald. Fessenden:

BE IT RESOLVED by the Common Council of the City of Charlevoix, State of Michigan, that because of the emergency facing the City in providing labor for welfare purposes and in anticipation of the need of providing projects for welfare work as well as projects under the Federal Emergency Relief Administration, that the Clerk be authorized to make application to the Public Debt Commission of the State of Michigan on behalf of the City for approval of the issuance of the City's Notes in the sum of $8,000.00 with interest at the rate of five per cent per annum, maturing October 1st, 1935, said notes to be issued in anticipation of the collection of taxes to be levied for the year 1935.

AND BE IT FURTHER RESOLVED that the City of Charlevoix pledges the levying of a tax in 1935 sufficient to retire said notes, and further pledges the use of the money collected through the levying of said tax to the sole purpose of retiring the notes hereinbefore authorized to be issued.

Adopted by the following Yea and Nay votes: Yeas, Ald. Carey, Fessenden, Hallett and Kibbe. Nays, None. Absent, Ald. Ranger and Webster.

Ald. Fessenden offered the following resolution seconded by Ald. Carey:

BE IT RESOLVED by the Common Council of the City of Charlevoix, State of Michigan, that the Mayor and Clerk be authorized to pay O. E. Wilbur and Albert Wilbur $3,000.00 upon the purchase price on the so-called O. E. Wilbur property, upon which the City proposes to construct a Sewage Disposal System.

AND FURTHER that the balance of the purchase price of $5,000.00 be paid by the execution of the City's note payable on or before 90 days from date with interest at the rate of 5 per cent per annum, which notes are to be paid in cash or in the Revenue Bonds of the Sewage Disposal System.

Adopted by the following Yea and Nay votes: Yeas, Ald. Carey, Fessenden, Hallett and Kibbe. Nays, None. Absent, Ald. Ranger and Webster.

Moved by Ald. Carey seconded by Ald. Hallett that the City Engineer be employed as superintendent of construction of the city dock on the former Wilbur property. Motion carried by the following Yea and Nay vote: Yeas, Ald. Carey, Fessenden, Hallett and Kibbe. Nays, None. Absent, Ald. Ranger and Webster.

Ald. Fessenden offered the following Resolution seconded by Ald. Carey:

BE IT RESOLVED by the Common Council of the City of Charlevoix, State of Michigan, that the Mayor and Clerk be authorized to borrow $3,000.00 for ninety (90) days at the best terms obtainable.

Adopted by the following Yea and Nay votes: Yeas, Ald. Carey, Fessenden, Hallett and Kibbe. Nays, None. Absent, Ald. Ranger and Webster.

Ald. Kibbe offered the following Resolution seconded by Ald. Hallett:

BE IT RESOLVED by the Common Council of the City of Charlevoix, State of Michigan, that on consideration of the proposed bids received for the construction of the Sewage Disposal System, it is found that all bids submitted have serious or technical irregularities; that the lowest bids exceed in amount the funds available for the purpose of defraying the costs thereof;

WHEREFORE, it is necessary that all bids be rejected, and they are so declared to be rejected.

Adopted by the following Yea and Nay votes: Yeas, Ald. Carey, Fessenden, Hallett and Kibbe. Nays, None. Absent, Ald. Ranger and Webster.

Ald. Kibbe offered the following Resolution seconded by Ald. Fessenden:

BE IT RESOLVED by the Common Council of the City of Charlevoix, State of Michigan that the engineering firm of Greeley & Hansen of Chicago, Illinois, be authorized to prepare modified plans and specifications for a Sewage Disposal System and connecting sewers to meet the requirements of the N. R. A. code in order that bids for the construction can be received from firms, persons and corporations, who submitted bid under date of October 8th, 1934, for the construction of a Sewage Disposal System in the City of Charlevoix.

Adopted by the following Yea and Nay votes: Yeas, Ald. Carey, Fessenden, Hallett and Kibbe. Nays, None. Absent, Ald. Ranger and Webster.

Ald. Fessenden offered the following Resolution seconded by Ald. Kibbe:

BE IT RESOLVED by the Common Council of the City of Charlevoix, State of Michigan, that the consulting engineers be authorized to make the necessary modifications in the plans and specifications of the Sewage Disposal System necessary to meet the requirements of the N. R. A. and the same be submitted to the Federal Emergency Administration of Public Works and the State Board of Health for approval.

Adopted by the following Yea and Nay votes: Yeas, Ald. Carey, Fessenden, Hallett and Kibbe. Nays, None. Absent, Ald. Ranger and Webster.

Ald. Carey offered the following Resolution seconded by Ald. Hallett:

BE IT RESOLVED by the Common Council of the City of Charlevoix, State of Michigan, that the Mayor and Clerk be authorized to make a supplemental application to the Federal Emergency Administration of Public Works for a further grant and loan in the sum of $15,000.00 to cover the additional cost of the construction of a Sewage Disposal System.

AND FURTHER, that the engineering firm of Greeley and Hansen, of Chicago, Illinois, be authorized to prepare such application to the Federal Emergency Administration of Public Works for a grant and loan of funds to cover the additional cost of the construction of a Sewage Disposal System, and that upon the signing of said application by the Mayor and Clerk, that said firm of Greeley & Hansen be authorized to present said application to said Federal Emergency Administration of Public Works on behalf of the City of Charlevoix.

Adopted by the following Yea and Nay votes: Yeas, Ald. Carey, Fessenden, Hallett and Kibbe. Nays, None. Absent, Ald. Ranger and Webster.

Ald. Hallett offered the following Resolution seconded by Ald. Kibbe:

BE IT RESOLVED by the Common Council of the City of Charlevoix, State of Michigan, that bids be received on the construction of the Sewage Disposal System in accordance with modified plans at 10 o'clock a. m. Eastern Standard Time on the third day of November, 1934. And that the City Clerk be and is hereby authorized and instructed to arrange with the consulting engineer to have the proper "Notice To Contractors" published for two consecutive weeks in the Charlevoix Courier and in the Michigan Contractor and Builder, a publication of state wide distribution, the publication of the advertisement being subject to approval by the State Engineer, P. W. A.

Adopted by the following Yea and Nay votes: Yeas, Ald. Carey, Fessenden, Hallett and Kibbe. Nays, None. Absent, Ald. Ranger and Webster.

Moved by Ald. Carey seconded by Ald. Kibbe that the Council adjourn. Motion carried.

OAKLEY J. HAMMOND,
Deputy City Clerk.

PRE-ELECTION RALLIES ARE OUTLINED

MEETINGS IN VARIOUS TOWNSHIPS PLANNED

Harry D. Brackett, Candidate for Auditor General, Speaker at Gym Next Monday

Supervisors and township committeemen of the Charlevoix county Republican organization and of the Fitzgerald for Governor clubs held an enthusiastic meeting at the Masonic club rooms in East Jordan, last Monday evening, to formulate plans for getting out the vote on election day and to arrange details of a series of Republican rallies in the various townships. Advertising for the two weeks preceding election was also planned. Thirty-six people were present.

According to present schedule, the next meeting will be held on Thursday, October 25th at Petoskey, where Senator Arthur H. Vandenberg will be the speaker of the evening. On Friday, October 26th, in the evening, speakers from Petoskey (names not as yet announced) will appear at Walloon Lake and at the Murray school-house, near Bay Shore, on Saturday evening, October 27th, it is expected that Prosecutor Washburne of Emmet county will be present.

On Monday, October 29th, another evening meeting will be held at the high school gymnasium at Charlevoix and Honorable Harry D. Brackett of Escanaba, candidate for the office of auditor general, will address the audience. If it is possible to secure their services, the Charlevoix city band will play before the meeting and during intermissions.

Prosecuting Attorney A. L. Fitch speaks at Norwood, Tuesday evening, October 30th, while Honorable William J. Pearson conducts a similar meeting in Chandler township. On Wednesday evening, October 31st, Prosecuting Attorney MacDougal of Otsego county will appear at Boyne Falls. On Thursday evening, November 1st, Judge Parm C. Gilbert delivers an address at East Jordan. There is a Friday evening, November 2nd, meeting at Boyne City, but the speaker has not been announced.

At the East Jordan meeting, last Monday evening, a ballot was taken among those present to express each person's opinion as to the probable vote that would be given Senator Arthur H. Vandenberg at the election on November 6th. As the audience represented people from all over the county, their combined findings should have considerable significance. The balloting ranged from 60 to 85 per cent, making an average of a trifle over 75 per cent for the estimated vote that Mr. Vandenberg should receive from this county.

CHARLEVOIX OIL CO. BUILDING ADDITION

Have Under Construction 30x38 Building Adjoining Station

Angus Fochtman and Albert Cook, owners of the Charlevoix Oil Co., have under construction an addition to their oil station at the corner of Bridge and River streets.

The addition, 30x38 feet, conforming with the contour of the station proper, will be used for storage and any other purposes which the firm may require.

Margaret DuBois Circle of the Baptist church will hold a Rummage Sale, Saturday, Oct. 27, in the Washburn building, Bridge St.—Adv. 43t1

STATE SAVINGS BANK IN FINAL STAGES OF REORGANIZATION PLAN

Archie L. Livingston, conservator of the Charlevoix State Savings Bank, and F. S. Myers of the Charlevoix Depositors' Corporation, who returned recently from a conference at the Reconstruction Finance Corporation office in Detroit, report encouraging prospects of a reasonably early opening of the bank.

Officers of the institution are now awaiting examination of the Federal Deposit Insurance Corporation, which is scheduled at an early date as the next requirement in the reorganization plan.

Just how soon the formal opening will be after the examination by the Federal Deposit Insurance Corporation and report from the Reconstruction Finance Corporation cannot be definitely stated, but it is encouraging that the bank is dealing with the final stages of the plan of reorganization.

EQUIPMENT EN ROUTE FOR NEW DOCK JOB

Sears Dock & Dredging Co. Preparing to Start Work Here

In tow of the tug Arbutus, the dredge Oscoda and the pile driver John Naylor, have left Traverse City for this port to be used by the Sears Dock & Dredging company for construction of the new city wharf. At the present time the boats are storm-bound at Omena and will continue the trip when weather conditions permit.

The equipment has been in Grand Traverse Bay most of the summer improving the Rennie Oil company dock, the Cherry Growers dock and dredging and piling the mouth of Boardman river.

Here at Charlevoix, the home port of the equipment, the firm will start soon on a new municipal dock which will be one of the finest of its kind in northern Michigan. It will be erected on the Wilbur property on Round lake harbor, acquired by the city for a sewage disposal plant site. Contract for the dock construction was awarded by the council October 16th.

KIPMEN LOSE TO BOYNE CITY "11"

DEFEATED BY 2 TO 0 SCORE SATURDAY AFTERNOON

Safety, Scored in Third Period, Provided Winning Margin—Kipmen Play Two More

Defeated by a 2 to 0 score at Boyne City last Saturday afternoon, Charlevoix's aspirations to retain the Tip of Michigan conference football title won last season went glimmering. Only the most remote possibility remains for the Kipmen to retain the championship.

A safety, providing the only points scored in a game played for the most part in a driving rain, proved the Kipmen's downfall. Boyne, badly out-played but alert for an opportunity to atone for their 19 to 0 defeat on the local gridiron October 6th, grasped the only "break" of the game and the 2-point margin was sufficient for victory.

The opportunity came in the third period when Nickerson, Charlevoix safety man, was downed near his own goal after catching a Boyne punt. Hebert's return, attempted from behind the goal, was blocked and Boyne recovered for a safety.

The Kipmen were superior to Boyne in the first two periods, keeping play well in their opponent's territory. They missed a couple opportunities to score by failing to provide the necessary punch for a touchdown.

Charlevoix has two games yet to play before winding up the season. Both are at home, the first with Harbor Springs this Saturday, October 27th, and the final with Rogers City on November 3rd. By winning both games Charlevoix can do no better than secure third place in the conference, providing East Jordan and Rogers City, the conference leaders, and Boyne City, now secure in second place, win their remaining games.

DEMOCRATS TO STAGE OLD-FASHIONED RALLY

Celebration With Torchlight Parade, Fireworks, Saturday at Boyne

A Democratic rally, with all the old-time "trimmin's" will be held Saturday evening at Boyne City, according to J. M. Foster, Charlevoix county Democratic chairman.

The celebration, which will include torchlight parade, fireworks, band music, free entertainment, etc., as well as public addresses by prominent Democratic candidates, will start at 7 o'clock.

The speakers, who will appear at the high school gymnasium, will include Cong. Prentiss M. Brown, Dr. Blood of Leelanau county, Elmer Smith of Gaylord, Democratic nominee for state senator of the 28th district, and Democratic candidates for county offices at the November general election.

Registration Notice

I will be at my office, in my home, Wednesday, October 17th, and Saturday, October 27th to register qualified voters of Charlevoix, township. Cora D. Roger, Township Clerk.—Adv. 42t2.

NURSERY SCHOOL PLAN PROGRESSES

FERA APPROVAL GIVEN TO LOCAL SCHOOLS

Entertainments to Finance Purchase of Foodstuffs Necessary Have Been Announced

Progress is being made on the Nursery School project to be put in operation at the Charlevoix public schools this fall.

According to Supt. O. P. North, the school project has been approved. Approval will allow the employment of persons qualified to carry out activities usually conducted in Nursery Schools. It is planned to have the children between the ages of two and five years come into the kindergarten room at about 11 and remain until around 3 o'clock. During the time they are in school they will be taught what is possible to teach small children. The chief value will be in the formation of ability to associate with other children. Much attention will be directed to health, cleanliness and courtesy. An opportunity will be given the children to rest.

In order to sponsor a Nursery School under the FERA it is necessary that one good meal be furnished by the school each day. The menu will include milk, bread, butter, orange or fruit juice and cod liver oil. These items must be furnished by local cooperating agencies.

In an effort to raise finances for the purchase of necessary foods, the American Legion is sponsoring a Hallowe'en dance on Wednesday, October 31st. On Friday evening of this week the PTA committee on the Nursery School will give a bridge party at the gymnasium for the same purpose. Admission to the bridge party, scheduled for 8 o'clock, will be 25c.

Later other organizations will be solicited to aid and it is hoped enough funds will be raised to carry out a good feeding project to also include several of the children now in school. The work in connection with the preparation and serving of the food will be done by workers furnished by the work division of the FERA.

Any suggestions or help which may be offered to aid the project will be greatly appreciated by the committee.

VANDENBERG SPEAKER AT PETOSKEY RALLY

Northern Michigan Republicans to Gather There Thursday Night

U. S. Senator Arthur H. Vandenberg, of Grand Rapids, will be the speaker at a Northern Michigan Republican rally to be held at 8 o'clock Thursday evening at the Petoskey high school auditorium.

Elaborate plans for the event are being made by the Emmet county Republican committee. A street parade with band music is one of the features. A dance at the gymnasium will follow the address.

WOMEN TEACHERS HAVE SEWING CLUB MEETING

The first meeting of the present school year of a sewing club organized by the women teachers of the Charlevoix public schools, was held last Wednesday evening with Mrs. Ruth Dowd as hostess. The group, organized a year ago, meet once each month for sewing and a social time.

PTA HELD INTERESTING MEETING

FIRST SESSION OF YEAR WAS LAST THURSDAY

Amendments Explained and Extensive Report on District Health Unit Given by Dr. Dean

A postponed meeting, Thursday, October 18th, opened the season's activities of the local Parent-Teacher Association. Over 50 were present, responding to notices sent out by the teachers at school.

After a few musical numbers rendered by school pupils, three important items were presented by Wm. Hicken, Dr. Carleton Dean and Supt. O. P. North.

Mr. Hicken took about twenty minutes to present the list of proposed amendments that will be given to the voters at the fall election to ratify or reject. The two items that he especially mentioned were the second and third. He explained these quite thoroughly and made it clear that if one hoped to make gas one cent cheaper by dropping one cent per gallon gas tax he probably would be disappointed. He made it clear that there was no promise to make gas cheaper, that in all probability gas would go up.

Dr. Dean of the local Health Unit gave a very interesting and beneficial paper on immunization. He gave out the cheering information that during the year 1933 there was not one case of smallpox or diphtheria in the district of this unit. But although the program of immunization can protect against smallpox, diphtheria and typhoid fever, yet one is continually meeting stiff opposition.

Mr. North presented the feeding project and the association voted to help. A ways and means committee was appointed as follows: Dr. Dean, A. L. Livingston, E. J. Edwards, Mrs. M. A. Levinson, Mrs. Gertrude Dick, Mrs. Oscar Nelson, Mrs. Clinton Cooper.

A committee will also meet the board of education in the interest of sewing in the schools. Those appointed were Mrs. Engle VanAllsburg, Mrs. E. J. Hiller and Mrs. Blake.

With only a small initiation fee it seems that more parents and interested citizens would support this one organization that has the interests of the children of this community in mind.

ODD FELLOWS TO ENTERTAIN COUNTY CLUB

Horton Bay, Boyne City and East Jordan Lodges Come Oct. 31

Round Lake Lodge No. 293, I. O. O. F. will entertain the Charlevoix County Social Club, which includes lodges of Horton Bay, Boyne City and East Jordan, at the local I. O. O. F. hall next Wednesday evening, October 31st.

Honored guests at the meeting will include Grand Master Herman Dehnke of Harrisville, and Grand Secretary Fred Rogers of Lansing. All members are urged to be present at the meeting.

Chicken Pie Dinner and Republican Rally

The Ladies' Aid Society of Norwood will serve a chicken pie dinner at 6:30 p. m. Tuesday evening, October 30. After dinner A. L. Fitch will give a red hot political address and candidates for county office are cordially invited to give short addresses. W. H. Mayne, chairman Republican Township Com.—Adv. 43t1.

SUPERVISORS CLOSE OCTOBER MEETINGS

Adopt Resolutions Condemning Gas and Weight Tax Amendments

The board of supervisors closed their annual October session last Thursday and adjourned until January, when they will convene to approve bonds of incoming county officers.

The finance committee set the budget for the next 12 months at $60,025.90, which is well within the amount to be raised by the 7.7 mills allowed the county by the tax allocation committee. The allocation will actually raise $68,098.03, providing all taxes are paid.

The committee on equalization set the county valuation at $8,843,960.00, which is a trifle lower than last year.

Resolutions condemning the amendments seeking to reduce gasoline and weight tax were adopted by the board, also a resolution to be forwarded to the state liquor control commission, requesting early closing hours for places dispensing beer and liquors in the county.

DOLLAR DAY SET FOR NOVEMBER 3

BIG FREE ENTERTAINMENT PROGRAM PLANNED

Free Movies, Street Sports, Greased Pig Among Features Outlined —Merchandise Bargains

(By F. V. Tyler)

Dollar Day this year falls on Saturday, November 3rd and will be conducted under the auspices of the Association of Commerce. The popular features of last year's affair will be repeated, with the benefit of previous experiences to insure better distribution of the sandwiches and coffee. His Highness, the greased pig, will also have a better run for his money in 1934, though he may not "choose to run again" in 1935. There will be more room for him to make his getaway and flying tackles by more than ten pursuers at once are barred.

Advertising will appear in next week's issue of the Courier. A fund is being raised among the business people to meet incidental expenses and at a meeting in the council chambers, Monday evening, committees were appointed to take charge of the various departments of the work.

Legion, has agreed to take over the entire job of the barbecue and will endeavor to run it this year to the satisfaction of every one. When the eats are passed out, chiselers, repeaters and others guilty of misconduct such as marked last year's affair—especially on the part of the youngsters—will be summarily dealt with. It is expected that the barbecue will be of the true, old-fashioned variety where the whole ox is roasted and served in the open air.

There will be street sports, under the able direction of L. P. Adams, assisted by Herman Myers. These sports will include the usual stunts, with the possible addition of the always side-splittingly funny events and there will be prizes for the winners of different events.

Further details will appear in next week's paper, along with the advertisements announcing the specials offered by the merchants. It is hoped that the weather will be favorable and that everyone will do his best to make the affair the success that it deserves to be.

DAHLQUIST ENLARGES STORE SPACE, STOCK

Business Now Occupying Full First Floor of Building

Following completion of necessary alterations, the Dahlquist 5c to $1 Store is now occupying the entire first floor of the Dahlquist building, corner Bridge street and Park avenue.

The change was the third since the concern started business here. The space recently occupied was used formerly by the Priest Studio. The increased floor space will permit expansion of lines now handled and the addition of others.

EVERYTHING SET FOR POTATO SHOW

2ND ANNUAL EXHIBIT OCT. 27 AT EAST JORDAN

Excellent Program Arranged for Banquet, Closing Feature— Prizes to Be Awarded

(By B. C. Mellencamp)

Everything is in readiness for the second annual Charlevoix county Potato and Apple Show which will be held in the high school gymnasium, East Jordan, Saturday, October 27.

The committee in charge, consisting of Howard Porter, W. G. Correll and Rev. Leitch, have worked hard to make this show a success. The county of Charlevoix, the city of East Jordan, Farmers' Co-Operative agencies, potato dealers and East Jordan merchants have been very generous with their financial help.

Charlevoix county has always won an enviable place at the Top O' Michigan Show at Gaylord and at the state show at East Lansing. Without a doubt, this year's show will exceed last year's in the number of exhibits. Farmers everywhere in the county have evidenced a keen interest in the show. You will have the opportunity of seeing all the different varieties of potatoes and apples that make up a large share of the agricultural income of this county.

H. Wheeler, extension specialist in potatoes, M. S. C., will act as judge of that department. It is expected that Howard Bedell, Bellaire, will judge the apple department. All entries must be in place by 10:00 a. m. No admission will be charged for the show.

The concluding event of the day will be the big banquet, also in the high school gymnasium beginning at 6:30 p. m. Last year 200 people enjoyed this feature. Plans are being made for a larger attendance this year. Mr. Wheeler will be the main speaker at the banquet. A very pleasing program has been arranged. Awards will be made at the close of the banquet. Cash premiums of $150 will be awarded. Ribbons will be given to all winners.

The continuance of this annual show depends on the support and patronage accorded this show. Come and see what Charlevoix county farmers are accomplishing. Enjoy the wonderful banquet followed by a well-balanced program. Read the following program and I know that

4-H CLUB MEMBERS HEAR STATE LEADER

Program for Winter Outlined at Meeting Here Friday

Projects for the winter 4-H Club program in Charlevoix county were outlined at a meeting for leaders held in connection with a banquet at Monte's Cafe Friday evening.

Representatives of every school district in the county were present to hear A. G. Kettunen, state club leader, and Miss Sylvia Wixon, assistant state leader.

Last winter Charlevoix county had 222 active club members and if present interest manifest is any criterion, the number will equal if not exceed last year's enrollment.

CREW MEMBER TANKER TREATED FOR INJURIES

The oil tanker Dolymite, en route from Muskegon to Cleveland, made an emergency stop at this port Thursday. Leonard Sewell, a crew member, who was seriously burned on his hands Thursday by contneling the ship's switchboard, was brought here for medical treatment. After given attention by Dr. F. F. McMillan, the seaman joined the ship, which left port immediately.

FRUIT-VEGETABLE DRIVE FOR HOSPITAL IS ANNOUNCED

The Charlevoix Hospital Auxiliary members have announced plans for the annual fruit and vegetable drive for the hospital.

The campaign, usually carried out by house-to-house canvass, this year will be conducted through the various church organizations who will handle the solicitation. The drive will continue for about three weeks.

Those not members of any church organization wishing to make donations may inform Mrs. Laura Courier. The gifts will be called for.

John Smith, 84, veteran local shoemaker, who at one time acted as drummer for President Abraham Lincoln, was one of the chief attractions other than interest manifest in the speakers. The rally was the second sponsored by the county Republican Club during the past two weeks.

GENEROUS PRIZES AT GAYLORD SHOW

Special Contests Arranged for Entertainment of Patrons

Special contests in addition to the spicy program have been arranged for the entertainment of the patrons of the Top O' Michigan Potato, Apple, and Seed Show to be held at Gaylord on November 6th, 7th, and 8th. These contests which are educational and instructive in nature will provide fun and diversion to everyone attending the show. Competition in these contests will be stimulated by the practical appeal of cash prizes to the winners.

Men who "know their potatoes" will be given a chance to receive cash benefit payments for their knowledge by competing for the $15 which is offered to the four highest ranking men in the adult potato judging contest. The apple naming contest offers another $15 to the five people who know their apple varieties.

The women will be given a chance to demonstrate their skill in the fine art of apple pie baking by competing for the $10 offered for the ten best apple pies entered in the apple pie contest.

Special prizes are to be offered in the Junior Department. Smith-Hughes students will have an opportunity to judge both apples and potatoes. Members of 4-H clubs will be given a chance to try their judging ability in potatoes.

A special award will be given by the Top O' Michigan Potato Association to the outstanding potato club member in the show area. This award will be a trip to the National Boys' and Girls' Club Congress at Chicago. Club members interested in competing for this award should get in touch with their county agricultural agent at once.

AT THE MOVIES

Bernie Plays Leading Role in First Film

Ben Bernie, of musical fame, featured in Paramount's "Shoot the Works," coming next Saturday and Sunday to the Palace Theater, revealed that his own career has not been unlike the part he plays in this, his first motion picture.

In the film Bernie plays a band leader. He starts with a five-piece orchestra in the small-time, and finishes with a seventeen-piece band in a swanky cabaret.

"Shoot the Works" was directed by Wesley Ruggles from an original play written by Ben Hecht and Gene Fowler, and features Jack Oakie, Dorothy Dell and Arline Judge.

"I Sell Anything"—Hilarious Comedy

"I Sell Anything," First National's new comedy drama, with one of the most amusing and unique plots, complemented by a heart-throbbing romance, opens at the Palace Theater next Wednesday and Thursday with an all star cast.

Pat O'Brien, Ann Dvorak and Claire Dodd, who head the cast, form the triangle. Ann, appearing as a waif of the streets, falls desperately in love with Pat, a fast talking, fast action auctioneer who can sell anything, including his own heart, until he bumps into a clever adventuress in the person of Miss Dodd, who proceeds to take him on a sleigh ride.

DAIRY FEED COSTS RISE TEN CENTS IN AUGUST

Feed costs per 100 pounds of milk produced went up 10.5 cents during August, according to reports from 615 dairy herds in southern Michigan. The feed cost of milk for August was 68.4 cents and for July 57.8 cents, an increase of 18 per cent.

These figures are based on the prevailing feed prices in localities where herds are under test for efficient milk production in dairy herd improvement associations.

RESOLUTION BY BOARD OF SUPERVISORS

At a meeting of the Board of Supervisors for the County of Charlevoix, held on Wednesday, October 17th, 1934, a Resolution expressing disapproval of the proposed constitutional amendment providing for a reduction of the State Gas Tax was unanimously passed. The facts briefly set forth in said resolution are as follows:

To advocate the proposed reduction of the Gas Tax at this time is poor judgment and bad faith. Our County has a bonded indebtedness for road construction which the property tax cannot pay. The bonds were issued for the purpose of obtaining funds for the construction of what are now, trunk line highways, which otherwise would have been built by the State. Any measure, such as this amendment, to reduce the means of retiring such bonds are premature and ill-advised. The regulation of the gas tax rate is not a proper constitutional function, it is a tax which should be raised or lowered as the needs demand and should not be controlled by a rigid and strict constitutional provision, but should be controlled only by Legislative action. Each Representative from this Legislative District, officials and the public at large are requested and urged to disapprove of this amendment.

Submitted by the Ways and Means Committee.

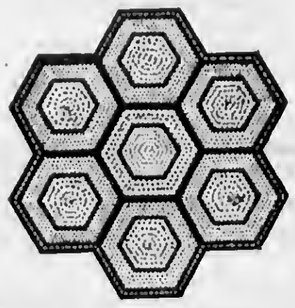
Crocheted Rugs in Quilt Designs

By GRANDMOTHER CLARK



During the past years patchwork quilts have been the big article of interest to the home needleworker and now we have the crocheted rug in quilt designs. The beauty of these rugs can only be appreciated after you have seen one of them. Crocheted rugs have the best wearing properties.

The rug above illustrated is the "Flower Garden" rug, which you will recognize as having received its name from the "Flower Garden" quilt. Size of rug is 30 inches and made from 2 lbs. of rag strips. Each block is made separately and when the seven are finished they are slip stitched together. The colors to be used depends upon the material you may have on hand or can dye to colors desired. Use contrasting colors for the different rows and the brighter the colors the more sunshine the rug brings to the home.

Our book No. 21 on crocheted rag rugs in quilt designs contains 20 rugs shown in colors with instructions. Write our rug Dept. and send 15c for this book. Address Home Craft Co., Dept. C, 12th & St. Louis Ave., St. Louis, Mo.

Why the Sudden Change to Liquid Laxatives?

Doctors have always recognized the value of the laxative whose dose can be measured, and whose action can be thus regulated to suit individual need.

The public, too, is fast returning to the use of liquid laxatives. People have learned that a properly prepared liquid laxative brings a more natural movement without any discomfort at the time or after.

The dose of a liquid laxative can be varied to suit the needs of the individual. The action can thus be regulated. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The wrong cathartic may often do more harm than good.

Dr. Caldwell's Syrup Pepsin is a prescription, and is perfectly *safe*. Its laxative action is based on senna—a *natural* laxative. The bowels will not become dependent on this form of help. Dr. Caldwell's Syrup Pepsin is obtainable at all druggists.

Stamps Show Public Parks

Post Office Department Is Picturing the Beauties to Be Found in the National Playgrounds.

Washington.—Scenes from two more of the nation's playgrounds found places on United States postage stamps in September when the Post Office department released the four and eight-cent issues of its national park series. On September 18, the eight-cent Zion park (Utah) stamp joined its fellows already released for their twofold purpose of carrying mail and proclaiming the beauties of America's out-of-doors. The gray-green stamp had in its center a reproduction of "The Great White Throne"—towering templelike rock formation found in the park.

A week later, a four-cent sticker of autumn brown color, representing Mesa Verde National park of Colorado, took its place in the upper right-hand corner of part of the nation's mail. On its face stands, in a central design, the camera's story of "Cliff Palace," an awesome ruin of the now vanished cliff dwellers.

Yellowstone Best Known National Park.

"If your knowledge of geography is good," says a bulletin from the Washington headquarters of the National Geographical society, "you probably will know, in which states eight of the ten parks are located; but only if your knowledge is much better than average will you be able correctly to place them all.

"Yellowstone has been familiar to Americans since it became the country's first national park in 1872. Yet every year thousands of visitors turn homeward from its gates unaware that its area includes parts of Montana and Idaho as well as Wyoming.

"Inquiries as to the situations of the Grand canyon (Arizona), Mount Rainier (Washington) and Yosemite (California) can be answered by most persons with even a casual knowledge of the geography of America; but neither the embryo 427,000-acre Great Smoky Mountains National park of Tennessee and North Carolina, nor Glacier National park in Montana are so well known.

"Between the longitudes of Acadia National park along the rocky coast of Maine, and Crater Lake National park in southwestern Oregon, lie not only the parks that have been selected for the stamp series, but ten others, twenty in all within the continental borders of the United States. Two more, the Hawaii National park and Mount McKinley National park of Alaska, complete the list.

"Postage stamp geography was not born with the issue of this series. The Colosseum of Rome is depicted on an Italian stamp; a picture of the Arc de Triomphe is the central feature of a French issue; and several nations have placed miniature maps on the faces of their stamps.

"In 1900, Nicaragua pictured her famous volcanic peak, Mount Momotombo, on a postage stamp. Some commentators on the history of engineering efforts to construct a canal between the Atlantic and Pacific oceans, assert that the Momotombo stamp, calling attention to the presence of volcanoes in Nicaragua, turned the scales in favor of the Panama route."

NATURALLY SKINNY FOLKS

Add 5 lbs in 1 Week ... or No Cost..!

New Natural Mineral Concentrate From the Sea—RICH IN FOOD IODINE Building Up Thousands of Nervous, Skinny, Rundown Folks Where All Else Fails.

There is hope now for "Naturally Skinny" folks who can't seem to add an ounce no matter what they eat. A new way has been found to add flattering pounds of good, solid flesh and fill out those ugly, scrawny hollows even on men and women who have been underweight for years. 5 lbs. in 1 week guaranteed—15 to 20 lbs. in a few weeks not uncommon.

This new discovery, called Kelp-a-Malt, now available in handy tablets, offers practically all the vitally essential food minerals in highly concentrated form. These minerals, so necessary to the digestion of fats and starches—the weight making elements in your daily diet—include a rich supply of precious FOOD IODINE.

Kelp-a-Malt's FOOD IODINE nourishes the internal glands which control assimilation, the process of converting digested food into firm, solid flesh. 6 Kelp-a-Malt tablets contain more FOOD IODINE than 436 lbs. of spinach, 1600 lbs. of beef, 1389 lbs. of lettuce.

Try Kelp-a-Malt for a single week and notice the difference—how much better you sleep, how your appetite improves, how ordinary stomach distress vanishes. Watch flat chests and skinny limbs fill out and flattering extra pounds appear. Kelp-a-Malt is prescribed and used by physicians. Fine for children, too. Remember the name, Kelp-a-Malt, the original kelp and malt tablets. Nothing like them, so do not accept imitations. Try Kelp-a-Malt. If you don't gain at least 5 lbs. in 1 week, the trial is free. 100 jumbo size tablets, 4 to 5 times the size of ordinary tablets, cost but little. Sold at all good drug stores. MACKINAW FISHING OVER UNTIL NOV. 14

Closing Restriction Saturday Brings Close to Successful Season

The Traverse City Record-Eagle says:

Mackinaw trout fishing came to an end Friday until November 14, bringing to a close the most successful deep sea season in history.

It is possible that the successful season is due to the fact that many more people went after the big lake trout this year than in any previous summer. The great sport of this type of angling has become well publicized and each summer more fishermen flock to the Grand Traverse Bay to try their luck with the heavy tackle and heavy fish.

Traverse City, Northport Point and Elk Rapids are the three centers for Mackinaw fishermen and it is prophecied that the present fleets of fishing boats will be unable to accommodate the lake trout fishermen who will come here next season. Among the things which have called attention to this new type of sport is the series of pictures of big catches which have been broadcast through the Chamber of Commerce. Special effort has been made during all conventions to introduce as many delegates as possible to this sort of fishing and the result has been that many of these novices have returned a second and third time during the summer to try their luck.

The season, closed for spawning by Conservation department order, will be opened November 15.

BEET CONTRACTS GUARANTEE PARITY

Terms Explained by AAA Officials at Meeting in East Lansing

The AAA 1934-35 sugar beet program for Michigan, providing $1,600,000 and a parity guarantee on their 1935 crop, was launched at the Michigan State College as extension service workers, county agents, growers, and company representatives met with AAA Sugar Section officials from Washington to complete the sign-up campaign plans. The sugar program may be extended to 1936.

The benefit contract which beet growers will be asked to sign provides for adjustment payments to growers of at least $1.25 a ton on their actual production of this year, or their "estimated production," whichever is higher. The estimated production is computed by multiplying the 1934 planted acreage by average yield. The first installment of $1 a ton is to be paid as soon as contracts are signed and accepted by the Secretary of Agriculture, with the remaining installment to be paid next summer.

"FULL MOON"—A thrilling story of magic and mystery, and a secret millions of years old—begins in The American Weekly, the magazine distributed with next Sunday's Chicago Herald and Examiner.

HUGE BALLOTS ARE NECESSARY AGAIN

Large ballots will be handed the voters on November 6 as ten political parties have made proper certification to Secretary of State Frank D. Fitzgerald and have been given places on the ballot.

The parties and the order in which they will be listed are: Democratic, Republican, Socialist, Communist, Commonwealth, Socialist Labor, American, People's Progressive, Farmer-Labor, and National.

In 12 cities and one county where voting machines are used, many changes will be necessary in order to accommodate the large ticket. In several cities, according to information given the department, it may be necessary to return to paper ballots for the coming election.

In addition to the candidate ballot, voters also will have a state constitutional amendment which contains six proposals, and their local ballots.

"FULL MOON"—A story of magic and mystery. Opening chapters of a vivid, absorbing novel. A rousing, robust romance by Talbot Mundy with a secret millions of years old. In The American Weekly with Sunday's Detroit Times.

DISTRICT HEALTH UNIT BULLETIN

Educating the Pre-Schooler

The school gets the child after he has been trained in the home. Much of his earliest education—often the most valuable and enduring part—is that which is unconsciously acquired at home, not by precept or teaching, but by imitation. From the beginning of life the child is copying the sights and sounds about him. In this way he learns to speak his first words, and from that time on through his entire childhood he unconsciously imitates the language, manners and emotions of the older people about him. He repeats the tricks of speech and manner which they constantly employ.

If a child lives among people whose language is correct and agreeable, whose manners are pleasant, who shows always a thoughtful consideration for others, and whose behavior is gentle and kindly, the child unconsciously acquires similar ways. On the other hand, if a child grows up among people who are scolding, faultfinding, complaining or quarrelsome, something of such tendencies will almost surely persist, however much he may learn to abhor these qualities in later life. Such lessons in conduct and manners are probably never fully eradicated.

Good manners are an invaluable asset to every person. Their root and foundation lie in unselfishness and consideration for the rights of others. Only the constant daily exercise of these qualities will give the children that charm of manner which is a delight in persons of every age.

A normal child is full of curiosity about every thing in the world, and through his questions the parent has boundless opportunity to lay the foundations of a broad and practical education if the child's questions, even in babyhood, are met with respect and answered with truth. However trivial or stupid the question may seem to the busy or impatient adult, they are all-important to the child, and if he cannot count on sympathy and attention from his own family he will have missed something which can never be made up to him. It is not necessary that all questions should be answered at once, nor fully. If the mother is busy or tired, she can ask the child to come to her at another time when she has time to talk to him. In this, as in every other aspect of child care, according to the new vision of parenthood in which the parents are the companions and friends of their children, it is impossible to treat the child's questions with rudeness, ridicule or untruthfulness. A child is quick to detect deceit. When dishonest or fanciful replies are frequently given him, there may grow up in his mind a disrespect for the opinions of his parents and suspicion of their motives which will be fatal to the establishment of complete harmony at a later stage.

Probably one of the best pamphlets on the training of the preschool child is a booklet published by the Children's Bureau of the U. S. Department of Labor entitled, "Are You Training Your Child to Be Happy?" Miss A. Winnifred Golley, your Charlevoix county nurse, has a few of these copies on hand and will be glad to distribute them to you upon your request.

BIRD-GRAHAM MARRIAGE EVENT OF OCT. 13 AT ADRIAN

The following article, taken from the Adrian Daily Telegram of October 15, is of interest to local residents:

A wedding of charming simplicity was that of Miss Elennor June Graham, daughter of Mr. and Mrs. Grover C. Graham, and DeVere Bird, son of Mr. and Mrs. Frank F. Bird of Charlevoix, which took place Saturday evening at 6:30 o'clock in the Graham home on Crystal Spring avenue. Before an improvised altar of ferns and lilies, lighted with white enthedral candles arranged in the living room, the ceremony was performed by the Rev. R. S. Chalmers, pastor of the First Baptist church.

The bride and bridegroom were attended by the bride's sister and her husband, Mr. and Mrs. Leslie Harris and the ceremony was witnessed by the immediate families.

The bride was attractive in a blue velvet gown of floor length and simply fashioned. She carried a bouquet of white roses. Mrs. Harris' gown was of black velvet and her arm bouquet was Talisman roses.

After the ceremony a dinner was served to the bridal party and guests at a table centered with a bride's cake and white tapers in crystal candelabra.

Sunday Mr. and Mrs. Bird left for their home in Alpena where he is district clerk for the Prudential Insurance Company. Both Mr. and Mrs. Bird are graduates of the Parsons Business College at Kalamazoo.

Among those attending the wedding from out of the city were Mr. and Mrs. Frank Bird, Kenneth and Douglas Bird of Charlevoix, parents and brothers of the bridegroom and Mrs. Gunsalus of Detroit, grandmother of the bridegroom.

COUNTIES MUST AID TO GET STATE HELP

Lansing Will Deny Relief to Communities Not Aiding

The Emergency Welfare Relief Commission is preparing for a new peak in the November relief load and predicted at least 225,000 families will be receiving aid. This will represent an increase of 25,000 over former estimates. A year ago the case load stood at 202,000 families.

The administration will deny state aid to any county which fails by November 1 to increase its local contributions, or at least arrives at an understanding with state officials as to the share of the relief load it can bear.

Holders of Home Owners' Loan Corp. Bonds Urged to Act

The Home Owners' Loan Corporation is giving the holders of their 4 per cent bonds, which are guaranteed only as to interest by the United States Government, the right to exchange for the Home Owners' Loan Corporation 3 per cent bonds, which are guaranteed both as to principal and interest by the United States Government.

This right to exchange expires October 27, 1934, which is next Saturday and the Charlevoix County State Bank received a letter from the Federal Home Loan Bank Board at Washington urging that wide publicity be given the time of expiration.

The bonds should be presented to one's local bank for forwarding to the Federal Reserve Bank of the district which will effect the exchange.

RELIGIOUS COUNCIL HELD ANNUAL MEET

Mrs. Harker Kirby Chosen President for Ensuing Year

The Charlevoix county Sunday schools met at East Jordan in the Methodist church last Thursday.

The program was one of the best if not the best of the past few years. A feature of the program that has been gaining interest is the Young People's rally which consists of a cooperative supper and program. The ladies of the entertaining church said about 150 were served and over 100 were young people.

Rev. Pellowe of Petoskey gave the address in the evening.

The officers for the coming year are Mrs. Harker Kirby, president; J. A. Kotesky, vice-president; Rev. James Leitch, secretary, and John Exstrom, treasurer.

Maple Long Preferred by Furniture Craftsmen

"Through the centuries furniture craftsmen have appreciated maple and their loving hands have wrought such miracles of beautiful maple furniture that their historic consequence dwells with us today in our homes, where they enjoy enduring welcome," says the Educational Institute of the Furniture World.

"Particularly in the original American colonies, settled by our Pilgrim and Puritan forefathers, was this wood specially favored. Here in this humble beginning maple played a large part in the origin of the great colonial period in furniture design. During the Seventeenth century the Swedish influence in maple furniture design began to make itself felt.

"With crude tools, but great genius, skillful hands carved out of maple great furniture masterpieces that are today priceless treasures. Their splendid rugged character, fine and simple design, serve to emphasize the cheerful warmth of this historic wood.

"Present day designers hold maple in high reverence and respect the traditions of its background. And factories, too, busily engaged in the mass reproduction of maple furniture pieces, are faithful to the centuries-old legend of maple."

TRUE DETECTIVE STORY by Vance Wynn ©Public Ledger

The Man Who Hit the Bull's Eye

MOONSHINING flourished long before the prohibition amendment was made to the Constitution of the United States.

Twenty years ago it was carried on in the mountains of West Virginia on a scale that made the government authorities gasp for breath.

The general impression of the moonshiner is that of a poor white man who is willing to take big chances in order to make a little illegal money.

This is true of some sections, but at the time mentioned there were bold and unscrupulous distillers who carried it on as a business in a big way and who made fortunes by the operation.

Wayne Gooch was one of these men.

He was called "The King of the Moonshiners," and there is no reason to doubt that he was entitled to the distinction.

The scandals grew to such proportions that the commissioner of internal revenue at Washington determined it would have to be stopped at all hazards.

The man he assigned to the job was a fearless agent named Tom Kennedy.

He had several advantages. One was that he knew the mountains of West Virginia.

Another was that he was a crack shot.

These things were important, because the moonshiners placed small value on human life.

Most of them boasted that they would not be taken alive, and by the same token they would kill anyone who attempted to interfere with their business.

Kennedy determined to confraut the lion in his den.

He made up his mind to go to the Gooch stamping grounds in the guise of a government forester.

Merely to be known as a person who was connected with the government in any capacity was taking a big chance, but Kennedy was a man who had been taking chances all his life, and one additional chance meant little to him.

He had two capable assistants with him, and he went direct to the cabin where the king of the moonshiners made his headquarters.

He introduced himself by his real name, and he wanted to know what the authorities could do to help the cultivation of trees in that part of the country. Gooch, who was a big, bluff fellow, received him cordially enough, even though he kept his weather eye on this curious stranger.

He said the soil in that part of West Virginia was not particularly adapted to forestry, but he cheerfully offered to escort Kennedy about the country.

It was just what the revenue agent wanted.

He kept his eyes and his ears open, and at the end of 24 hours was forced to confess that there was not even the sign of a still in operation.

During that time the king entertained the agent in a royal fashion.

One day they had a shooting match, with a big target set up near the cabin. Kennedy participated, and to the great delight and admiration of the king the visitor hit the bull's eye nine times out of ten.

Gooch said that was the best record ever made in that locality.

He parted with his guest with apparent reluctance.

Kennedy had played his cards so well that he was not even suspected by the king of the moonshiners.

They parted one night with expressions of mutual esteem. Kennedy had no misconception of his man.

He knew that if his true character had become known he would have been shot down like a dog.

This thought keyed him up to the game he was about to play.

He left the cabin and the vicinity, but he had proof that distilling was going on on a great scale.

He discovered that the stuff was sent to the depot in a truck at about midnight each night.

So he lay in wait with his two men and when the team arrived at a certain part of the road he appeared in the highway with a loaded and primed revolver.

The driver and his assistant, taken unawares, surrendered.

In the meantime, Kennedy sent for re-enforcements and before another day had gone by the king of the moonshiners and his men had been taken into custody.

Counterfeit Wampum

Counterfeit wampum came into being with the white man's arrival in America when a family of European immigrants of Paskack, N. J., with the aid of steel drills and lathes, became proficient in making wampum from the cheap, plentiful shells of the common Busycon conch of the Gulf coast. This counterfeit Indian money circulated as far west as the Mississippi valley.

Hawaii's Temperature

Hawaii, lying in mid-ocean just within the tropics, has a warm climate throughout the year, though high temperatures are prohibited by the northeast trade winds, which blow for about nine months of the year. The mean annual temperature is 71.5 degrees. The extremes are 51 degrees and 89 degrees.

Velvet Goes Everywhere This Fall

By CHERIE NICHOLAS

YOU are going stepping along boulevard and avenue in crisp golden sunlit autumn days? A round of calls to make about town? Perhaps afternoon tea with friends at the club? Wear tailored velvet.

You have a swanky new plaid woolen daytime dress? Top it with a swagger coat and matching beret of velvet in black or a gorgeous hue.

You have a modish suit or ensemble of the loose woven nubby tweed the likes of which everybody is wanting this season? Give it a final touch of distinction with accessories of rich colored velvet—bag, belt, scarf and an Alpine hat in forest or pine green or the popular rust color.

You have accepted an invitation to dine and dance tonight? Wear regal velvet with stunning jewelry or glittering metal accents. You simply must own one of the scintillating silver mesh bag and triangle scarf sets such as the lovely young girl in the foreground of the illustration is so proudly wearing with her handsome velvet gown.

Of course the fall and winter wardrobe of the properly velvet-minded will include at least one de luxe velvet coat or evening wrap. The new three-quarter loose-from-the-shoulder coats of white velvet either self-scarfed or trimmed with brown fur are the latest.

Nor does the glory of velvet depart when the lights are out, for even when the woman of fashion retires she is supposed to dream sweet dreams in velvet. When we explain that the velvet which makes these perfectly lovely nightrobes is of the kind that actually washes as easily and as satisfactorily as your favorite muslins, batistes and pajamas, velvet for "nighties" becomes a practical as well as a fascinating theme.

As to the models illustrated, the spotlight is being thrown on just such practical about-town tailored velvet suits as the one pictured to the left in the picture. It is of black transparent velvet and has the new narrow straight skirt. The jacket could not be simpler and neater if it tried. The velvet-covered buttons are very chic. A white and silver blouse with scarf collar is worn with this tailleur. The velvet hat is a modish tricorne. Two rhinestone clips hold the face veil in place.

Centered above in this quartette of velvet fashions is a dinner suit. Velvet ensembles of this type are extremely voguish for semi-formal occasion. They carry that luxury look which is so indicative of dress-up modes this season. Observe, the skirt is floor length, which at once distinguishes it from the practical daytime velvet suit. The blouse top is of gold-striped velvet. It is new this fall to wear a formal hat with this type of costume. Chenille-dotted net and velvet fashions this stylish toque with its cunning veil.

The young woman wearing the four-strand pearl necklace with matching bracelet understands the art of dressing for she demonstrates that nothing so sets handsome jewelry off to perfection as black velvet fashioned as simply as possible. It has a high cowl neck in front, cut very low at the back. With this gown, to give it variation, comes a pair of long detachable white lace sleeves. Real jade and carnelian plaques clasp both necklace and bracelet.

Big corded balloon sleeves and a high neck slit down the back are the distinguishing features of the gown worn by the fortunate young woman possessing the silver-mesh bag and scarf.

SCARFS ARE BRAZEN WITH BRIGHT COLORS

Scarfs for winter are gay, almost brazen, with plaids and stripes in strong colors. Colors preferred are bright red, rust, wine, all varieties of green and some navy. Black and white still is popular. Materials include sheer woolens, cashmere, novelty materials, spun silk, velvet, rough heavy crepe and taffeta.

Shapes include the square and triangle, the ascot and a new favorite called the jockey, which is narrow and long enough to twist around the neck several times.

Dainty pastels in woolens, such as pale yellows and orange, are offered for tweed suits.

Small Checks and Large Make Costume Different

Those indispensable three-piece suits for sports or for spectating are frequently in checks this season. But the current mode being what it is in the way of a yen for something different, the checks are sometimes dissimilar in the same suit. One variation is wrought by the use of small checks in the jacket and skirt, and large checks of the same color and pattern in the long topcoat.

Tailored Suits Are Being Projected for Fall Wear

A stunning new tailored suit model is in a rich green gabardine. The double-breasted jacket has two large patch pockets which feature inverted pleats. A bi-swing back with a stitched down belt is an interesting fashion note. A white linen mannish blouse is worn with the suit. Brown accessories and a silver fox scarf add a note of distinctive chic to the costume.

Smart Parisiana Now Are Going About Bareheaded

Parisians, the smartly-dressed feminine ones, are going about bareheaded, according to stylist Marjorie Howard, who recently returned from France.

If no hat at all is too much of a fashion leap to take at once, the next best thing, says Miss Howard, is a hat with a high crown.

"The things that are definitely out, finished, are flowers and the shallow hat. We shall see no more of either for a bit," she declared.

American buyers grabbed all the high-crowned hats they could get their hands on at the recent Paris midsummer openings in a reaction against the "potato chip" kind of headgear that's been worn all summer, she says.

In a season that is not lacking in the spectacular in clothes the split skirt is the most spectacular fashion of all.

"Day dresses are so close-fitting they need the slits. Evening dresses are slit to the knee or even above," said Miss Howard.

Fullness at Back Shown in Many Interpretations

Evening frocks with gathered fullness at the back of skirts show a stronger appreciation of the Augustus bernard "bustle back" silhouette launched last season. At that time it registered as one of the most radical departures in silhouettes, partly because it introduced such massed fullness of the back. Up to that moment the skirts with excessively gifted hips were in command; another reason for its arousing interest was that it introduced a new movement in the use of gathered fullness of fabric worked on the straight, while all current effort has been concentrated on fullness through bias cuts.

Scraps of Humor

ANY WIFE

"How old is your husband?"

"There are times when he is just a big baby, times when he is a man in his prime, and when I want to drag him out in the evening and he doesn't feel like going, he is an octogenarian all crippled up with rheumatism."—Cincinnati Enquirer.

Hard to Fill

Aunt 'Liza's mistress was talking to her one morning when suddenly she discovered a little pickaninny standing shyly behind his mother's skirts. "Is this your little boy, Aunt 'Liza?" she asked.

"Yes, miss, dat's Prescriptian."

"Goodness, what a funny name auntie, for a child! How in the world did you happen to call him that?"

"Ah simply calls him dat becuz ah has sech hahd wuk getting him filled."

Grief for Him

"Hasn't this been a grand winter!" exclaimed the cheerful one.

"Grind me eye!" snarled the gloomy one.

"How do you get that way?" demanded the cheerful one.

"My business is selling skid chains and anti-freeze stuff for radiators," he growled.—Cincinnati Enquirer.

INTERESTING

"You seem absorbed."

"Yes. I am watching that professor over there; he has just eaten his favor and is now trying to put his refreshments through his buttonhole."

She Now Says "Introduce"

"Mr. Smith, let me present Miss Jones," said the hostess.

"Thanks," he smiled, "she looks like a gift any man would be proud to receive, but I'm afraid my wife would object to my taking her home."—Cincinnati Enquirer.

Machinery

"What do you intend to do about the political machine?"

"I meant to use it to make hay while the sun shines," answered Senator Sorghum. "Only I'm afraid some of the boys out home have taken a fancy to the idea of a vacuum cleaner instead of a lawn mower."

Just Reporting

"Yes, dear," she said to her friend over tea, "My husband, I assure you, is the only man who has ever kissed me."

"Really, darling? Er—but tell me are you bragging or complaining?"—Register (Des Moines).

Voice of Safety

"Why don't you write your reminiscences?"

"I don't dare," answered Senator Sorghum. "Such an attempt would bring me into immediate conflict with too many men who are trying to forget the past."

"Moider" in His Eye

"You don't seem to have a thought for anything but driving a car. Why don't you put your wife before your car sometimes?"

"I'm scared of being found out."—Border Cities Star.

Extensive Repairs

Mrs. Lafferty—Ten stitches did the doctor have to put in me old man after the fight last night.

Mrs. O'Hara—Ten? Was that all? Shure, when the doctor seen me poor husband carried in this morning he says: "Has any man a sewing machine?"—Boston Transcript.

Ouch!

Tommy—There's a girl at our school, mamma, whom they call "Postscript." Do you know why?

Mamma—No, dear.

Tommy—Because her name is Adeline Moore.—Clipped.

A Hint

Manager—Pat, you wear a very old-fashioned coat in the office.

Clerk—Yes, sir, it is a bit out of date. I bought it the last time you gave me a rise.—From Ireland's Own.

Little Girl Allure

PATTERN 9086

This little frock is so cute it would add to the charm of a Shirley Temple—nothing more could be said for a frock! It is the essence of little-girl allure with its dropped-shoulder yoke, its cunning little collar and big buttons running down to that devastating point. The sleeves are short and puffy—exactly as they should be, and the box pleats are there so that its wearer can run fast as well as look pretty. It has well-fitting bloomers, as do all right-minded frocks for little girls in this year of grace!

Pattern 9086 may be ordered only in sizes 2, 4, 6, 8 and 10. Size 4 requires 2½ yards 36-inch fabric and ¾ yard contrasting.

Send FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, the STYLE NUMBER and SIZE.

Send your order to The Sewing Circle Pattern Department, 232 West 18th Street, New York, N. Y.

COMFORTING THOUGHT

Barber—Hair getting thin, sir.

Obese Party — Thank goodness! That anti-fat is beginning to work.

In a Tough Spot

The taxi came to a halt. The fare descended a trifle uncertainly and proceeded to search his pockets slowly.

"Sorry, old man," he said, finally, "but I haven't a cent!"

Seeing that the driver was not taking it too well, he added:

"That's the position, old man, and you know you can't get blood out of a stone."

"No," agreed the driver, rolling up his sleeves, "but what makes you think you're a stone?"—Province (Vancouver).

Spectacular

"I suppose you regard all your display of eloquence as beneficial to the cause?"

"Well," answered Senator Sorghum, "to be candid, that eloquence isn't so much for the cause as for the effect."

Wrathful

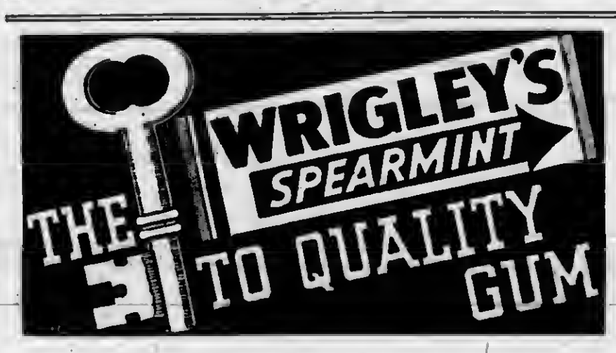
"Was your dad mad when he bit into that piece of April fool candy with soap in it?"

"Was he mad! He was foaming at the mouth!"

It Made Her Anxious

Richleigh—I'm getting a new siren for my car.

Tall Beauty—Oh, Alfie! Does that mean all is over between us?—Bystander.



Ja Wohl! In Frankenmuth they brew a beer everybody likes!

YOU'VE had a lot of different kinds of beer. So you know this:

It isn't easy to make a beer that everybody likes.

* * *

The Old Frankenmuth Gold Medal brewers produced a beer that made everybody say, *"That's the real thing!"* And then—what happened?

There wasn't enough Old Frankenmuth Gold Medal Beer to go around!

So—

Please don't blame your dealer if he was unable to give you Old Frankenmuth Gold Medal Beer. It is possible that he—like hundreds of dealers all over Michigan—has ordered it and couldn't get it.

* * *

Night and day now, the Old Frankenmuth Brewers are working to catch up to the demand. The brewery has been enlarged.

Your dealer will be supplied with Old Frankenmuth Gold Medal—the beer that everybody likes!

CHRISTIAN SCIENCE CHURCH

205 Clinton Street

Sunday morning service, 10:45.

First Wednesday of month, 7:45 p. m.

Reading room Tuesdays and Saturdays, 3 to 5 p. m.

We cordially invite the public to our services and reading room.

"Probation after Death" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, October 28.

Among the Bible citations is this passage (Mark 9:2,4): "And after six days Jesus taketh with him Peter, and James, and John, and leadeth them up into an high mountain apart by themselves: and he was transfigured before them . . . And there appeared unto them Elias with Moses: and they were talking with Jesus."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 325): "He who has the true idea of good loses all sense of evil, and by reason of this is being ushered into the undying realities of Spirit. Such a one abideth in life,—life obtained not of the body incapable of supporting life, but of Truth, unfolding its own immortal idea."

LEGAL NOTICES

City Registration Notice
For General November Election
Nov. 6th, 1934

To the qualified electors of the City of Charlevoix, State of Michigan:

Notice is hereby given that in conformity with the "Michigan Election Law," I, the undersigned City Clerk will, upon any day except Sunday and a legal holiday, the day of any regular or special election or primary election receive for registration the name of any legal voter in said City not already registered who may apply to me personally for such registration. Provided however, that I can receive no names for registration during the time intervening between the second Saturday before any regular, special, or official primary election and the day of such election.

The last day for General Registration does not apply to persons who vote under the Absent Voters' Law. (See Registration by Affidavit.)

Notice is hereby given that I will be at City Clerk's Office Wednesday, October 17th, 1934, the twentieth day preceding said election, as provided by Part II, Chapter III, Michigan Election Law, from 8 o'clock a. m. until 8 o'clock p. m. on said day for the purpose of Reviewing the Registration and Registering such of the qualified electors in said City as shall properly apply therefor.

Notice is hereby further given to the qualified electors of this city that I, the undersigned Clerk of said city, will register qualified electors who may apply at my office on any business day in the year up to and including Saturday, October 27th, 1934, last day for General Registration by personal application for said election, from 8 o'clock a. m. to 8 o'clock p. m.

The name of no person but an actual resident of the precinct at the time of registration, and entitled under the constitution, if remaining such resident, to vote at the next election shall be entered in the registration book.

Provision in Case of Removal to Another Precinct—Any registered and qualified voter who has removed from one election precinct of the city to another election precinct of the city shall have the right, on any day previous to election day, on application to the City Clerk, to have his or her name transferred from the registration book of the precinct from which he or she has removed to the registration book of the precinct in which he or she then resides. Such elector shall have the right to have such transfer made on election day, or primary election day, by obtaining from the board of inspectors of election of the precinct from which he or she has removed a certificate of transfer, and presenting the said certificate to the Board of election inspectors of the precinct in which he or she then resides.

Dated, October 9th, 1934.

RAY S. HAMILTON,
42t2 City Clerk.

Sewage Disposal Works
Notice to Contractors

Sealed proposals endorsed "Proposals for Sewage Disposal Works," will be received by the City Clerk at the City Hall, Charlevoix, Michigan, until 10:00 a. m., Eastern Standard Time, on the third (3rd) day of November, 1934, and will then be publicly opened and read.

The work for which proposals are invited will be paid for in cash and includes the following divisions:

DIVISION A—SEWERS. This division includes approximately 4,600 feet of sewers 8 inches to 21 inches. The right is reserved to omit certain sewers.

DIVISION B—SEWAGE TREATMENT PLANT. This division comprises the settling tanks, sludge digestion tank, sludge drying beds, a building housing the settling tanks, sludge pumping station, garage and offices, two small pumping stations and appurtenances. Various equipment and appurtenances are also included.

DIVISION C—SLUDGE COLLECTORS. This division includes the furnishing and erection complete in place of equipment for the collection of sludge in the rectangular settling tanks.

DIVISION D — DIGESTION TANK EQUIPMENT. This division includes the furnishing and erection, complete in place, of the mechanical equipment for the 28-foot inside diameter circular sludge digestion tank.

DIVISION E—RIVER CROSSING. This division includes two 8-inch cast iron pipe lines across the river and inlet and outlet structures. The pipes are to be laid below required navigation limits.

MAJOR EQUIPMENT. Proposals for sewage pumps, sludge pumps and chlorine equipment will be received for furnishing these equipment items to the general contractor of Division B.

The work covered by the above divisions is the project on which bids were previously received and rejected, excepting that a number of modifications have been made in the plans and specifications.

All proposals must be on forms and in accord with "Instructions to Bidders" furnished by the City of Charlevoix.

Instructions to Bidders, Form of Proposal, Contract, Specifications and Plans may be obtained from the City Clerk, Charlevoix, Michigan, or from the Engineers, Greeley and Hansen, 6 North Michigan Avenue, Chicago, Illinois, upon deposit of Twenty-five Dollars ($25.00), which sum so deposited will be refunded to bona fide bidders if said Plans, Specifications, etc., are returned in good condition within fifteen (15) days after the opening of bids. In cases where no bona fide bid is made, one-half (½) of the above deposit will be refunded upon such return of Plans, Specifications, etc.

Each proposal must contain the full name of every person or company interested in the same and shall be accompanied by a certified check made payable to the City Clerk of the City of Charlevoix, Michigan, a bid bond, or a cash deposit equivalent to five per cent (5%) of the total bid price, this sum to be a guarantee that if a proposal is accepted a contract will be entered into and its performance properly secured. The bid bond must be in a form satisfactory to the City Attorney and the State Engineer, P. W. A.

This is a non-Federal P. W. A. project to be financed by funds from a loan and grant to be obtained from the Federal Emergency Administration of Public Works, and all rules and regulations of the Federal Administration of Public Works shall be complied with.

Attention is called to the fact that not less than the minimum wage rates prescribed by the Federal Emergency Administration of Public Works must be paid on this project.

Each proposal must be accompanied by a properly signed certificate of Compliance with N. R. A. (Form 61, P. W. A.)

The City of Charlevoix reserves the right to reject any or all bids or not waive any informalities in the bids received, to accept any bid for any division or combination of divisions, and to omit certain construction items as may be considered most favorable to the city.

Acceptance or rejection of the proposals will be made as soon as practicable after the bids are received and passed on by the State Engineer, P. W. A.

Dated this sixteenth (16th) day of October, 1934.

FARMERS VOTE FOR REDUCTION PROGRAM

National Poll Favors Continuance of Corn-Hog Plans

Farmers have voted two-to-one to continue federal corn-hog production control in 1935, and the AAA announced their wishes would be granted.

An adjustment plan to replace that expiring this year is being prepared and will be offered, AAA officials said, "before the Christmas holidays."

The new program, it was indicated, will allow corn plantings of about 90,000,000 to 96,000,000 acres, or 10,000,000 to 15,000,000 acres less than the average annual during the two years, 1932-33. The tentative planting limit closely approximates this year's acreage.

TWO HELD FOR QUESTIONING IN SHOOTING

Petoskey Men Implicated in Fracas Near Ironton Tuesday Night

Art Connolly and Fred Herrick both of Petoskey, are being held by Sheriff Floyd Ikens for questioning regarding a shooting near Ironton at about 8 o'clock Tuesday night.

A third man, Al "Slim" Gerhart, owner of the Manitou Club, located near the Emmet county airport on the Petoskey-Harbor Springs road, is being sought as an alleged participant in the fracas.

Connolly, questioned by officers Wednesday morning, stated the trio were apprehended by Jim Wilson, Eveline township farmer, as they were about to help themselves to some shrubbery off the Charlevoix County Nursery property about 1½ miles from Ironton. The men had two cars, a Ford tudor and a Ford truck. When Wilson appeared they all got into the tudor to escape. Wilson jumped onto the running-board and tusseled with Herrick, the driver. As he clung to the moving car, it is claimed Gerhart got out onto the other side and started shooting. Four shots were fired, two into the air, one through the top and another through the windshield. Gerhart, it is claimed, finally jumped to the ground and ran. Wilson held Connolly and Herrick, and called officers.

It has been ascertained that Gerhart was in Charlevoix at about 2:20 Wednesday morning and was taken to Petoskey by Miles Olmstead. Since then no trace has been found of him.

Up to the present time no charges have been placed against any of the trio. Connolly was employed at Gerhart's club last summer and little if any information is available regarding Herrick.

FROST LAYS HEAVY HAND OVER REGION

Temperature Dropped Below Freeze in Last Thursday Night

Frost laid a heavy hand on the region early Friday morning and temperatures of 20 degrees above zero were reported from many sections of the county.

This is by far the heaviest freeze of the fall and gardens which have been living on borrowed time were forced to bow their heads.

Automobiles which stood out all night were steaming around with frozen radiators and little ponds all over the region were covered with ice that morning.

DRIVERS' LICENSES ARE TO BE SMALLER

Issuance of motor vehicle drivers' licenses will be speeded up under a new system which has been installed by the Department of State.

In place of hand-typed licenses which have been issued in the past, the new licenses will be prepared by a photostatic process which will reproduce the actual handwriting of the applicant. The new licenses are smaller and more convenient to carry.

SEEK TO LICENSE ALL FISHING GREAT LAKES

Northern Michigan Sportsman's Association Backs Law Change

Legislation requiring the purchase of a fishing license by all who fish with hook and line in the Great Lakes and connecting waters under Michigan's jurisdiction was urged by the Northern Michigan's Sportsmen's association at its September meeting.

Under the present rod-license law, residents and non-residents are exempt from buying a license to fish with hook and line in Great Lakes waters, the Fisheries Division, Department of Conservation, reports.

As a result, fishing in these waters, including the Sault rapids of St. Mary's river, St. Cluir and Detroit rivers, the waters of Les Cheneaux islands of northern Lake Huron, the bays and reefs of Isle Royale and from the docks and breakwaters of any of the great Lakes under Michigan's jurisdiction is legal without a license.

In most cases where hook and line fishing is popular in Great Lakes waters, commercial fishing is not permitted and a measure of protection becomes necessary through the law enforcement branch of the Department of Conservation. The cost of this protection, however, must be born by the fishermen who buy licenses to fish in the inland waters of the state.

If the Great Lakes waters contributed their proportionate share of license revenue, the cost of law enforcement would be more equitably assessed in the belief of the Department.

CRANDALL-FRIEND MARRIAGE SATURDAY

Popular Local Girl Became Bride of Harbor Springs Young Man

At a pretty wedding solemnized at eight o'clock last Saturday morning, Miss Fern D. Crandall, youngest daughter of Mr. and Mrs. Grant Crandall, was united in marriage to Leo Friend of Harbor Springs.

The marriage ceremony, pronounced at St. Francis church, Petoskey, by Rev. Fr. Donolus, was followed by low mass. Only immediate relatives and a few friends of the couple were present. The attendants were Mrs. Wesley Smith of Highland Park, sister of the bride, and Paul Friend, brother of the groom.

The bride is a graduate of Charlevoix high school, class of '30. Mr. Friend graduated from Harbor Springs high school and Ferris Institute. The couple left shortly after the ceremony for a short stay in Chicago and will be at home after October 27th in Petoskey.

* NAVY DAY PROCLAMATION *
* * * * * * * * * * *

Whereas, Saturday, October 27th, has been designated as Nuvy Day, the anniversary of the establishment of the American Navy by the Continental Congress in 1775; and,

Whereas, This day will be observed by the citizens of this Country, as a tribute to the past and present services, which the Navy of the United States has rendered to the Nation during one hundred and fifty-eight years, and to the men who have responded in times of peril to the call to arms, and who stand ready at all times to defend with their lives, if necessary, the ideals and institutions of this great country,

Therefore, be it resolved, that I, L. S. See, Mayor of Charlevoix, by virtue of the authority vested in me by the law, do designate Saturday, October 27, 1934, as "Navy Day," and urge that our appreciation of the loyal services of the Nuvy be shown by a display of the National Colors.

TWO HUGE BALLOTS PREPARED FOR VOTERS

National, State and County Officers, Several Amendments Placed Before Michigan Voters

Voters on November 6th will receive two huge ballots, approximately the size of a newspaper page, when they enter the polls to vote at the general election.

The ballots will contain the names of the candidates of ten political parties which have entered the state campaign. These are the democratic, republican, socialist, communist, commonwealth, socialist-labor, people's progressive and national parties.

The campaigns of all, and more especially the republican and democratic parties, have been the most strenuous in recent years. In addition, the voter is confronted with six amendments—all of the utmost importance.

As far as party issues are concerned, Charlevoix citizens will confine their interest to the republican and democratic candidates. If the trend of the primary election in September may be taken as any indication, Charlevoix county will cast a republican majority for all candidates, although many voters who make the choice of the man rather than the party will split their ticket for deserving candidates on the democratic slate.

Following are the candidates of the three parties appearing in order on the ballot—the democratic, republican and socialist:

State

For governor—Dem., Arthur J. Lacy; Rep., Frank D. Fitzgerald; Soc., Arthur E. Larsen.

For lieut.-governor—Dem., Albo E. Stebbins; Rep., Thomas Read; Soc., Roy Matthews.

For secretary of state—Dem., Guy M. Wilson; Rep., Orville E. Atwood; Soc., Arthur E. Kent.

For attorney general—Dem., Patrick H. O'Brien, Rep., Harry S. Toy; Soc., William Kemnitz.

For state treasurer—Dem., Theodore I. Fry; Rep., Gilbert H. Isbister; Soc., Cecil Bailey.

For auditor general—Dem., John K. Stack, Jr.; Rep., Harry D. Brackett; Soc., Denfay B. Hovey, Sr.

WILL PETITION REPEAL IF AMENDMENTS PASS

Strenuous Opposition to Proposals 2 and 3 Is Manifested

"If the voters of Michigan are misled into approving amendments 2 and 3 on November 6th, petitions will be in circulation immediately for repeal amendments according to the Constitutional League of Michigan.

"The demand will also be made for a special election. Further, efforts of this and several other organizations will continue to place facts before the voters until a full realization is brought out as to the mistake made," says the League.

NORTHERN MICHIGAN UNITED MEETS NOV. 12

The annual election meeting of the Northern Michigan United, an organization composed of executives of various northern Michigan civic groups, will be held Monday evening, November 12, at Cheboygan. The Northern Michigan United, headed by R. W. Dicken of Boyne City, as president, was formed to promote northern Michigan resort interests.

NURSERY SCHOOL OPENS THURSDAY

PLANS COMPLETED AND BIG ENROLLMENT EXPECTED

P. T. A. Card Party Last Week Provided Funds for Opening—Other Affairs Planned

The Nursery School to be operated in connection with the Charlevoix public schools, will open at 11 o'clock Thursday, according to Supt. O. P. North, who has been actively engaged for the past couple weeks arranging preliminary details of the project.

The teachers assigned to the school are Mrs. Lucille Ikens and Mrs. Frances VanHouten. A nurse will be assigned within a short time, it is anticipated, and other teachers will be added providing the enrollment warrants.

Sufficient finances for the purchase of foods required for the children was assured from the receipts of the P. T. A. sponsored bridge party given last week at the gymnasium. Other entertainments to augment the funds will be held from time to time in future weeks. One hundred bushels of potatoes are already at hand and the meat supply will be obtained prior to the opening Thursday.

Mr. North states he had every reason to believe that the maximum enrollment of 40 children will be reached within a short time after the school opens. Preparing of the food and cleaning will be cared for by a group of women assigned to this work.

The children will be taken into the kindergarten room from 11 in the morning until around 3 o'clock in the afternoon. They will be taught to associate with other children and particular emphasis will be placed on the teaching of health, cleanliness and courtesy. An opportunity will be given the children to rest.

For the time being, at least, plans to open adult classes are being held up. This project, however, is expected to be started soon.

NORWOOD YOUTH HELD FOR THEFT SENTENCE

Alton Kerr Confessed Entering Geo. Dennis Farm Home

Alton Kerr, 17-year-old Norwood township youth, is being held in jail here for arraignment following his confession to the theft of $38 from the George Dennis farm home in Charlevoix township.

Kerr, taken in custody by Deputy Sheriff Joe Moore, also admitted taking sums of $25 and $7 from the Dennis home on previous occasions during the summer.

SPIRIT OF HALLOWE'EN IS OBSERVED IN SCHOOL

The spirit of Hallowe'en was observed with appropriate exercises in lower grades of Charlevoix public schools Wednesday afternoon. Pre-seasonal activities of older youth indicate the usual pranks for Wednesday night and a casual warning is issued to citizens to get under cover removable objects which otherwise will likely be strewn about the city's thoroughfares.

ANNUAL DOLLAR DAY PROGRAM SATURDAY

CHARLEVOIX MERCHANTS UNITE IN SPONSORING ENTERTAINMENT FEATURES, SPECIAL BARGAINS

SPORTS EVENTS START AT 1 O'CLOCK

Street Races, Barbecue, Free Movies, Football Game, Greased Pig and Other Events Arranged for Entertainment of Visitors During the Entire Afternoon

Charlevoix's annual Fall Dollar Day will be held Saturday, November 3rd. Postponement last week because of the potato and apple show at East Jordan gave the committees arranging the event more time to work out an excellent entertainment program, and as a result a full afternoon of pleasure awaits those planning to attend.

Last Fall Charlevoix's Dollar Day was built around an NRA celebration. It was the only event of its kind in Northern Michigan and a successful one. This year's program follows that of last year closely with a few added features.

The program, outlined by a committee of local business men cooperating with the Association of Commerce, starts at 1 o'clock with street sports. The events, in charge of Herman Meyers and Charles Hamlin will include 100-yard dash for boys over 15 years, 50-yard dash for boys under 15 years, sack race, wheelbarrow race, three-legged race and potato race.

Free barbecue sandwiches and hot coffee will be served starting at 1:30 opposite the Northern Auto Company garage on Clinton. The barbecuing, to be handled by the American Legion, will be done in true barbecue style. The ox will be prepared in a regular roasting pit.

Mrs. Elizabeth Moon has very kindly contributed a free show at the Palace Theater to the afternoon's program. The show will open at 3 o'clock and will consist of a line program of short subjects.

Another big event of the afternoon, scheduled at 2:30 o'clock, is a football game at south side athletic field between Charlevoix and Rogers City, the Tip of Michigan class C conference leaders. The contest is the last one on Charlevoix's schedule and promises to be the outstanding home game of the season. Between halves of the football game, probably at 3:15, a greased pig will be released in the football enclosure.

Other events planned, but still in the making, are a tug-of-war between farmers of Eveline and Marion townships, pitted against a picked team from Norwood and Hayes townships; a bicycle race for married women, and a pie-eating contest. Entries for the bicycle race may be made with Charles Hamlin.

The Charlevoix Association of Commerce and committees arranging the event wish to acknowledge the splendid cooperation received. Individual merchants have donated generously to finance the program. The local Kroger store has donated coffee and the A. & P. Tea Co. the bread for the barbecue, the American Legion the services of its members to conduct the barbecue.

This week's issue of The Courier, 12-pages, contains a tempting array of Dollar Day bargains offered by local merchants. In addition to entertainment to be enjoyed, a profitable day may be spent in Charlevoix taking advantage of the special merchandising inducements.

FUNERAL FRIDAY FOR FORMER LOCAL MAN

Clyde A. Coulter, Who Died in New York, Was Buried Here

Funeral services were conducted at 10:30 o'clock Friday morning at the Congregational church for Clyde A. Coulter, former local resident, who died earlier this week in New York City.

The remains were brought here for burial and Rev. G. R. Parker officiated at the service. Several former class-mates of the deceased acted as pall bearers.

Mr. Coulter, son of the late Alvah Coulter, a former local resident, is survived by one brother, Attorney Clare C. Coulter of Detroit.

TEDDY MILLER TO BE GIVEN SANITY TESTS

Taken to Traverse City for Observation at State Hospital

Teddy Miller, who is awaiting sentence for robbery armed when circuit court reconvenes here November 1st, will be taken to the state hospital at Traverse City for observation, according to Sheriff Floyd W. Ikens, who stated he would probably take the youth to Traverse, Tuesday.

At the regular October term of circuit court which adjourned last Wednesday afternoon, Miller confessed to the Kuhler & Friend oil station robbery October 2nd, and in a previous confession to officers admitted the Charlevoix State Savings bank robbery of September 15th. In the latter job Miller held three employes of the bank at the point of a gun for nearly two hours, obtained $1,314 and lost the loot in a hurried get-away.

CHARLEVOIX-ANTRIM ROBBERIES CLEARED

Stanley Wyman, Arrested Saturday, Admitted Several Recent Jobs

The arrest Saturday of Stanley Wyman, who gave his residence as Connecticut, cleared up a number of robberies committed within recent weeks in Charlevoix and Antrim counties.

Wyman, arrested by Deputy Fred Denise near Boyne Falls, where he intended boarding a freight train for the south, admitted stealing guns, blankets, phonograph and other articles from the Glenn S. See cottage near Norwood; entering the Klooster & Co. store at Atwood, and the theft of two outboard motors, a boat and other contraband at Elk Rapids.

Much of the stolen property was recovered from various hiding places along the Lake Michigan shore south of this city, where Wyman had been camping out while dodging officers for several weeks. He was turned over to Antrim county officers and is now in jail at Bellaire awaiting trial.

OPEN SEWAGE DISPOSAL BIDS SAT.

OFFICIALS HOPE TO AWARD CONTRACT SOON

Preliminary Work of Tearing Down Old Buildings, Dock Construction, Under Way

Bids on the construction of Charlevoix's proposed sewage disposal system will be opened at the council chamber here Saturday, November 3rd, and city officials have expressed the hope that contract can be let and work started within a short time.

Previous bids, received October 8th, were rejected because of irregularities as well as the fact that all were in excess of the PWA grant allowed to finance the project. Delay occasioned by legal technicalities brought about a rise in material prices due to the NRA code and bidders without exception exceeded the grant allowed for the construction.

Bids to be received Saturday will be upon revised plans. At a recent meeting the city council instructed the engineers to alter plans in order to bring the cost as closely as possible within the PWA grant. At the same time the city applied to the PWA for supplementary allotment of $15,000 to be used in case of necessity. They are still awaiting word regarding the request.

In the meantime preliminary work has been started. The wrecking of present buildings on the Wilbur site and dock construction has been accepted by the FERA as a work project and a crew of men are now engaged tearing down the old Wilbur warehouse. Contract for pulling old piling and constructing the new dock has been awarded the Sears Dock & Dredging Co.

"ITCHY FINGERS" RESULT MANY ARRESTS

100 Taken for Game Law Violations During Month of September

Itching fingers caused the arrest and conviction of more than 100 Michigan residents during September for being too hasty in opening the small-game and deer hunting seasons.

The monthly report of the Field Administration Division, Department of Conservation, shows that of 211 arrests, 106 were for violations of hunting laws. In most of the cases, the reports show, the individual had failed to wait until opening of the hunting season.

Sixty-one were arrested for possession of guns in closed game territory without a permit, 11 for hunting and killing deer, 10 for killing, attempting to kill or possession of pheasants, seven for illegal training of dogs, six for possession of venison and the other on a variety of charges.

CHARLEVOIX WON FROM HARBOR "11"

SCORED DECISIVE 20 TO 2 VICTORY SATURDAY

Close Schedule Here This Week Against League-Leading Rogers City Aggregation

A concentrated drive in the first half produced three touchdowns and gave Charlevoix a decisive 20 to 2 victory over Harbor Springs here Saturday afternoon.

The Kipmen showed championship form under adverse conditions, battling through intermittent snow and rain flurries to redeem themselves after two defeats in conference competition.

The ball-toting of Foster and Shapton was outstanding throughout the game and the line gave the backfield splendid support.

Charlevoix employed straight football to score the first touchdown in the early minutes of the game. With Shapton carrying the brunt of the attack, the Kipmen plowed from midfield to Harbor's goal. Shapton scored, but a line play for extra point failed.

The second marker came soon after the first. Following an exchange of punts, Foster, reeling off one of his many long runs, started around left end, reversed the field, and squirmed his way through Harbor's secondary defense for a 45-yard dash across the goal. Hebert's placement was good for extra point and Charlevoix led 13 to 0 before the first quarter was over.

The Kipmen scored again in the second period. Emrey recovered a blocked Harbor punt on their 15-yard strip, but Charlevoix lost the ball after a line play and kick from placement failed. Brower's punt went outside on his 20-yard line and on the next play Foster skirted right end for the third score. Shapton cracked the line for extra point and Charlevoix led 20 to 0.

Harbor threatened but once, and then in the second period. A pass, Cassidy to Brower, and several line plays, advanced the ball to Charlevoix's 9-yard strip, where the Kipmen held for downs. On the second play, Foster, attempting to run out from punt formation, was thrown behind his goal, giving Harbor a safety. The score at the close of the half stood 20 to 2 and neither team tallied again.

Rogers City Here Saturday

Charlevoix will close its football schedule here Saturday afternoon. They will meet the conference-leading Rogers City aggregation, undefeated so far this season. Charlevoix's strength will be fully tested by this game and a victory for the Kipmen will knock the visitors out of the championship running, provided East Jordan is able to keep its record clean by winning from Boyne.

COLD WEATHER HIKES NEEDS FOR WELFARE

Local Offices Receiving More Requests for Assistance

As the mercury goes down the demand for welfare relief increases and recent days have brought a sharp upward trend in requests for fuel and clothing to the local ERA offices.

Many families were able to get along with what summer clothing they had left and without fuel during the fair weather of middle October, but when snow came and the mercury hovers around the freezing mark each night these folks have had to have help.

Every request which came from a family which could qualify for welfare aid has been cared for, it is reported.

DESERVES DEFEAT

If the newspapers of the state have any influence on their readers the proposed gas and weight tax amendments will be defeated so badly that the Detroit Automobile Club that is flooding the mail every day with literature sponsoring it, will go back and sit down for a long while at least.

Some years ago this same automobile club was clamoring for better roads, and appropriations to build them. Now that the city streets and the main roads between all the principal cities have been paved the Detroit Automobile Club forgets about the remaining country and township roads. Therefore it wants the gasoline tax reduced to two cents per gallon, by constitutional amendment, mind you and at the same time relieve gasoline from all other taxes. Isn't it quite possible the gasoline companies are actually paying for the tons of publicity matter that is going through the mails pleading for the adoption of an amendment that has no place in the constitution, no matter how desirable it might be to reduce the tax on gasoline? That is a problem the legislators can and should deal with. Let's leave it to them.

Vote "NO" on the gas and weight tax amendments.—Augusta Beacon.

THEY THINK FOR THEMSELVES

Contrary to some previous reports, the Michigan voters are evidently putting on their thinking caps and making their own decisions with reference to the six constitutional amendments which will be on the ballot November 6th. This year especially Mr. John W. Citizen, and Mrs. Citizen are taking the campaign propaganda with a plenty of allowances for political prejudice and self-interest.

While the two automobile tax amendments, and that affecting state taxation, particularly the income tax, seem fairly well understood by the majority who do not live in the big cities, there has been some mental confusion as to the non-partisan judiciary amendment, and also that providing county home rule. In most cases the questions or objections with regard to county home rule have been based on lack of information about the measure itself.

Recently several boards of supervisors have been visited by unofficial representatives of the committee seeking more freedom in our Michigan county system, and have both listened and learned some things not clear before. To some county officers, including township supervisors, it was a surprise to read the amendment itself and hear it fairly explained.

On several occasions in the upper part of the state, according to report, previous objections were withdrawn when it was shown that the amendment does nothing to abolish township or school districts, has no effect on county consolidations—already allowed in the constitution—and has no bearing whatever on the issue of representation in the state legislature.

If the voice of the state press, weekly and daily, is any indication, this amendment may get the necessary approval of a majority of the voters, Nov. 6th.

ADDING THE ROAD DEBT TO REAL ESTATE

At present Michigan is raising something like $15,741,210, we are told, through its 3 cent gasoline tax. Part of this money is going to road upkeep, part to new roads, the rest to pay indebtedness. A constitutional amendment is to be voted on this fall to prevent the state from raising more than 2 cents.

Propaganda is flooding the state on both sides of the question and each side seems to have some fairly good arguments. After looking over reams of this propaganda we are of the opinion that the amendment will accomplish nothing for the taxpayer and has no place in the constitution.

In the first place, we have no assurance that the gasoline tax has any effect on the price of gasoline. At least we have been informed that in states with a tax of six or seven cents the price is lower per gallon than in Michigan. When this state is allowed to produce the gasoline it uses, perhaps the price will be lower. Certainly the 1-cent cut would make little difference. At any rate, the legislature now has full power to make this reduction when and if the people want it. It is not a necessary part of the constitution.

The most serious threat lies in the fact that under the 15-cent mill tax limitation amendment indebtedness may be added to the tax on real and personal property, regardless of whether it exceeds the 15-mill sum. What does this mean? This year there will be $13,259,802 of state highway indebtedness paid from the gasoline tax revenues. If the tax is cut down, this sum can be shifted to real estate. We might as well say it will be shifted to real estate, for that is just what will happen.

Today, tourist cars and trucks, which play their part in wearing out the roads, will pay for them in their just tax proportion. A cut in the tax, if it means what we believe it will, helps these people along with all other automobile drivers, but shifts the load to real property.

Michigan has many fine highways and there is plenty of room for argument as to whether more should be built, especially in the southern part of the state, but in northern and upper Michigan there is plenty of room for improvement. Are we going to bind ourselves in such a way as to dig down in our pockets as real estate owners to pay for roads built prior to 1932 in order to keep the present highway system from going to pieces? Are we satisfied to stop the program now that the richer portion of the state has been well taken care of? These questions we must answer in the November election.

The great mistake that Michigan people made was to ever permit any assessment against real estate for road building. The people who use the roads should pay for them. The political sleight of hand merely shifts the burden, does not lift it. Keep that fact in mind.—The Midland Republican.

OUT OF HIDING

Jangling voices on the tax question have well-nigh got the voter jittered. One designing clique gets him on the fifteen-mill amendment, and another is on his trail with the gas and weight tax limitation amendment. Of such he had better beware. But there is one amendment proposal coming up this fall that deserves his attention and that is the one giving the legislature power to change the uniform tax-rule. This will enable it to fix a lower rate on personal property, for example, than on realty. This ought to operate to bring a lot of personal property out of hiding and upon the tax rolls. The amendment was not devised by a scheming clique, but by a nonpartisan organization, having no ulterior motive but the release of some of the hard-pressed taxpayer's common burdens; and its consideration by the voters lies in the domain of good politics. Utica Sentinel.

CHEAP STUFF

Leaders of political parties cheapen and weaken their positions by lodging charges of rascality against opposing forces. Most persons do not belong to any political party with an idea of ever running for office or of asking for any kind of party favor. They study party politics and then decide where their support shall be cast. The fact than an occasional rascal turns up to annoy and hinder any great political group does not warrant general charges of rascality. These charges offend the masses who want nothing but fairness and justice.

PROFIT MARGINS

We have heard so much for so many years about large profits made by exceptional corporations that as a people we have come to assume that business can successfully bear any burdens of taxation, higher wages, shorter hours, or regulated prices that may be placed upon it. Such assumptions are erroneous, and they are dangerous for they are unconsciously accepted as the real basis for much current discussion of proposed economic changes. According to a government survey the real facts disclosed reveal that in reality the margin of most business income above the necessary costs of operation is both narrow and sensitive.

Giant King of Grizzlies Dies an Inglorious Death

Joe, king of the grizzlies of the Flathead river country, recently died an inglorious death. This great animal, weighing almost 1,000 pounds, had been monarch of this region for years and native guides had always boasted that Joe was the largest living grizzly that roamed the woods. He was boss of his domain and sent other grizzlies and black bears scurrying to cover if they challenged his right to rule. Recently rangers in the Flathead district came upon the body of Joe in a little clearing of Salmon park. He had fallen victim to poisoned bait left for coyotes.

THIS CHANGE gives Children a Chance

Perhaps you have tried nearly every sort of way to keep a child's bowels in proper condition, and failed.

Yet, almost any child who has been convalescing in a hospital, will usually come out with bowels working like a well-regulated watch.

The average mother gives any laxative the family may be using, while doctors give children a *liquid* laxative of suitable ingredients, suitable strength, and in suitable amount.

Make the change now to pure, California Syrup of Figs instead of harsh medicines, you risk no more violence to your child's appetite, digestion, and general physical condition. You'll have a safer, more satisfactory result, too. Those little upsets and complaints just disappear and the child is soon normal again. Try it!

THE "LIQUID TEST." First: select a liquid laxative of the proper strength for children. Second: give the dose suited to the child's age. Third: reduce the dose, if repeated, until the bowels are moving without any help at all.

An ideal laxative for this purpose is the pure California Syrup of Figs, but be sure the word "California" is on the bottle.

New Cloth Coats of Distinction

By CHERIE NICHOLAS

THAT which intrigues most about the new coats is that the styling given them is so refreshingly versatile and unusual, so entirely departing from the rank-and-file. For the tall, the short, the slender and the stout, there is a coat suited to every silhouette. Loose hanging-from-the-shoulder lines are as favored as are the svelte form-clinging effects.

As to sports coats, generally speaking, they are divided into two types, the swagger sort, many belted across the front with loose flowing back, and the ulster. In regard to the swagger coat the newer versions are often seven-eighths long, whereas last season the three quarter length prevailed. As to the new ulsters (mostly of strikingly handsome tweed or herring bone woolens) a distinguishing note is the big directoire revers which carry a most convincing style message. It is as smart for your cloth ulster to be fur-trimmed as fur-lined and vice versa. Big fur revers are very good style, as also are the new fur lib effects. Then, too, the separate fur capelet which is such a popular idea looks well with the cloth ulster. The newest separate fur neckpieces can be worn as a scarf or the ends brought around to the back and fastened, thus affording, to all appearance, an elaborate trim to the coat.

Big news in regard to fur-trimmed coats is "the coat with a muff." All the leading coat departments are making a feature of this very practical and attractive idea.

To strike the new note in coats, your fur collar must bend or flare well away from the throat.—Which is a very practical comfortable thing for it to do, especially when one happens to be in a warm room. Another outstanding trend is the fur collar which ripples about the neckline. Summing up the situation fur collars are inclined to be rather fanciful and ornate on the new coats.

A leading fashion is the gilet front which is fashioned of fur. You see the idea illustrated in the coat to the left in the picture. It is possible to buy these detachable fur gilets or vestees separately. However, in this instance, the fur front is made part of the coat. The model pictured is especially noteworthy in that the astrakhan which forms the gilet and the cuffs is dyed green to match the cloth it trims. Dyed fur is a favorite theme among those who are seeking, as most of us are, for new thrills.

Quilted effects are also creating quite a little excitement, the idea being played up in all sorts of interesting ways. Looking at the coat centered in the group, one visions refreshingly new happenings in the way of cloth treatments. This handsome model is a French import, a Bruyere creation. Here the designer gives us a detachable shoulder cape made of the same gray cloth as the coat. The handsome wool coating has been quilted in a most decorative manner.

In the model to the right of heavy black woolen we see something new for afternoon coats as launched by Schiaparelli. This noted French designer calls this tripledther arrangement the parachute cape. It flares out very much in the back. The coachman-cape idea similar to this is frequently exploited on the new coat program.

FIND ADVENTURE IN PROFUSION IN WILDS OF PAPUA

Exciting tales of adventure in the wilds of Papua are told in the annual report of Sir Hubert Murray, the lieutenant-governor of that district, to the Australian government.

He tells of the discovery of pigmy tribes of amazing strength, whose language is like the chattering of parrots; of strange burial customs among the pigmy cannibals; of dangerous ascents of wild mountain peaks where savages live; of a casual murderer who killed the wrong man; and of humorous incidents in native courts over which he has presided.

One story he tells shows that the kindness of white men is not always appreciated by the natives. After an attack by natives upon the camp of a patrol officer had been driven off, a native baby and a wounded warrior were found in the bush. The baby was cared for and the warrior restored to health. Then both were returned to their tribe. Soon afterwards a second attack was made by the same tribe on the patrol officer's camp. After this had been repelled the officer counted 153 arrows embedded in his boxes, tents and the surrounding ground.

These natives, described by one patrol officer as "necessarily cannibals" because of the rugged nature of their territory, will eat anything, but consider frogs, prawns and beetles as particular delicacies. They bury their dead in a kind of cage six feet from the ground, and have a method of embalming unknown to white men.

Two miners, who made what Sir Hubert described in his report as "a really extraordinary journey" from New Guinea into Papua, reported having seen natives with "golden woolly hair." The lieutenant-governor stated that this was the first he had heard of such natives, although there are said to be golden-haired natives in New Britain.

FORMAL NIGHTGOWNS MADE WITH TRAINS

For several months Paris has been raiding news about the new formal nightgowns, but no one seems to have taken them seriously in America until very recently. Now it's gotten to the point where young things announce that their splendid new evening dresses are really nightgowns and were bought as such.

There are some of these, however, which are unmistakably nightgowns and can't possibly be worn to the theater, but are still so formally lovely they will take your breath away. Many of them come with trains and still more with jackets or long coats of their own. Lace is being used on them in profusion.

Knitted Evening Mittens Will Keep Hands Warm

Mittens for evening wear with formal gowns are predicted for this winter, especially if the thermometer drops zeroward. The mittens are designed to go over fine suede or glace gloves and may be either hand-knitted or of simulated hand-knitted wool. They may be richly colored like Czech peasant gloves or cream or yellow mercerized string. Knitted silk or cotton velvet in bright colors may be used for these mittens.

Double Fox

A new and novel way to wear your double fox is to have it snapped onto your plain coat. Adjust it close around the throat and let the rest snap on the edge of the coat and extend to the hem. It is thus removable and can be worn as a scarf as well.

Aquarium Bracelets

Aquarium bracelets are being worn by fashionable London women. They are made of thick glass with what appear to be tiny fish "swimming" in them.

A JACKET-BLOUSE

By CHERIE NICHOLAS

The newest thing in the way of a blouse is a jacket-blouse. Every sort of material fashions the jacket blouse from silver and gold metal cloth to gingham. The jacket-blouse of bright velveteen is especially smart. So also are those fashioned of plaid woolen or taffeta. A new note in a plaid taffeta blouse and beret ensemble is struck in the model pictured. The vogue for metal-shot fabrics is emphasized in the gold and green printed taffeta which fashions this smartly up-to-date blouse and beret two-some. The wide attached scarf and gauntlet effect at the wrist are quite new. A parting word—be sure your blouse is of the modish jacket sort, whatever the material which fashions it may be—that point is up to you.

INFLATION

Inflation is the most insidious fraud among all the economic fallacies, and it has been ever since the invention of money. The simple idea that makes men favor it is that since we all use money to buy things we want, we should be able to buy more of them if the government would increase the amount of money in circulation. The fact is that in order to have more goods we must produce more, and then we shall have more money. Increasing the money raises prices, but induces fears about the future of money that result in reduced production.

POTATO SHOW A GREAT SUCCESS

ENTRIES NUMBERING 113 SET A NEW RECORD

Lee Sneathen and Clinton Blanchard Outstanding Potato Exhibitors, Eveline Orchards in Apples

(By B. C. Mellencamp)

Saturday, October 27th, proved to be a very important day to several hundred Charlevoix county farmers when the Second Annual Potato and Apple Show was held.

The most enjoyable event of the day was the annual banquet served by the ladies of the Presbyterian and Methodist churches at 6:30. This was followed by a splendid program introduced by R. K. Paddock, Charlevoix, as toastmaster. Music by the high school orchestra under the direction of John TerWee. Mayor B. Milstein, in his address of welcome, informed the audience of his desire to again have the show at East Jordan. Henry Korthase in the response to the welcome, stated briefly some of the problems of potato production and its future as one of the major incomes in the county.

As entertainment features, the audience was delighted with the two harp solos by Miss Susanne Porter. Those present marvelled at the ability shown by this young musician. Mrs. Clara Kitsman next gave a reading which was greatly enjoyed. Chas. Shepard, who is well known throughout Charlevoix county, appeared as a rube and certainly gave the audience fifteen minutes of laughter. If you do not know how to make money out of potatoes, have Charlie tell you how to do it.

The main talk of the evening was given by E. Wheeler, Research Assistant in Potatoes from the Michigan State College. After having acted as potato judge, he was in a position to sincerely appreciate the splendid exhibits that he saw. He made a statement that our prize winning samples would stand up in any show and predicted that we would hear more from these displays at later shows. He discussed the breeding work that he is carrying on in his endeavor to develop better varieties of potatoes. He had samples of the various seedlings that have been developed and predicted that within a few years, a better variety would be available for Michigan potato growers.

The last event on the program was the presentation of awards by your county agent which was the best news of the evening, at least to those who shared in the premium money. Lee Sneathen and Clinton Blanchard, both of Charlevoix, were the outstanding exhibitors. Lee Sneathen had the best peck in the entire show. These were of Russet Rural variety and was certified seed. Second place in this section was won by Elmer Hott, East Jordan, 3rd by Clinton Blanchard, Charlevoix, 4th Albert Omland, East Jordan, 5th, Bert Van Hoesen, Boyne City. In the class of "Any Other Variety," Mrs. Ed. Kowalske, East Jordan, won first with a sample of Russet Burbank, followed by Henry Korthase, Boyne City, also Russet Burbank, and Elmer Hott, East Jordan, with a sample of the new variety, Kathadins. In "Any Early Variety" class, Harry Behling, Boyne City, won first with a sample of Irish Cobblers followed by Frank Behling, Boyne City, also with Irish Cobblers.

In the "Beginners' Class," John Noble won first, followed by Eugene and Eveline Koteskey, Boyne City, and Henry Carson, East Jordan, all being Russet Rurals. In the bushel competition, Clinton Blanchard, Charlevoix, won first followed by Lee Sneathen, Charlevoix, G. C. Ferris, East Jordan, and Albert Omland, East Jordan.

In the Smith-Hughes competition, Ida Lange, Boyne Falls, won first followed by Ernest Rude, East Jordan, Herman Rasch, East Jordan, and Gardelle Nice, East Jordan. In the 4-H Club class, Einer Olmstrom, East Jordan, won first with Wilbur McDonald, East Jordan, 2nd, Robert Reidel, Boyne City, 3rd and Howard McDonald, East Jordan, 4th.

For a man who had never exhibited before, John Noble, East Jordan, did a real job for he had the best single potato in the show which gave him two first places.

In the Apple Department, as usual, the names of Eveline Orchards, East Jordan, and D. D. Tibbits, Boyne City, were outstanding. Eveline Orchards proved to be the heaviest winner with D. D. Tibbits second. A. L. Darbee, manager, showed his ability when he won first on a bushel of Starkings which was a beautiful sight to behold. He also won third with a bushel of McIntosh, 5th with Golden Delicious, and 6th with a bushel of Wageners. D. D. Tibbits won 2nd with McIntosh, 4th with Wealthy, and 7th with Wagener.

In the "Plate Class," Eveline Orchards won first in Jonathan and Starking; 2nd on McIntosh, Wagener, Wolf River and Cortland. D. D. Tibbits won 1st in McIntosh, Snow, Wagener and Wealthy. He secured 2nd with Northern Spy. Wm. Withers, Charlevoix, won first with Wolf River and 3rd on Snow and Northern Spy.

Judging from the interest and enthusiasm shown at this show, without a doubt, plans will be made for the Third Annual Show in 1935. It would seem that this project is well worth while and should accomplish a great deal in bringing to the producers of potatoes and apples an incentive to carry on.

The leading exhibits will be shown at the Gaylord Potato and Apple Show to be held on November 6th, 7th and 8th, and no doubt, at the State Show to be held in February.

AUGMENT WARDENS FOR DEER SEASON

One Hundred Additional Men to Be Added Conversation Forces

Elaborate preparations are being made by the Department of Conservation to protect Michigan's deer herd from illegal hunting during the open season from November 15th to November 30th, inclusive.

It is announced by the Field Administration Division, that approximately 100 additional conservation officers will be ordered on duty in various parts of the state to be on guard against illegal shooting, particularly the killing of does.

The recruits will be taken from the fire warden and tower force, which has been laid off for the year, and officers in the respective districts.

It is expected that the 1934 army of deer hunters invading the deer country will be substantially larger than in 1933.

DISTRICT HEALTH UNIT BULLETIN

A Better Chance for Babies

There was one infant death to each 20 live births in District Health Unit No. 3 composed of the counties of Antrim, Charlevoix, Emmet and Otsego, during the year of 1933. This rate was almost identical with the rate for the state as a whole.

There has been a steady downward trend to the infant death rate in Michigan during the last eight years. In 1926 the Michigan state rate was 77.5 deaths to each 100 live births; in 1933 the rate was 50.0 for each 1000 live births.

In 1926 the rate for the four counties was approximately the same as the state rate. However, in the next two years, the state continued to decline until it was approximately 69 while the rate in our four counties had advanced to approximutely 96 per 1000 live births. Because of this a large umount of time was expended in the saving of infant lives until in 1932 our rate was slightly below that of the state and in 1933 it was practicnlly equal to the state.

Physicians attendunt on mothers at childbirth are more skillful today; more and better attention is paid to the hygiene of expectant mothers today; the infant gets better care today; and certainly much more attention is paid today to the child's diet. All these factors have played an important part in reducing the infant death rate.

The matter of breast feeding is also of prime importance in determining whether a baby shall survive. Of every 100 bottle-fed babies 25 die in the first year of life; of every 100 breast-fed babies 7 die in the first year of life according to the findings of the U. S. Public Health Service.

Nearly every mother can nurse her baby during the first three or four months of its life, and if she can nurse it for nine months so much the better. Tuberculosis in the mother is practically the only disease that always forbids nursing.

Shortly after birth, boiled water, without sugar, may be given to the baby at regular intervals until the mother's milk supply is established. There may be only a temporary shortage on the mother's part. Even if there is but little at first, there may be an abundant supply after a few weeks as the act of nursing causes the milk to come into the breasts and increases the supply.

In case the baby is not getting enough milk, the quantity lacking should be made up by properly prepared, safe cow's milk. Let a physician decide this. An excellent pamphlet that is put out by the Children's Bureau of the U. S. Department of Labor is entitled "Infant Care." Your county nurse, Miss A. Winnifred Golley, has a small supply of these books on hand and will be glad to furnish you upon request.

GAME BIRDS NEED AID TO GET WINTER FED

Sportsmen Should Work with Farmers to Insure Survival of Stock

Adverse weather throughout the year threaten one Michigan crop which is not often considered valuable but which really has a high monetary value if properly managed, according to experts who point out the danger facing game birds in this state this winter.

Shortage of feed is disastrous to the game supply, especially in periods of extreme cold weather or of sleet storms. The birds must have fuel to provide bodily heat to resist winter's rigors. Hunger kills more birds than hunters in some districts in the state.

The provision of winter feed is one place where city hunters and sportsmens clubs can prove that they appreciate the courtesies extended them by farmers. Buying a few bushels of feed from the growers and hiring the farmer's boy to place the feed where the birds congregate in winter will save the hunting in some areas.

Most grains are eaten greedily by hungry game birds but the feed must be distributed in places where it will not be covered by ice or snow or where the feeding birds are exposed to the sharp eyes of predatory birds or animals. Winter feed can be provided by growing grain and grass mixtures and permitting the crop to stand and be harvested by the birds but such a plan necessitates planning in the spring.

Any plan of feeding requires the cooperation of the farmer for its success. He can not be expected to furnish hunting grounds and to grow feed and use his time in the winter to distribute it, but he and his sons will be found ready to help any city sportsmen who will help insure next fall's sport by preserving a stock of breeding birds through the trials of winter.

AT THE MOVIES

"The Scarlet Letter" Comes to Palace Theater

Morals of another century are graphically shown in "The Scarlet Letter," Nathaniel Hawthorne's literary classic which Majestic has produced with Colleen Moore as the star and which will begin an engagement at Palace Theater next Saturday, November 3rd.

Hawthorne's story, long discussed in schools, literary groups and churches, returns us to the days of the Puritans when one was publicly disgraced for any breach of their rigid moral code.

An able cast supports Miss Moore and gives force to the gripping story. Hardie Albright is featured with Henry Wulthall, Alan Hale, Cora Sue Collins, Virginia Howell, William Kent, William Farnum, Flora Finch and Betty Blythe completing the cast.

Rotating Bride in Marital Mix-ups at Palace Theater

"Smarty," the novel story of a rotating wife who furnishes some of the strangest and most hilarious marital tangles imaginable, comes to the Palace Theater Wednesday and Thursday, November 7th and 8th, with Joan Blondell and Warren William in the leading roles.

The plot, based on the play by F. Hugh Herbert, concerns a young bride, beautiful but irritating, who longs to be crushed and mauled and beaten up in true cave man style by her love mate, and continues her search for such a he-brute until she finds him.

Others in the cast include Frank McHugh, Claire Dodd, Jonn Wheeler, Virginia Sale and Leonard Carey. Robert Florey directed the production from the screen play by Mr. Herbert and Carl Erickson.

First Wednesday of month, 7:15 p. m.

Reading room Tuesdays and Saturdays, 3 to 5 p. m.

We cordially invite the public to our services and reading room.

"Everlasting Punishment" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, November 4th.

Among the Bible citations is this passage (Ps. 35:27): "Let them shout for joy, and be glad, that favour my righteous cause; yea, let them say continually, Let the Lord be magnified, which hath pleasure in the prosperity of his servant."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 240): "Mortals move onward towards good or evil as time glides on. If mortals are not progressive, pastfailures will be repeated until all wrong work is effaced or rectified. . . . Remember that mankind must sooner or later, either by suffering or by Science, be convinced of the error that is to be overcome."

What Republican Newspapers Say of Congressman Brown

Presque Isle County Advance, Roger City, Michigan.

In speaking of Congressman Brown's work on a matter says:

"We have always had the highest regard for Congressman Brown, although he was not of our political party. This instance has assured us that he is working at his new job and we want him to get credit for it. What we need are men in such offices who take care of their jobs. We are getting more and more so that we are not interested in their political affiliations, just so long as they deliver the goods. It looks as though Congressman Brown was one of the bright spots on the Democratic Christmas tree."

The Munising News, November 17th, 1933:

Congressman Prentiss Brown of St. Ignace is a mighty fine, capable fellow. And the way a great many staunch Republicans turned out at a Democratic dinner given in his honor here Wednesday evening gave evidence that, politics or no politics, these Republicans wanted to show their friendliness toward their Democratic representative at Washington . . good Republicans recognized and appreciated that Congressman Brown was the representative of all the people and not just a small group.

The Evening News, Sault Ste. Marie, Mich.

The News, a Republican paper, under date of July 11th, 1934, says:

"The Congressman from our 11th district, Hon. Prentiss M. Brown, yesterday made formal announcement of his candidacy for re-nomination and re-election on the Democratic ticket. He outlines the high points of his record and asks the people of his district to return him to Washington. No one questions the fact that Prentiss Brown has been a hard-working, able representative of this district. He is the type of man that good citizens delight to see interested in politics. He has been active in endeavoring to carry out the wishes of his constituents and in his first year of service has secured appointments on important committees. Not only has he had these assignments but he is recognized as being one of the most valuable members of the House of Representatives. We regret that Representative Brown is not a candidate on the Republican ticket."

The Delta-Reporter, Gladstone, Michigan.

Rep. Prentiss M. Brown of St. Ignace has announced himself as a candidate for re-eleetion. He has served one term and the quality of his service has earned him the right to another.

Vote NOVEMBER 6 TO RETAIN HIS SERVICES IN WASHINGTON

Michigan's SENATOR ARTHUR H.

Vandenberg

Made the Savings of America Safe

The greatest contribution to the return to a safe sane security came from the pen of Senator Vandenberg when he wrote the section of the law which guaranteed bank deposits and which now protects forty million depositors. Because of Vandenberg we now can place our funds in banks with full security.

He Is Fighting the Profits from War

Senator Vandenberg is co-author of the greatest and most practical peace movement in history through the resolution which resulted in the present senate inquiry into the profits from war. He is endorsed by Veterans' Organizations throughout the nation in this effort to show that wholesale war-time death pays a tremendous profit which should be eliminated from our civilization.

Rights Wrong to Michigan

For 20 years Michigan had been denied representation in Congress. Just as

What Senator Borah Thinks of Arthur Vandenberg

"His great ability, linked with his tireless industry and, above all, his broad humanitarian grasp of public questions, makes him a senator worthy of Michigan. I feel it is in the public interest that he be returned." — Borah

as Senator Vandenberg took office, he took up the battle for re-apportionment. Michigan gained four additional Congressmen due to the energy and the outraged indignation of one man, a new senator — Vandenberg of Michigan.

His Leadership Unquestioned

Senator Vandenberg in 1933 was the unanimous choice of every Republican United States Senator for the post of President (pro-tempore) of the Senate. It is a remarkable tribute to the senator as this vote was one of the two, during recent years, on which Republican senators have been unanimous. It is the more remarkable as a tribute to his energy and his ability as a statesman when we realize that Senator Vandenberg was serving his first term.

THIS COUNTY AGAIN OPEN DEER TERRITORY

Emmet and Antrim Also Included In Lower Peninsula List

Deer hunting licenses will be denied this fall to 739 residents of Michigan who have disqualified themselves either by a violation of the deer hunting laws or by being guilty of wounding or fatally injuring another hunter, according to the Field Administration Division, Department of Conservation.

The deer hunters' license law as amended in 1931 permits the issuance of licenses only to applicants who within the preceding three years have not been convicted of a deer violation or who within the preceding five years have not accidentally or otherwise wounded or killed a human being by shooting.

Approximately 700 of the hunters who will be denied licenses this year have been disqualified by conviction of deer violation charges. The remainder were involved in gun accidents.

The deer hunting season opens Thursday, November 15, and continues to November 30, inclusive, in all the counties of the upper peninsula and in the following counties of the lower peninsula: Emmet, Cheboyban, Presque Isle, Charlevoix, Antrim, Otsego, Montmorency, Alpena, Kalkaska, Crawford, Oscoda Alcona, Roscommon Ogemaw, Iosco, Arenac, Gladwin and Bay.

OIL COMPANIES PROMISE CUT IF TAX IS REDUCED

Leading oil companies operating in Michigan are publishing today in the Courier an advertisement pledging themselves to reduce the price of gasoline if the constitutional amendment to reduce the state gasoline tax carries at the polls in November. The pledge is made, according to a spokesman for the companies, to meet squarely a story which has been circulated by opponents of the reduction to the effect that oil companies, rather than motorists, would benefit by any reduction.

"I have never known of a case where the price of gasoline was not decreased when the tax was reduced," Henry M. Dawes, president of the Pure Oil Company, declared in a statement forwarded to the American Petroleum Industries Committee. "We will, of course, reduce the price of gasoline that we sell in Michigan by the amount that the tax is reduced."

A similar personal declaration was made several weeks ago by Edward G. Seubert, president of Standard Oil Company of Indiana. Frank Phillips, president of Phillips Petroleum Company, wired the Committee, "Any reduction in Michignn's gasoline tax will of course be passed on to our customers." The Committee has on file definite pledges from heads of enough other companies to make it absolutely sure that the gasoline price will be lowered if the reduction of tax is voted and carried through.

LIBRARY NOTES

The public library has been unusually fortunate this summer in receiving gift books from authors.

"By way of appreciation," Judge A. B. Frey, ex-judge of the circuit court of St. Louis, and at one time lecturer of Contracts, St. Louis University Law School, presented his book, "American Business Law—With Form," to the library. Judge Frey has many friends in Charlevoix who will be interested in this book which is a useful guide to the practical business man unfamiliar with legal terms.

Emphasis is placed upon subjects of which arise problems of every-day business: Law in general, Contracts, Evidence, Forms, Infants or Minors, Agency, Damages, etc.

"Jesus Came Preaching," by Dr. George A. Buttrick who spends his summers at Sequanota, was presented to the library. These lectures discuss the preacher's place today, his message and the authority of Christ and the cross as the foundation of preaching in an age that has lost respect for tradition. This book has had a wide circulation among local readers.

"The Parables of Jesus," also presented by the author, Dr. Buttrick has traced the parables back to Jesus' daily life in Galilee, and has discovered in them "the tang of the human, and the glow of the divine."

"The Triumph of an Idea"—the story of Henry Ford—presented by the author, Ralph H. Graves. Highlights of the 50-year period in which Henry Ford has become one of America's great industrial powers; also a story of his plant at Dearborn. Thousands of persons from all parts of the world go to Dearborn, Michigan, to see the museum and historical village of the Edison Institute. A full description will be found in this volume.

"Once a Wilderness," by Arthur Pound, presents the family history of Capt. John Mark, whose pioneering parents brought him to Michigan in a prarie schooner. He tells the story of his children and grandchildren, and of his 600-acre farm. Wm. Lyon Phelps has classed this novel as one of the four notable books of this year.

SUNDAY DINNER SUGGESTIONS

By Ann Page

With the exception of the best eggs, butter, oranges and fresh tomatoes, marketers will find most food prices easy on their pocketbooks. Meats are reasonable, with loin and round cuts of beef and legs of lamb especially attractive.

Certain vegetables are somewhat higher, but a wide selection of low cost vegetables is still available. Among them will be found white and sweet potatoes, yellow onions, rutabaga turnips, carrots, beets and cabbage. Green and wax beans, spinach, cauliflower and broccoli are moderately priced, while green peas and limn beans are high.

Grapefruit is outstanding in quality and price. Both cooking and eating apples should be very reasonable.

The following menus are made up from the latest market news available.

Low Cost Dinner

Roast Loin of Pork
Browned Potatoes
Creamed Cartots

Natürlich, it's excellent beer! Brewed in "America's little Germany"

THERE'S an all-German town in Michigan. It's famous for its cooking and its brewing. FRANKENMUTH!

When beer came back, people all over the State started asking for its famous beer: *Old Frankenmuth Gold Medal Beer.*

They knew the traditions of the town and of the Old Frankenmuth brewery. They knew this:

For years, Old Frankenmuth Gold Medal has been *a beer that everybody likes.*

★ ★ ★

Perhaps you asked for Old Frankenmuth Gold Medal and couldn't get it. The demand was too great; dealers' orders could not be supplied

Now the Old Frankenmuth Gold Medal brewers are working day and night, and the Brewery has been enlarged to meet your demand.

HOUSES AND MOTORS

Herewith is a little study in comparisons: During the first eight months of this year the volume of residential building, which is normally the most important factor in the building industry, dropped to a new low for the depression. It seems clear that the most important causes of this is the continued high cost of new construction, for the difficulties in the way of new financing have been greatly reduced. An additional factor is that there are still available many houses on which mortgages have been foreclosed, and which may be bought at reduced prices. These distressed properties are still overhanging the market.

In 1909 the average retail price of a motor car was 1662 dollars. By 1934 it had dropped to 678 dollars. Moreover, during this period of 26 years the quality of the average automobile has greatly increased. Almost all the component materials have advanced in price and the wages of workers have more than doubled, but the price of the product has decreased. This result has been made possible by constant and rapid advance in factory methods and technique.

Let us now look for the same period of years at the changes in the average costs of one-family houses built in the cities. This information is based on the data of permits. It begins at 2173 dollars in 1909, rises to 4996 dollars in 1930, and the preliminary figure for 1934 is 4020 dollars. There has been no such great and steady improvement in quality as in the case of automobiles. The costs in the building industry remains high, and in recent months they have been rapidly advancing. They constitute a most important explanation for the laggard recovery in the volume of construction.

IN DAYS OF OLD

If you happen to be one of those nervous individuals concerned over the government's costly experiments you should read the history of Tiberius and Caius, who had their place in the sun during the days of the Roman republic. They were the Upton Sinclairs of their time, who, overthrowing the tyranny of the patrician in the Roman senate, carried their ideas of good fellowship to such an extreme that they finally destroyed the very liberty which they were trying to preserve and enlarge.

Tiberius and Caius were the fathers of the dole. Instead of promoting an old age pension scheme of two hundred dollars a month, they built big granaries from which wheat was distributed at a nominal price or for nothing as circumstances suggested. Later they distributed free bread—probably sliced and ready to eat—and distributed free circus tickets so that all could be frequently and properly amused.

As a result of their bounteous contribution to easy living all the idle and landless in Italy flocked to Rome. There was no place in the ancient world where living was at once so cheap and so agreeable. In the end free bread undermined the morale of the people. Life was too easy. No man had to arise with the sun to secure his sustenance. What Tiberius and Caius thought to be a benefit turned out to be one of the vital factors which lead not only to the entire destruction of liberty in the Roman state, but its ruin as well.

SAY YES!

One out of every six school children tuberculin tested since 1931 by the Michigan Tuberculosis Association has been found to be infected with tuberculosis germs.

One out of every five children x-rayed—or one out of every thirty tested—has either the childhood or adult type of the disease in his lungs, and one out of every 12 x-rayed has this latter type, which is a killer.

One out of less than three school employees tuberculin tested has tuberculosis germs in the body. One of every forty-four x-rayed, has the infectious, killing, adult type tuberculosis.

The tuberculosis Christmas seal, which sells for one cent—good times or bad—has made possible the discovery of these facts and these persons sick with a dangerous disease menace. The battle has already begun to save their lives and the lives of those close to them, but—there are still many more as yet unfound.

Fathers and mothers, young people and old, doesn't that prove to you the desperate necessity for support of the coming sale of tuberculosis Christmas seals, which opens officially on Thanksgiving Day?

HUMAN LIBERTIES

For the first time in two generations the American people are faced with the primary issue of humanity and all government—the issue of human liberty.

Not only in the United States but throughout the world, the whole philosophy of individual liberty is under attack. In haste to bring under control the sweeping social forces unleashed by the political and economic dislocations of the World War, by the tremendous advances in productive technology during the last quarter-century, by the failure to march with a growing sense of justice, peoples and governments are blindly wounding, even destroying, those fundamental human liberties which have been the foundation and the inspiration of progress since the Middle Ages.

The great question before the American people is, not whether these dislocations and abuses can be mastered and these new and powerful forces organized and directed to human welfare, but whether they can be organized by free men. We have to determine now whether, under the pressures of the hour, we must cripple or abandon the heritage of liberty for some new philosophy which must mark the passing of freedom.—Herbert Hoover.

HOW OLD ARE YOU?

How old are you?

It makes a difference, as a few moments perusal of the following figures will prove to you.

If you're under four but over one year of age, figures compiled by the Michigan Department of Health say that pneumonia is your greatest enemy.

If you're between five and nineteen—look out for accidents.

You're in the twenty to thirty-nine class? Beware of tuberculosis, although with a disease of this long duration, you'll be much better off if you sighted it several years ago, say when you were in high school.

Forty to ninety and over—after life begins and until it ends—heart disease is the greatest killer. Second place between these ages is taken by cancer from forty to seventy-five and by apoplexy thereafter.

How old are you? It makes a difference.—Michigan Tuberculosis Association.

THE REAL TEST

The successful business enterprise is careful to retain in its employ all those who have by integrity and ability demonstrated their value to the organization. That is good business judgment. The government of Michigan is a big business institution. For nearly twenty years it has employed Frank D. Fitzgerald as a public servant. Four years ago Mr. Fitzgerald was elected secretary of state, where as an executive officer he has had an opportunity to prove his responsiveness to public trust. Although the demands upon his office have increased he has through application of business acumen and a desire to serve the people reduced its cost of administration nearly two hundred thousand dollars. With a constantly increasing tax burden due to government inefficiency no abler man in all Michigan than Frank Fitzgerald can be found to lead the distressed taxpayer out of this morass of despair. Thinking people remembering the good judgment he has applied to public service will be glad to register a favorable decision in his behalf on election day.

DEAF, THEN DUMB

(By the Christmas Seal Doctor)

When you see a child "deaf and dumb," remember that, more often than not, he is dumb because he cannot hear and therefore has not learned speech.

He can be taught to speak and can learn lip-reading to substitute for his ears so that some day he may be able to mingle with his fellowmen without serious handicap.

But how much better is prevention than cure—in this as in tuberculosis, or any other disease.

Very few children are born deaf says the Christmas Seal Doctor, but there are many diseases of infancy which cause loss of hearing and chief among these is scarlet fever, accounting for ten per cent of the deaf mutes in the United States.

If scarlet fever or measles attack your child, remember that hearing is one of the things to safeguard. Let no parent consider a "running ear" a matter of light importance, either. Such danger signs always require the expert medical care of your family physician.

National Hearing Week, from October 14th to October 20th, was a good reminder, but every week in the year is a good week to help a child, first, keep free of handicaps, and second, overcome them.—Michigan Tuberculosis Association.

SCHOOL FOR A DAY

This week tuberculosis fighters from all parts of Michigan gathered at Ann Arbor to go back to school.

Packed into one day—October 11 the annual meeting of the Michigan Tuberculosis Association, the Michigan Trudeau Society and the Michigan Sanatorium Association, contained enough education, enough new ideas and inspirations to be worthy of an advanced course in a university curriculum.

Education and the light of knowledge are major factors in killing tuberculosis. By watching experts at work, by listening to the experiences of others and profiting by them, your doctor, the officers of your local tuberculosis association, the educators of your children and the specialists at your sanatorium, keep Michigan in the lead in their fields.

Truly, whatsoever things are good; whatsoever things are true; whatsoever things will help fight disease—none of these escape the notice of the tuberculosis Christmas seal.

Three bandits dressed in old clothes robbed an Eastern tax collector's office of several thousand dollars in broad daylight. Police say they did not arouse suspicion when entering the building—everybody thought they were taxpayers.

CENTRAL LAKE

William McGuire's people intend to move from the E. C. Rowe farm to town this week.

O. R. Morse has shipped out five carloads of potatoes from the Bay View store building.

Lee Donelson is moving to the T. E. Niles farm north of Mancelona, that he purchased this week.

Philip Ohman's people finished moving to Central Lake last Monday. They will live in the Verd Carpenter house on the east side.

Doyle Ohman and Nellie Parody, recently married and will move to the Wilcox farm at Elk Rapids where he will work next summer.

There were no services at Grand View Sunday on account of the funeral services for Mr. Zimmerman, a relative of Mr. Parker, superintendent.

Jake Simon is getting out timber for an $85 cabin for Fisk's resort. Harold Acuis of Central Lake will truck the logs to Fisk's camp from the Bay.

Floyd Darrell has been trucking potatoes to Central Lake from his farm north of town with a 1921 Ford. It is ancient, but it appears to do the business all right.

The death of Ben Zimmerman, a long-time resident of Central Lake, occurred here last Friday. Funeral service were held from the F. M. church last Sunday afternoon.

Dan Hadcock and son Carl have been visiting the past few weeks with his wife, Mrs. Jenie Hadcock, and other relatives here before returning to Detroit where they are employed.

The local canning factory closed last Saturday with its run on squash, and is through for this season. They have done fairly well this year and have given quite a lot of employment to local people.

—Born: To Mr. and Mrs. Maurice Dawson at Central Lake last Wednesday afternoon, an eight-pound boy. They are at present stopping with Mrs. Cora Dunlap, but will soon move back to their farm at Grand View.

Philip Ohman was home from Ludington last week where he works on a boat running to Milwaukee. He has rented his farm to Alfred Christensen, a bachelor from Kewadin, who will work the farm next summer.

The potato harvest is about done and local warehouses are crowded to the limit with the tubers. Many have had to sell or put them in pits at home. O. R. Morse has been paying 21 cents per bushel at Bay View store. Ellsworth and Central Lake have paid 18 cents.

BARNARD

Clifford Gennet and family entertained his sister from Lansing Thursday night.

The school yard is being leveled and sodded which improves its appearance very much.

Mr. and Mrs. William Mayer went to Jackson on Saturday returning the first part of the week.

Mr. and Mrs. Charles Murphy of East Jordan were visitors at the Clyde Warner home on Sunday.

Louis Shapton and family are now living in Charlevoix. We will miss them very much. Their sale on Monday was well attended.

Mr. and Mrs. John Boss and Mr. and Mrs. Fred Boss attended the Fair at Chicago last week. Mrs. Effie Burns of Atwood has been staying at the Boss home.

Bertha Pierce, Dorothy and Carlton Smith, Ernest Potter, Bill Parsons and Lee Shapton attended the Epworth League convention at Traverse City Friday night. They report a very inspiring meeting.

The Epworth League game supper on Thursday evening was attended by 86 young folks. The Charlevoix League were guests. A fine program arranged by Bill Parsons our fourth vice-president, was given after the supper.

FAIRVIEW-BANKS

Looks some like winter this (Monday) morning.

Jay Kuiper is busy building a new garage and tool shed.

Fitzgerald

REPUBLICAN CANDIDATE FOR GOVERNOR

FRANK FITZGERALD is a candidate for governor because 430,000 citizens regarded him not only as an honest, able, efficient public servant . . . but because he is "FIRST IN THE HEARTS OF HIS FRIENDS" that he received the amazing vote of confidence last September.

These friends insure his election. But Frank Fitzgerald is not basing his candidacy upon friendship. It is based upon experience, ability and a desire to aid in solving Michigan's problems. He urges AND WILL WORK FOR:

- Elimination of the state property tax.
- Adequate aid for the public school system.
- Protection of Michigan's boys and girls by preventing the sale of intoxicating liquor to minors.
- Removal of prison-made goods from competition with the products of free labor.
- A non-partisan board of pardons and paroles.
- Unemployment insurance.
- Ninety-day maximum for legislative sessions.
- An adequate old-age pension system without the head tax.
- Repeal of the sales tax on food.

100-ACRE FARM SOLD IN CHARLEVOIX COUNTY

One hundred acres out of the 300-acre former John H. Yell farm, two miles south of Clarion has been purchased by George Schmideknect of Clarion, its was announced here this week by R. G. Churchill of Traverse City, field representative of the Federal Land Bank of St. Paul. Mr. Schmideknect expects to take possession of the farm soon and operate it.

This sale is one of 49 made in Michigan during September, which has brought the total number of farms sold by the Land Bank in this state up to 243 for the year. September was the biggest land selling month in the history of the Federal Land Bank of St. Paul, Mr. Churchill said.

LEGION ACTIVITIES

By F. V. Tyler

Not much we can say this week—oh yes, the turkey shoot on Armistice Day at Mt. McSauba. Date is November 11th, which falls on a Sunday.

Quite an ingenious plan for the targets has been devised and it is expected that marksmen from all over the county will be trailing in to show their skill at the butts.

This is a revival of an old sport that was in its hey-day when our grandfathers held forth. While their descendants may not be able to achieve the hair-splitting accuracy that these old boys displayed with their smooth-bore "cannons," some amazingly good shooting may be looked for and fully as much enjoyment and enthusiasm as the hardier seventies witnessed.

OLD RELIC THREATENED

Washington hall in Durham, England, is likely to be sold for $2,000 and possibly pulled down. It is the ancestral home of the family to which George Washington belonged. It is knit together by sheeps' bones three hundred years old. A few years ago Americans in England started a subscription to acquire the hall for their nation, but the depression came on and the project was abandoned.

Why Doctors Favor a Liquid Laxative

A doctor will tell you that the careless use of strong laxatives may do more harm than good.

Harsh laxatives often drain the system, weaken the bowel muscles, and even affect the liver and kidneys.

Fortunately, the public is fast returning to laxatives in *liquid form*. The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you needn't take a "double dose" a day or two later.

Dr. Caldwell's Syrup Pepsin gently helps the average person's bowels while nature is restoring their regularity. Why not try it? Some pill or tablet may be more convenient to carry. But there is little "convenience" in any cathartic which is taken so frequently, you must carry it with you, wherever you go!

Its very taste tells you Dr. Caldwell's Syrup Pepsin is wholesome. A delightful taste, and delightful action. Safe for expectant mothers, and children. At all druggists, ready for use, in big bottles.

Sometimes Seem Long

First—Do you work long hours?

Second—No, only the regulation length—sixty minutes each.

For *good* digestion

—there is nothing that can take the place of your own gastric, digestive secretions. Frequently, poor digestion is due to lack of tone in the stomach walls—because of low blood strength. S.S.S., the great, scientifically-tested medicine, is specially designed to fill a two-fold purpose in this respect... it aids in stimulating the flow of natural stomach secretions... and by building up deficient red corpuscles, with their hemo-glo-bin, it restores to a more normal functioning the secretions of the stomach digestive juices... so necessary for good digestion. This double value of S.S.S. is important.

By all means try S.S.S. for better health and more happiness. Its benefits are progressive... accumulative... and enduring. Unless your case is exceptional, you should soon enjoy again the satisfaction of appetizing food and good digestion... sound sleep... and renewed strength. This is why many say "S.S.S. makes you feel like yourself again."

Do not be blinded by the efforts of a few unethical dealers who may suggest substitutes. You have a right to insist that S.S.S. be supplied you on request. Its long years of preference is your guarantee of satisfaction.

TRUE DETECTIVE STORY

by Vance Wynn © Public Ledger

The Blood-Splashed Ring

IN THE course of time thousands of persons have disappeared as completely as though they had dropped through the earth, but few of these mysteries have been quite as weird as that of Marie Anna Holzmann, of Augsburg, Bavaria.

She had lodged for years with a shoemaker in that town, but he did not report the case for a month after she had left the house.

He explained the delay by saying that she was in the habit of leaving for a few days at a time, and he did not want to cause unnecessary excitement.

The police felt that it was incumbent upon them to do something, so they placed the shoemaker under arrest.

He was held as "a material witness."

Many weeks went by without the discovery of anything to account for this strange disappearance.

Then the shoemaker was released.

He went to his home and, prowling about the loft of the house, made a ghastly discovery.

It was the trunk of a human body stuck in a bag and fastened to the rafters.

The police were rallied in for a second time, and on this occasion they succeeded in locating different parts of the body in various parts of the house.

The remains were assembled and a peculiarity of the teeth made it clear that the body was that of Marie Anna Holzmann.

After that the authorities began to use their brains.

They made it their business to find out who else had lived in the house at the time the girl lived there.

They learned that two men had been there for at least part of the time.

One was Charles Steiner, who was supposed to be half-witted, and the other was John Rauschmeir, a shrewd and unprincipled sort of chap who had no visible means of livelihood.

The Bavarians did what the police of New York or Chicago would have done under the circumstances.

They located the two men and they shadowed them for many weary days.

So far as Steiner was concerned, it was love's labor lost, and they pinned their hope upon Rauschmeir doing something that might incriminate himself.

Their expectations were realized.

One day the man went into a pawnshop and offered to pledge a woman's coat.

It was a coat that had belonged to Marie Anna Holzmann!

The man was arrested and accused of the murder.

But he laughed at the charge. He admitted that he was a criminal and cheerfully confessed that he had stolen the coat from the girl's room, but ridiculed the idea of having had anything to do with her murder.

But stimulated with the progress they were making, the police made a third search of the lodgings.

This time they found a cheap ring—a man's ring that was splashed with blood.

Inquiries were made in the neighborhood, and a man was found who said that he had seen this ring on Rauschmeir's finger.

That was rather convincing, but the police hesitated to show it to the man for fear that he might deny ownership and thus spoil their case.

How could they contrive to make him admit that the ring belonged to him without letting him know that such an admission would be fatal to him.

They recalled the play scene in "Hamlet" when the moody Dane declared that the play was the thing to catch the conscience of the king.

Why could not a little play on their part convict this man they believed to be a murderer?

It was worth the attempt.

So the police gathered together a quantity of jewelry and placed it on a table, together with the ring, which had been washed of its bloodstains.

They brought Rauschmeir from his cell and pointed to the loot upon the table.

"What is the use of your denying that you committed murder," said the police chief, "when we have here the stuff you stole from the girl's room?"

"I didn't steal it," retorted the man, and, seeing the ring, he picked it up, saying: "As a proof of it, there is my own ring."

He slipped it on his finger, and that little incident was the bit of evidence upon which a case was built which ended in his conviction and execution.

Use Parts of Cow in Plane

The cow does not fly, but John Wilson, chief inspector of the Boeing Airplane company, lists many parts of its anatomy which do. The casein in milk makes a strong glue, and casein glue is used extensively in the construction of wing ribs, panels of plywood in the airplane cabin, and so on. Hot glue is made of cow's hoofs. Its hair is used for chair padding and sound deadening. Hides are made into seat covers and straps and into the fine hide glues which are used in wooden propeller manufacture. Finally, the goldbeaters' skin for dirigibles is made of its entrails. Certainly the cow makes praiseworthy contributions to aerial navigation.—Scientific American.

"Shirtmaker" Frock

PATTERN 9986

The vogue of the shirtmaker frock has been carried right over into the autumn, but the new members of this popular family are a little less severely tailored than those one has seen in all smart places during the summer. Here is an excellent example of what we mean—with chic short epaulet-like sleeves and soft gathers. You can make it of a fabric as formal as you may wish. It would be as smart as Paris in black with crystal buttons and a white satin knot at the throat. Or perhaps you would prefer it in crepe moroccain

a the warm new shade called "clay-rust."

Complete, diagrammed sew chart included.

Pattern 9986 may be ordered only in sizes 14, 16, 18, 20, 32, 34, 36, 38 and 40. Size 16 requires 3½ yards 39-inch fabric and ¾ yard 1½ inch ribbon for bow.

Send FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, the STYLE NUMBER and SIZE.

Send your order to Sewing Circle Pattern Department, 232 West Eighteenth Street, New York, N. Y.

TRAPPING SEASON TO OPEN NOV. 1ST

LOWER PENINSULA SEASON OPENS NOV. 15

Regulation Governing Trapping Explained in Conservation Department Bulletin

Trapping for muskrat in the upper peninsula of Michigan and for opossum in the lower peninsula becomes legal Thursday, November 1, according to the Game Division, Department of Conservation.

The muskrat season remains open in the upper peninsula to and including November 30. The season on muskrat in the lower peninsula is staggered. Muskrat may be trapped from November 15 to December 15, inclusive, north of the north line of Town 16 and west of Saginaw Bay. This includes all that portion of the lower peninsula which lies north of the north lines of Oceana, Newaygo, Mecosta, Isabella and Midland counties projected across Bay county to Saginaw bay.

In that portion of the lower peninsula south of Townline 16 projected across Bay county to Saginaw bay, including all of the Thumb district, the season is open on muskrat from December 1 to December 31, inclusive.

Raccoon may be hunted and trapped only in the lower peninsula, according to the Game Division. The hunting season on raccoon is from November 1 to November 30, inclusive.

Trapping for raccoon is permitted from November 15 to December 15, inclusive, north of the north line of Town 16 projected across Bay county to Saginaw bay and from December 1 to December 15, inclusive, south of the north line of Town 16, including the lower portion of Bay county and all of the Thumb district.

Opossum may be taken by means of traps during an open season from November 1 to December 15, inclusive. Mink may be hunted at any time, but may be trapped only during the open season on muskrats. The season on otter, fisher and martin remains closed this year.

A 26-day open trapping season on beaver has been established by the state conservation commission, 11 days more than the open season of last year. Trapping for beaver will be permitted in all of the 15 counties of the upper peninsula and all of the counties in the lower peninsula north of the north line of Townline 20, except Manistee, Benzie and Wexford counties. Townline 20 is the northlines of Mason, Lake, Osceola, Clare, Gladwin and Arenac counties.

The open season on beaver in the upper and lower peninsulas begins November 25 and continues to and including December 20. No changes were made by the commission in the general trapping regulations.

DEPARTMENT OF CONSERVATION PRESS SERVICE

State and privately-owned forest lands will benefit from the operations of 27 CCC camps during the period from October 1 to April 1, according to George A. Young, in charge of Michigan Emergency Conservation work. This is a net addition of three new camps over the period ending September 30. While the MECW loses one camp by transfer to the National Forest Service, it gains four new units by transfer from state park and National Forest supervision.

Nearly 300 predatory animals were taken by state trappers under H. P. Williams of the Federal Bureau of Biological survey during September, according to reports received by the Department of Conservation. The catch, which was the largest in more than a year, included the following: Coyotes, 220; fox, 37; bobcat, 28; wolves, 2. Total, 287. This figure does not include any predators taken by state conservation officers.

To clarify misunderstanding among Michigan duck hunters concerning the federal regulation on duck bag limits, the Department of Conservation issues the following explanation: The federal and state bag limit on ducks is 12 in one day, but canvasbacks, redheads, greater scaups, lesser scaups, ringnecks, blue-winged teal, green-winged teal, cinnamon teal, shovelers and gadwalls included in the 12 may not total more than five. These five may all be of one species or they may represent different species of the restricted class—but in no case may the total number of ducks belonging to these 11 species exceed five. The number of ducks representing other species that may be hunted is limited only by the provision that the total bag limit of all ducks taken may not exceed 12. Thus, the hunter may take a dozen mallards or he may take a dozen pintails, or six mallards and six pintails or eight mallards and four pintails or any combination of these birds that does not total more than 12. But if he takes the maximum of 12 and includes in his dozen the species on which the limit is further restricted he will have bags like the following: Seven mallards plus five canvasbacks, or four mallards and three pintails plus one black duck, one canvasback, one redhead, one scaup and one ringneck; or five pintails and two mallards plus two canvasbacks, two redheads and one ringneck.

Widespread misunderstanding prevails among Michigan hunters as to the species of migratory gamebirds that may be hunted without purchase of a Federal migratory bird stamp, according to the Department of Conservation. Many are reported to be of the belief that a migratory bird stamp is necessary for coots, woodcock, rails and gallinules. This is not correct, according to the department. The Bureau of Biological Survey, Washington, D. C., has made it clear that a migratory bird stamp is needed only to hunt ducks, geese and brant in Michigan.

ASK ONE-THIRD LOCAL SUPPORT WELFARE NEEDS

All county relief administrators and members of county relief commissions are warned, in a letter sent out this week by William Haber, State Relief Administrator, that the Federal grant will not be sufficient to meet relief needs the coming winter. He points out that local governments will be expected to assume the burden of at least one-third of the cost of relief in each county. County administrators were urged to secure the co-operation of county boards of supervisors to this end.

Only 20% of Michigan Farmers Returned Secret Ballots

R. J. Baldwin, AAA director for Michigan, revealed that slightly more than 5,000 of the 25,000 contract signers in the state voted on the two question which were submitted to Michigan corn-hog farmers as part of a nation-wide survey.

Baldwin in revealing the count stood about 60 to 40 in favor of retention of federal benefits.

We Present Charlevoix County Democratic Ticket General Election, November 6, 1934

Mr. Ellis is 42 years of age. He has been a resident of Charlevoix County for the past 25 years. Freight Agent at East Jordan for 5 years, manager of Retail Grocery store 8 years, bookkeeper and assistant cashier of East Jordan bank 3 years. Mr. Ellis is well qualified for the office of Register of Deeds.

DANIEL SWANSON

County Road Commissioner.

Mr. Swanson was born in Canada. He is 54 year of age. For the past 20 years he has been a resident of Charlevoix County. He is one of its most successful farmers. His past experience in railroad construction well qualifies him for the office he is seeking.

DR. J. J. MACGREGOR AND DR G. W. KING

Coroners.

Both physicians in Charlevoix County for a number of years. Dr. MacGregor lives in Boyne City, Dr. King in Charlevoix. Both attest to their clean and excellent records.

R. F. SLOAN

County Surveyor.

Mr. Sloan is the only registered engineer in Charlevoix County and is a long time resident of Charlevoix.

In asking the honest voters' support of our entire Democratic ticket, I wish to call your attention to the high moral and business standards of our County Candidates. We believe we have shown that the heretofore lowly Democratic party is capable of choosing the best men available in the county to offer as our candidates, and we stand back of each and every candidate in asking support for the entire ticket.

EDUCATION WEEK NOVEMBER 5 TO 11

GOVERNOR COMSTOCK ISSUES PROCLAMATION

Appropriate Observances Planned in Schools Throughout Michigan Again This Year

Education Week will be observed in Charlevoix as well as throughout the state during the week of November 5th to 11th.

The importance of public education as a vital factor in fostering a democratic form of government is recognized in the American Education Week Proclamation issued by Governor William A. Comstock, October 23rd:

"From the earliest days of our history the people of Michigan have been interested in education. The splendid service of our schools and colleges has added much to the welfare of our people and has served in great measure to keep alive in their hearts the spirit of democracy. In recent days the threatening danger to our schools has caused deep concern among our people and has focused the attention of all upon the problems confronting our schools, upon their present needs and upon possible means of financing them.

"An Educational Planning Commission has been called, consisting of prominent laymen of our state, to consider the goals of education, the possibilities of reorganization of our schools, of improvement of their curricula and of possible means of financing them properly. The work of this commission is serving further to focus the attention of our best people at the present time upon our schools in the hope that they may be improved, strengthened, and properly maintained.

"It is therefore fitting that I do hereby proclaim the period of 'November 5th to 11th as American Education Week, to be observed throughout the state with the thought of inspiring our children towards higher ideals of citizenship and of directing the attention of our people to the necessity of developing and financially sustaining our educational system."

FEWER MOTORISTS USING STICKERS

A total of 16,157 fewer motorists took advantage of the two-payment plan of purchasing license plates this year than in 1933.

Records of the Department of State show that in 1933 a total of 415,000 windshield stickers were issued and that only 80 per cent of these motorists were able to secure license plates for the second half of the year. This year, after the weight tax had been reduced, 399,000 motorists took advantage of the two-payment plan and secured stickers of which 90 per cent paid the second hulf of the tax and secured 1931 plates.

Card of Thanks

We desire to express our most sincere appreciation to neighbors, friends and all who so kindly came to our assistance in our recent bereavement. Mrs. Albert V. Edwards, Mrs. Roy Meyers, Joe Williams.—Adv. 44tl.
